BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Aug. 25.]

Wheat—The past week has been a most exciting one in the Wheat trade and all speculative centers throughout Europe and America were violently shaken up, but probably Chicago and New York were affected the most and show the widest fluctuations. At the close of our last weekly report both of these places were very much above what was apparently nothing new in the situation to bring about any sudden upheaval, but on Friday the market suddenly shot upwards, gaining from 8½c to 10c during the day. Saturday the excitement continued. The "short" interest which was very heavy became thoroughly frightened and began to bid wildly for wheat. The great boom in Eastern markets was reflected to a certain degree in our own interior markets, and sharp advances were telegraphed all over the city. Speculation became unusually active in wheat. Wheat must be obtained at almost any cost, and sharp competition between buyers carried prices away above the real shipping value. A large amount of Wheat was secured for Eastern shipment. Over 1,000,000 bu were reported engaged at the ruling price, from 78c to 81c for club. A great many farmers took advantage of the boom to part with their holdings and have done exceedingly well. As to the influences which caused the late bulge, is the "rush" appearing in the Spring Wheat belt and predictions of a very short crop to the United States, not enough raised for home use. Exporters as well as millers are all heavy buyers, the latter paying only from 4c to 2c premium above exporters' figures. The demand for Wheat is coming from all quarters—Europe, Eastern States, and California—all realizing that we have an exceptionally large crop with exceptionally quality Europe is out of it at present, her figures for cargoes here are too low. Better prices can be secured in this country. Either the shipowners' association will have to give way on the question of maintaining freight rates or the foreign buyers must increase their bids; otherwise very little of our Wheat will be shipped away. As at the close our market is steady. Club Wheat is quoted 78c, Bluestem 83c, Valley 82c per bu.

Flour—Uncertainty and inability to base prices has caused millers a great deal of trouble in quoting the past week. Wheat markets have advanced so rapidly that millers have been very cautious in accepting orders, as many have had the Wheat on hand. The market for Flour has been very good, and the demand from all quarters excellent. A great many orders had to be turned down, owing to former prices being quoted. Foreign demand for the United Kingdom shows a great improvement, but prices are out of line to what can be had from Orient. Japan is in the market for Flour at increased prices, as we predicted. All the increased prices will be borne by buyers in the Orient, with the duty added. If our millers could ship into Vladivostok 20,000 bbls they could be sent to that point. At the present time we hear little complaint from millers as to dullness. All the leading export mills are running full time and filling orders as rapidly as their output will permit them. Both Central and South American countries are in the field for Flour. California buyers are sending in orders as fast as over the Northwest. Locally, jobbers are replenishing their stock of Flour, preferring old Wheat to new crop. On the whole, the market is in a very satisfactory condition, with prices advanced quite materially. Export Straights are quoted from $3 35 to $3 50; local Straights, $3 50 to $3 75, and Patents from $3 90 to $4 50 per barrel

Fire, Sunday, at Hartsville, Tenn., caused a loss of $60,000; insurance small.

BOSTON WOOL MARKET.

BOSTON, Aug. 30.—The *Commercial Bulletin* says: "The week in Wool has been a big one in points of sales and a very busy one in receiving, sorting and delivering supplies. Some of the big mills have been buyers of large blocks of territory, especially Montanas, largely in the original sacks. The price is said to be 2c on most of the business, but a range of 2@2c to 23c is given.

"The shipments of Wool from Boston from Dec 31 to Aug 27 were 103,892 lbs, against 180,065,703 lbs last year The receipts are 242,721,945 lbs, against 201,430,125 lbs last year."

THE WEATHER CONDITIONS.

Cloudy and cool in all directions. Light rains in Manitoba and North Dakota and Northern Minnesota. Showery in Ohio Valley. Too cool for best Corn weather.

ITEMS OF GENERAL INTEREST.

The output of the St. Louis Flour mills for the past week was 92,950 brls, against 78,405 brls for the previous week.

Reports are current that the Pacific Steel Company, to be located on the Pacific Coast, is being financed in Chicago.

The packing at Milwaukee since March 1 is estimated at 400,760 Hogs, against 478,081 for the corresponding time last year.

The Illinois Steel Company plant at Joliet, Ill., is now running full force, and so is the American Steel and Wire Company's mill.

Rate Agent Caldwell reports for the year ending June 30, 1904, were $12,619,355; decrease, $3,283,255. Surplus, $1,056,036; decrease, $4,852,544.

The sawmill of White & Wheeless, on Alden's Bridge, near Shreveport, La., was destroyed by fire, Friday. Loss, $10,000; fully insured.

The Furniture factory in Waterloo, Ont., controlled by the Canada Furniture syndicate, was burned, Friday. Loss, $125,000; fully insured.

Pullman shops will be closed down Sept. 1 and remain idle until after the election because of a lack of new orders to keep the men employed.

The Joliet, Ill., plant of the Great Western Cereal Company, late Hecker-Jones, was operated Monday, with a full force and many orders ahead.

A fall of snow, the first of the season, occurred at Virginia, Minn., Monday. Heavy frosts are reported from other parts of the Nesabia Range points.

A contract for structural material aggregating 8,000,000 lbs is said to have been placed in the East at $3 per 100 lbs, as compared with the pool price of $1 60.

The last sale of a New York Stock Exchange seat was made at $68,000. The previous last sale was $69,000. Several weeks ago a seat sold as high as $71,000.

The American Smelting and Refining Company has advanced and price of Lead from 4.10c to 4.20c. The domestic and foreign demand for Lead continues very strong.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to Aug. 13 have amounted to 32,000 bu, against 120,000 bu in the previous year, and 32,000 bu in 1902.

A new 24-in. screen has been reached whereby all the important producers of structural Steel shapes agree to act in harmony. The new agreement becomes operative Sept. 1.

A receiver has been appointed for the International Mercantile Agency of New York. The liabilities are alleged to exceed $216,000, while the assets are not more than $100,000.

The president of the Cincinnati, Hamilton and Dayton Railway Company, announces that H. B. Hollins & Co., its fiscal agents, will purchase all of the outstanding 4 per cent preferred stock for the subsequent cancellation. The price to be paid is yet to be determined.

An official bulletin for Italy covering the first ten day of August says that the drouth continues, and the condition of the Corn and Rice crops in Piedmont, Lombardy, Latium and other drouthy parts is precarious; however, a good Corn crop is expected in Marche, Umbria and southern provinces.

The American Ship Building Company has now closed contracts for the construction of two lake steamers aggregating 24,000,000 in cost. Officials of the company say there are other contracts for large contracts pending for ships to be delivered at the opening of navigation next year, which will be placed as soon as terms can be agreed.

Interests identified with the Pressed Steel Car Company are affiliated with a new company being formed to build car works at Montreal, Canada. It is reported that the new company, which will probably be called the Canada Car Company, has made a contract with the Grand Trunk Railway Company that will keep the plant in operation for a long time.

A New York firm has issued a special letter on Republic Iron and Steel, in which they say that the greatest speculative value of the stocks is found in the preferred issue, controlled by the company by the United States Steel Corporation. It is shown that on June 30, 1903, current assets exceeded liabilities by $8,303,000, or more than equal to about $17 50 a share for the preferred.

Prices of Cattle taken at Springfield, Ohio, Wednesday, by which the following traction lines were united: Columbus, London and Springfield; Dalton, Springfield and Urbana; Urbana, Bellefontaine and Northern and Springfield and Eastern. In the execution of the plan stockholders authorized a consolidated mortgage to secure the issue of $3,000,000 forty-year Gold bonds amount to $750,000. The new company will be known as the Union Traction Company. All lines involved have been known as Appleyard properties.

The report issued by the American Agricultural Chemical Company for the year ending June 30, 1904, shows share earnings of 6 per cent on the preferred and 2¼ per cent on the common stocks. The report for the previous year had also shown 6 per cent for the common. The balance available for dividends was equal to 8 4 per cent on the $17,840,100 preferred now outstanding, compared with 7.0 per cent in 1903. The preferred stock is entitled to 6 per cent cumulative dividends, which have been regularly paid since the company's organization in 1893.

Sydney, N. S. W., advices of July 11 state that during the past week practically the whole of this State has been covered by the first really general rainfall experienced over the whole of it. At the close heavy inland as could have been desired; still, it will do an immense amount of good and practically assures spring feed for stock. The local Wheat market has advanced very sharply, in sympathy with improved values in the northern hemisphere Farmers are, however, still asking prices in advance of relative c. i. f. values. Another rainfall, such as has just been experienced, would probably induce them to meet the market.

It is reported that the Pennsylvania interests have agreed to advance the dividend rates on both Baltimore and Ohio and Norfolk and Western to a 4 per cent basis. While such action would be fully warranted by earnings, it is pointed out that the Pennsylvania, in view of the large holdings in both companies, would find it also advantageous to its own interest. It is also stated that plans have also been practically completed for the linking of the New York, Philadelphia and Norfolk Railroad and the Philadelphia, Baltimore and Washington system, thus consolidating all the Pennsylvania lines running into Philadelphia.

Dornbusch's Buda Pesth correspondent, writing under date of Aug. 13, says: "The tone on the Flour market this week was quiet though firm, the very general prohibition of the export of breadstuffs having apparently left our market totally unaffected. Sales this week exceeded by only very little the weekly production, which is easily accounted for by the fact that the operations had brought about the recent sudden and violent rise are now unloading. The outlook, however, is very satisfactory. The prohibition of the export of Grain and milling offals will prevent the surplus out of previous contracts, which were chiefly on German account, but it is considered that the home demand will be sufficient to use the full capacities of our market and keep prices up."

The New York *Journal of Commerce* says: "There is much interest in the Steel trade in regard to the recent order for South-Side Elevated Railway's extension at Chicago which was awarded to the American Bridge Company. The contract which has been placed is for 22,000 tons for the Stock Yards extension. It is not definitely known whether the other contract will be built this fall or not, but if the entire contract is placed the aggregate tonnage will be between 30,000 and 35,000 tons. It is not generally known what parties procured the business, but there are reports that the fabricated Steel was sold considerably under the pool price for structural material. The Lackawanna Company has done the work in connection with Penn Bridge Company."

The *Corn Trade News* of Aug. 18 says of the French crop: "Fine weather with more moderate temperature has prevailed, and the Maize crop now is still wanted for fodder crops. Provincial markets are very firm for Wheat, growers offering but little and millers showing less reserve in their purchases. Even in the North the Wheat harvest is now well advanced, and the reports received from that quarter also indicate a shorter yield than was expected one time, but the deficit appears to be less striking than in the Central and South. Optimistic people now seem inclined to look for a total crop about equal to the average, or a little below, say 320,000,000 bu, but others profess to believe that it is much less. A good number of samples were shown at yesterday's Paris weekly market, but many were old crop Wheats."

The London *Times* Berlin correspondent, writing under date of Aug. 15, says: "The decree forbidding the exportation of all classes of fodder except Barley, from Austria-Hungary scarcely comes as a surprise to the public or to agriculturists. The severe drouth which has prevailed throughout the Monarchy for the last two months has sorely diminished the supply of fodder available, and the prohibition of Corn exports issued by the Roumanian and Servian Governments have closed some of the sources from which the deficiency might in part have been made good. It is too early to speak of the probable effect of the Austro-Hungarian prohibition upon the export trade of the Monarchy, but as regards the internal situation there seems yet to be a steady rise in the prices of most agricultural products. Even now rain would somewhat mitigate agricultural distress, but, in spite of partial downfalls, the condition of two-thirds of the Monarchy is still that of a parched and sun scorched expanse."

Mark Lane Express of Aug. 15 says: "Harvest proceeds merrily, and the showers that have been sufficient to refresh the pastures have not been heavy enough to injure the Grain. The fall in the night temperature since the 15th has been marked, and has delayed the ripening of Grain in the northern counties. This, however, is a very forward stage, as with the sunny days varied by some helpful showers, the Grain should be plumped out and increased in bulk. The Wheat is now being cut as far north as Lincolnshire and Nottinghamshire. In Scotland Oats are fairly forward, and there are few English counties in which they are not being harvested or will be unlloved by the showers. Some fields in Middlesex and Surrey are now ripe, and harvest will begin in the chief malting districts on the 22d, when it will take precedence of all other work. Harvesting is early in connection with fine Barley. If we have a favorable three weeks from the 23d, good malting Barley worth 36s to 40s will be much more in evidence this autumn than it has been for a very long time. All the roots are coming on well, and the Peas are, as a rule, cut. The Hop gardens are looking well, a short yield, but the late Potatoes are spoken of far more hopefully than they were a few weeks ago."

ITEMS OF GENERAL INTEREST.

New York Exchange 25c discount.

Documentary Sterling steady at 483¾.

Chicago Bank Clearings to-day, $25,882,165.

The word "new" will be dropped in the inspection of Rye of the crop of 1904 after to-day.

Ten packers purchased 19,700 Hogs to-day; shippers 6,500; left over, 5,000. Market closed weak.

Average cost price of Hogs at Chicago, Tuesday, was $5 47, against $5 31 a week ago and $5 39 a year ago.

Reported that 24,000 bu Wheat 80,000 bu Corn and 40,000 Oats were taken at the seaboard to-day for export.

Estimated receipts for to-morrow: Wheat, 96 cars; Corn 150 cars, Oats, 203 cars; Rye, 15 cars, Barley, 56 cars; Hogs, 16,000.

The Union Grain elevator was made regular by the Chicago Board of Trade Directors, Tuesday. There is no Grain in the house at present. Its capacity is 2,000,000 bu.

The aggregate receipts of Wheat at the leading nine primary markets during August were 25,295,000 bu, and the shipments were 12,532,000 bu—showing an increase in supplies and consumption of 12,763,000 bu.

A private crop report makes the condition of Cotton 75.12, against 84 57 a month ago and 74 79 last year. Condition in Texas is 65, against 80 last month and 60 last year. The crop is estimated at 11,500,000 bales, with average conditions from now until the average frost date.

Stocks in New York were strong, with fair trading. Strength in the Coalers helped the general market and a higher range was established on Coal shares and Industrials. Steel preferred gaining 1⅛. Grangers gained ¼@½ early, but reacted and closed ¼@½ lower. Money, ¾@1 per cent.

Cotton in New York was excited and prices covered a wide range. Liverpool was weaker, but crop reports came very "bullish" and an unfavorable Government report is expected. "Shorts" were heavy buyers and "longs" were good sellers for profits. Closing sales were 26@35 points lower.

The Winnipeg *Commercial* of Aug 27 says: "Stocks of Wheat in store at Fort William, Port Arthur, Keewatin, Winnipeg and interior country points are approximately 1,695,000 bu, against 2,242,000 bu a week ago, 903,000 bu a year ago, 860,000 bu two years ago, 1,212,000 bu three years ago, 2 380,000 bu four years ago, and 2,600,000 bu five years ago."

A Chicago crop expert has made up his final crop report. He estimates the Wheat crop at 516 000,000 bu, including 308 000,000 bu Winter, 144,000,000 bu Spring Wheat in the three Northwestern States, and 64,000,000 bu Spring in the other States. Manitoba is given 48,000,000 bu, and Ontario and the other British provinces 12,000,000 bu, making 60,000,000 bu for Canada, and 576,000,000 bu for the United States and Canada.

In Local Securities the feature was the active demand and advance in Tractions. North and West Chicago Railway advanced 5. Union Traction common advanced 1 point and preferred 6 points. The buying is on rumors of a deal between Union Traction and City Railway. The latter shares were off 3½, however. Industrials were moderately traded in and prices moved irregularly, some advancing and others declining. Carbon preferred advanced 3 points.

The following table exhibits the inspection of Grain at Chicago during August in the past six years:

After more than a year of labor the State Tax Commission of Wisconsin has arrived at a preliminary estimate of the value of all railroad property in that State. It includes the physical property as well as the franchises of the companies. On the average value of stocks and bonds for five years the commission estimated the valuation of railroad property in 1902 at $217,854,026. By capitalizing the income from operation from 1892 to 1902 the valuation was found to be $220,341,350. Having devoted a year to the most painstaking investigation, during which they appraised all of the physical property of the roads, they now assess the holdings of the companies at $221,431 400. The point to be determined now is the rate of taxation to be assessed against this valuation. If the amount determined by the commission is the full value of the railroad property, the rate assessed against that property must be the rate which the taxes paid on general property bear to the full value of such property. The average rate of taxation of the general property of the State last year was .0117736.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate and market steady. Milwaukee and Minneapolis reported conditions improving.

WINTER WHEAT—Was in good demand and offerings steady. Trading mostly of a speculative character. Millers buying a little. No 2 Red in store ranged at $1 07⅛@1 08⅝, and fresh arrivals free on board sold at $1 11, and billed through at $1 10. No. 3 Red fresh receipts free on board sold at $1 09@1 09½, and No. 4 Red at $1 01@1 07. No 2 Hard fresh receipts free on board sold at $1 05½@1 09. No. 3 Hard fresh arrivals free on board sold at $1 01@1 05½, and billed through at 93@98c. No. 4 Hard sold free on board at $1 02 and at the river at 93c.

SPRING WHEAT—A few cars were being received and choice Wheat met with ready sale, but poor Wheat was dull and hard to sell. Market steady for good Wheat. No 1 Northern nominally $1 16 and No. 2 Northern nominally $1 10@1 14. No. 3 Spring ranged at $1 02@1 10, with a sale at the river at $1 08½. No. 4 Spring sold free on board at 73c for poor, at 90@93c for fair and at $1 01 for good, and at the river at 83½c.

REGULAR WHEAT—The trade was more moderate, in fact the volume was much smaller than the recent average. Feeling at the same time was somewhat unsettled, with final figures showing new September 1⅛c higher while December gained ⅜@½c and May ⅜c. There was some pressure on the nearby deliveries early in the session, but with these offerings absorbed the situation turned stronger. Reports from Manitoba and the Northwest on existing weather conditions were "bullish," and the market responded to the buying and reinstating of "long" lines liquidated yesterday by local "bull" leaders. At the improvement established in prices there was moderate selling by the concentrated "long" interest, checking the upward tendency. Cables were lower. Liverpool quoted spot unchanged to ½d lower, while futures were ¼@⅜d lower. London came 1@1½d lower. Paris was steady to ¼c lower. Antwerp lost ⅝c while Berlin and Buda Pesth both declined ⅜c. The map showed general rains in Manitoba and South Dakota and unsettled, showery conditions were predicted for Minnesota and South Dakota and showers to-night and Thursday for North Dakota. Hillsboro, N. D. wired "We had 2½ inches of rain here last night. Must have lodged quite a lot of Grain." Winnipeg wired "Weather unsettled and cool, reported raining all over Manitoba." The largest milling concern in Canada, located at Montreal, received the following from its chief inspector: "All crops in Minnedosa, Clan William, Bethany and Franklin districts of Manitoba very heavy and late Wheat looks like 25 bu to acre, but no cutting for a week in this particular district—not enough rust to figure; never saw heavier crops of all kinds, weather clearing and cool, forecast a little warmer and danger from frost over for present." Our views now are that the yield this year will exceed that of last year. Another Minneapolis message reported heavy rains last night and still raining in Red River Valley. Milwaukee and Minneapolis both reported milling conditions not roving, and St Louis wired large quantities of Wheat had been sold to be shipped out and that the same would leave as soon as delivered on September contracts. Primary receipts were 336,000 bu larger than a year ago. Kansas City and St. Louis received 367 000 bu, against 297 000 bu in 1903. Local receipts for August were 2 275 cars, compared with 3,234 cars last year and 8,350 cars in 1902. Exports were again limited and but 3 boat loads accepted at the seaboard. Northwest cars were forty-one larger than a year ago. Minneapolis stocks were reported as decreasing 130 000 bu so far this week. Receipts at Duluth 22 cars and at Minneapolis 216 cars, a total of 238 cars, against 225 cars yesterday, 161 cars a week ago, and 191 cars last year. Local receipts included 41 cars Winter, 8 cars Spring and 4 cars mixed, a total of 56 cars, against 37 cars last year. Included in the above were 3 cars of contract grade. There were 87 cars and 16 000 bu from unlicensed elevators. The estimated receipts for to-morrow are 96 cars. Withdrawals to-day were 8 250 bu. Receipts at Western points were 1,080 443 bu, against 744,285 last year. At Eastern points 49,511 bu, against 268,701 bu last year. Shipments from Western points were 363,958 bu, against 393,635 last year, and from Eastern points 9 615 bu, against 28 515 last year. Shipments of Flour were 2,743 brls. Exports of Wheat in Flour were equal to 22 958 bu.

Future Deliveries of Regular Wheat—Fair trade and closing higher.

SEPTEMBER—Old Style Sold at $1 07⅛@1 08⅝. Opened with sales at $1 07⅛; sold to $1 08⅜, to $1 08¼, to $1 08½, to $1 07½, to $1 08¼, to $1 08⅝, and closed at $1 08⅝.

SEPTEMBER—New Style—Sold at $1 05¼@1 07. Opened with sales at $1 06 to $1 05½; sold to $1 05¼, to $1 07, to $1 05¾, to $1 06⅝, to $1 05⅝, to $1 06⅞, and closed at $1 06⅞.

DECEMBER Sold at $1 07¼@1 09. Opened with sales at $1 08⅛ to $1 07¾; sold to $1 07⅞, to $1 08, to $1 07¼, to $1 07¾, to $1 07½, to $1 08, to $1 07¼, to $1 08¼, to $1 08⅝, to $1 09, to $1 08¼, to $1 08½, to $1 07⅝, to $1 08¼, to $1 07½, to $1 08⅜ and closed at $1 08¼@1 08⅜.

MAY—Sold at $1 09½@1 11⅛. Opened with sales at $1 10⅛ to $1 10⅜; sold to $1 10½, to $1 09¾, to $1 09⅞, to $1 09½, to $1 10⅛, to $1 09⅞, to $1 10⅞, to $1 10¾, to $1 11⅛, to $1 09⅞, to $1 10¾, to $1 09¾, to $1 10⅝, and closed at $1 10½@1 10⅝.

CORN—A very fair trade, the market displaying a better undertone, closing prices showing gains of ⅜@½c to ⅝@¾c. There was a fair commission house demand at the start while the offerings were scanty. "Shorts" generally displayed more anxiety, many covering and situation became quite firm. The weather was not of the best, too much moisture with temperatures cool, and private advices reported much of the crop in no condition to stand frost for several weeks. The Iowa crop bulletin however reported Corn generally doing well. The Southwest was a buyer here and the markets there were higher. Country offerings were moderate and receipts 337 cars making 7 023 cars for August, compared with 5,746 cars in 1903, and 1,163 cars in 1902. Estimates for to-morrow 140 cars. Liverpool quoted spot steady and futures ¼d lower. Primary receipts 1,070,000 bu. were 445,000 bu larger than a year ago and shipments, 342 000 bu, were 60,000 bu smaller. Local arrivals were 885,000 bu and shipments 178,000 bu. Withdrawals from store here 218 000 bu and exports at the seaboard 152,000 bu. Shipping demand moderate and sales limited. New York at the close claimed 10 boat loads accepted. The signal service predicted showery conditions over most of the Corn belt. Car lots were in fair supply and rather good demand. Feeling firm and prices about ½c higher. No. 2 closed about 53½c. No. 2 Yellow closed at 55c. No. 3 sold at 53¾c; closed at 53¼c. No 3 Yellow closed at 54¾c. No. 4 sold at 52½@53¼c, outside for yellow. Charters were made for 300,000 bu.

Corn by sample—Offerings were fair and demand rather good. Feeling was firm and prices were unchanged to ½c higher. Sales on track and free on board: No Grade sold at 52c. No. 4 at 53@55¼c. No 3 at 54½@55c. No 3 Yellow at 55¼c. No. 2 Yellow at 55½c. No. 3 White at 53½@54c. No. 2 White at 53¾@54c. Billed through. No. 4 at 52@54¼c. No 3 at 52½@54c. No 3 Yellow at 53½@54¼c. No 2 at 52¾c. No 2 Yellow at 54¼@54½c. No. 3 White at 52½@52¾c. No. 2 White at 52½@53c.

Future Deliveries of No. 2 Corn—Fairly active and stronger and closed ⅜@½c to ⅝@¾c higher.

AUGUST—Inactive. Sold at 52⅞c, and nominal close 53⅛c.

SEPTEMBER—Sold at 52¾c and 53⅛@53¼c. Opened at 52¾c to 53c and sold at 52¾c, to 53c, to 52¾c, to 53⅛c, to 52⅞c, to 53⅛@53¼, to 53⅛c, and closed at 53⅛c bid.

OCTOBER—Sold at 53¼c and 53⅜c.

DECEMBER—Sold at 51½@52c. Opened at 51⅝c to 51¾c, sold to 51½c, to 51¾c, to 51⅝c, to 52c, to 51¾c, to 51⅞c, to 51½@51⅝c, to 51¾c, and closed at 51¾c.

MAY—Sold at 49⅜@50c. Opened at 49⅜c to 49⅝c, sold to 49⅜c, to 49¾@49⅞c, to 49⅝c to 50c, to 49¾c, to 50c, to 49¾c, to 49⅞c, to 49⅝c, to 49⅞c, to 49⅝c, to 49⅞c, to 49¾@49⅞c, and closed at 49¾@49⅞c bid.

OATS—Were fairly traded in. Prices receded ⅛@¼c early, but advanced ½c and closed with net gains of ⅛@⅜c. There was moderate selling by cash interests and fair commission house buying. Prices are getting nearly to an export basis from here and New York reported 40,000 bu sold for late September shipment. Arrivals 200 cars, with 203 cars estimated to-morrow. Seaboard clearances were 23,000 bu. Withdrawals from private elevators 107 300 bu. Car lots to go to store were steady to ½c higher. No. 4 White sold at 31¼@32c. No. 3 White at 32@33c. Standard at 33@33¼c, and in store closed at 31¾c.

Oats by sample were in fair request. Prices opened ¼@½c higher, but closed steady to ½c higher. Supplies were fair. Sales on track and free on board: No. 4 White sold at 31¼@32¾c. No. 3 at 31¼@32c. No. 3 White at 32¼@33¼c. Standard at 32¾@33½c. No. 2 at 31½@32½c. No. 2 White at 31@31½c. Billed through: No. 3 White at 32¼@32¾c. Standard at 32⅝@33c. No. 2 White at 33c. At the river: No Grade at 30½c. No. 4 White at 30@30½c. No. 3 White at 30½@32c. Standard at 31½@32c.

Future Deliveries of Contract Oats—Were lower early, but reacted and closed higher.

AUGUST—Neglected. Closed about 31¾c.

SEPTEMBER—Sold at 31⅜@31⅞c. Opened at 31½c, sold at 31⅜c, to 31⅞c, to 31¾c at close.

DECEMBER Fair trading. Sold at 32¾@33⅜c and at 33¼@33⅜c. Opened at 32⅞c to 33c, sold to 32¾@32⅞c, to 33¼@33⅜c, to 33¼c at close.

MAY Good trading. Sold at 35¼@35¾c. Opened with sales at 35⅜c to 35½@35⅝c. Sold to 35¼c, to 35¾c, to 35⅝@35¾c at close.

RYE—Ruled firm for cash and ½c higher and easy for futures. Trading moderate. There were six cars received. There were no withdrawals from store here and no export clearances from the seaboard. No 2 in store nominally 71½c and fresh arrivals free on board sold at 73½@74c and at the river at 71½c. No. 3 fresh arrivals sold at 72c.

Future Deliveries of No. 2 Rye—Moderate trading and easy. September sold at 71½c and closed at 71½c asked. December sold at 72½c and closed at 72½c asked.

BARLEY—Good to choice malting was about steady. A moderate demand existed and the offerings of such goods also were moderate. Grades below this, common to fair, were easy. Some demand existed and perhaps prices were not materially changed, at the same time prices bid were often below what shippers expect to realize. Shippers often base their views of values on quotations furnished on samples some time ago and since then values have declined. All low grade Barley rather dull. Old Screenings not salable for so good figures as of late. To-day 31 cars were posted inspected in. Some cars of dark Barley were again carried over, buyers do not seem to be ready as yet to take this kind. Screenings, old, very good quality sold at 37c. Some very poor new Barley, some of it unsound, sold at 38@39c. Stained or dirty Barley, low grade malting, ranged at 40@41c. Fair to good, depending on color, quotable at 45@49c, but 48c was about the top paid. Small sales of choice to fancy were made at 50@53c.

SEEDS—There appeared a steady market for all lines. Timothy if anything gained a little stronger tone. For none of the several lines were there any price changes.

Timothy—From to-day's developments the market was quotable as about steady. There was not so much cash Seed on sale as on the past two days. Dealers would buy, but there was nothing urgent or competitive in the demand. A fair degree of interest was shown and yet futures were quiet. They, too, were without essential change. Contract spot was nominally $2 80. September in regular way sold at $2 85, was offered at that and $2 90 finally bid. It sold in exchange for October at an even price. October closed nominally $2 80. January was on sale at $3 15 and $3 10 bid. Country lots quotable as follows: Fair to good quality at $2 60@2 70, high grade to choice at $2 72½@2 75. Fancy bright unhulled nominally higher, $2 85@2 90, not offered. Common dark, dirty, about $2 20@2 40, very poor lower.

Flax—Was nominally the same as quoted yesterday. The market was without offerings; it was lifeless and nominal. Only 1 car or 900 bu came in. 4 cars or 4 261 bu and 50,000 by lake were withdrawn, a total of 54,261 bu. At Minneapolis receipts were 11 cars and at Duluth 8 cars. No. 1 Northwestern or No. 1 from the Northwest quotable at $1 25, and No. 1 at $1 18 bid. Rejected quotable at $1 15@1 18, depending on quality. September $1 18 bid. December offered at $1 20½.

Clover—Was quoted as steady and unchanged. New Clover is moving slowly. There was no trading. October delivery quotable at $12 50. Contract spot Seed was quotably about $12 50. Country lots, common to choice, $9 00@12 00; fancy above. Fair to good $10 50@11 50.

HOG PRODUCTS—A fairly good speculative trade was reported in Hog Products and the feeling was unsettled and weak during the greater portion of the session. Increased labor troubles at the Yards, coupled with liberal receipts of Hogs and a material decline in prices, encouraged considerable liquidation, especially in the near deliveries, and prices ruled lower on all the leading articles. Outside orders were larger, and chiefly on the selling side, and local trading was fairly active. Market closed rather steady at nearly inside figures. Receipts of Hogs at the leading Western packing points estimated at 70,400, compared with 60,000 one year ago. Foreign markets were stronger, and prices were advanced 6d on Cumberland Sides and Lard. Domestic markets rather steady. Receipts of Products were good of Lard and Meats about 26 cars. Shipments were larger than for some time past—of Lard and Meats about 193 cars. Shipping demand was fairly active, and offerings were moderate. Sales were fair and prices well supported.

Mess Pork—Trade was fair in the market for Mess Pork, and the feeling was easier. Offerings were rather free, and the demand was only fair. "Longs" inclined to close out their holdings. Prices on the whole range declined 37½@42½c, but rallied 5@10c toward the close, and the market closed steady at nearly inside figures. Shipping demand was limited and offerings were small. Cash lots quotable at $11 00@11 12½.

SEPTEMBER—Offerings were free and the demand was only fair. Sales were made at $10 90@11 22½. Opened at $11 20, sold to $11 17½, to $11 22½, to $10 87½, to $11 02½, to $10 90 to $11 00, to $10 97½, and closed steady.

OCTOBER—In moderate request and offerings were rather free. Sales were made at $11 07½@11 45. Opened at $11 45, sold to $11 30, to $11 35, to $11 22½, to $11 25, to $11 12½, to $11 15, to $11 07½, to $11 12½, to $11 07½, to $11 10@11 12½, to $11 10, to $11 12½@11 15, and closed steady.

JANUARY—Demand was moderate and offerings were fair. Sales were made at $12 37½@12 60. Opened at $12 47½, sold to $12 45, to $12 60, to $12 42½, to $12 45, to $12 37½, to $12 42½, to $12 40, to $12 42½, and closed steady.

Lard—A fairly good trade was reported in the Lard market, and the feeling was easier. Offerings were not very large, and the demand was only fair. Foreign advices more favorable to holders. Prices ruled 12½@15c lower on the whole range, and the market closed comparatively easy. Demand on shipping account was moderate with rather light offerings. Cash lots quotable at $6 85@6 87½. Loose lots in fair request with moderate offerings. Prices were steady at about 45c discount on October figures. Leaf Lard was in light demand with the offerings moderate. Quotably steady at about $6 87½. Neutral in fair demand with moderate offerings. Prices quotably steady at $8 25@8 37½ for No 1 and $7 75@7 87½ for No 2.

SEPTEMBER—Offerings were fair and the demand was moderate. Sales were made at $6 85@6 97½. Opened at $6 95, sold to $6 90, to $6 97½, to $6 90, to $6 92½, to $6 85, to $6 87½, to $6 85, and closed steady.

OCTOBER—In fair request and offerings were moderately free. Sales were made at $7 00@7 10. Opened at $7 07½ to $7 10, sold to $7 00, to $7 02½, to $7 00 and closed steady.

DECEMBER—Quiet with small sales early at $7 12½.

JANUARY—Called for moderately and offerings not very large. Sales were made at $7 02½@7 12½. Opened at $7 10, sold to $7 12½, to $7 02½, to $7 07½, and closed firm.

Short Rib Sides—Rather a good trade was reported in the market for Short Rib Sides, and the feeling was easier. Offerings were moderately free, and the demand was fair. Trading chiefly in the near deliveries. Prices ruled 15@20c lower on the whole range. "Longs" a little anxious to realize. Market closed around inside figures. Shipping demand was moderate and offerings were fair. Cash lots quotable at $7 12½@7 25 according to weight.

SEPTEMBER—Offerings were rather free and the demand was fair. Sales were made at $7 15@7 30. Opened at $7 27½, sold to $7 30, to $7 17½, to $7 20, to $7 15, to $7 17½, and closed steady.

OCTOBER—In moderate request and offerings were fair. Sales were made at $7 32½@7 40. Opened at $7 37½, sold to $7 40, to $7 32½, to $7 37½, and closed steady.

JANUARY—Called for moderately, and offerings were fair. Sales were made at $6 55@6 65. Opened at $6 60, sold to $6 62½@6 65, to $6 55, to $6 60, and closed firm.

Other Meats—Trade was only fair and mainly on domestic account. Exporters bought sparingly. Offerings not very large and inquiry was fair. Green Meats in limited supply with a light inquiry and prices ruled steady. Pickled Meats in fair request with only moderate offerings and prices were unchanged. Dry Salted Meats were in active demand, with liberal offerings, and prices ruled easier. Smoked Meats called for moderately and prices well supported. Closing prices were as follows.

GREEN—Hams av 10@12 lbs, 9⅝@9¾c, 12@14 lbs, 9½@9⅝c, 14@16 lbs, 9⅜@9½c; 18@20 lbs, 9½@9⅝c. Skinned Hams, 10½@10¾c; Shoulders, 7@7⅛c. Picnic Hams, 7⅛@7¼c. Bellies, 9½@11½c. ILLINOIS CROP REPORT.

SPRINGFIELD, Aug. 30.—The crop bulletin for the week ended Aug. 29 says:

Temperature averaged below normal throughout the week, the highest especially being very cool. Only scattered showers occurred, but the heavy rainfall of the previous week put the ground in excellent condition for plowing, and that work made rapid progress. Threshing was suspended during the first three days of the week, but resumed under favorable conditions the latter half, and is practically finished.

A general and decided improvement in the condition of Corn is noted; it is earing well, and in the southern district has passed the roasting ear stage. The rains were opportune, and while the cool weather had a retarding effect on the full development, the crop is in condition to mature rapidly if warmer weather and sunshine prevail. Considerable Corn was blown down in the western counties, and some damage is expected, as the roots are reported to be weak.

The threshing of Wheat and Oats is nearing completion. Oats are generally a light crop, but in poor in quality and yield. An increased acreage of Wheat will be sown in many localities of the central district.

Pastures have improved greatly in all sections and are in excellent condition. The second crop of Clover is ripening and promises a good yield. Some meadows in the southern district are being mowed for the second time. Stock is healthy.

Broom Corn and Cow Peas are promising, and the harvesting of Cow Peas has begun. Irish Potatoes are being dug and the crop is excellent. Sweet Potatoes are promising.

Grapes are ripening in the southern section. A heavy yield of good quality is expected in all sections and never have been fewer complaints of mold or rot. Apples continue to fall, and the crop with few exceptions is very poor

WEATHER BUREAU REPORT.

The Weather Bureau weekly crop report, issued at noon to-day, is as follows:

The week was practically rainless in Spring Wheat region of Minnesota and the Dakotas affording favorable weather for harvesting and threshing. Some early Wheat in the North portion of North Dakota is yet unrine, and rust is still damaging late Wheat in that State and much of crop will not be cut.

Although cool weather has prevented rapid development of Corn in Ohio Valley and lake regions, the crop as a whole has experienced decided improvement. Early Corn has already matured in Southern Missouri, and is ripening rapidly in Nebraska and South Dakota, cutting being in progress in the first named State. Considerable destructive, and boll-weevils are puncturing nearly all squared in southwestern, eastern and coast divisions and are causing much damage as far North as Dallas, Kaufman and Hunt counties. Picking is in full progress in Texas and is general in the southern portion of the central and eastern districts.

RUST REPORTS EXAGGERATED.

[From the Winnipeg Commercial, Aug. 27.]

The crop report issued by the Canadian Pacific Railroad in the west is very satisfactory. Weather conditions have been fair to favorable practically no damage from frost is reported, while the reports of widespread and severe damage by rust, which have been freely circulating in some circles, are contradicted. Some sections appear to be practically free of rust, and even in districts where it is reported to be worst the proportion of this is estimated at only from 2 to 5 per cent.

Along the main line west as far as Brandon there is reported to be no more rust than in former years. A heavy yield is expected, and cutting would be general about the end of this week. Further west to Moose Jaw the weather was rather cloudy and cool. Farmers were ready to begin cutting as soon as it cleared up. The crop was heavy. Further west again to Swift Current the week was dry, and no damage from frost. In Southwestern Manitoba damage by rust is carefully estimated at 5 per cent, and the yield is placed at 18 to 24 bu. Little damage by rust or otherwise is reported in the adjacent portions of Assiniboia. In Southern Manitoba the weather was reported as rather unfavorable for threshing, but without damage. Favorable reports come from Manitoba points north of the main line and portions of Assiniboia west of Qu'Appelle valley, in Assiniboia, both north and south, favorable conditions are reported.

THE HOP SITUATION.

[New York Producers' Price Current, Aug. 27.]

The local Hop market is holding a very strong position with a further hardening tendency to values. The trading is not especially active, but stocks have small enough proportions that buyers take a very confident view of the future. This makes a reserved offering, and brewers and dealers who want a few bales for current use are forced to pay higher rates for them. We quote 37c as for some trading on the open market at 33@34c for fine quality State '98s, and 29@30c for choice Pacifics with more wanted. Yearlings are scarce and found, and are somewhat nominal, while the older growths are also in very limited supply. Picking is now fully swing on the Pacific Coast, with California in the lead. Samples of Sacramento Hops are shown here, and 30c asked for them. The crop on the Coast is expected to be up to last year. In New York State some of the seedlings have been picked this week, and picking on the main crop will begin next week. Some damage was done early in the week by severe wind storms, but reinformed operators expect a larger yield than in 1903. One or two sales of West seedlings are reported in the interior at 30c, and at the close a small lot of fine 34c delivered in New York. No change in the condition of the Continental crop, which is light in most sections. Further damage is reported in England and the estimate of the yield there have been reduced in some cases to 300,000 cwts.

WILL DRAW ON MANITOBA.

[From the Winnipeg Commercial, Aug. 27.]

Ontario consumption of Manitoba Wheat Flour this crop year will be an even more important factor in Northwest cereal purchases than expected some time ago. Rust has done much more damage to the Ontario crop of Winter Wheat than represented in the government report issued during the past week. That report made the average yield per acre 16 bu, against 25 bu last year, and the total yield 9,827,760 bu, against 17,442,763 bu last year. A leading Grain man in Toronto is responsible for the statement that the total yield of the Ontario Winter Wheat this year would be considerably less than shown by the government report, owing to the late damage by rust. After allowing for seed, the shortage in the Ontario Wheat crop will make it necessary to draw on Manitoba for supplies larger than in any previous season. The consumption of Flour alone in Ontario will be about equal to 500,000 bu of Wheat over the production in that province the present season. Besides this, the Ontario mills will have to rely entirely on Manitoba for their Wheat for exportation of Flour, and the new crop will be fairly representative of a large firm handling Manitoba Wheat sold 300,000 bu to Ontario millers. The demand for Manitoba Wheat and Flour was never as active as it is to-day.

THE EGYPTIAN COTTON CROP.

The Alexandria General Produce Association's report on the progress of the crop during July is as follows: Great activity prevailed during July and irrigation regular and easy. These very favorable circumstances have hastened the blossoming of the plants and the formation of bolls, which, generally speaking, are more abundant than last year. On the other hand, complaints about caterpillars have been more numerous than in past seasons, the insects having appeared not in large quantities nearly everywhere in Lower Egypt, but especially in the Galiobieh, Charkieh and Behera. However, the information received on this subject is not accompanied as to the places whence it comes, that for the present it is impossible to estimate the importance of the damage done. It is, however, hoped that with a good temperature during the month of August, and still to follow, the Cotton plants which have suffered will be able for the most part to make up for what they have lost. In Upper Egypt the plants look magnificent and are full of leaves and bolls. There the water is plentiful and caterpillars are unknown. Regarding the Fayoum the same can be said, but according to reports in the other hand, there are complaints about an insufficient water supply, and several fields have suffered in consequence."

AGRICULTURE IN GREAT BRITAIN.

[From the London Agricultural Gazette, Aug. 15.]

Up to the end of last week harvesting had been carried on almost without interruption, and in the earliest districts another fine week will see the work practically finished. The continuance of the drouth has been bad for the late spring Grain, and especially for Barley, much of which is "steely" and cannot be expected to do well in malting. There are also complaints of uneven ripening, which alway spoils the sample to a great extent. In some districts, however, the bulk of the Barley crop is reported to be good, and no doubt of a doubtful whether Barley or Oats will prove the best of the cereals. There are so many light pieces of each in nearly every district that neither is likely to be returned materially as 10 s crop. But if the weather for the latter portion of the harvesting period should be generally fine, a great amount of Barley should be allowed for the securing of what has been produced without any considerable loss from shedding or shaking out in the work of cutting and carting.

CANADIAN WHEAT STOCKS.

Stocks of Wheat in Canada at principal points of accumulation are reported as follows: Bu.

Montreal	202,000
Toronto	90,000
Kingston	50,000
Coteau	105,000
Depot Harbor, Ont.	165,000
Manitoba elevators	821,000
Fort William, Port Arthur and Keewatin	1,174,000
Total, Aug. 28	2,242,000
Total, previous week	2,161,000
Total, a year ago	1,406,000
Total, two years ago	1,526,000

THE WEATHER CONDITIONS.

Rains are general over Manitoba, mainly light; temperatures unchanged. Temperatures Northwest higher, with light rains. Showers and cloudy West and Southwest. Partly cloudy Ohio Valley.

The indications are for a continuation of the unsettled weather over this forecast district, with scattered local showers and no important change in temperatures.

ITEMS OF GENERAL INTEREST.

Hogs received at St. Joseph, Mo., last week averaged 238 lbs. The average at Sioux City, Iowa, for the week was 237 lbs.

Forest fires are destroyed the Goat Mine and all the improvements on the Whistler Mine, in the Slate Creek district of Washington. Estimated loss, $200,000.

The Chicago, Milwaukee and Quincy Railroad Company has declared the regular quarterly dividend of 1¼ per cent, payable Oct. 1. Books close Sept. 26 and reopen Oct. 8.

Manufacturers of grits say they are unable to sell brewers the usual supplies, as they are buying Rice at 1c a pound cheaper than last year. They claim that supplies of Rice are unusually large.

Pressed Steel Car Company proposes to establish a plant in Montreal for the double object of taking care of its Grand Trunk contract and of getting into the foreign markets without paying duties.

The current earnings of the American Car and Foundry Company are running at the rate of about $2,800,000 per month, while for 7 per cent dividend on the $30,500,00 of preferred stock for the full year requires $2,100,000.

The increase in operating expenses of the Wabash system for July is due to the new rates and the arrangements for St. Louis Fair business. It was said the company had sixteen tracks into the fair grounds and now has twenty-one track.

The shipments of Flax seed from India from April 1 to date amounted to 11,584,000 bu (Calcutta 7,168,000 bu and Bombay 4,416,000 bu), against 11,456,000 bu last season (Calcutta 7,040,000 bu and Bombay 4,416,000 bu), and 9,128,000 bu in 1902 (Calcutta 5,024,000 bu and Bombay 3,104,000 bu).

Directors of the Republic Iron and Steel Company held their regular meeting in Chicago Monday. This was the meeting at which a dividend would ordinarily be declared on the preferred stock if dividends were being paid. No action of the kind was taken Monday.

The regular quarterly dividend of $1 60 a share on Kansas City, Fort Scott and Memphis Railroad preferred stock, represented by stock trust certificates of the Gould, Sage and San Francisco Railway Company, issued and outstanding on Sept. 16, will be paid Oct. 12. Books close Sept. 18 and reopen Oct. 2.

Just when dividends will begin on Southern Pacific common is uncertain, but a beginning will be made on a 3 per cent basis with the idea that this can be raised to 4 per cent, as was done in the case of Union Pacific, and if earnings warrant it, to even a higher basis. The Union Pacific interest in Southern Pacific now stands over $60 00 per share with interest.

The *Corn Trade News* of Aug. 20 says: "Our Hamburg correspondent writes that the weather there during the past week has been all that could be desired, wet days alternating with fine ones. More rain is wanted, however, for interior navigation is still suspended. Home-grown Wheat, Rye, Barley and Oats are being offered in fair quantities, and the quality is excellent."

The first Hops gathered in California this season sold at Sacramento on Aug. 10 for 25c. Hop picking in the Sacramento Valley is making good progress; the yield over the State will be slightly larger than last year. In Washington picking will begin Sept. 1; the crop is estimated 10 per cent greater than last year. The Oregon crop will be slightly over 80,000 bales.

A telegram from Champaign County, Illinois, says: "I drove twenty five miles, Tuesday, through the best Corn country and examined Corn for fifty fields. I found but one field in which Corn is denied. In all other fields Corn is still in the milk. There is no frost to kill it for another year, and cannot stand a killing frost before the first of October, and must have good weather in the meantime."

The official letter was received, Friday, by the Pittsburg trust companies from the Commissioner of Banking for Pennsylvania, calling attention to the fact that all trust companies of the State had been violating the law by doing a general banking business, including the discounting of paper, and that this must stop or he will take action in the courts. Millions of dollars are invested in the trust companies of the State.

Notice is given that an assessment of $1 00 has been called on each share of the capital stock of the Adventure Consolidated Copper Company, payable at the office in New York as follows: Fifty cents per share on Sept. 15, 1904; 50c per share on Jan. 10, 1905. Transfer books will close Aug. 25, 1904. The capital stock is $2,500,000, in shares of $10 40 each, upon which $1,000,000 has been paid up. The company was incorporated in Michigan, Oct. 17, 1898, and acquired mines in Ontonagon County, Michigan.

Kansas City, Monday, said: "One who has been over Kansas says good Corn prospect is in the far Western sections, from where there has never been and probably never will be any Corn shipped out. Shipping sections will have a fair surplus under most favorable conditions. So far as I can see, movement of shock threshing will be over, and but little depositions to thresh the stack Wheat pressure. The Western millers have become urgent buyer of the receipts at the interior points, and it seems our receipts must fall off to small proportions."

The *Wall Street Journal* says of the South Side Elevated Railroad Company, Chicago, Steel contract: "The work will call for a large tonnage of Steel rails, which the corporation will supply through the Illinois Steel Company. The award of the Chicago Elevated Company's acceptance of a contract calling for, the complete structure, including erection, has been expected, and is ready to put in its Steel at the structural Steel pool schedule, and then figure the cost of erection at a rate low enough to defeat all competitors."

Net profits of the Pere Marquette Railroad Company for the year ended June 30, 1904, as shown in the annual report, which has been sent to stockholders, exceeded those of the previous year by $12,698. After the payment of the usual interest, rental and the dividend, $92 169 was charged this year to depreciation, against $50,014 the year before, and $12,33 was laid aside for sundry adjustments in the sinking fund, leaving the operations constituting a charge which did not appear in the previous annual report. The sum of $73,450 was added to the surplus account, against $114,124 in 1903.

The *Times of India*, July 30, says: "In several districts of the Northwest Provinces, the Malabar Coast, and the coast line south of Bombay, good rains have been received, while in Gujerat only a small rainfall has been registered during the week. Crop reports on the whole continue to be satisfactory; the light rains which have fallen during the past few days and which are fairly general, have proved very beneficial, at the same time the cry generally is for more rain. The position as it stands at present is said to be unsatisfactory, and with a comparatively dry July we may hopefully look forward to a wet August."

The annual report of Pension Commissioner Ware covering the fiscal year ended June 30, 1904 shows that during the year the cost of maintaining the pension system has been $144,712,727. The appropriation for 1905 approximates was $146,410,000, leaving an unexpended balance of $1,705,508. During the year 47,344 persons were added to the pension roll. During the same period 49,157 pensioners were dropped from the roll, 37,946 of death claimed 43,820, of whom 31,728 were soldiers, 30,071 being volunteers of the civil war. The total number of pensioners on the roll at the close of the report is 730,315 soldiers, 273,841 widows and dependents and 606 army nurses.

On the basis of declarations already made and those yet to come, Secretary Wilson promises to make an unusually poor showing in the matter of industrial dividends. The amount will be smallest for any month in years, aggregating only $2,406,000. This compares with $4,126,465 in August, and which previously was the smallest amount disbursed in any one month since the opening of the year. This year's September total compares with $17,578,493 in 1903 and $10,943,287 in 1902. Part of the falling off shown in the comparisons is due to the discontinuance of one industrial payment amounting to $5,000,000, which figured in the returns of September last year.

Richard Siegman of New York, Monday, died in the Court of Chancery at Trenton, N. J., a bill against the Electric Vehicle Company, Martin Maloney and others, praying for the appointment of a receiver. The purpose of the bill is to compel Maloney and the other directors to make good $704,800, which have paid out by the Electric Vehicle Company in dividends during 1899 and 1900. Siegman declares that there were no profits or surplus out of which these dividends could be paid, and he further alleges that they were paid by the directors in view of the company in violation of the corporation laws of New Jersey, which holds directors responsible where they knowingly pay dividends in the absence of any earnings.

"The longer frost holds off the larger will be the Corn crop this year," said a Chicago Board of Trade man, Monday, who is back from an inspection of the Corn belt in Southern Illinois. Eastern Kansas and Western Missouri are only fair, although they show an improvement of late. Western Kansas has the best crop in its history, as the Corn is all good. Nebraska and Iowa have a good crop, and through Northern Illinois and Southern Wisconsin the Corn is fairly good. In the Ohio Valley, in Southern Indiana and Ohio, where Corn was planted on abandoned Wheat acreage, it is late and has not done very well. I believe a fair crop of the Corn belt will be out of the way of frost by Sept. 20, and with no frost up to Oct. 1, we will have a big crop."

Reports received in Chicago are to the effect that the necessary 1,700 tons daily capacity to make the plan to curtail production effective has been pledged by the Box Board manufacturers of the United States, and the matter is now one of detail in carrying out the necessary arrangements to put the "leasing down" plan in operation. Within thirty days at the farthest the scheme is expected to be in full operation. The matter of making the necessary arrangements to carry out the "leasing down" plan has been intrusted to several committees, the most important of last interest of which is empowered to receive the moneys to be paid in by the going mills weekly, and to disburse such sums to the mills which remain shut down.

The mortgage of $35,000,00 recently filed by the Pere Marquette Railroad Company at Flint, Mich., and covering other things that the new bonds are to refund at par the existing indebtedness of $48,774,000. Of the remaining $18,226,000 of the refunding issue the trust company is to issue $6,581,000 at the railroad company's discretion for betterments. The $13,175,000 still remaining is to be held until the railroad company acquires or builds additional lines, when the bonds may be issued to an amount not exceeding $25,000 per mile of track of road or $12,000 per mile of track on a double track system. The mortgage covers all of the stocks and bonds of other lines and corporations owned by the road, although the Pere Marquette Steamship Company of Wisconsin, the car ferry auxiliary of the railroad, is not specifically mentioned. The mortgage also describes the company's real property. Including its car ferry docks on the Kinnickinnic River in Milwaukee. An interesting feature of the mortgage is that the original document prepared for the $48,000,000 bond issue was subsequently changed to $65,000,000 in every instance.

ITEMS OF GENERAL INTEREST.

New York Exchange—no market.

Documentary Sterling steady at 483¾.

Chicago Bank Clearings to-day, $29,017,000.

Reported that Roumania has withdrawn its import duties on Grain.

Reported that no Wheat and 40,000 bu Corn were taken at the seaboard to-day for export.

Average cost price of Hogs at Chicago, Wednesday, was $5 36 against $5 47 Tuesday, $5 35 a week ago, and $5 43 a year ago

Estimated receipts for to-morrow: Wheat, 66 cars; Corn, 664 cars; Oats, 223 cars; Rye, 11 cars; Barley 46 cars; Hogs, 14.00 .

The Governing Committee of the Chicago Stock Exchange, Wednesday, voted to close from Friday night until Tuesday morning.

Directors of Swift & Co. have declared the regular quarterly dividend of 1¾ per cent, payable Oct. 3. Books close Sept 23, reopen Oct. 3.

Metropolitan Elevated, Chicago, traffic for August shows a daily average of 103,519 passengers, or only 548 more per day than August of last year.

Local money rates are firmer, but the market remains unchanged at 4½@5 per cent. Bankers say the stronger feeling noted is the fact that less money is being loaned at lower figures.

Deliveries on September contracts to-day were 450,000 bu Wheat, including 395,000 bu No 2 Hard and 55,000 bu No 2 Red, Corn 50,000 bu, Oats 285,000 bu, Rye 10,000 bu, Mess Pork 3,000 brls, Lard 13 000 tcs, Short Rib Sides 2,500,000 lbs.

Stocks in New York were more active and made good gains. London bought over 80,000 shares, largely of Steel preferred, and it advanced 1¼. Granger shares gained ¼ to 1 point, Industrials ⅝ to 1¼, and Coalers were ⅝ lower to ¾ higher. Money 1 per cent

Cotton in New York was unsettled. Higher prices were made at one time, but the trade failed to hold the extreme advance. Liverpool was slightly higher Liverpool and Philadelphia buying made the early rise Crop reports continue "bullish." Closing sales were 5@8 points higher.

Local Securities were generally traded in. Tractions were less interesting. There was a renewal of rumors regarding a merger, but no new developments. West Chicago Railway advanced 2 and North Chicago Railway advanced 1 point, but City Railway was steady. Industrials were liberally traded in, with fair gains.

The Hungarian Ministry of Agriculture estimates the world's Grain crops as follows: Wheat, 3 014 000,000 bu; Corn, 2,960,000,000 bu; Oats, 3,363,000,000 bu, Rye, 1,440,000,000 bu, Barley, 1,333,000,000 bu Yields last year—Wheat, 3,194,000,000 bu; Corn, 2,823,000,000 bu; Oats, 3,406,000,000 bu; Rye, 1,541,000,000 bu; Barley, 1,063,000,000 bu.

The Grain and Provision shippers of the Chicago Board of Trade are invited to attend a meeting of the Transportation Committee, to be held in its room, 43 Board of Trade building, to-morrow, Friday (the 2nd instant) at three o'clock P. M. Object of the meeting—"To formulate a protest against freight discriminations against Chicago."

The Cincinnati *Price Current* reports the packing of the West for the week at 370,000 Hogs, compared with 315,000 for the week previous and 315,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 10,135,000 Hogs, compared with 10 230,000 for the corresponding time last year a decrease of 95,000 Hogs

The Cincinnati *Price Current's* weekly crop summary says: "Corn making seasonable development. Three to four weeks needed for maturity of considerable portion Much low or nearly secure from important injury from frost For Wheat crop 575,000,000 bu not to be discarded as possibility. Grain marketing generally tardy."

Judge Humphrey in the United States Circuit Court at Springfield, Monday ordered the sale of the plant of the Chester Light, Water and Power Company at Chester, Ill., on application of the Union Trust Company of St. Louis, which holds $55,000 of the bonds. The receiver says the plant is now operated at a loss, and that it will deteriorate in value.

The special rate on Corn, Oats, Rye and Barley of 20½c from Minneapolis to New York is to come out Sept. 11. Lines east of Chicago have notified their Western connections that they will not be a party to the reduced rates after that date. The rate from Chicago to New York after Sept. 11 will be 17½c. This action is due to efforts put forth by the Transportation Committee of the Board of Trade, who convinced railroad officials that they were discriminating against Chicago.

Dornbusch of Aug. 19 says: "Argentine mail advices of 21st ult. to hand this week bear out the view recently expressed in these columns that the improved values of the last few months may possibly cause growers to put more Flax Seed under cultivation than they had intended. Even in that eventuality, says the Buenos Ayres *Handels Zeitung*, the acreage will be less than last year while the favorable weather conditions that led to so large a yield per acre have this time not prevailed and, under any circumstances, there cannot be expected a production equal to last season."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Dull and sales very moderate. Foreign bids 25@50c out of line. Liverpool stocks 58,000 brls, against 74,000 brls August 1

WINTER WHEAT—A good speculative and fair milling demand existed for choice Wheat, which ruled steady. Poor Wheat dull and easy. No. 2 Red in store quotably $1 08¼@1 08⅜, and a sale of 5,000 bu was made ¼c over December. Fresh arrivals free on board quotable at $1 09@1 11. No. 3 Red fresh receipts sold at $1 06, with choice cars at $1 10@1 11 No 4 Red sold at $1 00@1 07. No 2 Hard fresh receipts free on board sold at $1 09@1 10, and billed through at $1 09. No 3 Hard fresh receipts sold free on board at $1 03@1 08½, and at the river at $1 01½. No. 4 Hard fresh receipts free on board sold at 97c@$1 02½. No 4 White sold at $1 00

SPRING WHEAT Was quiet. Receipts small and but few cars offered. Choice Wheat would sell there being a demand for it, but poor Wheat is dull No 1 Northern nominally $1 16 No. 2 Northern nominally $1 10@1 14 No 3 Spring quotable at $1 02@1 10. No. 4 sold at $1 05 for choice and ranged down to 80c for poor.

REGULAR WHEAT Just a fair trade, with the market rather nervous and erratic, final figures showing new September ⅛c lower, while December gained ⅜c and May ⅜c. The market started rather easy owing to the fact that September deliveries were larger than expected Offerings, however, were fairly well absorbed, part of the buying being credited to Northwest interests, and the news from Duluth and Minneapolis coming "bullish," the market turned stronger. The bulge in Corn was also something of a help. Selling by houses representing the Southwest caused a moderate recession in values, but the close was quite steady. Duluth reported the sale of a cargo to Eastern millers, and reported Buffalo millers bidding $1 23 for No. 1 Northern delivered Buffalo. Duluth also reported crop news very discouraging and unimproved. Weather not the kind to ripen the crop and rains damaging Wheat already cut. Showers were indicated for the Dakotas and Minnesota. Minneapolis reported frost at Minot N. D., last night. Liverpool quoted spot steady and futures ¼d better, while London came ¼@⅜d higher Cargoes off coast 1½d lower, with 18 on sale, against 11 yesterday Liverpool stocks Sept. 1 were 2,352,000 bu, a decrease last month of 400,000 bu. The *Price Current* claimed a 575,000,000-bu Wheat crop was not to be discarded as an impossibility Primary receipts were 147,000 bu larger than a year ago Kansas City and St. Louis received 124,000 bu, compared with 194,000 bu last year Arrivals in Northwest were 44 cars larger. Exports were again small and no boat loads accepted at the seaboard Flour output for the week was 330 000 brls, against 410 000 brls last year. Toledo reported deliveries 150,000 bu, all going to millers, who have light stocks The report of the Hungarian Minister received but little attention. Receipts at Duluth 12 cars and at Minneapolis 230 cars, a total of 242 cars against 238 cars yesterday, 132 cars a week ago, and 193 cars last year. Local receipts included 72 cars Winter, 6 cars Spring and 2 cars mixed, a total of 80 cars, against 113 cars last year Included in the above were no cars of contract grade There were 69 cars and 35,300 bu from unlicensed elevators The estimated receipts for to-morrow are 66 cars Withdrawals to-day were 4,500 bu. Receipts at Western points were 767,319 bu, against 619,9_6 last year. At Eastern points 90,665 bu, against 149,854 bu last year Shipments from Western points were 455 008 bu, against 392,390 last year, and from Eastern points 14,410 bu, against 150,862 last year. Shipments of Flour were 9,783 brls. Exports of Wheat in Flour were equal to 58,333 bu

Future Deliveries of Regular Wheat—Fair trade and the closing was higher.

CORN—A good trade and stronger market, the close showing September up ¾c, while the December gained ⅝c, and May ⅝c The small September deliveries, better cables and "bullish" foreign advices, together with the very moderate speculative offerings, caused a much stronger tone. The Southwest was credited with purchases and local professionals favored the "long" side of the market. The map showed better weather Southwest but Iowa and Nebraska had more rain and showers and thunderstorms indicated for most of the Corn belt. Liverpool quoted spot steady to ¼d lower, while futures were ⅛@½d up. Liverpool reported Austria-Hungary again bidding for cargoes of Argentine Corn, and Roumania removed the import duty on forage crops. Liverpool stocks 446,000 bu decreased 558 000 bu last month. Local receipts were 524 cars, with 108 cars contract, against 377 cars one year ago, and 684 cars are estimated for to-morrow. The Cincinnati *Price Current* reported the crop making seasonable development but three to four weeks needed for maturing a considerable portion Country offerings were moderate, but enlarged as the session advanced due to the higher prices Western receipts were 612,000 bu, against 482 000 bu last year Shipments were 517 000 bu and 654,000 bu respectively Local arrivals 412 000 bu and shipments 385 000 bu. Withdrawals from store here 25',000 bu and exports 12,000 bu. Shipping demand moderate and sales 25 000 bu. Car lots were in good demand and larger supply. No 3 Yellow sold at 56c and closed at 55½@55¾c No 4 sold at 53@55½c

Corn by sample—Offerings were somewhat larger and the demand was good and feeling firm. Prices were ½@1c higher. Sales on track and free on board · No Grade sold at 53c No 4 at 53¾@56c No 3 at 54½@56c No 3 Yellow at 54¾@56½c No 2 at 54¾c. No. 2 Yellow at 56½c. No. 3 White at 54¾@55c No 2 White at 54¾@55c Billed through, No 4 at 52½@54½c. No 3 at 53¼@53¾c. No 3 Yellow at 54¼@55¼c No. 2 at 53¼c. No 2 Yellow at 54¼@55½c. No 3 White at 53¼c. No 2 White at 53¼@53½c

Future Deliveries of No. 2 Corn—Active and stronger, closing ⅛c to ¾c higher.

SEPTEMBER—Sold at 53@54¼c. Opened at 53⅛c to 53¼c and sold at 53c up to 54¼c, to 53⅞c, to 54c, to 53⅞c, to 54c, to 53¾c, to 54c, to 53⅞c, and closed at 53⅞c asked.

OCTOBER—Sold at 53¾c.

DECEMBER—Sold at 51⅝@52⅞c. Opened at 51⅞c to 51¾c, and sold at 51⅞c, to 51⅝c to 52⅛c, to 52c, to 52⅞c, to 52½c, to 52⅝c, to 52⅜c, to 52½c, to 52¼@52⅜c, to 52½c, and closed at 52½c.

MAY Sold at 49½@49⅝c and 50¾c. Opened at 49⅞c to 49⅝@49¾c, and sold at 49½@49⅝c, to 50c, to 49⅞c, to 50¼c, to 50⅛@50¼c, to 50⅝c, to 50c, to 50¼c, to 50¼c, to 50½c, to 50¼c, to 50⅜@50½c, and closed at 50⅜@50½c asked

OATS—Were more generally traded in Prices advanced ⅝c and closed within ⅛c of the top. The advance in Corn and buying by commission houses and shippers was a feature. The sellers were elevator interests and "longs." Deliveries on September trades were 250,000 bu. Cash sales 100 000 bu. Prices are within 1@2c of an export basis Arrivals 180 cars, with 223 cars estimated for to-morrow. Withdrawals were 45,000 bu from private elevators. Seaboard clearances were 31 000 bu. Car lots to go to store were steady to ½c higher. No 4 White at 31½@31¾c No. 3 White at 32½@33½c Standard at 33½c. Standard in store closed at 32¼c

Oats by sample were in better demand from shippers and prices were steady to ½c higher. Offerings were fair Sales on track and free on board. No. 4 White at 32@33c No. 3 White at 32½@34c Standard at 33@34c No 2 at 32c. No 2 White at 34c. Billed through No 4 at 31c No. 3 White at 32½@32c Standard at 33@33½c No. 2 at 31c. At the river No. 4 White at 30½@31½c. No 3 at 31@31½c. No 3 White at 31@32c Standard at 31¾@32¾c.

Future Deliveries of Contract Oats - Were stronger and higher.

SEPTEMBER—In fair demand Sales were at 31¾@32⅜c Opened at 31¾c to 31⅞c, sold to 32⅜c to 32¼c at close.

DECEMBER—Active. Sold at 33⅛@33¼c and at 33⅜@33¾c. Opened at 33¼@33⅜c to 33⅝c, sold to 33⅛@33¼c, to 33⅝@33¾c, to 33⅝c at close

MAY Active. Sold at 35⅝@35¾c and at 36⅛@36¼c. Opened at 35⅝@35¾c to 35¾c, sold to 36⅛@36¼c, to 36⅛c at close

RYE—Was rather quiet and steady No special feature to the market The deliveries of September contracts were 10,000 bu Receipts 10 cars. No withdrawals from store here and no export clearances from New York. No 2 in store nominally 71½c, and fresh receipts free on board sold at 73@73½c, and No 3 at 71@72c

Future Deliveries of No. 2 Rye—Quiet and steady. September sold at 71½c and closed at 71½c asked and 71c bid December sold at 73c and closed at 73c bid and 73½c asked May nominally 77c

BARLEY—An increased quantity of Barley was offered The quality was not so satisfactory as it has been. There was a small quantity of good to choice, but main offerings were of ordinary to common, with also some poor The larger part was stained, small berry or dirty. Since there was more of this it had to be discounted more than when the quantity was smaller The common, malting grades appeared in the prices paid 1c and in some cases 2c below what was obtained early in the week The poor for feed sold at former prices and the good to choice was not called materially changed There were 30 cars inspected in, and 5,050 bu low grade No 5 and No Grade, taken out. Common, dirty, Screening sold at 31c clean, choice nominally above, up to 38c possibly Poor, stained, dirty or feed Barley sales made at 37@38½c. If better up to 40c Malting, poor to common, small berry, off color or dirty, 40@42c. Fair to good depending on weight and color sold at 43@44c, main sales to-day at 43@47c. Some choice cars brought 50@52c.

SEEDS—There was a steady market for Timothy, and in Flax there was ½c advance. It was only in these lines that anything was done

Timothy—No deliveries were made on September contracts. So far no Seed has arbitrated and no contract grade on the new established Operators gathered and bid for futures and also offered to sell, but they were about 5c apart and that prevented trading September and January changed at 15c difference in favor of the latter In the regular way $2 90 was bid for September and October deliveries, and both were offered at $2 95 January was $3 00 bid and $3 05 asked. Cash offerings moderate not large Demand fair Several cars sold, but prices were withheld from publication The market was quoted as steady, with some reports of slight gain though no material change was made known. Fair to good quality at $2 55@2 65, high grade to choice at $2 70@2 75 Fancy bright unhulled nominally higher, $2 8 @3 00 Common dark dirty, about $2 20@2 40, very poor lower.

Flax Was firmer in sympathy with a little better market in the Northwest A few cars of No. 1 Northwestern were sold and that was all there was offered. Prices to day present ½c advance. No. 1 Northwestern or No 1 from the Northwest salable at $1 25½, and No 1 at $1 18½ Rejected quotable at $1 15@1 18, depending on quality. September $1 18½ bid. December salable at $1 20½. Local movement small: receipts 5 cars and no output. Minneapolis showed some increase, 22 cars but Duluth got little—only 2 cars

Clover At late quotations there was said to be an easy undertone, but in the absence of offerings prices were called unchanged. October delivery quotable at $12 50. Contract spot Seed was quotably about $12 50. Country lots, common to choice, $9 00@12 00; fancy above Fair to good $10 50@11 50

HOG PRODUCTS—Quite a good speculative business was transacted in Hog Products, and the undertone to the market was stronger. Offerings were only fair, and a good general demand prevailed Carriers were rather free buyers of September and sellers of October at the current differences—15c on Mess Pork, 15@17½c on Lard and 17½c on Short Rib Sides Deliveries on September contracts were about 3,000 brls Mess Pork, 13,000 tcs Lard, and 2 500,000 lbs Short Rib Sides Outside orders were fair, and favored the buying side Local trading rather active Prices ruled higher on all the leading articles, and the market closed steady at nearly outside figures. Hogs were in fair supply and steady Receipts at the leading Western packing points were estimated at 65,_00, compared with 43,100 one year ago Returns of the packing of the West for the week showed an increase of 5,000 Hogs compared with the returns for the corresponding week in 1903. Foreign markets were steady, and prices unchanged Domestic markets were steady. Receipts of Products were fair—of Lard and Meats about 16 cars. Shipments were fair—of Lard and Meats about 169 cars. Shipping demand was fair, with moderate offerings Sales were fairly liberal, and prices unchanged

Mess Pork—Trade was rather active in the market for Mess Pork, and the feeling was stronger Offerings were fair, and the demand was rather active. Market opened rather strong and prices were advanced 15@25c on the whole range Toward the close the feeling was not quite so strong, and prices settled back 2½@5c, and the market closed steady. Shipping demand was moderate, and offerings were fair Cash lots quotable at $11 20@11 25.

SEPTEMBER—Demand was fair and offerings were moderate. Sales were made at $11 07½@11 15 Opened at $11 10, sold to $11 07½, to $11 15 and closed steady.

OCTOBER Offering were fair and the demand was moderately active Sales were made at $11 12½@11 35 Opened at $11 12½ sold to $11 25, to $11 22½, to $11 32½, to $11 27½, to $11 35, to $11 30, and closed steady

JANUARY—In rather good request, and offerings were fair. Sales were made at $12 62½@12 75. Opened at $12 62½, sold to $12 67½, to $12 62½@12 65 to $12 15, to $12 70, to $12 75, to $12 70, to $12 72½, and closed firm

Lard—Trade was fairly good in the Lard market and the feeling was stronger Offerings were not very large, and the demand was rather active. Foreign advices were unchanged Market opened rather steady, but quickly advanced 10@12½c on fair miscellaneous buying. Toward the close, the feeling was not so strong, and prices settled back 2½c, and the market closed comparatively steady Demand on shipping account was moderate with rather light offerings Cash lots quotable at $6 97½@7 00 Loose lots in fair request with moderate offerings Prices were steady at about 15c discount on October figures Leaf Lard was in light demand with the offerings moderate. Quotably steady at about $6 87½. *Neutral* in fair demand with moderate offerings Prices quotably steady at $8 25@8 37½ for No 1 and $7 75@7 87½ for No. 2

SEPTEMBER—In rather good request, with fair offerings. Sales were made at $6 87½@7 00. Opened at $6 87½, sold to $7 00, to $6 97½, and closed steady

OCTOBER—Offerings were fair and the demand was rather active. Sales were made at $7 02½@7 15. Opened at $7 02½, sold to $7 12½, to $7 10, to $7 15, to $7 12½ and closed quiet

JANUARY—Demand was fairly active and offerings were moderate Sales were made at $7 07½@7 22½ Opened at $7 07½ sold to $7 22½, to $7 20, and closed firm

JULY—Sold sparingly at $7 30.

Short Rib Sides—Quite a good business was transacted in Short Rib Sides and the feeling was stronger in a general way Offerings were fair, and the demand was quite active. "Flour made by mills outside of St. Louis, but controlled in that city."

There was an increase in the output of Minneapolis mills of 13,915 bris last week. To-day thirteen mills are grinding and two others are making ready to start up later in the week. The prospect is that the output for this week will approximate 220,000 bris.

Although millers did not sell as much Flour as they made, still there were evidences in sight that business is likely to be a little better in the near future than it has been for a considerable time. The great drawback to the present Flour trade market is the unstable condition of Wheat prices. Fluctuations from day to day are so wide that it is almost impossible for a miller to know what price to figure on. Still, with all this, it is that it was a week ago and millers are of a more optimistic frame of mind. They hope that with the advent of new crop receipts Wheat prices will come down to a level where it is possible for them to do business and that fluctuations will be less radical, thus giving them a more stable basis to work upon. That stocks in the East and in the Central States are low seems certain. Buyers have refrained from purchasing in any quantity for so long a time that supplies in their hands must be very limited. This is borne out by the fact that every once in a while a buyer, who might have been dead for all the miller knew, shows evidences of life by purchasing, at current figures, a small lot of Flour to keep his trade going. These sales, of a hand-to-mouth character, represent the extent of the business passing.

As for export trade, sales of patent are practically nothing. Importers absolutely refuse to pay the prices millers are forced to ask. Flour manufacturers in the United Kingdom are able to get Wheat so much cheaper from India, Russia, Argentina and Australia than Americans can purchase their supplies, that they can successfully compete with importers and get trade that was at one time firmly loyal to American Flour. Inquiries, however, are more numerous just now than they have been for many weeks, showing that the Flour trade would, if only the price were nearer what home millers are selling their product at. It is a general belief among millers here that it would be necessary for Wheat to come down to about 65c per bu basis before any large amount of foreign business could be done. In the meantime they live in hopes for the future. An occasional sale of clear is reported, the price being around 3 20@3 60, c. i. f. United Kingdom ports. This price includes the usual 2 per cent commission.

The edge has been taken off the price of millfeed in the last week and prices are down 50c@$1 00 per ton. The demand is less than the week before, and the business transacted somewhat smaller.

Minneapolis and outside mills are quoting Patent at $5 80@5 90 per 196 lbs in wood f. o. b. Minneapolis.

Eastern prices to-day (Aug. 30) asked by Minneapolis and outside mills for Patent in wood, were: Boston rate points, $5 50; New York rate points, $5 45; Pittsburg rate points, $5 35; Baltimore rate points, $5 35; Philadelphia rate points, $5 40; Albany rate points, $5 45; Rochester and Syracuse rate points, $5 40; Buffalo rate points, $5 30; Michigan, $5 00 in sacks; Iowa, Illinois and Wisconsin, $5 05 in sacks; Missouri points, $5 00 in sacks.

THE ANTHRACITE COAL SUPPLY.

[From Bradstreet's.]

Edward W. Parker, statistician of the United States Geological Survey and an authority on Coal production, has issued a statement predicting the exhaustion of the anthracite deposits of Pennsylvania within fifty years. In a communication to the Washington *Post* Mr. Parker disclaims having made any such prediction, and goes on to assert that in all probability anthracite Coal will continue to be burned in this country for from 50 to 250 years. He believes that if the present rate of production and waste were to continue the period of exhaustion would be reached at the end of about eighty years, but while he anticipates some increase in annual production within the next decade or so, he expects to see this followed by a notable decline. Mr. Parker notes that although the production of anthracite has not kept pace with that of bituminous Coal, it has increased faster than the population of the region in which most of it is consumed. In 1880, according to his figures, 1.47 tons of anthracite were produced per inhabitant of the anthracite mining region of the country. In 1890 the per capita production was 2.47 tons, and in 1900, 2.83 tons. Using the entire population of the United States as the basis, the per capita production of bituminous Coal in 1902 was .85 ton; in 1890, 1.76 tons, and in 1900, 2.76 tons. In 1880 two-thirds of the Coal produced in the United States was Pennsylvania anthracite, while 1870 anthracite constituted about one-half the total, and for the last five years it has amounted to about one-fifth.

BIGGEST WOOL COUNTRIES.

Russia has more Sheep than any other country in Europe. South America has the largest flocks on this side of the Atlantic. Australia has more Sheep than any other country in the world and the United States has 52,000,000 Sheep. Canada and Mexico have about 15,000,000 head. Australia has about 100,000,000. South America something like 90,000,000, the Central American Republics 10,000,000. Europe 230,000,000. Asia 80,000,000, and Africa about 30,000,000. The world's flocks total some thing like 560,000,000 Sheep. Only a few of the countries go in as Sheep. As statistics are not infallible, especially as to Asia, this Goat fact will probably affect the situation. As these Sheep will produce about 4 lbs of Wool per head on the average, the world's Sheep should shear 2,240,000,000 lbs of scoured Wool. The looms of the United States produce 35 per cent of this total. Half or less of this is sheared at home because our Sheep are large and shear a heavier fleece than the majority of the world's Sheep. Great Britain gets most of her Wool from Australia. Britain probably uses more Sheep Wool than any other country in the world, while Belgium uses the most Llama and coarse animal hair and Russia more Goat than than any other nation.

The City of Ottawa, Canada, has sold $358,000 4 per cent civic debenture bonds at 99.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, Aug. 31.]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth, together with that of all "outside mills" with a daily capacity of 41,640 bris, for Sept. 1, 1903, to Aug. 30, 1904:

	1903-04.		1902-03.	
	Flour, brls.	Wheat, brls.	Flour, brls.	Wheat, brls.
Minneap. mills	13,317,855	24,993,000	13,326,339	23,977,000
Duluth	922,670	4,152,000	1,457,125	6,557,000
41 outside mills	6,645,205	29,903,000	6,552,690	29,937,000
Totals	21,115,180	95,048,000	24,349,146	109,571,000

These figures represent the approximate consumption of 14,553,000 bu less Wheat this year than in 1902-03. This has occurred from the mills of Minneapolis and Duluth as well as the outside mills turning out 3,233,965 brls less Flour than in 1902.

THE WEATHER CONDITIONS.

Generally cloudy, with light rains Northwest. Rain general in the West. Showers and cloudy in the Southwest. Manitoba temperatures stationary; cooler in the Northwest and warmer in the western part. Northwest States cooler. West and Southwest warmer. Showers and warmer in the Ohio Valley.

Indications are for unsettled and showery weather throughout this forecast district. The cool weather Northwest will probably extend over greater part of Trans-Mississippi region Friday.

ITEMS OF GENERAL INTEREST.

The mills of the Quaker Oats Company are being started at full capacity.

Prices of refined sugars were advanced 5 points, Wednesday, by one of the Eastern refineries.

The Baltimore & Ohio Railroad Company, Baltimore, Md., was totally destroyed by fire, Wednesday, the loss being estimated at $125,000.

The Consolidated Gas Company has applied to the New York Stock Exchange to list $30,000,000 convertible 6 per cent debenture bonds of 1909.

Reports were current, Tuesday, that the Warner Starch Company's aggressiveness in territory of the Corn Products Company might lead to a price war.

The Portsmouth, Ohio, Steel Company shut down indefinitely, Wednesday, on account of the condition of the Steel market. Over 500 men are affected.

The Panama Railroad Company has applied to the New York Stock Exchange to list $25,000 additional first mortgage 4½ per cent sinking fund bonds of 1997.

The New York *Journal of Commerce* says that leading interests in the Southern Textile Company, a proposed $30,000,000 textile combination, are discussing plans looking to a reorganization of the company.

The American Sugar Refining Company has declared the regular quarterly dividends of 1¾ per cent each on the preferred and common stocks, payable Oct. 3. Books close Sept. 3 and reopen Oct. 4.

The largest Sugar factory in Germany, named Kulmsee, near Thorn, West Prussia, was burned, Monday, involving a loss of $1,250,000. The fire caused a rise in the Sugar market at Hamburg of 3c a hundred weight.

The Union Pacific Railroad has restored the rate on wire and wire nails from Chicago to Denver, again placing in at 77c. The rate was reduced to 49c some time ago for the purpose, it was stated, of meeting temporary conditions in Colorado.

The first instalment of the $40,000,000 Southern Pacific preferred stock is due Thursday, and subscribers have the option to pay the entire amount on that day. All the large holders say they will pay the instalment and take the stock as soon as it can be delivered.

The Standard Chain Company has reduced its capital stock from $6,000,000 to $800,760. Each six shares of the old stock will be exchanged for one share of new common, and each fourteen shares old preferred has received one share of new common and seven of new preferred.

Five hundred employees of the Pullman Company were given their time checks, Tuesday, and were told that there would be no more work until further notice. This left the shops with only 1,500 men employed, and it is said to be reported that great plant is to be closed entirely within a few days.

The American Chicle Company has declared the usual monthly dividend of 1 per cent on the common stock, payable Sept. 20. Books close Sept. 15 and reopen Sept. 21. The usual quarterly dividend of 1¾ per cent also has been declared on the preferred stock, payable Oct. 1. Books close Sept. 23 and reopen Oct. 1.

A prominent stockholder in Norfolk and Western is quoted as saying: "If the directors of the company had the courage to distribute on the common stock this fall to 4 per cent, it will be done next spring. I have reasons to think Pennsylvania people have been buying the stock, and hold more of it now than they have for quite a time."

Clearings of the Chicago banks for the month of August were $717,985,576, or $51,827,341 greater than those of August of last year, indicating that there is a considerable revival of business in that city. The recent loss in clearings this year as compared with last has now been entirely made up, and during the last July year $43,484,748 ahead of those of last year.

The General Electric Company has under way plans for the establishment of a wireless telegraph system. The stations will be at Pittsfield, and Schenectady. A station at Pittsfield, Mass., from the Stanley works are located, will be used as a relay office between Lynn and Schenectady. The distance between Lynn and Pittsfield is 100 miles, and between Pittsfield and Schenectady 45 miles.

A Boston dispatch says: "A firm tone marks the Wool market. Domestic Wool of all kinds has sold freely, and though the volume of sales is not heavy, something of the activity of a month or more ago is prevalent. A fair call for Territory Wools continues. Pulled Wools are quiet. Foreign grades are firm, with a moderate business under way."

The Union Pacific Railroad has made an important change in Grain terminal charges between Omaha and Council Bluffs, Iowa, on the one hand and other Eastern points will in the future pay a rate of 26c a ton, and be refunded by the Union Pacific Railroad. Formerly a switching charge of $3 00 per car was made, and the cars delivered at Omaha. This change has the effect of increasing the rate on Grain from $3 00 to $5 26 per car. Terminal charges have thus far absorbed the extra charge.

Receivership proceedings against the United Telegraph, Telephone and Electric Company, Chicago, with a possible foreclosure of the property of the company, were begun in the Superior Court, Monday, by the Chicago Title and Trust Company on the assertion that the interest on the $174,460 worth of outstanding bonds of the telegraph company is long overdue. The company was organized Jan. 2, 1896, with a capitalization of $500,000. Bonds to the value of the amount now in controversy were sold, it is asserted, and made payable Jan. 2, 1916, with 6 per cent interest, payable annually.

Mergenthaler Linotype has put out more than 10,000 machines, and is now putting out machines at a greater rate than any previous time in its history. This year it will undoubtedly put out over 1,000 new machines. The Mergenthaler Company is in a position showing earnings at the rate of 25 per cent upon its stock, or 10 per cent above its annual dividend requirements, but leading interests in the company say that they will not institute any larger dividends this year than the $15 00 per share, in which case Mergenthaler Company will add a round $1,000,000 to its surplus, which at the close of June was $3,500,000 capital.

The shareholders of the Simpson-Crawford Company will vote Sept. 6 on a proposition to increase the capital stock from $8,000,000 to $5,400,00 by the creation of 14,000,000 shares of common. The preferred stock in addition to the existing $2,500,000 common stock and the $2,500,000 8 per cent preferred stock. The Simpson Securities was incorporated at Albany, in June, with $5,000,000 capital stock, of which $1,000,000 is 8 per cent cumulative preferred stock. It issued its $1,500,000 6 per cent twenty-five year sinking fund bonds in exchange, dollar for dollar, for the debentures of the Simpson-Crawford Company.

"The Corn crop in Iowa is doing very well, though not ripening as rapidly as may seem desirable because of the general dryness," says the crop bulletin. "The most advanced fields show ears well filled and dented, while the bulk of the crop is mostly in the roasting ear stage. Reports indicate that with favorable weather during a third of the crop may be fairly well matured by Sept. 20, and that to ripen the full crop there is need of abundant warmth and sunshine for 30 days. Good progress is reported in the fall plowing and harvesting Potatoes and early Apples. Pastures have been improved."

Concerning the Steel outlook, a representative of the Republic Iron and Steel Company is quoted as follows: "Very few orders for finished Iron and Steel have been placed within the last few weeks. As is generally the case, consumers hesitate for a while after prices are reduced. We look for them as they are convinced that no further concessions will be granted, they will come into the market. The Bar Iron and Rail associations have declared to not get together for three or four weeks, and in the meantime there will be no changes in quotations. No understanding, so far as I know, is being indulged in by members of the Nut and Bolt or Bar Iron associations."

A new phase for the Wheat trade to consider in regard to the shrunken Wheat and light-weight Wheat in the North is presented by a milling firm Company at Elizabeth, Minn., farmer had 110 bu of Wheat weighing 43 lbs run through the mill. The output was so small that most of the Wheat was lost in the process. The little Flour secured was a dark, dirty yellow, lacking life and strength. The claim is made that shrunken Wheat from black rust is diseased Wheat, having no life or vitality to make itself come out of the soil. The party making the statement claims to have been a member of the New York Produce Exchange for forty years, and is a miller and Flour expert.

E. H. Harriman and his associates have formed a friendly alliance, which will have practically the same effect on the railroad situation West of the Mississippi River that the Vanderbilt-Pennsylvania-Reading alliance recorded for the past five years in the Eastern trunk line territory. This alliance is in the form of a definite personal agreement to preserve harmony between the Harriman and Gould lines in Missouri and Texas, so far as their influence extends and to conduct no aggressive operations in each other's territory. The last mentioned understanding means a closer alliance than that of the Gould lines in Texas, Pacific lines, and the suspension—if not abandonment—of certain Gould plans of extending the Missouri Pacific to the Pacific Coast.

It is apparent that the South Side Elevated Railroad, Chicago, made the best bargain for its new structure that it could have made by any line in years. A New York dispatch says that the structural Steel contract for the extension was let to American Bridge Company in spite of the fact that one company, in combination with the Lackawanna Steel Company, the latter not bidding directly, had made a bid below the local price. The Lackawanna company is not a member of the structural Steel pool. It is, in fact, not yet making structural Steel, but it will be doing so early next year, if not sooner. It has been organized in order to secure the contract for the American Bridge Company, was obliged to scale prices on material, manufacturing, etc., to a minimum, so that it will get little profit out of the contract.

Announcement was made, Monday, that most of the large Coal companies will suspend work for the week beginning on Labor Day, next Monday, to prevent the market being overstocked. Orders to this effect have already been issued by the Lehigh Valley Coal Company and the Philadelphia and Reading Company. The Delaware Lackawanna and Western will start a week's suspension by closing down several of its collieries at various points, so that before the season is ended to get the same rate of suspension as the others. Some of the small companies decline to be governed by the general order, and will continue working as long as they can find a market for coal, of which at present is short. There has been a better demand for Anthracite in August than in July, but the market was so heavily stocked all the time that the supply did not decrease.

Beerbohm of Aug. 23 says: "In France the weather has improved, but the change came too late to benefit the crops. Potatoes, Corn, Beets and Beans crops are definitely considered as very ordinary and even poor crops. There continue to be many contradictory estimates of the Wheat crop, but threshing is not sufficiently advanced to form a definite estimate, although it is certain that the crop is much smaller than last year. The Paris *Petit Journal*, however, says that the Wheat crop may exceed 280,000,000 bu to 296,000,000 bu, against 358,000,000 bu last year. The quality, however, is good and the stocks of old Wheat large, so that the necessity to import foreign Wheat may prove not to be needed until late in the season, when the condition of the autumn sown crops will govern the market. At the recent annual reunion at Orleans it was generally agreed that the best proposition to put to the Tariff next year is the question of reciprocity."

The Chicago *Inter Ocean* says: "The promoters of the so-called Lead merger are having a hard time to bring the matter to a successful end. A few weeks ago Daniel Guggenheim, just before he went to Europe, made what is understood to be the final proposition as coming from the United States interests. This proposition was submitted to meet the approval of President Cole of the National Lead Company and his advisers. President Cole's attitude in the matter, it is understood, will be passive until Mr. Guggenheim returns from abroad early in October. Those best informed, however, do not believe that the merger will be abandoned. There are a great many delicate points that have to be settled definitely outside of the financing. For instance, President Cole is desirous of making ample provision for his staff of officers in both the executive and operating departments not only for one or two years, but to make them just as secure in their positions as they would be with the National Lead Company if no merger is effected."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market is still dull and sales for very moderate quantities. Prices steady. It was said Kansas millers had reduced the price of Flour 30c in some instances.

WINTER WHEAT—Soft Wheat was relatively firmer, while Hard Wheat was steady with poor lots rather dull and easy. There was more shipping demand and sales of 55,000 bu of No. 2 Red were reported at 3@3½c over new September in store. No. 2 Red in store ranged at $1 08@1 10 and fresh arrivals hard Wheat sold at $1 10 free on board: soft was nominally $1 11@1 12. No. 3 Red fresh arrivals free on board sold at $1 08@1 10 and No. 4 Red at $1 01@1 07½. No. 2 Hard fresh arrivals free on board sold at $1 09@1 10. No. 3 Hard fresh arrivals free on board sold at $1 03½@1 09, billed through at $1 07½, and at the river at $1 00@1 02½. No. 4 Hard sold at $1 01. No. 3 White sold at $1 08.

SPRING WHEAT—Was quiet. Receipts small and but few cars offered. Choice Wheat sells well, there being a demand for it, but poor Wheat is dull. No. 1 Northern nominally $1 16. No. 2 Northern nominally $1 10@1 14. No. 3 Spring sold at $1 10@1 12 and quotably down to $1 02 for common. No. 4 sold at $1 07½ for choice and ranged down to 80c for poor. No Grade sold at 75½c.

REGULAR WHEAT—The market was a little unsettled early, but weak later and the close 1⅜@1½c to 1⅞c lower than yesterday. Chief feature early was the selling credited to large Southwestern "long" interests. Local "longs" also sold, there being a disposition in some quarters to even up, owing to the short session to-morrow and holiday on Monday. The absence of outside trade was rather more marked, and no doubt was an indirect "bear" factor. The news from the Northwest was at the same time "bullish." Minneapolis and Duluth advices being favorable to the "long" side of the market. The English markets were firm, London coming ¼@½d higher. Liverpool was up ⅛d and Paris ½@⅝c. Buda Pesth, however, declined 2c while Berlin gained ⅜c. The weather was unfavorable, there being rains Northwest and in Western Manitoba, but fair conditions generally indicated. There was also some talk of dry weather in Argentine, causing anxiety among growers. Shipments at the same time were liberal at 1,616,000 bu, and total since Jan. 1, 78,840,000 bu, against 56,748,000 bu in 1903. The visible is now reported 3,016,000 bu, compared with 3,240,000 bu last week and 1,912,000 bu same time last year. Area in province of Cordova Argentine, reported 20 per cent larger than last year. Northwest cars were 81 larger than last year and primary receipts 182 000 bu larger. Clearings small; total for week 1,831,000 bu. Since July 1 13,220,000 bu, against 26,-928,000 bu in 1903. Kansas City and St. Louis received 417,000 bu; last year 291,000 bu. The *Modern Miller* reported conditions most favorable for fall seeding with indications for a large area. A crop authority in the Northwest estimated the total crop 514,000,000 bu. Duluth reported 100,000 bu cash sold to Eastern mills the past two days. Late messages reported frost at Regina and Prince Albert, N W T. Minneapolis stocks are expected to decrease 300 000 bu this week. India shipments 1,592,000 bu. Part of the late buying was credited to a prominent local professional. Local milling demand was reported as improved with indications of larger sales in the near future. Northwestern interior elevator stocks reported 814,000 bu, an increase during August of 448 000 bu. Receipts at Duluth 25 cars and at Minneapolis 253 cars, a total of 278 cars, against 242 cars yesterday, 197 cars a week ago, and 197 cars last year. Local receipts included 63 cars Winter, 2 cars Spring and 4 cars mixed, a total of 69 cars, against 135 cars last year. Included in the above were 3 cars of contract grade. There were 31 cars and 95,060 bu from unlicensed elevators. The estimated receipts for to-morrow are 97 cars. Withdrawals to-day were 5,800 bu. Receipts at Western points were 899,023 bu, against 717,401 last year. At Eastern points 86,045 bu, against 279,406 bu last year. Shipments from Western points were 419,893 bu, against 293,-063 last year, and from Eastern points 12,600 bu, against 152,705 last year. Shipments of Flour were 10,505 brls. Exports of Wheat in Flour were equal to 58,922 bu.

Future Deliveries of Regular Wheat—Moderate trade at lower prices.

SEPTEMBER—Old Style—Sold at $1 07⅝@1 08¼. Opened with sales at $1 08¼; sold to $1 07⅞, to $1 08¼, to $1 07⅝, and closed at $1 07⅝.

SEPTEMBER—New Style—Sold at $1 05¼@1 07. Opened with sales at $1 06½ to $1 07, sold to $1 06¾, to $1 06½, to $1 06⅞, to $1 06, to $1 05½, to $1 05⅞, to $1 06, to $1 05¾, to $1 06, to $1 05¼, to $1 05½, to $1 05¼, and closed at $1 05¼.

DECEMBER—Sold at $1 07⅝@1 09⅝. Opened with sales at $1 09⅛ to $1 09⅛; sold to $1 09¼, to $1 08¾, to $1 09, to $1 09⅜, to $1 08⅝, to $1 08⅜, to $1 08¼, to $1 08, to $1 08½, to $1 07⅝, and closed at $1 07⅝.

MAY—Sold at $1 09¾@1 11¾. Opened with sales at $1 11¾ to $1 11⅞; sold to $1 11⅛, to $1 10¾, to $1 11¼, to $1 10⅝, to $1 11, to $1 10¼, to $1 10⅞, to $1 10⅛, to $1 10½, to $1 10, to $1 10¼, to $1 09¾, and closed at $1 09¾@1 09⅞ asked.

CORN—Just a fair trade, with the tone easier, the close showing declines of ⅜c and ½@⅝c. The start was a little higher, influenced to some extent by the lower temperatures west of the river and rains West and Southwest. The demand was soon satisfied, however, and prices gradually receded. Local "longs" liquidated, and there was selling which looked like the Southwest. Argentine shipments were heavy, Wheat weak and the predictions were for fair weather. Larger acceptances were reported from Kansas, and receipts were 662 cars, with 841 cars estimated for to-morrow. Liverpool quoted spot unchanged and futures ⅛d higher. Argentina shipped 3,350,000 bu making 51,207,000 bu since January 1, against 43 405,000 bu last year. Visible there now reported 4 414,000 bu, against 3,944,000 bu last week and 3,620,000 bu last year. Southwestern markets were all lower. Exports for the week 711,000 bu, and since July 1 are 5,220,-000 bu, against 9,182,000 bu in 1903. Local arrivals were 822 000 bu, and shipments 224,000 bu. Withdrawals from store 301,000 bu. Shipping demand moderate. Sales 100,000 bu. Primary receipts 704 000 bu; last year 541,000 bu. Shipments 370,000 bu and 415,000 bu respectively. Car lots in good demand and fair supply. Prices ½@1c lower. No. 2 closed about 53¾c. No. 2 Yellow closed at 55¼c. No. 3 closed at 53½c. No. 3 Yellow sold at 55½c and closed at 55c. No. 4 sold at 53½@55½c. outside for yellow.

Corn by sample—Was weaker with prices ½@1c lower. Offerings large and demand fair. Sales on track and free on board. No Grade sold at 47c. No. 4 at 53@55¼c. No 3 at 54¼@55½c. No 3 Yellow at 55½@56c. No. 3 White at 52½@53¼c. No. 2 White at 52¾c.

Future Deliveries of No. 2 Corn—Moderately active and weaker and closed ⅜c to ½@⅝c lower.

SEPTEMBER—Sold at 53¼@54c. Opened at 54c and sold at 53⅝c, to 53¾c, to 53½c, to 53¾c, to 53¼c, to 53½c, and closed at 53½c asked.

OCTOBER—Sold at 53⅜c.

DECEMBER—Sold at 51¾@52¾c. Opened at 52⅝c to 52¾c and sold at 52⅝c, to 52@52⅛c, to 52¼c. to 52⅛c, to 52¼c, to 52c, to 51⅞@52⅛c, to 51⅞c, to 52c, to 51¾c, to 52c, to 51⅞@52c, and closed at 51⅞@52c asked.

MAY—Sold at 49¾@50⅝c. Opened at 50½c to 50⅝c, and sold at 50½@50⅝c, to 50⅝c to 50c, to 50½@50¼c. to 49⅞@50c, to 50⅛c, to 49¾c, to 50c, to 49⅞c, to 50c, to 49¾c, to 49⅞c, and closed at 49⅞c bid.

OATS—Were weakened with other Grains and on selling by cash interests and "longs." There was fair buying. Most of the day the buying was scattered, and at the last cereal interests bought December. Prices were ⅛c higher early, but receded ¼c and closed ⅜@½c lower. Arrivals were 278 cars, with 295 cars estimated for to-morrow. Withdrawals from private elevators 70,000 bu and from public 121,500 bu, the latter for shipment. Seaboard clearances were 29 000 bu. Cash bids were close to the market and New York reported 80,000 bu sold for export. Car lots to go to store steady to ¼c lower. No. 4 White sold at 32½@33c. No. 3 White at 32½@33¼c. Standard at 33¼c. Standard in store closed at 31¾c.

Oats by sample were in better demand, with white firm and mixed easier. Supply was liberal. Sales on track and free on board. No Grade at 32@33½c. No. 4 White at 31½@32½c. No. 3 at 31¼@33c. No. 3 White at 32½@33½c. Standard at 33@33¾c. No. 2 at 31½@32½c. No. 2 White at 33½@34c. Billed through. No. 4 White at 31c. No. 3 at 31¼c. No. 3 White at 32¼@33c. Standard at 32¾@33¼c. No. 2 White at 33c. At the river: No. 4 White at 31¾c. No. 3 at 30½@30¾c. No. 3 White at 30¾@32½c. Standard at 31¼@32½c. No. 4 at 29¾c.

Future Deliveries of Contract Oats—Were weak and lower.

SEPTEMBER—Sold at 31¾@32¾c. Opened at 32⅛c, sold to 31¾c at close.

DECEMBER—Active. Sold at 33¼@33¾c. Opened at 33⅝@33¾c to 33¾c, sold to 33⅛c to 33⅜c at close.

MAY—Active. Sold at 35¾@36¼c. Opened at 36⅛c to 36¼c, sold at 36¼c, irregularly to 35¾c at close.

RYE—Moderate trading and market early easier and later steadier. The receipts were 12 cars and there were withdrawn from private warehouse 14 cars. No export clearances from the seaboard. No. 1 Rye sold free on board at 74½c. No. 2 fresh receipts sold free on board at 73@73½c and in store was nominally 71@71½c. No. 3 fresh receipts sold at 71c.

Future Deliveries of No. 2 Rye—Steady with moderate trading. September sold at 71c to 71¼c, and closed 71¼c asked. December sold at 73c to 73¼c, and closed at 73¼c asked. May nominally 77c.

BARLEY—Less Barley was offered. Several buyers were present some who have not been buying before. Tone of the market was a little steadier. The better part of the medium grades sold fairly well. The market was a little more in favor of sellers, though it was no higher. Poor, thin Barley, stained, or very dirty remains easy, yet all grades were salable. Posted to day 50 cars inspected in. Small sales of Screenings reported; there was a quotable range of 33@39c for common to choice. Some low grade cars of Barley thin or badly stained, not sweet or dirty, sold at 38@38½c; some a little better at 40c. Low grade malting, small berry, off color or dirty, sold at 40@42c. Fair to good, depending on weight, ranged at 45@49c; some choice cars sold at 50@52c and fancy up to 55c. Some cars of nice color but thin Barley on the market. They could not be sold except at a value below the views of both shippers and receivers.

SEEDS—What business there was done was centered in Timothy and Flax Seeds, and both kinds showed improvement. In the case of Clover there was a nominally easier market.

Timothy—For cash and September delivery there was a firmer market. An advance of about 10c over last quoted prices was in evidence. About seven cars of cash Seed on the market and fair sales made, but usually prices were kept private. There was quoted for cash Seed a firmer market, with current values higher as noted. Nominal prices for fair to good country lots quoted at $2 65@2 75; high grade to fancy above, up to $2 85@2 90, possibly higher than that if fine enough. Dark and dirty about $2 40@2 60, depending on quality. September delivery sold finally at $3 00. September and January were changed at 7½c difference, or at a reduction in difference. Deferred futures were unchanged. October offered at $2 95 and $2 90 bid. January sold at $3 00.

Flax—There was a firm market, with a further advance of ½c. Nothing was done aside from the sale of a few cars. The market remains quite bare of offerings. Firmness based mainly on strong market in the Northwest. Receipts 5 cars or 4,510 bu and output 9 cars or 9,420 bu. At Minneapolis the receipts were 20 cars, at Duluth 7 cars. No. 1 Northwestern or No. 1 from the Northwest sold at $1 26, and No. 1 salable at $1 19. Rejected quotable at $1 15@1 19, depending on quality. September $1 19 bid. December salable at $1 21.

Clover—Was a shade easier on contract grade and on future delivery. Offerings to arrive were said to be more free and the weather is just right for threshing. Spot Seed remains scarce and this was not changed. Quotable: October delivery $12 25@12 35. Contract spot Seed was quotably about $12 25@12 35. Country lots, common to choice, $9 00@12 00; fancy above. Fair to good, $10 50@11 50.

HOG PRODUCTS—The market for Hog Products was only fairly active. Outside orders were moderate, with a preference given to the longer deliveries, and local trading was only fair. Hogs were in small supply, and prices slightly higher. Receipts at the leading Western packing points were estimated at 33,000, compared with 34 800 one year ago. Stocks reported on hand about as generally expected. Foreign markets were decidedly stronger for most descriptions. Liverpool quotations were reduced 6d on Hams, and advanced 3s on Backs and 6d on Lard and Cumberland Sides. Domestic markets steady. Receipts of Products were liberal—of Lard and Meats about 28 cars. Shipments were light—of Lard and Meats about 74 cars. Speculative market opened rather firm, with moderate miscellaneous buying, and prices ruled higher on all the leading articles. Later there was some inclination to realize, and a weaker feeling was manifested. Prices declined considerably all around, and the market closed steady around inside figures. Fair trading in January contracts. Shipping demand was fair, and offerings were not very large. Sales were moderate, and prices well maintained.

Mess Pork—Trade was fair, and the market was easy. Offerings were free and demand was moderate. Stock reduced 2,500 brls during August. Market opened rather steady, but a weak feeling was soon developed, and prices declined 15@20c on the whole range, and closed steady. Demand on shipping account was moderate and offerings were fair. Cash lots quotable at $11 00@11 12½.

SEPTEMBER—In moderate demand and offerings were fair. Sales were made at $11 00@11 15. Opened at $11 15, sold to $11 12½, to $11 15, to $11 05, to $11 10, to $11 00, and closed steady.

OCTOBER—Offering were moderately free, and the demand was fair. Sales were made at $11 07½@11 30. Opened at $11 30 sold to $11 17½, to $11 30, to $11 15, to $11 17½, to $11 10, to $11 15, to $11 10, to $11 15, to $11 07½@11 10, and closed steady.

JANUARY—Called for moderately and offerings were not very large. Sales were made at $12 57½@12 72½. Opened at $12 72½, sold to $12 57½, to $12 62½, to $12 57½, and closed steady.

Lard—A fair business was transacted in the Lard market, and the feeling was a little unsettled. Offerings were moderately free, and the demand was fair. Foreign advices more favorable to holders. Stocks reduced about 21,000 tcs. World's stock reduced about 48,000 tcs. Market opened rather firm, and prices were advanced 2½@5c. Later, a weaker feeling was developed, and prices settled back 7½@10c and closed steady. Demand on shipping account was moderate, with rather light offerings. Cash lots quotable at $6 95@6 97½. Loose lots in fair request with moderate offerings. Prices were steady at about 40c discount on October figures. Leaf Lard was in light demand with the offerings moderate. Quotably steady at about $6 87½. Neutral in fair demand with moderate offerings. Prices quotably steady at $8 25@8 37½ for No. 1 and $7 75@7 87½ for No. 2.

SEPTEMBER—In moderate request and offerings were fair. Sales were made at $6 95@7 02½. Opened at $7 02½, sold to $7 00, to $7 02½, to $6 95, and closed steady.

OCTOBER—Offerings were fair and the demand was moderate. Sales were made at $7 07½@7 17½. Opened at $7 15 to $7 17½, sold to $7 15@7 17½, to $7 17½, to $7 07½@7 10, and closed steady.

JANUARY—Demand moderate and offerings were only fair. Sales were made at $7 15@7 22½. Opened at $7 20 to $7 22½, sold to $7 15, and closed steady.

Short Rib Sides—Trade was fairly active in Short Rib Sides, especially for October delivery. Offerings were moderately free, and the demand was only fair. Market opened rather strong, and prices ruled 2½@5c higher but a weaker feeling was developed later with a little pressure to sell, and prices receded 12½@15c and closed steady at inside figures. Stock reduced 1,350 000 lbs during August. Demand on shipping account was moderate and offerings were fair. Cash lots quotable at $7 2½@7 25 according to weight.

SEPTEMBER—Offerings were moderate and the demand was only fair. Sales were made at $7 17½@7 30. Opened at $7 30, sold to $7 17½, and closed quiet.

OCTOBER—In fair request and offerings were rather free. Sales were made at $7 32½@7 47½. Opened at $7 42½ to $7 47½, sold to $7 42½, to $7 45, to $7 32½, and closed steady.

JANUARY—Demand was moderate and inquiry was fair. Sales were made at $6 60@6 70. Opened at $6 70, sold to $6 62½, to $6 65, to $6 60, and closed steady.

Other Meats—Trade was fairly active and mainly on domestic account. Exporters bought moderately. Offerings not very large, and inquiry was fair. Green Meats in limited supply with a light inquiry and prices ruled steady. Pickled Meats in fair request, with only moderate offerings, and prices well maintained. Dry Salted Meats were in active demand, with liberal offerings, and prices ruled easier. Smoked Meats called for moderately, and prices well supported. Closing prices were as follows.

GREEN—Hams, av 10@12 lbs, 9⅝@9¾c; 12@14 lbs, 9½@9⅝c, 14@16 lbs, 9⅜@9½c; 18@20 lbs, 9½@9⅝c. Skinned Hams, 10⅛@10¼c; Shoulders 7@7⅛c; Picnic Hams, 7⅛@7¼c; Bellies, 9½@11½c. GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Sept. 1.]

The week now closed has been one of seasonable advancement of the Corn crop toward maturity, attended with evidences of benefit from the rains the preceding week. In the central regions, as well as farther northward, much of the crop is now forward enough to be free from important injury from frost. A large part of the Iowa crop, and considerable areas of late planted Corn, or that which has been belated in growth, still needs three to four weeks of favorable weather. If September should be free from conditions particularly adverse to the Corn crop, the result in yield should come up to a point comparing well with any previous crop of this Grain. Much of the crop is now or nearly secure from important injury from frost.

The large crop of Oats is being threshed and marketed rather freely, and the later information supports the general indications of large yield and good quality of this Grain.

The later evidences from threshing returns in regard to the Winter Wheat crop have not essentially changed the indications as to yield but continue to reflect more or less disappointment in the quality of the Grain.

The Spring Wheat crop of the Northwest has been the subject of continued uncertainty as to extent of injury from the adverse conditions which have developed since the first of August. The situation has admitted of much of conflicting reports and wide range in deductions as to the extent of production. That a very great change has been brought about from the exceptionally high promise at the best position of the crop in that region is not subject to question. But that the damage has brought results to so low a point as has been assumed by some parties who are conspicuous in crop calculations is questionable. The three States of the Northwest were officially credited with a production of 173,000,000 bu last year. Careful and worthy calculations as to the actual extent of the crop, based on evidences of distribution, make it unmistakable that the production in reality was greater than the official indication. Recent extensive inquiry by the *Northwestern Miller* results in estimates which point to approximately 170,000,000 bu as this season's indication for the three States. The Minneapolis *Market Record* in another extensive canvass of the situation reaches results pointing to 167,000,000 bu. This compares with 244,000,000 bu as the calculation for the Aug. 1 indication, as interpreted by that publication, implying a general average decline of 36 per cent. If the three States should prove to have produced about 160,000,000 bu, other States counted in the Spring Wheat list to have grown 65,000,000 bu, and the Winter Wheat 350,000,000 bu, a total of 575,000,000 bu would be the result, which need not be discarded as a possibility, whatever may be assumed as to the probable size of the crop.

There is continuance of tardy marketing of Wheat and not as free movement of Oats as would seem to be consistent with the outcome of the crop. Speculative sentiment among the farmers is manifestly quite general. It may be remarked that the high quality of Oats this season is likely to induce holding liberal quantities against the possible needs of the next crop for mixing purposes in the betterment of grades.

The late rains have done something in betterment of the situation with reference to yield of Clover Seed in some regions, but this crop will undoubtedly prove to be deficient, as has been heretofore indicated.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Sept. 1.]

There is a fairly steady marketing of Hogs in the aggregate number. Total Western packing 360,000 Hogs, compared with 345,000 the preceding week and 375,000 two weeks ago. For corresponding time last year the number was 345,000, and two years ago 275,000 From March 1 the total is 10,135,000, against 10,230,000 a year ago, a decrease of 95,000. The quality of current offerings is fair as a rule. Prices are somewhat higher, prominent markets at the close averaging about $5 35 per 100 lbs, compared with $5 25 a week ago, $5 20 two weeks ago, $5 60 a year ago, $7 35 two years ago, and $6 35 three years ago.

The speculative Provision market was fairly active the past week, and the tone of the market was unsettled and prices irregular. At the close Mess Pork is lower for all deliveries, Lard is fractionally lower and Short Rib Sides moderately below the close a week ago, at Chicago. There seems to be no defined trend to the trade, and all of the usual influences on prices have only moderate significance to traders. The strength in the Grain markets was a factor at times, but this feature of the situation failed to support prices. The export clearances of Products were practically the same as a week ago, but were decidedly below the record for the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year.
Pork, pounds	850,000	662,000
Bacon, pounds	9,102,000	15,732,000
Total, Meats	9,452,000	16,394,000
Lard, pounds	8,193,000	8,364,000
Total, Product	17,645,000	24,758,000

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since March 1, at undermentioned places compared with last year, as follows:

AGRICULTURE IN GREAT BRITAIN.

[From the Agricultural Gazette, Aug. 22.]

The weather has become unsettled. In the early districts, as a rule, there has been very little rain since the middle of June, and, as rain would now be too late to benefit the small acreage of Grain not carted, fine weather for finishing the harvest in those parts of the country is desirable. On many farms, however, the fields have been nearly cleared, and on some entirely, so that rain is needed not only to help the root crops and pastures, but also to soften the stubble land for cultivation. At present the land is too hard for even the plow, not only after Grain, but also in some places after Tares cleared off the fields weeks ago. Wheat appears to be yielding somewhat better than the low expectations formed with respect to it. One estimate from a threshing machine owner in a good Grain district is 4 qrs per acre as the average, and he mentions 6 qrs as having been obtained from an exceptionally good piece or two This is not bad for a season in which Wheat was thin on the ground and probably it is a great deal better than will be returned for the crop as a whole, as the district in question is far beyond the country as a whole in productiveness The Barley crop seems to be the most disappointing of all cereals, as it promised at one time to be the best in many places. Full-bodied malting samples, apparently, will be scarce.

THE WEATHER CONDITIONS.

The weather map shows wet weather—extremely heavy rainfall over Northwest. Cloudy and generally wet in Manitoba. St Paul has 2.16, Moorehead 1.20, Duluth 1.58 and raining. Bismarck .86. Generally wet West. Falls are light to fair. Warmer in Manitoba. Cooler Northwest. Indications are for generally fair weather. The storm has moved across the Lake Region.

WHEAT AT PRIMARY MARKETS.

ITEMS OF GENERAL INTEREST.

The regular semi-annual dividend of 2 per cent will be paid on Cambria Iron stock on Oct. 1 to stockholders of record Sept. 15.

The directors of the Chicago, Milwaukee and St. Paul Railroad, Thursday, declared the regular semi-annual dividend of 3½ per cent on the common and preferred stocks.

It is reported that the West Side Belt Line of Pittsburgh was sold, Tuesday, to the Gould interests for $10,000,000. This affords the Wabash Railway an entrance into Pittsburg.

A telegram from Greencastle, Me., Thursday, said: "Killing frost all over the State Wednesday night." This may greatly injure the Sweet Corn used for canning, also the Tomato crop, and affect the pack of canned Tomatoes and Corn.

After an idleness of six months, Morea colliery of the Dodson Coal Company, Mahanoy City, Pa., will resume full handed Sept. 1, employing 800 men and boys. The collieries of the Philadelphia and Reading Coal and Iron Company will suspend operations for a week.

The directors of the Chicago City Railway Company have declared the usual dividend of 2½ per cent upon the capital stock, payable Sept. 30 to stockholders of record at the close of business Sept. 12 Transfer books close from Sept. 13 to Sept. 17, both inclusive.

Directors are expected to meet shortly to act on the first preferred dividend of Colorado Southern, and may lessen the rate. Earnings for the year, it is estimated, will show, after allowing for the first preferred dividend, a surplus equal to 1½ per cent on the second preferred.

A preliminary estimate of gross earnings of the American Railways for August places them at about a $6 000 increase over the same month a year ago. As the July gross increased some $6,000, this indicates a gain in receipts for the first two months of the present fiscal year of over $12,000.

The inter-State Telephone and Telegraph Company has given a trust deed to the American Trust and Savings Bank, Chicago, for the purpose of acquiring and enlarging the property of the Northwestern Telephone Company and of retiring the bonds now outstanding. Provision is made for the issue of $50,000,000 in 5 per cent bonds.

The San Francisco correspondent of the *Northwestern Miller*, writing under date of Aug 25, says: "Harvesting is about completed and the only section where the crop has not turned out very light is the Southern Coast district which never grows a very large amount anyway. The general crop will be considerably below last year's, which was about 485 000 tons. No shipping is being done and the year's export movement probably will not reach 50,000 tons"

The annual report of the American Locomotive Company will show that the past fiscal year was highly satisfactory as regards profits. The company at present is, however, like the rest of the equipment companies, unfavorably affected by the diminished demand for locomotives. It is doubtful if there will be any material improvement in the demand for engines until after the first of the coming year. The rather discouraging outlook for new business is the reason given for the recent selling of the common stock.

The Comptroller of the Currency has declared dividends in favor of creditors of insolvent National banks as follows: A second dividend of 25 per cent in favor of creditors of the First National Bank, Macon, Ga., making in all 65 per cent on claims proved amounting to $605,772. A second dividend of 50 per cent in favor of creditors of the Farmers' National Bank, Henrietta, Tex., making in all 75 per cent on claims proved amounting to $89,848. A final dividend of 7 7-10 per cent in favor of creditors of the First National Bank of Larimore, N D., making in all 32 7-10 per cent on claims proved amounting to $56,669.

The financial reorganization plan of the Colorado Fuel and Iron Company having been declared effective the management is making preparations to carry out its original development scheme. The company has executed a 21-year lease for the iron ore deposits in Gunnison County, Colorado, and will develop the White Pine district, where they are located. The ore is of excellent quality. A spur road from the main line of the Denver and Rio Grande to the new ore district will be built and the entire section rapidly developed. One-third of the company's ore supply will be taken from the Gunnison field.

The plan suggested by persons on the Pacific Coast to reorganize the Pacific Packing and Navigation Company has been given a cool reception at the hands of the creditors, judging from the slow manner in which deposits are being made under the proposed scheme. The reorganization committee offered to receive deposits of bonds and notes up to Sept. 1, but as the situation now stands everything indicates that the proposition will be rejected, or, in other words, the requisite amount of securities will not be handed in to the committee. The only thing apparently that can save the scheme from failure is for the large holders to come in at the last moment.

The *Wall Street Journal* says: "As a result of the sale of the foreign holdings of New York Central stock in the past three years and their purchase by the Rockefeller interests, Messrs. William Rockefeller and James Stillman have gradually gathered up into their hands many of the leading threads of management. While Mr. William K. Vanderbilt still is the active head of the line and still reserves to himself final authority on all matters of importance, the Rockefeller-Stillman ownership is now preponderating, and it is only a question of time when Rockefeller and Stillman will take Mr. Vanderbilt's holdings and the helm of the Vanderbilt properties. After control of the New York Central has been acquired the Standard Oil interests, it is thought, will attempt an invasion of the trunk line railroads."

A press dispatch from Portland, Ore., says: "The refusal of the foreign market to respond to the increased strength of the Grain market on this side of the Atlantic has demoralized the export business of the Northwest. The operation of buyers is confined almost exclusively to buying for the Eastern and San Francisco markets. There is some demand for milling Wheat, but that is greatly curtailed owing to the exorbitant prices demanded. Another condition which has had surprising effect in the market is the refusal of the ship owners' combine to recede from the unusually high rate of 27s 6d fixed some time ago. Prices of all grades are unusually high. Shipments of Wheat from Portland and Puget Sound ports last month exceeded all previous records, being 516,105 bu, as compared with 340,000 bu for August of last year."

The receipts of Anthracite Coal by lake at docks in the Chicago River during the month of August aggregated 145,490 tons, exceeding the showing of the previous month by 9,171 tons. The movement was the largest of thirty days during the past four years, September, 1903, when 204,129 tons were delivered, and October, 1901, when receipts reached a total of 149,425 tons, being the only exceptions. The total for the season, however, is only 398,977 tons, as compared with 579,644 tons delivered up to the end of August last year. The shipments from lower ports did not commence until late in June, while during the previous year 131,913 tons of Coal had been delivered at Chicago at the end of May. Figuring from June 1, therefore, the present season's business is 21,248 tons ahead of last year.

The London *Standard's* Vienna correspondent, writing under date of Aug. 22, says: "In consideration of the interests of the peasantry in Galicia, who are suffering much from the effects of the drouth, the war office has cancelled the maneuvers there for this year. Not only agriculture, but manufactures also are suffering more or less heavy losses from the same cause. Coal mines in Western Bohemia cannot fulfill orders in contract time, as navigation on the Elbe is impossible. The iron industry suffers from the small demand for agricultural machinery, and the textile industry from the bad Flax Seed harvest and the decreasing consumption by needy peasants. Mills and paper factories using water power have had to suspend work for days, and even Sugar manufacturers complain of the smallness of the Beet root crop Finally brewers complain of the rise in the price of Barley and Hops. Rain fell heavily to-day in many parts of the Monarchy."

The Illinois Trust and Savings Bank, Chicago, mailed to all stockholders of the South Side Elevated Railroad Company, Wednesday, a circular letter announcing the opening of subscriptions to the first $3,000,000 of the new issue of $8,000,000 of 4½ per cent bonds authorized to raise money for the extensions planned by the railroad company. The entire issue of the bonds has been finished by the engravers, and the first $3,000,000 has been delivered to the bank by the railroad company. The remainder is in the treasury of the company and will be issued at intervals later as the construction needs require. It is these first $3,000,000 of the bonds that the bank is offering to stockholders of the road for subscription, in accordance with the agreement under which the bonds were underwritten by the bank. The bonds were bought by the bank from the road at 97½, and they are now offered to the stockholders of the road at par. Stockholders have thirty days in which to subscribe. All stockholders of the road, no matter how small are their holdings, are entitled to apply for at least one $1,000 bond. Holders of over thirty-three shares of the road's stock are entitled to apply for bonds approximately in the proportion of one $1,000 bond for each thirty-three shares of stock. Payment must be made by the end of September.

FORWARD YOUR GRAIN TO CHICAGO.

The receipts of Grain at Chicago were unusually heavy during the week just closed. It is evident that the officials of the Chicago Board of Trade are doing all in their power to induce interior shippers to forward their consignments to this market, and also making efforts which will encourage buyers in Eastern and foreign markets to seek their supplies in Chicago. The State Inspection Department and the proper committees have agreed on a more proper and satisfactory system of inspecting and grading of Grain established samples for the guidance of Inspectors, which, if adhered to, will result in little complaint from interior shippers. The Transportation Committee will shortly establish a Freight Bureau to prevent, if possible, any discrimination against Chicago, either in forwarding or receiving—in fact, will insist on Chicago being placed on an equitable freight basis with other markets of the country. Indications now point to a revival in the Grain trade of Chicago—largely increased receipts of all kinds and speculation will follow the actual property.

JULY OATS OF 1902.

The decision of Judge Chrytraus in the case of the "squeeze" in July Oats in 1902, rendered to-day, fixed the market value of Standard Oats on July 31, 1902, at 42½c, and of No. 2 cash Oats at 83c.

The following table exhibits the number of Hogs estimated packed from March 1 to date in this city as compared with the returns of previous years.

1904............	2 457,000	1901	3,302,000
1903............	3,032 000	1900	3 250,000
1902.....	3,125,000	1899	3 310,000

The receipts of Flour and Grain at Chicago for the past week were equal to 8,063,000 bu and the shipments were equal to 3,052,000 bu. For the corresponding week in 1903 the receipts were equal to 4,359,000 bu, and the shipments to 3,494,000 bu. These figures are supposed to include the through shipments of Flour

The weekly statement of the New York banks shows the following changes: Decreases—Reserves on all deposits, $9,872 000; Reserves less United States deposits, $9 875,275; Specie, $6,314,600; Legal Tenders, $1,112 700. Increase Loans $18,185,100; Deposits, $9,781,200; Circulation, $1,253,300 Banks hold $17,513 400 in excess of legal requirements

The Provision Inspection Committee of the Chicago Board of Trade has decided that warehouse receipts can be issued by the registrar on houses where 80 per cent of the value of the Product stored is covered by insurance. Recently the ruling was made that no certificates were to be issued unless a full line of insurance could be secured by any of the regular warehouses.

New York Central Railroad bonds to the amount of $5 146,000 mature on Sept. 1. This is next to the last batch of the old bonds to be refunded under the $100,000,000 Gold refunding mortgage The rate of interest of the old bonds is 6 per cent and that of the new bonds 3½ per cent. Refunding 3½ per cent bonds sufficient for refunding purposes have been advertised for sale for that date.

Export clearances for the past week from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans, and Galveston included 82,000 brls of Flour and 115,000 bu Wheat, against 76,000 brls of Flour and 189,000 bu of Wheat the preceding week, an increase of 6,000 brls of Flour and a decrease of 74,000 bu of Wheat. For the corresponding week last year the exports were 147 000 brls of Flour and 668,000 bu of Wheat.

The *Modern Miller* says: "Excellent weather conditions continue for the seeding of Winter Wheat. The soil is in fine condition nearly everywhere to give the plant a good start this fall. The prospects are for a larger acreage, owing to the high prices prevailing at present. The marketing of this year's Wheat crop continues free, but the quality of the Grain is unusually low in test weight. Farmers are holding much of their choice Wheat in granaries for higher prices."

The outlook for getting a quorum present at the annual meeting of the Standard Rope and Twine Company is not very encouraging The meeting is scheduled to take place on Sept. 26 Relative to the affairs of the company, a director is quoted as saying: "Why, it costs us about $30,000 a year merely to carry our property rights. We have the productive capacity, but not the demand for our products, because the cordage business has undergone such a change in recent years. So many of our plants are idle that we ask ourselves why we shouldn't enter into other branches of industry. Another handicap is the paying of interest on nearly $3,000,000 worth of bonds. The bondholders don't care to bestir themselves so long as they can get their money. Then the stockholders seem to be asleep. They won't give us their proxies, even, for fear of involving themselves in some responsibility All we ask is to get enough proxies to have the necessary majority of 51 per cent. It is all right to be a 'kicker,' but a 'kicker' must have some better plan to suggest to the present management or improve on the methods now in vogue"

The *Times of India*, under date of Aug. 6, says. "Locusts are officially reported to be damaging the young crops in parts of Bombay, the Central Provinces, Berar, and the Central India States. They have also made their appearance in the United Provinces and the Punjab, but the young autumn crops have so far escaped their ravages, which is lucky for these provinces, where Cotton, Sugar Cane and Indigo are promising well. The weather conditions at the close of this week show a considerable improvement over the two preceding ones. Last week much anxiety was beginning to be felt, but this is now considerably allayed owing to the better conditions now prevailing. With the exception of Gujarat, rain in more or less quantity has been general on this side of India; and in Gujarat the prospects are hopeful, seeing that rain has fallen in Broach and in Kathiawar. Nearly everywhere the rain is below the average; with Agra and Delhi, however, it is the reverse. Yesterday's meteorological report from Cawnpore states: 'All crops suffering from too much rain.' Reports of the Cotton crops are good in general, and from some districts we hear that the plants are in flower. Food Grains want more rain, and are in defect in some places, more especially in Gujarat and Khandeish; the transplantation of Rice is being much retarded. It is anticipated that the Gingellyseed crop of Havri Khandeish will be below the average in quantity."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand continues on the hand-to-mouth order, with prices steady as quoted on the second page.

WINTER WHEAT—Was in good demand at a decline of 1c, with ordinary Wheat showing even a greater decline. Choice Wheat sells all right, but poor Wheat moves slowly. BARLEY—Was about steady. There seemed to be no price changes to day. Demand and offerings were well balanced No fancy cars to-day offered. Supply was mainly of fair to good malting Some poor, thin, or dirty cars offered a few had to go as feed grade Bright but thin Barley dull, sellers cannot get such bids for it as they would like or shippers expect. While the color recommends it, the thin berry is against it. Thirty-five cars were inspected in. Poor, thin, badly stained or dirty, feed Barley, sold at 36@38½c. Low grade malting, dirty, small berry, of poor color, sold at 40@43c. Fair to good color, depending on weight and other conditions, ranged at 44@48c main trading at 45@48c. Higher grade, or choice sold at 49½@50c Fancy not offered, nominally 52@53c.

SEEDS—Little business was done. No price changes developed. Tone of the market for Timothy was somewhat heavier; the rest were steady.

Timothy—Most of the business done was in changing September delivery to January at 7½c difference and to March at 20c difference in favor of the deferred delivery always. No new business in a speculative way was done. September was offered at $3 00 and $2 90 was the best bid heard. October offered at $3 00, while for January $3 00 was bid. Several cars of cash Seed were offered. Quality not so good as yesterday as a rule Sales limited and it could not be learned what the sale prices were. The market was called heavy Demand based on order trade, was very tame Buyers indifferent partially perhaps on account of adjournment over Monday, it being reasonable to expect that Tuesday will witness good offerings. Fair to good country lots quotable at $2 65@2 75; high grade to fancy above, up to $2 85@2 90, possibly higher than that if fine enough. Dark and dirty about $2 40@2 60, depending on quality.

Flax—Was unchanged. Upward tendency apparent the last couple days was checked but late advance maintained. Offerings very small Arrivals 8 cars or 7,200 bu, and 1 car or 618 bu taken out. Minneapolis receipts 12 cars and Duluth got 7 cars. No. 1 Northwestern or No. 1 from the Northwest sold sparingly at $1 20, and No. 1 salable at $1 10. Rejected quotable at $1 15@1 19, depending on quality. September nominally $1 19. December salable at $1 21.

Clover Was called steady. There was more on sale. Prices were said to be just the same as last quoted, or as follows: October delivery, $12 25@12 35. Contract spot Seed was quotably about $12 25@12 35. Country lots, common to choice $9 00@12 00; fancy above. Fair to good, $11 50@11 50

HOG PRODUCTS—Little life was manifested in Hog Products, and the changes were slight Outside orders were limited, and local operators and packers not inclined to do much business, owing to the labor troubles and holiday on Monday Offerings were moderate, and the general demand somewhat limited. Hogs were in light supply and steady, with a fair supply expected the coming week. Receipts at the leading Western packing points were 21,600. Foreign markets were steady, with an advance of 6d in Cumberland Sides. Domestic markets steady Fluctuations in the prices of the speculative articles were confined within narrow ranges and closed at about outside figures. Trading chiefly in October and January contracts. Receipts of Product were liberal—of Lard and Meats about 37 cars Shipments were moderate of Lard and Meats about 97 cars. Inquiry on shipping account was moderate, and offerings were only fair No material change to note in prices, and sales not very large.

Mess Pork—Not much interest was manifested in the market for Mess Pork, and there was no particular change to note in prices Offerings were moderate and the demand was light Fluctuations were confined within a range of 5@7½c, and closed at outside figures Shipping demand was small, and offerings were moderate. Cash lots quotable at $11 00@11 12½.

SEPTEMBER—Quiet and steady, with small sales at $11 00.

OCTOBER—In moderate request, and offerings rather light. Sales were made at $11 05@11 12½ Opened at $11 10, sold to $11 07½, to $11 10, to $11 05, to $11 12½, to $11 10, and closed steady.

NOVEMBER - Sold sparingly at $11 15.

JANUARY—Called for moderately and offerings were somewhat limited. Sales were made at $12 57½@12 62½ Opened at $12 60, sold to $12 62½, to $12 57½, to $12 60@12 62½, and closed steady

Lard—Only a limited business was reported in the Lard market, and the feeling was comparatively steady. Offerings were light, and the inquiry was small. Prices ruled about 2½c higher, and the market closed comparatively steady. Demand on shipping account was moderate, with rather light offerings. Cash lots quotable at $7 05@7 07½. Loose lots in fair request with moderate offerings. Prices were steady at about 10c discount on October figures. Leaf Lard was in light demand with the offerings moderate. Quotably steady at about $6 87½ Neutral in fair demand with moderate offerings Prices quotably steady at $8 25@8 37½ for No. 1 and $7 75@7 87½ for No. 2.

SEPTEMBER—Quiet and quotable at $7 00.

OCTOBER—Demand moderate and offerings small A few trades made at $7 10@7 12½, and the market closed steady at the range

JANUARY—Quiet, with small sales at $7 15.

Short Rib Sides—Trade was comparatively light in the market for Short Rib Sides, and the feeling was steadier Prices rather inclined in favor of sellers—advanced about 7½@10c and the market closed rather steady. Offerings were light, and demand was limited. Shipping demand was light, and offerings were moderate Cash lots quotable at $7 25@7 37½, according to weight.

SEPTEMBER—Quiet, with a limited business at $7 17½@7 27½, and closed at $7 27½.

OCTOBER—In fair request and offerings were moderate. Sales were made at $7 32½@7 42½. Opened at $7 32½, sold to $7 42½, and closed steady

JANUARY—Offerings were not very large, and the demand was fair. Sales were made at $6 60@6 65 Opened at $6 62½, sold to $6 62½@6 65, to $6 60@6 62½, and closed steady.

Other Meats—Trade was only fair, and mainly on domestic account Exporters bought sparingly. Offerings not very large, and inquiry was fair. Green Meats in limited supply with a light inquiry and prices ruled steady. Pickled Meats in fair request, with only moderate offerings, and prices well maintained. Dry Salted Meats were in active demand, with liberal offerings, and prices ruled steadier. Smoked Meats called for moderately, and prices well supported. Closing prices were as follows:

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, September 2, 1904

The money market West is developing firmness and 4½ per cent is the minimum rate. More money is being loaned at this figure running up to the first of the year, but beyond that period banks are asking 5 per cent. The chief demand for loans is from the Grain interests, the high price of Wheat requiring an increased amount of money to handle the movement. Wheat is moving more freely than last year and in the Northwest is just beginning. Currency is being shipped from New York and Chicago banks to the Grain and Cotton sections. Reports received from the Comptroller of the Currency show that the banks in the Grain sections are in a position to meet any demand on them, and while they will depend only on their deposits with reserve agents for funds to meet requirements the amount to be borrowed this year is about the same as last. New York banks expect a heavy demand from the West and South and are in excellent position to meet them. Time money in New York was 2½ to 3½ per cent and on the Stock Exchange call loans were at ⅞ to 1 per cent.

New York exchange was easy at 25c to 40c discount per $1,000, and Chicago banks ordered currency shipped from New York.

Foreign exchange was easier, with a larger supply of Cotton bills. Shippers' sixty-day documentary sterling bills on London ranged at 483¾ @484¼ and closed at 483¾@484.

In the mercantile trade the business was generally increased. Dry goods jobbers had a better run of orders, although sales were not as heavy as last year being on small lots. Interior distributors are inclined to run less risk owing to uncertain outcome of the Corn crop, and if necessary to have additional supplies they would be in the market for larger orders later. Cotton goods are firmly held and prices of woolens and silks are steady. Clothing is being taken fairly and sales of shoes are up to an average. Uncertainty prevails in the Iron and Steel trade over the future course of prices, and buying of large lots is shut off. There is a great deal of rail tonnage in sight which would be placed at lower prices. During the boom in the Iron and Steel trade two years ago, when consumers were begging for deliveries and placing large orders regardless of price, the large manufacturers prevented prices from advancing wildly under competitive bidding. Now that orders getting scarce and prices prices are maintained buyers are forgetful of the past and want lower figures. Sales of pig Iron were slow, but prices unchanged. Stocks in the hands of most of the northern furnace men are light. Wire nails are selling freely owing to the recent decline in prices. The general hardware trade is improving. There is a better tone to the Coal trade and business is increasing in the West. Anthracite Coal advanced 10c a ton, but no further advances are expected this season, the maximum card prices having been reached. Buying of lumber, particularly yellow pine and hemlock is larger purchases being mainly by local builders. The distribution of paints, oils and drugs was of fair volume. Collections are generally good.

Cotton in New York was irregular. There were good fluctuations and a large trade. Every one has been "bearish" on the crop prospects but early estimates are being cut down. In Texas there is said to have been a loss of 10 per cent from the boll weevil's work in August. The "bull" interest was headed by the New Orleans party. On the advance profits were taken which made an irregular market. The movement is enlarging, the new crop being rushed to market rapidly. At the last the Government crop report made the condition Aug. 25 at 81 1, against 91.6 in July and 81.2 last year. Heavy selling followed the issuance of the report. Closing prices were at losses of 17@43 points for the week.

In Local Securities the feature was the boom in traction shares. There were rumors of an intending merger of all the surface lines, the interests that control the Union Traction figuring extensively in City Railway. There were also renewed rumors of a possible settlement of the franchise question and a more active demand for shares. North Chicago, West Chicago Railway, and City Railway all made substantial advances, although the top prices were not held on all shares. There is a deal on for a consolidation of all surface roads, but it has not been closed. Elevated shares advanced fairly. Trading in Industrials was improved and prices moved irregularly within a fair range. Carbon preferred advanced, while the common made a small loss. Chicago Edison advanced sharply. Trading in bonds was increased and at good advances.

Stocks in New York were less active and the feeling in favor of higher prices was less pronounced than of late. At the same time some of the leading traders were not advising "short" sales. Commission house orders were less numerous, and there was a disposition to even up for the three holidays from Friday until Tuesday. This had a great deal to do with curtailing operations toward the last. There was nothing in the commodity markets other than Cotton to create especial uneasiness, and reports from the West regarding labor troubles were less assuring. Money was easy, and rates remained at 1 per cent, with some business at less. Traffic returns from all railroads were more favorable, the Western Grain movement being the best of the year. A feature of the trading was the disposition to take profits on all hard spots. The annual report of the Wabash Railroad was construed as "bearish," net earnings decreasing, but it has little effect on its securities. Coalers were quite active and strong, with a good advance, which was well maintained. The movement of prices throughout the list was irregular, and the close showed more losses than gains as compared with the previous week. In the bond market there was a fair business and a steady tone to prices. Total sales on the New York Stock Exchange were 3,377,0[illegible] shares, compared with 2 7[illegible],000 shares the previous week and 1,408,000 shares for the same time last year.

COMMERCIAL.

A very good business was transacted in commercial circles on the Chicago Board of Trade the past week. Outside speculative orders were quite numerous, but in many instances for more moderate amounts. Trading on local account was quite active. Receiving interests were favored with more liberal receipts and this branch of the trade was satisfactory. Weather and crop conditions were prominent influences in shaping the course of speculative values and sentiment was greatly divided at times, resulting in choppy, nervous markets, which offered many opportunities for investment and quick returns. Conditions such as are now prevalent are likely to prevail for some weeks to come, or until more definite and accurate returns as to the probable outturn of the crops are at hand.

Weather conditions abroad were rather more satisfactory this week. Beneficial rains were reported in Roumania, which will enable farmers to put the ground in condition for fall sowings. The new crops are said to be moving freely in Germany and are of excellent quality. Reports from Eastern and Southeastern Russia continue favorable and the movement is now under way in the Southwestern Provinces. There is little change to note in conditions in France. Considerable Wheat is reported stacked in the United Kingdom and the indicated yield is 30 bu, as against 38 bu the average of recent years. Reports from India and Argentina continue promising.

The past week was generally favorable for harvesting and threshing operations in the Northwest and reports as to yields were very conflicting. Recent estimates for the three States varied from 128,000,000 to 158,000,000 bu. Some early Wheat in northern portions of North Dakota is yet unripe, and rust is still damaging late Wheat in that State and much of crop will not be cut. Advices from Manitoba were likewise uncertain, estimates ranging anywhere from 37,000,000 bu to 53,000,000 bu. Corn made fair progress the past week through the principal surplus States, though the excessive rains in Iowa and Nebraska probably worked some injury. Private estimates as to the condition compared with August 1 show a decline of about 5 points, with the shrinkage chiefly in the principal commercial States. Indicated yield was placed at 2,350,000,000 bu.

The movement of Grain from the farms and interior elevators was again very fair the past week. Weather conditions, however, were not of the best in many districts, there being heavy rains West, which had a tendency to delay marketing. In the Northwest the movement of Wheat was moderate, the aggregate falling considerably short of a year ago. Through the Southwest the movement was liberal of Wheat and large of coarse Grains. In the West and Central West coarse Grains, more particularly Corn, were moved in larger quantities and the arrivals at terminal points were liberal. Oats, too, are moving freely. Through the South and East Grain is being marketed in fair quantities. The movement from the West toward the seaboard, via the lakes, was moderate. Arrivals at the seaboard were fair. Exports of Flour and Wheat continue very moderate, as also Corn. Bookings for future shipments are smaller than customary at this season. According to the official visible supply as compiled by the Secretary of the Chicago Board of Trade there was a decrease in Wheat and Corn, and an increase in Oats, Rye and Barley.

A good business was transacted in the leading speculative markets on 'Change the past week. Rather an unsettled feeling was prevalent and fluctuations covered a considerable range. Crop news was the chief dominating influence in Grain and was decidedly conflicting. Surrounding conditions the first of the week were favorable to the "long" interest and the Grain markets were strong and higher under a good miscellaneous demand and moderate speculative offerings. Reports of sensational losses by rust in the Northwest caused "shorts" considerable uneasiness and in covering prices were advanced. Corn also ruled higher on adverse weather conditions, and Oats were firm in sympathy. At the improvement established in values, liquidation and profit taking led by Wheat holders brought about a weaker feeling and a material decline followed, but the close was fairly steady. Hog Products were weak, the trade being fairly active most of the week. Hogs were in larger supply and prices lower and the Grain markets easy. Offerings were freer all around, while the demand was only moderate. Lower prices were recorded and liquidation of "long" property quite general on the decline. Labor conditions in packing circles at the Stock Yards continue unsatisfactory and output of Product is steadily enlarging. Packing of the West for the week 5,000 ahead of last year; season, 10,135,000, against 10,30[illegible] in 1903.

A good business was transacted in cash Grain during the week just closed. Offerings were somewhat larger and there was a good demand. Wheat was in good request, elevator interests and milling interests taking the bulk of the offerings. Corn sold well and there was a fair call for cargoes, August loading. Receipts were larger and prices firm. Oats were lower but the demand good. Rye was quiet and steady. More doing in Barley, maltsters buying and receipts increasing. Prices steady for best while common grades were easy. Seeds were quiet. Timothy was weaker. Hay was dull. Offerings large and demand only fair. Prices easy. Hog Products were in fair demand and the offerings moderate. Sales not very large and prices inclined to favor buyers. Hogs were lower. Cattle, too, were lower and Sheep also declined, which was due in a measure to the facilities for handling being restricted.

FREIGHTS—The special rate of 20½c on coarse Grains from Minneapolis to New York will be taken out September 11. Chicago shippers complain that they are being discriminated against and held a meeting Friday to see what can be done. Rates are steady at the following:

To—	From Chicago. Domestic.	Export.	From Miss. River. Domestic.	Export.
Boston............	19½	13½	22½	16
New York..........	17½	13½	19½	16
Philadelphia	15½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News....	14½	11	16½	14½

Flour rates are to be 17½c domestic and 16c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 5c per bu on Wheat, Corn, Barley and Oats.

Ocean rates on Grain are steady, with a better demand for tonnage. Rates on Grain are 1d per bu from New York and 1d from Boston. Through rate on Wheat from Chicago to Liverpool is 6c per bu and Corn 5⅞c. Flour 19c per 100 lbs and Provisions 35⅛c per 100 lbs.

Lake rates are steady, with a light demand for boats, at 1⅛c on Wheat and 1c on Corn to Buffalo.

FLOUR—The market is still in a dull, unsatisfactory condition, the demand showing no perceptible improvement, sales being confined to the actual needs of city and domestic jobbers. Foreign bids continue too far below the ideas of millers to admit of acceptance. In most instances they are 25@50c out of line. Exporters at the same time report bids on the lower grades of Winter and Kansas Flours a little closer to the market while the bids on Spring Wheat Flour are even lower than a week ago. Stocks abroad are said to be low, particularly of American Flours. Local jobbers as well as the trade tributary to the Chicago market are keeping close to shore and purchasing only such quantities as are needed to keep assortments. In prices there is no essential change to note, millers as a rule adhering to former figures, $6 60 being the asking price of Standard Spring Patents. There is no disposition on the part of the large consumers and handlers of Flour to anticipate future wants, in fact there is a general lack of confidence in present values. Offerings of Flour from the outside are only moderate, there being no particular pressure from any quarter. Stocks at Liverpool September 1 were reported 53,000 brls, against 74,000 brls August 1 and 40,000 brls September 1, 1903. Local supplies are now reported 30,150 brls, compared with 39,500 brls August 1 and 34,000 brls September 1, 1903. The week closed steady at the following prices:

MILLSTUFFS—Ruled firm during the past week. The demand has been good, and the offerings light. Bran sold at $18 75@19 00 per ton in 100-lb sacks, sacks included.

WINTER WHEAT—The market has ruled rather steady during the week, and fluctuations have not been severe. There was a recovery of some 2@3c from the decline near the close of last week, and this advance was maintained. The market has acted in sympathy with the speculative market, but soft Wheat at the close showed independent strength. Demand has been good; chiefly of a speculative character, the Wheat being bought principally to place in store, and sold against in the speculative market. Hence it was that the choice Wheat, or good Wheat which could be cleaned into contract grade, was the most desirable, and made poor Wheat relatively slow. Millers bought only moderately during the past week. The receipts did not show any increase and were only moderate—falling little short of last week. The quality of the Wheat was good. The stock of No. 2 Red in store was 437,000 bu, against 428,000 bu the previous week. For the week the receipts were 547 cars, against 710 cars the previous week. There were withdrawn from public elevators 68,580, and from private warehouses there were withdrawn 376 cars and 224,400 bu. No. 2 Red in store ranged at $1 06¾@1 07¼, up to $1 07¼@1 09⅜, and back to $1 07½@1 08½, and then ruled strong at the close at $1 08@1 10. Fresh arrivals free on board sold at $1 08@1 11. No. 3 Red fresh receipts free on board sold at $1 06@1 11. No. 4 Red fresh arrivals free on board sold at 95c@$1 08½ for poor to very choice. No Grade Red sold at 85c @$1 03—outside very choice. No. 2 Hard fresh arrivals free on board sold at $1 05½@1 10. No. 3 Hard fresh arrivals free on board sold at $1 01@1 09, billed through at $1 07½, and at the river at 95c@$1 02½. No. 4 Hard sold free on board at 95c@$1 04, and at the river at 93@97c. No. 3 White sold at $1 05¼@1 08.

SPRING WHEAT—There has been a little more doing in a car lot way during the past week. There was a little more Wheat received than of late, the receipts showing some little increase, which admitted of more doing to the extent of the increased offerings. Choice Wheat sold very readily, this being in demand, but the poor Wheat was slow of sale—no one caring to buy it. The receipts for the week were 51 cars, against 20 cars last week. There were withdrawals from public elevators, 10,5[illegible]0 bu, and 9 cars from private warehouses. No 1 Northern was quotably $1 16@1 18, but entirely nominal. No. 2 Northern fresh arrivals free on board quotable at $1 10@1 14. No. 3 Spring fresh receipts sold at $1 10@1 12, and ranged at $1 02@1 1[illegible], with a sale at the river at $1 08½. No. 4 Spring sold at 7[illegible]c for poor, at 83@95c for common to good, and $1 04@1 07½ for choice, with a sale at the river at 83⅛c.

REGULAR WHEAT—The market was erratic and sensitive all the week, the close showing new September ⅝c lower, while December gained ⅛c and May unchanged. The trade was of large volume with crop news the chief governing influence. The situation the opening days was strong and under an urgent miscellaneous demand and moderate offerings new September touched $1 08¼, while December sold to $1 10 and May to $1 12¼. "Shorts" covered on the advance which was rapid. Northwest advices were decidedly sensational. The *Orange Judd Farmer* report proved a "bull" help claiming that returns covering fully one-third of the Wheat growing counties show a heavy drop in the condition of Winter Wheat when harvested as compared with the condition reported on July 1. Complete threshing returns develop the fact that the rate of yield in the Ohio, Mississippi, and Missouri Valleys has fallen much short of the moderate expectations entertained when the crop was cut. The quality is also generally poor, shrunken from rust in Ohio, Indiana, Michigan and Nebraska, and bleached or damaged by harvest rains in Missouri and Kansas. Returns to date fully confirm the extreme claims of loss in Spring Wheat, Nebraska and the Dakotas being equally involved in the disaster, with Wisconsin, Iowa and Minnesota but little better. Where threshing has been done in Nebraska and South Dakota, the returns are so meager and quality so poor that correspondents report an inclination to refrain from threshing a considerable portion of what was cut. In Minnesota and North Dakota a large part of the crop is unharvested at a date when threshing should be well under way. The average condition of Spring and Winter Wheat combined, on Sept. 1, is probably under 70, or the lowest figure ever reported, and on the basis of the official estimate of acreage this year can only be taken as promising a crop of little, if any, above 500,000,000 bu." The most favorable report was from a local crop expert dated Aug. 27 from Fargo, North Dakota. This report claimed the damage serious and prospects 12 bu per acre, harvesting in full blast. Cool to-night. Threshing expected to commence about last of week. Farmers inclined to sell freely at present prices. Look for big movement in about three weeks. Nine-tenths of Spring Wheat will be in shock Tuesday. Prospects indicate the total Spring Wheat crop of the United States, Manitoba and Northwest territory of Canada will not vary more than 10,000,000 bu from last year." As the Government put the Spring Wheat crop last year at 236,000,000 bu and Manitoba and the territories raised 53,000,000 bu, this would suggest a much larger yield than the other experts give hope for. The Government put the Winter Wheat yield this year at 337,400,000 bu, and two other experts put the total crop at about 500,000,000 bu, indicating around 170,000,000 bu of Spring Wheat. The largest milling concern in Canada, in a message to a New York exporter, said: "After an exhaustive personal investigation by our experts during the last week and completed Monday, it is our own opinion that the Manitoba crop will equal last year in quantity, making due allowance for depreciation from rust." The Minneapolis *Market Record* estimated the Wheat crop of the Northwest at 158,000,000 bu, and allowed 2½ per cent in Minnesota, 3 per cent in South Dakota, and 4 per cent in North Dakota for abandoned acreage. The average yields reported were 14 bu in Minnesota, 12.4 bu in North Dakota, and 9.2 bu in South Dakota. Thrashing returns were also very contradictory, some reports of poor yields coming in, while bankers and real estate agents at several points in North Dakota and Minnesota reported larger yields than had been expected before threshing. The market responded, however, to the crop news, the local sentiment being "bullish," traders believing in the low-crop estimates and believing further that they justified higher prices. The decrease of 336,000 bu in the visible supply, compared with an increase of 492,000 bu a year ago, was another "bull" factor. The present total is reported 11,987,000 bu, against 13,203,000 bu in 1903 and 20,066,000 bu in 1902. Local public stocks increased 186,000 to 1,056,000 bu, against 2,328,000 bu in 1903. Contract stocks increased 2,715 bu last week and are 457,085 bu, against 2,037,996 bu one year ago. Stocks here in all positions increased 591,000 bu to 3,278,000 bu. Stocks a year ago 6,133,000 bu. *Bradstreet's* increased 1,149,000 bu; last year increased 906,000 bu. World's shipments 9,552,000 bu, against 8 376 000 bu previous week and 8,714,000 bu in 1903. Quantity on ocean passage decreased 1,496,000 bu, to 30,896,000 bu, against 27,664,000 bu in 1903. In a personal letter to his partner, a local commission man, writing from Winnipeg on Sunday, said: "We covered over 1,700 miles in our trip, and so got a pretty good general idea of the crop. The Northwest Territories have an area of somewhat over 1,000,000 acres. The yield will be large, at 17 bu average, or say 18,000,000 bu. The acreage in Manitoba is somewhat over 2,400,000, of which certainly 1,400,000 acres are more or less affected by rust, much of it badly, and the average yield of these 1,400,000 will not will not be more than 9 bu to the acre, or say 12,000 000 bu. The remaining 1,000,000 acres in Manitoba might yield 16,000,000 or 17,000,000 bu, making a total crop of 46,000,000 bu, as against 54,000,000 bu last year. I wired you today that the Northwest crop would not exceed 40,000,000 bu. This was the general opinion at the end of our trip." At the advance and around $1 10 for December and $1 12¼ for May, "long" property came out freely, and the tone became weaker. Cables failed to respond fully to the rise on this side, and the idea was prevalent that the Northwest was a liberal seller here and that it had been coloring the "bullish" news strongly to help such sales along. Stop loss limits were reached in many instances on the break, which was not checked until December reached $1 07¼ and the May $1 09½. Primary receipts were liberal again this week, and the total movement June 27 to August 29 aggregates 34,074,000 bu, as compared with 29,673,000 bu during the same period in 1903 and 51,451,000 bu in 1902. Exports of Flour and Wheat were again very moderate, the total this week being 1,831,000 bu, making 13,220,000 bu since July 1, as against 26,028,000 bu in 1903. Bookings at Atlantic Coast points for future shipment were rather meagre. Argentine shipments were again very fair, 1,616,000 bu going forward this week, making 78,810 000 bu since the first of the year, as compared with 56,748,000 bu for the corresponding time in 1903. Crop prospects were reported favorable, and the visible supply 3,016,000 bu, against 3,240,000 bu last week and 1,912,000 bu one year ago.

CORN—The close shows the September ¼c higher than last Friday, while December gained ⅛@¼c and the May 1-16c. Market was active and unsettled most of the week, with fluctuations frequent within the established range of 2@2¼c. The situation the closing days was firm and under an active miscellaneous demand September sold to 54¼c, December 52⅞c and the May 50¾c. The cloudbursts in Iowa and Nebraska over Sunday and cool weather generally were the chief early helps. The map showed heavy rains in Nebraska and Iowa. Fort Dodge had 4 inches, Iowa City 1.52, Marshalltown 2, Osceola 1.50, Missouri Kinder 2 42, Marysville 3.50; Hastings, Neb., 4 inches and North Platte 1 96. Foreign crop news, too, was "bullish," cables from Austria-Hungary claiming the drouth severe and Vienna contemplating asking Hungarian cabinet to join them in framing laws prohibiting exports of Grain and fodder. The *Orange Judd Farmer* report was construed as "bullish" and indirectly helped sustain values. The report stated that current returns, covering fully one-third of the Corn country, did not confirm the recent claims of crop improvement. These reports show a decline in condition since August 1 of fully 5 points, heaviest in the commercial States, amounting to 8 points in Ohio, 15 in Indiana, 7 in Illinois, 1 in Iowa, 6 in Missouri, 1 in Kansas and 10 in Nebraska. On August 1 the condition figures were low, simply because the crop was late. It is now equally as late, and, in addition, the crop in the Ohio and lower Missouri Valleys has suffered some irreparable damage from lack of rain during August. The present condition is but little higher than it was at this time last year, and even if the sea[son] for maturing shall prove so long as in 1903, the [in]crease in acreage and the difference in promi[se] not warrant a crop expectation of more than 2,[illegible] 000,000 bu, against 2,240,000,000 bu last year. If ki[ll]ing frost be generally experienced earlier than the third week in September, even this moderate re[turn] must be heavily discounted. The manager of one of the larger elevator systems here who [has] returned from the Southwest said on his ret[urn] Monday: "I found the Corn good in Northern I[lli]nois, all of Iowa except the southwestern part of Nebraska, South Dakota and Western K[ansas]. In Western Kansas there is a big acreage a[nd] is in fine shape—something unusual for that part of the State. In South Dakota and Northern Il[li]nois the crop is quite late, but still ahead of [last] year. In Eastern Kansas, Missouri and Southern Illinois the crop is very spotted—some very go[od] Corn and some very poor. There is a lot of late Corn put in to replace Wheat that will require a long season to make a crop. With fairly go[od] weather we ought to raise a good crop and if we have a long, warm, dry fall with frost holding [off] we will get an immense Corn crop. It is now a question of weather." Around 52⅞c for Decem[ber] and 50¾c for May there was general liquidation and profit-taking. "Long" Corn came out freely, the former declining to 51¾c and the latter to 49¾c. The reaction in Wheat, coupled with more favorable weather and liberal local arrivals, were among the weakening factors. The Government weekly weather crop bulletin was interpreted as "bearish" and was instrumental in many instances in changing local sentiment. The report claimed although cool weather had prevented rapid development of the crop in the Ohio Valley and lake regions, the crop as a whole had experienced decided improvement. Early Corn [is] matured in Southern Missouri, and is ripening rapidly in Nebraska and South Dakota, cutting being in progress in the first named State [and] Kansas. Statistics received but casual attent[ion]. Those received from abroad were "bearish, wh[ile] domestic news was "bullish." World's shipments were liberal at 5,468,000 bu, previous week, [illegible] bu; year ago, 5 49[illegible],000 bu. Quantity on passage increased 2,016 000 bu to 19,242,000 bu; last year, 22,088,000 bu. The domestic visible decrease [illegible] 000 bu, against 559,000 bu decrease in 1903, and [total] is now 3,898,000 bu, against 5,588,000 bu in 1903 [and] 8,077,000 bu in 1902. Local public stocks decreased 319,000 bu to 1,445,000 bu; last year, 2,130 000 bu. Stocks here in all positions decreased 438 000 bu [to] 2,812,000 bu; stock a year ago 4 170,000 bu. Contract stock decreased 317,821 bu, to 1,450,999 bu, against 2,013,578 bu in 1903. *Bradstreet's* decrease [illegible] bu; last year decreased 438,000 bu. Receipts here the past week were large and total for the month of August 7,023 cars, against 5,716 cars in 1903 and 6,414 cars in 1902. The outward movement [was] large and a fair business was transacted in shipping circles, chiefly, however, for August loading. Country acceptances were moderate this week. Deliveries on September contracts were moderate. Bookings on the coast were light and exports for the week 711,000 bu, making [illegible] bu since July 1, against 9,182 000 bu in 1903. Argentine shipments were again large 3,3[illegible] bu and total since January 1 foots up 51 20[illegible], compared with 43,405,000 bu in 1903. The visible was reported 4,414,000 bu, against 3,944,000 bu last week and 1,312,000 one year ago. The call for car lots was good most of the week and the offerings, which were liberal, sold readily. No. 2 was [quoted] to go to store at ¼c over September and No. 2 Yellow 1¾@2c over, while No 3 commanded September price and No 3 Yellow 1½@1¾c premium.

OATS—The market for Oats was weaker and lower, with moderate trading. Cash interests supply the greater part of the demand, and for a considerable portion of the week there was also liberal liquidation by "longs." The buying came from "shorts" and from country commission houses, who think prices are at a point where they furnish a safe investment. Closing prices on September delivery were at 31¾c, December at 33¾c, and May at 35¾c. This is a rally of ¼c to ⅝c from the low point. Stocks are accumulating rapidly. *Bradstreet's* made the increase for the week 5,206 000 bu. Chicago supplies in all positions increased 2,138,000 bu the previous week, and in two weeks have increased nearly 5,000,0[illegible] bu. Stocks are 5,897,000 bu. Of contract they increased 385,435 bu and were 815,353 bu. Receipts were liberal 1,859 cars, compared with 1,733 cars the previous week and 714 cars last year. Prices are [al]most down to an export basis, and indications point to a good business in the near future, as there is evidence to believe the future of a large export demand from the leading demand from the leading consuming countries in Europe, owing to the shortage of fodder crops. The Oats this year are of exceptional quality, and the trade have [no] hesitancy in commending them either in the natural or the clipped state. Export purchases at the seaboard were larger, and engagements are being made for future shipments. In the sample market a large part of the offerings were taken by elevator interests. Deliveries on September contracts were moderate—[illegible] bu on Thursday. The visible supply increased 2,202,000 bu and was 6,320,000 bu, compared with 6,9[illegible]0 bu last year. Seaboard clearances were 170,000 bu.

RYE—A rather firm feeling developed for cash during the past week and prices were advanced 1@1½c, while futures ruled easy and did not follow the improvement. It is difficult to account for this other than the supply and demand—no other reason could be ascertained. Cash met with a good demand and was taken up readily, chiefly for speculative purposes, being bought to place in store, but with cash higher than any 1904 future delivery, it does not appear like a paying investment to sell against the store holdings. The demand for manufacturing purposes has been light, millers and other industries buying only an occasional car. Quality of the Rye coming averages good, grading mostly No. 2. The receipts for the week aggregated [illegible] cars, against 71 cars the previous week. There were withdrawn from public elevators 5,400 bu and from private warehouses 13 cars. The visible supply increased 101,000 bu, and was reported at 1,005,000 bu, against 567,000 bu a year ago. Local stock in store was 667,000 bu, and a year ago was [illegible]78,000 bu. No. 2 in store was nominally 71@[illegible] and fresh arrivals free on board sold at 72½c to 73¼@74c, billed through at 73c, and at the river at 71½c. No. 3 fresh receipts to go to store sold at 69½c, and free on board at 70½@72c. No. 4 sold at 69c. Future deliveries of No. 2 met with only light demand and offerings fair. September sold at 71½c. December sold at 73c, up to 74c, back to 72½c, and then to 73c. May nominally 77c.

BARLEY—At the reduced prices noted a week ago there ruled a fairly steady market for good to choice malting. The common grades had to be shaded about 1c and common grades ruled dull. Maltsters, while very ready to purchase good to choice, were indifferent as to stained and common. Some consignments of such grades were frequently carried over from one day to another. When receivers secured bids they were slow to accept them, for often they were below what shippers expected to realize. Shippers often based their views of values on quot[illegible] furnished samples some time ago, and since then [illegible] have declined. Some cars of new received were badly mixed with Oats and Corn, and they had to be sold low on account of shrinkage in cleaning.

Low grades also came in out of condition, but not in large quantities.

Some Barley was received, only a little of it of an unusual circumstances, where a part was cut dry, but not matured. This, of course, did not bring full price. There was little demand for mixing. It was claimed that Barley was a little too high for this; also that stained Barley would not blend well with Oats in their present color. There was little doue in to-arrive. The demand for these as yet same. Receipts for the day. There were 93 cars inspected out, compared with 17 cars a week and 41 cars two years ago. Taken out 7,659 bu. A moderate business in the East on export account seemed to have been done. New York reported sales of 200,000 bu. of Barley, sometimes out of condition, sold at 47c. Stained or mixed with Wheat and Corn sold at a range of 38@42c, and otherwise common to fair sold at 46@47c. Fair to good Barley for feeding and weight ranged at 44@46c and choice to fine at 50@53c, with a few cars of very fancy and bright up to 55c.

RYE—There was increased trading in Timothy the past week, but all other lines at the same as remained quiet. Tone of the market was fairly firm, but depressed at the close was slightly lower in the feeling followed. Flax was only with a small gain, but it did not take place in late in the week. Clover was easy but very quiet. As yet new Clover has come forward very sparingly. Other lines remain ed lifeless and nominal.

Timothy—The main feature of the market was the increase in movement. Both receipts and shipments ran up into good figures when compared with the preceding weeks on the new crop; but all that they were considerably short of a year ago. In other particulars there was but little new about the market. Prices did not change materially. On some days there were good sales running up one day to 3,000 bags. Early in the week the feeling was easy, and some lots which had been taken from the market came back again and were sold. Later the offerings became somewhat smaller. Cash demand was very good, even the prices paid could not be learned. The range of prices was not a wide one. There was also much variation in quality. Very few really choice to fancy lots were offered, also few poor to low. It was mostly medium grades, or fair to good, which came on sale. Such grades sold at $2.90@3 for bulk of trading was within such a range. Occasionally a little choice brought $3 and $3.05@3.25. Fancy was nominally above, but not offered. Common, dark, rough Seed quoted $1.60@2.50, and poorer lots. Little speculative business in the regular way was done. September and October deliveries changed even, and September changed to January at 15c premium early in the later for the latter. In the regular way September sold at $2.90, was lifted to $3 and then to $3.05 with $2.90 bid, and sold finally at $3.00. October practically the same as September. January sold at $3.10 early to offer later at $3.05, with $3.00 bid; closed at $3.00 asked.

Flax—The market remained in a very unterested state. Transactions were extremely limited. A few cars of cash Flax came on sale, usually No. 1 Northwestern. The crop has only begun to move, and as yet there has been no volume to the receipts. A little December Flax was sold, but the speculative market as a whole was neglected. Values during the week were without decided variations. Outside advices were so same in tone that they had little influence. It was withall so quiet and featureless a market that little can be said for it. Receipts of cars, compared with 24 cars the previous week, and 9 cars two weeks ago. Output 58,681 bu, mainly by lake; a week ago it was 7,485 bu, and two weeks ago 56,819 bu. Total local stocks last week were 1,301,391 bu, but that made it only 16,092 bu, while a year ago it was 209,470 bu. Duluth decreased 236,521 bu and reported 4,910,734 bu. Minneapolis stocks were shown about the same reduced 30,500 bu, or 32,500 bu. No. 1 cash was nominal at $1 18@1 19. No. 1 Northwestern sold to a limited extent at $1 21 to $1 25, closed at $1 20. Rejected was given a nominal range of $1 16@1 18, depending on quality. September delivery was quotably $1 18 early to $1 19 finally. Some December was sold at $1 20¾, afterward offered at 1c under and finally at 20c bid.

Cheese—An easier feeling came over the market. There has been a little new Clover moving. The chief interest in the market was relieved last week and there was generally easier feeling with some little reduction in quotations. Little was done, nothing in a speculative way, and the cash sales were confined to a few small lots; nothing else occurred. Under the feeling mentioned, which was only a slight reaction from late liberal advance, there was a quotable range of prices as follows: October delivery at $1 25@1 30. Contract shipments were quoted at 25c. Country prices were common to choice, $9 00@12 00; fancy above. Movement of Clover, according to railroad reports furnished, showed falling, especially in shipments, and the receipts exceeded those of a year ago, as shown in the following:

Receipts the past week, lbs..... 40,676
A week ago..... 8,500
Two weeks ago..... 1,200
Corresponding week last year..... 13,510
Shipments the past week, lbs..... 164,000
A week ago..... 3,220
Two weeks ago..... 29,000
Corresponding week last year..... 47,180

Other Seeds—Were entirely lifeless and nominal. There were no offerings worth while to sell, and no inquiry on sale for some time. Values nominal and in fact about all the information which could be obtained was that there were only occasional small lots offered. Sometimes quite a fair output under this head but no receipts worth mentioning. Movement was as follows:

Receipts the past week, lbs..... 29,000
A week ago..... 12,500
Two weeks ago..... 40,800
Shipments the past week, lbs..... 1,704,054
A week ago..... 677,100
Two weeks ago..... 360,000
Same time last year..... 50,850

Hay—The receipts for the week were 6,116 tons, against 5,824 tons for the previous week. Shipments for the week were 261 tons, against 253 tons for the previous week. Only a moderate business was transacted in this market during the past week. Receipts were liberal, and the demand was light from all sources. The market ruled very dull, especially for the low and medium grades. Prices were steady for the best grades, but poor Hay declined 50c per ton. Quotations at the close ranged as follows: Choice Timothy, $9 00@13 00; No. 1 Timothy, $11 00@12 00; No. 2 Timothy, $10 00@11 00; No. 1 Upland Timothy, $9 00@10 00; Prairie, $9 00@10 00; No. 1 Prairie, $9 00@9 50; No. 2 Prairie, $8 00@8 50; No. 3 Prairie, $7 00@7 50; No. 1 Prairie, $5 00@6 50. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $7 00@13 00 for poor to choice Timothy, $6 50@9 00 for State, and $8 00@10 00 for Nebraska and Kansas Prairie Hay. Rye Straw sold at $7 00@7 50.

COOPERAGE—Trade was comparatively light in the market for Cooperage during the past week. Offerings were moderate, and the demand was limited on local and outside account. Labor troubles at the packing houses still interfere with business. Ash Pork Barrels were quiet and quotably steady at 95@97½c. Oak Pork Barrels were in limited request and prices steady at $1 05@1 07½. Large forces were called on Cooperage and shipments were quotably steady at $1 25@1 27½. Iron bound Tierce quiet and nominal at $1 10@1 12½ for six hoop and $1 15@1 17½ for eight hoop. Oleo Barrels steady at $1 17½@1 20.

HOGS—Only a fair supply of Hogs received during the past week, and the quality was quite good, but labor troubles continue to be the leading and chief feature interfered with business to some extent, especially during the latter part of the week. In a general way, the market was fairly active. Packers bought rather freely, and shippers purchased for fair orders from the Eastern markets. Early in the week, the feeling was rather firm, and prices ruled 10@15c higher. Later, a weaker feeling was developed, mainly due to the fact of many handlers, and prices receded 10@30c, and the market closed comparatively steady. Sales during the week were made at $5 25@5 80 for light, $4 70@5 70 for mixed, and $5 00@5 70 for heavy packing and shipping lots, with the bulk of the sales within the range of $5 10@5 65 for fair to good average. At the close about 6,000 Hogs remained in the pens unsold. Pigs were in moderate supply, with a good demand, and changed hands at $5 00@5 50 according to size and weight. Receipts of Hogs at the other large Western packing points were fair, and the quality rather good.

PACKING—A fair business was transacted in packing circles during the past week, though the continuance of labor troubles at the Stock Yards interfered with business to some extent. Hogs were in fairly good supply and prices averaged lower. Packers purchased a fair percentage of the offerings, and the manufacture of Products was fair. Mess Pork neglected. Other cuts of Pork made sparingly. Lard produced rather freely, and the average yield was quite good. A little larger proportion placed in tanks. Domestic cuts of Hams made in fair quantities, and the bulk cured by manufacturers. Skinned Hams made moderately. Foreign cuts of Hams neglected. Shoulders made sparingly, and a fair proportion sold to the retail trade. Picnic Hams made in fair quantities, and chiefly of medium weights. Long Clear Sides and Dry Salted Long Clear Sides made sparingly--merely sufficient to supply small orders. Short Clear Sides made in limited quantities. Extra Short Clear Sides made moderately. Short Rib Sides met with a little favor, and the production was fair. Extra Short Rib Sides cut in moderate quantities. Rough Sides made with a little more freedom, and chiefly of medium average. Backs and Bellies made in moderate quantities. Loins cut in fair quantities to meet the wants of the local and Dressed Meats trade.

PROVISIONS—Quite an active speculative business was transacted in Hog Products during the week just closed. The feeling was considerably unsettled and prices fluctuated freely. Outside orders were moderately free, and local trading was fairly active. There was considerable liquidation in the near deliveries, and as delivery day was at hand, wide prospects of heavy deliveries of all kinds, carrying charges were widened materially--at the close of September transfers from September to October were at 15c difference on Mess Pork, 15@17½c on Lard, and 25c on Short Rib Sides. Deliveries on contracts were quite liberal, but readily accepted. Hogs were in fair supply, and sold at irregular prices--about the same. Supply at the large Western packing points were fair, and the returns of the packing of the West for the week exhibited an increase of 5,000 Hogs, compared with the report for the corresponding week in 1903. Foreign markets were stronger in a general way and prices ruled higher for most descriptions. Domestic markets were steadier. Receipts of Products were fair to liberal for export fairly active, and the shipments were moderately free, and well distributed. Exports for the week were somewhat less than for the corresponding week in 1903. During early portion of the week, an easy feeling prevailed owing to the rather free liquidation, and prices declined materially. At the reduction, the demand improved. "Shorts" were a little anxious to provide for outstanding contracts, and carriers were more inclined to purchase owing to the enlarged carrying charges. Prices rallied considerably, but at the extreme close receded slightly, and the market closed rather steady. Morning in January contracts, with an occasional trade in May and July. Conflicting reports regarding the Corn crop, and the strength manifested in that market encouraged buyers to purchase January contracts. Sales were made on the basis of $1 76@1 87½ for May. The feeling at the close favors quite an active business in the deferred deliveries in Products after the labor troubles have been settled. The demand for Products on a shipping account was moderate. Orders were not pressing unusual quantities for sale. Orders from abroad were moderate and for conservative quantities. Demand from the domestic trade was quiet, and only fair from the manufacturing districts. Prices were fairly well maintained, and rather liberal sales were made but not fully reported. Supplies in all kinds are fairly liberal for the season of the year.

Pork—Quite an active business was transacted in Mess Pork during the past week, and the market was sensitive to the fluctuations in values. Either free, especially of the near deliveries, while the demand was only fair. Supplies were reduced about 2,500 bris during August. Deliveries on September contracts were about 2,300,000 bris. Manufacture fair. More doing in cash sales for January delivery. Early in the week, there was a little pressure to sell, while the demand was moderate, and prices receded 7½@10c. At the reduction, the demand improved, and prices rallied 12½@17½c. Toward the close, there was considerable realizing on the near deliveries, and prices declined 22½@25c. At the decline, the demand improved, mainly from "shorts," and prices rallied 15½@18c, but settled back again 10@12½c, and closed comparatively steady. January closed rather steady. Demand on shipping accounts was moderate, and offerings were fair, and held with considerable steadiness. Prices at the close were quotable at $7 12½@7 25 according to weight.

Meats—The market for Green Meats was quiet during the past week, and sales were meager. Offerings were limited, and the demand was light, and for small quantities. Local orders not inclined to purchase, and outside orders were meager. Hams were called for sparingly and prices were unchanged. Skinned Hams were in moderate request and prices ruled steady. Shoulders were quiet and neglected. Picnic Hams called for sparingly and prices without material change. Bellies in moderate request and well maintained. Especially for the lighter averages.

Pickled Meats—A fairly good trade was reported in Pickled Meats during the past week, but not as large as the aggregate during the week previous. Stocks are fair of all kinds. Foreign markets were stronger, and prices higher. Domestic markets steady. Prices were fairly well maintained. Export demand moderate, and chiefly for light weight Hams and Picnic Hams. Packers are loading cars more readily. Hams were in rather liberal supply and sales were larger than for the former prices. Skinned Hams were in active request and prices were well maintained. Shoulders were called for sparingly and prices without change. Picnic Hams were in fairly good demand and prices inclined in favor of sellers. Bellies were in moderate request, and prices were without material change.

Dry Salted Meats—Quite a good business was transacted in Dry Salted Meats during the past week. Orders from the domestic markets were rather liberal, and orders from foreign markets were slightly enlarged, but for moderate quantities. Advices from abroad indicated a little more strength in that quarter, and prices were firmer on most descriptions. Domestic markets were steadier. Supplies of all kinds are fair. Manufacture not very large. Domestic cuts were rather heavy, while foreign descriptions were held steadily. Foreign cuts of Hams were quiet and steady. Shoulders were in moderate request and prices unchanged. Long Clear Sides were in moderate request and were slightly higher. Extra Long Clear Sides were quiet and prices favored sellers. Short Clear Sides were in small request and prices were well maintained. Extra Short Clear Sides were called for in fair quantities and prices ruled slightly lower--closing at 7@7¼c. Extra Short Ribs were in fair request and prices ruled lower closing at 7@7¼c. Rough Sides were in good request and offerings were fairly liberal. Sales were somewhat larger, and prices were slightly lower--closing at 7@7¼c according to weight. Plates were in fair request without material change in prices. Backs were in rather good request, and sales were larger than for about former prices. Light average Backs for export were in better request, and sales were larger. Foreign fancy and special cut of Meats were in rather light demand, and prices were without material change.

Smoked Meats—Rather a good business was transacted in Smoked Meats the past week and the feeling was comparatively steady. Demand and the feeling was comparatively steady. Demand for car lots was good and the jobbing trade was rather active. Orders from the Southern trade were fairly liberal. Supplies of all kinds are moderately large. Prices were without material change. Hams were in fair request and prices well maintained. Skinned Hams were called for moderately and prices ruled steady. Shoulders were in fair request and prices favored buyers. Picnic Hams were in fair request and prices were unchanged. Sides of all kinds were in good request, and prices ruled slightly lower. Breakfast Bacon in rather good demand and prices ruled steady.

Beef Products—Trade was moderate in the market for Beef Products and the undertone to the market was easier, and prices more favorable to buyers. Foreign markets were steady. Domestic markets were steadier, with a little better demand. Cattle in rather good supply, and prices ruled lower. Manufacture of Products fair. Shipments of Dressed Beef were rather liberal. Beef Hams were in fair request and easier. Prices ruled 2@7 per lb lower. Extra Mess Beef was called for moderately, and prices were about 25c lower. Plate Beef in fair demand, and prices were about 25c lower.

Extra Plate Beef in small request, and quotable about 25c lower. Tallow was quiet and steady, with prices favoring buyers. Oleo-Stearine in good demand, and prices steady at 7⅛@7¼c.

Greases—Trade was comparatively light in the market for Greases during the past week, and there were no marked changes to note. Offerings were moderate, and the demand was limited. Prices were without material change.

THE WEATHER CONDITIONS.

The weather map shows generally cooler. Rains Northwest are light and not nearly so general as yesterday's. Generally clear in Manitoba and in West and Southwest. Heavy rain at Evansville. Otherwise rainfall in Ohio Valley light.

The indications to Sunday night are for fair throughout this forecast district with pleasant temperatures, continuing over Monday.

ITEMS OF GENERAL INTEREST.

Traffic of the Northwestern Elevated, Chicago, for August was 62,453 passengers daily, an increase of 2,360, or 3.93 per cent over the same month last year.

Business failures in the United States and Canada for the past week were 217, against 235 the previous week, and 188 for the corresponding week last year.

Bank Clearings of the leading financial centers of the United States for the past week aggregated $1,804,293,309 an increase of 8.9 per cent, compared with the corresponding week last year.

On account of the National Live Stock Exposition to be held at Chicago from Nov. 26 to Dec. 23, a rate of one fare, plus $2 00 for the round trip, will be made from all points in the territory of the Western and Southwestern Passenger Association.

The monthly report of the Chief of the Bureau of Statistics of the Department of Agriculture will show the average condition of Cotton on Aug. 25 to have been 84.1, as compared with 91 6 last month, 81.2 on Aug. 25, 1903, 84 on Aug. 26, 1902, and a ten-year average of 73.2.

Large holders of Southern Pacific paid in full, Thursday, in New York for the new preferred stock to which they are entitled. The fact that the $40,000,000 of preferred stock could be taken in large part and paid for on one day without disturbing the money market was an extraordinary incident, but caused little comment.

Average weight of Live Stock at Chicago for months mentioned:

	Aug., 1904.	July, 1904	Aug., 1903.	Aug., 1902.	Aug., 1901.	Aug., 1900

The traffic managers of Eastern lines, Tuesday, refused to take action regarding the petition of the Chicago Board of Trade to extend to the Mississippi River crossings the rates which pertain on Grain through St Louis. No action was taken, likewise, on the Board's petition to make Grain rates from Iowa points to Chicago the same as the sums of the local rates from those points to the Twin Cities and from the Twin Cities to Chicago.

The *Wall Street Journal* says: "We have confirmed the report that a syndicate of New York, Philadelphia and Chicago capitalists will supply $36,000,000 cash for the acquisition of Chicago City Railway stock and the consolidation of all the surface car lines of Chicago. The syndicate includes H B Hollins & Co, J P. Morgan & Co., and several other prominent underwriting firms of New York City, as well as representatives of the interests dominant in Philadelphia tractions."

The Bombay *Price Current* says: "We have had moderately heavy rain in Bombay and its vicinity during the past few days but from Gujarat and Kathiawar complaints of the want of rain are still to hand. The outlook for the renewed advance of the monsoon to these districts is, however, rather more favorable. In some parts of the Deccan, also, rain is badly wanted. From all other parts of the country crop reports are satisfactory, good rain having fallen in the Berars, where it was urgently needed, since our last mail report."

The Indianapolis correspondent of the *Northwestern Miller*, under date of Aug. 29, says: "The Corn crop will soon be past the danger point. Much of the crop will reach maturity this week. Last week the days were quite warm, but the nights were cold Rain has been general and quite beneficial. The recent tornado beat down many fields, and as usual the howl went up, 'All Corn lowered.' Most of it, however, has straightened up again. That which is not perpendicular is slightly bent, and in most cases little or no material damage has been done Generally speaking, prospects for the Corn crop are good."

A meeting of Chicago Grain shippers was held, Friday, at which rate discrimination in all its phases was thoroughly discussed. There were over twenty shippers at the meeting, which was presided over by John T. Sickel, Chairman of the Board of Trade Transportation Committee. It was decided to appoint a special committee of three to take charge of the work of rate discrimination and prepare data to show where the exact discrimination is; also to devise methods of remedying it. What is necessary is to give Chicago the advantage of reduced through rates from the West, Northwest, and Southwest. Chicago shippers want their proportion of the reduction in through rates that are made from Southwestern, Western and Northwestern points to the seaboard, either for domestic or for export business. The lake helps Chicago interests part of the year, as they have the advantage of low water rates, but there is plenty of room for a readjustment of rates, which at present are 1c to 5c against Chicago interests.

The Winnipeg correspondent of the *Northwestern Miller*, writing under date of Aug. 29, says: "The correctness of the position upon the crop prospect assumed by the *Northwestern Miller* in its issue of last week has been firmly established by reports now to hand from all parts of the Canadian West where Wheat is grown. The excitement is all worked up to further a despicable 'bull' campaign in the market. There is just sufficient truth in the rust damage reports to give a small measure of substance to these, but, to say the least, the so-called experts who inspected the Manitoba crop handled their poor little bit of truth very carelessly. Many of our own responsible Wheat people have returned within a day or two from the Wheat fields and they give very encouraging accounts of the situation. One man, who is probably quite as much of an expert as Mr. Jones, and who is not connected with a firm of Grain brokers, states that Mr. Jones is anywhere from ten to fifteen million bushels out in his figures and that we will have a crop of close to 65,000,000 bu of fine Wheat. The harvest is now almost general, thanks to last week's exceptionally favorable weather. The middle of this week will see Wheat cutting in full swing all over Manitoba, and next week will bring the Northwest Territories into line. The Wheat out there is in many parts an exceptionally fine crop, although some others have suffered for lack of rain. The first carload of new No 1 Hard has been marketed."

Although the business of the Chicago Pneumatic Tool Company has been showing steady gains in the last few months and the company is in the easiest financial position of its history, there is practically no chance of dividends being resumed this quarter. At the end of the year, however, a comprehensive summary of the situation will be made by the directors, and it is possible that they will then see fit to resume dividends.

WEATHER BUREAU REPORT.

Rains have interfered with Spring Wheat harvest in the Northern portion of the Spring Wheat region and have caused injury to Grain in shock in Minnesota About half the crop remains to be harvested in North Dakota where rust is increasing and smut is appearing. In Minnesota harvest been completed except on low land in the Northern portions. Harvesting is nearly finished on the North Pacific Coast where the yield is lighter than the average as a whole.

The Corn crop has advanced satisfactorily, especially over the Southwestern portion of the Corn belt, where early Corn is fully matured and considerable has been cut. In the North Central portion of the Corn belt the crop is late and will require favorable weather during the remainder of September to mature, its condition throughout Iowa being more uneven that usual. In Arkansas, Tennessee and portions of the Ohio Valley, and the Middle Atlantic States, late Corn needs rain.

JUDICIAL COMPLIMENT TO THE BULLETIN.

After rendering his decision establishing what he regarded as equitable prices for Standard and No. 2 Oats in settlement of defaulted contracts in Oats for delivery in July, 1902, Judge Chytraus fortified his position by the following remarks: "This appears to be so from uncontradicted testimony, and from the DAILY TRADE BULLETIN, of which witnesses on both sides, with uniformity, speak in the highest terms, and to whose perfect accuracy all certify "

ITEMS OF GENERAL INTEREST.

New York Exchange 40c discount.

Documentary Sterling steady at 482½

Chicago Bank Clearings to-day, $31,919,545.

Reported that 8,000 bu Corn were taken at the seaboard to-day for export.

Indications point to the settlement of the strike at the packing houses during the next 24 hours.

Seven packers purchased 6,500 Hogs to-day; shippers, 2,500; left over, 1,500. Market closed steady.

Average cost price of Hogs at Chicago, Monday, was $5 35, against $5 31 Saturday, $5 52 a week ago, and $5 72 a year ago.

Estimated receipts for to-morrow: Wheat, 147 cars; Corn, 1,119 cars; Oats, 419 cars; Rye, 13 cars; Barley, 67 cars; Hogs, 21,000.

Deliveries on September contracts to-day were 370,000 bu No. 2 Hard Wheat, 20,000 bu Corn, 20,000 bu Rye and 250 brls Mess Pork.

The quantity of Flour and Wheat on passage to Europe during the past week increased 1,384,000 bu, and the quantity of Corn decreased 188,000 bu.

Exports of Flax Seed from India the past week were 96,000 bu, compared with 373,000 bu for the week previous, and 104 000 bu for the corresponding week in 1903.

The stock of Flax Seed at Duluth on Sept. 3 was 4,713,847 bu, compared with 4,970,734 bu the previous week—a decrease of 256,887 bu. Stock last year, 1,082,681 bu.

The receipts of Wheat at Liverpool during the past three days were 810,000 bu, of which 64,000 bu were American. Receipts of Corn 210 000 bu, of which 152,000 bu were American

The average weight of the Hogs received at Chicago last week was 245 lbs, the heaviest of the year, against 243 lbs the previous week, 252 lbs the corresponding week in 1903, and 243 lbs in 1902.

Stocks of Wheat in public warehouses in Liverpool reported at 3,216 000 bu, against 2,960,000 bu one week ago and 3,240,000 bu one year ago. Stocks of Corn reported at 281,000 bu, against 300,000 bu one week ago and 665 000 bu last year.

Local Securities were fairly traded in and prices on most of the list moved higher. Can preferred was the most active and advanced ¼, but broke ¾. Biscuit, Shipbuilding, Title and Trust and Metropolitan were strong, the latter gaining 1 point.

On the reverse page will be found the detailed report of the visible supply of Grain. Compared with the previous week there were increases of 357,000 bu Wheat, 36,000 bu Corn, 3,177,000 bu Oats and 94,000 bu Barley, and a decrease of 13 0 0 bu Rye.

Stocks in New York were advanced on London's and more general buying. The feature was Reading, which advanced 3 points, and held the greater part. Western Railway shares gained ⅜ to 1¼. Tractions were unsettled and Metropolitan Street Railway lost 2 points. Money, 1 per cent

Cotton in New York advanced on unfavorable crop news from Texas. The Government crop bulletin was also a factor in helping the upward movement Exports were large and offset the effect of Liverpool's break of 2 to 4 points Prices averaged higher. The market closed 4@6 points higher.

Corn in Illinois is generally reported to be late, but many reports indicate that the crop will be safe by October 1, especially the early planted. The crop is doing well, although not maturing as rapidly as desired in view of seeming lateness. Oats yielding an average crop of good quality. Wheat below average in yield and quality.

Broomhall's weekly foreign crop summary says: "United Kingdom—Wheat harvest nearly finished. Indications for a small crop continue unchanged. France—Threshing reports are variable, but mostly indicate a crop 25 to 30 per cent below last year. Germany—New Wheat is moving very freely except in the South. Outlook for Potatoes continues poor. Russia—Fair to good movement of Wheat except in districts surrounding Odessa, which are important growers Roumania—The recent rains have favored plowing Receipts of new crop Wheat are moderate. Bulgaria Both receipts and stocks are liberal. Hungary Beneficial rains have occurred India—Need of rain is just sufficient to make holders firm in their views."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand only moderate and market still rather dull. Prices inclined to favor buyers.

WINTER WHEAT Was weaker, and for choice prices were 1c lower while for the poorer Wheat of the different grades prices were from .@4c lower. Demand good and car lots taken by millers and speculators. Some shipping demand existed early on the break, but the advance later shut off business. No. 2 Red in store quotably $1 05½@1 06⅞, and fresh arrivals free on board sold at $1 07@1 08. No 3 Red fresh arrivals free on board sold at $1 05¼@1 08½, and part car to go to store at $1 05. No. 4 Red fresh arrivals free on board sold at 87c for poor and at $1 00@1 04¼ for fair to good No Grade Red sold at $1 00. No 2 Hard fresh arrivals free on board sold at $1 06@1 08 No. 3 Hard fresh arrivals free on board sold at $1 00@1 03 and at the river at 97½@98c No. 4 Hard fresh arrivals free on board sold at 98c and at the river at 96c.

SPRING WHEAT—Nothing new to note in the market, which is ruling quiet. Receipts small and but few cars offered. Choice Wheat sells well, there being a demand for it, but poor Wheat is dull. No. 1 Northern nominally $1 16@1 18 No 2 Northern nominally $1 10@1 15 No. 3 Spring quotable at $1 02@1 11 for poor to choice, with sales at $1 08@1 10. No 4 sold at 90c@$1 03 for poor to good.

REGULAR WHEAT—A fair commission house business was reported early, after which the trade was largely professional. Feeling developed was weaker and the close was ¼c to ⅝c lower than on Saturday. The weak cables and heavy Russian shipments caused free and general liquidation by "longs." At the decline "shorts" accepted fair quantities and tone for a while was firmer, but renewed selling, part of which was credited to elevator interests, caused prices to again react. Toward the close, however, the market again displayed considerable strength, the Government weekly crop bulletin being construed as "bullish" Liverpool spot was 1@1¼d lower and futures down 1⅛@1¼d. London ½@⅝d lower. Paris declined 1½c and Antwerp ⅝c Berlin was 1⅝c lower and Buda Pesth 3¼c higher. World's shipments large—11,032 000 bu; previous week, 9,552,000 bu, and 9,000,000 bu one year ago. Quantity afloat increased 1,384,000 bu to 40 280,000 bu; last year, 26,173 000 bu. Visible increased 827,000 bu; last year increased 147,000 bu. Total, 12,814,000 bu, against 13,50,000 bu in 1903 and 21,421,000 bu in 1902. Local public stocks increased 417,000 bu to 1 473,000 bu; last year, 2,817,000 bu. Crop news from the Northwest was "bullish," too much rain being reported in North Dakota and crop only half cut Harvesting and movement expected to be delayed on account of the excessive moisture Fair weather, however, was generally predicted. Missouri State report made yield 26,700,000 bu. Northwest cars much smaller than a year ago and total movement 516,000 bu less. Kansas City and St. Louis received 932,000 bu, against 795,000 bu in 1903. Exports were small and no boat loads accepted at the seaboard. Minneapolis wired stocks had decreased 200,000 bu so far this week A prominent Minneapolis miller just back from Europe estimated the world's crop 200,000,000 bu short of last year. Receipts at Duluth 199 cars and at Minneapolis 650 cars, a total of 849 cars, against 196 cars Saturday, 225 cars a week ago, and 1,541 cars last year. Local receipts included 139 cars Winter, 13 cars Spring and 7 cars mixed, a total of 159 cars, against 400 cars last year. Included in the above were 8 cars of contract grade There were 67 cars and 112,000 bu taken from unlicensed elevators The estimated receipts for to-morrow are 147 cars. Withdrawals to-day were 8,900 bu. Receipts at Western points were 1,852,569 bu, against 2,404,765 last year. At Eastern points 200,746 bu, against 478,495 last year. Shipments from Western points were 580,939 bu, against 774,697 last year, and from Eastern points 75,314 bu, against 430,858 last year. Shipments of Flour were 15,823 brls. Exports of Wheat in Flour were equal to 146,517 bu.

Future Deliveries of Regular Wheat—Moderate trade and prices lower.

CORN—A good trade, with the close ⅛@¼c to ¼c higher Early tone was weak, and under general selling, led by "longs" and commission houses, prices sold off sharply, influenced by the absence of frost, lower cables and large receipts. At the decline elevator interests and "shorts" bought and situation became stronger. Receipts 1,670 cars, and 1,119 cars were estimated for to-morrow. Liverpool spot 1@2c lower; futures ⅝@¾c lower World's shipments were 4,126 000 bu, previous week 5,488,000 bu and one year ago 5,364,000 bu. Quantity afloat decreased 188 000 bu, to 19,051,000 bu last year 22,844,000 bu. Visible increased 36 000 bu; last year increased 559 000 bu. ☞ *Communications addressed to the publishers of the* DAILY TRADE BULLETIN *will not receive attention unless postage is enclosed for reply.*

Important Notice.

In March, 1884, when it was alleged that certain market circulars compiled for the use and benefit of members of the Chicago Board of Trade, were being furnished daily to alleged "bucket shops," the following resolution was passed by the Board of Directors:

Resolved, That the President of this Board notify the above mentioned firms that such action on their part is detrimental to the interests of this Board, and that they are requested to discontinue sale of said circulars to such "bucket shops."

Crops in India are reported in good condition.

Argentina is shipping liberal quantities of Corn.

The rust reports were slightly colored—red and black.

Quality of the Rye crop is quite good, and the movement is fair.

Advices from Russia are a little more favorable for the maturing crops.

Flour has been advanced 50@60c per bri, and the trade is on a moderate scale.

The shipments of Sheep from Chicago during the past ten days were quite heavy.

Outlook favors a material reduction in the Flax Seed crop compared with last year.

The Wheat crop of the Northwest has probably been reduced 20@25 per cent by rust.

With good weather, Argentina will raise quite large crops of Wheat and Flax Seed.

Advices indicate that the Barley crop will be fairly liberal, and the quality rather good.

Considerable Wheat has been purchased on the Pacific Coast for shipment to the Central West.

Quite a good demand from the South for Meats, as the Cotton-picking season has arrived.

The exports of Flour and Wheat from the United States during July were the smallest in years.

Cattle marketed moderately, but prices not very well maintained, especially on the poorer qualities.

Millers in the South and Southwest have been prudent in securing fairly good supplies of Wheat.

Merchants in the Continental markets are beginning to realize that they require a supply of Neutral.

The quality of the Oats crop is unusually good this year, and is attracting the attention of carriers.

Russia, India and Argentina are now shipping Wheat in larger quantities than the United States.

Hogs have been received in fair numbers at all the leading packing points, and the quality was quite good.

Offerings of Timothy Seed have been quite free during the past ten days, and prices have declined moderately.

The receipts of Wheat at the primary markets of the West during August were more than twice the shipments.

Crops of coarse Grains in Europe will be lighter than usual, and may improve the export demand in this country.

The Wheat crop of the United States may be considerably short of that of 1903, but starvation does not stare us in the face.

Reported that considerable Lard has been forwarded from Missouri River points to the Continental ports on cut rates of freight.

Crop experts who cannot reduce or increase a crop 25,000,000 to 50,000,000 bu in twenty-four hours are of little value to the speculative trade.

The Railroad Stock market is attracting rather more attention. Railroad earnings are fairly good, but largely attributable to reduced expenses.

Reports regarding the Corn crop are somewhat conflicting, but there is little doubt if frost hold off ten days or two weeks the yield will be a good one.

Foreign markets are quite firm for both Meats and Lard, and there is an increase in the orders from that quarter, but generally for conservative quantities.

The labor strike at Chicago curtailed the production and shipments of Provisions considerably, but business is gradually regaining normal conditions again.

According to the movement and estimated consumption by Flour mills, the Wheat crop of 1903 in the Northwest exceeded the Department of Agriculture figures.

With considerable competition between exporting countries to market their supplies of Breadstuffs, merchants in importing countries manifest more than usual conservatism.

The rapidity of the travel of crop experts in the Northwest completely distance the "limited" passenger trains. The "cruelty to animals" law ought to be enforced in that quarter.

The "official" visible supply of Grain in most cases represents the quantity of Grain in "public" warehouses. In Chicago, there is twice as much Wheat in the "private" elevators as there is in the "public." In St. Louis, Kansas City and Milwaukee, there is considerable Grain in the private warehouses which is not reported in the "official" visible.

About 90 per cent of the holders of United States Realty and Construction Company have turned in their holdings to be exchanged for the securities of the United States Realty and Improvement Company. The time for depositing expired Sept. 1, and it is doubtful whether it will be extended.

EXPORTS OF FLOUR AND WHEAT.

The exports of Wheat and Flour in Wheat (reckoning 4½ bu Wheat to a barrel of Flour) from all American ports as reported by the Chief of the Bureau of Statistics of the Treasury Department monthly for four years were as follows:

ITEMS OF GENERAL INTEREST.

The directors of the Calumet and Hecla have declared a quarterly dividend of $10 a share, Payable Sept. 27 to stockholders of record Sept. 2.

The Cleveland, Cincinnati, Chicago and St. Louis Railroad's report for the year ended June 30 shows total surplus of $1,557,762; increase, $10,259.

The People's Gas Light and Coke Company gives notice that the Hyde Park gas first mortgage bonds falling due Sept. 1 are payable at the Chicago National Bank.

The regular quarterly dividend of $1 50 a share on the preferred stock of the Chicago and Eastern Illinois Railway Company, represented by St. Louis and San Francisco Railway Company stock in escrow certificates, will be paid on Oct 1. Books close Sept. 16 and reopen Oct. 3.

The regular monthly comparative statement of the Government receipts and expenditures shows that for the month of August, 1904, the total receipts were $44,905,291, the expenditures $51,346,021, leaving a deficit for the month of $6,343,215. The deficit for the two months of the present fiscal year is $23,756,941.

The monthly coinage statement shows that the total coinage executed at the mints of the United States during August, 1904, excisive of 2,250,000 pesos for the Philippine Government, was $3,805,230, as follows: Gold, $1,385,000; half dollars, $20,000; minor coins, $205,230.

The Buenos Ayres *Standard* of July 31 says: "Advices point to the fact that the Corn exportable from Argentina promises to exceed that from the United States. The crop is likely to be somewhat smaller, but in view of the shortage elsewhere its results are not expected to be affected. It is reported with regard to Flax Seed that quite a number of commitments on the "short" side have still to be covered, as a number of old contracts appear to be open."

The monthly circulation statement issued by the comptroller of the currency shows that at the close of business Aug. 31, 1904, the total amount of national bank notes was $452,515,773, an increase for the year of $33,928,798, and for the month of $2,309,885. The circulation based on United States bonds was $417,880,800, an increase for the year of $37,393,978, and for the month of $2,358,140. The circulation secured by lawful money amounted to $34,635,473, a decrease for the year of $3,375,180, and for the month of $48,280. The amount of United States bonds on deposit to secure circulating notes was $419,583,940, and the amount of bonds on deposit to secure public deposits was $16,779,850.

It was decided at the last meeting of the general mortgage bondholders of the Denver and South Western Railway Company to declare the principal of the bonds due immediately because the company has defaulted on the payment of the interest, and to dispose of the securities covered and pledged by the mortgage. The sale will take place in New York, Oct. 4, at 152 Broadway. The securities that will be disposed of represent a face value of $4,525,000. They include the capital stock and bonds of La Belle Mill, Water and Power Company, the Colorado Trading and Transfer Company, the Midland Terminal Railway Company, the Florence and Cripple Creek Railway Company, the Golden Circle Railway Company, and the Canon City and Cripple Creek Railroad Company, the first mortgage bonds of the United States Reduction and Refining Company, and stock in the Metallic Extraction Company.

The *Mark Lane Express* of Aug. 22 says: "The weather has become somewhat unsettled, but harvest has not been materially interrupted. The new Wheat samples show fine bold Grain and the weight is decidedly above the average. On the other hand, the yield per acre seldom reaches it, but even in districts where that is a very ordinary figure, and little doubt is felt as to the average for the entire Kingdom being somewhat low. The Barley is still nearly all of it in the fields, for even where it has been cut it has been judged wisest to let it remain out for a bit. There is every expectation of good color and quality in the malting districts. The ordinary Oat crop is in full harvest, and will be good in quality. Beans are stated to have been much infested by fly and to be under an average. Tare Peas often exceed an ordinary crop. All farmers who have allowed their Rye to ripen as a cereal are rewarded with an excellent sample."

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Aug 23.]

United Kingdom—The weather in the United Kingdom during the past week has been more or less unsettled, and in several districts there have been rather severe storms with one or two really very wet days. From reports received it does not appear that the broken weather has caused much hinderance so far, and in the very earliest districts of the South of England only the Oats crop now remains to be carted; even in some Midland and Western districts half the crops are under cover. There is no change to note as regards the general promise, but one may perhaps say that Wheat reports are a shade more favorable. Barley about unchanged, Oats not so good, the great heat of July having unfavorably affected the latter crop in many parts. The new crop is coming to market slowly, and although such prices as 34s and even 35s per quarter were mentioned at last Saturday's markets, there were only trifling increases in the official average price and the quantity likewise only increased a little.

Russia Not much fresh news has come in during the past week. In the South the weather has continued fine and favorable for threshing, but we expect growers will be crying out for some rain before long. Nicolaieff reports increasing arrivals of better quality, but at Odessa only small quantities of poor quality continue to come forward. Further reports from Rostoff confirm that that port is receiving good quantities of new Grain in which an active business has been done, and the statement receives additional confirmation from the number of steamers already fixed to load in the Azoff. Shipments last week were small of Wheat, fair of Barley.

Roumania—Dry weather continues to prevail and hinders plowing. The Corn crop appears to be even worse than expected and all fodder is so scarce that the export of such has been prohibited.

Austria-Hungary—Besides taking liberal quantities of Roumanian and Russian Wheat, purchases of Plata Corn cargoes are now being made.

France—Estimates of the important crop of the North of France are now generally 25 per cent below last year's big yield. Our Dieppo correspondent even puts the deficit at this figure, although he thinks that the Western crop is equal to last year's. Compared with an average year, our correspondents estimate the deficit at 10 per cent, and as the Centre and South have certainly fared no better than the North, the indicated total crop is some 288,000,000 bu, to meet requirements of about 344,000,000 bu. Accordingly, 56,000,000 bu will have to be provided from old reserves, or imported, to make good the deficit, and this is certainly a great change to what was expected a month or two ago, when there was talk of France being an exporter on balance. It is generally believed that there are very fair supplies of old Wheat in the country and the deficit may be made up, with the help of North Africa, without requiring very much from outside sources of supply; but under such conditions fairly high prices must be looked for.

Italy—The drouth continues, and a portion of the Corn crop, as well as fodder, has been seriously damaged.

Spain—Our correspondent at Barcelona again reports a short yield of Wheat but of good quality.

Germany—The condition of Wheat in Prussia on Aug. 15 was officially estimated equal to 76 per cent, a decline of 2 per cent since July 15, against 74 a year ago; Rye was 2 per cent lower than in 1903, Barley 8 per cent, Oats 12 per cent, Potatoes 16 per cent lower. The weather recently has been very favorable for fodder crops. New Grain of excellent quality is coming to market in fair quantities.

Sweden—After a long spell of dry weather which seriously affected all Grain and fodder crops, the country is now suffering from too much rain, which completely stops harvest work.

Argentina—The weather is quite favorable for new Wheat and Flax Seed crops, which are growing well. Shipments of Wheat are moderate, Corn large.

India—General conditions are satisfactory; the rain came in time to save the native food crops. Shipments continue liberal, but Kurrachee is is again pointing to smaller quantities.

Australia—Fresh sales and charters continue to be made, which indicate that crop prospects are still considered satisfactory.

CONDITION OF COTTON.

The monthly report of the chief of the Bureau of Statistics of the Department of Agriculture shows average condition of Cotton on Aug. 25 to have been 84.1, compared with 91.6 last month, 81.2 on Aug. 25, 1903, 64 on Aug. 26, 1902, and a ten-year average of 73.2.

The following table shows the condition by States on Aug. 25 in each of the last three years and that on July 25, 1904, with the ten-year averages:

THE WEATHER CONDITIONS.

Low temperatures, but no frost reported. Clear in Manitoba, cloudy Northwest, clear Southwest and in Ohio Valley. Heavy rains in Eastern Minnesota and Wisconsin—St. Paul 2.20, La Crosse 1.76.

Indications are for mostly fair weather in this forecast district, except probable showers in Western lake region. Temperatures variable, but not decided.

ITEMS OF GENERAL INTEREST.

A uniform cut of $5 00 per ton on all Steel tubing was decided on at a meeting of the Steel tube pool Friday.

The directors of the Calumet and Arizona have declared the regular quarterly dividend of $1 50 per share.

The International Harvester Company will ship 5,000 tons of binder twine from New York to Buenos Ayres.

Gossip on National Carbon is that the company is earning at the rate of more than 5 per cent on the common stock.

The plant of the Mitchell & Rowland Lumber Company, Toledo, Ohio, was completely destroyed by fire, Friday. The loss is estimated at $150,000, with insurance of $116,000.

Winnipeg reported frost damage at Regina and Prince Albert, Friday, and said: "Fully half the Wheat crop green and rusted, and not ripening. Weather cool and showery."

The Chicago and Northwestern Railroad Company has declared the regular quarterly dividend of 2 per cent on its preferred stock, payable Oct. 1 to stockholders of record Sept. 17.

The Metropolitan Street Railway, New York, reports for the year ended June 30: Gross decrease, $64,540; total expenses increased, $738,747; net earnings decreased, $803,286; total deficit, $1,396,771.

A New York banking firm were the successful bidders for the $100,000 4 per cent police and fire headquarters bonds and the $38,000 4 per cent sewer bonds of Scranton, Pa., at 105.66 and 104.275 respectively.

One of the remarkable facts in the decline of business at the port of Duluth is that only 1,177,500 bu of Wheat and 2,945 brls of Flour have been shipped from there this year. In 1896 the port shipped 21,550,000 bu of Wheat.

The directors of the American Shipbuilding Company will meet in Cleveland about Sept. 15 for the purpose of taking action on the regular quarterly dividend on the preferred stock. The usual rate of 1¾ per cent is expected.

The only important contract for structural Steel which has come to the surface during the last few days is one lot of 11,000 tons for bridge work and buildings placed by the Chicago Junction Railway with the American Bridge Company.

A certificate reducing the capital of the National Car Wheel Company from $9,000,000 to $4,000,000 has been filed in Albany, N. Y. Of the original capital, $2,036,700 was actually issued. The debts and liabilities of the company are $800,220.

All but a trifling fraction (less than ¼ per cent of the whole issue) of the Southern Pacific preferred stock has been subscribed for by the common stockholders, and at the close of business, Thursday, practically the entire amount of the first installment had been paid in.

A report credited to Cleveland sources was current in Chicago, Friday, that the General Electric Company will formally take over the National Carbon Company. With that purpose in view it was said the General Electric Company would increase its capital in order to take up the Carbon issues, giving new General Electric shares in exchange for National Carbon outstanding stock.

ITEMS OF GENERAL INTEREST.

New York Exchange 45c discount.

Documentary Sterling steady at 483½.

Chicago Bank Clearings to-day, $32,579,586.

The Kentucky crop report show 80 per cent of a full crop of Wheat and 87 per cent of Oats.

Six packers purchased 8,900 Hogs to-day; shippers, 3,500; left over, 2,500. Market closed strong.

The *Bulletin des Halles* estimates the French Wheat crop at 292,000,000 bu, against 360,000,000 bu in 1903.

Reported that 32,000 bu Wheat, 120,000 bu Corn and 70,000 bu Oats were taken at the seaboard to-day for export.

Estimated receipts for to-morrow: Wheat, 74 cars; Corn, 466 cars; Oats, 100 cars; Rye, 4 cars; Barley, 36 cars; Hogs, 16,000.

Average cost price of Hogs at Chicago, Tuesday, was $5 42, against $5 35 Monday, $5 47 a week ago, $5 27 a month ago, and $5 66 a year ago.

The London *Times* estimates the Wheat yield of United Kingdom at 82 per cent, compared with 92 per cent last year. Early threshing returns are disappointing.

The stock of Wheat at San Francisco Call Board ports on September 1 was 1,259,000 bu, compared with 786,000 bu on August 1, and 1,133,000 bu on September 1, 1903.

The steamer Sahara cleared from Duluth, Saturday, for Buffalo, with 320,000 bu Flax Seed—breaking all cargo records. Insurance value of vessel and cargo, $750,000.

The Liverpool *Corn Trade News* telegraphs the supply of Breadstuffs afloat, in store in Europe and Argentina on September 1, at 82,368,000 bu, compared with 74,012,000 bu on August 1, and 59,430,000 bu on September 1, 1903.

Cotton in New York was active and irregular. Liverpool closed 7 to 8 points lower. "Longs" took profits on the advances. Closing prices are 5@8 points higher on all months, except September, which is 22 points higher.

The editor of the Duluth *Commercial Record* offers to appear before any fair minded committee of the Minneapolis Chamber of Commerce and prove that the Wheat crop of the Northwest for 1903 was in excess of 175,000,000 bu.

Local Securities were unsettled, with fair trading. Box Board preferred, Metropolitan Elevated preferred and Carbon common sold off on realizing sales, and Street's preferred, Quaker Oats common and Northwestern Elevated common made good gains.

Stocks in New York were heavily traded in—nearly 500,000 shares up to noon. There was a substantial advance early, and a sharp reaction. Strong interests bought 50,000 shares early. Money advanced to 1½ per cent, and caused selling on the advance, which gave the market a setback, and the closing sales were mostly lower.

Directors of the Illinois Trust and Savings Bank, of Chicago, have declared the usual extra dividend of 1 per cent on the share capital of the bank. The checks have been mailed to stockholders. Three of these dividends have been paid in addition to the regular quarterly rate of 3 per cent. One more will be paid in December, making a total of 16 per cent on the stock for the year.

"Chicago Day" at the World's Fair at St. Louis is likely to be well patronized by Board of Trade men. The directors have authorized the appointment of a committee of five to determine the advisability of running a special train from Chicago to St. Louis and to secure the cost of such. The President has appointed the following members on the committee: S. H. Woodbury, W. S. Booth, Jas. E. Bennett, U. R. Denniston, and Fred. Paddleford.

Bradstreet's report of the available supply for the past week shows the following changes:

	1904. bu.	1903 bu.
Wheat east of Rockies	Inc. 878,000	Inc. 1,266,000
Europe and afloat	Inc. 3,110,000	Dec. 400,000
Total	Inc. 3,978,000	Inc. 866,000
Corn	Inc. 1,276,000	Inc. 571,000
Oats	Inc. 4,243,000	Inc. 547,000

The San Francisco *Call* says: "More than 4,000,000 bu of Wheat grown in the Columbia basin is contracted for delivery during September, October, November and December, at Chicago and in Eastern States. Unless the present prevailing conditions of the Wheat market and rates fixed by ship owners on export business change very materially, practically all of the Wheat grown in the Northwest in excess of the mill demand of this region will find its market by rail shipment to Chicago and other points."

ACTION ON BILL OF LADING.

The Transportation Committee of the Chicago Board of Trade approves of the following:

Regarding the Bill of Lading now being presented by the carriers for the shipping of commodities, the American Shippers' Association recommends:

First: That shippers refuse to sign the uniform bill of lading.

Second: That shippers insist that the words "not negotiable" be stricken out from all "order" bills of lading. It is further recommended that shippers use their present bills of lading and shipping receipts. Your committee will do everything in its power to secure an equitable adjustment of the same.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—A moderate local demand is reported with prices steady. St. Louis and Minneapolis both reported sales on the increase.

WINTER WHEAT—Was steady for choice grades but 2@3c lower for poor Wheat. Demand good. No. 2 Red in store quotably $1 06¾@1 07⅞, and fresh arrivals sold at $1 08 free on board, with the nominal range $1 08@1 12 outside for pure Wheat. No. 3 Red sold at $1 05@1 07½ for fresh arrivals free on board. No. 4 Red sold at 90c for very poor and $1 00@1 06 for good to choice. No. 2 Hard sold at $1 07, and quotably $1 05@1 07½ for fresh arrivals free on board. No. 3 Hard sold at 97½c@$1 05½ for fresh arrivals free on board and at 97½c@$1 00¾ at the river. No. 4 Hard sold at 90@95c free on board. No. 3 White sold at $1 06½ free on board.

SPRING WHEAT—Very little doing. Arrivals small and demand fair. No. 1 Northern nominally $1 16@1 18. No. 2 Northern nominally $1 07@1 15. No. 3 Spring sold at $1 07@1 11½ for good to choice and quotable down to $1 03 for ordinary. No. 4 sold at 80c for poor.

REGULAR WHEAT—Just a fair trade, the market displaying rather a strong undertone, closing ⅜c to ½c higher than yesterday. The upturn at Minneapolis and advance in cash values at Duluth were among the early "bull" helps. The English markets, too, were stronger and was reported as due to the Continent buying cargoes off coast. Liverpool quoted spot steady to ¼d higher while futures were up 1d. London came ⅝@⅞d higher. Paris was unchanged and Antwerp ⅝c lower. Berlin was ¼@⅜c higher and Buda Pesth ⅝c lower. Receipts in the Northwest were only about half those of a year ago, while the total movement was 100,000 bu larger, owing to the large arrivals at Kansas City in 1903. Local professionals and the Northwest were among the principal buyers, while the selling was scattered. Floor traders were under the impression that a prominent local elevator concern was covering "shorts" through brokers while openly favoring the selling side of the market. Minneapolis reported a much better demand for Flour, due to the low stocks now in the East, and one of the large mills at St. Louis sold 10,000 brls yesterday. Map showed fair weather with higher temperatures in Manitoba and the Northwest and clear conditions indicated. The Kentucky State report showed 80 per cent of a full crop. The *Bulletin des Halles* estimated the French crop at 292,000,000 bu, against 360,000,000 bu in 1903. Stocks here in all positions increased 413,000 bu last week to 3,691,000 bu, compared with 6,203,000 bu one year ago. Contract stocks decreased 22,909 bu and now include 421,176 bu, as against 245,161 bu same date in 1903. *Bradstreet's* increased 3,900,000 bu, against 866,000 bu increase same week in 1903. The London *Times* estimated the crop 82 per cent, against an average yield of 92 per cent. Minneapolis stocks are estimated to have decreased 235,000 bu so far this week. Seaboard sold 4 loads. Receipts at Duluth 116 cars and at Minneapolis 216 cars, a total of 326 cars, against 849 cars yesterday, 238 cars a week ago, and 438 cars last year. Local receipts included 70 cars Winter, 19 cars Spring and 6 cars mixed, a total of 95 cars, against 225 cars last year. Included in the above were 3 cars of contract grade. There were 15 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 74 cars. Withdrawals to-day were 3,100 bu. Receipts at Western points were 827,462 bu, against 1,741,802 last year. At Eastern points 65,179 bu, against 305,630 last year. Shipments from Western points were 457,227 bu, against 467,943 last year, and from Eastern points 60,115 bu, against 237,820 last year. Shipments of Flour were 14,612 brls. Exports of Wheat in Flour were equal to 133,869 bu.

Future Deliveries of Regular Wheat—Fair trade and market stronger.

SEPTEMBER—Old Style—Sold at $1 06⅝@1 07½. Opened at $1 06⅝; sold to $1 07½, to $1 06⅞, and closed at $1 06⅞.

SEPTEMBER New Style—Sold at $1 03¾@1 04⅞. Opened at $1 03¾ to $1 04¼; sold to $1 03⅞, to $1 04¾, to $1 04½, to $1 04⅝, to $1 04½, to $1 04⅞, to $1 04½, to $1 04⅞, to $1 04⅛ and closed at $1 04⅛.

DECEMBER—Sold at $1 06⅜@1 06½ to $1 07½. Opened with sales at $1 06¾ to $1 06½; sold to $1 06⅝, to $1 06¾, to $1 06½@1 06⅝, to $1 07⅛, to $1 06⅝@1 06½, to $1 07¼, to $1 07, to $1 07¼, to $1 05⅞, to $1 07½, to $1 06⅞, and closed at $1 06⅞.

MAY—Sold at $1 08⅝@1 08¾ and at $1 09⅝. Opened with sales at $1 09⅛ to $1 08¾, sold to $1 09¼, to $1 09, to $1 08⅝@1 08¾, to $1 09½, to $1 09, to $1 09⅝, to $1 09⅜, to $1 09⅝, to $1 09, and closed at $1 09@1 09⅛.

CORN—Was active with a fair general trade, the close showing gains of ⅛c to ¼c. There was good buying by commission houses and several of the larger local "shorts" covered on the advance. Provision interests bought, and part of the early purchases were credited to Wall Street and the Southwest. Reports from the Southwest were not of the best, advices in most instances claiming the crop was late and in no condition to stand an early frost. Map showed stationary temperatures West and Southwest and through the Ohio Valley. Rather too cool west of the Missouri River. Fair weather indicated. Liverpool was firm and quoted futures up ⅝d and spot unchanged to 1d lower. Iowa bulletin stated two-thirds of the crop would need normal warm weather until close of September to be safe from frost. Receipts were much smaller than expected at 783 cars, against 780 cars last year, and 466 cars were estimated for to-morrow. Local stocks in all positions were reported as 3,773,000 bu, an increase last week of 965,000 bu; stock one year ago 4,230,000 bu. Contract stocks decreased 62,293 bu, and now include 1,388,706 bu, against 1,927,351 bu same date in 1903. *Bradstreet's* increased 1,276,000 bu, against 571,000 bu increase same week in 1903. Western receipts were 1,585,000 bu, against 1,606,000 bu in 1903. Shipments 986,000 bu and 440,000 bu respectively. Local arrivals 1,374,000 bu and shipments 835,000 bu. Withdrawals 245,000 bu and exports 65,000 bu. Shipping demand moderate. Sales 150,000 bu. Charters were reported for 410,000 bu, making about 1,000,000 bu in past two days. MAY—Active. Sold at 35@35⅛c and at 35⅝c. Opened at 35½c to 35½@35⅝c, sold to 35@35⅛c, to 35⅛c at close.

RYE—Was firmer. Offerings moderate and demand fair, with futures about ½c higher. The strength was mainly in sympathy with other Grain. Receipts were 17 cars and 4 cars were estimated for to-morrow. No withdrawals from store and no export clearances from New York. No. 2 to go to store sold at 70½c and free on board at 71½c. No. 3 fresh arrivals sold to go to store at 69@69¾c and free on board at 70c. No. 4 sold at 65c. No Grade heating sold at 60c to go to store.

Future Deliveries of No. 2 Rye—Light trade and prices ½c higher. September sold and closed at 70c and December at 72c. May sold at 74c, and closed 74c bid.

BARLEY—The market for choice heavy Barley was firm and there was a good demand for Barley of this quality. For low grade, thin or dirty Barley, there was an easy feeling, but prices were no lower. Offerings were liberal and were mainly common to good in quality. To-day's postings showed 89 cars inspected in. Poor, thin, badly stained or dirty, feed Barley, quotable at 37@38c. Low grade malting, dirty, small berry, of poor color, 40@43c. Fair to good color, depending on weight and other conditions, ranged at 44@48c, main trading at 45@48c. Higher grade, or choice, ranged at 49@52c. Fancy quotable up to 54@55c.

SEEDS—Flax, Timothy and Clover all ruled steady. There was a good trade in cash Timothy. Flax and Clover were quiet.

Timothy—The market for future deliveries was quiet and unchanged. For September $2 90 was bid. October also received bids of $2 90 and January was nominally $3 00. Cash Seed was steady. There were liberal offerings, most of which were taken at former prices. Fair to good country lots quotable at $2 60@2 70; high grade to fancy above, up to $2 80@2 85, possibly higher than that if fine enough. Dark and dirty about $2 25@2 55, depending on quality.

Flax—Nothing done in futures and the cash market was unchanged. Receipts were 14 cars at Minneapolis, 1 car at Duluth, and 8 cars or 7,200 bu here. Local output was 9 cars or 9,321 bu. No. 1 Northwestern or No. 1 from the Northwest sold at $1 26½. No. 1 sold at $1 19½. Rejected was nominally $1 15@1 19. For September $1 19½ was bid and December was $1 21½ bid.

HOG PRODUCTS—A fair speculative trade was reported in Hog Products, and the market was stronger in a general way. Offerings were not quite as free as during the past few days, while the demand was fairly active. Outside orders were somewhat larger, and local trading was fair. Prices were advanced on all the leading articles early, but toward the close receded slightly. January delivery met with considerable favor and ruled rather firm. Hogs were in moderate supply, and prices higher. Receipts at the leading Western packing points were estimated at 36,300, compared with 61,600 one year ago. Foreign markets were quiet and Lard was quoted 6d lower. Domestic markets were quiet and steady. Receipts of Products were good—of Lard and Meats about 26 cars. Shipments were fair—of Lard and Meats about 128 cars. Demand on shipping account was rather active, and offerings were fair. Sales were quite liberal, and prices inclined slightly in favor of buyers.

Mess Pork—Trade was fairly active in Mess Pork and the market was stronger in a general way. Offerings were moderate and the demand was fair. At the opening the feeling was rather easy, and a few trades were made at 2½@5c decline. Later, the market was stronger, with fair miscellaneous buying, and prices were advanced 10@12½c, but toward the close receded 5@7½c, and market closed comparatively steady at about medium figures. Demand on shipping account was moderate and offerings were fair. Cash lots were quotable at $10 80@10 90.

SEPTEMBER—Demand light and offerings were small. Sales were made at $10 77½@10 82½, and closed quiet at 10 80.

OCTOBER—Offerings were moderate and the demand was fair. Sales were made at $10 87½@11 00. Opened at $10 90, sold to $10 87½, to $10 95, to $10 92½, to $10 97½, to $10 95, to $11 00, to $10 92½, and closed steady.

JANUARY—In moderate request and offerings were rather light. Sales were made at $12 50@12 60. Opened at $12 50, sold to $12 60, to $12 55 and closed steady.

Lard—A fairly good business was reported in the Lard market, and the feeling was steadier. Offerings were moderate, and a fair general demand prevailed. Prices ruled 2½@5c higher with trading mainly in October and January contracts, and the market closed steady around medium figures. Foreign advices less favorable to holders. Demand on shipping account was moderate, with rather light offerings. Cash lots quotable at $7 02½@7 05. Loose lots in fair request with moderate offerings. Prices were steady at about 15c discount on October figures. Leaf Lard was in light demand with the offerings moderate. Quotably steady at about $8 87½. EXPORTS OF BREADSTUFFS.

[From the Liverpool Corn Trade News.]

The following table exhibits the exports of Breadstuffs from the following countries from August 1, 1904, to August 20, 1904, compared with the corresponding time in 1903:

Countries—	1904, bu.	1903, bu.
America	68,441	804,000
Previous week	60,831	868,000
Totals	129,272	1,672,000

The Getreidemarkt, of Berlin, estimates this year's Grain crops as under, compared with the official estimates of last year:

	1904.	1903.
Wheat and Spelt, qrs 480 lbs	16,500,000	16,400,000
Rye, qrs 480 lbs	42,000,000	45,500,000
Barley, qrs 405 lbs	15,500,000	18,000,000
Oats, qrs 304 lbs	39,000,000	41,000,000

Beerbohm, of Aug. 26, says: "The French Oats crop is a decided failure, some authorities putting it at 40 to 50 per cent less than last year, when the yield was abundant. Prices for Oats in Paris have risen considerably of late, choice black in Paris being now quoted at 17s 6d to 18s per 331 lbs, and white at 16s 3d per 304 lbs. It is probably only the large stocks of old Oats in the country which prevent very high prices."

A Boston dispatch says: "The Wool market continues active, most of the large buyers still being in evidence. The sales for the week this season were well grown, and an unusually large amount has gone directly to the consumer without being sorted. Manufacturers report that the Woolen goods trade is in better condition than a year ago, and the larger mills have been prominent in the market."

It is asserted that the Midvale Steel Company has a new secret process for making armor plate, which will greatly reduce the cost of manufacture and revolutionize the industry. The Government will soon call for bids for a new lot of 10,000 tons, and it is expected that the Midvale will be in the market to secure the entire contract, and that it will compete with both the Carnegie and Bethlehem companies.

According to the figures of the *United States Interior*, the bond sales for the month of August amounted to $30,515,950, not including temporary loans. Of this amount $28,343,003 was issued by cities and towns, including $5,000,000 Philippine loan, $700,000 State of Minnesota, and $564,000 State of Alabama) and $2,160,957 by counties. This amount shows a decrease of $2,534,813 from the $32,041,774 reported for the month of July.

A member of the Chicago Stock Exchange who returned to the city, Tuesday, is quoted as saying: "I found business in the East in anything but an encouraging condition. In the Iron region trade is practically at a standstill. For instance, the town of Chester, Pa., whose population is about 32,000, there are only 7,000 unemployed men walking the streets. Iron and Steel and all other manufacturing establishments, are either operating on half time or have closed altogether. Merchants are complaining that collections are bad."

Not in a series of years have the monthly returns of new charters as compiled by the *Journal of Commerce and Commercial Bulletin* been so light as in August. These returns show a total capitalization for the whole Eastern States with $1,000,000 or more authorized capital stock of only $82,950 000. The nearest approach to this small monthly total in the current year, and for that matter in a number of years back, is the record for when the figures were $83,750,000. In July the total was $81,371,000.

The New York City Railway, which leases the Metropolitan Street Railway Company and operates practically all the surface traction lines in Manhattan and the Bronx, has issued the annual report of the entire system for the year ended August 20 last. In addition to the balance sheet the New York City Railway Company shows a deficit of $1,748,043 for the year. The income account of all the controlled systems shows a deficit of $1,946,776, with a probability that the figures will be larger. Gross earnings were $21,488,606, compared with $21,549,545 in 1903.

The two big furnaces of the Tennessee Coal, Iron and Railroad Company at Oxmoor have been banked, and there is a probability that the furnaces will remain shut down for an indefinite period, as it is reported there has been some hitch with reference to the supply of coke, which has heretofore been furnished by the Alice Iron Steel and Wire Company from its coke ovens at Virginia mines. It is understood that the contract existing between the two companies has been practically cancelled, and the supply being cut off, it was compelled to bank the furnaces.

Bombay advices of Aug. 5 state that in consequence of the improved prospects in the United Provinces of Agra and Oudh the Cotton crop is doing well. Crop accounts in Berars continue to be favorable, but rain is beginning to be needed. Drouth in the Nizam's Dominions and Central Deccan has continued unabated, the Cotton crop is doing badly, and prospects are discouraging. Rainfall during the week at Colaba 1 inch, at Ryculla 1 inch. Reports indicate that the heaviest 20 and 40 inches, respectively, against 39 and 65 inches, respectively, last year, and an average of the previous ten years 30 and 57 inches.

The United States Steel Corporation has made preparation for the blowing in of ten additional furnaces, with a daily capacity of 5,000 tons pig iron. Orders were sent to the Connellsville region, Monday, for the putting into service of additional coke ovens, and the Pennsylvania Railroad was notified of requirements for additional cars. It is inferred from this that the steel corporation has closed new contracts for finished material which have not yet been announced. A much better feeling is noted in iron market circles as a consequence of this activity in the corporation.

During the month of August there were chartered thirty-eight National banking associations, with capital stock of $1,582,000. Of these banks twenty-nine had a capital of less than $50,000, the total being $747,000, and nine a capital of $50,000 or over, aggregating $785,000. Since March 14, 1900, there have been chartered 2,121 National banking associations, with capital stock of $61,000,000. Of this $121,187,300, the bonds deposited at date of organization amounting to $29,986,900. Of that number 1,393 banks, with a capital of $35,695,500, were organized under the act indicated, and 728, with capital of $24,917,800, under the act of 1864.

The *Corn Trade News* of Aug. 26 says of French crop conditions: "Good rains have now fallen, much to the satisfaction of all growers. It is stated the moisture for root crops and meadows and for putting the land into condition for plowing. As regards the Wheat crop it is now accepted as a fact that the yield is short; but what is the extent of the deficit? Not sufficient threshing has yet been done for anyone to know with certainty, but our own correspondents have estimated 25 per cent below last year's big crop, and 10 per cent below an average, but not quite so much below a fair average. The crop is far superior to last year's. Our Lille correspondent says that the deficiency in quantity is ascribed to the fact that a great number of the ears were blighted away by the long and heavy rains of last winter."

A member of a New York banking firm says: "I consider the present business situation as reassuring. Good Crops and Crop reports are at hand, and while there may be a falling off in Wheat, forlorn crops are not likely to be large enough to materially affect prices. The recent falling off in the demand for long time money is of no particular significance. I look for an improvement in securities in the early future, which will probably show itself first in the market for bonds. I doubt if there will be any considerable change in either stocks or bonds till after the election. The indications are that the next large issue of railroad securities will be bonds. As a rule, these can be more satisfactorily disposed of than stocks. The American people have not yet been educated up to the point of properly appreciating stock holding, preferring in the majority of cases to hold a mortgage on the property."

Three hundred thousand shares of stock of the Bethlehem Steel Company, the entire capital stock of the concern, were sold for $7,500,000, Friday, by the receiver for the United States Shipbuilding Company, acting as special master under direction of Judge Lanning, of the United States District Court, at Newark, N. J. The par value of the stock is $15,000,000. The stock was bought in by William C. Lee, the only bidder, president of the Standard Trust Company of New York, which holds the stock as trustee for the reorganization committee of the United States Shipbuilding Company.

A New York dispatch says: "Owing to the keen competition between the International Salt Company and the independent manufacturers the price of Salt has been reduced here to a point considerably below the cost of production. Common Salt is now quoted at $1.75 a ton. The cost of delivering a ton here is about $2 40. The independent manufacturers say the reductions have been due to an effort on the part of the International Salt Company to force them out of business or compel them to enter the trust. A representative of the International Salt Company said that the resources for Salt production in the United States were practically unlimited and that there had been an overproduction for many years. The overproduction has caused large accumulations of stocks, and a sanitary effect of some sort must be realize on their product has, according to the International Salt Company, brought about the low prices."

The weekly Weather Bureau report, Tuesday, said: "A quite general deterioration in the condition of Cotton is indicated, although improvement is reported from isolated sections, principally in the Central Districts. Rust and shedding continue very generally prevalent. Drouth proved detrimental in Tennessee, and drouth and heat in Oklahoma and Texas, although the latter rain is to be beneficial have fallen recently over a large part of the last named State, where boll-weevils are destroying practically all new fruiting, except in the North Central sections. Damage by boll-weevils in Louisiana is restricted to a few small areas. Cotton is opening rapidly throughout this Cotton belt and picking is general except in the extreme Northern portion."

The Boston *News Bureau* says: "Steel stocks are up to above 13 for the common and above 62 for the preferred, and even the Steel men are asked why. They say that Steel orders and other trade people have narrow views. What is under the market for Steel and Steel shares at the present time as usually for any security is exactly what was atop of the market when it began to break down, and that is the bond market. The railroads consume 40 per cent of the Steel used in this country. When, as last year, the railroads had reached the limit of their borrowing capacity, or rather, the investor had reached the limit of his buying capacity, the railroads had to shut down for lack of cash, and they could not afford to use up Steel to a greater extent than ever before in the history of this country. Now the investment markets have recovered their equilibrium, the market for bonds is showing signs of life, in a few weeks, if nothing additional adverse happens to the crops, the country will be making the maximum demand upon railroad facilities and the builders will be pressing the railroad companies offering money in exchange for bonds. Then a few weeks later, say after the election, the Steel men of the country will be awakened by a sharp call from the railroads for Steel which does not now exist."

ITEMS OF GENERAL INTEREST.

New York Exchange 4c discount.

Documentary Sterling steady at 483½.

Chicago Bank Clearings to-day, $29,063,548.

Chicago Board of Trade memberships are offered at $3,550 net to the buyer.

The minimum rate of discount of the Bank of England is unchanged at 3 per cent.

Seven packers purchased 5,700 Hogs to-day; shippers, 4,000; left over, 3,000. Market closed steady.

Reported that 40,000 bu Wheat, 224,000 bu Corn and 60,000 bu Oats were taken at the seaboard to-day for export.

The Comptroller of the Currency has issued a call for a report on the condition of the Banks on Tuesday, Sept 6.

Stocks of Hog Products at Chicago estimated at 40,000 brls Mess Pork, 132,000 tcs Lard, and 20,000,000 lbs Short Rib Sides.

Deliveries on September contracts to-day were 255,000 bu No 2 Hard Wheat, 5,000 bu Corn, 20,000 bu Oats and 5,000 bu Rye.

Estimated receipts for to-morrow: Wheat, 141 cars; Corn, 689 cars; Oats, 175 cars; Rye, 9 cars; Barley, 53 cars; Hogs, 13,000.

Average cost price of Hogs at Chicago, Wednesday, was $5 45, against $5 42 Tuesday, $5 35 Monday, $5 33 a week ago, and $5 73 a year ago

The Cincinnati *Price Current's* weekly crop summary says: "Corn progressing well toward maturity, but less rapidly than if weather was warmer. Wheat crop without new feature. Other crops maintaining previous indications"

Local Securities were moderately traded in and prices mostly averaged lower. The main loss was in Quaker Oats, the other Industrials being off only slightly. The gains were in Swift's, Shipbuilding and Title and Trust. West and North Chicago Railway advanced sharply and lost it.

Cotton in New York sold both higher and lower. Advances were made on higher cables, and declines on heavy selling for profits by Wall Street. The trade is looking for a squeeze in September, in which there is a large and concentrated "short" interest. The market closed 7@11 points lower.

The Cincinnati *Price Current* reports the packing of the West for the week at 300,000 Hogs, compared with 350,000 for the week previous and 310,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 10,435,000 Hogs, compared with 10,540,000 for the corresponding time last year—a decrease of 105,000 Hogs.

Stocks in New York were active and strong with material advances. Steel preferred was bought on better reports from the Steel and Iron trade, advanced 1 point and reacted ½. Coalers were up sharply. General Electric advanced 4 points. Western Railways advanced ⅝ to 1¼, Rock Island leading, but lost the greater part. Money 1 per cent.

"As a whole, the Iowa Corn crop has done fairly well during the week," says the Iowa crop bulletin. "The progress of the crop toward maturity has been more uneven than usual in the same localities and in the same field. Reports from all sources confirm the previous statement that two-thirds or more of the Corn crop will need normal warm weather till the close of September to be safe from damage by killing frost. The more advanced fields show signs of earlier maturity."

In a report on Corn the Kansas weather crop bulletin says: "In the eastern division of Kansas Corn has made a decided improvement, but warmer nights are needed to mature it. The early Corn has matured and is out of frost's way. It is being cut and shocked as far north as the Kaw River. Late Corn is doing well, but needs warm nights. In the middle division early Corn is generally safe from frost, and is a good crop. The late Corn is in good condition, but would probably be damaged by an early frost In the western division Corn is maturing in Thomas, and is being cut in Lane County. Threshing is about finished in Thomas. The range grass is cured on the ground in Ness County, but in the northern and western counties is being cut for Hay, and a large crop is being put up. The forage crops are large and are being cut and put up"

WORLD'S SUPPLY OF BREADSTUFFS.

No 4 Spring sold at 7?c for poor, to $1 05@1 07 for good and at $1 12 for choice. No Grade sold at 58c @$1 00.

REGULAR WHEAT—There was a better trade and stronger market, the close showing gains of 1¼@1½c. There was a marked increase in the volume of outside commission house business, and local professionals traded with greater freedom Market started out somewhat easier, influenced by the break on the Minneapolis curb and large local receipts, but the offerings were well taken, and it soon developed more was wanted. Buying was led by prominent Southwestern interests who were credited with reinstating lines liquidated some time ago Local "bull" leaders also purchased freely, acting more aggressive in their operations, and "shorts" covered on the rally. Crop news from the Northwest was unfavorable and the cash situation reported strong at Duluth. Minneapolis wired: "Reports from North Dakota claim that bulk of the late Wheat is still standing and will never be cut; am satisfied lowest estimates will have to be reduced." Another from there read "Country deliveries are better to-day; look for liberal movement if good weather continues." The *Price Current* reported the crop without new feature. Kansas City claimed 60,000 sacks of Flour had been sold there within a week and booked for Liverpool. Duluth reported a better demand from Eastern millers and 25,000 bu sold. Liverpool quoted spot steady to ⅛d higher and futures ⅛d better Cargoes on ocean passage were 1½d higher. London came unchanged to ⅛d lower. Paris was ¼c higher. Berlin and Antwerp unchanged. Primary receipts 177,000 bu smaller than a year ago. Northwestern cars 562 less Kansas City and St. Louis received 374,000 bu, against 193,000 bu same date in 1903. According to the DAILY TRADE BULLETIN the world's stock of Breadstuffs Sept. 1 was 124,977,000 bu, compared with 103,837,000 bu a year ago. Flour output for the week was 432,000 brls, against 449,000 brls for same period in 1903 London cables reported a distinct falling off in the Russian offerings. Minneapolis reported stocks reduced 300,000 bu the past five days and St. Louis stocks decreased 100,000 bu past two days. *Broomhall* cabled that light rains were falling in India. Exports were very moderate and 5 boat loads accepted at the seaboard Winnipeg wired some very discouraging reports coming there of threshing—two forty acres threshed 300 bu Casselton. N D , wired that 75 acres threshed yielded eight bu per acre and graded No 2. Cash sales 25,000 bu. Receipts at Duluth 69 cars and at Minneapolis 185 cars, a total of 254 cars, against 325 cars yesterday, 242 cars a week ago, and 818 cars last year. Local receipts included 457 cars Winter, 7 cars Spring and 1 car mixed, a total of 465 cars, against 151 cars last year. Included in the above were 10 cars of contract grade There were 11 cars and 43,800 bu taken from unlicensed elevators The estimated receipts for to-morrow are 141 cars. Withdrawals to-day were 11,200 bu. Receipts at Western points were 1,118,192 bu, against 1,295,560 last year. At Eastern points 106,625 bu, against 159,371 last year Shipments from Western points were 502,912 bu, against 384,324 last year, and from Eastern points 13,000 bu, against 10,400 last year. Shipments of Flour were 15,790 brls. Exports of Wheat in Flour were equal to 54,055 bu.

CORN—Was active, with a good general trade. Feeling manifested was stronger and the close ⅜c to 1c higher than yesterday. Buying was of better character than the selling, several of the larger commission houses conspicuous on the "bull" side of late as well as professionals taking December and May freely. The Southwest was also credited with buying. "Shorts" covered on the advance. Elevator interests sold The map showed slightly higher temperatures West and stationary Southwest Fair weather was generally predicted, with no indication of frost. Private crop reports from Missouri, Iowa and Nebraska at the same time were "bullish" and Wheat strong. Receipts were 543 cars, against 612 cars last year, and 689 cars estimated for to-morrow. Liverpool quoted spot ⅛d lower to ⅛d higher and futures ⅛@¼d higher. The *Price Current* reported the crop progressing well toward maturity, but less rapidly than if the weather was warmer. Local receipts were 1,191,000 bu and shipments 315,000 bu. Western receipts 1,415,000 bu, last year 817,000 bu. Shipments 461,000 bu and 691,000 bu respectively. Withdrawals from store 336,000 bu, and exports 7,000 bu. Local shipping inquiry improved, and sales 280,000 bu. New York reported 18 boat loads accepted on a basis of 57c f.o b. Future Deliveries of Contract Oats—Were more active and higher

SEPTEMBER—Sold at 31¼@31⅝c. Opened at 31⅝c, sold at 31¼c, to 31⅝c at close.

DECEMBER—Active. Sold at 32⅝@33c. Opened at 32⅝c to 32¾c, sold to 33c, to 32⅞@33c at close.

MAY—Active. Sold at 35@35⅝c and at 35⅝c. Opened at 35⅛c, sold to 35@35⅛c, to 35⅝c, to 35½c at close.

RYE—Ruled firmer and prices ½@1c higher. Demand good and offerings light Millers bought most of the car lots. Some speculative demand also existed. The upturn in Wheat naturally had a strengthening effect The receipts were six cars. There were none withdrawn from store here and no export clearances reported from New York No. 2 in store nominally about 71@72c and fresh arrivals free on board sold at 72@72½c

Future Deliveries of No. 2 Rye Ruled firmer and prices 1c higher. Demand fair and offerings light September 71c bid and 72c asked December sold at 73½c at the close. May 76c asked.

BARLEY—There was a generally easy feeling and prices for medium grades were called fully 1c lower. Offerings were not quite as free as during the past few days, and the demand was also a little more moderate, especially for the low grades Postings showed 43 cars inspected in. Screenings quotably 32@39c for common to very choice. Poor, thin, badly stained or dirty, feed Barley, quotably 37@38½c. Low grade malting, dirty, small berry, poor color, 40@43c. Fair to good color, depending on weight and other conditions, ranged at 44@46c. Higher grade, or choice, ranged at 49@51c. Fancy quotable up to 54@55c.

SEEDS—Cash Timothy was heavy and lower. Flax was steady. Clover was lower for both cash and futures.

Timothy—There was a little more interest taken in future deliveries and there was a firmer feeling. September sold at $2 97½, which was 7½c higher than yesterday's close. October was called $2 92½ nominal For January $3 00 was bid. March was offered at $3 12½ and $3 10 was the best bid There was a fair quantity of cash Seed on the market, but the volume of business transacted was small, owing to the difference of opinion as to values. There was a generally lower market for cash Seed, especially low grade or badly hulled. Fair to good country lots quotable at $2 00@2 60; high grade up to $2 65@2 70, and fancy at $2 75. Dark and dirty or badly hulled about $2 25@2 40, depending on quality.

Flax—There were a few cars of cash Seed sold, which constituted the business of the day. Prices for both cash and futures were unchanged Receipts were 13 cars at Minneapolis, 2 cars at Duluth and 8 cars or 7,200 bu here Local output was 4 cars or 4,086 bu No 1 Northwestern or No. 1 from the Northwest sold at $1 26½. For No. 1 $1 19½ was bid. Rejected was quotable at $1 15@1 19, depending on the quality For September there were bids of $1 19½, and for October $1 21½ was bid.

Clover—There was a nominally lower market for both cash and futures, due to favorable reports of the new crop. There was no new Seed on the market and only a small quantity of old appeared. October delivery, $11 75@11 90. Contract spot Seed was quotably about $11 75@11 90. Country lots, common to choice, $9 00@11 50; fancy above. Fair to good, $10 00@11 25

HOG PRODUCTS—Trade in a speculative way was quite active in Hog Products, and the undertone to the market was stronger early, influenced to some extent by the advance in prices of Hogs and Grain. Outside orders were fair, and local trading was rather active Offerings were moderate, and the demand was fair "Shorts" credited with accepting moderate quantities Prices ruled higher on all the leading articles Toward the close, the feeling was easier, and prices receded moderately, and closed steady at medium figures. Trading chiefly in October and January contracts Hogs were in only moderate supply and prices higher. Receipts at the leading Western packing points estimated at 37,900, compared with 46,910 last year. Returns of the packing of the West for the week, compared with the corresponding week in 1903, exhibited a decrease of 10,000 Hogs Foreign markets were quiet and prices unchanged Domestic markets steady. Receipts of Products were liberal—of Lard and Meats about 33 cars. Shipments were quite large of Lard and Meats about 167 cars. Shipping demand was brisk, and offerings were fair. Sales were moderately large, and prices favored sellers.

Mess Pork Trade was fair in the market for Mess Pork, and the feeling was stronger Offerings were moderate and the demand was fairly active. Market opened steady at about the closing figures of Wednesday, but the market grew stronger, and prices were advanced 12½@15c. Toward the close, the market weakened, and prices settled back 10@12½c, and closed steady Inquiry on shipping account was light, and offerings were small. Cash lots quotable at $10 87½@11 00.

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Sept. 1.]

Wheat—Wheat markets continue very stone and the demand from Eastern centers has not ceased, and large orders are coming in daily. San Francisco buyers are purchasing quite freely in this market. The foreign markets have increased their limits for Wheat, but are not high enough to induce exporters to charter vessels at prevailing freight rates. Shippers can not afford to wait and avoid risks and a great many changes by paying more attention to Eastern and California markets. Fluctuations during the week have been with the rapid changes in the East, and at one time quotations were down as low as 73c for club, but toward the close prices advanced and show an increase of 2c over one week ago. The week's list is ideal for harvesting operations and a great many sections in the Northwest have about finished. Some districts will be through this week, and from reports of our correspondents fully 95 per cent of the crop has been secured. Yields are keeping up in almost every county except Union County, Oregon, and Whitman County, Washington, and there is no doubt that the crop will show a very large increase over that of one year ago. Claims are made that Whitman County, Washington, will harvest from 2,000,000 to 3,000,000 bu of Wheat by very conservative people in the trade. The reviews of this county on Aug 10 were 10,000,000 bu, and we doubt seriously whether the same will be exceeded. The Palouse and Walla Walla Counties are almost through harvesting, and conservative estimates give the total of both counties as 9,000,000 bu of Wheat. Reports have been received from unreliable sources recently that the Pacific Northwest will not harvest a crop of 45,000,000 bu of Wheat; we desire to say that these figures are going to the Northwest as a minimum, the crop will be fully 55,000,000 bu, and may possibly reach 65,000,000 bu. The *Commercial Review* will publish the final crop figures the latter part of September, and we are confident that our figures and present estimates will be fully borne out. Quotations for club Wheat at the close are 73c; bluestem, 81c per bu; Valley Wheat is not being bought in this market, and quotations are nominally at 80c per bu by millers at various local interior points.

Flour This market at present displays great activity, owing to the fact that large orders worked for Japan must be loaded on steamers prior to Sept. 5, so that the Flour on board will arrive at Japan before the duty shall be placed on the same on Oct 1. The demand from the Orient will probably fall off considerable after the sailings of the steamers now loading. The larger mills will be shipping small lots occasionally to that country. It is doubtful whether many new orders will be received before the beginning of the new year, as the stocks now going over will be large and will last for some time to come. Considerable will be done business with Hong Kong, as buyers over there are not having any embargo placed on them for food stuffs to be imported. The demand from China at present is light, and some parties with orders have been placed with the larger mills; stocks of old Flour have been dwindling for some time, and there have been some heavy purchases made to be shipped after the harvest. The usual South America demand is fairly good, and shipments are made on each steamer from Puget Sound and San Francisco, where the same is reshipped after being shipped to San Francisco from here. California demand from Northern ports for local use continues very good, and many of the mills are doing a profitable business in supplying that Northern Flour. Locally the market shows considerable improvement, and jobbers are replenishing their stocks. We quote export brands from $3.35 to $3.50 per bbl; local straights from $3.60 to $3.75, and patents from $4.20 to $4.50 per bbl, according to quality.

POPULATION AND CONSUMPTION.

[From the Wall Street Journal.]

The population of the United States is increasing faster than that of any other of the leading civilized countries. That has a very important financial significance, though its full importance can be but dimly understood. In the last 83 years our net increase in population has been at the rate of more than 30,000 a year. The annual increase over 250,000 can be ascribed to immigration.

The growth of the population from 1890 to 1900 was 21 per cent; from 1880 to 1890 it was 24.9 per cent, and from 1870 to 1880 it was 30 per cent. Thus the percentage of increase is steadily declining, but it is still so great, and in all probability will long continue so large as to guarantee for this country an immense population, with which even the present total, imposing as it is, will appear small indeed. Our population has more than doubled since 1870. Supposing that it doubles again in the next forty years, there will be 160,000,000 people before the first half of the century passes. Even on a estimate of a 5 per cent increase between 1900 and 1910, and a 10 per cent increase between 1910 and 1920, there should be 107,000,000 inhabitants by 1920. That is a period near enough at hand to bring the question of such a population within view as a practical one.

It has been said that our population is increasing faster than that of other large nations. A French statistician, who made a special inquiry into this matter, has computed the gain or loss of the leading countries in the last ten years on the basis of a percentage of the whole population. This puts the gain of the United States ahead of every other country

Making a comparison of the percentage of increase in the past ten years and the past fifty years, and the following showing is presented:

	Percentage of gain	
	10 years.	50 years.
United States	22.2	282.6
France	1.2	10.7
Germany	11.7	87.0
United Kingdom	10.0	52.1
Russia in Europe	16.4	82.0
Italy	4.4	
Belgium	12.3	51.4

The most striking advantage of the United States in respecting increase of population is thus revealed at a glance. France has been standing almost still in the past ten years. India has made scarcely any progress. Russia, Germany and England have been making fair progress, but the United States overtops them all.

This rapid increase in our population has by no means exhausted our resources or filled our territory. There is still room west of the Mississippi for double the present population of the entire country, and even then there would be no cause for crowding. But what would probably be the effect of this on the productive capacity of the United States? Would our Grain fields, for instance, be sufficient to supply the food demand of our own people and leave any surplus for export?

This inquiry might be extended so as to cover every other product of this country. It is quite possible that our supply of Cotton will, in time, become no more than sufficient for our own consumption.

The average, per capita, consumption of Wheat and Wheat Flour in the past four years in this country has been 5.15 bushels. With a population of 107,000,000 in 1920 we would need at this rate 561,000,000 bu for our own use. If our area of production were not increased is is easy to see that a short crop of Wheat, such as is promised for this year, might not be sufficient for our own consumption, and we would be required to import Wheat. Of course our Wheat area is altogether likely to increase. Predictions that it will not do so rest upon data of similar predictions made fifty years ago with great elaborateness by a leading expert. Yet in that time the production of Wheat has increased 500 per cent.

But while production will undoubtedly increase there is every probability that population will increase still more rapidly, and in this fact is to be seen the strongest assurance of good prices and consumption. There will be a time when as regards the basic products—those of the soil—the needs of our people will be a sufficient markes for all that we produce.

THE FLOUR PRODUCTION.

MINNEAPOLIS, Sept. 7.—The *Northwestern Miller* reports the weekly Flour output at milling centers for two weeks, with comparisons, as follows:

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled by St. Louis.

There was an increase in the output of Minneapolis mills of 86,870 bris last week. To-day thirteen mills are in operation and all are expected likely to start up later in the week. The prospect is that the output for this week will approximate 300,000 bris

During the past week the Minneapolis Flour market has been in anything but a satisfactory condition. The decline in Wheat seems to have taken from buyers what little of the purchasing spirit they possessed a week ago. Mills did not begin to sell their output and in consequence the production of the current week will fall short of that of last week by probably 70,000 bris. It is doubtful if the proportion of sales was more than three-fifths of the output. Such a state of affairs can not, by any stretch of imagination, be called gratifying. The tendency of rose bushes among mills reported trade to be better than is reported by city mills. Why this should be it is difficult to say, but it is a fact, nevertheless. Stocks, as mentioned a week ago, are not large and will be somewhat over the country, and the small amount of business done was made up of scattering orders for small lots, indicating that the trade is adhering to the hand-to-mouth policy of doing business. There is absolutely no buying in volume or even in round lots, as is usual at this time of year. Taken generally, the demand for export sorts is also are higher grades, but here, also, trade is very dull.

As it has been for a long time, export trade in Patent is out of the question, and mills are selling nothing at all of any account to be shipped abroad. For Clears, however, demand is quite brisk; that is, compared with what it has been. Quite a number of sales of fair size are reported to the United Kingdom as well as to the Continent, but on what that business in Patent to foreign countries will be impossible until the Wheat market comes down.

Owing to the increased output Bran fell off in the earlier part of last week, but recovered the loss to some extent in the latter part. Heavy feeds, as is usual at this time of the year, fell off considerably in price, and red dog is to-day about $2.75 per ton lower than the high point of last week. Output and prospective output have more influence on the price of milfeed than anything else.

THE HOP SITUATION.

[New York Producers' Price Current, Sept. 8.]

Much interest is shown in the European and the world's crop of Hops. In New York State picking on the main crop is now in full blast and both growers and dealers are surprised at the yield, in some sections 25 per cent more than was expected the picking shows an increase of 45 per cent and above. Until recently 60,000 bales had been considered a fair estimate, but conservative authorities are now placing the crop at 75,000 bales. Buying has been lively both for seedlings which have now been picked, and regular lots which are now coming in. Stocks has been paid freely in the interior, and 30c for choice to fine quality of the samples shown thus far indicate the finest crop in years. On the Pacific Coast buying has been exceedingly active and prices have advanced to 27c on contracts. Picking in California is well under way, and a beginning has been made in Oregon; next week harvest will begin in Washington. It is believed that the yield on the Pacific Coast Hops have already passed out of growers' hands. The crop is placed at 60,000 bales by conservative, 90,000 bales by sanguine and 80,000 bales for Washington Reports from England are not encouraging, farmers being unable to get rid of vermin and mold. Estimates of the crop are placed anywhere from 200,000 to 300,000 cwt, uncertains that it may go lower. The Austrian harvest is finished and about 200,000 cwt gathered. Germany is just picking and indications point to considerably less than the last year. On account of the unusually fine summer's business in that country the stocks of 1903 and older Hops have been well cleaned up. The local market has shown much strength and holders of 1903 Hops have advanced prices, older goods moving up in proportion. There have been a few open sales of seedlings at 30c and more money has been obtained from brewers.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, Sept. 7.]

The attached table shows the quantity of Flour and approximate consumption of Wheat at Minneapolis and Duluth, together with that of 40 outside mills with a daily capacity of 80,660 brls, from Jan. 1, 1904, to Sept. 3, 1904, with comparisons:

	1904		1903	
	Flour, brls.	Wheat, bus.	Flour, brls.	Wheat, bus.
Minneapolis	8,290,910	37,305,000	10,040,900	45,205,000
Duluth	469,035	1,931,000	729,256	3,281,000
40 outside mills	4,318,540	19,433,000	4,397,108	19,787,000
Totals	13,037,585	58,669,000	15,171,876	68,273,000

These figures represent the approximate consumption of Wheat in the Northwestern States. Cool and partly cloudy West. Cool and clear Southwest. Light scattered showers and unchanged temperatures in the Ohio Valley.

Indications are for generally fair in this forecast district. Temperatures will rise somewhat in this section Friday, but will change again Northwest.

ITEMS OF GENERAL INTEREST.

The Chicago National Bank has declared the regular quarterly dividend of 3 per cent, payable Oct. 1.

Temperatures throughout Iowa are too low for Corn. They range from 51 to 60 degrees, with practically no rain.

Atchison Railway officials estimate that with no frost up to Oct. 1 Kansas will have 70 to 80 per cent of an average Corn crop.

Prices on structural Steel and Steel plate have been reduced $4.00 to $6.00 per ton. Billets have been cut down $4.00 a ton, the price being $19.00.

The American Hide and Leather Company and its subsidiary companies report net earnings for the year of $291,272; increase, $370,936; deficit, $79,664.

The Chicago Telephone Company has declared the regular quarterly dividend of 2½ per cent, payable Oct. 1. Books close Sept. 20 reopen Oct. 1.

A semi-annual dividend of 1½ per cent will be paid on the common stock of the Pittsburg, Bessemer and Lake Erie Railroad Company on Oct. 1, to stockholders of record Sept. 15.

The Commercial Cable Company declared the regular quarterly dividend of 2 per cent, payable Oct. 1. Books close Sept. 29 and reopen Oct. 3.

A semi-annual dividend of 1½ per cent will be paid on the common stock of the Pittsburg, Bessemer and Lake Erie Railroad Company on Oct. 1, to stockholders of record Sept. 15.

The Daily-West Mining Company has declared the regular monthly dividend of 40c per share, payable Sept. 15 to stockholders of record Sept. 10.

"The Commercial" says: "Bonds are declared the regular quarterly dividend of 2 per cent, payable Oct. 1. Books close Sept. 29 and reopen Oct. 3.

A semi-annual dividend of 1½ per cent will be paid on the common stock of the Pittsburg, Bessemer and Lake Erie Railroad Company on Oct. 1, to stockholders of record Sept. 15.

The Daily-West Mining Company has declared the regular monthly dividend of 40c per share, payable Sept. 15 to stockholders of record Sept. 10.

"The Commercial Cable" says: "Estimate 75 per cent Iowa Corn will mature Oct. 1 if have dry, favorable weather. Temperature, 53 Wednesday, foggy; conditions spotted; ripening slowly these cool nights."

The American Cotton Company, organized in 1895 with a capital stock of $7,000,000, went into the hands of receivers, Wednesday, at Trenton, N. J. The liabilities, exclusive of a bonded indebtedness of $2,000,000, are $1,327,000.

A Lincoln, Neb., dispatch says: "Lowest temperature here Tuesday night, 53. Warmer weather predicted. At least another week more will be out of danger. Conditions indicate that we will mature this crop thoroughly."

Directors of the Pennsylvania Railroad have authorized the guarantee of the refunding bonds of the Cleveland, Cincinnati, Chicago & St. Louis changed for a like amount of unified bonds of that company held in its treasury.

The quarterly rental of 1¾ per cent on the capital stock of the Maryland Coal Railway Company, to be received from the New York City Railway Company, will be distributed on Oct. 15. Books close Sept. 24 and reopen Oct. 17.

The Cypress Log Mill of the Ship and Engine Company, at whose yards three United States battle ships are under construction, was bid in at foreclosure sale at Quincy, Mass., Wednesday, for $1,000,000 by a party representing the reorganization committee.

Forty Southern manufacturers of colored Cotton goods, representing $30,000,000 of invested capital, organized, Wednesday, at Atlanta, Ga., under the name of the Southern Colored Cotton Goods Weavers' Association. The members will act together in requisiting dealings with the trade.

The annual meeting of stockholders of the American Hide and Leather Company, scheduled for Sept. 7 in Jersey City, was postponed without action until Nov. 15. The annual report of operations for the fiscal year ended June 30, 1904, was issued, however. It shows a much more profitable year than the previous one and nearly as good as 1902. Gross profits from sales were $315,900 larger than in 1903, and charges were $45,964 less of $52,420. A surplus of $291,272 was earned for the year, as compared with a deficit of $79,664 the previous year. The surplus amounts to 4.24 per cent on the $13,000,000 preferred stock.

The Elgin, Aurora and Southern Traction Company has closed a traffic contract with a new connecting line which is about to begin operating from Joliet to Aurora. The new line is already in operation from Joliet to Plainfield, Ill., and the part between Plainfield and Aurora will be finished within a few weeks. It is now expected to considerably increase the traffic of the Elgin and Southern. It is officially stated that the floating debt of the Elgin, Aurora and Southern Traction Company has been reduced $100,000, and more is being steadily diminished. The company is in the best condition for a long time. There is no talk of a resumption of dividends on the stock, however.

Texas now stands first in railroad mileage of all the States in the Union. Figures obtained by the railroad commission from official sources show that Illinois has 11,983 miles of railroad, while Texas has 11,583 miles of main track in operation, to which might properly be added the new mileage of the Chicago branch of the St. Louis, Brownsville and Mexico, amounting to about 300 miles, and making Texas' total mileage 11,883, or 45 miles more than Illinois, which has heretofore led all other States in railroad mileage. It is stated that the Illinois figures embrace the elevated roads of Chicago, which are operated by the third rail system. The Texas figures are exclusive of all electric lines, logging roads and spur tracks.

A telegram from Boston says: "For the first time since the serious depression in the Cotton manufacturing industry, which began to be felt early in the year, there has been a marked change in brighter aspect. Although trade is still limited, idle machinery is being set in motion gradually and manufacturers believe that the low level has been reached. Several mills in Fall River, some of which have been shut down resumed work, Tuesday and others are preparing to start. In all about 15,000 operatives either went to work or received notice that their services would be required in a few days. In New England fully 30,000 operatives have been idle or on short time. It is not known what an attempt will be made to start the Fall River mills."

Chicago stockholders of the Chicago Terminal Transfer Railway Company have received the following communication from New York: "A committee informs stockholders of preferred and common stock of the Chicago Terminal Transfer Railway Company that, owning and representing an aggregate interest in the stock of the company, they intend taking action to protect their interests and those of all parties who may join them. They ask all the owners of the stock of this company to have their stock transferred and to send their names and addresses to the secretary of the committee, having been informed that the transfer books of the company are to be closed Sept. 21." It is presumed steps looking to a reorganization or change of management are contemplated.

Pressed Steel Car Company has completed eight months of its fiscal year, and a statement of sales for this period are not officially stated, it is understood that they have been about enough to pay the dividend on the preferred stock. It is a foregone conclusion that the total earnings for the current fiscal year, which ends Dec. 31, will show a large decrease as compared with the preceding year. From the present indications the surplus earnings applicable to paying dividends on the common stock during 1905 will be a comparatively small amount. If such is true, it is probable that there will have to be some curtailment in the common dividend during 1905, for the dividends that may be distributed out of common the stock will be paid out of the surplus earnings of 1904. It has been the policy of the present management to follow this course. This is the reason why the directors are now paying at the rate of 4 per cent per annum on the common stock, the surplus earnings of 1903 having amounted to over 13 per cent on the common stock.

The *United States Investor* says of the recent movement in International Salt stock: "There has been no small amount of activity lately in the stock of International Salt Company, the common stock being especially strong. At one time it was 23½ bid, the buying being evidently of a good character. The curb brokers are inquiring by the demand in view of the fact that industrial common stocks of much better quality are kicked around at lower prices. International Salt bonds, it is significant to note, which pay 6 per cent, are still selling around 85, on which basis the stock would certainly not seem to be cheap. Apparently, the International Salt insiders, having 'cut out' the National Salt litigation and obtained the assets of the latter company for a song, are now preparing to put the International Salt Company on a firm basis. It is also suggested that the Solvay people may be competitors for control. Along these lines it is interesting to note that the Fuller and Morton interests, while nominally working in harmony, are not believed to have any such idea in mind. Fuller interests are stated to the stock on general principles looks high, and some very good people are taking advantage of the situation to get out."

Best Cattle sold at $6 15 at Chicago, Thursday, or 15c higher than a week ago, the same as a year ago, and $2 40 lower than two years ago.

Average cost price of Hogs at Chicago, Thursday, was $5 40, against $5 45 Wednesday, $5 42 Tuesday, $5 28 a week ago, $5 39 a month ago, and $5 86 a year ago.

The receipts of Wheat at Liverpool during the past three days were 296,000 bu, of which 32,000 bu were American. Receipts of Corn, 72,000 bu, of which 61,000 bu were American.

For "Chicago Day" at the St. Louis Fair, Oct. 7, the railroads agreed to make a round trip rate of $6 00 for passengers in day coaches and $8 00 for those occupying sleeping cars.

Argentine Wheat visible is 3,058,000 bu, against 3,016,000 bu the previous week, and 1,472,000 bu last year. The Argentine Corn visible is 4,586,000 bu, against 4,414,000 bu the previous week and 3,944,000 bu last year.

Cotton in New York was active, weak and lower. Wall Street sold in New York and Liverpool, and broke the market. Receipts were liberal and spot demand rather slow. Closing prices were 11@14 points lower.

Shipments of Wheat from Argentina this week were 1,000,000 bu, against 1,616,000 bu the previous week, and 720,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 79,840,000 bu, against 57,458,000 bu same time in 1903.

Shipments of Corn from Argentina this week were 3,214,000 bu, against 3,356,000 bu the previous week, and 2,878,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 54,421,000 bu, against 46,281,000 bu for same time last year.

Stocks in New York were active with a higher average. Steel preferred advanced 1⅛. Reading was bought heavily and advanced 1½, and other Coalers ⅝ to 2¾. Western Railway shares were irregular and rather easier. Tractions were unsettled. Money 1 per cent.

The shipments of Flax Seed from Argentina this week were reported at 56,000 bu, compared with 136,000 bu last week and 304,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 34,796,000 bu, compared with 21,455,000 bu for the corresponding time last year.

A Louisville miller says: "We are running full time. During August we turned out a total of 73,202 brls, which is the best we ever did in one month. Despite heavy output we have not a barrel of Flour or a sack of feed on hand. Present purchases of Wheat costing us $1 09 f. o. b. Louisville."

Bradstreet's reports the exports of Corn from the Atlantic and Gulf ports the past week at 476,000 bu, against 711,000 bu for the previous week and 845,000 bu for the corresponding week last year. Exports since July 1 were 5,696,000 bu, compared with 10,627,000 bu for corresponding time last year.

Exports since July 1 were 15,215,000 bu, compared with 31,323,000 bu for the corresponding time last year.

Modern Miller weekly summary says: "Weather conditions continue to favor seeding of Winter Wheat, and this work is progressing steadily. In localities where seeding is finished a larger acreage is reported generally than last year. Movement of Winter Wheat to market is moderating, as there is a tendency to hold in anticipation of higher prices."

Broomhall Liverpool cable says: "Argentine conditions continue favorable for the growing Wheat crop. Conditions surrounding Argentine Wheat market practically the same as a week ago. Tone steady, with good foreign demand, and arrivals from interior moderate. Less activity in Argentine Corn markets. Tone now easy, due to a smaller export demand. Arrivals at ports still liberal, with condition satisfactory."

The Tacoma correspondent of the *Northwestern Miller* says: "A somewhat remarkable Wheat story comes from the farm of John Splatter, near Hay Station, this State. Mr. Splatter had a field of 90 acres of Wheat last year that he intended to summer-fallow this year. A fine crop of volunteer Wheat was started on it this spring from the Grain wasted last year, and he let it grow. He has harvested and threshed it and secured 136 sacks more than he did last year off the same field with careful cultivation."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The demand was reported fair on local and domestic account but sales to go abroad still limited. Prices steady.

WINTER WHEAT—Choice Wheat continues in good demand and firm. Millers, shippers and speculators buying. Poor Wheat dull; no one cares to buy it excepting at very low figures, and prices off 1c. No. 2 Red in store quotably about 1½c under May, and ranged at $1 09⅛@1 09⅜, and fresh arrivals free on board quotable at $1 09 1 10. No. 3 Red fresh receipts free on board sold at $1 07½@1 09. No 4 Red fresh arrivals free on board sold at 92c for common to $1 00@1 08 for fair to choice. No Grade Red sold at $1 02. No. 2 Hard fresh arrivals free on board sold at $1 08½@1 09. No 3 Hard fresh arrivals free on board sold at $1 02@1 06½, and at the river at 96½c. No. 4 Hard sold at 92@97c.

SPRING WHEAT—Steady for choice Wheat and dull and easy for poor Wheat. Demand good for choice milling Wheat. Some speculative buying. Sales of 20,000 bu of Spring Wheat by sample—not graded—were reported to millers at $1 05@1 06. No. 1 Northern fresh receipts nominally $1 16. No. 2 Northern fresh receipts quotably about $1 12@1 14. No 3 Spring ranged at $1 06@1 14 for fair to very choice. No 4 Spring sold at 86c for fair to $1 03@1 06½ for good.

REGULAR WHEAT—Was active and a little unsettled, ruling higher early and lower later, close showing September and December unchanged, while May closed ⅛c lower than yesterday. Offerings at the start comparatively light and local professionals and Southwest interests bought, causing a moderate rally, May touching $1 11⅛. Reports from Manitoba and the Northwest were "bullish" and Flour news more favorable, which were the chief "bull" incentives. There was, however, little outside support, and on local realizing and profit taking prices reacted. Elevator interests were again on the selling side. "Longs" in many instances were inclined to liquidate, fearing the effect of to-morrow's report. Winnipeg wired: "Harvesting is prolonged by unsettled weather. A little threshing done this early confirm pessimistic estimates. Some fields only 5 bu per acre and quality poor." Minto, N. D., wired: "Threshing 10 bu; poor grade. Expected 12, and this place threshed was best we had." Argentina shipped 1,000,000 bu, making 79,840,000 bu since Jan. 1, against 57,458,000 bu one year ago. The visible was reported at 3,088,000 bu, against 3,016,000 bu last week and 1,472,000 bu one year ago. Weather conditions favorable for growing crop, and markets firm under good foreign demand. Liverpool quoted spot ½d higher and futures ¼@½d better. English country markets 1½@3d lower. London 3d higher. Paris up 1c and Antwerp unchanged. Berlin ¼c higher. Buda Pesth 2⅛c up since Wednesday. Cargoes off coast 3d up and on passage 1½d higher. New York wired Argentine Wheat was up 1c on appearance of locusts but no actual damage reported, though apprehended. Primary receipts were 240,000 bu less than a year ago and from June 27 to September 5 aggregated 39,758,000 bu, or 5,762,000 bu larger than last year and 17,761,000 bu less than in 1902. *Modern Miller* was "bearish" on fall seeding and prospective area. India shipments 1,692,000 bu. Weather was favorable and clear conditions indicated. Kansas City and St. Louis received 470,000 bu; last year 335,000 bu. Northwest cars 396 less than a year ago. Exports for the week 1,996,000 bu and since July 1 aggregate 15,215,000 bu, against 31,323,000 bu last year. Minneapolis wired stocks this week were expected to decrease 350,000 bu. Kansas City reported 200,000 bu cash sold to go to Minneapolis. St. Louis wired cash sales there yesterday aggregated 300,000 bu. New York reported 3 loads. Receipts at Duluth 70 cars and at Minneapolis 223 cars, a total of 293 cars, against 254 cars yesterday, 278 cars a week ago, and 889 cars last year. Local receipts included 109 cars Winter, 21 cars Spring and 1 car mixed, a total of 131 cars, against 118 cars last year. Included in the above were 4 cars of contract grade. There were 34 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 79 cars. Withdrawals to-day were 1,000 bu. Receipts at Western points were 923,883 bu, against 1,153,793 last year. At Eastern points 48,259 bu, against 197,600 last year. Shipments from Western points were 507,619 bu, against 467,242 last year, and from Eastern points 14,550 bu, against 305,796 last year. Shipments of Flour were 30,012 brls. Exports of Wheat in Flour were equal to 147,404 bu.

Future Deliveries of Regular Wheat—Moderate trade and market steady.

SEPTEMBER—Old Style—Sold at $1 08⅛@1 08¾. Opened with sales at $1 08½; sold to $1 08¼, to $1 08¾, to $1 08⅛, to $1 08⅜, and closed nominally $1 08⅜.

SEPTEMBER—New Style—Sold at $1 05@1 06. Opened at $1 06; sold to $1 05⅝, to $1 06, to $1 05, to $1 05¼@1 05⅜, to $1 05⅛, to $1 05⅝, to $1 05⅜, and closed at $1 05⅝.

DECEMBER—Sold at $1 07¾@1 08⅞. Opened with sales at $1 08¼ to $1 08⅜, sold to $1 08⅞, to $1 08½, to $1 08⅝, to $1 08, to $1 08⅝, to $1 07¾, to $1 08¼, to $1 07¾, to $1 08¾, to $1 08⅜, to $1 08⅝, to $1 08¼, to $1 08½, to $1 08⅜, and closed at $1 08⅜ asked.

MAY—Sold at $1 09⅝@1 11⅛. Opened with sales at $1 10¼ to $1 10½; sold to $1 11⅛, to $1 10¼, to $1 10⅞, to $1 09⅞, to $1 10¼, to $1 09⅝, to $1 09¾, to $1 10½, to $1 10¼, to $1 10⅛ to $1 10⅜, to $1 10½, to $1 10⅛@1 10¼, and closed at $1 10⅛@1 10¼.

CORN—A good trade, with the feeling easier, closing prices showing declines of ⅞c and 1⅛c. Weather conditions, present and prospective, were favorable, cables easier. Argentine shipments large, and traders in many instances were inclined to anticipate a "bearish" showing in the government report to-morrow. Market, too, was inclined to sympathize with Wheat. Considerable "long" property was liquidated, the bulk of which was absorbed by interests conspicuous on the buying side now for several days. Liverpool futures were ⅛@⅜d lower and spot steady to ½d lower. Receipts were 749 cars, against 676 cars last year, and 583 cars are estimated for to-morrow. Argentina shipped 3,214,000 bu, making 54,421,000 bu since Jan. 1, against 46,281,000 bu in 1903. Visible reported 4,586,000 bu, against 4,414,000 bu last week and 3,944,000 bu in 1903. Export demand reported smaller. Jewell City, Kansas, wired Corn in this part of State immense and entirely out of way of frost; weather dry, warm and dusty. Kansas City wired: "Reports from reliable sources indicated one of the largest crops on record in Nebraska and Corn sections of Kansas." Western receipts were 809,000 bu, against 787,000 bu last year, and shipments 898,000 bu and 289,000 bu respectively. Local arrivals 604,000 bu and shipments 691,000 bu. Withdrawals here large—638,000 bu. Exports for the week 476,000 bu, and since July 1, 5,696,000 bu, against 10,627,000 bu last year. Shipping demand fair and sales 115,000 bu. Seaboard reported 11 boat loads accepted. Car lots in fair demand and prices ½c lower. No. 2 closed about 53¼c. No 2 Yellow closed at 54½c. No 3 sold at 53½c and closed at 53c. No. 3 Yellow sold at 55@55¼c and closed at 54½c. No. 4 sold at 52½@51½c, outside for yellow.

Corn by sample—Offerings were fair and demand rather good. Feeling weaker and prices unchanged to ½c lower. Sales on track and free on board: No Grade sold at 50@53c. No. 4 at 51@55c. No 3 at 53¼@55c. No 3 Yellow at 55@55½c. No. 2 at 53½@55c. No 2 Yellow at 55¼@55½c. No. 3 White at 53@53½c. No. 2 White at 51c. Billed through. No Grade at 50c. No 4 at 51@54¼c. No 3 at 52@54¼c. No. 3 Yellow at 54@54⅜c. No. No. 2 at 52@52½c. No. 2 Yellow at 54¼@54½c. No. 3 White at 52@52½c. No. 2 White at 52@52½c.

Future Deliveries of No. 2 Corn—Fairly active and prices irregular, closing ⅞c to 1⅛c lower.

SEPTEMBER—Sold at 53@54⅛c. Opened at 53⅞c to 54c, and sold at 54⅛c, to 53¼c, to 53½c, off to 53c, and closed at 53c.

OCTOBER—Sold at 53⅜c.

DECEMBER—Sold at 51½@52⅝c. Opened at 52½c to 52¼c and sold at 52⅝c, to 51⅞c, to 52¼c, to 51¾c, to 52⅛c, to 51½c, to 51¾c, to 51½c, to 51½@51⅝c, and closed at 51½@51⅝c bid.

MAY—Sold at 49⅞@51¼c. Opened at 51⅛c to 50¾c and sold at 51¼c, to 50⅜c, to 50¾c, to 50¼c, to 50⅜c, off to 49⅞c, to 50c, to 49⅞@50c, and closed at 49⅞@50c.

OATS—Were heavily traded in, especially in the last half-hour. Prices were steady early, but declined ⅜@½c and closed at the bottom. A feature was the large trading in May at 35@35⅛c and unlimited buying orders at 35c, only a few of which were executed. The selling was by cash interests and commission houses. A break in Corn had a depressing effect. Cash sales were 80,000 bu here and 31,000 bu at New York. Export clearances 47,000 bu. Arrivals were 174 cars, with 165 cars expected to-morrow. Car lots to go to store were steady to ¼c lower. No. 3 White sold at 32@32½c. Standard at 32½@34c. No. 2 White at 33c. Standard in store closed at 31⅜@31½c.

Oats by sample were in fair request and steady to ¼c lower. Supply rather light. Sales on track and free on board: No 4 White at 30@32c. No. 3 White at 31¼@32½c. Standard at 32½@33½c. No. 2 at 31c. No 2 White at 33¼c. Billed through: No Grade at 30c. No. 4 White at 31½@32¼c. No 3 White 32¼@32¾c. Standard at 32¼@32½c. No. 2 White at 32½c. At the river: No Grade at 28½@29½c. No. 4 White at 30@30¾c. No. 3 at 30@30¾c. No 3 White at 30@31¾c. Standard at 31¼@31¾c.

Future Deliveries of Contract Oats—Were weak and lower.

SEPTEMBER—Sold at 31⅜@31¾c. Opened at 31½c, sold to 31¾c, to 31⅜c, to 31⅜@31½c at close.

DECEMBER—Active. Sold at 32½@33c. Opened at 33c, sold to 32½c, and closed there.

MAY—Active. Sold at 35@35½c. Opened at 35⅜c to 35½c, sold to 35c, closed at 35c bid.

RYE—Was in good demand. Both cash and futures inquired for, and offerings light. Feeling firm. There were 15 cars received and five cars withdrawn from private warehouse. No export clearances from New York. No. 2 in store nominally 71½@72c, and fresh arrivals free on board sold at 72¼@72½c, and billed through at 71¾c. No 3 sold at 71@71½c.

Future Deliveries of No. 2 Rye—Good demand and feeling firm. September 71½c bid and 72c asked. December 73½c bid and 74c asked. May 76c asked.

BARLEY—There was a steady to firm market for all grades. Receipts were smaller and the demand was very fair. To-day's postings showed 34 cars inspected in, most of which graded No 3. Screenings quotably 32@39c for common to very choice. Poor, thin, badly stained or dirty, feed Barley, quotably 37@38½c. Low grade malting, dirty, small berry, poor color, 40@43c. Fair to good color, depending on weight and other conditions, ranged at 44@48c. Higher grade or choice, ranged at 49@51c. Fancy quotable up to 54@55c.

SEEDS—Timothy was heavy for cash Seed and steady for futures. Flax ruled steady to a shade higher. Clover was quiet and unchanged.

Timothy—Futures all ruled steady, except September, which was offered at $2 95 and $2 92½ was the best bid. For October $2 90 was bid and $2 95 asked. January was nominally $3 00 and March was offered at $3 10. The market for cash Seed was again heavy and country lots ranging from fair to good were called 5c lower. Choice to fancy Seed was firm. Fair to good country lots quotable at $2 45@2 55; high grade or choice $2 65@2 70, and fancy up to $3 00. Dark and dirty or badly hulled about $2 25@2 40, depending on quality.

Flax—The market for No. 1 Northwestern was 1c higher, while for future deliveries and other grades the market was unchanged. Offerings were small and consisted mainly of No 1 Northwestern Seed. Receipts were 17 cars at Minneapolis, 5 cars at Duluth, and 6 cars, or 5,400 bu here. The local output was 6 cars, or 6,078 bu. No. 1 Northwestern or No. 1 from the Northwest sold at $1 27½. No. 1 was nominally $1 19½, and Rejected ranged at $1 15@1 19, as to quality. September was nominally $1 19½ and December $1 21½.

Clover—Was quiet and nominally unchanged. The sale of a small lot of new Clover constituted the business. Such lots as are coming are usually common. October delivery, $11 75@11 90. Contract spot Seed was quotably about $11 75@11 90. Country lots, common to choice, $9 00@11 50; fancy above. Fair to good, $10 00@11 25.

HOG PRODUCTS—Less interest was manifested in the market for Hog Products, and trading was on a moderate scale. Outside orders were light, and local trading was somewhat limited. Hogs were in fair supply and sold at lower prices, and the Grain markets were easy. Fluctuations in prices were confined within narrow ranges, and ruled slightly lower. The strike at the packing houses is reported settled. Receipts of Hogs at the leading Western packing points were estimated at 37,400, compared with 46,000 one year ago. Foreign markets were quiet and Meats were unchanged, while Lard was firmer at 3d advance. Domestic markets were steady. Receipts of Products were liberal—of Lard and Meats about 31 cars. Shipments were moderate—of Lard and Meats about 93 cars. Shipping demand was rather active, and offerings were fair. Sales were fairly liberal, and chiefly to the domestic trade, with no particular change to note in prices.

Mess Pork—Trade in Mess Pork was on a moderate scale, and the feeling was comparatively steady. Offerings were somewhat limited, and the demand was rather light. Market opened stronger and prices about 2½c higher, but an easy feeling prevailed later, and prices declined 5@7½c. Toward the close, the market was steadier, and prices rallied 5@7½c, but suddenly receded again 7½@10c, and closed rather steady. Shipping demand was limited and offerings were small. Cash lots quotable at $10 95@11 00.

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Sept. 8.]

The past week has brought no new development in regard to the Corn crop. The progress toward maturity has been fairly seasonable in degree, the weather being generally favorable, although higher temperature in a considerable of the area would have more actively promoted the progress. The returns as to condition of the crop are variable. In various important sections they indicate high promise as to yield, even to record outcome. In other localities a portion of the crop gives excellent promise, while a portion is decidedly deficient or little better than failure. But taken as a whole there is a large crop indicated if there be no serious interference from frosts before the needful stage of maturity is reached. There is nothing now in sight to change the general indications as to this crop as previously stated. The most or all of September will be required to make the crop secure from frost injury in a large part of the Corn belt.

The late information concerning Wheat brings little that is new. In the Northwest the extreme views of shortage in yield appear to be less positive. There have been rains during the week which have interfered with harvesting operations where not completed and with threshing in other instances. It may be observed that an authority that has been conspicuous in promulgating damage information now places an estimate for the three Northwestern States at 138,000,000 bu, or 14,000,000 bu below his estimate a year ago for those States. It has been quite plainly shown that his estimate last year was 25,000,000 bu to 40,000,000 bu under the actual production as indicated by careful and worthy investigations as to distribution. If this fact justifies the view that the present estimate may be equally low relatively it follows that it gives support to the view that the crop in those States this season may prove to be equal to 163,000,000 bu or more—a quantity which is recognized as probable by other investigators, as has been previously stated. The coming report of the Department of Agriculture in regard to Wheat will relate to condition when harvested. It is officially observed that the statement of condition in this case is equivalent to an estimate of the actual crop as compared with a normal crop. This is all that it can mean, in the percentage form. This relates to the yield basis, without regard to relative area. This season's acreage of Wheat, according to official statements, is about 10 per cent short of last year.

There is continued evidence of plans to enlarge the autumn sowing of Wheat. Likely there may be an exception in the instance of Indiana, where the Wheat farmers to more or less extent are becoming discouraged by the crop shortage of this year and previously. More attention will be given to Rye, and other crops.

The offerings of Wheat in the interior are irregular. In various instances selling has been free at current prices, and the surplus largely marketed. In other cases some sales have been made, with the larger portion of the crop held by the farmers under expectation of still higher prices. Taken as a whole the disposition to hold the Grain appears to have prevailed.

The returns concerning Oats confirm the earlier statements of large production and excellent quality as the general result, with irregular offerings, which in the aggregate do not seem to be proportionate to the extent of the crop of this Grain.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Sept. 8.]

There has been some curtailment in the slaughtering of Hogs the past week. Total Western packing 300,000 Hogs, compared with 350,000 the preceding week and 315,000 two weeks ago. For corresponding time last year the number was 310,000, and two years ago 245,000. From March 1 the total is 10,435,000, against 10,540,000 a year ago, a decrease of 105,000. The quality is generally fair, with some intimations of even lower than this, while strictly good is exceptional. Prices are higher, prominent markets at the close showing an average of about $5 50 per 100 lbs, compared with $5 35 a week ago, $5 25 two weeks ago, $5 80 a year ago, $7 45 two years ago, and $6 45 three years ago.

The speculative Provision market has been fairly active the past week. There was an unsettled feeling, and the general trend of prices inclined toward easiness. Compared with the close a week ago there is no important change in values. The export clearances of Product were fairly liberal, and show an increase over the preceding week and a gain over the corresponding week last year.

The stocks of Cut Meats at centers making monthly returns show the comparisons as to totals, in pounds, according to Cincinnati *Price Current* compilations, as follows:

	Sept. 1, 1904.	Aug. 1, 1904.	Sept. 1, 1903.
Chicago	108,297,000	123,409,000	112,667,000
Kansas City	40,000,000	42,969,000	40,366,000
Omaha	36,288,000	51,151,000	39,086,000

Total, lbs	230,273,000	268,458,000	236,965,000

This indicates a decrease of 38,000,000 lbs in the total, compared with a month ago, while the stocks were decreased 26,000,000 lbs last year for the corresponding period. The total at these points is now 6,000,000 lbs less than a year ago and 66,000,000 lbs more than two years ago. The total stocks of Lard at the five centers named in the foregoing table on Sept. 1 were 175,000 tcs, compared with 200,000 tcs a month ago and 128,000 a year ago.

The total stocks of Cut Meats, of Short Rib Sides, of Sweet Pickled Hams, in pounds, and of Lard in tierces, at Chicago, Kansas City, Omaha, Milwaukee and St. Joseph, compare as follows, for dates indicated:

WHEAT ON THE PACIFIC COAST.

The Portland correspondent of the *Northwestern Miller*, writing under date of Sept. 2, says: Estimates based on threshing returns and a personal inspection of the principal Wheat districts of the three States show a probable yield of 46,000,000 bu for Oregon, Washington and Idaho. This is 10,000,000 bu more than the yield of last year, and is within 1,500,000 bu of the best yield on record—that of 1901. Of this amount Oregon will produce approximately 13,000,000 bu, Washington 27,500,000 bu and Idaho 4,500,000 bu.

Umatilla, the banner Wheat county of Oregon, will produce 5,000,000 bu, and Walla Walla, the adjoining county in Washington, will have 4,000,000 bu. Whitman will have approximately 9,000,000 bu, but Lincoln County, which produced about 8,000,000 bu in 1901, will fall short of 4,000,000 bu this year.

Six weeks ago the crop gave promise of a yield of 50,000,000 bu or more, but in very few localities outside of Umatilla, Walla Walla and the western part of Whitman County have threshing returns verified early predictions, and, as a result, Grain bags have slumped heavily since harvest began, with good prospects for a very large carry-over.

The crop as now indicated compares with that of former years as follows:

	Bushels.		Bushels.
1903	34,785,000	1900	37,000,000
1902	41,600,000	1899	30,200,000
1901	46,600,000	1898	36,400,000

THE WEATHER CONDITIONS.

Fine weather in all directions. Partly cloudy and cooler Manitoba. Partly cloudy and warmer Northwest; clear elsewhere.

Indications are for fair weather over most of the district, with showers in extreme upper portion of the Mississippi Valley, and a break in the warm weather either to-night or Saturday.

ITEMS OF GENERAL INTEREST.

Illinois State Auditor has issued a call for quarterly reports of State banks of Illinois, based on conditions existing Sept. 7.

Oats are $25 a ton in the field in the Willamette Valley, Oregon. The crop is even shorter than expected, and farmers are holding for another advance.

Weekly statement of the Bank of England shows an increase of $1,187,775 in Bullion. The proportion of reserve to liability is now 57.15 per cent, against 53.20 per cent last week.

The United Shoe Machinery Company has declared the regular quarterly dividends of 1½ per cent on preferred and 2 per cent on common stock, payable Oct. 15 to stock of record Sept. 17.

The New York and Harlem Railroad Company has declared a dividend of 2 per cent on its preferred and common stocks, payable Oct 1 to stockholders of record Sept. 15.

"Corn is one week later than last year," said a message from Wyandotte, Ill., Thursday. "Prospects are for yields of 45 to 65 bu, with no frosts for two to-three weeks."

The $500,000 4 per cent semi-annual forty-year court house bonds and $207,000 4 per cent semi-annual forty-year hospital bonds of Essex County, New Jersey, have been sold at 107.563.

At the stockholders' meeting of the New York and Canada Railroad Company, held, Thursday, in Albany, it was voted to increase the capital stock of the company from $1,000,000 to $9,000,000.

The Copper mines of Lake Superior produced during August 18,257,000 lbs of Copper, a new high record, figures of 18,000,000 lbs never before having been reached. The August output is at the rate of 219,000,000 lbs per annum.

The Board of Investment for the State of Minnesota has purchased $700,000 3½ per cent semi-annual twenty-seven and one-half year State capital certificates of indebtedness from the Board of State Commissioners at par.

The Chicago Junction Railways and Union Stock Yards Company has declared the regular quarterly dividend of 1½ per cent on its preferred and 2 per cent on its common stocks, payable Oct 1 to stockholders of record Sept. 12.

The official crop bulletin for Italy covering the period Aug. 10 to 20 says that rains have done some good in the North and Centre. The fall, however, was insufficient. The Corn crop is good in the South, but less favorable in the North.

The final act in winding up the affairs of the Chicago Packing and Provision Company has been taken and the corporation dissolved according to law. Notice of the dissolution has been filed with the Cook County Recorder at Chicago.

An interesting feature of the bank call was the initial statement of the Prairie National Bank, Chicago. This was dated at the close of business Sept. 6, or after four and one-half days' business by the new institution. In that time the bank had accumulated $230,141 deposits and $3,601 profits.

A Manchester, England, cable says: "The dispatch to-day attaches considerable significance to a report that Russia has just given notice of the withdrawal from several banks on the Continent of some $80,000,000 Sterling which have been deposited in these banks for three years. This money will be sent to St. Petersburg partly in bar Gold and partly in coin."

The *Corn Trade News* of Aug. 29 says: "There is little or no change to note in the general situation in France. The crop is undoubtedly a short one, but not sufficient threshing has yet been done to enable anyone to make a reliable estimate of the actual yield; on the whole people still look for a large deficit in quantity, but good quality. Some rains fell last week, but more moisture is wanted."

The Eastward movement of Pacific Coast Wheat is to cut an interesting figure. The several million bushels under contract to move this way is probably hedged in the Chicago market. A further advance in price implies a continued Eastern movement on a large enough scale to constitute a significant market factor. There is not the usual export outlet for it on the basis of 76c to 78c at the coast, with ocean freight approximately 8c per bushel higher than a year ago.

The Chicago *Inter Ocean* says: "The poor miller in the Northwest who ground so much high-priced Wheat into Flour last winter that neither he nor the trade has recovered from its effect, is now buying Wheat at higher prices, because he thinks there won't be enough to go around. At the same time, he gives out stories about the poor Flour demand and the frightful condition of the Wheat crop. The trade, outside of Minneapolis and Duluth, looks at the reports and wonders at the great resources of the millers who are able to get along under such conditions."

The Winnipeg correspondent of the *Northwestern Miller* writes as follows under date of Sept. 5: 'Wheat harvest is now general in Western Canada, and, as the weather is favorable, rapid progress is being made. Between 12,000 and 15,000 men have been brought from Eastern Canada to help with the work, and with favorable weather conditions there should be no delay. So far the results of actual work in the field have borne out the contentions of those who discredited the reports of excessive damage from rust. Odd fields have shown a considerable amount of injury, but the general result, so far, is about as stated in recent correspondence. Even the men who helped to give countenance to the damage propaganda are now beginning to hedge on that subject."

The Jamestown, N. D., *Alert* supplies interesting information concerning the Wheat yield in that part of the James River Valley. One farm yielded 13½ bu per acre, weighed 50 lbs to the bushel, and graded rejected, selling at 82c. Another field yielded 17 bu per acre and graded No. 2 Northern. Large farms in the vicinity of Buchanan had 12@15 bu, grading No 2 and No 3. One field yielded Wheat weighing 49 lbs per bu. Another bonanza farm yielded 21 bu per acre, graded No. 2 and weighed 54 lbs, selling at 96c. But not all the crops are going to equal the above, and another report received showed the quality rejected and the yield but 10 bu to the acre, the Grain being grown in the same neighborhood as the first reported. A Barley field yielded 40 bu per acre.

Since the opening of the Russian-Japanese war the Bank of Russia, to assist the Government, has increased its note issue by 110,000,000 roubles to 740,000,000; the Government borrowed in Paris 320,000,000 roubles, and its authorizing a fortnight ago of a four-year loan for 150,000,000 roubles brings the total nominally to the credit of the Government to 830,000,000 roubles. At the rate of war expenditure of about 20,000,000 roubles a week, this would provide for 42 weeks, or toward the end of November. Should the Government need further aid the Bank of Russia will doubtless increase circulation further. As a last resort the Government could fall back on the bank's Gold store, standing at 936,260,818 roubles, or $468,000,000. Such depletion of the Gold store would of course greatly harm Russian credit.

It was recently reported from St. Louis that quarterly dividends had been paid on Chicago and Eastern Illinois preferred and Kansas City, Fort Scott and Memphis preferred stocks. This is technically inaccurate. The regular quarterly dividend No. 8 of $1 50 per share on Chicago and Eastern Illinois preferred stock represented by stock trust certificates of the St Louis and San Francisco Railroad of record Sept. 16 will be paid Oct 1, 1904. The regular quarterly dividend No. 12 of $1 00 per share on Kansas City, Fort Scott and Memphis preferred stock represented by stock certificates of the St. Louis and San Francisco Railroad of record Sept 16 will be paid Oct. 1. There is no Kansas City, Fort Scott and Memphis preferred stock outstanding in the hands of the public.

The Indianapolis correspondent of the *Northwestern Miller*, writing under date of Sept. 5, says: "A good Corn crop is practically assured. Reports from every section of the Ohio Valley are very encouraging. I have just completed a week's trip through Central Ohio to Columbus, to Chillicothe, and then southwest to Cincinnati, which takes in the Miami and Scioto Valleys, calling at all points of importance, and which are considered to be in Ohio's best Corn sections. It is the unanimous opinion of all millers and farmers whom I interviewed, that there will be a heavy crop of fine quality Corn, which will materially exceed last year's yield. All Corn is now practically past the damage point. The principal danger is frost during the maturing stage, but most of the Corn is now matured, and the present weather suggests anything but frost. Last week's weather did much to ripen the ears."

The Glasgow correspondent of the *Northwestern Miller*, under date of Aug. 32, writes: "'The Glasgow millers are over head and ears with work; never in the history of the trade were they so busy. This of course being due to the excitement in America.' These were the words of one of Glasgow's chief Flour millers to-day. He also said: 'My impression, however, is that the rise on the American side is owing to a big gamble, and so far as our firm is concerned we would not follow it on any consideration. We fully believe that we shall have a higher range of prices for some time, but they will come back. As the *Northwestern Miller* of Aug. 10 truly observes, history repeats itself annually. If one would look over the files of some of the Northwestern daily papers for five years or so back, he would see that the crop had been killed every summer with the utmost regularity by the same authorities, yet some way the ultimate returns after harvest did not indicate a failure.' In my opinion there is now room for a big drop. I do not believe these sensational reports about the bad crop in America, although I am fully convinced that the crop will not be equal to that of former years. Australian Wheat cargoes changed hands this week, and supplies are likely to come for many months. I have just booked a cargo of Australian Wheat for January. The Wheat suits my purpose admirably."

A conference between the Chicago Board of Trade freight discrimination committee and members of the Central Traffic Association was held Friday. Railroad people expressed a desire to work in harmony with Chicago shippers, and the meeting was satisfactory. Another conference will be held Tuesday, Sept. 13.

The weekly statement of the New York banks shows the following changes: Decreases—Reserves on all deposits, $9,065,150; Reserves, less United States deposits, $9,056,325; Specie, $5,902,300; Legal Tenders, $2,006,500. Increases—Loans, $13,243,600; Deposits, $1,625,400; Circulation, $1,085,100. Banks hold $48,438,250 in excess of legal requirements.

The New York Stock market was a big affair, sales being 566,000 shares. The buying seemed to be almost unlimited. Western Railways were irregular, and closed ⅛ to ¼ lower to 1⅞ higher, the latter on St. Paul. Industrials averaged higher, gaining ¼ to 2⅜, and Consolidated Gas 4¼. Coalers gained ⅝ to 1 point, but Reading turned weak and closed 1½ lower.

Export clearances for the past week from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans, and Galveston included 100,000 brls of Flour and 195,000 bu Wheat, against 82,000 brls of Flour and 115,000 bu of Wheat the preceding week, an increase of 18,000 brls of Flour and an increase of 73,000 bu of Wheat. For the corresponding week last year the exports were 299,000 brls of Flour and 1,678,000 bu of Wheat.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The market is ruling steady as quoted on the second page. Demand confined to local domestic wants.

WINTER WHEAT—Was in good demand. Choice Wheat was taken up readily by speculators and millers, and besides the car lots, a lot of 60,000 bu of Hard Winter by sample sold, but the terms were not made public. No. 2 Red in store quotably $1 08½@1 09¼; fresh arrivals to go to store sold at $1 10 and free on board at $1 10@1 12. No. 3 Hard fresh arrivals free on board sold at $1 05@1 09. No. 4 Red fresh arrivals free on board sold at $1 00@1 03. No. 2 Hard fresh arrivals quotably $1 05@1 09, with a sale free on board at $1 00. No. 3 Hard fresh arrivals sold free on board at $1 00@1 06, and at the river at 99¼c. No. 4 Hard at the river sold at 93¼c.

SPRING WHEAT—Was quiet and steady. Prices cover a wide range on account of vast difference in quality in the same grade. Choice Wheat wanted and poor Wheat very dull. No. 1 Northern fresh arrivals were quotably about $1 16. No. 2 Northern fresh arrivals sold at $1 11½. No. 3 Spring sold at $1 02@1 13, outside for choice hard variety. No. 4 Spring sold at 78@90c for poor and ordinary to $1 05@1 08 for good to choice, and at $1 10 for very choice hard variety.

REGULAR WHEAT—Was moderately active, with a fair trade, closing prices showing gains of ⅛@¼c and ¼c. Offerings at the start were comparatively light and were taken by local professionals, and commission houses with Southwestern connections. "Shorts," too, bought the December. New York reported foreigners buying there. The prediction of frost for North Dakota indirectly helped values, though should the same materialize it would probably be too late to cause any injury. Improved milling conditions and the cash situation were also strengthening factors. Liverpool came ⅛@¼d lower, while London was unchanged. Paris was off ¼c. Berlin and Antwerp unchanged. London reported Spain a buyer of cargoes off coast. The map showed generally clear conditions, but temperatures in Manitoba low enough to arouse fears of frost, but thought to be too late to work any serious damage. Kansas City wired receipts would run about 1,500 to 1,800 cars weekly for the balance of this month and predicted a sharp decrease after Sept. 1. Minneapolis wired small receipts were due to the fact that country mills are absorbing the greater part of the offerings from first hands. Local weekly receipts were 1,120,000 bu and shipments 309,000 bu. Primary receipts for the week 5,513,000 bu against 5,856,000 bu one week ago and 7,311,000 bu in 1903. *Broomhall* estimated the world's shipments at 10,400,000 bu and predicted a fair increase on ocean passage. English farmers' deliveries were 308,000 bu at 90¾c, against 234,000 bu last week at 91¼c and 248,000 bu one year ago at 80¼c. The English visible decreased 794,000 bu, compared with 545,000 bu increase one year ago. Receipts in the Northwest this week were 1,977 cars against 1,532 cars the previous week and 1,445 cars seven days one year ago. Arrivals in the United Kingdom this week were 4,000,000 bu, or same as previous week, and 4,300,000 bu same week in 1903. Australian shipments, 400,000 bu. English country markets were quoted 1½@3d lower. Cash sales here 60,000 bu. Receipts at Duluth 70 cars and at Minneapolis 186 cars, a total of 256 cars, against 293 cars yesterday, 196 cars a week ago, and 751 cars last year. Local receipts included 69 cars Winter, 8 cars Spring and none mixed, a total of 77 cars, against 141 cars last year. Included in the above were 4 cars of contract grade. There were 28 cars and 15,000 bu taken from unlicensed elevators. The estimated receipts for Monday are 74 cars. Withdrawals to-day were 13,300 bu. Receipts at Western points were 918,419 bu, against 1,080,253 last year. At Eastern points 73,120 bu, against 160,818 last year. Shipments from Western points were 416,385 bu, against 534,431 last year, and from Eastern points 31,883 bu, against 189,031 last year. Shipments of Flour were 24,208 brls. Exports of Wheat in Flour were equal to 159,824 bu.

Future Deliveries of Regular Wheat—Moderate trade and market steady.

SEPTEMBER—Old Style—Nominal during the session at $1 08½@1 08¾, and closed nominally $1 08⅝.

SEPTEMBER—New Style—Sold at $1 05⅛@1 06. Opened with sales at $1 05⅛ to $1 05¼c; sold to $1 05⅞, to $1 05¾, to $1 06, to $1 05¾, to $1 06, to $1 05½, to $1 05¾, to $1 05½, to $1 05⅝, and closed at $1 05⅝ sellers.

DECEMBER—Sold at $1 08⅛@1 09. Opened with sales at $1 08½ to $1 08¼, sold to $1 08⅞, to $1 09, to $1 08⅜, to $1 08¾, to $1 08½, to $1 08¼@1 08⅜, to $1 08¾, to $1 08⅛, to $1 08⅜, to $1 08⅝, to $1 08½@1 08⅝, and closed at $1 08½@1 08⅝.

MAY—Sold at $1 09¾@1 10¼. Opened with sales at $1 10 to $1 09¾; sold to $1 10½, to $1 10¼, to $1 10, to $1 10½, to $1 10¼, to $1 10½, to $1 10⅜, to $1 10⅜@1 10½, and closed at $1 10⅜@1 10½ sellers.

CORN—Was fairly active and stronger early, but broke badly later on and closed ¼c to ⅛@⅝c lower. Early strength was on the frost talk, but private crop advices came in "bearish" as the session advanced and Government report was expected to make a good showing. Temperatures somewhat lower and predictions were for a further fall in the western portion of the Corn belt. "Shorts" in consequence displayed some uneasiness and many of yesterday's sellers covered, causing a stronger undertone early in the day. Commission houses were buyers of both December and May. Professionals supplied the bulk of the demand and offerings were liberal the closing hour. Local shipments were heavy, 1,068,000 bu, making 3,388,000 bu for the week, against receipts of 4,517,000 bu. Cables, however, were lower, Liverpool quoting spot off ⅛@¼d and futures down ⅛@⅜d, due to the forecast of large world's shipments. Receipts were 562 cars and 786 cars estimated for Monday. Withdrawals 477,010 bu; exports 50,000 bu. Omaha wired our reports are that Corn is out of danger of light frost; ten days without frost will get a bumper crop. Another said: "Weather is simply perfect, and our Corn maturing in best possible manner." Primary receipts this week were 6,045,000 bu, compared with 4,810,000 bu one week ago and 5,445,000 bu one year ago. Government report last month made condition 87.3 per cent and on Sept. 1, 1903, 80 1 per cent. Shipping demand was fair and sales 50,000 bu. Car lots were in good demand and prices 1@1½c higher. No. 2 closed about 52¾c. No 2 Yellow sold at 54c and closed at 54c. No 3 sold at 52½c and closed at 52½c. No. 3 Yellow sold at 53¾@54c and closed at 53¾c. No. 3 White sold at 52½c. No 4 sold at 51¼@53½c, outside for yellow. No Grade heating sold at 51c. New York reported 8 loads and charters here for 200,000 bu.

Corn by sample. Offerings were liberal and demand only fair. Feeling was weaker and prices anywhere from ¼@1¼c lower. Sales on track and free on board: No 4 sold at 50@51½c. No. 3 at 52½@53¼c. No 3 Yellow at 54@54½c. No 2 Yellow at 54½@55c. No. 3 White at 52½@53¼c. No. 2 White at 53c. Billed through: No. 4 at 50½@53½c. No 3 at 51½@53¼c. No 3 Yellow at 52¾@53¾c. No 2 at 51½c. No. 2 Yellow at 53¼@53¾c. No. 3 White at 51¼@52c. No 2 White at 51½c.

Future Deliveries of No. 2 Corn—Fairly active and prices quite irregular, closing ¼c to ⅛@⅝c lower.

SEPTEMBER—Sold at 52½@53¼c. Opened at 53c and sold at 52⅞@53c, to 53¼c, to 52½c, to 52¾c, to 52⅝c and closed at 52⅝c.

OCTOBER—Sold at 51c.

DECEMBER—Sold at 50½@50⅝c and 51¾c. Opened at 51½c to 51⅜c, and sold at 51⅜c, to 51¾c, to 51¾c, off to 50½@50⅝c, to 51⅜c, to 51c, and closed at 51c.

MAY—Sold at 49⅜c and 50¼@50⅛c. Opened at 49⅞c to 50⅛c, and sold at 49¾@49⅞c, to 50⅛c, to 50c, to 50¼@50⅜c, to 50c, to 50⅛@50¼c, to 49⅜c to 49⅝c, to 49⅝@49¾c, and closed at 49⅝@49¾c.

OATS—Were traded in liberally. At 35c for May there was good commission house buying, which was supplied by "longs" and cash interests, prices receded ⅛@¼c from the top and closed at almost the bottom. The break in Corn was a depressing influence. The Government Report is expected to make little change from last month. Cash sales were 25,000 bu. Arrivals 135 cars, with 159 cars expected Monday. Withdrawals from private elevators were 78,500 bu and from public houses 1,300 bu Standard. Seaboard clearances 27,432 bu. Charters 100,000 bu. Deliveries 70,000 bu. Car lots to go to store were ¼@½c lower. No. 3 White sold at 32@32¼c. Standard at 32¼@32½c. Standard in store closed at 31½c.

Oats by sample were in fair demand and moderate supply. Prices receded ¼@½c and offerings did not clean up. Sales on track and free on board: No. 4 White sold at 30½c. No. 3 at 30½c. No 3 White at 31@32½c. Standard at 32¼@33c. No. 2 at 31c. No 2 White at 32¾@33¼c. Billed through: No 3 White 31½c. Standard at 32¼@32½c. No. 2 White at 32½@32¾c. At the river: No. 4 White at 30¼c. No. 3 White at 30½@31¼c. Standard at 30¾@31¼c. No. 2 White at 31¼c.

Future Deliveries of Contract Oats—Were stronger early and lower later.

SEPTEMBER—Sold at 31¼@31⅝c. Opened at 31⅜c, sold to 31⅝c, to 31¼c, to 31½c at close.

DECEMBER—Active. Sold at 32¼@32¾c. Opened at 32½c to 32⅜c, sold to 32¾c, to 32¼c, closed at 32¼@32⅜c.

MAY. Active. Sold at 34¾@35¼c. Opened at 35c to 35⅛c, sold at 35¼c, to 34¾c, to 34⅞c at close.

RYE—The market was quiet and steady. The offerings were small and the demand at same time light. There were only four cars received and only one car withdrawn from private warehouse. No export clearances from New York. No. 2 in store, round lots, quotably 71½@72c, and fresh arrivals free on board sold at 73½c.

Future Deliveries of No. 2 Rye—Quiet and steady. September 71½c bid and 72c asked, with a sale of 1,000 bu at 70c. December 73½c bid and 74c asked. May 77c asked.

BARLEY—The market was steady and unchanged. Offerings were a little larger and mainly low grade. To-day's postings 27 cars inspected in, most of which graded No. 3. Some poor Screenings on the market, but no sales reported. Screenings quotably 32@39c for common to very choice. Poor, thin badly stained or dirty, feed Barley, quotably 37@38½c. Low grade malting, dirty, small berry, poor color, 40@43c. Fair to good color, depending on weight and other conditions, ranged at 44@48c. Higher grade, or choice, ranged at 49@51c. Fancy quotable up to 54@55c.

SEEDS—Flax and Clover were unchanged. Timothy was lower for both cash and futures. Offerings of cash Seed liberal and demand only moderate.

Timothy. The market for cash Seed was 10c lower for low grade and 5c lower for choice to fancy. Future deliveries were more active and also lower. There were liberal offerings of cash Seed, most of which ranged from poor to good in quality. Demand was reported as only fair especially for the low grades. September sold and closed at $2 92½. October sold at $2 90 and closed at $2 90 sellers. January nominally $3 00. March offered at $3 10 and $3 00 bid. Fair to good country lots quotable at $2 30@2 45; high grade or choice $2 55@2 70, and fancy up to $2 75@2 90. Dark and dirty or badly hulled about $2 00@2 30, depending on quality.

Flax—Was nominally unchanged. There was a small business done in cash Seed. Futures were inactive. Receipts were 27 cars at Minneapolis, 6 cars at Duluth and 3 cars or 2,700 bu here. Local output was 3 cars or 2,923 bu. No. 1 Northwestern or No 1 from the Northwest sold at $1 27½. No 1 was nominally $1 19½, and Rejected ranged at $1 15@1 19, as to quality. September was nominally $1 19½ and December $1 21½.

Clover—Was inactive and steady. No cash Seed offered and no interest taken in futures. October delivery, $11 75@11 90. Contract spot Seed was quotably about $11 75@11 90. Country lots, common to choice, $9 00@11 50; fancy above. Fair to good, $10 00@11 25.

HOG PRODUCTS—Trade was only moderate in the market for Hog Products, and a comparatively easy feeling prevailed. Offerings were moderately large, and demand was only fair. Hogs were in moderate supply and higher. Larger supply anticipated next week. Receipts at the leading Western packing points were estimated at 52,400, compared with 37,900 one year ago. Strength in the Hog market and in Grain tended to check any decline in prices early, but weakness in the latter caused a little selling toward the close, and prices declined all around, and closed easy. Foreign markets were quiet and unchanged. Domestic markets steady. Receipts of Products were liberal—of Lard and Meats about 36 cars. Shipments were light—of Lard and Meats about 73 cars. Shipping demand rather active, and offerings were fair. Sales moderately large and prices without material change.

Mess Pork—Trade was moderate in Mess Pork, and mainly in October contracts. Offerings were fairly large, and the demand was moderate. Prices ruled about 2½@5c higher early, but declined 12½@15c and closed steady. Shipping demand was light, and offerings were small. Cash lots quotable at $10 87½@11 00.

SEPTEMBER—Quiet. Sold early at $10 85, but closed nominally at $10 72½.

OCTOBER—Offerings were moderate, and the demand was only fair. Sales were made at $10 77½@10 95. Opened at $10 90, sold to $10 95, to $10 92½, to $10 95, to $10 92½, to $10 95, to $10 77½, to $10 80@10 82½, to $10 80, to $10 80@10 82½, and closed steady.

DECEMBER—Quiet, with small sales at $10 90.

JANUARY. Demand moderate, and the offerings were not very large. Sales were made at $12 47½@12 55. Opened at $12 55, sold to $12 47½, and closed steady.

Lard—Only a small business was transacted in Lard. Offerings were moderate, and the demand was somewhat limited. Foreign advices were unchanged. Prices ruled steady early, but toward the close declined 5@7½c, and closed rather steady. Demand on shipping account was moderate, with rather light offerings. Cash lots quotable at $7 00@7 02½. Loose lots in fair request with moderate offerings. Prices steady at about 37½c discount on October figures. Leaf Lard was in light demand with the offerings limited. Quotably steady at about $7 00. Neutral in fair demand with moderate offerings. Prices quotably steady at $8 37½@8 50 for No. 1 and $7 75@7 87½ for No. 2.

SEPTEMBER—Quiet and sold at $7 00@7 05, and closed at $7 00.

OCTOBER—Offerings were only fair, and the demand was moderate. Sales were made at $7 05@7 12½. Opened at $7 12½, sold to $7 05, and closed steady.

JANUARY. Demand light, and offerings were limited. Sales were made at $7 12½@7 20. Opened at $7 20, sold to $7 12½, and closed steady.

Short Rib Sides—Very little business was transacted in Short Rib Sides, and the feeling was comparatively easy. Offerings were light and the demand was limited. Prices irregular—declined 10@12½c and rallied 7½@10c, and closed steady. Shipping demand fairly active, and offerings moderate. Cash lots were quotable at $7 35@7 45 according to weight.

SEPTEMBER. Quiet and quotable at $7 30.

OCTOBER. Offerings were fair, and the demand was moderate. Sales were made at $7 30@7 42½. Opened at $7 42½, sold to $7 30, to $7 40, to $7 37½, and closed steady.

JANUARY. In moderate request and offerings were rather light. Sales were made at $6 55@6 60. Opened at $6 60, sold to $6 57½, to $6 57½@6 60 to $6 55, and closed steady.

Other Meats—Trade was fairly active and mainly on domestic account. Exporters bought sparingly. Offerings moderately free and inquiry was fair. Green Meats in moderate supply with a light inquiry and prices ruled steadier. Pickled Meats in good request with only moderate offerings, and prices favored buyers. Dry Salted Meats were in fair demand, with moderate offerings, and prices ruled steady. Smoked Meats called for moderately and prices were unchanged. Closing prices were as follows:

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, September 9, 1904.

Money was in fair demand from Grain interests, mostly from receivers, but many of the large handlers are not borrowing to any great extent. There is a steady undertone to the market and 4½ per cent is the minimum on a majority of loans. The market is now on a good healthy basis. Shipments of currency to the country are at the rate of about $1,000,000 a day. Commercial paper is meeting a better demand, and the short dates are taken in preference to those running over the first of the new year. Rates have been marked up to 4½ per cent and paper brings 4¼ to 4½ per cent, with some of it up to 5 per cent. In New York rates on the Stock Exchange were 1 to 1½ per cent the greater part of the week, and time money was 2½ to 4 per cent.

New York exchange was 25c to 35c discount per $1,000 and closed at 25c.

Foreign exchange was steady. Shippers' sixty-day documentary sterling bills on London ranged at 483½@483¾. There is a large "short" interest in exchange, caused by bankers drawing their demand bills on their foreign correspondents and being forced to cover by cable, and as the supply of commercial bills increases the "short" interest is eliminated. Cotton bills are increasing, but the movement of Grain is still disappointing.

Cotton in New York was actively traded in. There are more interesting features in the market. The dry goods trade has increased. Exports are larger and crop reports, particularly from Texas, are less favorable. The ravages of the boll weevil curtailing the yield. The "bull" interests were aggressive on all weak spots and "shorts" were forced to cover advances. Closing prices were at losses of 4@11 points for the week.

Local Securities were active with prices irregular. A feature was the advance and decline in Metropolitan Elevated. The buying of late has been by insiders who have taken offerings by tired holders. On the bulge, profit taking on moderate lines gave the price a setback. Carbon shares had a good reaction from the recent advance, and there was also weakness in Boxboard. Tractions, the feature of the previous week in activity and fluctuations, were neglected, with range of prices narrow. Can and Biscuit shares were given fair attention, and the volume rather exceeded that of any other shares, while price changes were smaller. In the bond market, general business was improved, and prices had a tendency to advance.

Stocks in New York were more heavily traded in and the market showed breadth such as not observable for months. There was also a higher range established, which was fairly maintained at the last. A feature was the heavy absorption of stocks by the strongest interests, one set taking 50,000 shares of Union Pacific, Southern Pacific and a few other stocks on Wednesday. Commission business improved. There was heavy selling for profits on the advances which gave the market a good setback, part of which was recovered. The larger operators are taking a more optimistic view of the situation and professional sentiment is "bullish." A good deal of comment was made on the Vermont election as an indication of the prevailing sentiment of the people. Crop news from the West was less of a factor. The railroads in the West are having a large traffic, and the Grain movement the previous week being the best at this time in four years. A cut of $4 00 to $6 00 a ton in Steel prices was considered as a healthy factor, as it will put the market on a more healthy basis which it has needed for some time past. Much new business is expected to result from the reduction. Money rates were stiffened and 1½ to 2 per cent was paid at one time. In the bond market there was a good trade with a higher level established on most issues. At the last prices on the list recorded fair gains. Total sales on the New York Stock Exchange for the week were 3,657,000 shares, against 2,377,000 shares the previous week and 1,064 000 shares for the same time last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

The mercantile trade was more active many new stocks are being bought and jobbers and retailers throughout the interior are loading up more readily. The largest business of the season was reported in dry goods, clothing and shoes. Some brands of cotton goods have advanced ¼c owing to depleted stocks. Upper leather is ½c to 1c a foot higher. Many of the large buyers of Iron and Steel who have waited for a decline in prices before loading up extensively, took hold. The interests having charge of the price making meet this week and reduced prices structural Steel, Steel plates and billets $4 00 per ton. There are large orders held in abeyance that are likely to be placed as soon as prices are fixed. The buying of Iron and Steel bars is increasing and prices show steadiness. Purchases of pig Iron are light. Increased sales of seasonable hardware and wire nails were reported. The movement of Coal is increasing and prices on some grades of bituminous are hardening. Increased sales of lumber, particularly coarse stock, are reported, and shipments of yellow pine from southern mills are said to be in excess of the output, the desire being to get stock to distributing points before the car shortage becomes acute. Paints, drugs and groceries all had increased sales. Collections are fairly good.

COMMERCIAL.

Business in commercial circles on the Chicago Board of Trade was quite satisfactory during the week just closed. Speculative transactions were of larger volume and receivers were favored with rather liberal receipts. Outside interest was more marked and many local speculators who passed the recent holidays in the country returned with more decided views as to values and conditions. Orders for outside account were more numerous and for larger quantities. Climatic conditions were watched closely and from now until October first will be the governing influence in Corn. Country shippers should study the columns of the DAILY TRADE BULLETIN for reliable information as to prices and conditions and forward their Grain to Chicago. After rendering his decision establishing what he regarded as equitable prices for Standard and No 2 Oats in settlement of defaulted contracts in Oats for delivery in July, 1902, Judge Chytraus fortified his position by the following remarks: "This appears to be so from uncontradicted testimony, and from the DAILY TRADE BULLETIN, of which witnesses on both sides, with uniformity, speak in the highest terms, and to whose perfect accuracy all certify." Board of Trade officials are doing all in their power to induce Eastern and foreign buyers to obtain their supplies in Chicago. A freight bureau will shortly be established to prevent, if possible, any discrimination against this market.

Cable advices received from Europe this week indicated fairly satisfactory weather conditions. Beneficial rains fell in Hungary and Roumania, which were favorable for plowing, and Bulgaria reported both receipts and stocks of Grain liberal. Threshing returns in France were variable. The *Bulletin des Halles* estimated the Wheat crop at 292,000,000 bu, against 360,000,000 bu last year. The London *Times* reported the condition of Wheat in Great Britain at 82 per cent, against an average of 92 per cent. Germany reported the new crops moving very freely except in the South. A fair to good movement was reported in Russia outside the districts surrounding Odessa. Further rains are said to be needed in India, and holders of Grain are reported very firm in their views. Crop conditions in Argentine are fairly satisfactory, though rains no doubt would be beneficial.

Weather and crop conditions the past week in the United States and Canada were fairly favorable, though excessive rains were reported in sections of the Northwest where cutting and threshing are under way. Temperatures were on the whole seasonable, and while the Corn crop is late in several important sections, it is maturing satisfactorily, and should frost hold off for the balance of September, a good yield is assured. Plowing is progressing rapidly in the Southwest and indications are that a large Wheat area will be sown. Some injury was reported to Spring Wheat in the shock in Minnesota and considerable is yet to be cut in North Dakota. Rust reports were numerous and smut is appearing. Harvesting is practically finished on the North Pacific Coast where the yield is lighter than the average as a whole.

The movement of Grain from the farms and interior elevators was quite liberal the past week. In the Northwest, however, marketing of Wheat was delayed by rain and the showing at terminal points was considerably smaller than a year ago. Coarse Grains are moving freely through the West and Central West and receipts at the principal points of accumulation were large. In the Southwest new Wheat continues to come forward in large quantities, but is apparently going into consumption more rapidly than usual at this season of the year. The movement of Grain through the South was moderate and fair on the North Pacific Coast. The movement toward the seaboard was somewhat enlarged, that is of coarse Grains. Freight room was engaged this week for liberal quantities of Corn. Exports of Flour and Wheat as well as Corn and Oats were moderate and the new business booked to go forward disappointing. According to the official visible supply as compiled by the Secretary of the Chicago Board of Trade there was an increase in Wheat Corn, Oats and Barley, and a decrease in Rye. The Liverpool *Corn Trade News* reported the supply of Breadstuffs afloat, in store in Europe and Argentina on September 1, at 82,366,000 bu, compared with 74,012,000 bu on August 1, and 59,430,000 bu on September 1, 1903. The world's stocks according to the DAILY TRADE BULLETIN were 121,977,000 bu, against 103,837,000 bu one year ago.

Rather a better business was witnessed in the leading speculative markets during the past week. Outside interest was more pronounced and sentiment leaned toward the "long" or buying side of the principal cereals. Higher prices ruled under a more general demand, "shorts" providing for outstanding contracts on the advance. Crop and weather conditions were the principal governing influences. Threshing returns from the Northwest favored holders, and the fear of frost was the chief factor in Corn. At the improvement in values there was realizing and profit taking, and prices reacted moderately, but all things considered prices held up fairly well. Hog Products were fairly active, and the market in a general way steady. Offerings were rather free the opening days, but were fairly well absorbed. Hogs were in fair supply and prices ruled higher. The whole list ruled easier the first of the week, but later on displayed a much better undertone. The labor troubles at the Stock Yards are gradually being adjusted and the output enlarging. The aggregate stocks on Sept. 1 of all kinds of Meats on hand were 108,526,696 lbs, against 123,409,416 lbs one month ago, and 112,667,079 lbs one year ago. Packing of the West for the week was reported 10,000 Hogs short of last year, and total for the season 10,435,000, against 10,540,000 last year—a decrease of 105,000 Hogs.

A good trade was reported in the market for cash Grain and Hog Products the past week. Receivers were favored with fairly liberal receipts, which sold quite readily at satisfactory prices. Wheat was in larger supply and in good demand. Choice samples were firmer, but poor Wheat lower. Corn sold well, and there was more doing in cargoes by shippers, room for about 1,500,000 bu being engaged. Oats were in fair request and sold well. Rye was quiet. Barley was in fair supply; choice heavy was in good demand, while low grades were slow and easy. Seeds were quiet. Flax firm and Timothy easy. Hay was in only fair demand with offerings large. Market inclined to dullness. Demand for Hog Products rather more active and offerings fair. Sales were quite liberal and prices inclined to favor buyers.

FREIGHTS—Traffic conditions East and West are improving, and the surplus supply of cars is decreasing. Rates are holding steady. The tariff is as follows:

To—	From Chicago. Domestic.	Export.	From Miss. River. Domestic.	Export.
Boston............	19½	13½	21½	16
New York.........	17½	13½	19½	16
Philadelphia	15½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News...	14½	11	16½	14½

Flour rates are to be 17½c domestic and 15c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 3c per bu on Wheat, Corn, Barley and Oats.

Ocean rates on Grain are firm, with a better demand for tonnage. Rates on Grain are 1d per bu from New York and 1d from Boston. Through rate on Wheat from Chicago to Liverpool is 6c per bu and Corn 5⅞c. Flour 19c per 100 lbs and Provisions 35⅛c per 100 lbs.

Lake rates are firm, with an increased demand for boats, at 1⅛c on Wheat and 1@1⅛c on Corn to Buffalo.

FLOUR—Most of the large dealers in Flour reported conditions somewhat improved this week. The local and domestic call was more general and foreign demand was said to be somewhat better. Stocks in hands of jobbers and the large consumers of Flour became depleted owing to the continued apathy of buyers and many were obliged to take hold and replenish the same. The call from points east of here was fair and sales also somewhat enlarged. In prices there was an easier feeling and the reduction in values was partially responsible for the enlarged sales. Standard Patents were marked down to $6 40, as against $6 60 last week, and the lower grades proportionately. Exporters reported foreigners more disposed to take hold, but bids still out of line owing to the relatively high prices millers are asking. Stocks, on the other hand, are said to be unusually light, and millers are undoubtedly working on the theory that it will not be long before the foreign buyer will be obliged to meet their terms. Mill offals are lower by about $2 00 per ton this week, and this fact will prevent millers making any further concession in the price of Flour. The output in the Northwest was fair this week at 432,000 brls, against 449,000 brls for the same week in 1903. The week closed steady at the following prices:

MILLSTUFFS—The market was easier during the past week, and prices declined $1 00 per ton. The receipts were larger, and there was less demand. Bran in bulk sold down to $16 50, and in sacks from $18 00@18 50, down to $17 00@17 50.

WINTER WHEAT—Ruled easier during the week, and prices for choice Wheat declined 1@2c, while poor Wheat suffered a decline of some 4@5c. Within the established range of prices a good business was transacted. The demand was good on speculative, and fair on milling and shipping account. But the inquiry centered in good to choice Wheat of the various grades, while the poor Wheat ruled very dull and was not particularly wanted by anyone, and was found slow of sale, hence larger concessions had to be made to dispose of it. The receipts have been larger, and came mostly from interior points in Kansas and graded No. 3 Hard. The stock of No. 2 Red in store was 410,000 bu, against 437,000 bu the previous week. For the week the receipts were 267 cars, against 547 cars the previous week. There were withdrawn from public elevators 51,600, and from private warehouses there were withdrawn 302 cars and 220,300 bu. No. 2 Red in store ranged at $1 07¼@1 08¼, down to $1 05½@1 06⅞, and up to $1 07⅝@1 09⅜—some of the round lots were sold at 1½c under the prices of May Wheat. Fresh arrivals free on board sold at $1 07@1 09, and ranged at $1 10@1 12 for choice soft. A sale of soft Wheat billed through was made at $1 10. No. 3 Red fresh receipts free on board sold at $1 05@1 09. No. 4 Red fresh receipts free on board sold at 84@90c for common and at $1 00@1 06 for good to choice. No Grade Red at $1 00@1 02. No. 2 Hard fresh arrivals free on board sold at $1 06@1 09. No. 3 Hard fresh arrivals free on board sold at 97½@99c for common to $1 05@1 07½ for choice, and at the river at 98½c@$1 01¼. No. 4 Hard sold free on board at 90c @$1 02, and at the river at 95c. No. 3 White sold at $1 08½.

SPRING WHEAT—More business was transacted in this market during the past week, made possible by little larger receipts. The demand was good for choice Wheat, while the poor Wheat, of which occasional cars arrived, has been hard to sell. Some of the Wheat was of fine quality, grading No. 2 Northern and choice No. 3 Spring. The receipts for the week were 21 cars, against 51 cars last week. There were withdrawals from public elevators 2,600 bu and 11 cars from private warehouses. No 1 Northern was quotably $1 16@1 18. No. 2 Northern fresh receipts sold at $1 13 free on board. No. 3 Spring sold at $1 07@1 14½ for good to choice hard variety. No. 4 Spring sold at 78@80c for poor, up to $1 03@1 08 for good to choice and $1 12 for fancy. No Grade sold at 58c@$1 00.

REGULAR WHEAT—There was a fair speculative business transacted under this head the past week, and the feeling developed was rather unsettled. Outside interest was quite marked, but the trade at times was a good deal on the professional order. While the market was nervous and sensitive most of the week the undertone, all things considered, was quite firm, and closing prices show new September ⅛c higher, while December gained ¾c, and the May ⅜c. The feeling the opening days of the week was weak, the foreign situation being looked upon as "bearish", the markets abroad being decidedly easy, and world's shipments were large, being swelled by the large contribution by Russia of 4,496,000 bu. Local traders in consequence were inclined to favor the selling side, especially as there was an apparent falling off in the speculative demand. New September sold off to $1 02½, while December touched $1 03⅛, and May $1 07⅜@1 07½. Around these prices the speculative demand improved, and new complaints from the Northwest coming in, claiming delay in thrashing due to the rains, together with the "bullish" summary of the weekly crop bulletin, furnished impetus enough to offset the "bearish" statistics. "Shorts" covered on the upturn, and traders imagined a large local elevator concern—credited with being "short"—covered through commission houses, while openly favoring the selling side of the market. Milling conditions in the Northwest and Southwest were reported as improved, and the rains in North Dakota were expected to delay the marketing of the new crop. The advancing tendency of the speculative market in that section was also an indirect factor in checking the local selling pressure. The *Modern Miller* believes there is as much exaggeration on the part of those trying to minimize crop losses in the Northwest as there was by the crop killers, and believes Flour buyers are being mislead into their waiting attitude. As to the foreign situation it says: "Liverpool is relied upon to hold American situation in check. Liverpool as a meeting point for all the Wheats in the world may fix the relative values of Wheats, but in times of shortage in the United States Liverpool views lose the bulk of their consequence in American markets. Liverpool must fix a price on our Wheat according to British needs, but with practically no surplus this price is not binding on America. For that reason the sooner British Flour buyers judge the American situation from the American viewpoint, the sooner trade will resume. With a crop of possibly 525,000,000 bu in the United States there will be little above domestic requirements. With Europe an active buyer, and authorities fixing a slight margin for the world's surplus, it is certain that the actual situation has real strength that will assert itself in spite of Liverpool or those who have been active in minimizing the strength of the situation in America." The Government weekly weather crop bulletin said: "Rains have interfered with Spring Wheat harvest in Northern portion of the Spring Wheat region and have caused injury to Grain in shock in Minnesota. About half the crop remains to be harvested in North Dakota where rust is increasing and smut is appearing. In Minnesota harvest been completed except on low land in the Northern portions. Harvesting is nearly finished on the North Pacific Coast where the yield is lighter than the average as a whole." The English markets developed a change in tone, which was attributable to the buying of cargoes off coast by the Continent. September advanced to $1 06, while December sold to $1 08⅞, and May to $1 11⅛. Many traders, anticipating a bearish Government report, liquidated on Friday and December reacted to $1 07¾ and the May to $1 09⅝. World's shipments last week were large—11,032,000 bu; the previous week, 9,552,000 bu, and 9,000,000 bu one year ago. The quantity afloat increased 1,384,000 bu to 40,220,000 bu; last year, 26,176,000 bu. Visible increased 827,000 bu; last year increased 147,000 bu. Total, 12,814,000 bu, against 13,50,000 bu in 1903 and 21,421,000 bu in 1902. Local public stocks increased 417,000 bu to 1 473,000 bu; last year, 2,817,000 bu. Stocks here in all positions increased 413,000 bu last week to 3,691,000 bu, compared with 6,303 000 bu one year ago. Contract stocks decreased 22,909 bu and now include 421,176 bu, as against 245,161 bu same date in 1903. *Bradstreet's* increased 3,000,000 bu, against 866,000 bu increase same week in 1903. The Liverpool *Corn Trade News* reported the supply of Breadstuffs afloat, in store in Europe and Argentina on September 1, at 82,366,000 bu, compared with 74,012,000 bu on August 1, and 59,430,000 bu on Sept. 1, 1903. DAILY TRADE BULLETIN reported the world's stock at 121,977,000 bu, against 103,837,000 bu in 1903. *Broomhall's* weekly foreign crop summary on Tuesday said: "United Kingdom—Wheat harvest nearly finished. Indications for a small crop continue unchanged. France—Threshing reports are variable, but mostly indicate a crop 25 to 30 per cent below last year. Germany—New Wheat is moving very freely except in the South. Outlook for Potatoes continues poor. Russia—Fair to good movement of Wheat except in districts surrounding Odessa, which are important growers. Roumania—The recent rains have favored plowing. Receipts of new crop Wheat are moderate. Bulgaria—Both receipts and stocks are liberal. Hungary—Beneficial rains have occurred. India—Need of rain is just sufficient to make holders firm in their views." Receipts this week were liberal and total primary movement between June 27 and September 6 aggregates 39,759 000 bu, compared with 33,977,000 bu in 1903 and 57,523,000 bu in 1902. Exports were moderate and total for the week 1,996,000 bu, making 15,215,000 bu since July 1, compared with 31,323,000 bu for the corresponding period in 1903. Argentine shipments on the contrary continue quite liberal, 1,000 000 bu going forward this week, making 79,810,000 bu since the first of year as compared with 57,458,000 bu for the same time in 1903. The visible supply there is now reported 3,088,000 bu, against 3,016,000 bu last week and 1,472,000 bu one year ago.

CORN—A good trade with sentiment greatly divided at times, resulting in frequent fluctuations within the established range of 1⅞@2⅛c. All things considered, the undertone was steady, but resting prices show ⅛c loss for September, ⅜c for December and May unchanged. The all-important influence this week was the weather and climatic conditions were watched with more than usual interest. The fear of frost caused "shorts" considerable uneasiness and the tendency to cover was quite marked. The majority of the private reports at hand this week indicated the crop was in no condition to withstand frost and that fully three weeks of warm weather would be necessary to place the crop beyond danger. There was influential buying the opening days, led by houses who had experts going over the West investigating the outlook, and these heavy purchases induced many of the smaller operators to shift about from the "short" to the "long" side of the market. Under this general and persistent buying the price of September was advanced to 54¼c, while December touched 52¾c and the May 51¼c. The recent liberal receipts induced considerable "short" selling, a good share of which was covered on the upturn. Foreign markets were firm and crop conditions on the Continent "bullish." At the advance around 52¾c for December and 51¼c for May realizing and profit-taking was much in evidence and values gradually settled back, the former touching 51½c and the latter 49⅞c. Fears of "bearish" showing in Government report on Saturday induced many "longs" to liquidate. The Government weekly weather crop bulletin said the Corn crop had advanced satisfactorily, especially over the Southwestern portion of the Corn belt, where early Corn is fully matured and considerable has been cut. In the North Central portion of the Corn belt the crop is late and will require favorable weather during the remainder of September to mature, its condition throughout Iowa being more uneven that usual. In Arkansas, Tennessee and portions of the Ohio Valley, and the Middle Atlantic States, late Corn is in need of rain. Routine statistics were inclined to favor the "long" interest. World's shipments were liberal at 4,126,000 bu, compared with 5,468,000 bu the week previous and 5,364,000 bu one year ago. The quantity on ocean passage decreased 188,000 bu and is now 19,054,000 bu, as against 22,344,000 bu on the corresponding date in 1903. Visible increased 36,000 bu; last year increased 559,000 bu. Total 8,931,000 bu, against 6,447,000 bu in 1903 and 2,523,000 bu in 1902. Local public stocks decreased 61,000 bu, to 1,391,000 bu; last year 2,016,000 bu. Local stocks in all positions were reported as 3,773,000 bu, an increase last week of 965,000 bu; stock one year ago 4 230 000 bu. Contract stocks decreased 62,293 bu and now include 1,888,700 bu, against 1,927,351 bu same date in 1903. *Bradstreet's* increased 1,276,000 bu, against 571,000 bu increase same week in 1903. Receipts this week were large at 4 664 cars, compared with 3,666 cars one year ago. Withdrawals from store at the same time were liberal, and freight room was taken for about 1,520,000 bu. Shipping operations were of fair volume, but exports were moderate. The total clearances this week were 476,000 bu and since July 1 aggregate 5,698,000 bu, against 10,027,000 bu for the same period in 1903. Bookings at the Atlantic seaboard were somewhat disappointing in view of the shortage in the fodder crops abroad. Argentine shipments continue liberal, 3,214,000 bu going forward this week, making 54,421,000 bu since Jan. 1, against 46,281,000 bu one year ago. The visible there is now reported 4,586,000 bu, compared with 4,414,000 bu the previous week and 3,944 000 bu one year ago. A fair demand prevailed most of the week for car lots, a larger percentage, chiefly yellow, going to store. No. 2 sold at ¼c over September, while No. 2 Yellow was 1½c over. No. 3 sold ¼c under September price and No. 3 Yellow 1@1¼c premium.

OATS—Were traded in liberally and acted rather weak part of the time. The course of values was somewhat influenced by that of Corn. Enough pressure of hedging sales and of "long" stuff was brought out on the bulges to give material setbacks and a good part of the time the market yielded under the pressure of offerings. Toward the last sales from hedgers lessened owing to decreased receipts. The buying was scattered and largely by "shorts" and investors who think O[illegible] low enough to warrant purchases for a long pull. The difference between December and May has widened, being 4c at one time and is only a shade under that premium at the close. The most striking features were the decrease in receipts and increase in supplies the past two weeks. Available supply as reported by *Bradstreet's* has increased 9,639 000 bu. Stocks in Chicago have increased nearly 5,000,000 bu in three weeks, and in all positions are 7,304,000 bu, of which 1,237,217 bu are contract and in public houses. The latter increased 421,964 bu for the week. The visible supply increased 3,177,000 bu and is 9,506,000 bu, against 7,446,000 bu last year. These accumulations are unusual, but prices are so low compared with other Grains that the losses are minimized. The closing figures were at fully the low point, at 31⅜@31½c for September, 32½c for December, and 35c for May, showing losses of ⅝@⅞c from the previous week. In the sample market prices were 1@1¼c lower, but closed steady. Elevator interests were the best buyers. There was also a fair cash demand for small lots. The seaboard reported a moderate export business and cleared 195,000 bu, against 212,000 bu last year. Arrivals were 1,216 cars, against 1,859 cars the previous week and 1,064 cars a year ago.

RYE—The market was easy early in the week, and prices declined 1@2c, with cash lots showing the most decline, and later ruled steadier with a recovery of the early loss in prices. A fair demand has existed within the established range with millers and speculators buying. The receipts have been fair and quality good, most of the arrivals grading No. 2. The market has been influenced more or less by the action of Wheat. There were some deliveries made on the September contracts during the week—20,000 bu being reported as having been delivered. The receipts for the week aggregated 69 cars, against 64 cars the previous week. There were withdrawn from public elevators none and from private warehouses 4,500 bu and 10 cars. The visible supply decreased 13,000 bu, and was reported at 963,000 bu, against 61,000 bu a year ago. Local stock in store was 97,000 bu, and a year ago was 306,000 bu. No. 2 in store was nominally 69½@70c early and later firmer, being nominally 71@72c. Fresh receipts to go to store sold at 70@70½c, and free on board at 72@73¾c, down to 70@71¼c and up to 72@72½c, and billed through at 69½@71¾c. No 3 fresh receipts local sold at 68½@71½c, and at the river at 67½@68½c. No. 4 sold at 65c and No Grade sold at 6[illegible]c. Future deliveries of No. 2 sold to a fair extent. September sold at 70c, to 69½c, to 71½c bid. December sold at 72c, to 71½c, up to 73½c. May sold at 74c, and 76c was asked later.

BARLEY—A very firm market was noticed during the past week for fancy heavy Barley. Offerings of this quality were very limited, and in fact there was none that might be called strictly fancy. Common to good Barley ruled about steady the early part of the week, but with increased offerings of thin seedy Barley the feeling became easy, and prices ruled a shade lower. At times it was difficult to dispose of some of the receipts on account of the difference of opinion as to quality. There was, however, at all times a good demand, and all offerings were cleaned up each day. Receipts were liberal. There were 262 cars inspected in, compared with 255 cars a week ago and 17 cars two weeks ago. Taken out 1,000 bu. Exports from New York aggregated 23,340 bu for the week. The visible supply showed an increase of 94,000 bu, with 906,000 bu reported, against 1,139,000 bu a year ago. Local stock decreased 4,083 bu, and were 63,234 bu. The same time last year there was in regular houses 673 bu. Sales during the week covered a range as follows: Screenings, ordinary to choice, quotable at 32@39c. Poor, thin, badly stained or dirty feed Barley quotable at 37@38c. Low grade malting, dirty small berry, of poor color, 40@43c. Fair to good color, depending on weight and other conditions, ranged at 44@48c, main trading at 42@46c. Higher grade, or choice, ranged at 49@52c. Fancy quotable up to 54@55c.

SEEDS—Timothy was easy for cash Seed on account of increased offerings. A fair business was reported. Flax was firm to a shade higher. There were fair receipts, but only a very few cars came on the open market. Clover was weak, due to favorable reports of the new crop and more liberal offerings of to-arrive lots.

Flax—A moderate business was done in cash Seed. There were fair receipts each day, but very few cars came on the open market. The market opened steady, but later it became firm and prices advanced ½c to 1½c. Futures were also firm and higher, but no sales reported as no sellers appeared on the market. Receipts as posted for the week were 40 cars, compared with 28 cars the previous week and 22 cars two weeks ago. Output 21,180 bu; a week ago it was 63,681, and two weeks ago 7,185 bu. Local stocks were unchanged and are now 16,091 bu. Duluth stocks showed a decrease of 256,687 bu, and are 4,713,847 bu, compared with 4,970,734 bu the previous week. Minneapolis stocks decreased 12,100 bu, and were 20,400 bu, against 32,500 bu the previous week, and 734,016 bu a year ago. There were exports from India of 93,000 bu compared with 376,000 bu the previous week and 101,000 bu the corresponding week in 1903. No. 1 cash was quotable at $1 19@1 19½. No. 1 Northwestern ranged at $1 26@1 27½. Rejected was given a nominal range of $1 15@1 19, depending on quality. September delivery was salable during the week at $1 19@1 19½. December ranged at $1 21@1 21½.

Timothy—The cash business transacted the past week showed a considerable increase Receipts were quite liberal each day and on this account there was an easier feeling manifested early in the week. The quality of the offerings was mainly fair to good, there being but little choice to fancy Seed received. There was a slight decline in prices early, but later the market ruled steady. The market for futures was nominal the greater part of the week. There were, however, sales of both September and January. Cash Seed was quotable during the week as follows: Fair to good country lots at $2 45@2 75; high grade to fancy above, up to $2 65@3 00, possibly higher than that if fine enough. Dark and dirty about $2 25@2 60, depending on quality. September was quotable in a regular way at $2 90@2 97½. October ranged at $2 90@2 92½. January sold and closed at $3 00. March offered at $3 10 at the close.

Receipts the past week, lbs. 2,819,939
A week ago 1,502,776
Two weeks ago 579,469
Corresponding week last year 2,143,185
Shipments the past week, lbs. 1,497,205
A week ago 1,518,357
Two weeks ago 358,000
Corresponding week last year 2,695,085

Clover—A nominally lower market developed early in the week, due to favorable reports of the new crop and liberal offering of Clover to arrive. There were small cash sales of both old and new Seed, but the volume was small and the quality of the Seed was common. Future deliveries were entirely nominal. Values were quotable over a range as follows: October delivery at $11 75@12 35. Contract spot Seed quotably about $11 75@12 35. Country lots, common to choice, $9 00@12 00; fancy above; fair to good, $10 00@11 50. Movement of Clover was as follows:

Receipts—The past week, lbs. 67,545
A week ago 40 875
Two weeks ago 6,590
Corresponding week last year 95,965
Shipments—The past week, lbs. 14,395
A week ago 100,005
Two weeks ago 3,220
Corresponding week last year 88,235

Other Seeds—Were entirely nominal during the past week. There were no offerings of any kind, consequently there was no business transacted. New crop Seed is not expected on the market for at least a week or ten days. Movement during the week was as follows:

Receipts the past week, lbs. 71,320
A week ago 267,600
Two weeks ago 132,609
Same time last year 470,050
Shipments the past week, lbs. 2,691,841
A week ago 1,704,614
Two weeks ago 677,100
Same time last year 289,100

HAY—The receipts for the week were 4,201 tons, against 6,116 tons for the previous week. Shipments for the week were 249 tons, against 264 tons for the previous week. The market for both Timothy and Prairie Hay ruled dull during the past week. The arrivals were smaller than for the previous week, but the demand was also restricted. An easier feeling prevailed, with prices 50c lower for the poorer grades, while the choice grades were about steady. Quotations at the close ranged as follows: Choice Timothy, $12 00@12 50; No. 1 Timothy, $11 00@11 50; No. 2 Timothy, $9 50@10 00; No. 3 Timothy, $8 00@9 00. Choice Prairie, $9 50@10 00; No. 1 Prairie, $9 00@9 50; No. 2 Prairie, $8 00@8 50; No. 3 Prairie, $7 00@7 50; No. 4 Prairie, $5 00@6 00. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $8 00@13 00 for fair to choice Timothy, $6 00@7 50 for State, and $7 50@10 00 for Nebraska and Kansas Prairie Hay. Rye Straw sold at $7 50, and Oat Straw at $6 50.

COOPERAGE—Very little business was transacted in the Cooperage market during the past week, and there were no particular changes to note. Local packers not inclined to purchase to any extent, owing to the labor troubles, and outside orders were small. Offerings were moderate. Ash Pork Barrels were in small request with moderate offerings, and prices steady at 95@97½c. Oak Pork Barrels were slow sale and quotable at $1 05@1 07½. Lard Tierces were in rather light demand and offerings were fair. Prices steady at $1 25@1 27½. Iron bound Lard Tierces were quiet and quotable at $1 17½@1 20 for six hoop and $1 25@1 27½ for eight hoop. Oleo Tierces steady at $1 27½@1 30.

HOGS—With labor troubles at the Stock Yards and at the packing houses, shippers were not inclined to forward their Hogs very freely, and the receipts for the week were smaller than usual. The quality was quite good better than for some time past. Market was active to the extent of the supply, with rather a firm undertone. Packers purchased moderately, and shippers provided for about the usual numbers of orders from the Eastern markets. Prices were advanced 25@30c on the whole range, and the market closed rather steady. Sales during the week were made at $5 30@5 95 for light, $4 75@5 10 for rough packing, $5 10@5 90 for mixed, and $5 05@5 80 for heavy packing and shipping lots, with the bulk of the trading within the range of $5 15@5 75 for fair to good averages. At the close about 4,000 Hogs remained in the pens unsold. Pigs were in moderate supply, with rather a good demand, and sold at $5 00@5 70 according to size and weight. Receipts of Hogs at the other large Western packing points were fair, and the quality was rather good.

PACKING—Rather a light business was transacted in packing circles during the week just closed Supply of Hogs was light and prices higher, with the labor troubles still existing, and packers were rather slow to purchase. Manufacture of Products was limited—chiefly cuts for the Dressed Meats trade, and articles which packers are compelled to make. Pork of all kinds virtually neglected. Lard produced moderately, with good average yield. A fair proportion placed in tanks. Domestic cuts of Hams made moderately. Skinned Hams made in limited quantities. Foreign cuts of Hams neglected. Shoulders made sparingly. Picnic Hams cut moderately. All descriptions of Sides made in limited quantities, with the preference given to Rough and Short Rib. Backs and Bellies made sparingly. Loins cut in moderate quantities for current wants.

PROVISIONS—Rather a good speculative business was transacted in Hog Products during the past week and an unsettled feeling prevailed. Fluctuations in prices were frequent, and at times within wide ranges Considerable liquidation on part of "longs," while at recessions in prices "shorts" were inclined to protect their outstanding contracts to some extent. The strike of the employes of the packing houses had some effect on general business and made operators a little cautious about trading. Speculators are gradually turning their attention to the deferred deliveries. The strength in Corn, due mainly to a possibility of an early frost, has encouraged a little miscellaneous buying of Products for January delivery, and this future ruled with rather more steadiness than the other futures. Prices are now based on about $4 75@4 87½ for Live Hogs. Supply of Hogs was on a moderate scale, and the competition between packers and shippers resulted in higher prices, which had a little effect on the market at times. Returns of the packing of the West for the week, compared with those for the corresponding week in 1903, exhibited a decrease of 10,000 Hogs. Foreign markets were stronger early in the week, but rather easy, with slight reductions in prices toward the close. Domestic markets were more active in a general way, with a more liberal distribution of Products. Receipts from the interior were quite large, as packers are delivering on contracts. Shipments were quite liberal, and widely distributed, indicating that packers are loading cars more readily and promptly During the early part of the week, there was some inclination to realize in a general way, and lower prices were accepted for all the leading articles. At the reduction, the demand improved, and prices advanced quite sharply again. At the advance there were larger offerings, and a weak feeling was developed. Prices settled back again to nearly inside figures This reduction brought buyers into the market again, and prices rallied temporarily, but settled back moderately, and the market closed rather steady. September contracts are understood to be well closed up, and the bulk of the trading now is in October and January deliveries. The demand for Produts on shipping account was quite active, and the offerings were moderately free, and held with considerable steadiness. Exporters were credited with purchasing small orders of Meats and fair quantities of Lard, while the domestic trade accepted rather liberal, quantities of suitable descriptions. Stocks of all kinds are fairly liberal, but the production at present is somewhat limited. Prices rather inclined in favor of buyers, but the concessions made were comparatively slight.

Pork—Considerable interest was manifested in the market for Mess Pork during the past week, and the feeling was unsettled. October delivery met with some favor, and January delivery was traded in more freely. Supply on hand quite liberal for the season of the year, though understood to be reduced about 1,000 brls since last report. Outside orders were moderate, and local trading was fair. Early in the week, there was a little pressure to sell and a weak feeling was developed. Prices irregularly receded 25@27½c on the whole range. At the decline the demand improved, partially from "shorts," and prices rallied 25@30c. This improvent brought sellers into the market again, and a weak feeling was again manifested. Prices settled back again 25@27½c. Toward the close, a little more strength was developed, and prices rallied 15@20, but receded again 10@12½c, and the market closed comparatively steady. Demand on shipping occount was fair in the way of filling small orders, and offerings were moderate. At the close, cash lots were quotable at $10 95@11 00. Other cuts of Pork were in moderate request and offerings were fair. Prices rather inclined in favor of buyers.

Lard—Trade was fairly active in the Lard market during the past week. Manufacture at present is moderate, and it is claimed that exporters have accepted fair quantities for shipment in the near future. These features stimulated trading to some extent. Supply is fairly liberal. Offerings were not quite so free as during the previous two or three weeks, while the demand was rather active. "Shorts" were credited with accepting fair quantities. Foreign markets were steadier. Exports for the week were quite liberal. Early in the week, the feeling was rather steady, with moderate miscellaneous buying, and prices ruled 2½@5c higher. At the improvement, there was a little pressure to sell, and prices receded 10@12½c on the whole range. This reduction brought buyers into the market again, and a firmer feeling prevailed. Prices were irregularly advanced 12½@15c, but toward the close settled back 5@7½c, and the market closed comparatively steady. Trading was chiefly in October and January contracts. Inquiry on shipping account was fairly active in a quiet way, and it was claimed that rather liberal quantities were disposed of, but traders generally refused to give details. Prices of regular at the close were quotable at about 5c discount on October figures—$7 05@7 07½. Refined in fair request in a quiet way, and prices were without material change. Loose lots were called for moderately, and offerings were only fair. Prices quotably steady at 37½@40c discount on October figures. Leaf Lard was in fair demand, with moderate offerings. Prices were quotable at $6 87½@7 00—closing at $7 00. Neutral was in rather good demand, with fair offerings. Feeling was stronger. Prices were advanced, and closed steady at $8 37½@8 50 for No. 1, and $7 75@7 87½ for No. 2.

Short Rib Sides—Rather an active business was transacted in Short Rib Sides during the past week, and the market was considerably unsettled. Fluctuations in prices were frequent, though not within very wide ranges. Trading mainly in October and January contracts. Supplies on hand being gradually reduced. A little more business reported on outside account. Production rather light Early in the week, the feeling was stronger, with fair general buying, and prices were advanced 10@15c. At the advance there was some pressure to sell, and a weaker feeling was developed. Prices irregularly receded 17½@20c. This reduction encouraged fair buying, mainly from "shorts," and prices rallied 15@17½c. Toward the close, the feeling was not so strong, and prices settled back 2½@5c, and the market closed rather steady. Quite a good demand prevailed on shipping account and offerings were fair. Holders rather firm in their views, especially for desirable averages. Prices at the close ranged at $7 37½@7 50 according to weight.

Green Meats—Trade was somewhat limited in the market for Green Meats during the past week, and the undertone was rather easy. Offerings were slightly larger in a quiet way, while the demand was light. Local curers not inclined to purchase, and outside orders were small. Hams were in small request and prices about ⅛@¼c lower. Skinned Hams were rather slow sale, and prices quotable ⅛@¼c lower. Shoulders were dull and neglected, and prices ruled ⅛@¼c lower. Picnic Hams were dull and rather slow sale at ⅛@¼c decline. Bellies were in moderate request and prices inclined in favor of buyers.

Pickled Meats—Quite a good business was transacted in Pickled Meats during the past week, and the feeling was comparatively steady. Transactions were not fully reported. Stocks of all kinds were fairly large. Advices from abroad were less favorable to holders, and prices of Hams were reduced 1s 6d. Domestic markets were steady. Export demand was limited and chiefly for small quantities of light weight Hams and Picnic Hams. Packers loading cars more readily. Domestic demand rather good. Hams were in fair request and prices ruled about ⅛c lower. Skinned Hams were in rather good demand, with moderate offerings, and prices ruled ⅛c higher. Shoulders were in moderate demand, with small offerings, and prices were advanced ⅛@¼c. Picnic Hams were in fair request and steady at former figures. Bellies were in moderate demand and prices well maintained.

Dry Salted Meats—Rather an active business was transacted in Dry Salted Meats during the past week, and there were no particular changes to note. Exporters bought a few small lots, but the advices from abroad were unfavorable, and lower prices were quoted for Backs and Cumberland Sides. Domestic demand was quite good, and orders were largely from the Southern markets. Offerings were moderately free, and supplies of all kinds rather liberal for the season of the year. Manufacture only moderate. Foreign cuts were firmly held, while domestic descriptions were rather easy, excepting for special averages.

POTATO OUTLOOK CONTINUES PROMISING.

[From the Orange Judd Farmer.]

Further favorable progress may be noted in the Potato crop in practically all important producing States. Blight has appeared in a mild way in a good many counties, with some evidences of real severity in one or two States. It does not seem, however, that this is any more prevalent than usual, and up to the time of going to press there are no hints of serious inroads in crop prospects. In portions of the northern belt growth has been retarded through drouth, farmers desiring warm rains in portions of the Ohio Valley.

In the Northwest a good crop is promised, the favorable conditions noted in *Orange Judd Farmer* from week to week being continued. In the heavy Potato belt of Wisconsin general crop advance is noted; prospects also favorable in Minnesota. Important Potato sections of Colorado have had generous distribution of rainfall and sunshine, and the crop is highly promising.

An uneven condition is the rule in Ohio, crop promises less bright in the western counties than in the north and east. In Pennsylvania there is more or less complaint of rot and blight which may affect the crop returns Some blight is also present in various New York counties, but in the main Potatoes are promising. In New England moisture has been ample, and while there is some complaint of blight, the outlook as a whole is for fully an average crop of good quality.

COMPARATIVE STOCKS OF LARD.

The Cincinnati *Price Current* submits the following comparisons of stocks of Lard on Sept. 1 for the years mentioned, held in Chicago and New York, and reported in European markets and afloat, with totals, represented in tierces:

	Chicago.	N. York.	Europe, etc.	Total.
1894	31,.00	6,900	115,000	153,100
1895	70,500	18,100	185,000	273,600
1896	256,400	25,.00	269,500	551,000
1897	2(8,300	13,900	240,000	522,200
1898	200,300	11,300	162,000	373,600
1899	223,.00	13,700	161,000	397,700
1900	113,900	7,500	112,000	233,400
1901	55,600	11,030	115,000	181,600
1902	53,700	8,000	68,500	130,200
1903	106,500	7,700	72,500	186,700
1904	150,800	7,(00	118,200	276,000

The above shows visible stocks of Lard this season to be 89,000 tcs more than a year ago, and 24,000 tcs less than the average for Sept. 1 for ten years previous to this season. Compared with a month ago there is a decrease of 45,000 tcs.

The aggregate stocks of Lard, as mentioned, the first of each month for years stated compare as follows represented in tierces:

	1904.	1903.	1902.	1901.	1900.
January	134,000	105,000	163,000	159,000	264,000

MOVEMENT OF NEW WHEAT.

[From the Minneapolis Market Record.]

Now that the first month of the new crop year is past, some idea, perhaps, of the quality, if not quantity, of this year's Wheat crop may be obtained. The figures show that the movement during August was slightly in excess of that during August a year ago and the amount of No 1 and No 2 Northern one-half of 1 per cent less this year than last. The receipts at Minneapolis and Duluth this year and last were as follows:

	1904, cars.	1903, cars.
No 1 Northern	860	740
No. 2 Northern	909	950
No. 3	506	356
Rejected	313	273
No Grade	212	338
Total	2,800	2,657

The above figures show a percentage of 63.2 No. 1 and No 2 Northern this year, against 63.7 per cent last year. The receipts at Minneapolis alone show the percentage of No 1 and No. 2 Northern this year at 53.8, against 51 7 last year.

THE WEATHER CONDITIONS.

Temperatures Northwest much lower. Generally cloudy both sides of international line. Temperatures West, Southwest and in Ohio Valley stationary—Manitoba 38 to 48, Northwest 44 to 66.

ITEMS OF GENERAL INTEREST.

The Electric Boat Company has declared the regular quarterly dividend of 2 per cent on its preferred stock, payable Oct. 1.

The fourth successive semi-annual dividend of 2 per cent will be paid on Reading first preferred Sept. 9, and the voting trust will expire.

The White Mountain Paper Company's plant in Portsmouth, N. H., was sold under foreclosure, Thursday, to a New York party for $4,000,000.

A quarterly dividend of 1½ per cent on the stock of the Manhattan Railway Company will be paid on Oct. 1. Books close Sept. 18 and reopen Oct 28.

The estimated gross earnings of the Southern Indiana Railway for August were $120,179, compared with $103,326 estimated for the same month last year.

The Fitchburg Railroad Company has declared the regular quarterly dividend of 1¼ per cent on the preferred stock, payable Oct. 1 to stock of record Sept 1.

Brooklyn Rapid Transit Company $5,000,000 refunding convertible 4 per cent bonds, Nos. 5,001 to 10,000 inclusive, have been listed on the New York Stock Exchange.

The directors of the Masonic Fraternity Temple Association, Chicago, Friday, declared a dividend of 1 per cent, payable Oct. 15. Books close Oct. 1 to 15, inclusive.

Application has been made to the New York Stock Exchange by the Western Maryland Railroad Company to list $28,780,000 first mortgage 4 per cent bonds of 1952.

The Steel corporation has started blast furnace No. 2 of the Carnegie Steel Company at South Sharon, Pa. It was but recently completed and has never been operated.

In a trade involving more than $1,000,000 the Dupont Powder Company of Wilmington, Del., has taken the property of the Chattanooga Powder Company of Chattanooga.

The 4 per cent one to eleven-year serial water bonds of the City of Andover, Mass., amounting to $11,000, were awarded to the Essex Savings Bank of Lawrence, Mass., at 102 58.

The United Traction and Electric Company of New Jersey has declared the regular quarterly dividend of 1¼ per cent, payable Oct 1. Books close Sept. 13 and reopen Oct. 3.

Industrial dividends in September are estimated at $9,409,771, compared with $14,622,465 in August, $17,278,403 in September, 1903, and $16,943,967 in 1902. A year ago the United States Steel common dividend figured in the total. Last year the Calumet and Hecla dividend of $1,000,000 was paid in September.

Interests in control of the Union Match Company confirm the report that the company is pushing its fight on the Diamond Match Company. Considerable money is being spent in advertising a special brand of matches that is in close competition with the best product of the Diamond company, and the competition at many points is very keen.

Dornbusch of Aug 27 says: "The official agricultural returns just issued confirm the supposition that the area under Wheat in this country is the smallest on record, and does not exceed 1,375,284 acres, compared with 1,581,587 acres in 1903 and 1,726,173 acres in 1902. Barley covers 1,840,888 acres, and Oats 3,252,975 acres, against 1,858,484 acres and 3,140,212 acres respectively in previous year. Potatoes, 570 2?9 acres, are rather larger. There is an increase in the number of Horses, Cattle and Pigs, and a small reduction in Sheep."

Mark Lane Express of Aug. 29 says: "Barley harvest has been the great event of the week, and the fields carried include those of many of the finest malting districts. Mellowed by showers of the previous fortnight and helped to a gradual, yet perfect ripening by a merely mild warmth succeeding to the tropical glow of July, there can be little doubt that a considerable quantity of first-rate malting Barley has been secured. Grain which will be worth £1 per coomb of 224 lbs, which is the malting Barley standard in East Anglia."

The San Francisco *Weekly Commercial News* of Sept. 1 says: "Hop picking is progressing rapidly in the north and central parts of the State, and a large crop will be gathered. Supplies of old crop are practically cleaned up and the market for new crop is firmer, with as high as 25½c being paid. Advices from North Yamhill, Oregon, say the crop in that vicinity will be about the same as last year; offers of 27½c have been turned down, and growers anticipate 30c. A report from North Yakima, Wash., states that a sale has been made there at 28c, and growers are asking 30c."

A settlement has been reached between the Fore River Ship and Engine Company and the Federal Trust Company, and the case has been taken out of court. The property of the Fore River Ship and Engine Company at Quincy was sold at auction, Friday, to the reorganization interests for $1,000,000. This was the only bid. The Fore River Shipbuilding Company of Quincy, Mass., with a capital stock of $4,800,000, has been incorporated under Massachusetts laws. The capital comprises 24,000 shares each of common and 6 per cent noncumulative preferred stock.

The reorganization committee of the American Cotton Company announces that a majority in amount of the debenture bonds, and a majority of the notes and other obligations of the American Cotton Company and its subsidiary corporations, together with a large amount of each class of stock, having assented to the reorganization plan and agreement, the same have become effective. For the convenience of absent security holders and others the time within which further deposits may be made and subscriptions lodged with the Bankers' Trust Company of New York has been extended to Sept. 17.

Stockholders of the Chicago and Alton Railroad Company at their special meeting in Chicago, Wednesday, ratified the issue of $5,350,000 new 3 per cent bonds. Ninety per cent of the stock was represented at the meeting. The terms of the mortgage provide that $1,000,000 may be issued each year, and that in addition $30,000 a mile may be issued on extensions up to 500 miles. Of the amount authorized $350,000 will be used in the purchase of the Quincy, Carrollton and St. Louis Railroad, and the rest will be used later in paying for various improvements and acquiring additional equipment.

The *Agricultural Gazette* of Aug. 29 says: "Great differences in the weather of the several districts of the country continue to be reported. While rain in quantity has visited some parts, drouth, with only mere sprinklings of rain occasionally, has continued to hold the field in others. As a rule the interruptions to harvest work have not been serious, as hot sunshine has quickly dried the Grain in sheaves after rain has wetted it more or less. Where drouth has been most persistent in early districts the Grain is all, or nearly all, secured, and a soaking rain is needed to soften the stubbles for cultivation and for plowing for Rye and Tares."

The *Northwestern Miller's* Liverpool correspondent says: "The Flour market is rather disorganized by the exceptional advance in values, and operators in the manufactured article are too stunned to respond with vivacity to the prevalent excitement in Wheat. The relatively high prices for foreign Flour for months past have so effectually checked any inclination that might have existed to anticipate future requirements, that now there are only very limited stocks available. These are therefore necessarily held for most extreme figures. In consequence, though inquiry is more pronounced, trading is confined simply to the supply of most pressing needs."

Reports made, Thursday, by the Chicago National Banks, in response to the call of the Comptroller of the Currency for statements of condition at the close of business, Sept. 6, make it evident that the deposits of the Chicago banks are again at a new high record. The National Banks in the city, with the exception of the Prairie National Bank, which made its initial statement, reported aggregate deposits of $295,784,428, an increase of $10,821,977 over the last previous reports of the same banks on June 9, or a 3.79 per cent gain. Loans were reported as $195,943,358, an increase of $8,009,624 over June 9, or 4.28 per cent. Cash resources were $129,221,268, an increase of $1,332,207 over June 9, or 1.04 per cent.

A plan for recasting the securities of the Consolidated Tobacco Company has been fully agreed upon, and it will be announced in the near future. It is understood that the company is pursuing the same plan in the matter of retiring its bonds that it did when the common stocks of the American and Continental Tobacco Companies were practically retired. It will be recalled that those issues were bought up by representatives of the two companies and deposited as security for the 4 per cent bonds of the Consolidated Company. There is every evidence that the bonds are being bought up in the market in the same way. Prominent Tobacco interests have held practically all of the stock of the Consolidated Company since it was authorized. Consequently, if they are able to buy in the bonds, a large part of which there is reason for believing they have already secured, they will be able to carry out their plan without any difficulty. The bonds have never been widely distributed. It is understood that the plan, as now agreed upon for rearranging the securities of the Consolidated Company, will be advantageous to the holders of the 4 per cent bonds.

St. Petersburg advices of Aug. 26 state that the weather in the greater portion of the country is warm and sunny and most auspicious for agricultural operations. Rain is only spoken of in the Western Governments and locally with thunder in the South. In the extreme Southwestern region the Corn fields are suffering severely from drouth.

GOVERNMENT CROP REPORT.

The report of the Department of Agriculture for September indicates about 530,000,000 bu Wheat, 2,346,000,000 bu Corn, 785,000,000 bu Oats, 26,500,000 bu Rye, and 134,000,000 bu Barley. Details of the leading crops will be published on Wednesday.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand gradually improving and sales enlarging. Feeling firm.

WINTER WHEAT—Was in good demand and prices 2@4c higher. Choice Wheat taken up readily, but poor Wheat slow. No. 2 Red in store ranged at $1 11@1 13⅝ and car lots fresh arrivals free on board at $1 13@1 14, with a sale of 10,000 bu free on board at 1c over May price. No. 3 Red fresh arrivals free on board sold at $1 08@1 13 and at the river at $1 09½. No. 4 Red fresh arrivals free on board sold at 98c for poor, to $1 04@1 11 for good to choice. No Grade Red sold at 90c@$1 08. No. 2 Hard fresh arrivals free on board sold at $1 10@1 12. No. 3 Hard fresh arrivals free on board sold at $1 01@1 08 and at the river at 99½c@$1 08. No. 4 Hard fresh arrivals free on board sold at 98c@$1 03.

SPRING WHEAT—Was quiet for lack of offerings. Demand good for choice Wheat. Prices about 2c higher. No. 1 Northern fresh arrivals free on board quotably $1 16@1 18. No. 2 Northern fresh arrivals free on board nominally $1 1.@1 15. No. 3 Spring was quotably $1 05@1 15 for ordinary to very choice, with a sale of hard variety at the top figure and a car at the river at $1 09. No. 4 sold free on board at 90c for common to $1 03@1 08 for good to choice, and at the river at $1 08¼. A sale of 15,000 bu not graded to arrive was reported at $1 07½.

REGULAR WHEAT—A large trade and a stronger market, the close showing gains of 4c and 1⅛@1¼c. The Government report was the chief "bull" motive, the frosts and adverse crop advices from the Northwest also being strengthening factors. Market was helped, too, by the higher English cables. There was a general commission house demand at the start and active covering by "shorts," under which prices advanced sharply. Liquidation and profit-taking was a conspicuous feature on the rise, but the offerings were well absorbed. Elevator interests and houses with Northwestern connections sold on the rally. The Government report made the condition of Spring Wheat 66 2 per cent, against 87 5 on August 1. This indicates a crop of 201,997,000 bu, which, with 328,281,000 bu Winter, makes a total of 530,258,000 bu, against 637,821,000 bu last year and 670,063,000 bu two years ago. Liverpool quoted spot steady to 1d higher and futures up 1⅝@1¾d. London 1@1½d higher. Paris ½c higher and Antwerp steady. Berlin ¼c lower. Buda Pesth lost 2¼c since Friday. World's shipments were 10,432,000 bu, against 11,082,000 bu last week and 13,450,000 bu one year ago. The quantity on ocean passage increased 568,000 bu and is now 40,848,000 bu, against 29,984,000 bu one year ago. The visible increased 301,000 bu; last year increased 816,000 bu. Total, 13,115,000 bu, last year, 14,166,000 bu; in 1902, 22,556,000 bu. Local public stocks increased 308,000 bu and are 1,781,000 bu, against 2,911,000 bu in 1903. Map showed temperature in Manitoba 32 to 48 and rains general and in the Northwest 40 to 48. More frost was indicated for parts of North Dakota. Winnipeg wired: "Frost again last night; 2 to 5 degrees in Manitoba and the Territories. General opinion all Wheat is now harvested in Manitoba, but 20@25 per cent is standing in the Northwest Territories." Minneapolis reported rain all the way from Minneapolis to Fargo. Northwest cars were 575 smaller than last year. Primary receipts were 133,000 bu under that of 1903. Kansas City and St. Louis received 557,000 bu, against 378,000 bu one year ago. Liverpool stocks 3,240,000 bu increased 24,000 bu last week. London *Statist* of Sept 3 contained a "bullish" article on world's crop and estimated the requirements of importing countries at 128,000,000 bu. Minneapolis stocks reported decreased 65,000 bu in two days. Clearings were small and 4 boat loads accepted at the seaboard. Kansas City reported cash Wheat 3@4c higher. Receipts at Duluth 61 cars and at Minneapolis 447 cars, a total of 508 cars, against 255 cars Saturday, holiday a week ago, and 863 cars last year. Local receipts included 105 cars Winter, 12 cars Spring and 3 cars mixed, a total of 120 cars, against 154 cars last year. Included in the above were 3 cars of contract grade. There were 20 cars and 24,000 bu taken from unlicensed elevators. The estimated receipts for to-morrow are 316 cars. Withdrawals to-day were 5,000 bu. Receipts at Western points were 1,198,815 bu, against 1,331,098 last year. At Eastern points 48,044 bu, against 217,510 last year. Shipments from Western points were 514,723 bu, against 525,043 last year, and from Eastern points 25,641 bu, against 171,456 last year. Shipments of Flour were 20,015 brls. Exports of Wheat in Flour were equal to 115,843 bu.

Future Deliveries of Regular Wheat—Active trade and prices higher.

SEPTEMBER Old Style—Sold at $1 10¾@1 12⅝. Opened with sales at $1 10¾; sold to $1 11½, to $1 11¼ to $1 12⅝ and closed at $1 12⅝.

SEPTEMBER New Style—Sold at $1 07½@1 09¾. Opened with sales at $1 07⅝ to $1 08; sold to $1 08¼, to $1 07½, to $1 07⅝, to $1 08½, to $1 08¼, to $1 09⅝, to $1 09½, to $1 09¾, and closed at $1 09¾.

DECEMBER—Sold at $1 09½@1 12⅞. Opened with sales at $1 09½ to $1 10⅛; sold to $1 10¾, to $1 10½, to $1 10⅛, to $1 09¾, to $1 10⅛, to $1 10, to $1 10⅝, to $1 11⅜, to $1 11, to $1 12⅝, to $1 12⅜, to $1 12⅞, to $1 12⅝, and closed at $1 12⅝.

MAY Sold at $1 11½@1 14⅞. Opened with sales at $1 11½ to $1 12; sold to $1 11¾, to $1 12⅜, to $1 12¼, to $1 11½, to $1 13⅜, to $1 12⅞, to $1 12⅝, to $1 13¼, to $1 12⅞, to $1 14⅜, to $1 11⅛, to $1 14⅝, to $1 11⅞, to $1 14⅝, and closed at $1 14⅝.

CORN—A good trade, with prices higher early in the day, a sharp reaction following, but market rallied again later on, and the close showed ¼c to ⅜@⅞c advance. Low temperatures and advance in Wheat were the main factors, frosts being officially reported at Des Moines, Davenport, and Lacrosse. Showers were indicated for Kansas and Nebraska, and rising temperatures in Illinois, Indiana, Missouri and Iowa. Commission houses and "shorts" were buyers at the opening, but at the advance "long" Corn came out, the Southwest selling, as also Provision interests, and prices settled back, only to rally again toward the close of the session. Receipts were very large, 1,118 cars, and 798 cars estimated for to-morrow. Liverpool quoted spot unchanged and futures ⅛@¼d higher. The government report made condition Sept. 1, 84.6 per cent, against 87.5 last month and 80.1 one year ago. On an area of 91,894,000 acres, this indicates 2,346,051,000 bu, against 2,244,176,000 bu in 1903. Yield in surplus States, 1,431,000,000 bu; last year, 1,271,000,000 bu and 1,703,000,000 bu in 1902. The visible increased 767,000 bu; last year increased 478,000 bu. Total 4,701,000 bu; last year 6,925,000 bu and 2,264,000 bu in 1902. OATS—Were moderately active and stronger within ½c range. Closing prices were ⅛c lower to ⅛c higher. The feature was the liberal buying of December and selling of May at 1@1⅛c difference. The Government report was rather "bullish" indicating a crop of 785,000,000 bu, but it had little effect on the market. The advance in Wheat had a good effect. Stocks increased 960,000 bu and are 2,597,000 bu, against 1,827,000 bu last year. The visible supply increased 432,000 bu. Arrivals were 224 cars, with 279 cars expected to-morrow. Withdrawals were 145,500 bu. Seaboard clearances 28,000 bu. Cash sales 25,000 bu. Car lots to go to store were steady. No 4 White sold at 30@31¼c. No. 3 White at 31½@32¼c. Standard at 32¼c. DECEMBER—Sold at 32¼@32⅝c. Opened at 32½c to 32⅝c, sold to 32¼c to 32½c at close.

MAY—Active. Sold at 34⅞@35⅛c. Opened at 35c to 35¼c, sold to 34¾c, to 35, to 35⅛@35c.

RYE—Was firm and 1½c higher. Demand good, with more doing in a speculative way. Good demand also for car lots of fresh arrivals for manufacturing purposes, millers and distillers buying. There were six cars received and two cars withdrawn from private warehouse. No export clearances from New York. Visible supply increased 232,000 bu. No. 2 in store nominally 73c and fresh arrivals sold free on board at 74@75c. No. 4 to go to store sold at 71½@72c.

Future Deliveries of No. 2 Rye—In good demand and prices 1½c higher. September sold at 73c. December sold at 75c and May at 78c.

BARLEY—The market was steady for the low grades and firm for choice to fancy Barley. Demand for all grades was good. Offerings were liberal, especially of low grades. To-day's postings showed 61 cars inspected, most of which graded No 3 and No. 4. The market was quotable as follows: Screenings at 32@40c for common to very choice. Poor, thin, badly stained or dirty, feed Barley, quotably 37@41c. Low grade malting, dirty, small berry, poor color, 40@43c. Fair to good color, depending on weight and other conditions, ranged at 44@48c. Higher grade, or choice, ranged at 49@51c. Fancy quotable up to 54@55c. The bulk of the trading was done at 43@48c.

SEEDS—Flax Seed was higher for both cash and futures. Timothy was lower. Clover nominally unchanged.

Timothy There was a weak heavy market for cash Seed. Offerings were liberal and mainly common to good in quality. Demand was not at all urgent. Future deliveries were also weak. September closed at $2 95 sellers. October sold at $2 85, and closed with sellers at that price. January offered at $3 00, and $2 90 was the best bid. March was offered at $3 05. Cash Seed was quotable as follows: Fair to good country lots quotable at $2 30@2 45; high grade or choice $2 50@2 60, and fancy up to $2 75@2 90. Dark and dirty or badly hulled about $2 00@2 30, depending on quality.

Flax—Was a ½c higher for both cash and future deliveries. Receipts were fairly liberal of cash Seed, but only a few cars appeared on the market. Futures were neglected. No. 1 Northwestern or No. 1 from the Northwest sold at $1 28. No. 1 was nominally $1 20, and Rejected ranged at $1 10@1 20, as to quality. For September $1 20 was bid, and for December $1 22 was bid. Receipts were 4 cars at Minneapolis, none at Duluth and 0 cars or 8,100 bu here. Local output was 1 car or 1,000 bu. Local stocks were unchanged and were reported at 16,091 bu.

Clover Continued to rule steady. There was no cash Seed offered and futures were also nominal. October delivery, $11 75@11 90. Contract spot Seed was quotably about $11 75@11 90. Country lots, common to choice, $9 00@11 50; fancy above. Fair to good, $10 00@11 25.

HOG PRODUCTS A fair speculative business was transacted in Hog Products and a weak and unsettled feeling prevailed. Offerings were moderately free by "longs" and packers, and the demand was only fair. Outside orders were not very large, and local trading was fairly active. Prices declined materially on all the leading articles, but rallied slightly from the inside figures reached, and the market closed rather steady. Hogs were in fair supply and higher, and the Grain markets were stronger, but the market for Hog Products appeared to be on an independent basis. Receipts of Hogs at the leading Western markets were estimated at 40,500, compared with 55,600 a year ago. Foreign markets were quiet and Liverpool quotations were reduced 1s on Hams and 3d on Lard. Domestic markets were steady. Receipts of Products were good—of Lard and Meats about 21 cars. Shipments were fair—of Lard and Meats about 102 cars. Shipping demand was fair, and offerings were not very large. Fair sales were reported, and prices were without material change. Exports for the week compared with corresponding week in 1903, exhibited decreases of 1,380 brls Pork and 9,162 boxes Meats, and an increase of 540,000 lbs of Lard.

Mess Pork—A fairly good business was reported in Mess Pork, and the feeling was unsettled. Offerings were rather free, and the demand was only fair. Market opened stronger, and prices were 10@12½c higher, but there was considerable pressure to sell later, and prices irregularly receded 35@40c. Toward the close, rallied 7½@10c, and the market closed comparatively steady. Demand on shipping account was moderate, and offerings were fair. Cash lots quotable at $10 60@10 70.

SEPTEMBER—Quiet, and quotable at the close at $10 55.

OCTOBER—Offerings were moderately free, and the demand was fair. Sales were made at $10 55@10 95. Opened at $10 95, sold to $10 90, to $10 92½, to $10 55, to $10 65, to $10 62½@10 65, to $10 60, to $10 67½, to $10 65, and closed steady.

NOVEMBER Quiet, with small sales at $10 67½.

JANUARY In moderate request, and offerings were not very large. Sales were made at $12 37½@12 60. Opened at $12 60, sold to $12 37½, to $12 40, to $12 37½, to $12 40@12 42½, to $12 40, to $12 42½, to $12 40, and closed comparatively steady.

Lard—Trade was fair in the Lard market, and the feeling was easier. Offerings were moderately free, and the demand was not particularly urgent. Market opened stronger, with moderate miscellaneous buying, and prices were 7½@10c higher, but a weaker feeling was developed, and prices receded 10@12½c, and the market closed steady. Foreign advices rather unfavorable to holders. Demand on shipping account was moderate, with rather light offerings. Cash lots quotable at $7 00@7 02½. Loose lots in fair request with moderate offerings. Prices steady at about 37½c discount on October figures. Leaf Lard was in light demand with the offerings limited. Quotably steady at about $7 00. Neutral in light demand with moderate offerings. Prices quotably steady at $8 25@8 37½ for No. 1 and $7 75@7 87½ for No. 2.

SEPTEMBER—Quiet and quotable at $7 00.

OCTOBER In moderate request and offerings were fair. Sales were made at $7 02½@7 15. Opened at $7 15, sold to $7 02½, to $7 05, to $7 02½, to $7 05@7 07½, and closed steady.

JANUARY—Offerings were fair, and the demand was moderate. Sales were made at $7 07½@7 20. Opened at $7 20, sold to $7 07½, to $7 12½, and closed steady.

Short Rib Sides—Trade was fair in the market for Short Rib Sides, and the feeling was somewhat unsettled. Offerings were moderately free, and the demand was only fair. Market opened stronger, and prices ruled 2½@5c higher. Later, a weaker feeling was developed, and prices gradually receded 5@7½c, and the market closed steady. Shipping demand was fair, and offerings were moderate. Cash lots were quotable at $7 35@7 45, according to weight.

SEPTEMBER—Quiet and quotable at the close at $7 32½.

OCTOBER—Offerings were fairly liberal and the demand was moderate. Sales were made at $7 35@7 42½. Opened at $7 40 to $7 42½, sold to $7 35, to $7 40, and closed steady.

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Aug 30.]

United Kingdom—After some cool, showery days the weather at the end of last week again became very fine and warm, and so continues this week Growers have continued to make good progress with harvest work, and an increasing number of Southern reports mention that all is now in stack. In the Midlands about one-half has been carted, in Northern parts of England the work is getting into full swing, while Scotland has made a start. We have lately received some fairly good reports from Lincolnshire and Yorkshire and have seen some nice looking samples, but other reports from the same counties are not nearly so favorable, and taking an all-around view, the outlook for our Wheat crop does not improve. A correspondent at Hereford writes that he has received about 20 deliveries of new Wheat and has found the quality and condition unsatisfactory Some Wheat is thin and blighted, but some very good. Unless an improvement takes place, this correspondent thinks that expectations of good quality will not be realized, and the cause is generally held to be the scorching sun when the Wheat was in a milky condition. New Wheat is in fair supply at early markets in the South and East of England; the official average for last week also showed a fair increase in the quantity and the price rose to 29s 5d, an improvement of 9d per qr from the week previous.

Russia—We continue to receive very favorable reports regarding the crops of the Southeast and East. Our latest advice to-day from Mariupol says that over the Azoff districts generally crops have turned out above the average, and the quality leaves nothing to be desired. Arrivals at Mariupol have been somewhat delayed, as growers in that district have not yet finished field work, but Rostoff has been receiving good quantities. Nicolaieff likewise reports a good increase in arrivals there, and there is more movement at Odessa, although trade is not active, owing to high prices asked by holders in the interior. Shipments last week increased sharply, the total of 3,024,000 bu being well over that of the corresponding week of last year, and we think good quantities will continue to be put afloat, for Azoff shippers will want to make the most of their opportunity, and there will be a good demand for Russian Wheat in Southern and Western Europe.

Roumania—The long drouth has been broken by heavy general rains, which will enable growers to get on with fall plowing under more favorable conditions. Supplies of Grain are limited, but the bulk of the stuff can be reckoned as Wheat, and the weekly total of shipments from Roumanian and Bulgarian ports makes a very fair showing.

Austria-Hungary - Some rains are reported which will have done good, but there are continued complaints of low water in the rivers. Liberal quantities of Wheat are now being taken each week from Roumania and Russia.

France—The harvest is now practically completed and more rain is wanted for the crops still standing. Not much threshing has yet been done, and offers generally are not large, but at some centres farmers have been tempted by current prices to bring foward fair supplies.

Germany—The weather is now very favorable for the fodder crops and for fall plowing Good quantities of new native Grain of excellent quality are offered, supplies of Wheat at Berlin having been particularly heavy and prices were depressed in consequence.

Spain—Barcelona again reports a short crop, but no approximate estimate of the deficit has yet been published.

Argentina—The weather keeps favorable for the new crops, reports concerning which are quite satisfactory. Exorts of Wheat last week were fair, Corn again large.

India -The general situation is reported to be satisfactory. The seeding of the new Wheat crop should commence next month and continue till December Exports of Wheat are still liberal, but not so heavy as they were.

Australasia Mail advices from Melbourne, dated July 23, say that the heavy rains came in time to fairly well assure another good harvest. The rains were well distributed throughout the Commonwealth. Reports from South Australia are particularly favorable for even the dry northern country is well supplied with moisture.

THE WEATHER CONDITIONS.

Temperatures very low in all directions. Light frosts last night at Des Moines, Davenport, Lacrosse and Duluth. Temperatures West, 44@52; Northwest, 40@48; Manitoba, 32@48; Edmonton, in far Northwest, is 32.

Indications are for showers to-night west of the Missouri River and probably in Minnesota. Temperatures will rise in eastern and central portions of this forecast district, but will continue cool Northwest.

WEATHER BUREAU REPORT.

Weather Bureaus weekly crop report, issued at noon to-day, says:

Wheat - Weather has favored threshing in Spring Wheat regions, and this work is now general in North Dakota and Northern Minnesota. Harvesting, which has been delayed in the first-named State, has been finished, except some late Grain.

Corn—The damage resulting from light frosts on the 11th and 12th over the extreme northern portion of the Corn belt was mainly confined to Minnesota, Wisconsin and Upper Michigan. Nearly the whole of the most productive of the Corn belt has experienced very favorable conditions for maturing the crop, which, with favorable weather will be safe from injury by October 1, in the more northerly districts. Much Corn is already safe, cutting being general in central and southern portions of the Corn belt, and is in progress as far north as South Dakota, and Southern Minnesota. Late Corn has suffered from drouth in portions of Ohio Valley and Middle Atlantic States.

ITEMS OF GENERAL INTEREST.

New York Exchange 5c discount.

Documentary Sterling easier at 483.

Chicago Bank Clearings to-day, $29,200,518.

Reported that 48,000 bu Corn were taken at the seaboard to-day for export.

Eastern roads have decided to grant transit privileges to Chicago shippers.

A Rosario cable to New York says: "Argentine Wheat acreage larger; prospects excellent."

Ten packers purchased 9,800 Hogs to-day; shippers, 4,000; left over, 4,000. Market closed weak.

Deliveries on September contracts to-day were 65,000 bu Wheat, 80,000 bu Corn and 60,000 bu Oats.

Estimated receipts for to-morrow. Wheat, 138 cars; Corn, 510 cars; Oats, 124 cars; Rye, 7 cars; Barley, 63 cars; Hogs, 23,000.

A crop expert, who is going over the Corn crop, says of the Kansas conditions: "One-third of the State has a small crop, with two-thirds a big crop."

Cotton in New York advanced on general buying, but weakened on the government crop bulletin, which was construed as "bullish." Closing sales were 9@13 points higher.

The receipts of Wheat at Liverpool during the past three days were 528,000 bu, of which 40,000 bu were American. Receipts of Corn, 203,000 bu, of which 168,000 bu were American.

Local Securities were fairly traded in, a greater number of stocks being handled. Prices were irregular. The best gain was in Quaker Oats, and losses in Oak Park Elevated preferred, Can and Chicago Telephone.

Houston, Texas, says: "Cotton picking will be over by Oct. 10. There is a scarcity of labor and rainy weather would do great damage in consequence. The general opinion is that the crops will only be a little ahead of last year."

Frost was reported Sunday night at Des Moines, Davenport, Charles City, Watertown, and Maquoketa, Iowa; La Crosse, Wis.; Duluth and the extreme north of North Dakota and Manitoba. Late Flax, Corn, and all tender plants suffered in the Dakotas, but no damage occurred in Iowa.

Stocks in New York were active, but mainly weak and lower. Granger Railway shares were affected by unfavorable crop conditions West and Northwest and lost ¼ to 1 point. Locomotive common advanced 2⅞ and reacted ½. All other Industrials were weak and lower. Coalers were weak and lost ½ to 1 point. Money 1 per cent.

The President of the National Board of Trade has appointed the following members as a Standing Committee of Inquiry concerning Agricultural and Commercial Statistics: Charles B. Murray, Cincinnati Chamber of Commerce; William S. Harvey, Philadelphia Commercial Museum; B. Frank Howard, Chicago Board of Trade; G. D. Rogers, Minneapolis Chamber of Commerce; J. C. Brown, New York Produce Exchange; William V. King, New York Cotton Exchange.

J. S. Bache & Co., of New York, a brokerage house which, it is alleged, sent out the Government figure on the Cotton crop in advance of their issuance by the Government, sent a telegram to Secretary Wilson, Monday, denying that they had advance information on the Government report, as charged by the Savannah Cotton Exchange, and asserting that their estimate was based on advices from their own sources. They offer to help the Secretary in any way they can to prove there is no leak.

Broomhall's weekly foreign crop summary says: "United Kingdom—Threshing returns confirm earlier reports of poor yields. France, Germany and Spain—Crop indications unchanged. Weather is generally favorable. Italy—Corn crop is turning out rather better than expected. Russia—Most ports are receiving good supplies; fall work has been helped by beneficial rains. Roumania—Abundant rains have fallen and plowing is being actively pushed. Receipts of Wheat are decreasing. India—Further rains have occurred since those of last Thursday. Argentine—It is predicted that Wheat shipments will decrease sharply in October as crop is almost exhausted."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—There is a better local and domestic demand, but foreign bids are still prohibitive.

WINTER WHEAT—Demand good on milling and speculative account. Feeling firm and 2@4c higher prices realized. Besides the car lots 75,000 bu mixed grades were taken by millers. No. 2 Red in store was quotably $1 15¾@1 18¾, or about the same as May, while car lots fresh arrivals were quotably $1 17@1 19. No. 3 Red fresh receipts free on board sold at $1 15, and at the river at $1 11. No. 4 Red fresh receipts sold free on board at $1 05@1 14, and at the river at $1 11. No. 2 Hard fresh arrivals free on board sold at $1 16, and was quotably $1 10@1 16 depending on quality. No. 3 Hard fresh arrivals sold free on board $1 05½@1 15 and at the river at $1 03½@1 11. No. 4 Hard fresh arrivals free on board sold at 98c@$1 09 and a sale at the river at $1 02. No Grade Hard sold at $1 00@1 05.

SPRING WHEAT—Was quiet for lack of offerings. Demand good for choice Wheat. Prices about 2c higher. No. 1 Northern fresh arrivals free on board quotably $1 18@1 20. No. 2 Northern fresh arrivals free on board nominally $1 14@1 17. No. 3 Spring was quotably $1 05@1 15 for ordinary to very choice, with a sale at $1 12. No. 4 sold free on board at 87@93c for common and ranged up to $1 08 for choice. Sales of 25,000 bu mixed grades made to millers were reported.

REGULAR WHEAT—The trade was of enormous proportions and market excited and broad. Sentiment leaned to the "bull" side from the start and under an urgent miscellaneous demand December sold to $1 16¾, and May to $1 18¾@1 18⅞. Various recessions followed, but the close showed gains of 3⅜@3½c. Offerings at the start were very moderate and initial trades varied 1c at the same time at the opening. The advance on the Minneapolis curb and frost predictions for the Northwest to-night was responsible for the stronger start. The steady advance at Minneapolis created a regular stampede among "shorts," but around $1 16¾ for December and $1 18¾ for May immense quantities of "long" property came out and upturn checked. Cables stronger and primary receipts 715,000 bu smaller than a year ago. Receipts in Northwest were 637 cars less than last year. Liverpool quoted spot 1@1¼d higher and futures 1⅛@1⅞d higher. London came 1⅛@1¼d higher. Paris was up ½@1c. Antwerp advanced ⅝c, Berlin ¼c and Buda Pesth ⅛c. Map showed very low temperatures in the extreme Northwest—22 at Calgary up to 46 at Winnipeg—and frosts were predicted for the Northwestern States. Stocks here in all positions reported 4,081,000 bu, an increase of 390,000 bu. Stock one year ago was 6,215,000 bu. Contract stocks decreased 60,367 bu, and now include 463,849 bu, against 2,500 357 bu the same time last year. Kansas City and St. Louis received 347,000 bu, against 618 000 bu one year ago. Receipts at Liverpool the past three days 528 000 bu and only 40,000 bu from America. Rosario, Argentina, cabled that the Wheat area was larger than a year ago and crop outlook excellent. Exports were small and no boat loads accepted at the seaboard. Minneapolis stocks were reported decreased 105,000 bu so far this week. Cash sales here were 100,000 bu. Receipts at Duluth 183 cars and at Minneapolis 231 cars, a total of 414 cars, against 508 cars yesterday, 849 cars a week ago, and 1,151 cars last year. Local receipts included 244 cars Winter, 8 cars Spring and 5 cars mixed, a total of 257 cars, against 138 cars last year. Included in the above were 6 cars of contract grade. There were 67 cars and 29,500 bu taken from unlicensed elevators. The estimated receipts for to-morrow are 138 cars. Withdrawals to-day were 23 300 bu. Receipts at Western points were 891,006 bu, against 1,606,365 last year. At Eastern points 60 611 bu, against 242,855 last year. Shipments from Western points were 658 315 bu, against 594,820 last year, and from Eastern points 7,200 bu, against 35,078 last year. Shipments of Flour were 17,321 brls. Exports of Wheat in Flour were equal to 85,144 bu.

Future Deliveries of Regular Wheat—Active and prices decidedly higher.

SEPTEMBER Old Style—Sold at $1 14½@1 16½. Opened at $1 14½, sold to $1 15, to $1 14¾, to $1 16½, to $1 16, and closed nominally at $1 16½.

SEPTEMBER—New Style—Sold at $1 11¾@1 14. Opened with sales at $1 11¾ to $1 12½, sold to $1 11⅝, to $1 12, to $1 11¾, to $1 13½ to $1 12⅝, to $1 13⅜, to $1 12⅞, to $1 14, to $1 12⅝, to $1 13⅛, to $1 13¼, and closed at $1 13¾.

DECEMBER—Sold at $1 14@1 16¾. Opened with sales at $1 14 to $1 14¾; sold to $1 14⅝, to $1 14½, to $1 14⅛, to $1 14⅞, to $1 14¼, to $1 16, to $1 14⅞, to $1 15¾, to $1 15⅛, to $1 16¼, to $1 15½, to $1 16¾, to $1 15⅞, to $1 16, to $1 15½, to $1 15⅞, to $1 15⅝, to $1 15¾, and closed at $1 15¾.

MAY—Sold at $1 15¾ and at $1 18¾@1 18⅞. Opened with sales $1 15¾ to $1 16¾; sold to $1 16, to $1 17, to $1 16¼, to $1 18, to $1 16⅞, to $1 17¾, to $1 17⅛, to $1 17⅞, to $1 17¼, to $1 18½, to $1 17¾, to $1 18¾@1 18⅞, to $1 17⅞, to $1 18⅛@1 18¼, to $1 17½, to $1 18⅛, to $1 17⅞, to $1 17⅞@1 18, and closed at $1 17⅞@1 18.

CORN—An immense trade, largely professional, however, the fluctuations covering 2⅛@2½c range. Higher prices were established, December selling to 54⅛@54¼c and May 53½c, and the advance pretty well maintained, the close showing 1⅝@2⅛c and 2c gain. The weather was the chief "bull" incentive, the prediction of frosts for Iowa, Nebraska, Missouri and Kansas causing "shorts" considerable alarm. Houses having representatives going over the West were the principal buyers, adding to lines already supposed to be large. Market was also helped by the advance in Wheat. Selling was mainly in the way of profit taking, and the offerings were quite readily absorbed. Receipts were 738 cars, with 510 cars estimated for to-morrow. Liverpool was ¼@⅜ higher for futures, while spot was unchanged to ¼d lower. Receipts there the past three days 203,000 bu, of which 168,000 bu came from America. Kansas City was up 1¾c at one time and St. Louis was 1¾c higher. Winona wired that 75 per cent of the crop in South Dakota was already out of danger of frost and crop large. The Government weekly crop bulletin "bearish." Italian crop was reported turning out better than expected. Western receipts were 970,000 bu; last year 999,000 bu. Shipments 365,000 bu and 821,000 bu, respectively. Local arrivals 771,000 bu and shipments 213,000 bu. Withdrawals here 358,000 bu and exports 26,000 bu. Stocks here in all positions were reported 4,293,000 bu, an increase of 520,000 bu. Stock year ago 5,002,000 bu. Contract stocks decreased 76,791 bu and are now 1,311,915 bu, against 2,309,225 bu one year ago. Shipping demand moderate and sales 75 000 bu. Car lots were in good demand and prices about 1½c higher. No. 2 sold 54¾c. No. 2 Yellow sold at 55@56c, and closed at 55¾c. No 3 closed at 54¼c. No 3 Yellow sold at 55½@55¾c and closed at 55½c. No 4 sold at 53@55, outside prices for Yellow.

Corn by sample—Was in good demand with the feeling much stronger. Prices anywhere from 1¼@1¾c higher. Offerings fair. Sales on track and free on board: No 4 sold at 52½@55¼c. No 3 at 54¼@55½c. No 3 Yellow at 55@56c. No. 2 at 55c. No. 2 Yellow at 56@56¼c. No. 3 White at 51@54¼c. Billed through: No. 4 at 52@54½c. No. 3 at 53@54¾c. No. 3 Yellow at 53¾@55c. No. 2 Yellow at 54¾c. No. 3 White at 53@53¼c. No 2 White at 53¼c.

Future Deliveries of No. 2 Corn—Active and stronger and closed 1⅜c to 2⅛c higher.

SEPTEMBER—Sold at 53½@54⅜c. Opened at 53¾c to 54c and sold at 54¼c, to 53½c, to 54¾c, to 54⅛c, to 54½c, to 54⅛c, to 54¼c, and closed at 54¼c asked.

DECEMBER—Sold at 52c and 54⅛@54¼c. Opened excited at 52c to 53⅛c, and sold at 53⅜c, to 52¾c, to 53c, to 52⅝c, to 54c, to 53⅝c, to 53¾c, to 53½c, to 54⅛@54¼c, to 53⅜@53½c, to 53½@53⅝c, to 53¼c, and closed at 53½c.

MAY—Sold at 51@53½c. Opened at 51c to 51⅞c, and sold at 51⅞@52c, to 51½c, to 52¼c, to 52⅝c, to 53⅛c, to 52⅜c, to 52⅝c, to 52½c, up to 53½c, to 52⅝c, and closed at 52⅝c bid.

OATS—Were actively traded in and advanced ⅝ to 1¼c and closed with gains of ¼c on September and ¾c on other months. The advance was in sympathy with other Grains and on active buying by "shorts" and a few local "bulls," who were increasing their lines. The advance was met at the top by liberal selling for profits and against cash purchases. Cash sales were 85,000 bu for shipment. Stocks in all positions increased 1,812,000 bu last week and are 9,116,000 bu. Contract stocks are 1,907,812 bu, an increase of 676,595 bu. Arrivals 210 cars, with 121 cars estimated for to-morrow. Withdrawals were 55,200 bu and seaboard clearances 28,000 bu. Car lots to go to store were ½@1c higher. No 4 White sold at 32c. No 3 White at 32½@33¼c. Standard at 33@33½c. No 2 White at 33¾c. Standard in store closed at 31½c.

Oats by sample were in good demand and advanced ½@1c. Offerings smaller and futures up sharply. Sales on track and free on board: No Grade at 31¾c. No. 4 at 29c. No. 4 White at 29@32¾c. No. 3 at 32c. No. 3 White at 31½@32½c. Standard at 32¾@33¾c. No. 2 White at 33½c. Billed through: No Grade at 30c. No. 4 White at 30¾@31½c. No. 3 White at 32¼@32¾c. Standard at 32¾@33¼c. No. 2 at 31c. At the river: No. 4 White at 30¾@31½c. No. 3 White at 31@31¾c. Standard at 32@32½c.

Future Deliveries of Contract Oats—Were higher, with increased trading.

SEPTEMBER—Rather slow. Sold at 31½@32c. Opened at 31¾c to 32c; sold to 31½c, to 31⅝c at close.

DECEMBER—Active. Sold at 32⅝@33¾c. Opened at 32⅝c to 32¾c, sold to 33¾c, to 33¼c at close.

MAY—Active. Sold at 35⅛@36⅛c. Opened at 35⅛c to 35¼c, sold to 36⅛c, to 35¾c at close.

RYE—The market was firm and prices 1c higher. There was a good demand both for cash and futures and offerings light. There were 15 cars inspected and 10 cars withdrawn from private warehouse. No export clearances from New York. No. 2 in store nominally 74½c, and fresh arrivals free on broad sold at 75½@76c. No. 3 fresh receipts free on board sold at 75c.

Future Deliveries of No. 2 Rye—In good demand and offerings light. Prices 1@1½c higher. September closed 74½c bid and 75c asked. December sold at 76c and closed at 76½c bid and 77c sellers. May 78c bid and 80c sellers.

BARLEY—Continued to rule steady. Demand for choice Barley was good; common to good was salable at former prices, although the demand was not at all urgent. To-day's postings showed 90 cars inspected in, most of which graded No 3 and No. 4. Values ranged as follows: Screenings at 32@40c for common to very choice. Poor, thin, badly stained or dirty, feed Barley, quotably 37@39c. Low grade malting, dirty, small berry, poor color, 40@43c. Fair to good color, depending on weight and other conditions, ranged at 41@48c. Higher grade, or choice, ranged at 49@51c. Fancy quotable up to 54@55c.

SEEDS—Flax Seed was firm for cash and higher for futures. Cash Timothy was steady. Futures were steady and active. Clover ruled easy to a shade lower.

Timothy—There was a good business done in cash Seed at former prices. Futures were active and about steady. September delivery sold at $2 95 and closed at $2 95 sellers and $2 92½ bid. For October $2 80 was bid and it was offered at $2 85. January received bids of $2 90 and there were sellers at $3 00. March sold at $3 00, down to $2 97½ and closed with $3 02½ bid and $3 05 sellers. Cash Seed was quotable as follows: Fair to good country lots quotable at $2 35@2 45; high grade or choice $2 50@2 60, and fancy up to $2 75@2 90. Dark and dirty or badly hulled about $2 00@2 30, depending on quality.

Flax—Was steady for cash Seed and a shade higher for future deliveries. The volume of business transacted was very small. Receipts were 13 cars at Minneapolis, 11 cars at Duluth and 10 cars or 9 000 bu here. There was none taken from store. No 1 Northwestern or No 1 from the Northwest sold at $1 28. No. 1 was salable at $1 20, and Rejected ranged at $1 16@1 20 as to quality. September sold at $1 21, which was 1c higher than yesterday. December was offered at $1 21.

Clover—Offerings of cash Seed to arrive were reported as liberal and on this account there was an easy feeling. Nothing done in either cash or futures on the open market. October delivery $11 50@11 65. Contract spot Seed was quotably about $11 50@11 65. Country lots, common to choice, $9 00@11 50; fancy above. Fair to good, $10 00@11 25.

HOG PRODUCTS—Trade was only fairly active in Hog Products. Outside orders were moderate and local trading was fair. Offerings were not very large, and a moderate inquiry prevailed. The undertone to the market was stronger, mainly in sympathy with the strength displayed in the Grain markets. Receipts of Hogs were fair, and prices ruled lower, but this feature had little effect on the market. "Shorts" bought moderately. Prices ruled slightly lower at the opening, but rallied considerably all around and closed comparatively steady at nearly outside figures. Trading chiefly in October and January contracts. Receipts of Hogs at the leading Western packing points were estimated at 54,100, compared with 43,000 one year ago. Foreign markets were quiet, and Backs were quoted 6d lower. Domestic markets steadier. Receipts of Products were liberal—of Lard and Meats 29 cars. Shipments were good—of Lard and Meats about 130 cars. BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Sept. 8.]

Wheat—The local markets continue quite active, and heavy sales reported daily from every section of the Northwest. Farmers are satisfied with prices offered, and as soon as Wheat is warehoused are ready to sell. This is little different than in former years When farmers once established harvesting they would go to town and wait until the price would come up to that of thinking. The original demand for Wheat for shipping from Walla Walla West miller, and some heavy sales have been reported to go East. This is about the first time in the history of the Grain trade that Chicago prices have been used to regulate the markets here. For the past ten years we have shipped annually from 500,000 bu to 1,500,000 bu of Wheat for cereal millers, and this only in car load lots; now the scene is going in with the shipping the amount of Wheat is going from Umatilla County, Oregon, and Walla Walla and some sections of the Palouse country in Washington. Offers coming from Liverpool are not satisfactory to the exporter, and he can make more money in accepting Eastern prices; unless a change is manifested abroad very little Wheat will be exported to the United Kingdom, as the shortage East can take all we can spare. California buyers are purchasing quite heavily, and some large orders have been recently placed for early shipment for that State. The threshing of Winter Wheat is about three-fourths completed The yields appearly very from a little below average to 40 bu per acre, according to locality. The quality is good, but the berry is smaller than usual, owing to hot dry weather. In Idaho reports of showers have fallen lightly in harvesting, and no rain of any has been injured in Eastern localities by frosts occurring at the close of the previous week. The yield of Grain in Northern Idaho promises to be somewhat disappointing, owing to hot weather during the filling period. The general yield of the crop will be above average We quote club Wheat 85c. and valley 86c per bu.

Flour—With the salting of the several steamers the past week, the last of the heavy demand for Flour placed some time ago has been dispatched, and from out on the trade for time being will have to be confined to China, as there is no doubt that Japan has more Flour on hand (with the large stocks to arrive in the next three weeks) that will enable her to get along for some time to come. The import duty that takes effect on Oct. 1 will not be obtained on Flour shipped the past week, but whatever is sent from now on will have to pay duty on the basis of 32c per barrel. Millers are busy on orders to other countries as well as to California, where the demand is also very good. The Export market can not be termed very good, the erratic movements of Wheat cause a sort of demoralization. Flour prices are unstable and unsettled and millers have to be very careful in accepting orders Another new departure with the trade was the demand for Flour to be shipped east, and evidently considerable north coast Flour will go that way this season. Orders are coming in freely from South America, and there will probably be a better trade for Northern mills with that country owing to the short Wheat crop in California's millers there will be compelled to buy Northern Wheat and will become a direct competitor with the mills up north for that trade. We quote export brands $4 65@4 80 per barrel Straights for local use $3 60 to $3 80, and Patents $4 25 to $4 50 per barrel

THE HOP SITUATION.

[New York Producers' Price Current, Sept. 10.]

In New York State Hop picking still continues, but we regret to state that in some sections weather the last few days has been unfavorable to Hops, and both vermin and mold have appeared; this will damage the crop on the poles and may reduce the quantity. Some estimates are already being cut down. Buying in the interior up to this time has been active and prices fully maintained, but dealers are now acting more cautiously, and are less disposed to purchase yards of the crop at relatively picked. Picking in California is well advanced In Oregon the harvest started heavily on the 5th, but it is claimed that the crop will not all be picked before the end of the month Washington is also picking freely. Reports as to quality from all three States are quite satisfactory. Early samples from Utah are fine. Advices from Europe are less figure as to the yield on the Pacific Coast remain unchanged at this writing. Reports from England are as encouraging as previously reported, and we think the crop will more likely to be cut still further. Some of the cable advices now place the crop at 350,000 cwt. Germany has commenced picking and the crop is reported to be matured 370,000 cwt, against 427,000 cwt last year. The tone of our local market has continued very firm, and a decidedly strong feeling seems to pervade the trade, which is showing more interest, but naturally large quantities can not as yet be handled. Dealers are securing stocks in the interior and are paying full former prices.

THE WEATHER CONDITIONS.

Very low temperatures in extreme Northwest-Canadian territories 32 at Calgary up to 46 at Winnipeg. Northwest States cooler. West, Southwest and Ohio Valley warmer. Rains general in Manitoba, Iowa, and raining now in Missouri Valley and Southwest

Weather indications are for frosts extending down into Kansas and Northwestern Missouri These will be heavy in Minnesota and Dakotas and light in Kansas Warmer weather generally predicted for to-morrow

ITEMS OF GENERAL INTEREST.

The stock of Wheat at Bristol on Sept. 1 amounts to 1,063,284 bu, compared with 1,045,800 bu Aug. 1 and 1,165,344 bu Sept. 1, 1903.

The New York, New Haven and Hartford Railroad Company has declared the regular quarterly dividend of 2 per cent, payable Sept. 30, to holders of record Sept. 15.

The Union Bag and Paper Company has declared the regular quarterly dividend of 1¾ per cent on its preferred stock, payable Oct. 15 Books close Sept. 20. Reopen Oct. 17.

Thirty-five mills and furnaces of the Republic Iron and Steel Company will reopen Sept. 12. 30,000 employes agreeable to a 10 per cent cut in wages as decided by conciliation board.

Corn Trade News, of Sept. 2, says: "Our correspondent at Odessa reports that the Wheat crop of the Crimea has turned out nearly an average as to quantity, but of very good quality."

During month of July, Italy imported 2,938,000 bu Wheat, and in the twelve months ending July, the net total was 28,338,000 bu. In the previous season there was a net import of 49,168,000 bu, and in 1901-2, 35,2-0,000 bu were received.

Interests close to the management of American Smelting and Refining Company state that on Wednesday will show an increase of $1,300,000 in net earnings, and the net earnings for July and August are at the rate of $10,000,000 per annum.

The interest dominant in the Grain and Provisions favor a policy, the result of which would be that the convertible 4 per cent bonds would be paid off at 102½ after May 1, 1905. As part of this policy it is probable that the dividend rate will also be advanced from a 4 per cent basis for one and a half to two years.

Corn Trade News of Sept. 2 says: "Regarding the Wheat crop of France, our correspondent at Nantes writes that there is a deficit of 30 per cent compared with last year's heavy yield, estimates having been reduced from time to time accordingly. Oats also have given a smaller yield, and Buckwheat is very short."

A crop expert, in his report on the crop, says: "Aside from the Pacific coast states and a few places in the eastern valleys, Kansas Corn is matured. Dry weather after the middle of July shortened the ears and cob tips are unfilled. Husking will be disappointing. The crop of the State is not over 130,000,000 bu, or 40,000,000 bu less than last year."

The American Ship Building Company has received its first order in the annals of the year. A new freighter of 6,000 tons capacity, to be built of Steel and costing $325,000, has been placed by Cleveland parties with the company. The orders thus far received for new vessels aggregate a total of almost $1,200,000. Officials of the company say there are a large number of other orders pending there.

The report that the United States Ship Building Company, Thursday, would be in a receiver, and at public auction at Newark, N. J., the plants of the Crescent company and Daniel L. Moore & Sons company, have been being bought by William Nelson Cromwell, acting for George R. Nicholson, chairman of the reorganization committee The price paid was $650,000 for the Crescent company and $250,000 for the Moore company.

The New York *Evening Post* says: "If an attempt now being made to fund the coupons on the $ 56,500,000 4 per cent first mort. bge bonds of the Chicago Rock Island & Pacific Railway Co. is unsuccessful a receiver will, it is expected, be appointed for the property. The United States Trust Company of New York, A. Steuart are trustees for the single mortgage issued in 1877 on all property owned and to be acquired."

The new rail orders secured by the United States Steel Corporation have come from two roads in the Southwest and from one in the East. The order from the latter is said to be one that should have gone, under ordinary circumstances, to the Colorado Fuel & Iron Company, but the latter was not able to promise delivery as early as the specifications called for The total new orders are estimated at 300,000 tons, all of which will be rolled at the mills of the Steel Corporation.

The recent orders issued by the Pennsylvania Railroad to increase the working hours and pay have been put in force in Philadelphia and Altoona will affect 20,000 employes. The orders call for ten hours a day for five days and five hours on Saturday, which will be an increase of about twenty hours a week employed each week working man. A great many locomotives need to be overhauled, and there is much repairing to be done to freight cars.

According to the estimate of the Melbourne *Argus*, the surplus of Wheat available from last crop for shipment equalled 45,780,000 bu. Of this quantity 23,782,000 bu have already cleared for the United Kingdom direct and for orders. 320,000 bu for the Continent direct, and about 6,400,000 bu for South Africa and other customers, leaving nearly 16,000,000 bu to be accounted for. Farmers are willing sellers, being encouraged to market the balance of the crop by higher prices and favorable weather.

Pennsylvania lines west of Pittsburg are showing very satisfactory results in both freight and passenger traffic. The former is making steady gains in miscellaneous matter, and there is a tremendous flow of Coal. There is, however, only a moderate gain in shipments of Iron and Steel products All passenger trains are running very full Officials feel much encouraged over the outlook and look for a heavy increase in business before winter sets in. The various shops have started up on full time, and hundreds of men have been re-employed.

The election of Edward T. Jeffrey, president of the Denver and Rio Grande Railroad, as a director of the Western Pacific company is regarded as the strongest evidence that the Gould system is to be handed from the Atlantic to the Pacific Coast as soon as possible. The latter company was organized to build a line from Salt Lake to San Francisco, with branches in California. So far $2,500,000 has been spent in the Canyon where cuts down the mileage of the Harriman lines. The Western Pacific Company has already acquired valuable terminals in San Francisco and other cities in California.

Contrary to the general impression, E. H. Harriman is not the heaviest holder of Terminal stock. On the contrary, he has little or none of it. When he bought the Chicago, Terminal and Quincy Railroad, to prevent it from being extended to Chicago and become a competitor of the Illinois and Illinois Central road, he was obliged to assume a lease made by the former concern of the Terminal company's facilities here for $100,000 annually for a period of ten years. In order to avoid paying that amount for nothing, Harriman bought a controlling interest in the Terminal. Then he voted to cancel the lease under which he would have to pay the sum of $1,000,000. After this dispute of the Gould-Quincy road commenced selling his Terminal stock. It is stated that a majority is now held by a Chicago capitalist.

The *Times of India* of Aug. 13 says: "The position generally is satisfactory, although there is no doubt that more rain is required in Gujarat, Kathiawar and Rajputana, more especially in the former province the prospects are quite promising, more rain is required, but on the whole conditions there are favorable and all crops are doing well. Mooltan reports slight damage to the Cotton plants owing to lack of moisture. Good Grains in that district are also suffering from want of rain. In Kandesh weather conditions have shown considerable improvement since last week. From the Berars all reports are good. Akras and Cawnpore have had more than their full share of rain, and the cry from those parts is for fine weather. Generally the position throughout is quite satisfactory crop reports are favorable, and with Gujarat as an exception, prospects are good."

The Chicago *Inter Ocean* says: "The reports of the condition of the Chicago banks show a gain in business Sept. 6 and the opening of business Sept. 7 were a surprise to local financial people in the large increase in deposits and cash means shown. It was generally expected that the State banks would show a moderate gain in deposits since June 15, although the figures reported then were the highest ever reached up to that time. But few thought that the next statement would also report large gains in deposits over June. This gain reported by the National banks is the more interesting since the banks are considerably lower in deposits than a few weeks ago, when the demands from the country for currency to move the crops began. If the call had come three weeks earlier it is probable that the aggregate deposits of the Chicago banks would have been nearly above $ 5,000,000. Early last year the $ 560,000,000 mark was crossed for the first time. In the last five years the deposits of Chicago banks have grown over 175 per cent. They have doubled since 1897."

The Bombay *Price Current* of Aug. 12 says: "Reports in hand during the past week regarding weather conditions have been satisfactory from all districts with the exception of the Punjab. Light soaking rain has fallen, which has proved beneficial to the growing crops generally Cotton While the average rainfall to date shows a large deficiency over a great portion of the country, the monsoon has been fairly well dispersed, and the general tone of advices received is free from signs of complaint about the condition of the crops. In the United Provinces the rainfall has been heavy and fine weather is wanted. From the Central Provinces, Berars, Khandesh, Gujarat, and parts of Kathiawar good rain is reported this week, and as the sky was cloudy and the weather cool all crops are progressing favorably. From the Southern districts also the same reports are forwarded. In the Punjab, however, rain is urgently needed, and on the unirrigated land the crops are suffering. Sowings of Rabi are general, the inquiry for export is only moderate and little business is reported. Wheat is firm, and a large export trade from Karachi is still in active progress."

AVAILABLE STOCKS OF BREADSTUFFS.

On the second page of this issue of the DAILY TRADE BULLETIN will be found an interesting statement of the Breadstuffs supply in Europe, America and Argentina on September 1. It is very complete. It includes the European and Argentina stocks as collected by Broomhall's *Corn Trade News*, Liverpool, a portion of the visible supply as compiled by the Secretary of the Chicago Board of Trade, the stocks in the Northwest collected by the Minneapolis *Daily Market Record*, returns from about forty points (including Denver and Pittsburg) estimated, with balance of report collected and compiled by the DAILY TRADE BULLETIN.

NORTHWESTERN WHEAT CROP.

On the third page of this issue of the DAILY TRADE BULLETIN will be found an estimate of the Wheat crop of the Northwest. The returns of the average yield were almost exclusively from our correspondents, and where two or three reports were received from one county, the average of them was used in making the aggregate estimate.

ITEMS OF GENERAL INTEREST.

New York Exchange 20c discount.

Documentary Sterling steady at 483.

Chicago Bank Clearings to-day, $30,333,369.

No export business at the seaboard to-day.

Ten packers purchased 11,200 Hogs to-day; shippers, 5,000; left over, 5,000. Market closed weak.

Deliveries on September contracts to-day were 35,000 bu Wheat, 450,000 bu Corn and 100,000 bu Oats.

Estimated receipts for to-morrow. Wheat, 58 cars; Corn, 436 cars; Oats, 100 cars; Rye, 3 cars; Barley, 66 cars; Hogs, 21,000.

Exports of Corn from the United States during August were 3,094,500 bu, compared with 2,086,000 bu in July, and 3,190,000 bu in August, 1903.

Minneapolis millers have advanced Flour 40c a brl the past two days. The price on standard Patents is $6 60, the high mark of the season.

The exports of Flour and Wheat from the United States during August were equal 4,091,400 bu compared with 3,212,000 bu in July, and 11,933,600 bu in August, 1903.

Local Securities were irregular, with moderate trading. Can preferred was a feature, advancing 2¼ and reacting fairly. City Railway had a good break, and Union Traction common advanced 1 point.

Cotton in New York advanced on heavy trading, public interest being greater. On the advances, heavy realizing was a feature, but offerings were well taken, the South and Europe buying. Closing sales were at gains of 25@28 points.

The Tacoma Grain men are discussing the plan of establishing a Board of Trade which will be strictly a Grain Exchange, where the dealers of the Pacific Northwest may buy and sell their holdings. A future market is included in the present plans.

Discussing frost and its effect on Corn, Director Sage, of the Iowa crop bulletin, says: "I never knew a Corn crop to be benefited by frost—that is, if the Corn had been allowed to mature with dry weather without frost it would have been better than to have the light frost touch it before maturing."

Stocks in New York were active and advanced. Frost damage reports from the Corn belt had little effect. Western Railway shares advanced ⅝ to 1⅜. Eastern Railways gained ⅞ to 1⅜ points. Industrials were up 1 to 2¼, the latter on Steel preferred, and Coalers advanced ½ to 1½. Money 1 to 1½ per cent.

Bradstreet's report of the available supply for the past week shows the following changes:

	1904. bu.	1903 bu.
Wheat east of Rockies	Inc. 569,000	Inc. 1,013,000
Europe and afloat	Inc. 2,300,000	Inc. 5,000,000
Total	Inc. 2,869,000	Inc. 6,043,000
Corn	Inc. 1,582,000	Inc. 1,026,000
Oats	Inc. 3,159,000	Dec. 222,000

A Grain judging contest is to be a feature of the Fat Stock Show at the Stock Yards in Chicago in November. It is under the auspices of the National Grain Dealers' Association. The desire is to induce the farmers to send samples of Grain and to test their knowledge of qualities and conditions of Grain. They desire to improve the quality of seed Corn used by farmers. A committee is to have charge of exhibits who are competent Grain men. They will pass upon all contests and award prizes for the best decisions.

An Iowa Grain dealer, who has been over the State, wired, Tuesday, that the Corn will require most of September to get the largest part of it matured and out of the way of serious frost damage with good, dry, warm weather. In the Northern part of Iowa Corn looks well, but is green and needs two weeks without frost. Other estimates are that 50 to 60 per cent is out of the way of a hard frost, and for the entire Corn belt 50 to 75 per cent. A freight official of the Burlington Road said 90 per cent of the Corn along that system was sufficiently matured so as not to be hurt by frost. He also said, frost or no frost, there will be more Corn along the Burlington Road in Iowa than there was last year.

Chicago shippers have secured part of the concessions asked for from the Central Traffic Association. Recently the transit privileges were withdrawn, which placed shippers at a disadvantage. Without transit privileges millers and shippers here cannot compete with those at Mississippi or Missouri River points. The following notice was sent out from the Traffic Association: "That we accord transit privileges on shipments of Wheat originating at Missouri River points or beyond, destined to Central Freight Association points, subject to a minimum of 60,000 lbs per car, with the understanding that the payment of switching and transfer is to be left to the option of each individual road."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand steadily improving on local and domestic account and feeling firm. Standard Patents now quoted at $6 80.

WINTER WHEAT—Trading light and market quiet for lack of offerings. Not much Wheat on sale to-day, there being only small receipts. Demand good on milling and speculative account, and some sales show 1c advance, but the closing was weaker. No. 2 Red in store quotably $1 16@1 18¼, and fresh arrivals free on board quotably $1 17@1 19. No. 3 Red fresh arrivals sold free on board at $1 14½@1 16, with ordinary samples less. No. 4 Red sold at $1 06@1 13. No. 2 Hard fresh arrivals free on board nominally to-day $1 12@1 16—no sales made. No. 3 Hard fresh receipts free on board sold at $1 0 @1 06, with choice quotably $1 12@1 15, and sold at the river at $1 06. No. 4 Hard sold at $1 03. No. 3 White sold at $1 15.

SPRING WHEAT—Was quiet for lack of offerings. Demand good for choice Wheat. Market was firm. No. 1 Northern fresh arrivals free on board quotably $1 22. No 2 Northern fresh arrivals free on board nominally $1 18@1 20. No. 3 Spring was quotably $1 10@1 18 for ordinary to very choice, with a sale at the river at $1 15. No 4 sold free on board at 85c for common and ranged up to $1 06 for good and $1 15 for choice.

REGULAR WHEAT—A large trade and active, sensitive market, with final figures showing 1½c to 1⅞@2c decline. Early the tone was weaker under general selling, chiefly in the way of liquidation and profit taking, prices selling off. May touching $1 16¼. Later, there was a recovery to $1 18¼. Realizing again set in, causing decline to $1 16. Early break was due partially to the decline at Minneapolis and the disappointing English cables, which failed to display any undue anxiety over the situation on this side. Buying on the break led by the Southwest brought about a change in sentiment, the rally in Corn also being a strengthening factor. Many of the early sellers covered and the upturn was quite rapid, and the decline later was equally quick. Liverpool quoted spot unchanged to 1d higher and futures down ⅛@⅜d in the face of the rise on this side yesterday. London came ½@¾d higher. Paris was ½c higher and Antwerp up ⅝c. Berlin ¾c higher and Buda Pesth up ⅜c. *Broomhall* cabled: "Argentine private cable says Wheat supplies are very small, with offerings from first hands is dearer." London quoted cargoes off coast firm with a good Continental inquiry. The threshing reports from the Northwest were mixed. Blanchard, N. D., wired: "Of 160 acres of Wheat heaviest I had averaged 8 bu, rejected 47 lbs; 40 acres 6½ bu, 45 lbs; 113 acres 10½ bu, rejected 50 lbs." Kelso, N. D., wired: 'Just finished threshing 240 acres; got 1 200 bu rejected Wheat." A reliable banker and elevator man wired from one of the best Wheat districts of South Dakota as follows: "This Wheat here is worse than we ever thought. There is nothing in 75 per cent of it and people are just beginning to find it out. Day County will not have enough suitable Wheat for bread and seed. You do not realize the situation." Largest milling concern in Canada wired: 'Reports of damage to the Manitoba crop from frost are absolutely false; practically all cut last week and beyond danger; telegrams to-day confirm our previous estimates; threshing returns from various sections show better than expected, both as to quality and quantity." Primary receipts were 177,000 bu smaller than a year ago and Northwest cars were 333 less. Kansas City and St. Louis received 311,000 bu, against 314,000 bu one year ago. *Bradstreet's* available increased 2,869,000 bu, against 6,043,000 bu one year ago. Minneapolis stocks decreased 265,000 bu past four days. Receipts at Duluth 85 cars and at Minneapolis 252 cars, a total of 337 cars, against 414 cars yesterday, 376 cars a week ago, and 670 cars last year. Local receipts included 122 cars Winter, 9 cars Spring and 1 car mixed, a total of 132 cars, against 99 cars last year. Included in the above were 1 car of contract grade. There were 19 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 58 cars. Withdrawals to-day were 74,600 bu. Receipts at Western points were 999,157 bu, against 1,175,976 last year. At Eastern points 25,758 bu, against 193,087 last year. Shipments from Western points were 368,621 bu, against 414,034 last year, and from Eastern points 8,260 bu against 144,873 last year. Shipments of Flour were 11,544 brls. Exports of Wheat in Flour were equal to 55,108 bu.

Future Deliveries of Regular Wheat—Moderate trade and prices lower.

SEPTEMBER-Old Style—Entirely nominal and closed at about $1 11⅝.

SEPTEMBER—New Style—Sold at $1 11½@1 13½. Opened with sales at $1 13 to $1 12¾; sold to $1 11½, to $1 13½, to $1 12, to $1 11⅝, and closed at $1 11⅝.

DECEMBER—Sold at $1 14@1 16¼. Opened with sales at $1 15¼, to $1 14¾; sold to $1 16, to $1 14⅝, to $1 15, to $1 14, to $1 15⅛, to $1 14⅝, to $1 16¼, to $1 14⅝, to $1 16, to $1 14, to $1 14⅜, to $1 14, and closed at $1 14 bid.

MAY—Sold at $1 16@1 18¼. Opened with sales at $1 17 to $1 17⅝; sold to $1 17, to $1 17⅞, to $1 16⅛, to $1 17½, to $1 17, to $1 18¼, to $1 17⅝, to $1 18¼, to $1 16½, to $1 17⅛, to $1 16, to $1 16½, to $1 16, and closed at $1 16 bid.

CORN—Was fairly active, with a good trade. The feeling was quite unsettled and prices irregular, closing ⅜@½c to ½c lower than yesterday. Realizing and profit-taking was the feature around the opening, the selling being led by locals. Cables were weak and Wheat lower, both "bear" influences, and receipts were heavy, 1,082,000 bu, against shipments of 282,000 bu. "Shorts" took advantage of the decline to cover and a quick reaction followed. Flour traders evidently over sold, and on buying by professional and the Southwest, the situation turned stronger, but again sold off in sympathy with Wheat. The map showed killing frosts in South Dakota and Nebraska and light frosts in Concordia, Kans.; rains in Iowa, Illinois and Missouri and Ohio Valley. Fair frost and cooler to-night; warmer Thursday for Iowa, Missouri Illinois and Nebraska. Liverpool quoted spot steady to ⅛d lower and futures off ⅝d in face of the gain on this side yesterday. Receipts were 550 cars, against 3.3 cars last year, and 436 cars are estimated for to-morrow. The *Orange Judd Farmer* estimates the maximum crop 2,750,000,000 bu, but claimed that the estimate might be reduced by frost if severe enough to be killing by October 1. Iowa crop bulletin was quite favorable. *Bradstreet's* available increased 1,582,000 bu, against 1,026,000 bu increase one year ago. Primary receipts 1,218,000 bu, last year 993,000 bu. Shipments 391,000 bu and 366,000 bu. Withdrawals 248,000 bu, and exports 18,000 bu. London quoted cargoes on passage held 3d higher. Shipping demand moderate and sales 75,000 bu. Car lots were quoted in good demand and prices steadier. No. 2 closed at 54c. No. 2 Yellow sold at 55¾c, and closed at 55¼c. No. 3 sold at 54@54¾c, and closed at 53¾c. No. 3 White sold at 54⅛c. RYE Was firm and prices ½@1c higher early, but closed with the advance lost. Moderate trading. Receipts six cars. There were withdrawn from private warehouses five cars. No export clearances from the seaboard. No. 2 in store about 71@72c, and fresh receipts sold at 76@76½c.

Future Deliveries of No. 2 Rye—Moderate trading. Prices ½@1c higher early, but closed weaker. September sold at 75c and closed at 74c bid and 75c sellers. December sold at 76@77c and closed at 7 0 bid and 75½c sellers. May sold at 78½c and closed at 78½c bid.

BARLEY—Was steady to firm for all grades. Demand was good and offerings only moderate. All grades of Barley were salable. To-day postings showed 46 cars inspected in and all but a very few cars graded No. 3 and No. 4. Screenings quotable at 32@40c for common to very choice. Poor, thin, badly stained or dirty, feed Barley, quotably 37@39c. Low grade malting, dirty, small berry, poor color, 40@43c. Fair to good color, depending on weight and other conditions, ranged at 44@48c. Higher grade, or choice, ranged at 49@51c. Fancy quotable up to 54@55c.

SEEDS—Timothy was steady. There was a good business done in cash Seed. Flax was weak and 1c lower. Clover was unchanged.

Timothy Was steady for both cash and future deliveries. There were liberal offerings of cash Seed, most of which was ordinary to good in quality. Futures were steady, but there was no trading. September was offered at $2 95. October was nominally $2 85. For January $2 90 was bid. March was offered at $3 10 and $3 00 was the best bid. Cash Seed was quotable as follows: Fair to good country lots quotable at $2 3 @2 45; high grade or choice $2 50@2 60, and fancy up to $2 75@2 90. Dark and dirty or badly hulled about $2 00@2 35, depending on quality.

Flax—Was 1c lower for both cash and future deliveries. A few cars of cash Seed were sold, but nothing was done in futures. There were reports of frost in the Dakotas, but this had no effect on the market. Receipts were 34 cars at Minneapolis, 1 car at Duluth and 7 cars or 6,300 bu here. The local output was 1 car or 1,280 bu. No 1 Northwestern or No. 1 from the Northwest was salable at $1 27. No. 1 was sold at $1 19. Rejected was quotable at $1 15@1 24 as to quality. AVAILABLE SUPPLY OF BREADSTUFFS.

EUROPE AND AMERICA.

Compiled by Broomhall's Corn Trade News, Chicago Daily Trade Bulletin, and Minneapolis Market Record.

Foreign Supplies of Breadstuffs.

According to the special cablegram from Broomhall's *Corn Trade News*, Liverpool—correspondent of the Chicago Board of Trade, and regarded as the leading commercial authority in Europe—to the DAILY TRADE BULLETIN, the supplies of Breadstuffs—Flour and Wheat—in second hands in store in the principal countries of Europe, in Argentina, and afloat for Europe on September 1, 1904, exhibited an increase equal to 3,354,000 bu during August, compared with a decrease of 10,712,000 bu during July, and an increase of 6,520,000 bu during August, 1903. The aggregate quantity of Breadstuffs afloat for Europe on September 1, 1904, exhibited an increase of 190,000 bu during August compared with a decrease of 6,470,000 bu during July, and an increase of 2,110,000 bu during August, 1903. Supplies en-route to the United Kingdom were enlarged 1,510,000 bu, those for the Continent increased 890,000 bu, and those "for orders" reduced 2,210,000 bu. The aggregate supplies afloat for Europe September 1 1904, were 11,240,000 bu larger than reported one year previous, and 10,-990,000 bu larger than reported two years previous. During August, 1904, the aggregate supplies in store in the principal countries of Europe were reduced 3,500,000 bu, compared with a decrease of 4,690,000 bu during July, and an increase of 6,520,000 bu during August, 1903. Stocks in the United Kingdom were reduced 720,000 bu, those in France were enlarged 290,000 bu, those in Germany, Belgium and Holland increased 260,000 bu, those in Russia enlarged 5,940 000 bu, and those in other portions of Europe increased 2,730,000 bu. Stocks in Russia were reduced 1 550,000 bu during July, and increased 3,290,000 bu during August, 1903. Supplies in store in Russia are about 4,350,000 bu more than those reported one year ago, and 6,900,000 bu more than reported two years ago. The aggregate stocks in store in Europe on September 1, 1904, were 10,920,000 bu more than reported one year previous, and 21,-960,000 bu more than reported two years previous. Compared with the returns of one year ago, the supplies of Breadstuffs in store and afloat for the United Kingdom on September 1, 1904, were 3,700,000 bu more, those for the Continent 9,640,000 bu more, and those "for orders" 3,820,000 bu more. The aggregate supplies of Breadstuffs credited to Europe in all positions on September 1, 1904, were 22,160,000 bu more than reported on September 1, 1903, and 32,950,000 bu more than on September 1, 1902. Advices from Europe indicate little change in crop conditions in that quarter, excepting in Russia, where a slight improvement in Wheat is reported, and virtually confirmed by the liberal shipments reported weekly, and the increase in stocks on hand reported during the past month. Wheat crop of the United Kingdom will be moderate, and the quality not very satisfactory. In France, the Wheat crop will probably be about 15 per cent less than last year. In Germany, the outturn was only fair, and in Austria-Hungary was lighter than for some years past. In Roumania, the crop of Wheat was moderate. In other countries, the yields were generally below those of last year. Farmers appear to be free sellers of Wheat where there is any surplus—the advance in price being an inducement. Outlook for the growing Wheat in Argentina and Australia is quite good. India is still shipping Wheat quite liberally.

Domestic Supplies of Breadstuffs.

The aggregate supplies of Breadstuffs—Flour and Wheat—in the United States and Canada, on September 1, 1904, as compiled by the DAILY TRADE BULLETIN and the Minneapolis *Market Record* exhibited an increase during August equal to 5,471,000 bu, compared with a decrease of 1,463,000 bu during July and an increase of 4,051,000 bu during August, 1903. The increase was mainly in Wheat, and exclusively in the Winter Wheat sections, more particularly in the Southwest. In the Spring Wheat sections and in Canada, supplies were materially reduced. Supplies of Flour in the United States and Canada exhibited very little change during August—an increase of only 3,000 brls, compared with a decrease of 111,000 brls during July, and a decrease of only 15,000 brls during August, 1903. Supplies were reduced considerably at the Atlantic seaboard markets and slightly in some sections of the West, but enlarged somewhat in the Southwest and in the Spring Wheat sections. Manufacture not very large, but slightly improved. Millers cautious owing to the advance in prices of Wheat. The following table exhibits the stocks of Flour in some of the principal markets of the United States on the dates named:

Cities—	Sept. 1, 1904. Brls.	Aug. 1, 1904. Brls.	Sept. 1, 1903. Brls.
Philadelphia	135,000	160,000	55,000
New York	54,300	72 800	71,100
Chicago	80,150	80,750	84,000
St. Louis	35,800	30,200	52,460
Toledo	4,000	4.000	3,000
Baltimore	87,000	86,000	89,000
Detroit	12.000	7,000	6,000
Boston	40,320	67,979	68,688
Milwaukee	50,570	56,100	48,450
Duluth	200,000	248,000	202,000
Total	608,140	712,839	574,698

Stocks of Flour at these points were reduced 104,689 brls during August, compared with a decrease of 94,371 brls during July, and a decrease of 34,318 brls during August, 1903. The aggregate supplies of Flour at these markets on September 1, 1904, were 33,442 brls more than reported one year previous. Stocks of Flour at the Atlantic seaboard markets on September 1, 1904, were 275,820 brls, compared with 336,779 brls on August 1, and 238,786 brls on September 1, 1903. The aggregate supplies of Flour in all positions on September 1, 1904, were 140.000 brls more than reported one year previous, and 13,000 brls less than reported two years previous.

During the month of August the supplies of Wheat in the United States and Canada were enlarged 5,457,000 bu, compared with a reduction of 963,000 bu during July, and an increase of 4,118,000 bu during August, 1903. Supplies were enlarged generally in all the Winter Wheat sections, and materially reduced in the Spring Wheat districts and Canada. Quite a liberal movement in the Southwest. Farmers selling moderately through the West. Supplies in the Northwest were reduced 2,861,000 bu, compared with a decrease of 2,707,000 bu in July, and a reduction of 1.754.000 bu in August, 1903. Supplies in the interior elevators of the Northwest were increased 478,000 bu, compared with a decrease of 902 000 bu during July, and an increase of 481,000 bu during August, 1903. Stocks were reported at 814,000 bu, compared with 336,000 bu on August 1, and 796,000 bu on September 1, 1903. The aggregate supplies of Wheat in the United States and Canada on September 1, 1904, were 1,796,000 bu less than reported one year previous, and 14,-001 000 bu less than reported two years previous.

Supplies at Home and Abroad.

The aggregate supplies of Breadstuffs afloat for Europe, in store in Europe and Argentina, and in store in second hands in the United States and Canada on September 1, 1904—including a larger number of points than in any other compilation—were equal to 124,977,000 bu, against 111,-152,000 bu on July 1, and 103,837,000 bu on September 1, 1903. The increase during August was equal to 13,825,000 bu, compared with an increase of 11,571,000 bu during August, 1903. The aggregate supplies in all positions in America, Europe and Argentina on September 1, 1904, were 21,-140,000 bu more than reported one year ago, and 21,493,000 bu more than reported two years ago.

Flour Trade During August.

The Flour trade of the United States and Canada was quite active during August—much more so from the reports received by the DAILY TRADE BULLETIN than the public has been led to believe. While the export trade was exceedingly light—possibly the smallest in recent years—the shipments being largely from Atlantic Coast and Pacific Coast stocks—the domestic trade was good, especially in the manufacturing districts of the Winter Wheat sections. As usual, on an advancing market, buyers were conservative, and while orders were numerous, they were generally for moderate quantities. Merchants at distributing points, in view of the reported damage to the Wheat crop, were disposed to enlarge their stocks, and retailers appeared to be selling more freely. The returns indicate that the production was disposed of, though millers were not grinding very free-ly—acting cautiously and taking few chances In the Spring Wheat sections, trade was a little slow, and supplies were somewhat enlarged. Millers were rather independent in their views, and generally unwilling to sell to any extent, excepting at prices warranting them in replenishing their supplies of Wheat. Less attention was given to the export trade, as bids were generally below the views of manufacturers. In New England, the demand for Flour was on a moderate scale, even for the usual home wants. Exports were small, and mainly from supplies on hand. In New York, the demand was quite good for moderate quantities for the domestic trade. At the seaboard, the exports were comparatively light. In Pennsylvania, there was quite a good trade for home wants, but export orders were small. In Maryland, the demand was fairly good, but generally for conservative quantities. In Virginia, millers reported quite a good local trade, and only limited export orders provided for. Advices from Kentucky reported rather a good general trade for home wants, with a fairly good manufacture. In Tennessee, there was rather an active demand for Flour for home wants, but trading was on rather close margins. Millers in Ohio enjoyed quite a good general trade, and succeeded in reducing their supplies materially. Export orders limited. In Michigan, the inquiry for Flour was rather active for moderate quantities for home wants. Reports from Indiana indicated rather a good business on domestic account, and only a meager business for export. In Illinois, business in Flour was fairly good, and mainly for the wants of the domestic trade. In Missouri, trade was rather active, and mainly to provide for domestic orders. Millers in Kansas disposed of good quantities of Flour on scattered orders, but export trade was meager. In Oklahoma and Texas, reports indicate good sales to the domestic trade. In Iowa and Nebraska, orders were good on domestic account, but not for very large quantities. In Wisconsin, the trade was fairly good. and mainly for home wants. In the Northwest, there was considerable complaint from millers regarding dullness of the Flour trade, especially at the larger manufacturing centers. Production was only fair, and the demand from all sources was insufficient to absorb it, consequently there was a moderate increase in supplies. Export demand very light. In the Rocky Mountains district, trade was only moderate. On the Pacific Coast there was a fair demand for home wants, and the export demand was moderate, especially from the Oriental. Sales in the aggregate were fairly liberal. Millers in Canada reported rather a good trade in a general way, and supplies were slightly reduced.

Wheat Movement During August.

The movement of Wheat from the farms of the United States during August was rather liberal—in the aggregate about 48.-000.000 bu, compared with 39.000.000 bu in July, and 51,000.000 bu in August, 1903. The offerings in the Winter Wheat sections were quite liberal, more particularly in the South and Southwest, where the supplies were materially enlarged. In the Spring Wheat section the movement was on a moderate scale. Outlook for the growing crop was unfavorable. Supplies of old Wheat were light, and farmers were slow to sell the new. Millers were rather free buyers in the South and Southwest, and it is claimed that rather free purchases were made on the Pacific Coast for shipment to the Central West. Inspection returns as a rule indicated little change in the quality. In New England, the receipts of Wheat were comparatively light, and exports were limited. Stocks in that quarter are small. In New York, the offerings in the interior were fair, and the arrivels at the seaboard from the West were moderately free, with a little enlargement in the supplies. In Pennsylvania, farmers were a little independent in their views, and the offerings were moderate—anticipating higher prices —and the increase in stocks was small. In Maryland, there were fair receipts from outside the State, and farmers sold moderately, with a fair increase in stocks, especially at the seaboard. Farmers in Virginia and West Virginia sold moderate quantities. In Kentucky and Tennessee, the movement was rather good, and supplies show a fair increase. In Ohio; the offerings of Wheat were on a fair scale. Farmers have not very large quantities for sale. and are inclined to hold. With a small yield there was little to offer in Michigan, and supplies are limited. In Indiana, there was a little more disposition manifested to sell, and there was a fair increase in stocks. In Illinois, the offerings were moderate, and stocks were increased, especially at interior points. In Missouri, the offerings were quite large —the supplies at the larger distributing markets and interior points being increased materially. Movement of Wheat in Kansas was fairly large, but a good proportion was shipped outside the State. Supplies exhibited a moderate enlargement in Oklahoma, the offerings being checked to some extent by unfavorable weather, while in Texas they were moderately free, with a moderate increase in stocks. In Iowa and Nebraska. farmers sold slowly, and chiefly in moderate quantities. In Wisconsin, the movement of Wheat was moderate, and in the Northwest was only fair, with considerable reduction in supplies. In the Rocky Mountains district the movement was moderate. On the Pacific Coast offerings of Wheat were larger, especially in Oregon and Washington. Stocks increased moderately. In Canada, the movement was light, and supplies materially reduced.

Wheat Crop of the United States.

With the full investigation made of the Wheat crop in the Northwest the publishers of the DAILY TRADE BULLETIN take occasion to revise the estimate of the Wheat crop more definitely. In July, the outlook from data received at that time indicated an aggregate yield of about 610,000,000 bu. Up to that time no appearance of rust in the Northwest has been reported, and the outlook was favorable for a bountiful crop. Since that time, rust has appeared in the Wheat fields of portions of Minnesota, South Dakota and North Dakota—to a greater extent in the latter two—and the damage sustained may be placed at 60,000,-000 to 65,000,000 bu, or possibly 25@30 per cent in the aggregate of the expected yield previous to that time. There probably has been a very slight reduction in the aggregate yield of Winter Wheat.

With the facts as now presented, the DAILY TRADE BULLETIN regards an aggregate yield of 540,000.000 bu Wheat in the United States as a conservative estimate—210,000.000 bu of Spring and 330,000,-000 bu of Winter. The supplies held over on July 1, 1904, were estimated at 72,000,000 bu. This would make an aggregate supply in all positions of 612,000,000 bu. Of this quantity, about 490,000,000 bu will be required for food and seed, leaving for export and for supplies in all positions on July 1, 1905, about 123,000,000 bu.

EXPORTS OF FLOUR AND WHEAT.

The exports of Wheat and Flour in Wheat (reckoning 4½ bu Wheat to a barrel of Flour) from all American ports as reported by the Chief of the Bureau of Statistics of the Treasury Department monthly for four years were as follows:

WHEAT IN THE NORTHWEST.

Estimates from the Principal Counties in Minnesota, South Dakota, and North Dakota.

ESTIMATED AREA 13,800,000 ACRES—AVERAGE YIELD 10.95 BUSHELS.

Aggregate Yield for the Three States Estimated at 151,000,000 Bushels.

Unusual interest has been manifested in the Wheat crop situation in the Northwest within the past six weeks, and reports relating thereto have been more or less conflicting. Desiring to present an independent estimate to the trade—not in the interest of any one in particular—the publishers of the DAILY TRADE BULLETIN forwarded about 550 circulars and postal cards to correspondents in Minnesota, South Dakota and North Dakota, requesting estimates of the acreage and yields in the different counties. A large number of replies were received, and we believe they are sufficiently numerous and reliable to form an approximate estimate of the aggregate crop of the three States. The counties named below are about all the Wheat-producing ones in the Northwest—possibly less than 20,000 acres are omitted from the calculation.

MAKING CROP ESTIMATES.

It is a difficult matter to form an independent crop estimate when private reports are conflicting—decidedly one sided toward some interest. The crop expert has his mission in this world, and he fills it. When he is commissioned to depart for the Grain fields to acquire knowledge regarding damage, he goes where the damage is suggested—not where the good yields are—and he secures it, and plenty of it. Then there is nothing so free in the speculative atmosphere as "crop damage reports"—especially the "second hand" ones, which have been used to advantage by the sole owner and proprietor who received and paid for them. They are dealt out lavishly—are not withheld from any one, because the public should have the benefit of this knowledge. An independent report aims to give a fair estimate of the general situation, and the DAILY TRADE BULLETIN endeavors to give the good and bad features. As an instance, a dispatch is given to the trade from a point in the Northwest about as follows: "This county will not raise over 8 bu; crop badly damaged." The report is probably true as far as it goes, and it has some effect on the trade, as it was possibly intended it should. If the dispatch had given full particulars, the effect would have been reversed. The county referred to had an area last year of 65,000 acres, and the average yield per acre was 7 bu, making a total yield of 455,0000 bu. This year it has an area of 117,000 acres, and the average yield per acre is 8 bu, consequently its yield is about 936,000 bu, an increase of 481,000 bu, or 105 per cent—more than the aggregate yield in 1903. While the crop experts may vary in their estimates, State and Government officials make just as wide calculations. For instance, the Secretary of the of the Kansas Board of Agriculture gives the Wheat area of that State for 1904 at 5,816,000 acres, and the average yield per acre is placed at 11 bu, making the aggregate yield 63,900,000 bu. On the other hand, the Department of Agriculture makes the area 5,230,000 acres, and the average yield 12 bu per acre, making 62,700,000 bu—a difference of only 1,200,000 bu—yet the foundation for the calculations—the area—shows a difference of 586,000 acres. If the areas remained the same, and the average yields were reversed, the State report of yield would be 69,800,000 bu, and that of the Department of Agriculture 57,500,000 bu—or a difference of 12,300,000 bu. This illustration is given to show that the acreage of a section is of more importance—as a working basis—than the average yield though both should be as correct as possible. It is just as well for the public to remember that it is much easier to make broad, flat statements in regard to crop yields than it is to make an investigation through correspondents in all sections, and devote a day or two to compiling the returns and reaching a conclusion that will be appreciated by some and disapproved by others.

ESTIMATED ACREAGE.

The estimated acreage used does not vary any in the aggregate from that given in the estimate for 1903, but varies somewhat specifically. It is well known that the farmers of the southern portion of Minnesota have not given as much attention to raising Wheat in late years as formerly—giving more attention to other Grains, Live Stock, and to Dairying. Consequently, a slight reduction in area occurred, as usual, but the abandonment of Flax area in the northern section, seeded to Wheat, was nearly sufficient to offset the reductions elsewhere. In South Dakota, more attention was given to Wheat raising in a general way, and a few of the older counties increased their area to nearly that of the Census year, while the reduction in Flax area assisted to some extent in the same direction. However, the area used is not quite as large as in the estimate for 1903, though larger than the area used by the Department of Agriculture. In North Dakota, the breaking of new lands and the abandonment of Flax culture tended to enlarge the Wheat area considerably, especially in the western portion of the State. In 1903, the counties of Bottineau, Ward, Eddy, Foster, Griggs, Stutsman, Pierce, Benson, Wells, Barnes, Ramsey and Towner represented an estimated area of 1,095,000 acres. This year, it is claimed that their aggregate area is about 1,695,000 acres, or an increase of 600,000 acres. In some other sections of the State, the area was smaller than in 1903, possibly 200,000 acres. However, it may be regarded as conservative to estimate the area of North Dakota at 300,000 acres in excess of the figures used in 1903—offsetting the decreases from the areas credited to Minnesota and South Dakota last year. In the three Northwestern States it is claimed that the area of Flax has been reduced 800,000 acres, and 400,000 acres of new land were opened to farming in 1904.

AVERAGE YIELD PER ACRE.

The replies as to the average yields per acre were quite full, and in the main rather satisfactory. The variance as to yield was slight—estimates from the different counties were much closer than last year's. Estimates were made on the yield of about fifteen counties—some not very important—based on the reports of the *Northwestern Miller* and the Minneapolis *Market Record* in comparison with the returns of the counties immediately surrounding them. It must not be forgotten that in 1903, unseasonable weather, local wind storms and insects reduced the yields in some portions of the Northwest. Some of our correspondents took into consideration the fact that some area might be abandoned, but suggested that "as Wheat is high farmers will secure all of it they can." In Minnesota, the aggregate yield was better than in the other States, as less rust damage prevailed. In South Dakota rust prevailed in some of the largest counties—notably Brookings, Brown, Clark, Day, Edmunds, Grant, Hamlin, Minnehaha, and Spink—to such an extent as to materially reduce their yields, while there are very few counties but what have sustained some damage. In North Dakota the average yield was a little better than in South Dakota—about the average for the Northwest. Some of the larger counties report fairly good averages—but others quite as large in area—Cass, Dickey, Grand Forks, Lamoure, McIntosh, Richland and Sargent—make a very indifferent showing.

AGGREGATE YIELD.

The aggregate yield of the three Northwestern States is estimated to be 151,000,000 bu, compared with an estimate of 180,000,000 bu in 1903. The estimate of the Duluth *Commercial Record* for last year was 175,000,000 bu, and that of the Minneapolis *Market Record* was 200,000,000 bu, and these publications presents statistics of distribution to show that the final outcome of the crop of 1903 was 177,000,000 bu and 196,000,000 bu respectively. Our estimated average yield last year, applied to the area of the Department of Agriculture represented a crop of 173,000.000 bu, and was so stated at that time, and the final report of the Department of Agriculture was 173,145,000 bu. Our estimate of the average yields of the crop of 1903 in September were as follows: Minnesota, 13.10 bu; South Dakota, 13.60 bu; North Dakota, 12.60 bu; general average, 13.07 bu. The Department of Agriculture averages in December were: Minnesota, 13.10 bu; South Dakota, 13.80 bu; North Dakota, 12.70 bu; general average, 13.14 bu. Our general average yield for this year, applied to the area of the Department of Agriculture would represent an aggregate yield for the three States of about 145,500,000 bu.

QUALITY OF THE NEW WHEAT.

The quality of the new Wheat in the Northwest will not be very good; in fact, the majority of the reports, especially in the rust-stricken sections, indicated that the proportion of No 1 and No. 2 will be moderate. In most cases correspondents state that the bulk of the Wheat raised in their sections would probably grade No. 3, No. 4, and Rejected. In many counties of Minnesota the grading will be fairly good, and scattering sections of North Dakota and South Dakota will also have considerable good Wheat for market. According to the inspection returns at Minneapolis and Duluth for August there were 2,800 cars received, of which 1,769 cars graded No. 1 and No. 2 Northern, or 63.2 per cent. In August, 1903, the receipts at the same points were 2,657 cars, of which 1,690 cars graded No. 1 and No. 2 Northern, or 63.7 per cent. This showing indicates that the grading is somewhat better than our correspondents indicate, but a glance backward will remind one that the Wheat crop of the Northwest last year was damaged by unusual rains at harvest time—so that the liberal percentage of low grades may be attributed to rains last year and to rust this year.

WHEAT NEEDS OF THE NORTHWEST.

With an aggregate yield in the Northwest about one-eighth less than last year, it is quite evident that the three States will not desire much "outside trade" unless their millers and dealers are on the purchasing side of the market. According to the *Northwestern Miller*—a reliable milling authority at Minneapolis—the capacity of the Flour mills of Minnesota, South Dakota and North Dakota is about 174,000 brls each 24 hours. This would require 783,000 bu of Wheat, and if they averaged 200 days per year, the aggregate consumption would be about 156,000,000 bu. The amount of Wheat ground by these mills of the crop of 1902—according to the same authority—was about 145,000,000 bu—78,000,000 bu at Minneapolis and Duluth, and 67,000,000 bu at interior mills. It is estimated that the mills used about the same quantity of Wheat from the crop of 1903. Of the supplies on hand, there will be 20,000,000 bu required for seed—fully this much may be stated, for high prices will no doubt stimulate seeding—and 131,000,000 bu will remain, exclusive of supplies of old on hand on July 1—about 20,000,000 bu—12,000,000 bu on farms and 8,000,000 bu in warehouses. Millers in the three States used 14,000,000 bu of Winter Wheat last year, and they will probably require as much more this year, having an eye on the Pacific Coast. The quality will cut some figure, but last year's crop was also rather a poor one in this respect.

The visible supply of Wheat in South Australia and Victoria on Sept. 1 amounted to 5,610,000 bu, compared with 4,504,000 Aug. 1, and 1,415,000 bu Sept. 1, 1903.

The Otis Elevator Company has declared the regular quarterly dividend of 1½ per cent on its preferred stock, payable Oct. 5 to Oct. 15, to stock of record Sept. 30.

DECLINE IN BRITISH WHEAT GROWING.

[From the London Times.]

The Government returns of the acreage under crop in Great Britain were first collected and published in the year 1868 The extent of land under Wheat was then returned at 3,652,125 acres. In 1869 it rose to 3,688,357 acres, which is the largest total on official record The general tendency since then has been in the direction of decrease, though with numerous oscillations from year to year Never before, however, has the area under Wheat in our island been returned at so low a level as 1,375,284 acres, which is the outcome of the returns officially collected throughout the country in the first week of June, 1904 Last year the Wheat crop was grown upon 1,581,587 acres, so that this year there is a decrease of 206,303 acres, equivalent to 13 per cent. It would be interesting to know, if the means were available, what proportion of this year's crop was autumn sown and what proportion spring-sown In all probability, however, it would be found that the proportion of spring-sown in the season of 1903-4 was greater than ever before. Down to the present year the smallest area of Wheat on record in Great Britain was that of 1,417,483 acres in 1895, the decline to the extent of half a million acres in that year having been brought about by the miserably low values of Wheat which prevailed over the autumn-sowing season of 1894, in which the weekly average price of English Wheat fell to 17s 6d per imperial qr of 480 lbs, the lowest on record. As recently as the year 1882 the acreage of Wheat in Great Britain was larger than that of either Barley or Oats. On the other hand, in each year since 1893 the acreage of Wheat has continuously been below that of Barley, and still more below that of Oats This year, for instance, we have only 1,375,284 acres of Wheat, as compared with 1,841,688 acres of Barley, and 3,252,975 acres of Oats Barley and Oats together thus occupy nearly four times as many acres as Wheat. Moreover, the present Wheat area is less than the land area of each of such counties as Lincoln, Devon and Perth. It thus appears that all the Wheat-fields of Great Britain could be crowded into such a county as, for example, Devonshire alone, and still leave space.

ILLINOIS CROP REPORT.

SPRINGFIELD Sept. 13. Climate and crop conditions for the week ending Sept. 12, taken as a whole, were satisfactory, according to the bulletin issued to-day by William C. Burns, director of the Illinois section of weather bureau, United States Department of Agriculture. Mr. Burns says:

The mean temperature during the week was slightly below the seasonal average. The days were warm and the nights rather cool. There was an almost total lack of rainfall, and while the soil is in good condition in most localities, plowing was retarded or suspended in other localities on account of the dry, hard condition of the ground. In some sections fall plowing is finished and some seeding has been done, but the coming of rain is awaited before seeding will become general

The weather during the week has been favorable for Corn and it is slowly advancing toward maturity. The previous statement that a large proportion of the crop will be safe from injury by frost by Oct. 1 is confirmed by later reports. As Oct. 11 is the average date of the first killing frost in the region of heaviest production, the safety of the crop is reasonably assured.

Pastures maintain a good condition in some localities, and are getting short and need rain in others. Clover hulling is in progress with yield averaging from fair to good. Millet is yielding a fair crop. Cow Peas and Broom Corn are being harvested under favorable conditions with good output.

Canning works are preserving large quantities of Sugar Corn, Tomatoes, and Cucumbers. A good Onion crop is indicated. Irish and Sweet Potatoes are being dug with satisfactory results.

THE MANITOBA HARVEST.

[From the Winnipeg Commercial, Sept. 10.]

Despite the fact that the weather for the week covered by the Canadian Pacific Railroad crop report issued on Tuesday was rather unfavorable for harvesting, considerable progress has been made. A varying percentage of Wheat has been cut, the average being about 60 per cent. The country up to date has been untouched by frost, except at a couple of northern points, Duck Lake and Yorkton reporting slight damage from this source. The full report of estimates on the yield are not as yet gathered by the railway, but the Yorkton and Arcola branches place the average at from 20 to 25 bu the acre.

There are only a few reports of rust, and it is noticeable that one or two points report that damage by rust has been found to be overestimated. Considerable stacking had been done and threshing was about to begin With settled weather great progress would be made

Information at that date from other sources shows 60 per cent of the Wheat cut, fully 80 per cent of Barley, and about 40 per cent of Oats. The average yield of Wheat at the points heard from is 20 bu to the acre. In one of the worst districts for this disease, Glenboro, the report is 90 per cent cut, some threshing done, average yield 20 bu, average grade No 3 Northern. If present prices hold, 20 bu of No 3 Northern will not give the farmer a bad return for his labor.

ANTHRACITE COAL CARRIERS.

[From the Wall Street Journal, Sept. 13.]

For the eight months ended August 31 the shipments of anthracite Coal by the various anthracite roads were larger than in the corresponding period in any previous year with the exception of 1903. The total shipments so far in 1904 are approximately 4,000,000 tons less than in the same time in 1903, although they exceed 1902 by nearly 19,000,000 tons and are 3,500,000 tons in excess of 1901 The small shipments in 1902 were due to the strike. The results for the eight months indicate that 1904 will go on record as one of the best in the history of the anthracite Coal industry

The marked strength of the anthracite Coal stocks is largely attributed by well informed persons to the fact that the anthracite Coal industry is now being conducted on a steady and profitable basis, with indications that it will continue so for an indefinite period. The output is being curtailed in accordance with the demand and when colder weather sets in greater activity will take place at the mines to satisfy the increased demand

All the companies are acting as a unit in regard to prices and the discount system which has worked so well for several years has not only helped to promote the welfare of the operators, but the trade as a whole has been benefited as well.

POTATO CROP IN GERMANY.

[From Dornbusch, Sept. 2.]

It is as yet impossible to estimate the amount of the Potato crop, although it is certain that the deficit will be large, and this will be seriously felt, especially by Cattle breeders, as prices of Clover and other feedingstuffs as well as Oats, Pease and Beans, have appreciably risen. It is probable that the export this year will be practically nil, against 273,000 tons in 1903, 197,000 tons in 1902, and 224,000 tons in 1901, while the import is likely to increase The amount of the yield is of the utmost importance to manufacturers of alcohol, although the actual quantity they use is small, comprising only in 1902-3 2,400,000 tons out of a total yield of 43,000,000 tons, and in 1901-2, 3,000,000 tons, out of a total yield of 48,000,000 tons. This, however, is due to the fact that no more is available after the agricultural demands have been satisfied; an appreciable deficit in the crop, therefore, is a far more serious matter to alcohol distillers than the actual figures seem to imply, threatening even a total shortage of supplies of Potatoes. It is, however, possible that given favorable weather conditions the later crops may turn out much better than anticipated. The sharp rise in prices has had a corresponding influence on Potato Flour and kindred manufactures.

ODESSA FREIGHT MARKET.

[Correspondent of Dornbusch of Sept. 1.]

Our market is inactive Last week it seemed as if we were really going to have some improvement, and for two or three days at the beginning of this week rates had a decidedly upward tendency This feeling, however, was not maintained, and the week closes with a quieter feeling all round and rates showing a weaker tendency. A spot steamer was completed yesterday for Rotterdam at 6s 6d, while for tonnage which has just got alongside shippers only offer 6s 9d Rotterdam, 7s London or Hull, 7s 3d Antwerp, 7s 9d Hamburg, and even at these rates only a few hundred tons can be picked up daily. It was noticed to-day that scarcely a steamer in port was working, which says volumes for the condition of this market at the moment. Scarcely any new Grain has yet arrived, and we learn to-day that the water in the Dnieper in certain parts is insufficient to allow of barges coming down, and shippers here are at their wits ends to know how to fulfill their freight engagements. We doubt whether such a position as exists here at present has ever seen a parallel. Although we have only got 16 berth steamers in port to-day we estimate that there are fully 30,000 tons of uncovered tonnage in port.

SOUTH AUSTRALIAN CROPS.

[From the Liverpool Courier.]

From the statistics just issued by the Government statist in Adelaide, it appears that the season ended March last was one of the most productive the State of South Australia has had. The total area of land under cultivation (3,291,083 acres), was the largest on record. The crops of every kind of produce grown showed a marked increase over those of the previous season, as the following table shows:

	1902-03.	1903-04.	Increase.
Wheat, bu	6,354,912	13,209,465	6,854,553
Barley, bu	317,155	487,920	170,765
Oats, bu	620,823	902,936	282,113
Peas, bu	89,654	121,580	31,926
Potatoes, tons	28,312	31,415	3,103
Hay, tons	308,825	479,723	170,898

Owing to the fine seasonable rains which have fallen, and from the present state of the crops, the next harvest in South Australia will be as good as the last.

SEVERE DROUTH IN EUROPE.

BOSTON, Sept. 13.—A report from Schemmel, Bohemia, states that the whole heart of Europe, particularly Bohemia and Moravia, is suffering from the most severe drouth within the memory of any one living. Potatoes and many other crops are a failure. The Sugar Beet crops are so light that many Sugar factories will not be opened this year. Flour has increased from 30 hellers to 40 hellers per kilogram, and milk is increased in price. The Elbe is so low that for six weeks no steamers have been able to move, and in many places one can wade across the river.

Mills and factories stand idle, and thousands who usually find employment on all sorts of boats on the Elbe are now out of work.

THE WEATHER CONDITIONS.

There are killing frosts at Rapid City, South Dakota, Valentine and North Platte, Nebraska. No frosts east of the Missouri River. Temperatures over Iowa 42 to 46. Light to heavy rains have prevented frosts anywhere east of Missouri River. Rains general in Ohio Valley and through Missouri, Illinois and Iowa. Light frost at Concordia, Kansas.

Indications are for fair weather through the district. Frost will advance Eastward to-night over the Upper Mississippi and Lower Missouri Valleys and Western Lake Region. Temperatures will rise slowly Northwest.

CANADIAN WHEAT STOCKS.

Stocks of Wheat in Canada at principal points of accumulation are reported as follows:

	Bu.
Montreal	81,000
Toronto	15,000
Kingston	70,000
Coteau	241,000
Depot Harbor, Ont.	13,000
Manitoba elevators	347,000
Fort William, Port Arthur and Keewatin	314,000
Total, Aug 27	1,081,000
Total, previous week	1,607,000
Total, a year ago	755,000
Total, two years ago	1,240,000

ITEMS OF GENERAL INTEREST.

The Clover Leaf Oil and Gas Company has declared the regular monthly dividend of 1 per cent, payable at once.

The General Electric Company has declared its regular quarterly dividend of 2 per cent, payable Oct. 15 to holders of record of Sept. 17.

The Erie Railroad Company has applied to the New York Stock Exchange to list $1,000,000 additional general lien 4 per cent bonds of 1996.

Negotiations are said to be progressing for the joint purchase by the Pennsylvania and New York Central companies of the Buffalo, Rochester and Pittsburg road.

The San Francisco *Weekly Commercial News* of Sept. 8 says of Hops: "Picking in this State is in progress and a good crop, probably between 56,000 and 57,000 bales, will be harvested. The market is firm at 24c to 28c. The Oregon crop is now estimated at about 87,000 bales, that in Washington at 41,500 bales, and that in New York at 60,000 bales."

The San Francisco *Weekly Commercial News* of Sept. 8 says: "Advices from the North say that Wheat buyers are confining their operations to purchases for the East and San Francisco; no foreign business is being done. Shipments of Wheat from Portland and Puget Sound ports last month exceeded all previous records, being 516,105 bu, as compared with 840,000 bu for August of last year."

Negotiations are said to have practically been closed between representatives of the United States Steel Corporation and the Japanese government whereby the former will furnish the Mikado's government with larger tonnage of nickel plates for use on battleships than has ever been given out. The total is said to exceed 20,000 tons, and the delivery is to begin at the earliest possible moment.

In his annual statement to stockholders the president of the American Hide and Leather Company announced that the amount of the company's bonds in the hands of the public June 30 was $7,837,000, as compared with $8,031,000 a year previous. The company's loans June 30 were $20,000, as compared with $1,144,295 a year earlier, a reduction of $944,295. Amounts owed for foreign exchange, trade accounts, wages, etc., show a decrease of $38,406. Net additions to property account were $25,278.

The plan under consideration by the managers of the various Tobacco companies for readjusting the capitalization of those corporations provides for an increase in the stock of the Consolidated Company, a part being preferred, which will be used to retire the 4 per cent bonds, and including the preferred stocks of the American and Continental Companies. It is proposed to issue for the Consolidated 4s 50 per cent in preferred stock of the Consolidated Tobacco Company and an equal amount of the increased common stock.

Weekly Weather Bureau report, Tuesday, said: "Cotton—While rust and shedding continue over a large part of Cotton belt, reports of injury from these causes are less numerous than in previous weeks. In Central districts weather has been favorable for picking, except in portions of Georgia and Florida, where this work was hindered by heavy rains, and picking has now begun in Northern districts. In Texas, Cotton has improved slightly in a few Northern Counties, but on the whole very little new fruit is forming, and boll weevils are puncturing nearly all new squares in Southwestern Coast, Central and Eastern Counties, as well as in a number of Northern Counties."

The Manchester *Guardian* says that the fears already entertained in Manchester, as to the adequacy of the Indian monsoon, have been confirmed to some extent by a cable advice received by a Manchester shipping firm from their Bombay house, and which reads: "Consuming districts pressed for want of rain." It is too early yet for the dry weather to have had any bad effect on the Wheat crop, but seeding time is now approaching, and if the monsoon rains hold off, the matter would soon become serious. If any crops have been hurt, they are most likely to be native food crops, and, of course, these are important enough from a native point of view.

The annual report of the Chicago Terminal Transfer Railroad for the fiscal year ended June 30, 1904, shows that gross earnings for the year were $1,570,765; operating expenses and taxes, $1,143,306; and net earnings $427,458. Interest charges amounted to $629,400, leaving a deficit of $201,941. Results of the company's business for the year are summarized as follows: A decrease in rentals, etc, amounting to $100,950, due largely to the termination of the temporary lease with the Lake Shore, Rock Island, and Nickel Plate Railroads; a decrease in receipts from traffic of $74,653: an increase of operating expenses of $19,637, due principally to increased cost of fuel and extraordinary weather conditions.

The *North British Agriculturist* of Aug. 31 says: "In the earliest districts of Scotland a good start has been made with the ingathering of the crops, but generally over the country the work of reaping has been but recently commenced. In a great many districts the crops are still a good way from being ripe, but with brilliant sunshine the ripening process would make rapid progress. Turnips are bulbing well wherever the plants were good before, but in many districts where the brairding was affected by the drouth the crop is to be very poor. Potatoes are looking very well. So far there has not been much trouble with disease, and if the weather keeps bright and dry a full crop is all but certain. Pastures are keeping fresh, the sunshine and abundant moisture giving them a fresh start."

The *Times of India*, Aug. 11, says: "In Burma there was a promising increase in Wheat cultivation during the year ended June 30, 1904, the area having gone up from 19,883 acres to 33,921 acres. Of the total acreage of 1903-4 the Sagaing district accounted for some 21,000 acres, Kyauski and Mandalay districts practically possessing the balance The kharif of autumn crops irrigated area in the Punjab of 1904 up to June 30 last is returned at 1,468,202 acres, as against 1,641,483 acres for the corresponding period of 1903. The decrease is entirely under miscellaneous crops, though the areas under Rice and Sugarcane are also under those of last year, and Indigo cultivation has also declined. Cotton on the other hand shows a satisfactory increase over last year's area and testifies to the steadily increasing popularity of the crop in the Punjab."

The Portland *Oregonian* makes the following estimate of the Wheat yield of 1904 in Oregon, Washington and Idaho, based on returns received up to September 1:

	Bushels,
Oregon	12,950,000
Washington	27,650,000
Idaho	4,500,000
Total	45,100,000
1903	34,785,000
1902	41,600,000
1901	46,600,000
1900	37,000,000

The crop is now estimated by the *Oregonian* to be fully 5,000,000 bu under the yield indicated a short time before the harvest, the decrease being due to dry weather and frosts The acreage is larger than ever before, and with an average yield equal to that of 1901 would have produced a crop of 55,000,000 bu.

The deposits in the State banks of Chicago, according to the reports submitted in response to the call of the State Auditor Sept. 7, show a small increase as compared with the last report of June 10. The total shown by the banks is $120,157,635, or an increase of $2,250,773 compared with the June statements. The showing is the smallest gain for a quarterly period made in several years, amounting to 1 8 per cent. The previous statement shows an increase of about twice as much, and a similar gain was made during the first period of the year. Another feature was that the July disbursements made by the banks amounted to about $1,200,000, so that the increase in deposits is really not so much as is shown by the figures. The Stock Yards strike and other industrial depression was reflected in the deposits For example, the Drovers' Trust and Savings lost $239,911, the Stock Yards Savings decreased $5,974, and the Pullman bank, where the car shops have greatly reduced working forces, shows a shrinkage in deposits amounting to $44,951.

The Banffshire *Journal* publishes a large number of reports from the counties of Aberdeen, Banff, Elgin, Nairn, Inverness and the North and summarizes them as follows: "Prospects all over are favorable, despite the severe drouth of June and July. Barley will be in many places the crop of the year. The acreage under it is much smaller than usual, the quality of the Grain, it is anticipated, will be very fine. Oats all over are short, the drouth having affected them very adversely. The yield of Grain promises to be abundant and good, and the fact that there is still on hand a good proportion of last year's great yield of Straw will tend in part to hide the deficiency of the present season. Turnips, where early sown, offer to give a large yield of thoroughly sound roots. Pasture has been on the whole a failure. It was good at the beginning of the season, but it was soon burnt up, and although the rains have given another fresh bite, the season is practically over. From the same cause Hay was unusually light and the aftermath has been as yet scanty."

A movement is on foot to merge the Chicago Terminal Transfer and the Chicago and Western Indiana companies, convert the Grand Central Station, Chicago, into a freight depot, and erect a new passenger depot on the site of that at present on Dearborn Street, making it large enough to accommodate all lines now using the two. The fate of the Chicago Terminal Transfer Company may be determined at a meeting of stockholders which will be held in Chicago Oct. 12. It has failed to pay dividends, cannot increase its earnings to any extent, and has been ordered by the municipal authorities to no longer delay the work of elevating its tracks within the city limits. This will cost over $3,000,000, and the company is practically bankrupt. It will be for the stockholders to determine whether the company shall be placed in the hands of a receiver or a reorganization effected on a sound financial basis. The general opinion is that a foreclosure sale cannot be avoided. The stock of the company is practically worthless, and interest on its bonds has not been paid. Some of them are held by the railroad companies using the freight and passenger facilities of the Terminal company. They furnished the money with which to build warehouses and make other necessary improvements, taking as security the bonds of the concern.

The *Northwestern Miller* says: "The Argentine Wheat acreage has increased 28 per cent over last year, and prospects are fine."

Exports of Flour and Wheat from all United States ports for July and August were 6,742,000 bu, compared with 21,564,000 bu last year.

A crop expert wires from Columbus, Neb.: "Grand Island to Columbus will run 30 to 50 bu per acre; quality good; about 50 per cent safe from frost."

Cotton in New York weakened under large realizing and hedging sales, and made liberal losses. Receipts were good. Closing sales were at declines of 5@8 points.

The exports of Flour and Wheat from the United States during August were equal 3,530,000 bu—wrongly stated yesterday—compared with 3,212,000 bu in July, and 11,933,600 bu in August, 1903.

It was announced, Monday, that the Illinois Central has purchased the entire issue of $5,000,000 of bonds of the new Indianapolis Southern Railway, and will build a line to Indianapolis as soon as possible.

Kansas City people figure that 45 to 50 per cent of the Oklahoma Wheat crop has been marketed, and of Kansas 36 per cent. The two States generally market 50 per cent of their crop the first three and one-half months after harvest.

The Monon reports a decrease of $14,000 in net earnings for June and $65,000 for the fiscal year ended with that month. The Frisco annual shows that earnings were four times the amount required for the dividend on the second preferred.

Returns from 50 governments in European Russia make crops as follows: Wheat, 351,000,000 bu; Rye, 722,000,000 bu; Barley, 226,000,000 bu; Oats, 662,000,000 bu. Last year—Wheat, 454,000,000 bu; Rye, 744,000,000 bu; Barley, 277,000,000 bu; Oats, 548,000,000 bu.

The Tabasco Chiapas Trading and Transportation Company of Chicago, doing a plantation and transportation business in Mexico, has declared a dividend of 12 per cent, payable Sept. 15. This company paid 10 per cent Sept. 21, 1903, and 10 per cent July 26, 1902.

Local Securities were mostly higher, with fair trading. City Railway advanced 10 points on buying of 150 shares. Shipbuilding common gained 2. Union Traction common gained ⅞. All the Industrials advanced, except Can preferred, which lost 1 point and reacted ½.

The Cincinnati *Price Current's* weekly crop summary says: "Two-thirds or more of the Corn crop is secure from frost injury. Considerable of the remainder needs two weeks of good weather. The final official Wheat estimate is not likely to exceed 540,000,000 bu. Oats indicate 875,000,000 bu."

The receipts of Flax Seed at Bombay for the week ended Aug. 11 amounted to 3,910 tons, against 5,454 tons in the previous week and 544 tons in the same week last year. The total receipts at Bombay from Jan. 1 to Aug. 11 amounted to 182,048 tons, against 130,285 tons in the same period last year.

Vessel owners are holding out for a 3c rate on winter cargoes of Grain. There are said to be a large number of boats whose owners would willingly tie them up for the winter with Grain in their holds at 3c, but they will not consider the 2½c rate now bid at Duluth on Flax, as the risk is considered too great at that figure.

The Cincinnati *Price Current* reports the packing of the West for the week at 305,000 Hogs, compared with 320,000 for the week previous and 320,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 10,740,000 Hogs, compared with 10,860,000 for the corresponding time last year—a decrease of 120,000 Hogs.

The Railroads in the Central Freight Association, Wednesday, agreed to keep in effect until Nov. 1 the "summer" rates on Grain, which were to expire Oct. 1. The rates are on a basis of 17½c per 100 lbs on domestic shipments from Chicago to New York, and 15c for export shipments. This action is due to the efforts of the Board of Trade.

Broomhall, Liverpool, cabled: "Russian Government report caused advance of ½d in Wheat in both months, and a further gain later of ⅛d in September. Selling by large houses later caused a reaction of ⅛d in September and of ⅝d in December, but ⅜d of the latter was recovered. Corn advanced ⅛d on talk of smaller Argentine shipments."

United States Judge Shelby has signed a decree appointing a receiver for the Louisiana Sugar Railroad Company, organized at New Orleans to build a seventy-mile railroad line from Thibadeaux to Grand Island. Some of the track is laid, but the promoters are unable to proceed owing to lack of funds. A receiver has also been appointed for the Greenlaw Lumber Company, limited, of St. Tammany Parish. Liabilities of over $150,000 are alleged as a result of improvident loans.

Stocks in New York were more irregular, with good trading. There was heavy selling on the advances, and prices yielded under the pressure of realizing. Colorado Fuel and Iron was sold heavily by Western houses and the Stock delivered. This caused it to break 5½ points but it recovered 1¾. Western Railway shares were ½ lower to ½ higher at the last, although ¼ to 1 point higher early. Eastern Railways advanced 1 to 1⅝ points. Steel advanced 1⅝ to 2, and reacted ⅝ to 1 point. Tractions were lower. Money 1⅛ to 1¼ per cent.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand fair on local and domestic account, but foreign bids still prohibitive. Prices firm.

WINTER WHEAT—Was in good demand, but mostly speculative, millers showing less inclination to buy at the lately advanced prices. Market steady. No. 2 Red in store quotably $1 15⅜@1 17¾, and fresh arrivals free on board quotably $1 17@1 18. No. 3 Red fresh receipts free on board sold at $1 12@1 16½, and No. 4 Red sold at 95c@$1 12. No Grade Red sold at $1 10. No. 2 Hard fresh arrivals free on board sold at $1 15. No 3 Hard fresh receipts free on board sold at $1 05@1 12½, with a car of soft at $1 16½, and at the river at $1 05. No. 3 White sold at $1 13@1 15.

SPRING WHEAT—Was firm and the offerings of choice Wheat taken up readily and show higher prices. Receipts small and demand good. No. 1 Northern, fresh arrivals, free on board quotably about $1 20@1 22. No. 2 Northern, fresh arrivals free on board nominally $1 18@1 20. No. 3 Spring sold at $1 17@1 18 for choice hard and quotably down to $1 10 for good. No. 4 sold at 87c for poor, to $1 18 for fancy hard variety.

REGULAR WHEAT—A good trade, with the feeling nervous and unsettled, closing prices showing ⅞@1c to 1⅜@1½c gain. Offerings were quite liberal at the start and the tone was easy, due partially to the enlarged estimate on the Northwest crop. At the decline the demand became more general and market turned stronger. The higher cables adverse Russian crop news and reports of rain and snow in Manitoba being the "bull" helps. Predictions of a smaller movement in the Southwest was also a factor. *Broomhall* cabled that a semi-official report estimated the crop of fifty Government in European Russia as follows: Winter Wheat 91,360,000 bu and Spring 260,000,000 bu, a total of 351,000,000 bu, against 453,520,000 bu in 1903. Liverpool quoted spot ½d higher to ½d lower and futures ¾d higher. London came steady to ¼d higher. English country markets 6d to 1s higher. Paris steady to ¼c lower. Antwerp unchanged. Berlin ¼c lower and Buda Pesth 2¼c lower. The *Price Current* claimed the final Government estimate on the Wheat yield was likely not to exceed 540,000,000 bu. Primary receipts were 193,000 bu smaller than a year ago. Northwestern cars 169 less. Kansas City received 147,000 bu, last year 198,000 bu. Kansas City estimates for to-morrow 167 cars. Minneapolis wired that elevator people reported a more liberal movement in the interior. Another read, "Snowing 150 miles west of Winnipeg." At the higher prices established there was further liquidation by local professional "longs" and prices again settled back. Flour output in the Northwest for the week was 344,000 brls, against 438,000 brls same period in 1903. Argentine shipments were estimated at 800,000 bu. Clearings were small and no boat loads accepted at the seaboard. Minneapolis stocks decreased 300,000 bu the past three days. Kansas City reported Minneapolis millers buying cash Wheat in that market. Cash sales here smaller. Receipts at Duluth 96 cars and at Minneapolis 302 cars, a total of 398 cars, against 337 cars yesterday, 254 cars a week ago, and 567 cars last year. Local receipts included 48 cars Winter, 8 cars Spring and 5 cars mixed, a total of 61 cars, against 89 cars last year. Included in the above was none of contract grade. There were 12 cars and 21,600 bu taken from unlicensed elevators. The estimated receipts for to-morrow are 39 cars. Withdrawals to-day were 10,175 bu. Receipts at Western points were 731,370 bu, against 923,987 last year. At Eastern points 46,436 bu, against 140,658 last year. Shipments from Western points were 407,304 bu, against 625,844 last year, and from Eastern points 16,055 bu against 76,800 last year. Shipments of Flour were 16,764 brls. Exports of Wheat in Flour were equal to 143,338 bu.

Future Deliveries of Regular Wheat—Fair trade and market stronger.

CORN—A good trade, with the feeling weaker and close ⅜c to ⅞c lower. There was a rush to sell at the start and the opening was very irregular, prices varying about 1c at the same time. Frosts over the Corn belt were not as heavy or general as expected. Temperatures were lower East and warmer West of the Missouri River and fair and warmer conditions were generally predicted. Map showed light frosts all over Iowa, also at Cairo and Indianapolis. "Long" Corn came out freely, but at the decline "bull" interests added to their lines and a prominent local professional and the Southwest bought heavily and market developed a steadier tone. Selling December and buying May was a feature. The *Price Current* reported two-thirds of the Corn crop secure from frost injury, but considerable of the remainder needing two weeks yet to be safe from frost. Receipts were 398 cars, against 587 cars last year and 533 cars estimated for to-morrow. Liverpool quoted spot steady to ¼d lower and futures ¼d higher. Western receipts were 703,000 bu, against 611,000 bu last year. Shipments 400,000 bu and 542,000 bu respectively. Local arrivals 548,000 bu and shipments 313,000 bu. Withdrawals 126,000 bu and exports 4,700 bu. Argentine shipments were estimated at 2,800,000 bu. Shipping demand moderate, and sales 50,000 bu. Seaboard reported no boat loads accepted. Car lots in larger supply and good demand. Prices ¼@1c lower. No 2 closed at 53½c. No 2 Yellow sold at 55c and closed at 54¾c. No. 3 closed at 53¼c. No. 3 Yellow sold at 51¼@55c, and closed at 54½c. No 3 White sold at 53½c. No. 4 sold at 51¾@54½c, outside price for yellow. Charters were made for 200,000 bu.

Corn by sample—There was a fair demand with the offerings somewhat larger. Feeling weaker and prices ¼@1c lower. Sales on track and free on board: No. 4 sold at 51½@53¾c. No 3 at 53½@55c. No 3 Yellow at 54½@55c. No. 2 Yellow at 55@55¼c. No 3 White at 53½c. No. 2 White at 53¾c. Billed through: No. 4 at 51¼@53¾c. No. 3 at 53@54c. No. 3 Yellow at 53¼@54¼c. No. 2 Yellow at 54¼c. No. 3 White at 52¼@52¾c. No 2 White at 52¼@52¾c.

Future Deliveries of No. 2 Corn—Active and unsettled, closing ⅜@⅞c lower.

SEPTEMBER—Sold at 52⅞@53¾c. Opened at 52⅞c and sold at 53⅝c, to 53¼c, to 53¾c, to 53⅝c, and closed at 53⅜c asked.

DECEMBER—Sold at 51¾@52⅞c. Opened excited at 52⅞c, 51¾c, and sold at 52c, to 51⅞c, to 52⅜c, to 52c, to 52¼c, to 51⅞c, to 52⅛c, to 52c, to 52¼c, to 52⅛c, to 52¾c, to 52¼c, to 52⅛c, to 52⅛@52¼c, and closed at 52⅛@52¼c asked.

MAY—Sold at 50⅞@52c. Opened at 52c to 50⅞c, being very irregular, most sales under 51½c, and sold at 51⅜c, to 51c, to 51½c, to 51⅛@51¼c, to 51½c, to 51⅛@51¼c, to 51¼@51⅜c, to 51⅝c, to 51½c, to 51⅞c, to 51⅜c, to 51½c, to 51⅜@51½c, and closed at 51⅜@51½c asked.

OATS—Were easier and closed at losses of ¼@⅜c. There was fair trading. A feature was the buying of December by cash houses suggesting a good business, but no round lots were reported. Late yesterday 150,000 bu Standard were sold for shipment. Charters were for 150,000 bu. Country offerings were smaller. Arrivals 101 cars, with 17 Standard. Estimates to-morrow 131 cars. Seaboard clearances were 16,186 bu. Car lots to go to store were slow and prices steady to ½c lower. No 3 White sold at 32¼@32½c. Standard at 33c. Standard in store closed at 31¾@31½c.

Future Deliveries of No. 2 Rye—Steady. September nominally about 74½c: sellers asked 75c. December sold at 76½@76¾c and closed at 76¾c sellers. May, 78½c bid and 79½c asked.

BARLEY—Low grade to good malting Barley ruled firm; choice to fancy was steady. Demand was good and offerings smaller. All grades salable, and receivers found it easy to dispose of consignments. To-day postings showed 53 cars inspected, all but 8 of which graded No. 3 and No. 4. Screenings quotable at 32@40c for common to very choice. Poor, thin, badly stained or dirty, feed Barley, quotably 37@39c. Low grade malting, dirty, small berry, poor color, 41@44c. Fair to good color, depending on weight and other conditions, ranged at 45@48c. Higher grade, or choice, ranged at 49@52c. Fancy quotable up to 54@55c.

SEEDS—Timothy was steady to firm for cash Seed. Futures were inactive and also steady. Flax was lower for both cash and futures. Clover ruled higher.

Timothy—Was steady to firm for cash Seed. For common to good Seed the market was steady; choice to fancy ruled firm. There were liberal offerings of cash and quality generally better. All consignments were taken. Future deliveries were inactive and nominally unchanged. September was offered at $2 85. October was nominally $2 85. January was $2 90 nominal. March was offered at $3 10 and $3 00 was bid. Cash Seed was quotable as follows: Fair to good country lots quotable at $2 35@2 45; high grade or choice $2 55@2 65 and fancy up to $2 75@2 90. *Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.				
†Flour made by mills outside of St. Louis, but controlled in that city.				

There was a decrease of nearly 100,000 brls in the output of the Minneapolis mills last week. Today fourteen mills are in operation and another is expected to start up tomorrow. The output for the current week is likely to amount to 275,000 brls.

While margins have not been satisfactory to the millers, they have sold a good quantities of Flour the past week. One miller reports making the heaviest sales of any week for the past six months. These sales were largely confined to domestic, only one or two Minneapolis mills and exporters reporting any export sales. A certain quantity of Clears has been worked for export all along during the dull period when there was said so many weeks, and latterly a certain quantity of Patent has been worked, though millers generally wonder how any mill can afford to sell Patent at the prices offered by the shippers. Inquiries have, however, come up materially in their offers, and shippers think that if present Wheat prices hold, importers will soon advance their bids, particularly on Clears to a workable point.

The domestic orders have been chiefly for small quantities individually, but they were sufficiently numerous to give a re-port the total in the aggregate. Many mixed cars of feed and Flour have been sold. Some mills have sold fully as much as they ground, while others report fair sales, but not equal to those of last week. The increased receipts of Wheat prices is a great handicap to the mills. They hardly know what prices to quote and are almost afraid to leave offers open over night for fear a sudden spurt in Wheat will let them in for a loss, though the advance in Wheat to-day was not followed by the amount of acceptances of outstanding offers that might have been expected.

On to-day's excited Wheat market all quotations are more or less nominal, but an average of quotations on patent received from all the Minneapolis mills is $3.65 bbl for Hungarian in wood.

Eastern prices to-day (Sept. 13) asked by Minneapolis and outside mills for Patent in wood, were: Boston and Portland, $3.90; New York patents, $3.85; Baltimore rate points, $3.75; Philadelphia rate points, $3.80; Albany rate points, $3.65; Rochester and Syracuse rate points, $3.60; Buffalo rate points, $3.60; Michigan, $3.10 in sacks; Iowa, Illinois and Wisconsin, $3.45 in sacks; Missouri points, $3.30 in sacks.

Our cables to-day state that Flour meets a slow sale in Glasgow, with buyers and sellers apart and the former determined to work down stocks. The Liverpool and London markets are strong and advancing, also L. t. offers and spot prices are too far apart to admit of much business. The Amsterdam market remains quiet. Receipts have been heavy, especially of Clears, of which there is a considerable quantity on reasts at prices under mill's quotations.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, Sept. 14.]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth, together with that of 40 outside mills, the daily capacity of which is 19,785 brls:

	From Jan. 1, 1904, to Sept. 1, 1904, with comparisons:			
	1904—		1903—	
	Flour, brls.	Wheat, bu.	Flour, brls.	Wheat, bu.
Minneapolis	8,762,775	39,432,000	10,138,485	45,601,900
Duluth	833,935	2,603,000	861,230	3,065,000
40 outside mills	4,438,805	19,932,000	4,501,390	20,235,000
Totals	13,731,615	61,792,000	15,315,920	68,922,000

These figures represent the approximate consumption of 7,130,000 bu less Wheat this year than in 1903. This has occurred from the mills of Minneapolis and Duluth as well as the outside mills turning out 1,584,305 brls less Flour than in 1903.

The Illinois Secretary of State Monday, licensed the Bureau County Mineral Railway Company, with its principal office in Chicago, and with a capital stock of $15,000. The road is to be constructed from the west to the north boundary of Bureau County, Ill.

Omaha Grain people claim that the frost Tuesday night did not hurt Corn there. They estimate the crop of the State at 200,000,000 bu, and into market in the present month at 30,000,000 bu.

A wire from Brandon, Manitoba, Wednesday, said: "Fine, clear, dry weather; no Grain damaged; frost last night; the Wheat crop is beyond frost damage, except in the extreme north; all cut here."

The Evansville and Terre Haute Railroad Company has declared the regular annual dividend of 5 per cent on its preferred stock, payable in four installments, 2½ per cent on Oct. 15, 1904, and 2½ per cent on April 15, 1905. Books close Sept 24 and reopen Oct. 3.

The directors of the American Can Company declared a flat dividend of 2½ per cent at their meeting in New York, Wednesday afternoon. The disbursement is payable Oct. 1. Books close Sept. 21 and reopen Oct. 3. Following its usual custom, the board did not announce whether or not the payment will be regular.

The scarcity of Car hands in New Mexico this year, owing to the drouth that prevailed there early in the year, is driving the buyers to Utah and Wyoming for feeders, says the Denver *Record-Stockman*. Even the San Luis Valley is going North and West for feeders this season. Usually the feeders in that section drive in from New Mexico.

The postal receipts of the fifty largest offices in August amounted to $5,332,835, as against $4,728,000 for the same month in 1903. The increase in the postal receipts of New York alone amounted to $604,832. Nearly one-fourth of that increase was made in the Chicago postoffice. The increase in the Chicago office was the largest recorded, though St. Louis did in percentage increase.

It was claimed that the advance of 4c in Wheat at Chicago, Tuesday, put Chicago on an importing basis on Indian Wheat at a profit of 2c. A New York exporter who was in Chicago said it was only a theory, as there was no profit in importing Wheat at present, and under existing conditions an importer would require a margin of at least 5c to provide against all contingencies.

The American Car and Foundry Company board is scheduled to meet early in October to take action on the quarterly dividend on the preferred stock, and it is expected that the regular quarterly disbursement of 1¾ per cent will be ordered. In view of the fact that earnings have been on a diminished scale, consideration will be given also to dividends on the common stock at that time.

It is understood that a meeting of representatives of the Iron and Steel companies which comprise the billet pool will be held in New York, Wednesday, at which time the last year's pact will be officially lowered to the extent of $1.00 per ton, bringing it down to $19.00. It is believed that advantage will be gained by making such an open reduction in the minimum selling price instead of the practice which has been common of each company in the pool practically making a price to suit itself, in an attempt to get a little more or a better understanding between the members and again bring about harmony in their operations, if possible.

Net earnings of the American Locomotive Company in the year ended June 30 were equal to 14.7 per cent on the $25,000,000 common stock after the payment of all charges and 7 per cent on $33,000,000 of preferred capital. The gross earnings for the period were slightly less than in the preceding fiscal year, but the operating expenses were so reduced as to effect an increase of $816,000 in the profits. The company has $1,000,000 reserved from the profits for the year as a fund for future extensions, improvements and betterment, and still had a surplus of $2,653,000. The total amount now charged against the $4,812,000.

Details of the armor plate order given the United States Steel Corporation by the Japanese government indicate that the former will receive about fifty per cent of the total. Armor plate for the government has paid for the metal. This is due to the fact that the contract between Japan and the Steel corporation calls for the early delivery of the armor plate. The contract was signed in August, and it will be increased if the naval exigencies of Japan demand it. In order to prevent any embarrassing inquiries by the State Department at Washington the greater portion of the contracts have been made through the medium of a third person, as to whose right to purchase any amount of any one material in this country there can be no question raised.

Sales of municipal bonds in August reached a total of $16,608,000, not including $12,618,500 of temporary loans, $1,222,000 of Canadian loans or $2,000,000 of general fund bonds of New York City. The total is the largest for any August since 1892, except in 1898, when the amount sold was $35,629,000. It raises the total for eight months so far elapsed this year to $186,850,000, which is $40,000,000 more than the total up to the same month in the past twelve years. The next highest figure was in 1902, when the total for the eight months was $150,000,000. The most important sale of regular municipal bonds during the month was that of $3,000,000 permanent improvement bonds by the City of Chicago to be disposed of in 1905 and $2,000,000 to be delivered a year later. During the month New York City borrowed $8,575,000 on its revenue bonds at the low rate of 2 per cent.

It is said that the interests dominant in Union Pacific Company favor a policy the result of which would be that the convertible 4 per cent bonds would be paid off at 102½ after May 1, 1906. As part of this policy, it is also said that the dividend rate on Union Pacific will not be advanced from 4 per cent basis for one and a half to two years. It is true that Southern Pacific will be paying dividends previous to that time, but the Union Pacific will get increased revenue therefrom, but on the other hand, it will probably get no income from Southern Pacific securities for at least one year, and perhaps for a longer time. It could be paid a 4 per cent basis of dividends probably would not attract large conversion of the 4 per cent bonds. The expectation of Union Pacific financial management is that these bonds will be paid off at 102½ from the proceeds of a security of fixed yield without voting power.

A New York dispatch says: "Much criticism was heard in Wall street, Monday, on the proposed financial readjustment of the Consolidated Tobacco Company. The adverse comment centered on the clause which provides for increasing one of the company's capital. The following interview represents the view of several well-known bankers on the proposed merger: 'In reality the outstanding preferred stock of the American and Continental companies which are to be turned into bonds are bonds already, since both issues must draw dividends before anything is earned on the common stock. If the readjustment is approved by the $10,000,000 Consolidated common stock the fixed annual charge will amount to some $600,000 a year by the new charge. However, will enable the management to market the securities issued. Regarding the merging of the entire property into one company, the idea was to avoid any possible conflict with the government over the holding company.'"

Since there has been so much discussion about the decline in business of the United States Steel Corporation, figures gathered show that a remarkably reasonably approximate current running capacity of the plants of that gigantic concern. By comparison with a month ago the information gathered presents a satisfactory showing. The facts revealed indicate that a marked change for the better has taken place in the Iron and Steel situation, which does not apply to other companies, and officials of the big corporation are confident that the improvement is a stable condition. The greatest activity is exhibited in the wire, Iron pipe and the Coke and Steel rail mills, the latter perhaps being due in large measure to an effort to deliver all rails to the Canadian railroads within the time limit necessary to escape payment of new rail duty of $7.00 per ton. All departments show increases are due to normal conditions. Wire products in particular have increased since prices were reduced, and it is believed by officials that the full capacity of the plants will be operating by fall.

At the annual meeting of the American Ship Building Company in New York, the management will be able to report a much better situation both in the trade and more contracts on the books than for many months past. Within a few months ago, the company business has also changed, and the outlook for a decided revival in ship building on the great lakes is considered excellent. It is expected that the orders required for the contracts now booked total about 70,000 tons. Contracts for only 5,000 tons have been made, but the others will follow later on. Following its policy of paying 7 per cent dividends on the $7,900,000 preferred stock during the depressed period, the company will be able to enter upon active work Chicago Junction and Railway Company, with its principal office in Chicago, and with a capital stock of $15,000. The road is to be constructed from the west to the north boundary of Bureau County, Ill.

ITEMS OF GENERAL INTEREST.

New York Exchange 10c discount.

Documentary Sterling steady at 483.

Chicago Bank Clearings to-day, $27,840,686.

General situation—lack of frost—very liberal liquidation.

Currency shipments to the country have fallen off sharply the past few days.

Deliveries on September contracts to-day were 5,000 bu Wheat, 230,000 bu Corn and 20,000 bu Oats.

Ten packers purchased 11,200 Hogs to-day, shippers, 4,500; left over, 4,000. Market closed strong

Reported that 304,000 bu Wheat and 285,000 bu Corn were taken at the seaboard to-day for export.

Estimated receipts for to-morrow Wheat, 84 cars; Corn, 508 cars; Oats, 139 cars; Rye, 8 cars; Barley, 105 cars; Hogs, 11,000.

The receipts of Hogs at Chicago for the week will be about 105,000, compared with 114,650 for the corresponding week last year.

Some of the line boats have been withdrawn from the Grain market. They have all the package freight they can load at present

Directors of the Reading Company have declared a dividend of 2 per cent on second preferred stock, payable Nov. 10 to stock of record Oct. 21.

London cables: "Argentina Wheat quality as a rule is most satisfactory Reports indicate conditions favorable to growth and development of Wheat."

Directors of the Corn Exchange National Bank, Chicago, have declared the regular quarterly dividend of 3 per cent, payable Oct 1, to stockholders of record Sept. 12.

The receipts of Wheat at Liverpool during the past three days were 432,000 bu, of which 32,000 bu were American. Receipts of Corn, 312,000 bu, of which 120,000 bu were American

Argentine Wheat visible is 2,904,000 bu, against 3,088,000 bu the previous week, and 1,392,000 bu last year. The Argentine Corn visible is 4,294,000 bu, against 4,586,000 bu the previous week and 3,984,000 bu last year.

Local Securities were slow. It is claimed that the merger of City Railway and Union Traction has practically been completed, but City Railway shares declined 5 points, then reacted 4¾. Biscuit was weak and lower, and Can steady.

Shipments of Wheat from Argentina this week were 992,000 bu, against 1,000,000 bu the previous week, and 360,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 80,802,000 bu, against 57,828,000 bu same time in 1903.

Exports since July 1 were 16,151,000 bu, compared with 33,232,000 bu for the corresponding time last year

Stocks in New York closed higher, gains being sufficient to show the sentiment prevailing among traders. London sold Steel shares. There was good buying of Pennsylvania Western Railway shares were ½ to ¾ lower early, but closed ½ to 1 higher. Tractions were 1 lower to 1¼ higher. Eastern Railways were ¼ to 1½ higher. Money 1¼ per cent

The *Modern Miller* says: "The movement of Winter Wheat is well maintained, due to the high prices prevailing at the cumulative centers. The largest portion of the Wheat that is being marketed is low in weight, very little of it testing 60 lbs. Fall seeding is still favored by almost perfect weather conditions, and a large acreage and a good start to the crop is assured."

The United States Government's monthly *Crop Reporter* says of Russian crops: "Recent reports in regard Russian cereal crops are more favorable. Winter Wheat in European Russia, considered as a whole, is said to be satisfactory, and Spring Wheat about an average crop. Rye and Barley are represented as above average, and Oats as good. There are good accounts as to the quality of new Wheat arriving at Black Sea ports."

Broomhall Liverpool cable says: "Strength in America caused steady opening, but counteracted by Argentine report increased acreage, and market sold off ¾d Corn—Poor spot demand and easiness in American market caused loss of ½d. Spot ¼d lower. Argentine Wheat market tone has improved. Now firm, with good export demand. Arrivals from interior small and quality satisfactory Corn firm, with fair foreign demand. Arrivals liberal and condition satisfactory."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—A fair demand is reported and prices are holding steady.

WINTER WHEAT—Was weaker. Early in the day about full prices were paid, and a moderate demand existed but later became dull and closed 1@2c lower Local millers holding off, and outside millers made some purchases General demand speculative. No 2 Red in store quotably $1 14⅛@1 16¾, and fresh arrivals quotably $1 16@1 18, with a sale at $1 18. No 3 Red fresh arrivals sold free on board at $1 13@1 15 No 4 Red fresh arrivals free on board sold at 95c for ordinary, to $1 10 for good and at $1 14½@1 15 for very choice. No. 2 Hard fresh receipts quotably $1 14@1 15 No 3 Hard quotably $1 05@1 13, with a sale at $1 07. No. 4 Hard sold at 95c@$1 00, and closed at $1 08.

SPRING WHEAT—Was quiet for lack of offerings. Receipts small. Demand moderate, but in sympathy with decline in other Grains ruled weaker. No 1 Northern fresh arrivals free on board quotably $1 20@1 22. No. 2 Northern fresh arrivals free on board quotably $1 18@1 20. No. 3 Spring sold at $1 17 for hard variety and quotably down to $1 10 for ordinary. No. 1 Spring sold at 84@85c for ordinary to $1 17 for very choice.

REGULAR WHEAT—A good trade and fairly active market within a lower range of prices, the close showing declines of 1⅞c and 2¼c Liquidation was quite general both on local and outside account, the lower start being influenced by the decline on the Minneapolis curb, weaker English cables and sharp break in Corn. Improved weather and weakness in cash values in the Northwest were likewise factors which tended to depress values. India shipments were larger, 1,872,000 bu, and Argentina shipped 992,000 bu, making 80,802,000 bu since Jan. 1, against 57,828,000 bu last year Visible there is now reported at 2,904,000 bu, against 3,088,000 bu last week and 1,392,000 bu one year ago. Map showed clear conditions in all directions this side the Canada line and temperatures slightly warmer. Light scattered rains in Manitoba Liverpool quoted spot steady to 1d higher. Futures off ⅛d and London down ⅛d. Paris was up 1¼@1½c Antwerp was unchanged Berlin was ¾c better and Buda Pesth 1½c higher. Kansas City wired farmers' deliveries were decreasing rapidly, and also reported orders there for 300,000 bu to go to the Northwest. Duluth wired: "Spot Wheat situation weak and market East hard to find, offerings increasing" Another Duluth message said "Cash Wheat off 4c, due to absence of demand and increased country offerings" Primary receipts were 104 000 bu smaller than a year ago Arrivals in the Northwest were 239 cars larger than a week ago but 185 cars under last year Kansas City reported the sale of 10,000 bu No 4 Hard at $1 03½ to go to Quincy, Ill. *Modern Miller* was "bearish" on fall conditions through the Winter Wheat belt. Minneapolis stocks showed 350,000 bu decrease on the week. Exports were small—total for the week 936,000 bu and since July 1 total up 16,161,000 bu, against 33,232,000 bu one year ago Seaboard reported 38 boat loads accepted for export, part at outports. Kansas City estimates for to-morrow 234 cars. Receipts at Duluth 151 cars and 4 Minneapolis 351 cars, a total of 592 cars, against 398 cars yesterday, 293 cars a week ago, and 717 cars last year. Local receipts included 34 cars Winter, 8 cars Spring and none mixed, a total of 42 cars, against 82 cars last year. Included in the above was 1 car of contract grade. There were 16 cars and 55 000 bu taken from unlicensed elevators The estimated receipts for to-morrow are 84 cars. Withdrawals to-day were 43,100 bu. Receipts at Western points were 952,586 bu, against 1,057,098 last year. At Eastern points 42,423 bu, against 169,531 last year Shipments from Western points were 801,836 bu, against 513,741 last year, and from Eastern points 1 034 bu against 162,113 last year. Shipments of Flour were 9,924 brls. Exports of Wheat in Flour were equal to 46 592 bu.

Future Deliveries of Regular Wheat—Good trade and prices lower.

CORN—A large trade, with the feeling weak, the close showing declines of 1@1⅛c and 1¼@1⅜c. "Long" property was freely liquidated a feature being the large offerings from interests prominent on the buying side the past week. It was largely a weather market, though the lower cables and increased country offerings, particularly from Illinois points, all worked against the price and tended to discourage local "longs." Map showed somewhat higher temperatures West and Southwest and in the Ohio Valley, and fair and warmer conditions were generally predicted. Kansas City wired "Weather good and Corn doing fine" Lincoln wired: "No new reports; can't locate any damage of importance; weather again fine" Argentine shipments were large and also a factor, at 2,890,000 bu, making 57,311,000 since Jan. 1, against 50,280,000 bu in 1903. Present visible supply 4,294,000 bu, compared with 4,585,000 bu last week and 3,984,000 bu corresponding time one year ago Liverpool spot was ½@¾d lower and futures off ⅜@½d, due to the poor cash demand Receipts were 505 cars, making 3 892 cars this week, against 3 507 cars last week, and 508 cars are estimated for to-morrow Southwestern markets were weak, St Louis off 1⅝@1⅞c and Kansas City 1¼@1⅜c. Withdrawals, 480,000 bu. Exports for the week 429,000 bu, and since July 1 are 6,125,000 bu, against 10 814 000 bu one year ago. Western receipts, 735,000 bu; last year, 718 000 bu. Shipments, 752 000 bu and 575,000 bu respectively. Local arrivals 580,000 bu and shipments 654,000 bu. Shipping demand moderate and sales 215,000 bu. Seaboard reported 32 loads accepted. Car lots were weak and 1@1½c lower Demand fair. No. 2 closed at 52¼c. No. 2 Yellow closed at 53¾c. No 2 White sold at 52¼@52½c No. 3 sold at 52@52¼c, and closed at 52¼c. No. 3 Yellow sold at 53½@54c, and closed at 53½c No. 3 White sold at 52c. No. 4 at 51@53c—outside prices for yellow

Corn by sample—Was weak and prices 1@1½c lower. Offerings increasing and the demand only fair. Sales on track and free on board: No Grade sold at 48@50c. No. 4 at 50@53½c. No 3 at 52@53¼c. No 3 Yellow at 53½@54c No. 2 at 52½c. No. 2 Yellow at 54¼c. No. 3 White at 52@52½c. No. 2 White at 52½c. Billed through No. 4 at 50@52½c. No 3 at 51¼@52¾c. No. 3 Yellow at 52@53c. No 3 White at 50¾@51½c. No. 2 White at 51¾c.

Future Deliveries of No. 2 Corn—Active and weaker, closing 1@1⅛c to 1¼@1⅜c lower

SEPTEMBER—Sold at 51⅞@53⅛c. Opened at 53c and sold at 53⅛c, to 52c, to 52¼c to 52c, to 52¼c, to 51⅞c, to 52⅜c, to 52⅛c, to 52¼c, and closed at 52¼c asked

DECEMBER—Sold at 50¾@52⅛c. Opened at 51⅞c to 52c, and sold at 51¾c, to 52⅛c, to 51½@51⅝c, to 51⅝c, to 51⅛c, to 51¼c, to 50¾c, to 51c, to 50⅞c, to 51¼c, to 51c, to 51⅜c, to 51c, to 51⅛c, and closed at 51⅛c asked.

JANUARY—Sold at 51⅛c.

MAY—Sold at 49⅞@51¼c Opened at 51¼c to 50⅞c and sold at 51⅛c, to 51c, to 51¼c, to 50⅝@50¾c to 50⅞c, to 50⅛@50¼c to 50½c, to 49⅞c, to 50¼@50⅜c, to 50c, to 50⅜c, to 50⅛c, and closed at 50⅛c bid

OATS—Were liberally traded in. September held firm and distant futures advanced, but reacted and closed a shade lower. The undertone was stronger. Receipts are not large and there was fair investment buying by strong local interests. The pressure from hedgers is also growing lighter. There were rumors of large cash sales, but those reported were only 75,000 bu. Arrivals were 112 cars, with 139 cars estimated to-morrow. Withdrawals 51,850 bu and deliveries 20,000 bu. Seaboard clearances 7,000 bu Car lots to go to store were steady to ¼c lower. No. 3 White sold at 32¼@32¾c. Standard in store closed about 31⅝c

Oats by sample were taken fairly, as supplies were not large Prices were steady to ¼c lower. Sales on track and free on board: No 4 at 30½c. No 4 White at 32@32½c. No. 3 White at 32@33¼c. Standard at 32¼@33¼c No. 3 at 31⅛@31¾c No. 2 White at 33¼@33½c. Billed through No. 4 White at 31½@31¾c. No 3 White at 32¼@32¾c. Standard at 32¼@32¾c. At the river: No. 4 White at 30@30¾c No. 3 White at 30¾@31¾c. Standard at 31½@31¾c

Future Deliveries of Contract Oats Were irregular and closed stronger to a shade lower.

SEPTEMBER—Stronger Sold at 31⅜@31¾c. Opened at 31½c, sold to 31⅝c, to 31¾c; to 31⅝c at close

DECEMBER—Fair trading. Sold at 32½@32⅞c. Opened at 32½c to 32⅝c, sold at 32⅞c at close

MAY—Active. Sold at 35⅛@35⅝c Opened at 35¼c, sold to 35⅛c, to 35⅝c, to 35¼@35⅜c at close.

RYE Was quiet, and, while cash was steady, the market for future deliveries was easier and closed ½c lower Demand light and offerings moderate. There were two cars received and none withdrawn from store. No export clearances from New York No. 2 in store nominally 74c and fresh arrivals sold at 76¼@76½c. No. 3 sold at 73½c

Future Deliveries of No. 2 Rye—Quiet and ½c lower. September nominally 74c. December sold at 76¼c to 76c, and closed at 76c. May nominally 78½c.

BARLEY—Values for all grades were unchanged Offerings were more liberal, and the market favored buyers. Demand was good and all consignments taken, more choice to fancy Barley coming. Values ranged as follows Screenings quotable at 32@40c for common to very choice Poor, thin badly stained or dirty, feed Barley, quotably 37@39c Low grade malting, dirty small berry, poor color, 41@44c. Fair to good color, depending on weight and other conditions, ranged at 45@48c. Higher grade, or choice, ranged at 49@52c. Fancy quotable up to 54@55c

SEEDS—Clover was quiet and steady. There were no offerings on the open market. Flax was 1c lower, for both cash and futures. Timothy was quiet and easy.

Timothy—Cash Seed was heavy and a shade lower. Offerings were liberal. Demand was fair, but not at all urgent. Futures were inactive and easy. September was offered at $2 95, October was called $2 95, nominal January was nominally $2 97½ and March was offered at $3 05 Cash Seed was quotable as follows: Fair to good country lots about $2 35@2 40, high grade or choice $2 50@2 55, and fancy up to $2 75@2 80 Dark and dirty or badly hulled about $2 00@2 30, depending on quality.

Flax The market was 1c lower for both cash and future deliveries There was a small business done in cash Seed, but futures were inactive Receipts were 50 cars at Minneapolis, 11 cars at Duluth and 9 cars or 8,100 bu here There were no shipments. No 1 Northwestern or No. 1 from the Northwest sold at $1 25, for No. 1 $1 16½ was bid and Rejected ranged at $1 13@1 22, as to quality September offered at $1 17, and December at $1 20.

HOG PRODUCTS—Trade was fairly active in the market for Hog Products, but an unsettled feeling prevailed Considerable selling of October contracts, while a good demand prevailed for January Bulk of the trading was on local account. Outside orders were moderate Hogs were in fair supply and prices ruled steady Receipts at the leading Western packing points were estimated at 40,900, compared with 48,900 one year ago Foreign markets were reported steady, but quotations were reduced 6d on Hams and Backs and advanced 6d on Cumberland Sides. Domestic markets steady. Receipts of Products were liberal of Lard and Meats about 38 cars. Shipments were moderate—of Lard and Meats about 103 cars. Speculative markets opened a little steadier, and in a few instances slightly higher prices were obtained. Later, a weaker feeling was developed, with free offerings, and prices declined sharply, especially on the near deliveries Toward the close, a little more steadiness prevailed and prices rallied slightly, and the market closed steady, especially on January contracts. Demand on shipping account was good, and offerings were fair. Prices ruled rather steady, with fairly liberal trading.

Mess Pork—Business was fairly active in the market for Mess Pork, but the feeling was unsettled and rather weak during the greater portion of the session. Offerings were rather free, especially for October, while the demand was fair, particularly for January. Market opened rather steady, with 2½@5c advance in a few instances Later a weaker feeling was manifested, and prices declined 20c on October and 10c on January Toward the close, a little more steadiness prevailed, and prices rallied 5@10c, and the market closed steady. Shipping demand was light, and offerings were moderate. Cash lots quotable at $10 75@10 80.

SEPTEMBER—Quiet. Sold early at $10 80; closed nominally at $10 67½.

OCTOBER—Offerings were free, and the demand was fair. Sales were made at $10 62½@10 82½. Opened at $10 82½, sold to $10 62½, to $10 72½, to $10 70, to $10 75, to $10 70, and closed steady.

Lard Trade was rather active in the Lard market, and the feeling was easier. Offerings rather free of the near and moderate of the deferred deliveries Demand was rather active, especially for January. Foreign markets were unchanged Market opened rather easy, and prices ruled 2½c to be lower, but this reduction was partially recovered. Later, a weaker feeling was manifested and prices receded to inside figures, and the market closed rather steady Demand on shipping account was fair with moderate offerings. Cash lots quotable at $6 92½@6 95. Loose lots in fair request, with very small offerings. Prices higher, with buyers at 25c discount on October figures. Leaf Lard was in light demand, with the offerings limited. Quotably steady at about $7 00. Neutral in light demand, with moderate offerings. Prices quotably steady at $8 25@8 37½ for No. 1 and $7 75@7 87½ for No. 2

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Sept. 15.]

There is a moderate movement of Hogs into market channels. Total Western packing 305,000 Hogs, compared with 300,000 the preceding week and 350,000 two weeks ago. For the corresponding time last year the number was 320,000 and two years ago 285,000. From March 1 total is 10,710,000, against 10,860,000 a year ago, a decrease of 120,000. Considerable current offerings indifferent or poor in quality. Prices are higher prominent places at the close indicating a general average of about $5 75 per 100 lbs, compared with $5 50 a week ago, $5 35 two weeks ago, $6 00 a year ago, $7 50 two years ago, and $6 75 three years ago.

The speculative Provision market was only fairly active the past week and there was but little change in the range of values compared with a week ago. The strength in the Grains had some influence on the market, but not to any important extent. The trade is unsettled, and the market is working mainly independent of usual influences. Export clearances of Product were fair, but show a decrease as compared with the preceding week and a falling off as compared with the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year.
Pork, pounds	242,000	518,000
Bacon, pounds	10,886,000	15,497,000
Total, Meats	11,128,000	15,985,000
Lard, pounds	10,437,000	9,497,000
Total, Product	21,565,000	25,482,000

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since March 1, at undermentioned places compared with last year, as follows:

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Sept. 15.]

Most of the week now closed has been favorable for finishing conditions for the Corn crop, and while some light frosts have occurred in various localities there has been no injury to the crop thus far. A considerable portion of the crop, probably two-thirds or more, is practically secure now from such injury, while a large part of the remaining portion needs some two weeks more of good weather. Moderate frost would be beneficial to some of the Corn, by hastening its maturing process. The government estimate of 84 6 as the general average condition is suggestive of a crop decidedly larger than last year, and considerably in excess of average production. Statisticians differ in interpretation of the indication as to yield, from the government data, ranging from about 2,350,000,000 to about 2,500,000,000 bu. With no special drawbacks henceforth the crop should be expected to be near to or equal to the larger quantity here mentioned.

Few localities have much of old Corn. The marketings have been increasing in volume, implying inclination to secure current high prices, and reflecting greater certainty of conditions of favorable nature concerning the new crop.

The Government report of 66 2 per cent for Spring Wheat is as low as the trade could have anticipated. This is interpreted as pointing to 200,000,000 to 205,000,000 bu for this portion of the crop, implying 530,000,000 to 540,000,000 bu for the entire crop. It is hardly to be expected that the final official estimate will exceed the larger quantity here mentioned.

The Government estimate of the average condition of Oats, 85.6, points to about 875,000,000 bu for this crop, a quantity equaled only in the year 1902. The average quality is better than usual, and there is manifestly a widely prevailing inclination to hold this Grain, for the marketings are not liberal considering the extent of the crop.

THE WEATHER CONDITIONS.

Clear weather in all directions this side of the Canadian line. Slightly warmer. Manitoba has light scattered rains and generally cloudy.

Indications are for fair weather, with warmer temperatures.

ITEMS OF GENERAL INTEREST.

The rally in Mexican Central was attributed to expectation that President Diaz will recommend a 50c ratio for the Mexican dollar.

Paris advices of Sept. 5 say that reports of the harvest are still very contradictory. Recent weather has favored fall plowing.

The directors of the Equitable Trust Company, Chicago, have declared the regular semi-annual dividend of 4 per cent on the capital stock.

The United Gas Improvement Company declared its regular quarterly dividend of 2 per cent, payable Oct. 15 to stockholders of record Sept. 30.

The German Consul at Odessa reports that the harvest in that part of Russia was gathered in good condition, but the quantity gives less satisfaction.

The Union Pacific continues to show gains in net earnings, the increase for July over last year being $96,000. The Alton reports a decrease of $60,000.

The Homestake Mining Company directors have declared the regular monthly dividend of 25c, payable Sept. 26. Books close Sept. 20 and reopen Sept. 26.

The P. Lorillard Company has declared the regular quarterly dividend of 2 per cent on its preferred stock, payable Oct. 1. Books close Sept. 17 and reopen Oct. 1.

The American Locomotive Company has received an order for twenty locomotives from one of the leading railroads. This is one of the largest orders recently placed.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to Aug 27 have amounted to 118,400 bu, against 312,000 bu in the previous year, and 136,000 bu in 1902.

Directors of the Equitable Trust Company, Chicago, Tuesday, transferred $50,000 to their surplus account and declared a semi-annual dividend of 4 per cent, payable Sept. 15.

The Sloss-Sheffield Steel and Iron Company reports for the quarter ended Aug 31, surplus after charges and dividends, $40,815, compared with $15,332 in the same quarter last year.

An Antwerp cable, Thursday, said: "Our wants are being supplied by Eastern shipments. As a matter of fact, American quotations are a matter of little or no interest to the trade at present."

Fire, Wednesday, destroyed the Sawyer & Austin plant, Pine Bluff, Ark., one of the largest lumber mills in Arkansas. The loss is estimated between $400,000 and $500,000, fully covered by insurance.

A bill was filed in the United States Circuit Court at Springfield, Ill., Wednesday, asking the foreclosure of $75,000 worth of bonds of the Carlinville, Ill., Water Company. The company is alleged to have defaulted in the payment of interest.

The *Northwestern Miller* sarcastically remarks: "What a lot of groundless reports we get by wireless telegraphy. If the expertless experts could only use it they could fill the country up with Grainless heads on headless stalks of stalkless Wheat fields."

The Piermont, N. Y., Paper Company will soon open a store in New York City for the sale of its boards, under the name of Consumers' Box Board Company. It is reported that they will also handle wood pulp board. A lining machine is also to be put in.

The shipments of Flax Seed from India from April 1 to date amounted to 12,056,000 bu (Calcutta 7,616,000 and Bombay 4,440,000 bu), against 11,752,000 bu last season (Calcutta 7,552,000 bu and Bombay 4,200,000 bu), and 9,456,000 bu in 1902 (Calcutta 6,320,000 bu and Bombay 3,136,000 bu).

The Natoma Vineyard Winery, fifteen miles northeast of Sacramento, Cal., on the American River, together with the fermenting plant and distillery, was burned to the ground, Tuesday. The Natoma Winery was one of the largest in the State, and the loss probably will reach $300,000.

Reports from thirteen points in the heart of the best Corn sections in Illinois, received by a Chicago commission firm, Thursday, show light frosts, but no damage except a little on low ground at Nevada, Ill. Temperatures are rising all over the Corn belt, and danger has passed for the present.

The Crescent Oil, Asphalt and Gas Company has been formed with a capital stock of $1,000,000 common stock. The new concern has acquired all of the rights, titles and leaseholds, perpetual under certain royalties, of the Federal Oil Company, of Jasper County, Indiana. The Crescent company now has 30,000 acres of land, and practically controls the lubricating oil fields of the State.

Creditor bankers of the Republic Iron and Steel Company, according to latest developments, are not to buy the proposed bond issue outright. If the plans now under consideration do not miscarry, the issue probably will remain in the treasury of the company. Instead of selling the bonds, it is proposed to issue two year notes up to 75 per cent of the face value of the bonds, which the new issue will secure.

Judge Baker of the Federal Court, Wednesday, appointed a receiver for the Chicago, Indianapolis and Eastern Railway. This followed a suit by Arthur W. Howard of Chicago, representing the creditors. The road operates 45 miles of line from Muncie to Converse, Ind. Howard claims $12,500 on an overdue note, and says there are other debts aggregating $150,000, due and about to fall due, which the company cannot pay. It is alleged that the company will not be able to meet its pay roll.

The imports of Flour into London since July 1 have averaged 33,000 sacks per week, being thus the same as in the corresponding period last year; the ordinary weekly consumption has no doubt been lessened by the high prices, and the present total stock is probably 250,000 sacks, against 400,000 sacks on July 1, and 175,600 sacks on Sept. 1 last year. Liverpool has a stock of 40,000 sacks, against 28,000 sacks last year, and Glasgow 106,000 sacks, against 56,000 sacks last year.

The Lake Shore and Michigan Southern, reporting for the year ended June 30, shows an increase of $1,500,000 in gross earnings, but an addition of $2 500 000 to operating expenses. The net decreased $950,000 as compared with the preceding year. Fixed charges increased on account of the bond issue to pay for acquisitions of properties, but the "other earnings" from those properties did not increase as much as did the charges. The company finished the year with a surplus of $500,000, a decrease of $1,500,000 as compared with that of the preceding year.

The London *Times* has published its estimate of crop conditions on September 1, and we give the figures below, with comparisons:

	Sept. 1, 1904.	Aug. 1, 1904.	Sept. av., 10 years. 1894-1903.
Wheat	82	84	92 2
Barley	89	89	90.0
Oats	88	87	89.1
Beans	75	89.5	88.1
Peas	85	86	85 0
Potatoes	89	86	89.0
Roots	90	88	86 4
Grass	91	87	89 2

That the big railroads have not a great deal of faith in a heavy traffic movement this fall was evinced at a joint meeting of the Lake Line Managers and the Central Traffic Association held in this city Wednesday. It was unanimously decided to allow the present tariffs to stand until Nov. 30, which practically means the end of the season for vessels. The line agents will meet again Oct. 26 for the purpose of determining rates after November, but it is said there will be little use of such action, as most of the steamers will be ready to go into winter quarters by that time.

The *Mark Lane Express* of Sept. 5 says: "August was a fine harvest month, and the Wheat harvest was completed in nearly all the chief counties before its close. The rainfall (1.71 in.) was under an average, without showing anything that could be called drouth. The sunshine record of 240 hours was excellent, and only seemed moderate as coming after the great record of 261 hours in July. The mean temperature (59 degrees) was 1 degree below the average, as the nights were cool for the time of year. The condition of new Wheat deliveries has been slightly affected by the more humid atmosphere."

The financial reorganization plan of the Colorado Fuel and Iron Company, which has been declared operative by the bondholders' protective committee, requires the issuance of about 65 per cent of the authorized $45,000,000 of new bonds and nearly all $6,000,000 of authorized new common stock. Plans for the distribution of new securities are said to be ready. The holders of assenting debentures will receive nearly $14,000,000 in new bonds and $2,800,000 in new common stock for their holdings. The rest will go to redeem properties held by the Rockefeller-Gould control for money advanced to the company in 1903.

"The company has experienced a substantial increase in sales of Wire products, both domestic and foreign," said an officer of the American Steel and Wire Company, Wednesday, "and we are of the opinion that the demand will keep coming. Lower prices were all that was needed to stimulate the trade. The country is prosperous, but consumers of everything have felt that there ought to be some reduction in prices, and in most cases they are ready to wait until the same are made. Since our prices were lowered orders have increased fully 20 per cent, and nearly all of the plant capacity of the company is in operation."

The *Paper Trade Journal* says: "The Box Board people have entered into a 'gentleman's agreement,' so far as the 'leasing down' scheme is concerned. Gentlemen's agreements, it is well known, have no cohesive power, and only continue operative as long as every member is satisfied. There is nothing to hold them together. It will be seen from the report of the meeting of the Box Board men that no bond is required, no forfeiture mentioned, and nothing to hold the organization together but the simple signature of the manufacturers. As a consequence no one will expect the 'leasing down' scheme to hold together any appreciable length of time."

A member of the original Alton syndicate says: "About four years ago Alton common was selling at 40 and some people thought it was cheap. Since then gross earnings have crept up to over $11,000 per mile, the heaviest West of the Mississippi, and over $4,000,000 has been spent on the property out of earnings. The people who have bought this road, below 40, as I hear, might have bought it four years ago at the same price, but I doubt it. They have bought a reconstructed Alton at a price cheaper than they could have got it before it was reconstructed. I do not say it is worth 40. They have to prove that. I should not be surprised, however, if they do prove it, for all the road needed was a strong friend south of Kansas City and St. Louis, and it appears to have secured that."

The *Wall Street Journal* says: "The earnings of the Big Four system for the month of August surpassed those of any corresponding month in the last five years. The actual figures will be awaited with considerable interest, as the annual reports made a rather indifferent showing. Such a marked improvement as, according to a high official of the company, will be shown for the past month will bring quite a little encouragement to stockholders who were naturally disappointed over results for the fiscal year ending June 30. It is too soon to say whether the August results indicate the beginning of sustained improvement in business, but officers of the road are much encouraged."

The first half of September has made a fair showing in traffic of the Chicago elevated railroad lines, although the volume is said to be a little less than it was a year ago for the same period. During the past three or four years the various companies have had a normal gain from month to month, ranging between 4 and 8 per cent over the corresponding period of the previous year. These years, however, chiefly the spring and fall months, have been on the top wave of prosperity so far as industrial activity is concerned, and since the present year has shown a general reaction from such conditions, the city's transportation lines, principally the elevated roads, have been the first to feel that fewer people are being employed. Industrial conditions are improving, however, and elevated railroad officials feel that the former increases will come back.

In the plan by which the American and Continental Tobacco Companies are to be merged the bonds of the old companies will be secured by covenants on the part of the new company against mortgaging any of the property of the company or creating any specific charge upon its earnings except in direct and express subordination to the rights of the holders of both of said issue of bonds; also covenants requiring the new company to pay a trustee annually the sum of $500,000, to be used by the trustee in the purchase in the open market for retirement of said 6 per cent bonds at a price not to exceed 120, with a proviso that in case said 6 per cent bonds cannot in any instance be purchased at that price, said money shall be retured to the company; said covenant to continue until all of said 6 per cent bonds shall have matured or been retired. Said bonds shall also contain a provision for the maturing thereof at the option of a majority in amount of the bondholders upon the default by the company in any of said covenants or in the payment of interest.

The Chicago *Inter Ocean* says: "The Union Match Company of Duluth, which is counted the most important competitor of the Diamond Match Company, is said to be invading Chicago territory of the trust with striking aggressiveness. The Northern concern has sold matches in Chicago for some time past, but never before has it made such inducements to dealers as it is now doing. It is said that prices are being slashed wherever there is a chance to sell to customers of the Diamond company. Thus far the latter concern is said to have upheld prices, and the officials claim they will be able to continue the policy of ignoring their competitors, simply by standing on the merits of their goods. The trust, it is said, will not be restrained from carrying on a war in other localities, however, and it is understood has already opened a campaign of lower prices in territories outside of Chicago which are known as the stronghold of the Union company. Such tactics have been employed by the Diamond company during all the years of its existence, and have proved successful, except in the instance of the Continental Match Company, the project of Edwin Gould, which, after a fight lasting for years, the trust was obliged to buy. The argument is now made: Why would it not be just as logical that the company be made to buy out the Union concern before the present fight is over?"

The following table exhibits the number of Hogs estimated packed from March 1 to date in this city as compared with the returns of previous years.

1904	2,863,000	1901	3,490,000
1903	3,295,000	1900	3,460,000
1902	3,300,000	1899	3,528,000

The receipts of Flour and Grain at Chicago for the past week were equal to 7,923,000 bu and the shipments were equal to 4,041,000 bu. For the corresponding week in 1903 the receipts were equal to 6,824,000 bu, and the shipments to 5,339,000 bu. These figures are supposed to include the through shipments of Flour

The weekly statement of the New York banks shows the following changes: Decreases—Reserves on all deposits, $9,185,100; Reserves, less United States deposits, $9,071,350; Specie, $8,340,400; Legal Tenders, $120,405 Increases—Loans, $10,472,200; Deposits, $2,407,200; Circulation, $11,500. Banks hold $29,353,150 in excess of legal requirements.

Export clearances for the past week from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans, and Galveston included 81,000 brls of Flour and 69,000 bu Wheat, against 100,000 brls of Flour and 168,000 bu of Wheat the preceding week, a decrease of 19,000 brls of Flour and a decrease of 129,000 bu of Wheat. For the corresponding week last year the exports were 259 000 brls of Flour and 1,658,000 bu of Wheat

Stocks in New York weakened in expectations of a poor bank statement and on predictions of higher rates for money. Sentiment is "bullish," and the movement of prices irregular. Clover Leaf, Reading and Tractions made small gains. Pennsylvania and Steel shares also averaged better The close was at the low point, with losses of ⅜@⅞ on Western and ⅝@1¼ on Eastern Railway shares, and at losses of ⅜@1 point on Industrials.

A customs decision of considerable importance to Wheat-growing and Cattle-raising interests of the West and Northwest has been made by the Board of General Appraisers at New York It sustains a protest made by a Minneapolis dealer against the classification for duty as "Wheat" at 25c a bushel of an article described in the invoice as "Wheat Screenings" and returned by the deputy collector at Minneapolis as "feed Wheat." In reality it was said to be Wheat from Canada which because of early frosts had not matured. The claim that it is dutiable at only 10 per cent as an unenumerated unmanufactured article was sustained.

The agricultural returns show the acreage under Wheat in Great Britain to be 1,375 254 acres, and that in Ireland 31,228 acres; total for the United Kingdom, 1,406,782 acres, against 1,620,000 acres last year. The average yield per acre this year is by many estimated at not more than 28 bu, but we are inclined to put it at 29 bu, which would give a total crop of 41,000,000 bu. The smallest crop on record was 38,285,000 bu on 1,454,000 acres in 1895. The quality and natural weight of this year's Wheat are, however, superior to last year's, which help to slightly compensate for the deficiency in the crop. As the United Kingdom's total requirements, including seed, are now 260,000,000 bu, it will be seen that about 220,000,000 bu will have to be imported from abroad.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate and prices easy as quoted on second page.

WINTER WHEAT—Was in fair demand at about 2@4c decline in prices Buyers were not picking up the offerings so eagerly, but that would naturally be expected with the speculative market in the condition it was. Millers made some purchases and speculators also buying Choice Wheat remains scarce No 2 Red in store was quotably $1 11¼@1 14½, and fresh arrivals free on board nominally about $1 14 No. 3 Red fresh arrivals free on board nominally $1 11@1 13. No Grade Red sold at 95c. No. 2 Hard fresh arrivals free on board quotably at $1 10@1 12, with a sale billed through at $1 11. No. 3 Hard fresh receipts sold at $1 07@1 08.

SPRING WHEAT—Was in light supply and in moderate demand. Prices about 2@3c lower. No 1 Northern fresh arrivals is free on board quotably about $1 18 and No 2 Northern fresh arrivals nominally $1 16. No. 3 Spring nominally $1 05@1 15 for poor to very choice No 4 Spring sold at 78c for poor, at $1 00 for fair, at $1 09@1 10 for good, and $1 15½ for fancy hard

REGULAR WHEAT—A large trade and active market, the feeling being a continuation of that prevalent yesterday, still lower prices being recorded. Last trades showed losses of 3⅞c and 4⅛c. There was very poor support and the break was continuous, many stop-loss limits being uncovered on the decline "Shorts" were the principal buyers. "Long" property came out freely from the start, the news from Russia, declines abroad and more favorable weather conditions being the dominating influences Bastoff-on-Don, Russia, reported shippers there busy executing enormous sales for autumn shipment. Liverpool quoted spot steady, while futures were off ⅞d, and London came unchanged to ½d lower. Paris was up 2¼c, Antwerp unchanged, Berlin declined ¼c and Buda Pesth ⅜d. Private Liverpool cable read as follows: "American Wheat has no interest whatever for Europe at present level." Weather map was excellent in all districts except Manitoba where light and general rains fell, with temperature lower. Showers predicted for Dakotas. Dunkirk, France, was reported as buying a cargo of India Wheat off coast *Broomhall* estimates the world's shipments at 10,000,000 bu and predicted a decrease in the quantity on ocean passage Imports into the United Kingdom this week 5,600 000 bu; last week, 4,000,000 bu; last year, 5 056 000 bu. English farmers deliveries were 416,000 bu at 89½c, against 388,000 bu last week at 90¾c and 360,000 bu one year ago at 84c. The English visible supply increased 1,749,000 bu, against 1,105,000 bu increase for the corresponding week in 1903. Northwest cars were 138 larger than last year and total for the week 2 809 cars, against 1,977 cars previous week and 4 370 cars one year ago. Australian shipments were considerably larger at 1,100 000 bu. Local weekly receipts were 918 000 bu and shipments 461 000 bu Primary receipts this week 5,598,000 bu, against 5,513,000 bu last week and 7,146,000 bu one year ago. Kansas City and St. Louis received 416,000 bu, against 256,000 bu one year ago. Receipts at Duluth 296 cars and at Minneapolis 324 cars, a total of 620 cars, against 532 cars yesterday, 255 cars a week ago, and 483 cars last year. Local receipts included 60 cars Winter, 7 cars Spring and 12 cars mixed, a total of 79 cars, against 68 cars last year. Included in the above was 1 car of contract grade. There were 26 cars and no bu taken from unlicensed elevators. The estimated receipts for Monday are 53 cars. Withdrawals to-day were 83,600 bu. Receipts at Western points were 929 482 bu against 968,129 last year. At Eastern points 50 865 bu, against 153,396 last year. Shipments from Western points were 515,172 bu, against 561,746 last year, and from Eastern points 14,896 bu, against 64,106 last year. Shipments of Flour were 14,376 brls. Exports of Wheat in Flour were equal to 79 588 bu

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, September 16, 1904

A hardening is perceptible in the local money market, and rates are still easy as compared with last year, and are 1 per cent lower. There is a growing demand for money from all classes of borrowers with the Grain men the best customers of the banks. Currency is moving to the country in about a normal volume and there is a steadiness which means that it is likely to continue from this on. Borrowers having the best of collateral are obliged to pay 4½ per cent, and some 5 per cent. Bankers are carrying a high average of deposits and the latter are the largest on record both for National and State Banks. Banks are carrying 25 to 30 per cent more of their country correspondents money than last year. In New York time money was in better demand and steady at 2½ to 3¾ per cent for time.

New York exchange was slow and easy at 10c to 35c per $1,000 discount.

Foreign Exchange was easier, with more bills offered. Shippers' sixty documentary sterling bills on London ranged at 483 to 483½ and closed about the bottom.

Cotton in New York averaged higher. Speculation was active, with the buying power more aggressive, large operators buying on all weak spots and selling on the advances. The South and Europe did considerable buying, which offset all "bearish" influences. Crop reports from part of the Cotton belt were unfavorable, and in Texas the boll weevil continues to injure the growing crop. Receipts are increasing, and met a good demand. Closing prices were at gains of 3@16 points for the week.

Local securities were more actively traded in and prices on most shares averaged higher. There was a reflection of the activity and strength in Wall Street and a more general trade. Among the most extensively handled shares were Can preferred, which made a fair advance, but reacted from the top figures. Of the other Industrials the changes were small. In the Tractions fair buying was a feature and Union Traction advanced, but City Railway made a good decline and a sharp recovery. Elevated shares were slow, but held well. In bonds more buying was observed and there was a steadiness in prices.

The New York Stock market continued its rise of the past ten weeks with increased trading, the largest volume of the year being noted. On several days trading aggregated over 1,000,000 shares. There were several weak turns, due to unfavorable crop news from the west, and to the confirmation of crop damage to Wheat by the Government reports. But when the news was really the worst and Grain prices the strongest, stocks were also unexpectedly advanced. The advance put most of the list at the highest level of the year. It has been due to investment buying, many trust companies and investment institutions having been in the market constantly for months and have greatly increased their holdings. Leading capitalists and the public have also bought, and there has also been more or less manipulation. The "short" interest has fought the advance and covered on the high spots. Money has been easy, which has encouraged buying of good securities. Extensive buying and advances in Atchison were attended with rumors that a new deal is on which will greatly benefit that road. Heavy dealings in Southern Railway, Missouri Pacific and Steel shares were features of the week, and the best prices of the season were made. It was one of the rumors that Pennsylvania had acquired large holdings in Southern Railway. Low priced shares were in active demand and the dealings in many were especially heavy. The bond market was also active with higher prices made. At the close the list showed good gains for the week. Sales on the New York Stock Exchange for the week were 6,102,000 shares, against 3,657,000 shares the previous week, and 2 362,000 shares for the same time last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

In the mercantile trade there was good activity and a healthy feeling. The only uneasiness was created by frosts over the Corn belt, but it will take several days to tell what effect it has on the crop, and a longer time to determine the influence on general business. The buying of all kinds of goods has been of moderate volume in sections where there was a possibility of the Corn crop being injured by an early frost. Merchants have small stocks, and are experiencing an average volume of trade. Prices on Cotton goods are firmly held. Exports to China are increasing. The Iron and Steel trade has a better tone, due to the decline in prices last week. Manufacturers are getting more orders, and jobbers report a good run of small buying orders from all over the country. Wire nails are having an increased sale. Pig Iron is going at previous prices, but sales are mainly in small lots. Coal is being shipped more freely to the West and Northwest, and local consumption is increasing. The movement of lumber is enlarging in the territory surrounding Chicago, and local consumption is also heavy. In the Northwest there has been extensive cancellation of early orders, owing to the loss of the Wheat crop. Yellow pine is selling at $1 00 to $1 50 a thousand feet above the prices made early in the season. In groceries, paints, oils and all other lines there was a good distribution.

COMMERCIAL.

Business in commercial circles on the Chicago Board of Trade was quite satisfactory the past week. Outside interest in the speculative markets was more marked and fluctuations of such character as to attract increased local interest in the principal markets. The Government report no doubt proved a guide for many traders in their operations, and weather conditions continue to be watched closely. The trade in Hog Products is also gradually broadening and now that the labor troubles at the Stock Yards have been adjusted, renewed activity will probably be witnessed in the various descriptions of the Provision list. The receiving and shipping branch of the trade is also enlarging and with more settled prices for futures, the trade with Europe will no doubt revive.

Chicago shippers have secured part of the concessions asked for from the Central Traffic Association. Recently the transit privileges were withdrawn, which placed shippers at a disadvantage. Without transit privileges millers and shippers here cannot compete with those at Mississippi or Missouri River points. The following notice was sent out from the Traffic Association: "That we accord transit privileges on shipments of Wheat originating at Missouri River points or beyond, destined to Central Freight Association points, subject to a minimum of 60,000 lbs per car, with the understanding that the payment of switching and transfer is to be left to the option of each individual road."

There is no particular change to note this week in the crop situation abroad. Cables as received indicated poor yields in the United Kingdom and crop conditions in France, Germany and Spain were reported unchanged. Corn yields in Italy were said to be better than expected. Most of the reports received from Russia indicated that ports were receiving fair supplies and fall work well under way. Abundant rains occurred in Roumania and plowing is being advanced rapidly. Beneficial rains fell in India and the crop promise in Argentina is said to be excellent and the Wheat area larger than last year. Returns from 50 governments in European Russia make crops as follows: Wheat, 351,000,000 bu; Rye, 722,000,000 bu; Barley, 200,000,000 bu; Oats, 662,000,000 bu. Last year—Wheat, 454,000,000 bu; Rye, 714,000,000 bu; Barley, 277,000,000 bu; Oats, 548,000,000 bu.

Weather and crop conditions in the United States and Canada were rather unfavorable the past week. Temperatures were below normal, and fears were entertained lest the late Corn had been damaged by the frosts of the 13th and 14th. Frost across the line in the Northwest Territories also caused some uneasiness, estimates as to the amount of Wheat uncut ranging from 20@25 per cent. Threshing returns from the Dakotas were very uneven. The Corn crop is now estimated at 2,275,000,000 bu to 2 350,000,000 bu. The Government report indicated a Wheat crop of 530,000,000 bu, 2,346,000,000 Corn, 785,000,000 bu Oats, 26,500,000 bu Rye and 134,000,000 bu Barley. Condition of Flax Seed was reported 85.8 per cent, against 80.5 one year ago. Condition of Potatoes 91.6 per cent, against 84.3 in 1903. Rice 89.7 per cent, compared with 93.6 one year ago. The number of Stock Hogs now being fattened was reported 2.4 per cent less than one year ago. Condition as to size and weight 94.2, compared with 95.1 one year ago and a seven-year average of 94.3.

The movement of Grain from the farms and interior elevators was moderately free during the week just closed. In the Northwest, however, there was a marked shrinkage in the marketings of Wheat compared with last year. The poor showing at the principal distributing points was partially due to the fact that interior mills are taking in the choicer grades. Corn moved freely through the West and Central West and receipts at accumulating centers were liberal. The Wheat movement in the Southwest showed a moderate falling off, but at the same time is still rather free. Oats continue to come forward in large quantities and the quality is excellent. The movement of Grain toward the seaboard was fair, considerable Corn now being headed for Eastern distributing centers, the late rate being 1½c. Arrivals at Atlantic Coast points were fair. Bookings at Gulf and Atlantic ports were meagre. Exports of Flour and Wheat were small and the total for August 4,094,000 bu, against 11,933,600 bu in 1903. Corn clearances last month were 3,094,000 bu, compared with 3,180,000 bu during August one year ago. According to the official visible supply as compiled by the Secretary of the Chicago Board of Trade there was an increase in Wheat Corn and Oats, and a decrease in Rye and Barley. Vessel owners are holding out for a 3c rate on winter cargoes of Grain. There are said to be a large number of boats whose owners would willingly tie them up for the winter with Grain in their holds at 3c, but they will not consider the 2½c rate now bid at Duluth on Flax, as the risk is considered too great at that figure.

A very satisfactory speculative business was transacted in the leading markets on 'Change this week. Considerable activity was witnessed in all the pits, Wheat easily being the leader and center of interest. Higher prices were established the first of the week under a miscellaneous demand, the Government crop report being the "bull" motive in Wheat, which the fall in temperatures over the Corn belt caused "shorts" in this cereal no little amount of uneasiness. New high records was established in Wheat, but at the improvement recorded, there was quite general realizing and profit-taking, causing a material recession in values. Corn, too, weakened and Oats sold off in sympathy. Toward the close the situation was somewhat steadier. Hog Products were moderately active with a fair trade. Rather more interest in contracts for January. Rather a steady feeling was prevalent early in the week but closing prices show some decline from a week ago. "Shorts" bought moderately on the weak spots, while realizing by "longs" was a feature on the rallies. Hogs were in larger supply and prices irregular. The recent labor troubles being settled outside interest will probably increase. Packing of the West for the week report 15,000 Hogs short of last year, and that for the season 10,740,000, against 10,860,000 for last year—a decrease of 120,000 Hogs.

A good trade was reported in cash Grain this week, though the offerings showed some falling off the closing days. Demand was very fair from the usual sources. Millers as well as speculators purchased Wheat in good amounts and the call from outside points for round lots was noticeably enlarged. Prices were higher. Corn was in good demand, both on local and shipping account. Oats sold well, and while the receipts were not as liberal, the quality was excellent. Rye was quiet, but firm. A fair demand was reported for Barley and prices were steady. Seeds were quiet, though there was more doing in Timothy. Hay was quiet and steady. Hog Products were in fair demand and offerings somewhat enlarged. Inquiry mainly for domestic wants. Exporters backward about purchasing. Sales were fair, and prices well supported on most descriptions. Exports for the week compared with corresponding week in 1903, exhibited decreases of 1,350 brls Pork and 9,162 boxes Meats, and an increase of 540,000 lbs of Lard.

FREIGHTS—Eastern and Western roads are having a good traffic and equipment is well employed. Eastern roads will not advance rates until Nov. 1. Rates are holding steady. The tariff is as follows:

To—	From Chicago. Domestic.	From Chicago. Export.	From Miss. River. Domestic.	From Miss. River. Export.
Boston	19½	13½	22½	16
New York	17½	13½	19½	16
Philadelphia	16½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News	14½	11	16½	14½

Flour rates are to be 17½c domestic and 15c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 3c per bu on Wheat and Corn. There will be no advance until Oct. 1.

Ocean rates on Grain are firm, with a fair demand for tonnage. Rates on Grain are 1d per bu from New York and 1d from Boston. Through rate on Wheat from Chicago to Liverpool is 6.15c per bu and Corn 6 02½c. Flour 19c per 100 lbs and Provisions 35½c per 100 lbs.

Lake rates are easier, with an increased demand for boats, at 1¼c on Wheat and 1⅛c on Corn to Buffalo.

FLOUR—Most millers reported more doing in this market, sales on local and domestic account gradually enlarging. Demand was more general, due to the depleted stocks in most sections tributary to the local market, and millers as a rule were in a better position to dictate prices. The large consumers as well as local jobbers no doubt came to the conclusion prices are to remain around present figures for a time at least and many were more disposed to provide for future wants. The Eastern demand, too, is improving, outside dealers also laid in larger supplies. Most of the local mills are running full time and have good-sized stocks of low-priced Wheat, and sales on the present basis of Flour show very fair margins. Foreign markets are firm, both London and Liverpool displaying an advancing tendency, but not in proportion to the rise on this side. Consignments to the local market are small and the bulk of the local stock is held by the large milling interests of the Northwest. Stocks in the United States and Canada were reported at 1,672,000 brls on Sept. 1, against 1,669,000 brls August 1 and 1,532,000 brls Sept. 1, 1903. The output of the principal mills in the Northwest the past week was 344,000 brls, as compared with 438,000 brls for the corresponding week in 1903. There is little change to note in prices on mill offals. At the close of the week the following prices were asked for the various grades:

MILLSTUFFS—The receipts of Bran have been larger during the past week and the market easier. A fair demand existed, and sales of 100-lb sacks, sacks included, were made at $17 50@18 00 per ton, and in bulk at $17 00.

WINTER WHEAT—A firm feeling existed during the past week, and prices were advanced 5@7c for the good to choice Wheat, while the poorer lots did not improve to the same extent. A large business was transacted, and besides the numerous cars which were received there were some round lots sold out of elevators and private warehouses. The demand has been very good, both on milling and speculative account. Millers purchased rather more freely than last week. The inquiry centered in good to choice Wheat of the various grades, especially choice, while the poor Wheat ruled very dull and was not particularly wanted by anyone, hence did not sympathize in the advance to the full extent that choice did. The crop news from the Northwest has been rather sensational, and this has helped to bring about the advance. The stock of No. 2 Red in store was 308,000 bu, against 410,000 bu the previous week. For the week the receipts were 622 cars, against 867 cars the previous week. There were withdrawn from public elevators 83 875 bu, and from private warehouses there were withdrawn 169 cars and 145,603 bu. No. 2 Red in store ranged at $1 08½@1 09¼, up to $1 1 @1 18¼ or from 1½c under May to full May price. Fresh arrivals free on board sold at $1 10@1 12, and ranged up to $1 17 @1 19. No. 3 Red fresh arrivals free on board sold at $1 05@1 09, up to $1 08@1 16½, and at the river at $1 09@1 11. No. 4 Red fresh arrivals free on board sold at 93c@$1 14 for poor to very fancy, and at the river at $1 1. No Grade Red sold at 90c@$1 06. No. 2 Hard fresh arrivals free on board sold at $1 05@1 09, up to $1 10@1 16. No. 3 Hard fresh arrivals free on board sold at $1 00 1 06, up to $1 08@ $1 15, with a car of soft at $1 16½, and sales at the river at 97¼c@$1 11. No 4 Hard fresh arrivals free on board sold at 98c@$1 09, and at the river at 93¼c @$1 02. No Grade Hard sold at $1 00@1 05. No. 3 White sold at $1 13@1 15.

SPRING WHEAT—Only a light business was transacted during the past week, due to the small receipts. The feeling has been firm and prices higher all around. The receipts have not increased any and the movement is rather late. The demand was good for choice Wheat, while the poor Wheat, of which occasional cars arrived, has been hard to sell. Some of the Wheat was of fine quality. The receipts for the week were 67 cars, against 21 cars last week. There were withdrawals from public elevators 12,000 bu and 19 cars from private warehouses. No 1 Northern fresh receipts free on board ruled nominally $1 16@1 18, up to $1 20@1 22. No. 2 Northern fresh arrivals free on board sold early in the week at $1 11½, and ranged up to $1 18 @1 20. No. 3 Spring fresh receipts free on board sold at $1 02@1 13 early in the week, up to $1 15@ 1 18 later, with sales at the river at $1 09@1 16. No. 4 Spring fresh receipts free on board sold at 79@90c for poor to ordinary, to $1 05@1 10 for good, and $1 15@1 18 for fancy hard variety, with a sale at the river at $1 08¼.

REGULAR WHEAT—The close shows gains of 4¾c to 5¾c compared with the final figures of last Friday. Transactions were of large volume and the market active and excited most of the week. Surrounding conditions were in the main favorable to the "long" interest, the chief of which was the Government report, adverse weather in the extreme Northwest and improvement in the Flour situation. The official verification of the magnitude of the damage to the Spring Wheat crop in the Northwest by rust, cutting off about 61,000,000 bu from the August promise, was naturally the principal "bull" incentive. The frosts reported in Manitoba and the Northwest Territories the first of the week added to the "bull" enthusiasm. There was an active and general demand, and while the offerings in the way of realizing and profit taking by "longs" were liberal, the market advanced steadily and was not checked in its upward course until December touched $1 16¾ and the May $1 18¾@1 18⅞. The market had vigorous support from local "bull" interests, "long" lines in many instances being added to, while "shorts" covered freely on the advance. The Government report made the average condition of Spring Wheat 66 2 per cent. This being the first time that Spring Wheat has been separately reported upon on September 1, the only comparison that can be made is with the condition one month ago, which was 87.5. The condition in the five principal States was reported as follows: Minnesota 69, North Dakota 63, South Dakota 56, Iowa 66, and Washington 80, a decline during the month of 23, 27, 29, 14, and 1 points, respectively. This indicates a crop of 201,997,000 bu, which, with 328,231,000 bu Winter, makes a total of 530,258,000 bu, against 637,824,000 bu last year and 670,063 000 bu two years ago. The following table shows the estimated yield in the three Northwestern States as compiled by the DAILY TRADE BULLTIN:

State—	Area.	Av. yield.	Total, bu.
Minnesota	5,500,000	12.40	68,200,000
South Dakota	3,500,000	9.10	31,800,000
North Dakota	4,800,000	10.65	51,100,000
Grand Total	13,800,000	10.95	151,100,000
Estimated last year	13,800,000	13.07	180,300,000

Around $1 16¾ for December and $1 18¾ for the May "long" Wheat came out in large quantities and prices reacted to $1 13 and $1 14⅝ respectively. Influential local as well as warehouse interests sold, and while the offerings were well taken, the price gradually yielded to the increased selling pressure. Cables did not respond freely to the upturn on this side and the foreign demand was rather disappointing. The weekly weather crop bulletin claimed the weather had favored threshing in the Spring Wheat regions, and this work general in North Dakota and Northern Minnesota. Harvesting, which was delayed in the first-named State, has been finished, except some late Grain. *Broomhall's* weekly foreign crop summary said: "United Kingdom—Threshing returns confirm earlier reports of poor yields. France, Germany and Spain—Crop indications unchanged. Weather is generally favorable. Russia—Most ports are receiving good supplies; fall work has been helped by beneficial rains. Roumania—Abundant rains have fallen and plowing is being actively pushed. Receipts of Wheat decreasing. India—Further rains have occurred since those of last Thursday. Argentine—It is predicted that Wheat shipments will decrease sharply in October as crop is almost exhausted." Primary receipts the past week were liberal, and the total from June 27 to Sept. 12 aggregate 45,327,000 bu, compared with 41,106,000 bu in 1903 and 64,362,000 bu in 1902. Exports were moderate, totaling but 936,000 bu and making 16,161,000 bu since July 1, as against 33 232,000 bu for the same period in 1903. The new business booked on the the coast was small. "I expect to bring some white Wheat around the Horn to New York from the Pacific Coast," said a New York Grain merchant and exporter who was in Chicago on Monday. "This Wheat cannot take the place of the Red Winter or the Northern Spring, but we can find a place for it. The Washington crop is the largest and finest in years. The bringing of Wheat around Cape Horn by steamer is a new thing, but it is not strictly an experiment, as I have brought Barley that way on previous occasions. The Grain will come through in forty days. The Government report shows us just where we are this year. If we export anything it will be in the shape of low-grade Flour that this country does not want. I expect to see the equivalent of possibly 70,000,000 bu of Wheat go out in this form, but not over 10,000,000 bu Wheat at the outside. Even this small total of exports will leave us in a tight pinch for supplies, as we have carried over but a small quantity from last year's crop." World's shipments last week were 10,432,000 bu, against 11,052,000 bu last week and 13,450,000 bu one year ago. The quantity on ocean passage increased 568,000 bu and is now 40 848,000 bu, against 29,984,000 bu one year ago. The visible increased 301,000 bu; last year increased 816,000 bu. Total, 13,115,000 bu; last year, 14,166,000 bu; in 1902, 22,256,000 bu. Local public stocks increased 308,000 bu and are 1,781,000 bu, against 2 011,000 bu in 1903. Stocks here in all positions reported 4,081,000 bu, an increase of 390,000 bu. Stock one year ago was 6,215,000 bu. Contract stocks decreased 60,367 bu, and now include 363,849 bu, against 2 500,357 bu the same time last year. Argentine shipments were more moderate at 992,000 bu. Total since the first of the year aggregates 80,802 000 bu, as compared with 57,828,000 bu for the same period in 1903. The visible supply was reported 2,904 000 bu, as against 3,088,000 bu last week and 1,302,000 bu one year ago.

CORN—There was an immense trade in the Corn market the past week and the feeling developed was greatly unsettled. Much higher prices were established the opening days, followed by a material reaction, the close showing a loss of ⅜@½c for December, while May gained ⅛@¼c. The weather was the all-important influence, though the advance in Wheat proved no little help in bringing about the early advance in values. The frosts through the West and Northwest Sunday and Monday started "shorts" to covering and the advance was helped along by the large purchases of December by interests who had representatives going over the Corn belt. This buying was of a most influential character, and before the demand was satisfied December touched 54⅛@54¼c and May 53½c. "Shorts" covered freely on the advance, which was rapid, but around the above figures considerable "long" property came out, which resulted in a decline to 50¼c and 49⅞c respectively. Improved weather and more liberal country offerings were the "bear" factors the closing days. Conservative interests who apparently were in a position to be well informed, claimed at least 75 per cent of the crop was past the danger point and should the other 25 per cent be caught by frost it could be used for fodder on the farms. The Government weekly crop bulletin, too, was construed as rather "bearish," claiming the damage resulting from the light frosts on the 11th and 12th over the extreme northern portion of the Corn belt were mainly confined to Minnesota, Wisconsin and Upper Michigan. Nearly the whole of the most productive of the Corn belt experienced very favorable conditions for maturing the crop, which with favorable weather, will be safe from injury by October 1. In the more northerly districts. Much is already safe, cutting being general in central and southern portions of the Corn belt, and is in progress as far north as South Dakota, and Southern Minnesota. Late Corn has suffered from drouth in portions of Ohio Valley and Middle Atlantic States. The Government report issued late Saturday made the condition of Corn on September 1 84.0 per cent, as compared with 87 3 last month, 80.1 on September 1, 1903, 84.3 at the corresponding date in 1902, and a ten-year average of 79.6. On an area of 91,894,000 acres, this indicates 2,346,051,000 bu, against 2,244,176,000 bu in 1903. The following table exhibits the estimated yield of Corn for 1904, as indicated by the September report of the Department of Agriculture, in what are known as the Corn surplus States, compared with the yield in the past two years:

	1904, bu.	1903, bu.	1902, bu.
Ohio	93,000,000	88,000,000	122,000,000
Indiana	137,000,000	143,000,000	171,000,000
Illinois	313,000,000	264,000,000	372,000,000
Missouri	158,000,000	203,000,000	264,000,000
Kansas	176,000,000	172,000,000	223,000,000
Iowa	284,000,000	229,000,000	298,000,000
Nebraska	270,000,000	172,000,000	253,000,000
Total	1,431,000,000	1,271,000,000	1,703,000,000

The *Orange Judd Farmer* issued a report showing the maximum possibility of the Corn crop 2,271,000,000 bu. and this may be further reduced by killing frost before Oct. 1. The report says a deficient stand in Iowa was offset by heavy earing, but the crop is late, most of it in roasting ear stage and maturing slowly. It will need between two and three weeks to mature 85 per cent of crop. Nebraska north of the Platte River in same position as Iowa. South half greater part of crop already safe, but yield uneven and ranging from small percentage that is absolute failure up to fair rate of yield. Kansas Corn is matured except for few fields in eastern valleys and moderate percentage northeastern counties. Stand bad and much abandoned. Husking will be disappointing and will show State not much above 125,000,000 bu, against 171,000,000 bu last year and a promise of 225,000,000 bu originally on present acreage. Missouri promises three-fourths yield, with inferior stand and poor filling. Crop north half green and in danger from frost for ten days to two weeks yet. Crop Central and Southern Illinois practically made, with only few late fields in danger. Yield ranging from poor to extra good and for whole makes fair average crop. In north third of State crop still green and needs two weeks' protection from frost. Receipts this week were liberal at 3,692 cars, compared with 4,864 cars last week and 3507 cars one year ago. Foreign markets were strong and higher, but the call for the cash article from the other side was disappointing in view of the shortage in the fodder crops. There was, however, a good demand from New England and sales were moderately large. Exports were small, the total for the week being 429,000 bu, and since July 1 aggregate 6,125,000 bu, compared with 10,814,000 bu one year ago. Withdrawals from store here were large and charters made on a basis of 1¼c to Buffalo. The visible increased 767,000 bu last week; last year increased 472,000 bu. Total 4,701,000 bu; last year 6,025,000 bu and 2,264,000 bu in 1902. Local public stocks decreased 74,000 bu and are 1,317,000 bu, against 2,435,000 bu in 1903. Stocks here in all positions were reported 4,293,000 bu, an increase of 520,000 bu. Stocks a year ago 5,002 000 bu. Contract stocks decreased 76,791 bu and are now 1,311,915 bu, against 2,309,225 bu one year ago. World's shipments were 4,188,000 bu, against 4,126,000 bu previous week and 4,320,000 bu one year ago. Quantity on ocean passage increased 1,012,000 bu and is now 20,066,000 bu, against 21,452,000 bu same date in 1903. Shipments from Argentine were again rather free at 2,390,000 bu, making 57,311,000 bu since January 1, against 50,285,000 bu one year ago. The visible there was reported at 4,291,000 bu, against 4,558,000 bu the previous week and 3,984,000 bu one year ago. The call for car lots was quite brisk most of the week and prices higher for all grade, as will be noted in the table on the opposite page.

OATS—Averaged lower the past week, but closed at a fair reaction from the inside figures. At the low point May sold at 34¾c, December at 32c, and September at 31½c. The close was at 31⅝c for September, 32⅞c for December, and 35¼@35⅜c for May, showing gains of ⅛@½c from the previous week's close. The decline created a liberal "short" interest, and the elimination of the latter later in the week resulted in a reaction of ¾@1¼c. The advance brought out good selling by "longs", and prices receded from the top. The trade was not heavy at any time, there being too much excitement in Wheat and Corn for Oats to receive a large attention. Prices are down to a point where they attract investment buying by strong interests. Receipts are falling off, as farmers' deliveries are lighter, and the country elevators are stocking up liberally throughout the West. Stocks are piling up at terminal points, and at Chicago are 9,116,000 bu, an increase of 1,812,000 bu last week. Stocks in private elevators are 5,519,000 bu. Contract supplies here are 1,907,812 bu an increase of 670,595 bu for the week. *Bradstreet's* available supply increased 3,540,000 bu, and the visible supply increased 2,328,000 bu, and is 11,334,000 bu, against 7,422,000 bu last year, being nearly up to the high mark. Shipping business was slightly improved, although the Northwest continues to undersell all competitors in eastern markets. Arrivals for the week were 933 cars, against 1,215 cars the previous week, and 780 cars last year. In the sample market reduced offerings and the strength in futures had a good influence. Exports for the week were 87.6 8 bu, against 119,600 bu last year.

RYE—A firm feeling has existed in the market and prices were advanced 3@3½c. A fair demand has existed, and some competition existed for the fresh arrivals between speculators and buyers for local industries. Millers and distillers bought several cars. The receipts have been smaller and the quality good, most of the arrivals grading No. 2. The market has been influenced more or less by the action of Wheat. The receipts for the week aggregated 40 cars, against 69 cars the previous week. There were withdrawn from public elevators none and from private warehouses 11 500 bu and 16 cars. The visible supply increased 232,000 bu, and was reported at 1,194,000 bu, against 769,000 bu a year ago. Local stock in store was 615,000 bu, and a year ago was 311,000 bu. No. 2 in store was nominally 71½@72c early in the week and 74½@75c later. Sales of fresh receipts free on board were made at 73½c early, and 76@76½c later. No. 3 fresh arrivals sold at 73½@75¼c, and No. 4 at 71½@72½c. For future deliveries of No. 2 a fair demand existed. September sold at 73@75c. December sold at 75c to 77c, and May at 78c to 78½c.

BARLEY—There was a steady to firm market throughout the week. Low grades ruled steady and choice to fancy Barley was firm, there being very little of the latter grades offered. Receipts were liberal, and mainly common to fair in quality. There was however a few more cars of choice Barley this week than there was a week ago. Demand at all times was good, especially for the better grades. The report of the Department of Agriculture for September indicated the yield of Barley for this year as 134,000,000 bu, compared with 122,000,000 bu the same time a year ago. Local stocks increased 271,000 bu, and were given as 1,179,000 bu, compared with 908,000 bu a week ago.

...nd 1,532,000 bu the same time a year ago. Exports from New York aggregated 79,109 bu for the week. Receipts were 331 cars, compared with ... cars a week ago and 255 cars two weeks ago. There were taken from regular houses 2,300 bu, compared with 1,000 bu a week ago. The sales during the week covered a range as follows: Screenings 32@40c for common to very choice. Poor, thin, badly stained or dirty, feed Barley, quotably 37@39c. Low grade malting, dirty, small berry, poor color, 40@44c. Fair to good color, depending on weight and other conditions, ranged at 41@46c. Higher grade, or choice, ranged at 49@5.c. Fancy quotable up to 54@55c.

SEEDS—Timothy was easy early, but later ruled ...not steady, and finally closed weak. There was a good business done in cash Seed, but futures were generally quiet and inactive. Flax Seed ruled firm to a shade higher early in the week, but later ruled easy and closed lower. There were reports of damage by frost in the Dakotas, but they had no effect on the market. Clover was easy early in the week, but closed steady. There were small offerings of Cash Seed, but the business transacted during the week was hardly worthy of mention. There was nothing done in future deliveries.

Timothy—There was an easy market early in the week, latter ruled steady to firm and finally easy. There was a very good business done in cash Seed. Offerings throughout the week were liberal and mainly ordinary to good in quality. For choice Seed there was a good demand, but low grades were rather slow. Futures were quiet the greater part of the week, although there was trading in both September and March. September delivery ranged during the week at $2 9..@2 95, October at $2 80@2 90, January at $2 90 ... and March at $2 97½@3 10. Cash Seed was quotable during the week as follows: Fair to good country lots $2 35 to $2 45; high grade or choice $2 .. to $2 60, fancy $2 75 to $2 90. Dark, dirty, or badly hulled $2 00@2 30, depending on quality. Screenings ruled lower. Receipts and shipments were as follows:

Receipts the past week, lbs	3,028,969
A week ago	2,819,939
Two weeks ago	1,602,776
Corresponding week last year	3,961,040
Shipments the past week, lbs	1,854,356
A week ago	1,497,205
Two weeks ago	1,548,357
Corresponding week last year	3,028,310

Flax—There was a small business done in cash Seed. Futures, while firm and higher the early part of the week, were inactive. Cash Seed also ruled firm to a shade higher early, but they also closed weak. There were fair arrivals of cash, but very little appeared on the open market. Receipts as posted for the week were 45 cars by rail and 112,000 bu by boat, compared with 40 cars by rail and none by boat the week previous, and 28 cars two weeks ago. Shipments for the week 7,303 bu, compared with 21,180 bu a week ago, and 63,681 bu two weeks ago. Local stocks were unchanged, and are now 13,091 bu, compared with 162,174 bu the same time a year ago. Minneapolis stocks on September 9 showed an increase of 5,800 bu, and were reported at 26 200 bu, against 20,400 bu the previous week. Duluth stock was 4,184,367 bu, compared with 4,713,847 bu the previous week, showing a decrease of 529,480 bu. Exports from India the past week were 848,000 bu, compared with 96,000 bu the previous week and 540,000 bu for the corresponding week in 1903. The average condition of Flax Seed as shown by the Government report on Sept. 1 was 85.8, as compared with 78.9 one month ago and 80.5 on Sept. 1 a year ago. Prices ranged during the week as follows: No. 1 Northwestern or No. 1 from the Northwest $1 25@1 28. No. 1 $1 16½@1 20. Rejected $1 13@1 25. September delivery was salable during the week at $1 17@1 21 and December at $1 20@1 24.

Clover—There was a nominally easy market throughout the early part of the week and prices were quoted a shade lower. Later, however, the feeling was better and prices ruled firm and higher. There was no business transacted in cash Seed, to speak of on account of lack of offerings. The average condition of Clover in the 13 principal Clover-producing States, four, namely, Wisconsin, Colorado, Utah and California, report increased averages, while all the other principal States report decreases. In Indiana, Iowa and Colorado conditions are below their ten-year average. Values were quotable over a range as follows: October delivery, $11 50@11 90. Contract spot Seed quotable at $11 50@11 90. Country lots, common to choice, $9 00@11 75; fancy above. Fair to good, $10 00@11 25. Movements of Clover was as follows:

Receipts—The past week, lbs	370,265
A week ago	67,545
Two weeks ago	40 875
Corresponding week last year	88,005
Shipments—The past week, lbs	76,187
A week ago	14,395
Two weeks ago	100,005
Corresponding week last year	73,305

Other Seeds—Due to lack of offerings there were no prices quoted. It is a little early for new crop Seed to be coming, and no old Seed appeared on the market. There were reports of harvesting in some sections, but it will be a week or two before new Seed will be coming on the market. The Government report gave the average condition of Buckwheat at 91.5, against 92.8 one month ago, and 91.0 on September 1, 1903. The average condition for the past ten years was 85.8. Movement during the week was as follows:

Receipts the past week, lbs	159,620
A week ago	71,320
Two weeks ago	267,600
Same time last year	591,000
Shipments the past week, lbs	2,253,869
A week ago	2,691,841
Two weeks ago	1,704,614
Same time last year	268,090

HAY—The receipts for the week were 4,137 tons, against 4,201 tons for the previous week. Shipments for the week were 210 tons, against 249 tons for the previous week. Choice grades of both Timothy and Prairie Hay met with a moderate demand during the past week. The arrivals of these grades were rather small and a steady feeling prevailed. Medium and low grades were in liberal supply and dull. The demand was light from all sources, and receivers found it difficult to make sales. Prices ruled easier. Quotations at the close ranged as follows: Choice Timothy, $12 00@12 50; No. 1 Timothy, $11 00@11 50; No. 2 Timothy, $9 00@10 00; No. 3 Timothy, $8 00@9 00. Choice Prairie, $9 50@10 00; No. 1 Prairie, $9 00@9 50; No. 2 Prairie, $8 00@8 50; No. 3 Prairie, $7 00@7 50; No. 4 Prairie, $5 00@6 00. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $7 00@12 00 for poor to choice Timothy, $6 50@7 50 for State, and $8 00@10 00 for Kansas Prairie Hay. Straw was in light supply and the inquiry was good. Prices were higher. Rye Straw sold at $8 50.

COOPERAGE—Little interest was manifested in the market for Cooperage during the past week. Offerings were fair, as there has been a little accumulation in supplies during the past six weeks, but the demand was somewhat limited. Business at the packing houses has been resumed at nearly normal conditions, but local packers not disposed to purchase at present, while outside orders were small. No particular change to note in prices. Ash Pork Barrels were in limited demand and prices were steadier at 97½c@$1 00. Oak Pork Barrels were in small request and prices nominally unchanged at $1 05@1 07½. Lard Tierces were in small demand and offerings were moderate. Prices quotably steady at $1 25@1 27½. Iron bound Lard Tierces were quiet and quotable at $1 17½@1 20 for six hoop and $1 25@1 27½ for eight hoop. Oleo Tierces were quiet and steady at $1 27½@1 30.

HOGS—The receipts of Hogs during the past week were only moderate, though considerably larger than during the week previous. The quality was quite good—light averages being in light supply, and commanded prices at a slight premium, compared with those for heavy. Market was rather active. Packers purchased a good percentage of the offerings, while shippers provided for fair orders from the Eastern markets. Market was rather firm early in the week, and prices were advanced 15@20c. Toward the close the feeling was easier and prices receded 5@10c, and the market closed comparatively steady. Sales during the week were made at $5 45@6 10 for light, $4 85@5 35 for rough packing, $5 30@6 10 for mixed, and $5 20@6 10 for heavy, with the bulk of the sales at $5 35@5 95 for fair to good averages. At the close about 4,000 Hogs remained in the pens unsold. Pigs were in moderate supply, and the demand was fair. Sales were made at $5 10@5 95 according to size and weight. Receipts of Hogs at the other large Western packing points were fair, and the quality was quite good.

PACKING—A little more business was transacted at the packing houses during the past week. Labor troubles were virtually settled, and Hogs were in larger supply, and packers took a good share of the receipts, notwithstanding prices were higher. Manufacture of Products was only fair, and mainly of articles most in request by the general trade. Pork of all kinds made sparingly. Lard produced in fair quantities, and the average yield was quite good. Bulk of the production placed in tierces. Domestic cuts of Hams made moderately. Skinned Hams made in limited quantities. Foreign cuts of Hams neglected. Shoulders made sparingly and a fair proportion delivered from the block to local trade. Picnic Hams made in moderate quantities. Long Clear Sides and Extra Long Clear Sides neglected. Short Clear Sides made in small quantities. Extra Short Clear Sides made in moderate quantities. Short Rib Sides made to some extent by the larger houses. Extra Short Rib Sides made moderately. Rough Sides made a little more freely, especially of medium averages. Backs and Bellies cut in moderate quantities. Loins cut more liberally for current wants. Foreign fancy and special cuts of Meats made sparingly.

PROVISIONS—A fairly good speculative trade was reported in Hog Products during the past week, and the feeling was considerably unsettled. Outside orders were fair and local packers and speculators traded in fair quantities. Considerable realizing in the near deliveries owing to the rather liberal supplies on hand, which will not be "regular" on delivery after the close of the year, while there was quite a good demand for January delivery, and a few scattering trades in May, influenced to a great extent by the uncertainty of the Corn crop maturing owing to its backwardness and damage by frost, and to the report of the Deparrment of Agriculture making the supply of Hogs for fattening 2.4 per cent less than last year. Prices for the latter ruled with more steadiness than the former. The strength in the Hog market had only a limited effect, but the changes in the Grain market had considerable influence. The supply of Hogs was larger, and prices averaged higher. Returns of the packing of the West for the week exhibited a further decrease—about 15,000 Hogs, compared with the corresponding week in 1903. Foreign markets generally were inclined to quietness with prices inclined in favor of buyers. Domestic markets were fairly active especially at the larger distributing points. The receipts from the interior were fairly large, while the shipments were rather liberal. Labor troubles to a great extent have been settled, and general business at the packing houses is gradually working back to a normal condition. Exports for the week were fair, but smaller than for the corresponding week in 1903, excepting for Lard. Fluctuations in prices were quite frequent, and on the whole range were lower for the near deliveries. Early in the week, there was considerable pressure to sell, while the demand was moderate. Prices declined moderately on all the leading articles. At the reduction, the demand was improved somewhat—following the strength in Grain—and the decline was recovered. At the advance, sellers entered the market again, espcially for near deliveries, and a weak feeling was manifested. Prices declined sharply all around. At the reductions "shorts" were disposed to purchase, and more steadiness prevailled. Prices again advanced moderately, but receded again slightly, and the market in a general way closed around medium figures. Supplies of all kinds gradually decreasing. Bulk of the trading was in October and January contracts. In the shipping branch of the trade there was quite an active business transacted. Export demand was light, and orders chiefly for small quantities. The demand from the domestic trade was quite acitve, and dealers purchased freely. Offerings of all kinds were moderately free, but holders were rather firm in their views. Prices were fairly well maintained on all descriptions excepting articles of which there are liberal quantities on hand.

Pork—Rather an active business was reported in the market for Mess Pork during the past week, but the feeling was considerably unsettled, and fluctuations in prices were frequent, and at times within fairly wide ranges. Outside orders were moderate, while local trading was rather active, but somewhat spasmodic. Trading was mainly in contracts for October and January—the latter attracting considetable attention, and exhibiting more strength than the near deliveries. Occasional trades made in May contracts. Stock on hand slowly decreasing. Early in the week, there was some pressure to sell, while the demand was moderate, and prices receded 15@17½c. At this reduction buyers again took hold, and prices rallied 15@17½c. The advance tended to bring considerable property on the market, and prices declined 35@40c. At the reduction, the demand improved and prices advanced 25@30c but settled back 15@20c, and the market closed steady. January delivery closed about 25c higher than one week ago, but 60c lower than one year ago. Stock on hand estimated at 45,000 brls. Demand on shipping account was moderate, and offerings were not very large. At the close cash lots were quotable at $10 75@10 80. Other cuts of Pork were in fair request to fill small orders and prices inclined in favor of buyers. Stocks fair.

Lard—Considerable interest was manifested in Lard during the past week, and a fairly good business was transacted. The undertone to the market was firmer, due mainly to the decreased production and the improved miscellaneous consumptive demand. Offerings were fair, and the demand was moderately active. Fair speculative trading on foreign account, as foreign markets were stronger. Stock on hand decreasing rather liberally, but still quite large. Early in the week there was a little inclination to sell, and the feeling was easier, accompanied with a decline of 7½@10c. At the reduction, the demand improved and prices rallied 10@15c—the latter in January contracts. At the advance offerings were slightly enlarge, while the demand was moderate, and prices settled back 15@17½c, and the market closed rather steady. Trading chiefly in October and January contracts, with scattering trades in May. Inquiry on shipping account was fairly active in a quiet way, and it was claimed that rather liberal quantities were disposed of, but traders generally refused to give details. Prices of regular at the close were quotable at about on October figures—$6 92½@6 95. Refined in fair request in a quiet way, and prices were without material change. Loose lots were called for moderately, and offerings were only fair. Prices quotably higher at 25@37½c discount on October figures, closing at 25c. Leaf Lard was in fair demand, with moderate offerings. Prices were quotable at $6 87½@7 00—closing at $7 00. Neutral was in rather good demand, with fair offerings. Feeling was easier. Prices were slighly lower, and closed steady at $8 25@8 37½ for No. 1, and $7 75@7 87½ for No. 2.

Short Rib Sides—Rather a good business was reported in Short Rib Sides during the past week. The market was somewhat unsettled and prices were irregular. Trading almost exclusively in October and Jannary contracts. Supplies on hand being gradually reduced, and manufacture at present only moderaee. Bulk of the speculative trading was on local account. Early in the week, there was some pressure to realize, and the feeling was comparatively easy. Prices declined 7½@12½c on the whole range. At the decline, the demand improved, while the offerings were lighter, and the decline was fully recovered. Toward the close, there was considerable pressure to sell October contracts and purchase January, and prices declined 27½@30c on the former and only 10@12½c on the latter, but rallied again 2½@5c, and closed steady. Quite a good demand prevailed on shipping account and offerings were fairly liberal. Holders rather firm in their views, especially for desirable averages. Prices at the close ranged at $7 12½@7 25, according to weight.

Green Meats—Only a limited business was reported in Green Meats during the past week and the feeling was not very firm. Offerings were a trifle larger in a quiet way, while the demand was only moderate. Local curers were not disposed to purchase, and outside orders were comparatively small. Hams were in moderate demand and rather slow sale at former figures. Skinned Hams were in light request and prices favored buyers. Shoulders were in small demand and prices nominally unchanged. Picnic Hams were called for sparingly and prices ruled steady. Bellies were quiet and steady at about former figures.

Pickled Meats—A fairly good business was reported in Pickled Meats during the past week, and there were no marked changes to note. Exporters were backward about purchasing, as foreign markets were easy at reduced quotations. Domestic demand was quite good, especially on orders from the manufacturing districts. Stocks of all kinds are fair. Packers are loading cars more readily. Hams were in good demand and sales were fairly liberal at about former figures. Skinned Hams were in fair request and prices ruled ⅛@¼c lower. Shoulders were rather light demand with small offerings, and prices well maintained. Picnic Hams were in fair request and prices ruled comparatively steady. Bellies were in fair demand and prices fairly well supported.

Dry Salted Meats—Quite a good business was transacted in Dry Salted Meats during the past week, and the undertone to the market was rather firm. Offerings were moderately free, and the demand was good. Exporters accepted only moderate quantities, but the orders from the domestic trade were liberal, especialy from the Southern markets. Supplies of all kinds are fairly liberal. Manufacture was only moderate. Foreign advices were not very favorable, and quotations were reduced on some descriptions. Foreign cuts of Hams were quiet and steady. Shoulders were in light request and prices ruled steady. Long Clear Sides were quiet and prices were unchanged. Extra Long Clear Sides were inactive and prices nominal. Short Clear Sides were quiet and quotable at about former figures. Extra Short Clear Sides were in fair request, and prices inclined in favor of buyers—closing at $7 15@7 20. Extra Short Rib Sides were in good demand, sales were larger than for some time past. Prices lower—closing at $7 10@7 15. Rough Sides were in active request and sales were liberal. Offerings were fairly large and holders were disposed to sell—closing at $7 12½@7 25 according to weight. Plates were in fair demand and prices inclined in favor of sellers. Backs were in moderate request and prices ruled steady. Bellies were in good demand from the domestic trade, and sales were liberal. Prices rather inclined in favor of sellers, especially for desirable averages. Light averages sold sparingly for export. Foreign fancy and special cuts of Meats were in moderate request to fill small orders, and prices ruled steady.

Smoked Meats—A good business was transacted in Smoked Meats during the past week, and a comparatively steady feeling prevailed. Demand for car lots was quite active, and the jobbing trade was good. Offerings were fairly liberal. Market in a general way was rather firm. Supplies of all kinds are quite liberal. Hams were in fair request and prices were unchanged. Skinned Hams were in good demand and prices ruled steady. Shoulders were called for moderately at about former figures. Picnic Hams were in fairly good request and prices ruled steady. Sides of all kinds were in active request, and prices averaged about ⅛c higher all around. Breakfast Bacon was in fair request and prices were well maintained.

Beef Products—Trade was moderate in the market for Beef Products, and the feeling was not quite so strong. Offerings were somewhat larger, while the demand was moderate. Supplies are somewhat enlarged. Foreign markets were comparatively steady. Cattle were in fair supply, and prices higher on the better qualities. Shipments of Dressed Beef were quite large. Beef Hams were in better supply, and only moderate demand, and prices declined $1 50@2 00. Extra Mess Beef in moderate demand, and prices unchanged. Plate Beef in only fair request, and prices ruled steady. Extra Plate Beef called for moderately at about former figures. Tallow was quiet and steady at about former figures. Oleo-Stearine in moderate request and held higher—quotable at 7½@7⅝c.

Greases—Only a moderate business was transacted in Greases during the past week. Offerings were rather light, and of small quantities, while the demand was only fair. Prices without material change, excepting for the lower grades, which were slightly higher.

BRITISH VS. AMERICAN FOREIGN TRADE.

Figures of foreign trade of Great Britain for the first half of 1904 are at hand and suggest an interesting comparison with the American figures for the same period. The principal feature of the British statement is a new high record total, both of imports and exports, though the excess of imports over exports was exceeded in the first half of 1902. The figures follow:

	Imports.	Exports.	Excess of imports.
1904	£271,953,771	£181,179,672	£90,774,099
1903	260,529,889	178,570,493	81,959,306
1902	262,740,088	168,194,416	94,545,672
1901	262,416,790	172,663,024	89,753,766
1900	255,656,999	177,797,785	77,859,214
1894	211,031,597	136,537,374	74,494,223
1887	178,867,159	134,455,188	44,411,971

Arbitrarily calling the pound sterling $5 00 and expressing figures in round numbers, we may make this comparison of British and American foreign merchandise trade in the first half of 1904:

	1904.	1903.	1902.
EXPORTS.			
British	$905,000,000	$892,900,000	$840,000,000

THE WEATHER CONDITIONS.

Weather is excellent in all directions except Manitoba, where there are light but general rains and lower temperatures. Temperatures this side are warmer everywhere.

Indications are for showers and cooler weather over the Trans-Mississippi district to-night and extend over central valleys and Western lake region to-morrow.

ITEMS OF GENERAL INTEREST.

A fire. Thursday, in the business district of Halifax, N. S., destroyed property to the extent of $500,000.

The plate glass factory of Zahn & Bordey, at Carlton, N. J., was burned Thursday. The loss is estimated at almost $100,000.

Among the new incorporations filed at Dover, Thursday, by the Delaware Trust Company is the Pinar del Rio Railway and Iron Company, with a capital of $1,000,000.

It was reported, Thursday, that negotiations are practically completed for the purchase of the Pere Marquette, the Cincinnati, Hamilton and Dayton, and the Chicago, Cincinnati and Louisville roads by the Erie system.

The American Agricultural Packing Company, with a capital of $2,500,000, was recently incorporated in New York. Eastern capitalists are back of it. It is proposed to put a large modern plant at the Stock Yards at Chicago, and other leading points, and operate a line of refrigerator cars in connection with a general packing business.

A syndicate is being formed at Boston to underwrite and sell $1,100,000 consolidated mortgage 4s of 1993 of the Northern Ohio Traction Company, which is a consolidation of the Akron, Bedford and Cleveland Railroad Company and the Akron Traction and Electric Company, two Everett-Moore syndicate properties. The underwriting price is 60.

A report from Winnipeg to a Chicago commission firm, Friday, gave a different view of the Wheat conditions there from that sent out by others. It said: "Weather clearing. Threshing returns in many cases considerably better than expected. So far very satisfactory. No. 1 Hard and No. 1 Northern, 18 per cent. No. 2 Northern, 28 per cent; No. 3 Northern, 11 per cent. All other grades 43 per cent. Quality apparently is going to run to a higher average than last year."

The London *Agricultural Gazette* of Sept. 5, says: "Last week's rains amounted to a substantial quantity, though not as a rule to an excessive one. The work of harvesting, however, is forward even in the late parts of the country, its position being in striking contrast with that of a year ago. The rains, it is feared, have done more harm than good to the Potato crop, increasing second growth and the development of disease. The feeding value of the crop, at any rate, will be diminished, whatever may happen to the yield. A poor Potato crop—and there cannot be a great one—would have a considerable influence upon the consumption and the price of Wheat."

The Buenos Ayres *Handels-Zeitung* of Aug. 12 says that the prospects of the Wheat crop can be considered as satisfactory as not only has the area under cultivation been considerably increased, but the condition of the fields gives hopes of an abundant yield. The recent rains in the provinces of Santa Fe and Cordoba have done much good to the growing plants and they will now be able to do without rain for some time. The condition in Buenos Ayres is also on the whole very favorable; the ground is ready to receive sowings and the seed sown early has come up very well.

The Royal Bank of Canada, through its various Cuban branches, has been awarded by the Cuban government the contract for the disbursement of $31,000,000 to the Cuban veterans who served in the war of the revolution against Spain, which ended in 1898. This revolutionary war debt, upon the formation of the republic, was provided for by the issue of $35,000,000 first mortgage 5 per cent bonds, which were floated in New York and Europe last spring. A large proportion of the claim warrants issued to the soldiers have passed into the hands of speculators, who discounted them for the veterans. It is estimated that $10,000,000 worth are now held in the United States. For some weeks past there have been large shipments of Gold from New York and Paris to Cuba as the result of this bond issue. These funds will be deposited with the Royal Bank of Canada in Havana to meet the government checks issued to retire the soldiers' warrants. Disbursements are to be made at Havana, Santiago and other principal points in Cuba.

The New York *Journal of Commerce* says: "It may be that we will have little Wheat for export from this year's crop, but in all probability we shall have some surplus, if only from the check upon domestic consumption that the high price will bring. High price, if it proves to be general, will also have effect upon consumption abroad and upon the demand for export. Wheat Flour is not an absolute necessity of life, and the extent of its consumption depends upon its cost. With the many substitutes in different countries, and the present wide extension of the traffic in Breadstuffs, a considerable advance in price will make a substantial difference in the consumptive demand. If we produce a margin over our own needs however small, the price here will be controlled by the relation of supply and demand in the world's markets. It will depend upon the relation of the surplus of all exporting countries to the deficiency of the countries that import and the strength of the demand in the latter to meet their wants."

The Western Iron and Steel situation is showing improvement, and the increase in demand is said to cover the full list of products. While small in each individual instance, it forms a considerable volume when taken as a whole. The recent reduction in prices for finished materials had the influence of keeping back trade for a time, although now this hesitancy is gradually being eliminated. Consumers are beginning to feel that prices have about reached the bottom for the present, and that where reductions have been made the figures will be no lower. As a matter of fact, sentiment is growing among buyers that if the recent cuts bring enough business there is really more likelihood of an advance. "We feel there is going to be a very good trade this winter," said an officer of the Illinois Steel Company. "A great deal of necessary construction and renewal work has been held off during the past year or eighteen months, and this is bound to come forward sooner or later. We feel that it will develop this fall. In fact, it is beginning now, and after the fall election it probably will be much larger." Nobody identified with the Steel industries in the West believes there will be a cut made in the price of Steel rails. The material is selling at $28 a ton, where it has held for three years. The Steel men claim that the railroads will willingly pay that figure if they see the business in sight to warrant making improvements.

A big rail tonnage for next year's delivery will soon be let if the various roads now considering placing orders for 1905 get the assurances they require as to prices. There is authority for the statement that many of the principal lines have let it be understood that they are ready to book for next year as soon as there is no longer any doubt as to what the schedule for the coming year is to be. This bridge is likely to be crossed by the railmakers guaranteeing to the roads a schedule of $28 00 per ton, or a reduction in price to the schedule prevailing at the time the rails are delivered. This would be satisfactory, it is said, to practically all the roads. A tonnage said to be very large is expected to be let soon after the members of the rail pool, who are now considering informally the situation, agree as to what they shall do. The better feeling among consumers as to the lower price schedule on the main lines of production except rails, makes it easier for the rail pool to consider the concessions demanded by rail consumers. Among the roads which will soon order for next year are the Pennsylvania, Baltimore and Ohio, the Gould roads, the New York Central, the Atlantic Coast Line and its allied lines, the Rock Island and the Harriman systems, the Southern lines and the Illinois Central. Several of the most important rail consumers are not going to order all their year's quota at once. They will place a fair percentage of their needs this fall and then wait for developments in the traffic situation before filling out their schedules. The roads know that any changes in the price list can only be on a declining scale and they seem to be willing to take chances on not getting their rails as they need them next year.

Eight packers purchased 11,300 Hogs to-day; shippers, 6,000; left over, 3,500. Market closed easy.

The output of the St. Louis Flour mills for the past week was 84,700 brls, against 82,200 brls for the previous week.

The Centennial Mill Company of Spokane, purchased 310,000 bu of Wheat at Sprague, Wash., last week at 75c per bu.

The packing at Milwaukee since March 1 is estimated at 411,162 Hogs, against 518,430 for the corresponding time in 1903.

Estimated receipts for to-morrow. Wheat, 170 cars; Corn 698 cars; Oats, 311 cars; Rye, 10 cars; Barley, 207 cars; Hogs, 17,000.

The quantity of Flour and Wheat on passage to Europe during the past week decreased 1,696,000 bu, and the quantity of Corn increased 1,154,000 bu.

Deliveries on September contracts to-day were 90,000 bu Wheat, including 15,000 bu new and 75,000 bu old style, also 80,000 bu Corn and 15,000 bu Oats.

The stock of Flax Seed at Duluth on Sept 17 was 4,108,010 bu compared with 4,184,?67 bu the previous week—a decrease of 76,327 bu. Stock last year, 892,824 bu.

Exports of Flax Seed from India the past week were 848,000 bu, compared with 858,000 bu for the week previous, and 576,000 bu for the corresponding week in 1903.

The average weight of the Hogs received at Chicago last week was 248 lbs, against 255 lbs the previous week, 259 lbs the corresponding week in 1903 and 246 lbs in 1902.

Local Securities were stronger for the greater part of the list, but gains were mainly small. The weak spots were Carbon and Metropolitan preferred, which lost 1 point.

The Abilene Flouring mill and Grain warehouse, Dallas, Texas, together with a large quantity of Flour and Grain, was destroyed by fire, Sunday. Loss, $20,000; insurance, $12,500.

Cotton in New York was stronger and averaged higher. Liverpool closed lower. Big traders gave the market support. Closing prices were at an advance of 14 points on September and 6@8 up on other months.

Average cost price of Hogs at Chicago for the past week was $5 75, the highest since the second week of last October. Average the previous week, $5 45; a year ago, $5 81, and two years ago, $7 57.

East bound shipments of the past week are as shown in the following table:

	Flour, brls.	Grain, bu.	Prov. tons.
Past week	56,763	881,000	25,344
Previous week	55,552	685,000	19,395
Last year	39,655	727,000	3,860

A wire from Winnipeg says: "Weather very unfavorable over the entire Wheat country. Government weather forecast issued this morning says unsettled, showery, cold. Canadian Pacific Railway report, issued at 7 A. M., says two inches of snow at Yorktown. Snowing all night at Broadview. Rain is everywhere."

Stocks in New York were weakened by reports from the West making a smaller Corn crop than heretofore estimated. London was a fair seller, and the support did not appear as good. Western Railway shares were off ⅛ to 1 point. Eastern roads lost ⅝ to 1 point. Industrials declined ⅜ to ¾. Copper was an exception, and advanced 1½ on Amalgamated and 6 points on Anaconda.

CORN CROP ESTIMATES AND FINAL YIELDS.

The following table exhibits the estimated Corn crop of the United States on the September condition of the Department of Agriculture in the past five years, compared with the final report in December:

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate and market without important change.

WINTER WHEAT—Was steady at a relative decline with futures. Prices about 1@1½c lower. Milling demand slow, but speculative demand fair. No 2 Red in store nominally $1 10@1 12½, and fresh arrivals free on board ranged at $1 12@@1 15½, with a sale at $1 15½. No. 3 Red fresh arrivals free on board sold at $1 08@1 12¼. No. 4 Red fresh arrivals free on board sold at 87@95c for common, to $1 04@1 10½ for fair to choice. No Grade Red sold at $1 01. No. 2 Hard fresh arrivals free on board quotably $1 09@1 11, with a sale billed through at $1 11. No. 3 Hard sold at $1 03½, and ranged at $1 02@1 05 depending on quality. No. 4 Hard sold at 97¾c@$1 02.

SPRING WHEAT—Was in light supply and in moderate demand. Market quotably steady. No. 1 Northern fresh arrivals free on board quotably about $1 18 and No. 2 Northern fresh arrivals nominally $1 16. No. 3 Spring nominally $1 05@1 15 for poor to very choice, with sale of a car hard variety at $1 13. No. 4 Spring sold at 95c for fair, at $1 05@1 10½ for good, and $1 13@1 16 for fancy hard.

REGULAR WHEAT—A very fair speculative trade, with prices irregular and the feeling quite unsettled. Closing prices showed December 1⅝c lower and the May down 1⅛c. The market started higher, influenced to some extent by the strength on the Minneapolis curb, but sold off sharply May touching $1 10¼. Receipts in the Northwest were larger, 132 cars more than a year ago, and cables were weak. At the decline the demand improved, the buying being led by local professionals. Advices from Winnipeg came in "bullish" on weather conditions. Winnipeg wired: "Weather very unfavorable over the entire Wheat country, and showery, cold conditions indicated; two inches of snow at Yorktown; snowing all night at Broadview; rain everywhere; October has advanced 2c." Frosts were predicted for the Dakotas; showers for Minnesota. May advanced to $1 12⅝@1 12½, but reacted later to $1 09½. World's shipments larger than expected 11,392,000 bu, against 10,432,000 bu the week previous and 10,096,000 bu one year ago. The quantity on ocean passage decreased 1,696,000 bu and is now 39,152,000 bu, against 29,680,000 bu same time one year ago. The visible increased 895,000 bu, against 1,761,000 bu increase same week in 1903. The total is now 14,010,000 bu, against 15,927,000 bu in 1903 and 12,525,000 bu in 1902. Local public stocks increased 257,000 bu and are now 2,048,000 bu, compared with 2,999,000 bu in 1903. Liverpool quoted spot ½@1d lower and futures 1⅛@1¼c lower. Stocks there, 3,504,000 bu, increased 264,000 bu. Stock one year ago, 3,280,000 bu. Liverpool was steadier to some extent on French purchases of Australian and Walla Walla cargoes and smaller offerings from Russia. London came ¼d lower. Paris was 1@1½c lower and Antwerp off ⅛c. Cargoes on ocean passage were quoted firm with a good Continental inquiry. Primary receipts were 367,000 bu larger than a year ago. Kansas City and St. Louis received 657,700 bu, against 363,?00 bu one year ago. Duluth wired: "Country offerings increasing and no bids from the East." The late weakness was attributable to heavy selling by a prominent local elevator concern, which in turn influenced local sentiment, many of the early buyers liquidating. Receipts at Duluth 269 cars and at Minneapolis 702 cars, a total of 971 cars, against 620 cars Saturday, 508 cars a week ago, and 839 cars last year. Local receipts included 48 cars Winter, 19 cars Spring and 9 cars mixed, a total of 76 cars, against 168 cars last year. Included in the above was 3 cars of contract grade. There were 45 cars and 26,200 bu taken from unlicensed elevators. The estimated receipts for to-morrow are 170 cars. There were no withdrawals. Receipts at Western points were 1,685,883 bu, against 1,318,634 last year. At Eastern points 17,9?7 bu, against 132,?35 last year. Shipments from Western points were ?5?,201 bu, against 575,573 last year, and from Eastern points 13,2?7 bu, against 6?,913 last year. Shipments of Flour were 16,113 brls. Exports of Wheat in Flour were equal to 85,7?5 bu.

Future Deliveries of Regular Wheat—Good trade and market irregular.

SEPTEMBER—Old Style—Sold at $1 08½@1 11. Opened at $1 08⅞; sold to $1 11, to $1 08½, and closed at $1 08½.

SEPTEMBER New Style—Sold at $1 05½@1 08¼. Opened with sales at $1 07; sold at $1 07⅜, to $1 06½, to $1 08⅛, to $1 07¾, to $1 07½, to $1 08¼, to $1 05½, and closed at $1 05½.

DECEMBER—Sold at $1 07½@1 10½. Opened with sales at $1 09½@1 09⅝, to $1 09⅛; sold to $1 09½, to $1 09⅞, to $1 10¼, to $1 09⅝, to $1 10½, to $1 09, to $1 10½, to $1 08¾, to $1 07½, to $1 07⅞, to $1 07⅞@1 08, and closed at $1 07⅞@1 08.

MAY—Sold at $1 09½ and at $1 12⅛@1 12½. Opened with sales at $1 11¼ to $1 11⅝; sold to $1 11½, to $1 11¾, to $1 10¼, to $1 10⅞, to $1 10½, to $1 12⅛, to $1 11⅛, to $1 12⅛@1 12½, to $1 11¾, to $1 12¼, to $1 11⅜, to $1 11⅝@1 11½, to $1 10⅛, to $1 10, to $1 10¼, to $1 09⅝, to $1 09⅞, to $1 09½, and closed at $1 09⅞@1 10.

CORN—A good trade, with the feeling unsettled, closing prices showing losses of ¼c and ½@⅝c. Early buying of better character, prominent warehouse interests and commission houses favoring the "long" side, while the selling was chiefly by floor traders. Private crop reports were "bullish," cables relatively steady and the weather not of the best, the map showing heavy rains through Illinois; also rain in Ohio and Indiana and showers in Iowa. Showers and thunderstorms were predicted for Illinois, Indiana, Missouri and Iowa; fair with frost Tuesday for Nebraska; fair, cooler for Kansas. A crop expert who just covered the Corn belt estimated the probable yield not over 2,100,000,000 bu, and another estimate of 1,900,000,000 bu was rumored. Toward the close the offerings were heavy, the break in Wheat prices being the factor. Liverpool quoted spot ½d lower, while futures were off only ⅛d. Stocks there 496,000 bu, increased 188,000 bu. Liverpool reported LaPlata offerings were being withdrawn and the spot demand improved. World's shipments were smaller, 3,412,000 bu, against 4,158,000 bu last week and 5,22?,000 bu one year ago. The quantity on ocean passage increased 1,154,000 bu and is now 21,170,000 bu, against 21,641,000 bu last year. Southwestern markets closed easy. Local shipments were heavy, 1,012,000 bu, against receipts of 533,000 bu, and the shipping demand was reported fair with sales of 200,000 bu. Withdrawals from store 627,000 bu. Receipts were 567 cars and 69? cars estimated for to-morrow. Western receipts were 759,000 bu; last year 720,000 bu. Shipments 1,128,000 bu and 948,000 respectively. The visible increased 895,000 bu, against 982,000 bu increase last year. Total 5,652,000 bu against 7,907,000 bu in 1903 and 2,431,000 bu in 1902. Local public stocks increased 236,000 bu, and are now 1,643,000 bu, against 2,927,000 bu one year ago. Car lots were in good demand and larger supply. Sales were ¼@1c higher. No. 2 closed at 51c. No. 2 Yellow sold at 54c and closed at 52¼c. No. 2 White sold at 52¼c. No. 3 sold at 52@53¼c, outside high color, and closed at 50¾c. No. 3 Yellow sold at 53¾c, and closed at 52c. No. 4 sold at 50½@53c, outside for yellow.

Corn by sample—Demand good and offerings larger. Feeling stronger and prices ¼@1c higher. Sales on track and free on board: No Grade sold at 48½c. No. 4 at 48@53¾c. No. 3 at 51¼@52¾c. No 3 Yellow at 53½@54¼c. No. 2 Yellow at 54¼c. No. 3 White at 52@52¼c. No. 2 White at 52c. Billed through: No. 4 at 50@52½c. No. 3 at 51@52½c. No. 3 Yellow at 52@53c. No. 3 White at 50½@51¼c. No. 2 White at 50¾@51c.

Future Deliveries of No. 2 Corn—Active and prices irregular, ruling strong early and weak later, closing ¼c to ½@⅝c lower.

SEPTEMBER—Sold at 50¾@51⅞c. Opened at 51⅛c to 51½c and sold at 51⅛c, to 51½c, to 51⅝c, to 51⅞c off to 50¾c, and closed at 50¾c asked.

DECEMBER—Sold at 49⅝@51¼c. Opened at 50⅛c to 50½c, and sold at 50⅝c, to 50¾c to 50⅝c, to 51¼c, to 50⅞c, to 51¼c, to 50⅝c, to 50¾c, off to 49⅝c sparingly, to 49¾c, 49⅝@49¾c, and closed at 49⅝@49¾c.

MAY—Sold at 49⅛@50⅛c. Opened at 49½c to 49¾c, and sold at 49⅞c, to 49⅝c, to 50⅛c, to 50c, to 50⅜c, to 50⅛c, to 50⅛c, to 49⅛@49¼c, to 49⅜c, to 49⅛c, to 49¼c, and closed at 49¼c asked.

OATS—Were active. A feature was the buying of May at 35c, but buyers were eventually filled up. Prices advanced ¼@⅜c early with other Grains, but reacted and lost ¾@⅞c, with the close at the bottom, and a net loss of ⅜@½c. There was good selling by "longs" and cash interests. The buying was by commission houses. Steadily increasing supplies was a depressing factor. The visible supply increased 3,347,000 bu. Local stocks increased 897,000 bu and were 3,494,000 bu in public houses. Arrivals were 202 cars, with 311 cars expected to-morrow. Withdrawals were 130,120 bu. Seaboard clearances 13,500 bu. Cash sales were 25,000 bu. Car lots to go to store were steady. No. 4 White sold at 32c. No. 3 White at 32¼@32½c. No. 2 White at 33¼c. Standard in store closed about 31c.

Oats by sample were in light request from shippers and the market failed to clean up well. Offerings were liberal. Prices were steady despite the break in futures at the close trading being about over when it came. Sales on track and free on board: No 4 at 29c. No. 4 White at 31½@32c. No. 3 at 31@31½c. No. 3 White at 32@33c. Standard at 32½@33½c. No. 2 at 31¾c. No 2 White at 33¼@33½c. Billed through: No. 4 White at 31½@32c. No. 3 at 30¼@30½c. No. 3 White at 32@32½c. Standard at 32¼@32¾c. No. 2 at 30½c. No. 2 White at 33c. At the river: No. 4 White at 30¼@31¼c. No. 3 at 30c. No. 3 White at 30½@31½c. Standard at 31¼@31¾c.

Future Deliveries of Contract Oats—Were higher early and weaker later.

SEPTEMBER—Sold at 31@31¾c. Opened at 31¼, sold to 31c and closed there.

DECEMBER—Sold at 32⅛@32⅞c. Opened at 32⅝c to 32⅝@32¾c, sold to 32⅞c, to 32⅛c at close.

MAY Active. Sold at 34½@35⅜c. Opened at 35⅛c to 35⅛@35¼c; sold to 35⅜c, to 34½c, to 34½@34⅝c at close.

RYE—Was about 1c lower for futures, and unchanged for cash. Offerings light and demand of a limited character. There were 11 cars received and 4 cars taken out of private warehouse. No export clearances from New York. The visible supply increased 94,000 bu. No. 2 in store nominally 75c, and fresh arrivals free on board sold at 75½@75¾c. No. 3 sold at 70c and No 4 at 69c. No Grade sold at 67c.

Future Deliveries of No. 2 Rye—Quiet. September sold at 73c, and December at 75c. May nominally 78c.

BARLEY—There was a weaker market for low grades and prices were fully 1c lower. Demand for thin or seedy Barley was slow. Choice to fancy Barley was wanted and brought former prices. Offerings were liberal. To-day's postings showed 102 cars inspected in. Screenings quotable at 31@39c for common to very choice. Poor thin, badly stained or dirty, feed Barley, quotably 35@37c. Low grade malting, dirty, small berry, poor color, 36@43c. Fair to good color, depending on weight and other conditions, ranged at 44@47c. Higher grade, or choice ranged at 49@52c. Fancy quotable up to 54@55c.

SEEDS—Timothy was 5c to 7½c lower for cash. Futures were about steady. Flax was quiet and unchanged. Clover was steady.

Timothy—The market was from 5c to 7½c lower for cash Seed. There were liberal offerings of cash, most of which range in quality from fair to choice. Futures were inactive. September was offered at $2 87½. For October $2 80 was bid. November was nominally $2 8?. For January $2 ?0 was bid. March was offered at $2 9? and $3 00 was bid. Cash Seed was quotable as follows: Fair to good country lots about $2 2?@2 3?, high grade, $2 45@2 50, and choice to fancy up to $2 55@2 70. Dark and dirty or badly hulled about $2 00@2 20, depending on quality.

Flax—Ruled quiet and unchanged. There was a small business done in cash Seed, but futures were inactive. Receipts were 115 cars at Minneapolis, 1? cars at Duluth, and 8 cars, or 7,200 bu, here. There was none taken from store. Local stocks were unchanged and were reported at 16,091 bu. No 1 Northwestern or No 1 from the Northwest sold at $1 ?4½. No 1 closed at $1 16 bid. Rejected ranged at $1 1?½@1 2?½ as to quality. For September $1 ?8 was bid, and there were sellers at $1 17. December was nominally at $1 ?0 sellers.

Clover—Was inactive and nominally unchanged. There was no cash Seed on the market. October delivery $11 50@11 60. Contract spot Seed was quotably about $11 50@11 60. Country lots common to choice, $9 00@11 50; fancy above. Fair to good, $10 00@11 00.

HOG PRODUCTS—A fair speculative trade was reported in Hog Products and the feeling was stronger in a general way influenced to some extent by the advance in Hogs and Corn. Outside orders were moderate, and local trading was fair. Offerings were not very free, and the demand was fairly active. Operators trading cautiously. Receipts of Hogs were considerably below the estimates, and prices were advanced considerably. Receipts at the leading Western packing points were estimated at 39,800, compared with 57,200 one year ago. Foreign markets were stronger, and Liverpool quotations were advanced 6d on Hams, Backs and Cumberland Sides. Domestic markets were steady. Receipts of Products were large—of Lard and Meats about 47 cars. Shipments were liberal—of Lard and Meats about 17? cars. Prices of the speculative articles were advanced all around, but the appreciations were not supported to the close. Trading chiefly in October and January contracts. Demand on shipping account was fairly active, and offerings were moderate. Sales were fair at about former figures. Exports for the week, compared with the corresponding week in 1903, exhibited decreases of 600 brls Pork, 9,501,000 lbs Lard and 4,897 boxes Meats.

Mess Pork—Trading was quite active in the market for Mess Pork, and the feeling was stronger in a general way. Offerings were not very large, and the demand was fairly active. Trading was chiefly in October and January contracts. Opening trades were made at 5@15c advance and a further improvement of 10@12½c was gained. Toward the close, the feeling was not so strong, and prices settled back 10@15c, and the market closed comparatively steady. Demand on shipping account was moderate, and offerings were only fair. Cash lots were quotable at $10 80@10 90.

SEPTEMBER—Quiet and quotable at the close at $10 70.

OCTOBER—In rather good demand, with moderate offerings. Sales were made at $10 72½@10 90. Opened at $10 85, sold to $10 80, to $10 90, to $10 72½, to $10 75, and closed steady.

NOVEMBER—Quiet and quotable at $10 87½.

DECEMBER—Sold sparingly at $10 95.

JANUARY—Offerings were moderate, and the demand was fair. Sales were made at $12 72½@12 85. Opened at $12 72½, sold to $12 75, to $12 72½, to $12 85, to $12 72½, to $12 75, and closed steady.

MAY—Sold sparingly at $12 90@13 00, and closed at $12 90.

Lard—A fair business was reported in the Lard market, and the feeling was stronger in a general way. Offerings were not very free, and the demand was fair. Trading chiefly in October and January contracts. Prices were rather steady at 5@7½c advance at the opening, and a stronger feeling was developed, and prices further rallied 10@12½c. Toward the close the feeling was not so strong, and prices receded 2½@5c, and the market closed rather steady. Foreign advices were without material change. Demand on shipping account was light with moderate offerings. Cash lots quotable at $7 00@7 05. Loose lots in fair request, with very small offerings. Prices steady, with buyers at 25c discount on October figures. Leaf Lard was in light demand, with rather small offerings. Quotably steady at about $7 00. Neutral in light demand, with moderate offerings. Prices quotably steady at $8 25@8 37½ for No. 1 and $7 75@7 87½ for No. 2.

SEPTEMBER—Quiet and quotable at the close at $6 97½.

OCTOBER—In rather good demand and offerings not very large. Sales were made at $6 92½@7 05. Opened at $6 95, sold to $6 92½, to $7 05, to $7 00, to $7 02½, and closed steady.

DECEMBER—Quiet with small sales at $6 95.

JANUARY—Offerings were moderate, and the demand was fair. Opened at $7 12½, sold to $7 07½, to $7 17½ to $7 12½, and closed steady.

MAY—Quiet, with small sales at $7 30@7 32½.

Short Rib Sides—Trade was fairly active in Short Rib Sides, and the feeling was stronger in a general way. Offerings were moderate, while a fairly good general demand prevailed. Prices on the whole range were advanced 25@27½c on October and 5@7½c on January contracts, but toward the close settled back 2½@5c, and the market closed rather steady. Shipping demand was fair, but offerings were limited. Cash lots quotable at $7 37½@7 62½, according to weight.

SEPTEMBER—Quiet and quotable at the close at $7 32½.

OCTOBER—In good demand and offerings were fair. Sales were made at $7 20@7 40. Opened at $7 25, sold to $7 20, to $7 25, to $7 22½, to $7 40, to $7 35, to $7 37½, and closed steady.

JANUARY—In fair request and offerings were only moderate. Sales were made at $6 62½@6 70. Opened at $6 65, sold to $6 62½@6 65, to $6 70, to $6 65, and closed quiet.

Other Meats—Trade was fairly active and mainly on domestic account. Exporters bought sparingly. Offerings moderately free and inquiry was fair. Green Meats in moderate supply with a light inquiry and prices ruled steady. Pickled Meats in fair request, with only moderate offerings, and prices were unchanged. Dry Salted Meats were in good demand, with fair offerings, and prices ruled firmer. Smoked Meats called for moderately and prices favored sellers. Closing prices were as follows:

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Sept. 6.]

United Kingdom—Harvest continues to make fair progress, but the weather is unsettled. We have seen at least one report which mentioned sprouting, and some others say that the Grain is not now being stacked in good condition. In the south of England where the great bulk of the crops is safely under cover the rain has been welcome for putting the land into suitable condition for plowing. Wheat is still generally described as a poor, underaverage crop, but there are exceptions, and some growers are able to report average yields of good quality and condition. Barley and Oats vary considerably, but seem fair crops on the whole, and the same, perhaps, can be said of Potatoes, although disease and growing out are mentioned rather frequently. The recent rains greatly improved the outlook for roots and fodder. Supplies of our home-grown Wheat continue moderate; prices are generally maintained, and the official average for last week was 30s 3d, only a shade below last year's at same time on a quantity nearly four times as large.

Russia—The new crops are now moving freely, and exports are on a very liberal scale. Odessa and a few other ports complain of relative scarcity, but on the whole supplies and offers have been steadily increasing. In conformity with crop reports, the stuff is being supplied chiefly from the favored Eastern districts, but Azoff ports usually sell freely during the autumn, for shippers there naturally wish to do as much as possible before their ports are closed for the winter.

Roumania—The rains we mentioned last week were very welcome for the herbage, also for plowing and autumn sowings. The movement of Grain to shipping ports is moderate, but shipments last week decreased sharply.

Bulgaria—Good quantities of Wheat are being sent down to the ports and stocks are liberal.

Austria-Hungary—Further rains are reported and the favorable change of weather should put the land into good order for plowing.

France—Our Dieppe correspondent writes that the harvest was finished in unsettled weather, but the quality and condition still receive favorable mention. Not enough has yet been threshed for any reliable calculations to be made, but many people still think the outturn will be 25 or 30 per cent below last year's big outturn.

Germany—The weather is seasonable, but not enough rain has yet fallen to enable inland navigation to be resumed. New Wheat continues to move freely, except in the South, where supplies have decreased. The Potato crop still promises a poor yield, but some people think the late crop may have derived benefit from recent rains.

Italy—The latest official crop bulletin, covering August 10 to 20, says that the rainfall was still insufficient. The Corn crop is good in the South, but unsatisfactory in the North.

Argentina—The weather appears to be all that could be desired for the new crops and both Wheat and Flax Seed are doing well. The movement of Wheat is fair, Corn very liberal.

Australia—Further rains have fallen and crop prospects are good. Liberal stocks are still held and exports are very liberal for the time of year.

India—The monsoon has not given sufficient rain, and the need of moisture is just sufficient to make holders firm. The export movement is very fair, but the really heavy shipments seem now to be a thing of the past.

THE WEATHER CONDITIONS.

Weather conditions becoming unsettled. Rains in Iowa, Illinois and eastward. Also Eastern Missouri. Heavy rain at St. Louis. Rains light but general in Manitoba. Partly cloudy Northwest and Southwest.

Indications are for scattered showers over the greater portion of this district. Temperatures will be higher in Central Valleys and Southern Lake Region, but cooler weather will reach Upper Mississippi Valley and Western Lake Region Tuesday.

In the annual report of the Bureau of Industrial Statistics for 1903 the five leading industries of Pennsylvania, Iron and Steel, pig Iron, anthracite Coal, bituminous Coal and tin plate, are summarized as follows: Total production in tons, 182,655,843; number of workmen employed, 435,774; aggregate wages paid, $241,677,718; market value of production, $774,963,777.

Advices from Boston, Friday, stated that the president of the Endicott-Johnson Company, the largest Boot and Shoe manufacturers in the world, had completed the purchase from the United States Leather Company of between 350,000 and 400,000 sides of hemlock sole leather, made from Buenos Ayres dry Hides. This purchase involves about $1,750,000, and has only been equaled in amount in the past by a similar purchase made by the same party a year ago.

Estimates of gross earnings of the United States Steel Corporation for the calendar year ending Dec. 31 vary from $470,000,000 to $490,000,000. Last year, with gross earnings of $537,572,871, the corporation reported net profits of $109,171,152. Its gross returns from rails this year will hardly exceed $28,000,000, a loss in gross in this one item of over $25,000,000. The estimate of $470,000,000 gross earnings and about $70,000,000 net for the year, is declared more reasonable than any higher estimates.

The *Wall Street Journal* says: "So far as the Rock Island Company is concerned there is not the least intention of listing Rock Island stocks in London. No application has been made or is being prepared. Neither have the leading interests in the property taken any steps looking to such listing or even considered the matter. This statement does not preclude the possibility that at some time in the future, if large holders of the security make request, the Rock Island Company may consider the matter."

The increase in the revenues of the United States during September denotes improvement in business conditions generally. All revenues are based upon consumption, and therefore increase while conditions are improving, and fall off as times grow hard. For the first fourteen days of September, 1904, the revenues from all sources were only $154,000 less than for the corresponding period of 1903, while for the fiscal year to date the revenues were $6,920,000 less than in 1903. Receipts on Sept. 14, 1904, were $76,000 more than on the same date in 1903. The increase in September receipts was chiefly in internal revenue and miscellaneous items, but customs are growing larger. They were over a million on Tuesday, and expenditures now are not much in excess of those reported at this time a year ago. The growing receipts of the government are at once the result and the evidence of a revival of business activity.

WEATHER BUREAU REPORT.

The Weather Bureau weekly crop report, issued at noon to-day, is as follows:

Spring Wheat—Harvest practically completed in northern portion of North Dakota and threshing is well advanced in Minnesota and South Dakota, half done in Washington and nearing completion in Nebraska, but delayed by rain in Eastern North Dakota.

Corn—Late Corn maturing rapidly in Western portion of the belt, but crop is ripening slowly in the Eastern and Central sections and needs ten to twenty days of favorable condition to be safe from frost. While damaging frosts occurred in portions of the Upper Mississippi Valley and a considerable portion of the crop was damaged in Wisconsin, and some on low lands in parts of Minnesota and Iowa, the aggregate frost damage in the last-named States was not serious. Cutting is now general in all sections.

Cotton Complaints of Cotton shedding still received from eastern section and northern portion of western section of Cotton belt, but reports of rust are not so general, except in North Carolina. The staple is opening rapidly in all districts, in some localities prematurely, and picking is general, although delayed by rain in portions of Texas, from which State, as well as from Georgia, scarcity of pickers is reported. Dry weather causing injury to late Cotton generally in central and eastern sections, and slight or no top crop indicated in the central and western districts, while worms and caterpillars are causing injury in Oklahoma, Louisiana, Alabama, and South Carolina. In Texas the boll-weevils continue as damaging in the southwestern coast, central, eastern and a number of northern counties, as the advancement of the season permits

ITEMS OF GENERAL INTEREST.

New York Exchange 10c discount.

Documentary Sterling steady at 482¾.

Chicago Bank Clearings to-day, $29,628,504.

Continental Wheat stocks on the reverse page.

The quantity of Wheat afloat for the United Kingdom is the largest since 1893.

Reported that no Wheat and 72,000 bu Corn were taken at the seaboard to-day for export.

Six packers purchased 8,200 Hogs to-day; shippers, 3,500; left over, 4,000. Market closed with the advance lost.

Deliveries on September contracts to-day were 100,000 bu Wheat, 40,000 bu Corn, 15,000 bu Oats and 15,000 bu Rye.

Estimated receipts for to-morrow. Wheat, 77 cars; Corn, 268 cars; Oats, 92 cars; Rye, 4 cars; Barley, 87 cars; Hogs, 22,000.

Local Securities were slow and easy for Can, Biscuit and Swifts shares, and steady on others. There were no new features.

A dispatch from Lincoln Neb., Monday, said: "The Corn crop of Nebraska is practically made, and I do not think a frost will hurt it."

Cotton in New York was strong, with good trading. Cables were higher and crop reports unfavorable. Closing sales were at gains of 18@19 points.

Samples of Corn taken from fields at Muscatine, Iowa, were exhibited at Chicago, Monday. They were so well matured that a hard freeze would not hurt them.

The receipts of Wheat at Liverpool during the past three days were 632,000 bu, of which 24,000 bu were American. Receipts of Corn, 600,000 bu, of which 304,000 bu were American.

The German Consul at Warsaw reports that Poland has secured fair crops of winter Grain, but the estimate for Barley is only 70 per cent, and for Oats 50 per cent of a normal crop.

Bradstreet's report of the available supply for the past week shows the following changes:

	1904, bu.	1903 bu.
Wheat east of Rockies	Inc. 301,000	Inc. 2,179,000
Europe and afloat	Inc. 1,000,000	Inc. 2,600,000
Total	Inc. 1,301,000	Inc. 4,779,000
Corn	Inc. 1,862,000	Inc. 1,369,000
Oats	Inc. 3,336,000	Dec. 603,000

Stocks in New York were more sensitive to selling and rallies were more feeble. Trading was active and price changes irregular. "Bears" were aggressive and succeeded in getting a good break. Western Railway shares were 1½ to 2 lower. Eastern Railways lost 1 to 2 points. Industrials were off 1¼ to 2¼. Money 1¾ to 2 per cent.

Broomhall's weekly foreign crop summary says: "United Kingdom and France—The weather very favorable for fall work; short yields continue to be reported. Germany—Weather favorable, but further rains needed for navigation in the interior; fears of a short Potato crop have been confirmed; supplies of native Grain are large. Roumania—Fall seeding is progressing; supplies of Grain are decreasing. Hungary—Favorable rains for fall seeding have occurred. Bulgaria—Conditions favorable for seeding; the Wheat crop is officially estimated at 52,000,000 bu, against 68,000,000 bu in 1903. Sweden—Wheat and Rye crops have been harvested, but were partly damaged by too much rain. Russia The Southwest is suffering from drouth; supplies of Grain generally large. India—Sufficient rain has fallen. Argentina—Crop reports continue favorable."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate and market steady. Standard Spring Patents still held at $6 80.

WINTER WHEAT—Was firmer and prices about 1c higher. Demand good but was mostly speculative. No 2 Red in store ranged at $1 11@1 12¼, and fresh arrivals free on board at $1 14@1 15½. No. 3 Red fresh arrivals free on board sold at $1 06@1 12½. No. 4 Red fresh arrivals free on board sold at $1 00@1 07, and at the river at $1 00½. No Grade Red sold at $1 03. No. 2 Hard fresh arrivals sold at $1 13½, and ranged at $1 08@1 13½ according to quality. No. 3 Hard fresh arrivals free on board sold at $1 01¾@1 07½, and at the river at $1 03¼@1 05. No. 4 Hard sold free on board at $1 01¾, and at the river at $1 00½.

SPRING WHEAT—Was in light supply and in moderate demand. Market quotably firmer. No. 1 Northern fresh arrivals free on board quotably about $1 18@1 20 and No. 2 Northern fresh arrivals nominally $1 16. No. 3 Spring nominally $1 05@1 15 for poor to very choice. No. 4 Spring sold at 75c@$1 03 for very poor to good.

REGULAR WHEAT—Rather a good trade, with sentiment more "bullish," the close showing gains of 1⅜c and 1⅝c. The start was strong with offerings very moderate, traders in many instances going home "short" yesterday. The extreme low temperatures and prospect of bad weather in the Northwest, higher cables, and reported Continental demand at New York were among the early "bull" factors, the bulge in Corn being an indirect help. Liverpool quoted spot ½d lower to 1d higher, and futures ¾@⅞d higher. Receipts there the past three days 632,000 bu, and only 24,000 bu from America. The strength at Liverpool was said to be due to the fact that arrivals of Argentine Wheat failed to grade contract. London came 1⅜@1¾d lower. Paris was up ½@1c. Antwerp unchanged. Berlin closed ⅝c lower, and Buda Pesth 1c lower. Map showed very low temperatures in the Northwest and in Manitoba; heavy frost in Minnesota and local snows in Manitoba. Frosts predicted in Dakotas to-night. Winnipeg wired: "All estimates of Wheat crop over 45,000,000 bu not taken seriously here; Wheat still in stack and in bad shape; heavy rains over Wheat belt yesterday, hard frost last night; only about one-third crop good milling Wheat." Another message from there read: "Weather clear and cold; 56 cars new Wheat in to-day's receipts." Northwest cars were 149 cars larger than a year ago, while the primary movement was 74,000 bu smaller. Kansas City and St. Louis received 416,000 bu, against 256,000 bu in 1903. Stocks here in all positions reported 4,407,000 bu, an increase of 326,000 bu last week, against 6,884,000 bu one year ago. Contract stocks decreased 37,621 bu and are now 326,228 bu, against 2,505,412 bu in 1903. *Bradstreet's* available supply increased 301,000 bu, against 4,779,000 bu increase same week last year. Minneapolis reported stocks decreased 100,000 bu so far this week. Threshing returns from the Northwest showed good yields. Duluth in reply to the prospect of cash business wired: "Cash demand consists entirely of questions." San Francisco reported four cargoes of Walla Walla Wheat sold to go to France Friday, and one cargo Californian for the same destination reported taken to-day. Receipts at Duluth 361 cars and [illegible] Minneapolis 3[illegible] cars, a total of 669 cars, against 971 cars yesterday, 414 cars a week ago, and 520 cars last year. Local receipts included 122 cars Winter, 18 cars Spring and 4 cars mixed, a total of 154 cars, against 133 cars last year. Included in the above was 1 car of contract grade. There were 8 cars and 44,800 bu taken from unlicensed elevators. The estimated receipts for to-morrow are 77 cars. Withdrawals were 3,500 bu. The receipts at Western points were 999,813 bu, against 1,073,679 last year. At Eastern points 41,984 bu, against 386,103 last year. Shipments from Western points were 515,612 bu, against 549,907 last year, and from Eastern points 7,385 bu, against 23,210 last year. Shipments of Flour were 11,219 brls. Exports of Wheat in Flour were equal to 57,870 bu.

Future Deliveries of Regular Wheat—Good trade and prices higher.

SEPTEMBER—Old Style—Sold at $1 09½@1 10¼. Opened with sales at $1 10¼; sold to $1 09½, to $1 10¼, to $1 09¾, and closed at $1 09⅞.

SEPTEMBER—New Style—Sold at $1 06½@1 07⅜. Opened at $1 07; sold to $1 07¼, to $1 06½, to $1 06¾, to $1 06⅝, to $1 07, to $1 06¾, to $1 07⅜, to $1 06⅞, to $1 07, and closed at $1 07.

DECEMBER—Sold at $1 08⅝@1 09⅞. Opened with sales at $1 09 to $1 09¼; sold to $1 09¼@1 09⅜, to $1 09½, to $1 08⅝, to $1 09⅛, to $1 08¾, to $1 09½, to $1 09, to $1 09⅞, to $1 09, to $1 09½, and closed at $1 09½ asked.

MAY—Sold at $1 10⅝ and at $1 11⅞@1 12. Opened with sales at $1 10¾ to $1 11¼; sold to $1 10⅞, to $1 11⅛, to $1 10⅝, to $1 11⅝, to $1 11, to $1 11⅝@1 11⅞, to $1 11½@1 11⅝, to $1 11⅞@1 12, to $1 11⅜, to $1 11½, to $1 11¼, to $1 11⅝, and closed at $1 11½@1 11⅝.

CORN—A large trade and excited, nervous market most of the session. Fluctuations were on the violent order, particularly at the opening when prices varied 1¼c at the same time in different parts of the pit. Market displayed a much stronger undertone and the close showed gains of 1½c and 1⅞c. There was a rush to buy at the start while offerings were comparatively small and prices advanced sharply. Strength was attributable mainly to the cold weather and higher cables. Selling by yesterday's principal buyers on the advance checked the upturn. Frost was predicted for Nebraska, Wisconsin and Iowa to-night and also in Northern Illinois and Kansas. Liverpool quoted spot ¼@½d lower, while futures were ⅝@⅝d higher. Receipts there the past three days 600,000 bu, half of which came from America. Receipts were smaller than expected at 539 cars, against 730 cars last year and 268 cars estimated for to-morrow. Stocks here in all positions 5,416,000 bu, increased 1,123,000 bu. Stock one year ago 5,729,000 bu. Contract stocks increased 206,028 bu, to 1,517,943 bu, against 2,799,365 bu one year ago. *Bradstreet's* increased 1,862,000 bu, against 1,369,000 bu increase one year ago. Weekly Government crop bulletin rather favorable. London quoted cargoes on passage 1½d lower. Western receipts 682,000 bu; last year 934,000 bu. Shipments 369,000 bu and 506,000 bu, respectively. Local arrivals 541,000 bu and shipments 238,000 bu. Withdrawals 368,000 bu and exports 109,000 bu. Shipping demand moderate and sales 50,000 bu. Car lots were in good demand and prices about ½c higher. No. 2 sold at 52½c and closed at 52¾c. No. 2 Yellow sold at 54@54¼c and closed at 54c. No. 2 White sold at 52½c. No. 3 sold at 52½c and closed at 52½c. No. 3 Yellow sold at 53¾@54¼c, and closed at 53¾c. No. 3 White sold at 52½c. No. 4 sold at 51¼@53¾c, outside for yellow.

Corn by sample Was unchanged to ½c higher compared with yesterday's sales. Offerings were smaller and demand fair. Sales on track and free on board: No. 4 sold at 50@54c. No 3 at 52½@54c. No 3 Yellow at 54@54½c. No. 2 Yellow at 54½c. No 3 White at 52½c. No 2 White at 52¾c. Billed through No. 4 at 50@53c. No. 3 at 50½@51¾c. No 3 Yellow at 53¼@53½c. No. 3 White at 51@51½c. No 2 White at 51½c.

Future Deliveries of No. 2 Corn—Active and most unsettled, closing 1½@1⅞c higher.

SEPTEMBER Sold at 52@53¼c. Opened at 53¼c and sold at 52c, to 52¼c, to 52⅛c, to 52⅝c, and closed at 52⅝c.

OCTOBER—Sold at 53c.

DECEMBER—Sold at 50⅞@52⅜c. Opened at 51c to 52⅜c and sold at 52¼c, to 51⅝c, to 51¾c, to 50⅞c, to 51¼@51⅜c, to 51c, to 51⅝c, to 51⅛@51¼c, to 51⅜c, to 51¼c, to 51¼@51⅜c, and closed at 51¼@51⅜c.

MAY Sold at 50@51¼c. Opened at 50c to 51¼c, being most excited, sold at 50⅝c, to 51¼c, to 50¾c, to 50⅞c, to 50¼c, to 50½c, to 50⅜c, to 50¾c, to 50½c, to 51c, to 50½c, to 51⅛c, to 50⅜c, to 51c, at 50¾c, and closed at 50¾c.

OATS—Were rather slow, but advanced ⅜@½c, with other Grains, and closed at gains of ⅛@¼c. Some buying of December noticed that looked like cash business, but no round lots reported. The best trading was in May. It had ⅝c range, and was bought by "shorts." Statistics were "bearish." *Bradstreet's* available increased 3,336,000 bu, and is 28,483,000 bu, against 11,417,000 bu last year. Stocks in all positions here increased 770,000 bu and are 9,886,000 bu. Contract stocks are 2,619,851 bu, a gain of 742,039 bu last week. Arrivals were 207 cars, with 92 cars expected to-morrow. Seaboard clearances 30,000 bu. Cash sales were 25,000 bu. Car lots to go to store were steady to ¼c lower. No. 4 White sold at 29¼c. No. 3 White at 32¼c. Standard in store closed at 31½c.

Oats by sample were in moderate request with supplies lighter. But prices were steady to ¼c lower. Sales on track and free on board: No Grade at 28@31¼c. No. 4 White at 31@31¼c. No 3 White at 32@33c. Standard at 32¼@33¼c. No. 2 at 31¼c. No. 2 White at 33@33½c. Billed through: No Grade at 28½c. No. 3 at 30c. No. 3 White at 32c. Standard at 32@32¾c. No. 2 at 30¼@31c. At the river. No. 4 White at 30@31c. No. 3 at 29½@29¾c. No. 3 White at 30¼@31¼c. Standard at 31@31½c.

Future Deliveries of Contract Oats—Were stronger and higher.

SEPTEMBER—Slow. Sold at 31@31¼c. Opened at 31¼c, sold to 31⅜c, to 31c, to 31⅛c at close.

DECEMBER—Sold at 32¼@32½c. Opened at 32⅜c, sold at 32½c, to 32¼c, to 32⅜c at close.

MAY—Fairly active. Sold at 34⅜@35c. Opened at 34⅝c to 34⅞c, sold to 35c, to 34⅝c, to 34⅞c, to 34¾@34⅞c at close.

RYE—Was quiet and steady. The offerings were light and not pressing on sale. Demand also light. Receipts were seven cars and withdrawals from private warehouse eight cars. No exports. No 2 in store nominally 73c, with sale of a few cars at 75c, and part car free on board at 75¼c. No 3 sold at 74c and No. 4 at the river at 69c.

Future Deliveries of No. 2 Rye—Entirely nominal. Nothing doing. September nominally 73c, December nominally 75c and May nominally 78c.

BARLEY—There was a heavy feeling about the market. Supply was good. Enough spot goods to meet current requirements, and no one showed any interest in to arrive lots. Some maltsters were out of the market. Among those remaining as buyers there was no competition. There seemed to be rather a gloom over the entire market. Some said they had to sell line samples at 1c reduction to-day. Others called the entire market that much easier. Seventy-five cars inspected in. Screenings quotable at 31@39c for common to very choice. Thin, stained, musty or dirty, feed Barley, quotably 37@38c. Low grade malting, dirty, small berry, poor color, 39@42c. Fair to good color, depending on weight and other conditions, ranged at 44@47c. Higher grade, or choice, ranged at 48@50c. Fancy quotable up to 52@53c.

SEEDS—Most of the interest shown was centered in Timothy, which Seed was very heavy. Flax and Clover both were a shade better; in the former but little and in the latter nothing was done.

Timothy—There was a very heavy market. Good offerings of spot Seed again appeared; buyers were not anxious, on the other hand they were indifferent. Futures sold at yesterday's quotations to ½c under. They continued freely offered at early sale prices, but there was no further bidding, except at a reduction. Fair to good country lots were quotably $2 35@2 45, several high grade cars sold at $2 55@2 57½, fancy nominally $2 60@2 70, and poor trashy Seed down to $2 10. September was offered at $2 85. October sold at $2 80 and there were sellers at that. January sold at $2 90 and offered at that. March in the same way was $3 00 sales and $3 00 sellers.

Flax Was firmer, about ½c higher. It was on favorable Northwestern reports. Little was done. Local receipts 4 cars or 3,600 bu; none taken out. No change in local stock; given as 16,091 bu; a year ago it was 126,008 bu. Minneapolis got 37 cars and Duluth 34 cars. No. 1 Northwestern or No. 1 from the Northwest sold at $1 25. No. 1 was at $1 16½ bid. Rejected ranged at $1 12½@1 22½, as to quality. September sold at $1 17. December was again $1 20 sellers.

Clover Was quoted as stronger with prices 15@25c better. Advices from outside were better. Rainy weather may check threshing and this is having some influence. October delivery quoted at $11 75. Contract spot Seed was quotably about $11 75. Country lots, common to choice, $9 00@11 75; fancy above. Fair to good, $10 00@11 00.

Other Seeds—Nothing has been seen of lines under this head aside from some small samples of rubbed-out Millet. No prices can be given. There probably will be no regular quotations until threshing has proceeded far enough so that actual movement will get started.

HOG PRODUCTS—Quite an active business in a speculative way was transacted in Hog Products, and the market was decidedly stronger in sympathy with Grain and Hogs. Offerings were moderate and the demand was active both for October and January deliveries. Outside orders were somewhat larger, and local trading was good. "Shorts" provided for a portion of their outstanding contracts. Prices advanced considerably on all the leading articles, and extreme figures were fairly well supported to the close. Receipts of Hogs were moderate, and prices ruled slightly higher. Receipts at the leading Western packing points were estimated at 39,800, compared with 43,900 one year ago. Foreign markets were quiet and firm, and Liverpool quotations were advanced 6d on Cumberland Sides, and 3d on Lard. Domestic markets steady. Receipts of Products were liberal—of Lard and Meats about 42 cars. Shipments were fair of Lard and Meats about 134 cars. Shipping demand was fairly active and offerings were moderately large, but firmly held. Sales were fair and prices well supported.

Mess Pork—Considerable interest was manifested in the market for Mess Pork. Offerings were fairly good, and the demand was quite active from miscellaneous sources. Market was quite strong. Opening sales were made at 12½@15c advance, and prices further irregularly advanced 40@45c, and the appreciation was fairly well supported to the close. Shipping demand was moderate and offerings were fair. Cash lots quotable at the close at $11 37½@11 50.

SEPTEMBER—Quiet and quotable at the close at $11 30.

OCTOBER—In good request and offerings were fair. Sales were made at $10 90@11 35. Opened at $10 90 sold to $11 15, to $11 10, to $11 20, to $11 17½, to $11 35, to $11 30, to $11 35, to $11 32½, and closed steady.

DECEMBER Quiet, with small sales at $11 32½.

JANUARY—Offerings were fair, and the demand was active. Sales were made at $12 87½@13 27½. Opened at $12 87½ to $12 90, sold to $12 87½, to $12 95, to $12 90, to $13 05, to $13 02½, to $13 12½, to $13 05 to $13 12½, to $13 07½, to $13 20, to $13 17½, to $13 27½, to $13 25, to $13 27½, and closed steady.

MAY -Quiet, with small sales at $13 05@13 35, and closed at $13 35.

Lard—The market for Lard attracted considerable speculative attention, and trading was quite active. Outside orders were larger, and local operators and packers traded rather freely. Liverpool was quoted 3d higher. Opening trades were made at 5@7½c advance, and prices further improved 12½@20c—latter on January—with good trading at the advancing scale, and the advance was well supported to the close. "Shorts" purchased fair quantities. Demand on shipping account was fair with moderate offerings. Cash lots quotable at $7 10@7 15. Loose lots in good request, with very small offerings. Prices ruled higher—sold early at 20c, and later 15c discount on October figures was bid. Some holders asking full October figures at the close. Leaf Lard was in light demand, with rather small offerings. Quotably steady at about $7 00@7 12½. Neutral in light demand, with moderate offerings. Prices quotably higher at $8 50@8 62½ for No. 1 and $7 87½@8 00 for No. 2.

SEPTEMBER—Quiet and steady, with small sales at $7 10@7 12½, and closed at $7 12½.

OCTOBER—In good demand, with fair offerings. Sales were made at $7 07½@7 17½. Opened at $7 07½, sold to $7 10 to $7 07½, to $7 10, to $7 07½, to $7 15@7 17½, and closed steady.

NOVEMBER—Quiet, with small sales at $7 15@7 17½.

JANUARY Offerings were fair, and the demand was brisk. Sales were made at $7 15@7 37½. Opened at $7 15 to $7 20, sold to $7 25, to $7 22½, to $7 25, to $7 22½, to $7 27½, to $7 25 to $7 30, to $7 27½, to $7 35@7 37½, and closed steady.

MAY—Called for moderately and offerings rather small. A few trades made at $7 37½@7 50 and closed steady at $7 50.

Short Rib Sides Rather a good business was transacted in Short Rib Sides, and the feeling was stronger. Offerings were fair, and the demand was active. More doing on outside account. Market opened rather firm at 5@7½c advance, and a further appreciation of 12½@17½c was gained—the latter on January—and the market closed rather steady at nearly outside figures. Shipping demand was fair, but offerings were moderate. Cash lots quotable at $7 50@7 75, according to weight.

SEPTEMBER—Quiet with small sales at $7 50@7 52½, and closed at $7 50.

OCTOBER In good request and offerings were fair. Sales were made at $7 42½@7 57½. Opened at $7 45, sold to $7 42½, to $7 45, to $7 40, to $7 45@7 47½, to $7 45, to $7 50, to $7 47½, to $7 57½, to $7 52½, to $7 55, and closed steady.

JANUARY—Offerings were fair, and the demand was rather active. Sales were made at $6 72½@6 90. Opened at $6 72½, sold to $6 77½, to $6 75, to $6 87½, to $6 82½@6 85, to $6 87½, to $6 85, to $6 87½@6 90, and closed steady.

MAY Quiet and steady at $6 95.

Other Meats—Trade was fairly active and mainly on domestic account. Exporters bought sparingly. Offerings moderately free and inquiry was good. Green Meats in moderate supply with a light inquiry and prices ruled steady. Pickled Meats in fair request with only moderate offerings, and prices were unchanged. Dry Salted Meats were in good demand, with fair offerings, and prices ruled higher. Smoked Meats called for moderately and prices favored sellers. Closing prices were as follows:

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Sept. 15.]

Wheat—The recent activity in Wheat has temporarily subsided, and sellers are not disposed to accept offers made. In nearly every section the asking price for club Wheat is 70c to 74c in the country, and no one is offering more than 69c for export; a great amount of Wheat has passed from the grower to the shipper and in some localities over half the crop has been disposed of. Shipments Eastward continue quite heavily, and each day heavy shipments go in that direction. Harvesting is almost through in the State of Oregon, and another week will see the same practically secured. In Washington not one-half as yet is finished, and it will be fully a month more before the same is completed. Idaho is in about the same condition. The foreign markets do not respond to the activity displayed in this country, hence there is very little doing for foreign account. Exporters are in the market at all times if they can secure Wheat at an export basis, that at present means 78c for club, bluestem 81c and valley at the same price, and this is bought only by millers, although more money has been paid for Eastern shipment. It looks as if the foreign export market will be very light this season unless some radical changes should be made. A few in the trade are of the opinion that we will not export any more Wheat than we did a year ago. If any increase in the same should be made, freights will either decline or buyers abroad must raise their limits for cargoes. Shippers can do better with their purchases by sending them to Eastern markets or California.

Flour—There is no change in the Flour market since our last review, and the heavy export demand for the present is over. The same was only of a few weeks' duration, and from now on the shipments will be light until stocks in the Orient show a material decrease. Steamers sailing this month will have fair cargoes, principally for China; future sailings are limited with Flour cargoes, yet a great many of the mills have curtailed their output and some have closed down for a short time. South America shipments continue good, also to California. Flour is being sent to various districts in that State and the same has met with favor there. It looks that many of the Northern mills have established a good future market in California and will be able to dispose of a large amount of surplus Flour manufactured here in that State hereafter. Owing to the high price of Wheat very few offers made for Flour can be accepted and the outlook for a good foreign trade at present is not very flattering. We quote export $3 40 to $3 60, Patents from $4 25 to $4 50 per brl.

WHEAT CULTURE IN CANADA.

[From the Canadian Agricultural Report.]

While no variety of Wheat is likely entirely to displace the standard Wheat of the Canadian Northwest, Red Fife, there has been on the part of our farmers a general desire to secure a variety which would ripen a little earlier and so escape the danger of frost which frequently seriously affects immature Grain in backward seasons. Careful experiments with this end in view have been conducted for some years under the direction of Dr. Wm. Saunders, Director of the Dominion Experimental Farms. As a result a variety has been obtained, known as early Riga, which seems to be of the highest promise. This Wheat was obtained by crossing an Indian Wheat named Gehun, brought from a high elevation in the Himalayas, with a Russian Wheat known as Onega, procured from the vicinity of Archangel, one of the most northerly Wheat growing districts of Russia.

Dr. Saunders states that during the five years this Wheat has been under trial it has ripened on an average eight to nine days earlier than Red Fife and gave an average crop of 31 bu 2 lbs per acre, about 2 bu 5 lbs less than Red Fife. A sample from Ottawa submitted to a Minneapolis expert showed about 20 per cent more gluten than Red Fife from Indian Head, while the quality of the gluten in the Early Riga was considered quite equal to that of the better known variety. Dr. Saunders, in his report, says: "With reference to the high quality and early maturing habit of the Early Riga Wheat the information presented is most encouraging. If this Wheat on further trial maintains its earliness, quality and productiveness, its general introduction may largely influence the future of Wheat growing in Canada."

THE HOP SITUATION.

[New York Producers' Price Current, Sept. 17.]

Hop picking in New York State is coming to an end and a fair criticism of the quality can now be advanced. The Hops in general are satisfactory in color; a good many will be choice in quality; quite some will show only prime and there will be some mediums on account of the mold. The estimates on quantity are conservatively placed at 65,000 to 70,000 bales. The market in the State the past week has been one of the most active in the history of the trade. Growers have been free sellers at the current prices—30@31c, and in one of the largest counties it is estimated that one-half of the crop has passed out of growers' hands. Picking in California is practically finished and our original estimate of 60,000 bales seems to have been confirmed. In Oregon and Washington picking is still going on. The estimates for Oregon are being steadily reduced and to-day it is not expected that over 80,000 bales will be harvested in that State. The market in all three Pacific Coast States has been very active and prices have ranged from 25c for Sacramentos to 27c for choice Oregons and Sonomas. English markets report that holders are very firm on all grades and there is a good inquiry. Crop estimates of the English growth are still placed at 325,000 cwt. The tone of the local market is quite firm. There has been demand for 1903 Pacifics and sales have been made between dealers at 27@27½c. There is also some demand for 1903 State Hops but there are none to do business with.

THE POTATO CROP.

The condition of the Potato crop on Sept. 1, as consolidated from the local returns of *Orange Judd Farmer's* county correspondents, is 90.8, against 92.7 Aug. 1. This condition is decidedly above the average for a series of years and must be taken as promising an exceedingly heavy rate of yield in all important Potato producing sections should the crop be matured properly. The situation in detail by States is shown by the following averages of condition on Sept. 1:

	Condition		Condition.
New York	92	Iowa	100
Pennsylvania	93	Missouri	83
Texas	81	Kansas	77
Arkansas	96	Nebraska	99
Tennessee	85	North Dakota	93

Ohio	91	Oregon	70
Michigan	88	Washington	80
Indiana	88	Oklahoma	83
Illinois	88	Other	92
Wisconsin	93		
Minnesota	92	Average	90.8

From Russia and the Danube the exports of Flax Seed from Aug 1 to Sept. 3 have amounted to 168,000 bu, against 380,000 bu in the previous year, and 256,000 bu in 1902.

The Chicago Title and Trust Company is trustee in an issue of $75,000 improvement bonds issued by the Marinette Gas Engine Company on its plant now in construction at Chicago Heights. These bonds are payable in eight years and bear 6 per cent interest.

The $350,000 4 per cent twenty-year bonds of St. Joseph, Mo., have been sold to the Mississippi Valley Trust Company. Of the total amount $250,000 will be used for the construction of a sewerage system and $100,000 in the construction of an electric lighting plant.

The receipts of Flax Seed at Bombay for the week ended Aug. 18 amounted to 2,585 tons, against 3,910 tons in the previous week and 600 tons in the same week last year. The total receipts at Bombay from Jan. 1 to Aug. 18 amounted to 184,633 tons, against 130,699 tons in the same period last year.

The shipments of Flax Seed from India from April 1 to date amounted to 12,912,000 bu (Calcutta 8,216,000 and Bombay 4,696,000 bu), against 12,338,000 bu last season (Calcutta 8,080,000 bu and Bombay 4,258,000 bu), and 9,684,000 bu in 1902 (Calcutta 6,523,000 bu and Bombay 3,136,000 bu).

The *Corn Trade News* of Sept. 10 says of the German crops: "Our Hamburg correspondents write that the weather remains very fine, and further rains are wanted to enable inland navigation to be resumed and to get the land into condition for fall plowing and seeding. The Potato crop is small but of good sound quality. Farmers' deliveries are increasing, and the quality of the Grain is mostly very fine."

Details of the reports of the Chicago banks made to the Comptroller of the Currency and the Auditor of Public Accounts of the State of Illinois, as of Sept. 6-7, show that while the banks were stronger in cash resources than at the date of the previous call, in actual cash reserves, or legal reserves, they were really lower. The national banks on Sept. 6 held legal reserves of 24.84 per cent of their net deposits, as compared with 26.15 per cent on June 9, and 23.87 per cent on Sept. 9, 1903. The legal reserves of the State banks on Sept. 7 were 8.96 per cent, as compared with 9.02 per cent on June 10.

The *Corn Trade News* Buda Pesth correspondent writing under date of Sept. 4 says: "The heat has been finally broken and for some days we had copious rains with low temperature. The abundant moisture will be beneficial to pastures, to late Potatoes and Turnips and enable farmers to prepare fields for autumn sowing. Some of the Corn plants have been, perhaps, somewhat improved, but on the whole the betterment is hardly worth mentioning. Concerning the Corn crop the Government's estimate of the yield seems to be pessimistic and it is expected that the final figures will show a better result. In consequence of the rainy weather the tendency of our market has quite changed. 'Bulls' showed real consternation and realizing has been large."

Owing to the improved investment demand for securities some bankers are urging their railroad clients to take up their outstanding notes through the sale of bonds. A prominent railroad banker said that the bonds could be disposed of now at terms which would make it advantageous for roads to substitute low interest-bearing securities for the 5 and 6 per cent notes, even if they had to pay well for the conversion. He added: "In many cases it would be a distinct advantage to the railroads to take up their notes now and put out bonds. They could do this easily, for I am certain that purchasers could be found for the longer term securities which could not have been placed four or six months ago. If the railroads let the notes run to maturity, and that is exactly what most of them will do, they may find themselves forced to float bonds on a falling market. There will be a glut of securities in that case, for it stands to reason that with a larger number of competing issues the market would be overburdened. But the railroads are a great deal like the public, in generally loading up at the top and selling at the bottom."

The Colorado Fuel and Iron Company has sent the following notice to stockholders: "The annual meeting of stockholders for election of directors and transaction of general business will be held in Denver, Monday, Oct. 17. The stock transfer books will close Tuesday, Sept. 27, and remain closed until final adjournment of the meeting. The properties lately sold by this company to stockholders and directors have now been conveyed to the Colorado Industrial Company, which also purchased from the Wyoming Railway and Iron Company large deposits of Iron Ore in the State of Wyoming, and has arranged for the acquisition of over seven-eighths of the outstanding debentures of the Colorado Fuel and Iron Company, issued under agreement with the Illinois Trust and Savings Bank. Certain directors of the Colorado Fuel and Iron Company are also interested in the Colorado Industrial Company. It is now proposed to bring all the properties together under the control of the Colorado Fuel and Iron Company, to refund the outstanding first mortgage bonds of the Colorado Fuel and Iron Company, and to furnish that company with what is believed to be ample working capital. For all these purposes and by order of the board of directors there will be brought before the meeting a proposition to amend the articles of incorporation of the Colorado Fuel and Iron Company so as to increase the capital stock of the company from $40,000,000 to $46,200,000. There will also be submitted a proposition to acquire the capital stock and part of the bonds of the Colorado Industrial Company, a corporation existing under the laws of Colorado, in consideration therefor this company to issue $3,200,000 par value of its capital stock and to guarantee the mortgage bonds of the Industrial company to an aggregate amount of $45,000,000.

New York Exchange 15@20c discount.

Chicago Bank Clearings to-day, $29,713,483.

The Chicago Stock Exchange is buying all memberships offered at $700.

Reported that no Wheat and 8,000 bu Corn were taken at the seaboard to-day for export.

Seven packers purchased 14,300 Hogs to-day; shippers, 4,000; left over, 6,000. The market closed weak.

Deliveries of Timothy Seed on September sales looked for; 20 cars to-day were passed as prime or contract grade.

Deliveries on September contracts to-day were 85,000 bu No. 2 Hard Wheat, 20,000 bu Corn, 5,000 bu Oats and 10 000 bu Rye.

A mill at Grand Forks, N. D., is said to have stopped taking in Wheat on account of the absence of Flour qualities.

Estimated receipts for to-morrow. Wheat, 164 cars; Corn, 385 cars; Oats, 185 cars; Rye, 4 cars; Barley, 119 cars; Hogs, 23 000.

The ocean steamship lines which recently cut their steerage rates are advancing them about $5 00 from New York to Liverpool.

The Oregon Railroad and Navigation Company has put in a rate of 67½c on Grain destined from the Dalles, Oregon, to Detroit by way of Chicago.

Outside Hog prices at five markets, Tuesday, were: Chicago, $6 32½; Kansas City, $6 02½; St. Joseph, $6 00; Omaha, $5 92½, and Sioux City, $5 85.

Cotton advanced, with Liverpool up 13 points. "Shorts" were active buyers and that interest was well covered. Closing sales were at an advance of 19@25 points.

Average cost price of Hogs at Chicago, Tuesday, was $6 00, against $5 99 Monday, $5 78 last Saturday, $5 70 a week ago, $5 37 a month ago, and $5 95 a year ago.

Southwestern mills are selling a great deal of Flour at full prices in Chicago and in Eastern States. Northwestern mills are less fortunate in getting the demand for their Flours.

Local Securities were mostly weaker and lower. The most notable break was 4¾ in City Railway. Carbon common and Ship Building common, Can preferred and Metropolitan Elevated preferred made fair advances.

Minneapolis is getting a good many excellent threshing returns from Minnesota and North Dakato, where the Wheat crop is running better than expected, both as to quantity and quality, a good deal being No. 1 and No. 2 Northern.

The Duluth *Commercial Record* claims that "rusted Wheat did make progress after the straw was affected, and the rains of the week of Aug. 28 to September 3 saved the Northwestern States millions of bushels of Wheat, simply because it was too wet to cut it."

Broomhall cables: "France has just paid 35s for a cargo of Walla Walla Wheat, prompt shipment. This is equal to about $1 06¼ per bu; 34s 9d was paid for an October-November cargo two days ago, or $1 05¼, and on the 15th 34s 3d, or $1 04¾ was paid for October shipment."

Stocks in New York were bought with more energy. Part of the buying was to cover "shorts." Union Pacific and Southern Pacific were features, the former advancing 2 points. Industrials were irregular, Amalgamated Copper advancing and Anaconda declining. Steel preferred was heavily bought and gained 1 point. Eastern Railways advanced ½ to 1⅜. Money 1¾ to 2 per cent.

The Paris *Echo Agricole* of September 7 estimates the total yield of Wheat this year at about 8,422,000 tons of 2,204 lbs (314,424,000 bu), as against the official estimate of last year of 9,960,000 tons (371,840,000 bu), a decrease this year of 1,538,000 tons (57,416,000 bu). With the price of Wheat this year, however, at 22f per 100 kilos, as against 19f last year, the deficiency in the crop is not likely to be a source of loss to farmers.

A Des Moines, Iowa, party who examined Corn within twenty-five miles of that city, says: "Sixty per cent of the crop is now out of danger of a killing frost. With good weather 20 per cent will be safe by Sept. 25, and 20 per cent will require to Oct. 1 to finish. We did not examine any fields that we thought would produce less than 50 bu per acre. A majority of the fields will go 65 bu and a number 75 bu. Ten to fifteen more days of hot, dry, and windy weather will finish the Iowa crop. It will be the largest in bushels of any in the last six or eight years. The late frost did practically no damage."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The demand is moderate and market firm. Millers not inclined to grant concessions, notwithstanding the late action of Wheat.

WINTER WHEAT—Was in only fair demand and market steady. Millers doing a little, and trade mostly speculative. Buying of Wheat mostly to go to store. No. 2 Red in store ranged at $1 10⅝@1 12¾—and fresh arrivals free on board quotably about $1 14@1 15. No. 3 Red fresh arrivals free on board sold at $1 10½@1 13½ for good to choice, and at the river at $1 10. No. 4 Red fresh arrivals free on board sold at $1 03@1 10½. No. 2 Hard fresh arrivals free on board quotably $1 10@1 12½. No. 3 Hard fresh arrivals sold at $1 00½@1 07, and a sale at the river at $1 04. No. 4 Hard fresh receipts sold free on board at 90c, and at the river at 97c. No Grade Hard very poor car sold at 52c, and at the river a car sold at 91c.

SPRING WHEAT—Was in light supply and in moderate demand. Market quotably steady. No. 1 Northern fresh arrivals free on board quotably about $1 18@1 20 and No. 2 Northern fresh arrivals nominally $1 16. No. 3 Spring nominally $1 05@1 15 for poor to very choice, with sales at $1 12@1 15. No. 4 Spring sold at 88c for ordinary, at $1 00@1 01 for fair, at $1 09 for good and at $1 14 for very choice hard variety.

REGULAR WHEAT—A very good trade and rather unsettled market, closing prices being ⅜c to ⅞c below those of yesterday. There was an opening rush to sell on the weaker Minneapolis curb, better weather and break in Corn, floor traders as a rule going home "long" yesterday. Prominent local professionals supposed to be "long" large lines, were also credited with liquidating and situation for a time was quite weak. At the decline warehouse interests and commission houses bought, the strength on the Continent and French crop estimate being among the "bull" influences. Paris was up equal to 1½@2¼c, while Berlin and Buda Pesth each gained ⅜c. The French Millers' Association estimated the Wheat crop of France at 304,000,000 bu, against the official estimate last year of 360,000,000 bu. The advance however, proved short lived, as renewed selling caused prices to recede the closing hour. Liverpool quoted spot unchanged and futures ½@⅝d higher. London came 1@2¼d higher. Duluth reported the cash demand better, with moderat sales to go East, and milling conditions in the Northwest were said to be improved. Primary receipts were 180,000 bu smaller than a year ago. Receipts in the Northwest were 243 cars larger than last year. Kansas City and St. Louis received 293,000 bu, against 234,000 bu in 1903. Kansas City reported orders there for cash Wheat from Pennsylvania, Ohio and Michigan mills and reported advices of shipment the smallest of the season. Part of the late selling was credited to the elevator interests and professionals. Minneapolis reported stocks decreased 100,000 bu so far this week. An estimate of 50,000,000 bu for Manitoba by a Canadian official was in circulation. St. Louis reported millers taking No. 2 Red from store as it was not obtainable in the current receipts. Liverpool again reported France a buyer of cargoes off coast. Exports were very meagre and no boat loads accepted at the seaboard. The Northwest was credited with buying December and selling the May. Minneapolis wired: "101 cars No. 1 Northern, 60 cars No. 2 Northern, 76 cars No. 3 Northern Wheat in to-day's inspection." Receipts at Duluth 162 cars and at Minneapolis 444 cars, a total of 606 cars, against 669 cars yesterday, 337 cars a week ago, and 383 cars last year. Local receipts included 61 cars Winter, 9 cars Spring and 2 cars mixed, a total of 72 cars, against 103 cars last year. Included in the above was 1 car of contract grade. There were 17 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 161 cars. There were no withdrawals. The receipts at Western points were 1,054,608 bu, against 1,235,297 last year. At Eastern points 56,166 bu, against 535,924 last year. Shipments from Western points were 533,413 bu, against 606,569 last year, and from Eastern points 8,970 bu, against 205 977 last year. Shipments of Flour were 3,030 brls. Exports of Wheat in Flour were equal to 12,552 bu.

Future Deliveries of Regular Wheat—Good trade and closing lower.

SEPTEMBER—Old Style—Sold at $1 09½@1 10¼. Opened at $1 10¼; sold to $1 09½, to $1 10⅛, to $1 09½, and closed at $1 09½.

SEPTEMBER—New Style—Sold at $1 06½@1 07⅝. Opened at $1 06½; sold to $1 07⅝, to $1 05½, and closed at $1 06½.

CORN—A good trade was reported and the feeling developed was easier, the close being ⅝c to 1⅛@1¼c lower than yesterday. Offerings were heavy and general at the start, the failure of the frost scare to materialize being the chief "bear" influence. Provision specialists were credited with liquidating freely, but on the decline a better commission house demand developed, part of the buying being for the Southwest, and situation turned steadier. Toward the close, however, offerings again became heavy, and last prices were around the inside of the day. Map showed killing frosts in the Northwest, they were light through Iowa. Temperatures were generally lower through the West, but little change through Nebraska. Frost, however, was predicted for Illinois Indiana, Iowa and Nebraska; showers and warmer for Kansas, and cloudy and warmer for Missouri. Country offerings were freer and receipts were 237 cars, against 422 cars last year and 385 cars are estimated for to-morrow. Liverpool quoted spot unchanged to ¼d higher and futures ⅛@¼d lower. Offerings from Argentina were reported larger. Local shipments were liberal, 793,000 bu, against receipts of 599,000 bu. Western receipts were 748,000 bu, against 845,000 bu in 1903. Shipments were 872,000 bu and 664,000 bu respectively. Withdrawals here were 414,000 bu, while exports were limited to 7,000 bu. Shipping demand more moderate and sales smaller. Car lots were in good demand with moderate offerings. Prices were little changed. No. 2 closed about 52¼c. No. 2 Yellow closed at 53½c. No. 3 sold at 52½c and closed at 52c. No. 3 Yellow closed at 53¼c. No. 4 sold at 51@51c, outside for yellow. Charters were made for 300,000 bu.

Corn by sample—Was rather quiet. Offerings moderate and demand just fair. Feeling steady and prices without important change. Sales on track and free on board: No Grade sold at 48@52c. No. 4 at 50@51¼c. No. 3 at 52½@54¼c. No. 3 Yellow at 54¼@54½c. No. 2 at 52½c. No. 2 Yellow at 54¾c. No. 3 White at 52½c. No. 2 White at 52½@52¾c. Billed through: No. 4 at 50½@53¼c. No. 3 at 51½@52½c. No. 3 Yellow at 52¾@53½c. No. 2 Yellow at 53¼c. No. 3 White at 51@52c.

Future Deliveries of No. 2 Corn—Active and weaker, the market closing ⅝ to 1⅛@1¼c lower.

SEPTEMBER—Sold at 51¾@52¼c. Opened at 51¾ to 52¼c, to 52⅛c, to 52c, and closed at 52.

DECEMBER—Sold at 50¼@51c. Opened at 50¾c to 50⅝c and sold at 50½c, to 50¾c, to 50½c, to 50⅞c, at 50⅝c, to 51c, to 50¼c, to 50¼@50⅜c, and closed at 50¼@50⅜c asked.

MAY—Sold at 49½@50⅜c. Opened at 50⅜c to 49⅞c, and sold at 50c, to 49¾@49⅞c, to 50⅛c, to 50c, to 50⅜c, to 50⅛c, to 50¼c, to 49⅝c, to 49¾c, to 49½c, to 49⅝c, to 49½@49⅝c, and closed at 49½@49⅝c asked.

OATS—Were weak and declined ⅜@½c, with the close at ¼@½c decline. There was good trading in May at 34½c, buying orders absorbing the offerings fairly, but they were eventually filled up. Receivers and elevator interests did the selling. Weakness in other Grains had a depressing effect. Cash sales were slow, 50,000 bu. Arrivals 92 cars, with 185 cars expected to-morrow. Withdrawals were 199,500 bu. Seaboard clearances 16 000 bu. Car lots to go to store were slow but steady. No. 3 White sold at 31½@32¼c. No. 2 White at 33¼c. Standard sold in store at ¼c over September in small lots. Round lots closed about 30⅞@31c.

Oats by sample were rather slow with supplies fair. Sales on track and free on board: No Grade at 31c. No. 4 at 29c. No. 4 White at 31@31½c. No. 3 at 31@31¼c. No. 3 White at 31½@33¼c. Standard at 32¼@33c. No. 2 at 31⅜@31½c. No. 2 White at 33@33¾c. Billed through: No. 4 White at 30@31c. No. 3 White at 31¾@32c. Standard at 32¼@32½c. No. 2 at 30¼c. At the river: No. 4 White at 28½@30½c. No. 3 White at 30½@31c. Standard at 31@31¼c.

Future Deliveries of Contract Oats—Were moderately traded in and lower.

SEPTEMBER—Slow. Sold at 30⅝@31c. Opened at 30⅞c to 31c, sold to 30⅝c to 30⅞c at close.

DECEMBER—Sold at 31⅞c and at 32¼@32⅜c. Opened at 32¼c, sold to 32¼@32⅜c, to 31⅞c at close.

MAY—Traded in fairly. Sales at 34⅜@34¾c. Opened at 34¾c, sold to 34⅜c, and closed there.

RYE—The market was steady and unchanged. Very little doing and prices little better than nominal. Only four cars received and one car was withdrawn from private warehouse. No exports. No. 2 in store nominally 73c, and fresh arrivals free on board about 75@75½c and sold at the river at 74½c. No Grade sold at 69@70c.

Future Deliveries of No. 2 Rye—Quiet. September nominally 73c and December nominally 75c. May sold at 78c.

BARLEY—While no improvement in prices could be noted, there was, at the same time, a steadier feeling in the market for spot cars. Quantity on sale was somewhat smaller than previous days this week. Demand very fair. Some maltsters buying to-day who have been absent recently. Trading was in malting goods; very little of the feed or mixing kind offered; there was some call for the latter. To-arrive lots remain neglected, not wanted unless it might be some lot of special quality. Posted receipts to-day 69 cars. Screenings, though inactive and nominal, were quotable at 31@39c for common to very choice. Thin, stained, musty or dirty, feed Barley, quotably 37@38c and scarce. Low grade malting, dirty, small berry, poor color, 39@43c. Fair to good color, depending on weight and other conditions, ranged at 44@47c. Higher grade, or choice, ranged at 48@50c. Fancy quotable at 52@53c. Main sales to-day were at 42@44c.

SEEDS—The business done was confined to Timothy, for which a heavy, somewhat easier market was experienced. There was several cents nominal decline in the case of Flax Seed, while Clover was quoted as steady.

Timothy—There was an easy feeling. Futures closed about 2½@5c lower. They ruled dull and inactive. Little desire to purchase was shown. Cash Seed again freely offered with few buyers. Quality not so good as yesterday, making the sales appear at easier prices. Some concessions to buyers had to be made, and yet no material price changes were quoted. Fair to good country lots were quotably $2 50@2 55. Some high grade Seed sold at $2 55@2 55, fancy nominally $2 60@2 70, and poor trashy Seed down to $2 00@2 10; considerable dark and hulled sold at $2 30. Contract grade, September, offered at $2 82½ and $2 80 bid. Samples representing 20 cars were submitted as contract Seed and passed as such. This was taken as a preliminary to deliveries on contracts. October was offered at $2 80 and $2 70 was bid. January called nominally $2 87½. March sold in exchange for cash at $3 00 and offered later at $2 97½, with $2 … bid.

Flax—There was a weak and lower market. Prices, they were nominal in the absence of trading, were quoted at 3½@4c decline. The weakness was due to a slump in prices in the Northwestern markets. No spot offerings here. Only 2 cars of 1800 bu received and none taken out. At Minneapolis the receipts were 56 cars, at Duluth, 6 cars. No. 1 Northwestern or No. 1 from the Northwest was quoted at $1 21. No. 1 at $1 13. Rejected at $1 10@1 20 as to quality. September offered at $1 13. December, $1 16 sellers.

Clover—Was quoted as steady. There was no trading. The market was without offerings. Prices the same as noted yesterday. October delivery quoted at $11 75. Contract spot Seed was quotably about $11 75. Country lots, common to choice, $9 00@11 75; fancy above. Fair to good, $10 00@11 00.

HOG PRODUCTS—It was an "old-time market" in Hog Products, and the volume of business was quite large. Outside orders were fairly liberal, and local packers and speculators traded freely. Some of the packers and outside operators purchased at the advancing scale, and when outside prices were reached it was quite evident that other packers and some local speculators sold with considerable freedom. Trading chiefly in October and January contracts. Prices were advanced sharply on all the leading articles, but during the latter part of the session the market weakened in sympathy with Grain and prices declined materially. January closed lower than on Tuesday. "Shorts" accepted fair quantities, and there was not much property for sale until prices were advanced. Receipts of Hogs were fair, and prices ruled lower. Receipts at the leading Western packing points were estimated at 58,400, compared with 55,900 one year ago. Foreign markets were stronger generally. Liverpool quotations were advanced 2s on Cumberland Sides, 6d on Backs and 9d on Lard, while Hams were quiet at 6d decline. Domestic markets stronger. Receipts of Products were quite large—of Lard and Meats about 75 cars. Shipments were heavy of Lard and Meats about 228 cars. Inquiry on shipping account was quite active, and offerings were fair. Sales were moderately large, and chiefly to meet the wants of the domestic trade. Prices rather inclined in favor of sellers.

Mess Pork—Quite an active business was reported in Mess Pork, and the market in a general way exhibited considerable strength. Offerings were not very large, and the demand was quite good, both on outside and local account. At the opening, the feeling was rather easy at 2½@7½c decline, and a further reduction of 10@12½c was submitted to. At the decline, there was good miscellaneous buying, and prices irregularly advanced 65@67½c on October and 30@32½c on January. At the advance, more property was offered, and a weaker feeling was manifested, and prices receded 35@37½c, and the market closed steady. Shipping demand was moderate, and offerings were only fair. Cash lots quotable at $11 37½@@11 50.

SEPTEMBER—Quiet and quotable at the close at $11 37½.

OCTOBER—In good request and offerings were fair. Sales were made at $11 12½@11 80. Opened at $11 25, sold to $11 12½, to $11 80, to $11 67½, to $11 72½, to $11 45, to $11 50, to $11 37½, and closed steady.

NOVEMBER—Quiet with small sales at $11 70.

DECEMBER—A few trades made at $11 30@11 32½.

JANUARY—Offerings were fair, and the demand was active. Sales were made at $13 15@13 47½. Opened at $13 25, sold to $13 15, to $13 25, to $13 22½, to $13 45@13 47½, to $13 40, to $13 42½, to $13 37½, to $13 42½, to $13 37½, to $13 40, to $13 10, to $13 15, to $13 10, and closed steady.

Lard—A brisk business was transacted in the Lard market, and the market was decidedly stronger. Offerings were moderate, and the demand was active. Outside and local operators purchased early, and there was some realizing at the close. Foreign markets were stronger. Market opened rather easy, with only fair offerings, and prices 2½@5c lower, which was followed by a further reduction of 5c. Later, there was good miscellaneous buying, and prices rallied 10@12½c. At the improvement, offerings were somewhat enlarged, and prices settled back 7½@10c, and the market closed steady. "Shorts" purchased fair quantities. Demand on shipping account was good with fairly large offerings. Cash lots quotable at $7 15@7 20. Loose lots in good request, with very small offerings. Prices quotable at about 10c discount on October figures. Leaf Lard was in light demand, with rather small offerings. Quotably steady at about $7 12½@7 15. Neutral in light demand, with moderate offerings. Prices quotably steady at $8 50@8 62½ for No. 1 and $7 87½@8 00 for No. 2.

SEPTEMBER—Demand light and offerings small. A few trades made at $7 15@7 20, and closed at $7 15.

OCTOBER—In rather active request with fair offerings. Sales were made at $7 10@7 22½. Opened at $7 15, sold to $7 10, to $7 15, to $7 12½, to $7 17½@7 20, to $7 17½, to $7 22½, to $7 20, to $7 22½, to $7 15, and closed steady.

NOVEMBER—Quiet, and sold at $7 27½.

DECEMBER—Sold sparingly at $7 15.

JANUARY—In fair request and offerings were moderate. Sales were made at $7 27½@7 40. Opened at $7 32½, sold to $7 27½, to $7 37½, to $7 35, to $7 37½@7 40, to $7 35, and closed steady.

MAY—Quiet with small sales at $7 50.

Short Rib Sides—A fairly good trade was reported in the market for Short Rib Sides, and the feeling was stronger. Offerings were fair, and the demand was moderately active. A little more doing on outside account. Market opened rather easy and prices ruled 2½@5c lower, which was followed by a further reduction of 5c. At the decline, the demand improved, and prices advanced 12½@15c. Toward the close the feeling was not so strong, and prices settled back 10@15c, and the market closed comparatively steady. Shipping demand was rather good, and offerings were moderate. Cash lots were quotable at $7 50@7 75, according to weight.

SEPTEMBER—Quiet and quotable at $7 52½.

OCTOBER—In good request and offerings were fair. Sales were made at $7 50@7 65. Opened at $7 55, sold to $7 50, to $7 65, to $7 62½, to $7 65, to $7 55, to $7 57½, to $7 50, to $7 52½, and closed steady.

JANUARY—Offerings were fair, and the demand was moderately active. Sales were made at $6 80@6 92½. Opened at $6 85, sold to $6 80, to $6 92½, to $6 80, to $6 82½, to $6 80@6 82½, and closed steady.

MAY—Called for sparingly, and offerings rather light. A few trades made at $7 02½@7 12½, and closed at $7 07½.

Other Meats—Trade was fairly active and mainly on domestic account. Exporters bought sparingly. Offerings moderately free and inquiry was good. Green Meats in moderate supply with a light inquiry and prices ruled steady. Pickled Meats in fair request with only moderate offerings, and prices were unchanged. Dry Salted Meats were in good demand, with fair offerings, and prices ruled higher. Smoked Meats called for moderately and prices favored sellers. Closing prices were as follows:

THE INCREASE IN CIRCULATION.

[From the Wall Street Journal, Sept. 11.]

The total stock of money in the United States increased from $2,783,102,326 on Jan. 1 to $2,829,273,316, or more than $46,000,000, and the money in actual circulation, which was $2,166,316,697 at the beginning of the year, rose to $2,258,274,984 on Sept. 1, an increase of nearly $112,000,000. On the latter date the per capita circulation had increased just one dollar over the first days of January. A great deal can be done with $112,000,000, and as it happened that it was not urgently needed in the ordinary channels the Wall Street Journal finds the steady growth of the volume of available money month by month.

The deposits of the clearing house banks of New York City increased during the eight months ended Aug. 31 $313,410,000 as one result of the plethora of money, and money on call loaned as low as 1 per cent. This is a very remarkable increase in deposits. A recent bulletin issued by the Comptroller of the Currency calls attention to the enormous increase of 103 per cent in the deposits of the banks of the whole country between 1885 and 1893. Deposits in New York have this year increased in much greater proportion. In this city the abnormal volume of deposits proves nothing. On Aug. 1 the Philadelphia clearing house banks have increased their net deposits more than $12,000,000.

National bank notes outstanding have also been increasing continuously for more than a year, and especially since the first of January. On Aug. 1, 1893, the outstanding national bank note circulation was $171,287,487. By Jan. 1, 1894, it had reached $175,153,000, and on Sept. 1, $182,510,000. Since August, 1892, the national bank circulation has been higher than at any former period in its history, the maximum heretofore attained having been $167,617,214 in 1891. National bank note circulation is approximately $10,000,000 greater than at the low period, and it is likely to increase further.

WORLD'S COAL.

The British Board of Trade reviews the production, consumption and export of Coal throughout the world, covering the years 1892 and 1893, and furnishes striking evidence of the ever-increasing quantities in which this fuel is demanded.

The total known Coal production of the world (exclusive of brown Coal or lignite) has now reached 700,000,000 tons.

The United States stands at the head of the list, producing rather more than a third of the total, and the United Kingdom ranks next with a little less than one-third.

The British output has been steadily increasing. In 1855 it was a little more than 60,000,000 tons; in 1893 it reached for the first time 200,000,000 tons, and last year the total was 230,354,000 tons.

Germany takes third place among the Coal producing countries of the world; her annual output has more than doubled in twenty years.

It does not follow from the fact that England is drawing upon its Coal fields to a larger extent each year that the money value of this great national asset shows a corresponding increase. The reverse is the case. The value of the output in 1892 was $350,000,000; but although the production in the next year was 3,550,000 tons more, the total value fell off to $338,228,000.

For 1893 the average value of British Coal per ton at the mines was 30s. 3d., or about 1s. per ton less than in 1892, and last year there was a further fall of 7d per ton.

England exported last year almost 64,000,000 tons, which exceeded the export of the previous year by 3,400,000 tons. Great Britain is a long way in front as the chief Coal exporting country.

Half the consumption of Coal last year came from the United States, but, with the exception of the Cape of Good Hope, the remainder of the British Coal producing colonies are principally self-supporting.

ARGENTINE CROPS.

[From the Review of Price Date, Aug. 6.]

Official reports received by the Agricultural Department from correspondents throughout the Republic are to the effect that the Wheat and Flax Seed seedlings are in good condition. The recent heavy rains have been more beneficial than injurious, also as regards the frost, which in some parts has caused certain damage, this is of insignificant proportions and will not affect the general very favorable outlook.

The spell of severe weather just experienced, with snowstorms on a scale not seen for some years, has been pretty general throughout the Provinces South of the Capital, with the greatest severity in the Cordillera districts and some parts of Cordoba. Most agriculturists had been wishing for colder weather, as the unseasonably high temperature was bringing up the Seed too early in the winter, but the cold snap will just about regulate matters. Fears are expressed in some districts for the Cattle and Sheep, but up to the present no reports of losses have been received, but should the low temperature continue there will de ubtless be losses of consideration among them, especially where the snowstorm has had time to set in, as from the effects of the late drouth, and where in consequence the animals are all in a poor condition and unable to withstand the rigors of a winter quite exceptional for this country.

THE RESERVES.

[From the Wall Street Journal, Sept. 20.]

Of 24 large cities whose National Banks have thus far reported to the Comptroller of the Currency covering their condition on Sept. 9, the held percentages of reserves to deposits lower than on June 9, and 10 lower than on Sept. 9, 1893.

This does not indicate any such inability on the part of the banks to meet the crop demands of this season, as has been generally supposed to exist. Other cities whose percentages of reserve were notably larger than last year are New York, Chicago, St. Louis and Pittsburg, which reveals how largely the reserves have been concentrated in the chief cities, from which they will be speedily withdrawn by the country banks when the money is needed at home. And of those four cities, New York, Chicago and St. Louis have lost much since June. The aggregate clearings of the New York Clearing House have declined over $20,000,000 since Aug. 21, and they will undoubtedly go much lower before the currency movement South and West comes to an end. It does not take a big for a big surplus to meet away under the best of a crop demand, supplemented by speculative activity. The margin is still large, but the currency movement is young. Moreover, there is no help to be expected from the Treasury Department this year. In fact, all on the depository banks may be necessary before the year ends.

THE WEATHER CONDITIONS.

Cloudy weather prevailed West and Southwest. Only point showing frost were light ones at Dubuque and Keokuk, Iowa. Huron had silling frost. Clear and warmer Northwest, cloudy elsewhere.

Indications are for fair and cooler over central Valleys and lake region; fair and cooler West and Northwest, but with a tendency to warmer.

ILLINOIS CROP BULLETIN.

SPRINGFIELD, Sept. 20.—The Illinois crop bulletin for the week ended Sept. 18 says:

A cool wave passed over the State the night of the 14th and light frost formed in all sections the morning of the 15th. The frost was very light in character and no perceptible damage ensued, except slight injury to tender plants in isolated low places. The mean temperature was deficient, ranging from four to five degrees below the seasonal average.

Plowing is well under way in most sections and completed in some. A considerable area has been sown to Wheat, Rye, and Timothy, but much seeding of Wheat remains to be done. Some early sown Wheat and Rye fields are showing green.

Corn was practically unscathed by frost, and the reports of damage in low places are inconsiderable. A part of the crop is safe from injury by frost, and the remainder is slowly advancing toward maturity. The dates fixed when the later Corn will be ripe ranged from Oct. 1 to Oct. 10, and the estimate of the yield will remain after the latter date. Some early fields have been cut for fodder. Grasses have been revived by recent rains, and ample fall feed is promised. Clover hay is proceeding with satisfactory results.

THREE-QUARTERS HARVESTED.

[From the Winnipeg Commercial, Sept. 17.]

Early in the week the Canadian Pacific Railway issued a crop report covering the principal points along their lines. It confirms the report of the previous week. During the period intervening, the weather had been too stormy for harvesting in some sections, though the standing crops had not yet begun to suffer. The rain had entailed a considerable amount of labor in stooking and turning, and unless the weather improves it will have a tendency to lower the grade of Grain. The rust report from along the Souris section shows an increase in the amount of damage done, while in other parts of the province there has been no further damage.

Cutting was well advanced and it is estimated that at least 75 per cent of it has been harvested. Threshing will be in full swing in many sections and the returns are most satisfactory in the majority of instances. Some Wheat has been received at the elevators and shipments will be under motion by the last of the week.

MACARONI WHEAT YIELD.

M. A. Carleton, of the Department of Agriculture, Washington, estimates the crop of Macaroni Wheat in the United States this year at between 15,000,000 and 20,000,000 bushels. In connection, he says: "The number of mills that have undertaken the grinding of the new Wheat is constantly increasing. Several large mills that have not hitherto ground Wheat have said that in some cases have strongly objected to the use of the Wheat are to be added to the list for the coming season. The increase in demand for the Wheat has been particularly strong in Buffalo and a few other points in the East, originating solely in the desire to use the Flour for blending with other kinds in making bread. By the autumn of 1894 there will no doubt be at least twenty-five important mills throughout the country using durum Wheat."

CANADIAN WHEAT STOCKS.

Stocks of Wheat in Canada at principal points of accumulation are reported as follows:

ITEMS OF GENERAL INTEREST.

Fire, Monday, at Halifax, N. S., destroyed property to the extent of $200,000; insurance, $150,000.

The Lackawanna Line will spend $1,000,000 for improvements at Scranton this year. Part will go for larger freight terminals at Buffalo.

The regular quarterly dividend of 1½ per cent on the stock of the State Bank of Chicago will be paid on Oct. 1 to stockholders of record Sept. 20.

R. A. Johnson, a stock broker of Washington, D. C., has filed a voluntary petition in bankruptcy. The liabilities are placed at $428,457; assets, $313,483.

The report that the United States Steel Corporation is behind the conversion of the $40,000,000 preferred stock into second mortgage bonds is officially denied.

The fertilizing plant of the Anglo-American Packing Company in the Union Stock Yards, Chicago, was partly destroyed by fire on Monday, causing a loss of $100,000.

The Big Four Railway Company has declared the regular quarterly dividend of 1¼ per cent on the preferred stock, payable Oct. 20. Books close Oct. 16 and reopen Oct. 21.

A good deal of commercial paper is being offered at 6 per cent, indicating a low rate while a still 5 per cent rate will prevail this fall for good paper. Movement of currency to country is fair.

Directors of the American Shipbuilding Company have declared the usual quarterly dividend of 1¾ per cent on the preferred stock, payable Oct. 15. Books have already closed and will reopen Oct. 16.

The Bath Iron Works and the Hyde Windlass Works at Bath, Me., the property of the United States Shipbuilding Company, were sold under decree of foreclosure to the reorganization committee. The former brought $340,000 and the Windlass plant $225,000.

Minority shareholders in Republic Steel do not like the proposition to issue a floating debt of the company is, although they seem inclined to favor the statement which places it at about $7,000,000. Unless the management officially details its plans some of the shareholders will oppose the new bond issue.

The Pingree, N. D., *Patriot* of last week publishes threshing returns from a number of farms in that locality. Returns from 20 farms average from 16 to 26 bu per acre, of good quality, as high as No 1 Northern, which sold at 61c. Farmers are marketing their Grain freely. Oats yield as high as 100 bu per acre.

The Cedar Rapids, Iowa, Supply Company, with branches in Des Moines and Lincoln, Neb., Western Grain Company, Ohio agricultural implement concern, assigned, Monday. Some of the alleged failure of Ohio connections to honor drafts of the Cedar Rapids Company. Liabilities and assets are estimated at several hundred thousand dollars

Iberhohm of Sept. 9 says: "The Flour trade generally has been very quiet this week, and prices have been difficult to maintain; in London, in fact, some decline has been necessary to do business, and both London and country millers complain of the exceeding paucity of orders. Liverpool also reports a very dull market, and Glasgow is quiet but steady."

Articles of incorporation were filed with the Illinois Secretary of State, Monday, for the Bluffton and Ohio River Railroad Company, with its principal office at Chicago. The capital stock is nominally placed at $50,000. It is proposed to construct a railroad from West Frankfort, Franklin County, Illinois, through the Counties of Franklin, Williamson, Saline, and Gallatin to a point on the Ohio River in the County of Gallatin.

Bunting's advices of Sept. 9 say: "The weather recently has been more favorable, rains have fallen in Berar and the Central Provinces and, as a consequence, favorable crop accounts have been received therefrom. In Khandesh crop accounts are also improved, but in Kathiwar and Gujerat as well as in Deccan and Southern Mahratta districts continue unfavorable. Rainfall figures at Colata nil inches, at Byculias nil inches; since the beginning of the season 31 and 41 inches respectively, against 61.85 and 73.17 inches last year."

Despite the fact that commercial paper usually marks a period of trade reaction and industrial depression, the outlook for fall business in most parts of the country is reassuring. The New York *Herald Tribune* made a careful survey of the state of conditions in the leading industries. While the year 1894 is not destined to rank with its immediate predecessor as one of "flush times and great prosperity," the consensus of opinion is hopeful, if not sanguine. Iron and Steel are yet in a plight far from satisfactory. Philadelphia reports depression, and great Coal roads there are idle because of labor troubles, but these are the clouds upon an industrial horizon otherwise bright and destined, in the opinion of most observers, to grow brighter.

Beerbohm of Sept. 9 says: "It was stated a few weeks ago that the advance in the price of Flax Seed was likely to encourage farmers in the Argentine to grow more Flax, and particularly more intended, and according to the Buenos Ayres *Handels Zeitung* of Aug. 12, this has proved to be correct. That paper states that all the land plowed and sowing to damage by drouth has been re-sown with Flax Seed: in Buenos Ayres a large area was being sown, and altogether it was expected that the acreage for the whole country would be equal to last year's. The condition of the crop was said with some of the private cables received two weeks ago, and we must await the official estimate to clear up the point. Meanwhile our cable received this morning states that agricultural reports are fairly favorable."

The Chicago *Inter Ocean* says: "The reports made by the National and State Banks in Chicago are one of the most interesting of a late crop year of business Sept. 7, made it possible to estimate the growth of the various individual banks during the course of the past year. The opportunity is the more excellent as the last call of the banks in the aggregate, are now the highest ever reported. In the period elapsing between the reports of Sept. 8, 1893, and Sept. 8, 1894, the National Banks and between Sept. 11, 1893, and Sept. 7, 1894, for the State Banks, the large-t gain in deposits made by any one bank in Chicago was made by the Merchants' Loan and Trust Company, whose bank increased its deposits $5,627,664. The Continental National was a close second with a gain of $5,271,572 and the Illinois Trust and Savings Bank was a good third with $4,581,813."

The *North British Agriculturist* of Sept. 7, says: "During the past week the weather has been broken by occasional heavy showers. A good deal of reaping, however, has been cut in fair order, but the conditions have not been favorable for getting the stooks or gathering in the crops. The Grain crops on the whole are building better than was at one time expected, but in some districts and in those districts where the drouth was very severe in the early summer, the crops are light and very disappointing. The root crops are bulking well wherever the plants are to be found in the soil, but too many cases the crops are much below par. Potatoes give promise of being a full crop generally, though in some of the earlier districts of Scotland and there is a tendency to second growth. Very little has been heard about disease yet, and if crisp, dry weather were to set in now there might be very little damage from this cause this year."

The Chicago *Inter Ocean* says: "An official of the Republic Iron and Steel Company has all but admitted that the reason for withholding the yearly statement of earnings and the proposition looking to for the purpose of preparing the way for the new bond issue. Certain bankers here have seen the report, and it is said to be a very poor showing. The fine hand of Morgan is seen in the scheme of liquidating the company's floating debt, is said to be a reality in so far as all preliminary negotiations are concerned. It must have the sanction of the shareholders before the plan can be consummated. It cannot be learned positively whether or not the Gates faction, which is said to favor the bond plan, has that support in hand, and that which lends color to belief that it has not is reflected in the fact that there is such strong desire to put out the statement of earnings and discuss the bond issue at the same time."

The president and directors of the St. Louis Transit Company have called a meeting of stockholders for Oct. 15 to pass upon a proposition to cancel the issue of $5,000,000 preferences and refunding bonds authorized last May, and to issue in lieu thereof bonds not exceeding $12,500,000. The object in authorizing the issue of $20,000,000 bonds last May was to retire the obligations which, apart from deficits and improvements which the Transit company has incurred in the course of its existence. The bonds were to be guaranteed by the United Railways Company, which in issuing its company is in a measure a subsidiary organization. It is stated that arrangements have been made by which the Transit company will issue only $10,000,000 bonds, as the cost of the proposed improvements has not been as great as estimated, and the collateral loans coming due in November and $6,000,000 bonds retired from the difference between the cost of the improvements and the total of the bonds, which, it is believed, will, under the existing market conditions, bring a good price.

At the meeting of the stockholders of the Colorado Fuel and Iron Company, to be held in Denver, Oct. 17, the management of the bondholders' protective committee will submit for approval the new financial rehabilitation plan. The one the management and reorganization committee have been agreed upon is substantially as follows: Art. 2. It provides as follows: "That Mr. Carey convey all of real properties so purchased by him to a corporation organized or to be organized, which shall make a first mortgage for the purpose to $45,000,000 of thirty-year 5 per cent convertible Gold bonds secured by mortgage as a direct charge upon the property to be acquired from Mr. Cary, and upon all the assets of the Fuel Company that may from time to time be acquired by such new company by purchase or in exchange for its bonds. After the execut on and delivery of said mortgage, and the delivery by the Fuel Company of the increased stock hereinafter mentioned, the stock of the new company shall be transferred to and become the property of the Fuel Company, which shall guarantee the principal and interest of said bonds. The Industrial Company will issue $15,000,000 of the stock and the Colorado Fuel and Iron Company will then take over the entire issue of bonds. The Fuel Company will then issue $30,000,000 new common stock."

The management of the Crucible Steel Company is considering a plan for funding the debts of the company, which it may submit to the stockholders for approval before the regular annual meeting to be held in Jersey City. It is understood that the matter of funding is to be finally considered at the board of directors' meeting next week and if there is approval the stockholders will soon receive full particulars. The proposed issuance of a circular to the shareholders setting forth the plan has arisen upon which the Clarion Company was sold to the Steel Corporation will probably be made the occasion for putting out the new plan. At the annual meeting the terms of only five of the sixteen directors expire, and it is expected that all of these will be re-elected. This will give the company a board in entire harmony with funding plans. The new board will also assure the carrying out without delay of whatever may finally be decided upon. The deficit in 1902, amounting to $2,7,450, which caused the passing of the dividend upon the outstanding $25,000,000 of 7 per cent preferred stock, has been augmented by the unpaid dividends for this year, which will run the total cumulative sum due for dividends above par to $3,750,000. Since the sale of Clarion to the Steel Corporation the general prospects in the Steel and Iron trade have greatly improved, and there is no doubt that the outlined plans of the management looking forward to a greatly increased business beginning with the late fall are well founded

Chicago Bank Clearings to-day, $29,655,361.

Reported that 104,000 bu Corn were taken at the seaboard to-day for export.

The Texas Cotton crop is estimated at 2,640,000 bales, or 10 per cent more than last year.

Deliveries on September contracts to-day were 5,000 bu Wheat, 20,000 bu Corn, and 75,000 bu Oats.

Eight packers purchased 12,000 Hogs to-day; shippers, 4,500; left over, 5,000. The market closed weak.

Stocks of Hog Products at Chicago estimated at 43,000 brls Mess Pork, 114,000 tcs Lard, and 17,000,000 lbs Short Rib Sides.

Estimated receipts for to-morrow: Wheat, 97 cars; Corn, 354 cars; Oats, 78 cars; Rye, 4 cars; Barley, 52 cars; Hogs, 14,000.

Reported that locusts threaten injury to the Wheat crop of Santa Fe, the second largest province in Argentina, but efforts being made to destroy them.

A Chicago Grain elevator man, Wednesday, said: "Our reports from Illinois, Iowa and Nebraska do not confirm the low estimates of Corn by private crop reporters."

Stocks in New York were heavily traded in and averaged lower. Heavy selling of Erie, and large dealings in Pennsylvania, Southern Pacific and Union Pacific were features.

"We are not interested any more regarding the Corn crop," said an Omaha message, Wednesday. "The crop is safe, notwithstanding the car window inspection by private crop experts."

Cotton in New York averaged higher. Liverpool closed with small gains. Wall Street tried to break the market, but prices only yielded a little. Closing sales were at 15@18 points lower.

Fire, Wednesday, in the cold storage plant of Swindell & Bros., Plymouth, Ind., destroyed the entire structure and 100,000 dozens of Eggs. The loss on the building is estimated at $15,000.

A crop expert wired, Wednesday: "From 125 miles southwest of Mason City, Iowa, to Cedar Rapids 50 per cent of the Corn is out of danger by frost. Frost damage serious in places. Weather cold."

Local Securities were stronger and higher. Can was the feature. It was heavily traded in, being bought on reports that it is to be reorganized. Preferred advanced 1⅞, and common ¼. Metropolitan Elevated preferred advanced ½.

The Cincinnati *Price Current* in its weekly crop summary says: "Ninety per cent of the Corn crop is secure from frost. Practical certainty of a yield of 2,300,000,000 bu, or more, under any circumstances. Seasonable progress in autumn seeding."

The Cincinnati *Price Current* reports the packing of the West for the week at 310,000 Hogs, compared with 305,000 for the week previous and 310,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 11,050,000 Hogs, compared with 11,170,000 for the corresponding time last year—a decrease of 120,000 Hogs.

"Reports indicate that more than half the Iowa Corn crop is now fairly well matured," says J. R. Sage in the Iowa crop bulletin, "and that ten days of favorable weather will assure the safety of the larger portion of the area planted. In the most hopeful estimates due allowance has been made for somewhat more than the average percentage of soft or unmerchantable Corn. Considerable progress has been made in cutting and shocking the most advanced fields."

A dispatch from Portland, Oregon, says: "About 10,000,000 bu of Wheat has been bought since harvest in Eastern Oregon, Eastern Washington and Northern Idaho by Eastern buyers. Probably one-third of the total is for direct shipment to Chicago, the remainder being scattered through a dozen States as far east as Boston and as far south as Tennessee. A local mill, Wednesday, sold ten car loads of Flour for shipment overland to Boston. This is the first order of the kind so far as known."

EXPORTS OF FLOUR AND WHEAT.

The exports of Wheat and Flour in Wheat (reckoning 4½ bu Wheat to a barrel of Flour) from all American ports as reported by the Chief of the Bureau of Statistics of the Treasury Department monthly for four years were as follows:

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market is ruling firm under a fair local and domestic demand.

WINTER WHEAT—Was in good demand and firm. Speculators were taking the bulk of the offerings, with some milling and shipping demand. No. 2 Red in store quotable at $1 10½@1 13¼, and fresh arrivals free on board at $1 15 to possibly better for fancy. No. 3 Red fresh arrivals free on board sold at $1 12¾@1 13. No. 4 Red fresh receipts free on board sold at 90@95c to $1 10½@1 11 for choice. No. 2 Hard fresh arrivals free on board quotably $1 10@1 13. No. 3 Hard fresh arrivals free on board sold at $1 04½@1 09 and at the river at $1 03. No. 4 Hard sold at the river at 94½c.

SPRING WHEAT—Was in light supply and in moderate demand. Market quotably firm. No. 1 Northern fresh arrivals free on board quotably about $1 20 and No. 2 Northern fresh arrivals nominally $1 16. No. 3 Spring nominally $1 05@1 17 for poor to very choice, with sales at $1 08½@1 17. No. 4 Spring sold at $1 00 for fair to $1 08½ for good, and $1 15 for choice, with a sale billed through at $1 07.

REGULAR WHEAT—The trade was reported very fair, but largely professional. Feeling was somewhat unsettled, with closing prices showing gains of 1¼c and 1½c. The start was steady but there was considerable local selling and prices sold off slightly. Market undoubtedly felt the break in Corn, but at the decline a better demand developed. Minneapolis displayed a stronger tone and reports were in circulation here that a prominent local elevator concern was buying there. Flour news from the Northwest was more encouraging to the "long" side of the market and advices from the Southwest as to the prospective movement were "bullish." St. Louis predicted a radical falling off in the receipts and Kansas City likewise intimated arrivals would show a marked decrease in the near future. Rains were reported at Winnipeg and through the Red River Valley, but a prominent Canadian milling concern wired as follows: "Most brilliant harvest weather throughout Northwest Territory; threshing general and bares out our previous reports as to quantity and quality. Continuation of present fine weather will give us heavy receipts next week." Northwest cars were 218 larger than a year ago and primary receipts were 209,000 bu in excess of 1903. Kansas City and St. Louis received 236,000 bu, against 240,000 bu one year ago. Primary receipts June 27 to Sept. 19 aggregate 51,076,000 bu, against 48,175,000 bu in 1903 and 73,083,000 bu in 1902. The *Price Current* claimed seasonable progress in autumn seeding. Spokane, Wash., reported the best authorities there reduced Wheat yield to 26,000,000 bu. Minneapolis stocks so far this week decreased 100,000 bu. Flour output in the Northwest this week 453,000 brls, compared with 533,000 brls same week last year. Argentine shipments this week were estimated at 800,000 bu. Liverpool quoted spot steady to ⅛d lower and futures unchanged. London came 1⅛@1¼d lower. Paris was steady to ¼c lower. Antwerp, Berlin and Buda Pesth were unchanged. Late advices reported the appearance of locusts in the province of Santa Fe, the second largest in Argentina. Clearances were limited and no boat loads accepted at the seaboard. Receipts at Duluth 335 cars and at Minneapolis 508 cars, a total of 843 cars, against 606 cars yesterday, 898 cars a week ago, and 625 cars last year. Local receipts included 93 cars Winter, 21 cars Spring and 7 cars mixed, a total of 121 cars, against 96 cars last year. Included in the above was none of contract grade. There were 6 cars and 30,000 bu taken from unlicensed elevators. The estimated receipts for to-morrow are 97 cars. Withdrawals were 23,825 bu. The receipts at Western points were 1,152,759 bu, against 944,280 last year. At Eastern points 24,870 bu, against 211,353 last year. Shipments from Western points were 539,607 bu, against 507,371 last year, and from Eastern points 4,000 bu, against 68,000 last year. Shipments of Flour were 9,490 brls. Exports of Wheat in Flour were equal to 47,705 bu.

Future Deliveries of Regular Wheat—Good trade and prices higher.

SEPTEMBER Old Style—Sold at $1 09½@1 10¾. Opened at $1 09½; sold to $1 10¼, to $1 09⅝, to $1 10¾, and closed nominally about $1 10¾.

SEPTEMBER—New Style—Sold at $1 06⅜@1 07⅞. Opened with sales at $1 06⅜ to $1 06¾; sold to $1 06½, to $1 06⅞, to $1 06⅝, to $1 07¼, to $1 06⅝, to $1 07⅛, to $1 06⅝, to $1 07⅞, and closed nominally at $1 07⅞.

DECEMBER—Sold at $1 08¾@1 10⅝. Opened with sales at $1 09 to $1 08⅞; sold to $1 08¾, to $1 09⅜, to $1 09⅛, to $1 09⅞, to $1 09½, to $1 09⅞, to $1 09¾, to $1 09¼, to $1 10½, to $1 10⅜, to $1 10⅝, and closed at $1 10½.

MAY—Sold at $1 10⅜@1 10½ and at $1 12¼c. Opened with sales at $1 10¾ to $1 10⅝; sold to $1 10⅜@1 10½, to $1 11⅛, to $1 10½, to $1 11⅛, to $1 10¾, to $1 11½, to $1 11⅜, to $1 11⅝, to $1 11, to $1 12¼, and closed at $1 12¼.

CORN—A very good trade, with the feeling unsettled, closing prices showing declines of ¼@⅜c and ½c. Early tone was weak and on free selling by commission houses prices declined. The *Price Current* claimed 90 per cent of the Corn crop secure from frost and a yield of 2,300,000,000 bu or more practically certain, and the map showed no frost in the Corn belt, but higher temperature in Nebraska and parts of the Southwest. Heavy rains reported at Wichita, Kansas. Showers are probable over Western portions of Corn belt. Nebraska State report confirmed frosts throughout State last week, but practically no damage to Corn. Weather favorable for maturing, most of which is past danger from frost. At the decline professionals and "shorts" purchased and situation became steadier. New York reported a better export inquiry, and Kansas City wired the weather was not the kind to mature the crop, being cold and wet. Country offerings were moderate and receipts small, 369 cars, against 483 cars a year ago, and 354 cars estimated to-arrive to-morrow. Liverpool quoted spot steady and futures ⅛d lower to ⅛d higher. London reported cargoes on ocean passage quiet, with very little bidding. Western receipts were 426,000 bu, against 413,000 bu one year ago and shipments 618,000 bu and 445,000 bu respectively. Local arrivals 267,000 bu and shipments 522,000 bu. Withdrawals from store 569,000 bu and exports 7,823 bu. Argentine shipments estimated at 3,200,000 bu. Shipping demand moderate and sales 100,000 bu. Seaboard reported 13 boat loads accepted. Car lots were in good demand and moderate supply. Prices were 1c lower. No. 2 sold at 53¼c and closed at 51¾c. No. 2 Yellow sold at 53½@54½c outside price early and closed at 53c. No. 2 White sold at 52¼c. No. 3 sold at 52¼c and closed at 51½c. No. 3 Yellow sold at 53⅞c early and closed at 52¾c. No. 3 White sold at 52@52¼c. No. 4 sold at 50@51½c.

Corn by sample—Was a little slow, being rather dull. Offerings moderate. Opened steady and later became weak, selling off about 1c. Sales on track and free on board: No. 4 sold at 49¼@53½c. No. 3 at 51@53c. No. 3 Yellow at 53¼@53½c. No. 2 Yellow at 54½c. No. 3 White at 52½c. Billed through: No. 4 at 50@53¼c. No. 3 at 51½@52¼c. No. 3 Yellow at 52@53½c. No. 2 at 50¾c. No. 3 White at 50¾@51½c. No. 2 White at 50¼c.

Future Deliveries of No. 2 Corn—Active and weaker, closing ¼@⅜c to ½c lower.

SEPTEMBER—Sold at 51⅝@52⅛c. Opened at 52c and sold at 51¾c to 52⅛c, to 51⅝c, to 51¾c, to 51⅝c and closed at 51⅝c.

DECEMBER—Sold at 49⅝c and 50½@50⅝c. Opened at 50¼c to 50c, and sold at 50⅛c, to 50¼c, to 50⅛c, to 50½@50⅝c, off to 49⅝c, to 50c, to 49⅞c, to 50c, and closed at 50c bid.

MAY—Sold at 48½@48⅝c and 49⅝c. Opened at 49⅜c to 49⅛c, and sold at 49½c, to 49¼c, to 49⅝c, to 49⅜c, to 49⅛c, off to 48½@48⅝c, to 49c, to 48¾c, to 49⅛c, to 49c, to 49@49⅛c, and closed at 49@49⅛c asked.

OATS—Were heavily traded in and prices sold the lowest on the crop. The break was ⅝c to ¾c and closed at a net loss of ⅛c to ⅝c. Stop-loss and hedging sales was the feature. Stocks are piling up and cash demand is slow. Minneapolis had 138 cars and Chicago 180 cars. Estimates to-morrow 176 cars. Withdrawals were 104,920 bu. Seaboard clearances were 17,000 bu. Cash sales 10,000 bu. Car lots to go to store were ⅛c to ¾c lower. No. 3 White sold at 31¼c. Standard in store closed at 30¼@30⅜c.

Oats by sample started with a few sales at yesterday's prices, but quickly declined ½@¾c, with most of the trading at the break. Sales on track and free on board: No. 4 White at 28@31c. No. 3 White at 31@32½c. Standard at 31¾@33½c. No. 2 at 31¼@31½c. No. 2 White at 33@33¼c. Billed through. No. 3 at 30c. No. 3 White at 31½@32c. Standard at 31½@32c. No. 2 at 30c. At the river: No. 4 White at 29¾@30c. No. 3 White at 30@30½c. Standard at 30½@30¾c.

Future Deliveries of Contract Oats—Were weak and lower.

SEPTEMBER—Sold at 30¼@30½c. Opened at 30½c, sold to 30¼c and closed there.

DECEMBER—Sold at 31¼@31⅝c. Opened at 31¾c to 31⅞c, sold to 31¼c, to 31⅜@31½c at close.

MAY—Active. Sold at 33⅝@34⅝c. Opened at 34¼c to 34⅜c, sold to 33⅝c to 33⅞c at close.

RYE—The market was quiet and quotably about 1c higher, in sympathy with Wheat. Demand good. Only five cars received and 10 cars withdrawn from private warehouse. No exports. No. 2 in store nominally 74c and fresh arrivals free on board sold at 76@77c. No. 4 sold at 73c.

Future Deliveries of No. 2 Rye—Quiet and about 1c higher. September nominally 74c. December sold at 75⅝c, and closed at 76c asked. May nominally 78½c.

BARLEY—Of choice to fancy, bright, heavy, clean Barley the quantity coming on sale remains small. Such grades without change, quotably steady, and yet apparently in very tame demand. Grades below, ranging from good to low grade malting, were plenty. There was a good business done. Buyers had the best of the market. Concessions had to be made, running sometimes to 1c per bu. Maltsters seem to find it very easy to get all of the spot Barley they need, and are therefore rather indifferent instead of anxious. Low grade or feed Barley was also lower, though only a few cars of this were offered. According to to-day's postings, 99 cars were inspected in. Screenings was quotable at 31@38c for common to choice. Thin, stained, musty or dirty feed Barley, quotably 36@38c; small sales. Low grade malting, dirty, small berry, poor color, 38@42c. Fair to good color, depending on weight and other conditions, ranged at 43@46c. Higher grade, or choice, ranged at 47@50c. Fancy quotably 1@2c over. Main sales within a range of 40@46c. To arrive lots dull. Maltsters evidently apprehend no difficulty in getting what Barley they will need, and they do not show the interest, as in recent seasons, in to arrive lots.

SEEDS—Considerable interest was centered in the Timothy market; good deliveries and free spot offerings caused an easier feeling. Flax prices sustained a further liberal decline, but with no trading to speak of. The rest of the market was nominally unchanged.

Timothy—There was a good deal of life about the market. Twenty cars of contract Seed were delivered out on September sales and these were passed around quite freely. There was a good spot supply, and buyers were disposed to ask for concessions. Cash values were quoted a shade lower. The average prices shown in the sales would indicate no change, but that was on account of improved quality being to-day offered. Futures exhibit 2½@5c decline and market easy with sellers at the reduction. September delivery sold at $2 75 and was offered at that. October was called nominally $2 75 and January in the same way quoted at $2 85. March sold at $2 95 and remained on sale at that. Country lots were quotable at $2 35@2 45 for fair to good, some high grade Seed sold at $2 50@2 75, very choice at $2 60, poor trashy Seed quotably down to $1 85@2 10.

Flax—There was another big drop in prices. It was brought about by the same influence as yesterday—a further slump in Northwestern markets. Flax offerings here very small, and the market was without any business to speak of. Local receipts 6 cars or 5,400 bu, with 3 cars or 2,696 bu taken out. Minneapolis got 47 cars and Duluth 20 cars. No. 1 Northwestern or No. 1 from the Northwest sold at $1 15½. No. 1 quoted at $1 09. Rejected at $1 06@1 11 as to quality. September nominally $1 09. December about $1 11.

Clover—The market was without offerings. All that could be learned was that prices were nominally unchanged and steady. October delivery quoted at $11 75. Contract spot Seed was quotably about $11 75. Country lots, common to choice, $9 00@11 75; fancy above. Fair to good, $10 00@11 00.

HOG PRODUCTS—Less interest was manifested in the market for Hog Products, and trading was on a moderate scale. Outside orders were only fair, and local operators and packers traded in moderate quantities. Offerings were rather free, and the demand was not urgent. Some purchasing by parties who sold at the advance Wednesday. Market was rather steady early, and the filling of a few miscellaneous orders caused a slight advance in prices. Later, there was some pressure to sell, influenced to some extent by the easy feeling in Grain, and prices declined moderately all around, and the market closed rather steady at nearly inside figures. Trading chiefly in October and January contracts. Foreign markets were steady, and Bacons quoted 6d higher. Domestic markets rather quiet. Hogs were in fair supply and lower. Receipts at the leading Western packing points were estimated at 45,300, compared with 41,800 one year ago. Packing of the West for the week reported the same as for corresponding week in 1903. Receipts of Products were good—of Lard and Meats about 22 cars. Shipments were moderate—of Lard and Meats about 69 cars. Demand on shipping account was fair, and offerings were moderate. Sales were fair and prices well supported. Stocks of the speculative articles are gradually decreasing.

Mess Pork—A fair business in a speculative way was transacted in Mess Pork. Offerings were fair, and the inquiry was only moderate. Market opened steadier and prices were advanced 7½@12½c. Later, a weaker feeling was developed, and prices irregularly declined 20@25c, but rallied again 2½c on October and 17½c on January, and the market closed rather steady. Shipping demand was light, and offerings were moderate. Cash lots quotable at $11 30@11 40.

SEPTEMBER—Quiet, and quotable at the close at $11 30.

OCTOBER—Offerings were fair, and the demand was moderate. Sales were made at $11 27½@11 50. Opened at $11 50, sold to $11 45, to $11 50, to $11 40, to $11 50, to $11 27½, to $11 30, and closed steady.

DECEMBER—Sold sparingly at $11 45.

JANUARY—In rather good demand, with fair offerings. Sales were made at $12 95@13 20. Opened at $13 17½, sold to $13 20, to $13 15, to $13 20, to $13 00, to $13 02½, to $12 95, to $13 12½, and closed firm.

MAY—Quiet and sold sparingly at $13 27½.

Lard—Trade was fair in the Lard market, and the feeling was easier. Offerings were fair, and the demand was moderate. Foreign advices were unchanged. Stock estimated to have been reduced 8,000 tcs during the week. Manufacture only fair. Market opened rather firm, and prices ruled 2½@5c higher. Later, an easier feeling was developed, with some pressure to sell, and prices receded 5@7½c, and the market closed comparatively steady around inside figures. Demand on shipping account was fair, with moderate offerings. Cash lots quotable at $7 10@7 15. Loose lots in good request, with very small offerings. Prices quotable at about 10c discount on October figures. Leaf Lard was in light demand, with rather small offerings. Quotably steady at about $7 12½. Neutral in light demand, with moderate offerings. Prices quotably steady at $8 50@8 62½ for No. 1, and $7 87½@8 00 for No. 2.

SEPTEMBER—Quiet and quotable at the close at $7 10@7 12½.

OCTOBER—In fair request, and offerings were moderate. Sales were made at $7 10@7 17½. Opened at $7 17½, sold to $7 12½@7 15, to $7 15, to $7 10, to $7 10@7 12½, and closed steady.

DECEMBER—Demand light and offerings were small. A few trades made at $7 10@7 12½.

JANUARY—Offerings were fair and the demand was moderately active. Sales were made at $7 25@7 32½. Opened at $7 30, sold to $7 32½, to $7 30, to $7 32½, to $7 25, to $7 27½, to $7 25, to $7 27½, and closed steady.

MAY—Quiet, with small sales at $7 45.

Short Rib Sides—A fair business was transacted in Short Rib Sides and the feeling was rather steady, especially for the near deliveries. Offerings were not very large, and the demand was fair. Stock gradually decreasing. Market opened rather steady, and prices were advanced 2½@5c. Later, a weaker feeling was manifested and prices settled back 5@7½c, and the market closed comparatively steady at about medium figures. Shipping demand was moderate, and offerings were rather light. Cash lots quotable at $7 50@7 75 according to weight.

SEPTEMBER—Quiet and quotable at the close at $7 55.

OCTOBER—In rather good request with moderate offerings. Sales were made at $7 50@7 57½. Opened at $7 57½, sold to $7 52½, to $7 57½, to $7 50@7 52½, to $7 55, and closed steady.

JANUARY—Offerings were fair, and the demand was moderate. Sales were made at $6 75@6 85. Opened at $6 85, sold to $6 80, to $6 82½, to $6 75, to $6 80, and closed steady.

Other Meats—Trade was fairly active and mainly on domestic account. Exporters bought sparingly. Offerings not very free, and inquiry was good. Green Meets in moderate supply with a light inquiry and prices ruled steady. Pickled Meats in fair request with only moderate offerings, and prices were unchanged. Dry Salted Meats were in good demand, with moderate offerings, and prices ruled steady. Smoked Meats called for moderately and prices favored sellers. Closing prices were as follows:

GREEN—Hams, av 10@12 lbs, 9½@9⅝c; 12@14 lbs, 9⅜@9½c; 14@16 lbs, 9¼@9⅜c, 8½@8⅝c November, December and January; 18@20 lbs, 9¼@9⅜c. *Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled in that city.

Last week showed a material gain in the output of the Minneapolis mills, the increase being slightly overrunning the *Northwestern Miller's* estimate of 275,000 brls. The increase over the week before was 366,580 brls. To-day advices from mills are running on one and possibly two more days' output up the latter part of the week, so that the output for the current week is likely to amount to 325,000 brls.

The volume of sales by Minneapolis mills last week was pretty fair, though profits still leave much to be desired. The first part of the week buying was fairly active, but during the latter part sales fell off. The declines in the Wheat market have had the effect of causing buyers to hold off, while slight advances do not appear to have the effect in bringing out sellers as they would if the trade had more confidence in the present range of prices.

There is much uncertainty in the minds of all in the trade as to what would constitute a fair range of prices under the existing crop conditions and in view of the general situation this year. Some members of the trade, including at least one of the larger Minneapolis millers, think that with Wheat around $1.00 in Minneapolis, which would mean Patent Flour at something under $5.00 f. o. b. Minneapolis, prices would be on a conservative basis and considerable buying would ensue. So far the buying continues to be for immediate shipment only, and any sharp price advance on them some time back without taking alarm and stocking up and they do not want to make the mistake now of placing large orders and have the market drop out from under them for this reason buyers distrust advances in Wheat at this time, and, in the words of one miller, it takes two or three days to realize an advance now

Notwithstanding the increased output of the mills, the price of feed has kept up surprisingly well, bulk Bran in Minneapolis ranging around $15.00 per ton. There has been a good demand for feed from New England, which has helped to sustain the market

There is an unusually wide variation in the quotations of different mills of the same grades of Flour just at present. Quotations by Minneapolis and outside mills are around $5.65@5.95 for Patent in wood f. o. b. Minneapolis.

KEEP ON IMPROVING.

[From the Drovers' Journal, Sept. 20.]

There are 6,860,350 head of Cattle in Great Britain according to the latest statistics issued by the British Government, an increase of 155,744 over the bovine population of 1903, and the largest number of Bogs is given at 2,861,644, showing an increase of 177,083 compared with 1903, and Sheep 28,207,174, showing a decrease of 432,623 compared with last year. The fact of Great Britain's being so large enough to permit very extensive operations in Live Stock raising and for this reason the export trade from this country is growing annually. England is a Meat eating country, and while the whole of Great Britain loves Meat, but not having sufficient room in which to raise her own Cattle, she is compelled to import the great bulk of Meats consumed. The volume of Cattle and Sheep exported from the United States to Great Britain each year reaches into the hundreds of thousands and ought to grow. We have a good market in this country, and the outlet through Great Britain is one which affords opportunity to profitably dispose of Cattle and Sheep not required at home. The South American trade with Great Britain has periodically been shut off by the prevalence of the foot and mouth disease. The general good health of American Stock prevents disease of any port, and as long as disease is kept out of American herds prospects for the export trade appear promising. The South American exporters are sending into Great Britain much better grades of Cattle now than in former years, and exporters say the American producers must be up and doing to control to a standard anywhere near the South American breeders. American Corn fed Beef, however, prove the best Cattle available for foreign trade. While Southern Stock may provide a cheaper class of Meats for the British public, the best cuts will for years come from Cattle fed in the Corn belt of the United States, and such will not fail to command premiums in foreign markets if the spirit of progression lives in American breeders, as it will.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, Sept. 21.]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth together with that of 41 "outside mills" with a daily capacity of 31,200 brls. from Jan. 1, 1904, to Sept. 10, 19, 4, with comparisons:

	1904			1903
	Minneapolis.	Flour. brls.	Wheat. bush.	Flour. brls.
Minneapolis	8,946,230	40,258,000	10,304,610	46,776,000
Duluth	541,453	2,436,000	695,105	3,128,000
41 outside mills..	4,350,200	20,348,000	4,695,135	20,948,000
Totals	14,053,883	63,242,000	15,741,850	70,852,000

These figures represent the approximate consumption of 5,040,000 bu less Wheat this year than in 1903. This has occurred from the mills at Minneapolis and Duluth as well as the outside mills turning out 1,600,000 brls less Flour than in 1903.

THE WEATHER CONDITIONS.

Manitoba temperature 32 to 46, partly cloudy. Northwest, generally cloudy. Moorehead, Minn., has 84 rain; warmer, temperature 38 to 66. West, temperature 44 to 58, partly cloudy. Southwest, temperature 58 to 70. Wichita 1.56 and raining; Kansas City, .02; Oklahoma City, .6. Ohio Valley, temperature 42 to 64, partly cloudy.

Indications for to-day and to-morrow are for generally fair weather over central and eastern sections, but increasing cloudiness West. Tendency decidedly warmer.

The American Telephone and Telegraph Company has declared the regular quarterly dividend of 2½ per cent, payable Oct. 15 to stockholders of record Sept 30. Books will be closed Oct. 1 to 14, inclusive

The Aurora, Dekalb and Rockford Electric Traction Company is the title of a new electric line that is to run from Dekalb to Aurora, Illinois. The company has secured a fifty-year franchise in Dekalb and a forty-year franchise in Aurora.

A Chicago commission man wired from Omaha, Wednesday, $375: "Receipts of Corn so practically made Corn in Western Iowa much more matured than I expected. Believe Corn from Fort Dodge west will be out of way of frost in manner to-day."

In the stockholders meeting of the Minneapolis, St. Paul and Sault Ste Marie Railroad, Sept. 21, the pet dream of the Bismarck, Washburn and Great Falls Railway was approved and the board of directors re-elected In directors' meeting the present officials were re-elected.

"Our company after making a careful canvass of the situation believes that we have a 200,000,000 crop of 2,000,000 bu this year," said an official of the Chicago Elevator Company. "The country is steadily getting out the Corn that it annual y holds as an insurance against possible loss on the new crop. We take it that this means that the new crop is safe."

The English barley crop is by no means turning out so well as expected, either in yield or quality, although the *Times* report makes the average promise on Sept. 1, as against 84 8 last year, and an average for the past decade of 87 3. The English country markets are not very liberally supplied, but good prices are being paid for fine qualities.

The American Smelting and Refining Company has declared the regular quarterly dividend of 1¾ per cent on the preferred stock, payable Oct. 1. The dividend on the regular quarterly dividend of 1¼ per cent on the common stock, payable Nov. 25. Books close for the preferred dividend on Sept. 30 and reopen Oct. 12, and for the common dividend on Oct. 15 and reopen Nov. 1.

The annual report of the Standard Rope and Twine Company for the year ended July 31 last shows that after paying interest on first mortgage bonds amounting to $166,000, charging $58,243 to depreciation, and paying $48,918 interest on borrowed money, there is left for the year a deficit of $9,187 on account of the year's business, against a deficit the previous year of $111,184.

The production of Lake Superior Iron ores during this month is expected to approximate, if not exceed, 3,500,000 tons. This will make the monthly totals for the last three Septembers compare as follows: September, 1904, 3,500,000 tons, September, 1903, 3,246,639 tons, September, 1902, 2,557,080 tons. This would indicate about 18,500,000 tons for the season, or nearly 6,000,000 tons below last year, and 9,000,000 tons below 1902.

Samples of Corn from St. Paul, Neb., which is in the north central part of the State, in the Loup River valley, are shown here Wednesday. The Corn is fully matured and would not be hurt by a freeze. The yield is fifty to eighty bu per acre. There were also samples from Cumberland, Ia., in the western part of the State, showing fully developed ears and the crop entirely made. Two weeks ago the Corn there was very soft; now it is hard and as good as can be desired.

A Boston dispatch says: "A resumption of the activity noted last week in the Wool market is one of the features of this week's trading. The sales in Boston have reached 4,000,000 lbs, all grades have been in request, there has been an especially good movement in scoured Wools, speculative tendency having ceased when no change has been felt. The market for pulled Wools is firm, with moderate offerings. There is a good demand for territory grades. Foreign Wools are steady."

Gross earnings of all railroads in the United States reporting for the first week of September are $5,730,212, a gain of 5 per cent, compared with last year. Practically the same roads for the first week of August reported a gain of only 1.4 per cent, and for the entire month of August earnings of the leading systems were only 2.7 per cent better than in August last year through the percentage of increase for the month may be modified by later returns, it is clear that traffic on the railroads generally of this country is larger than in the same period last year.

The American Ship Building Company has let to the Jones & Laughlin Company the contract for supplying Steel plates for the third Steel steamer that is to be built for the trust. The order was recently it let contracts for supplying 3,000 tons of plates to the Carnegie Steel Company, and to the Cambria Steel Company for 2,000 tons The contract with Jones & Laughlin calls for 5,000 tons of Steel plates with delivery to begin not later than January 1 It is understood that the Company expects shortly to place additional contracts for Steel ships. In that event the Illinois Steel Company will probably get an order for 2,000 or 3,000 tons.

The pig Iron furnaces of the South will produce about 100,000 tons of Iron during September. This will compare with a production of 84,000 tons during the month of August. In the State of Alabama there are now in operation about twenty-four furnaces, with the indications pointing to further renewals. The principal Southern producers have been hampered by the strike of the Union Coal miners, but the output of Coke has as greatly restricted as the companies had reason to believe would be the case. The price of No. 2 foundry Iron is now $12.50 delivered at Ohio River ton as the minimum and the tendency toward a broader market.

The board of commissioners of Lincoln Park, Chicago, at their meeting Tuesday, awarded the proposed issue of $1,500,000 4 per cent twenty-year park extension bonds to the First National Bank. The price at which the issue was sold is a premium of $56,500, which is at the rate of 3.76 per cent. The bonds are to be issued at once, although the original plan provided for their issue in installments The First Trust and Savings Bank, for which the First National was acting, is to allow the park commissioners interest at the rate of 3 per cent on the money for the bonds, which will remain on deposit with the bank and be used by the commissioners as needed.

While orders and collections are satisfactory, the directors of the International Steam Pump Company have themselves been the interests of all concerned that the quarterly dividend should be reduced until the extensive new plant at Harrison, N. J., goes into full operation. This is expected to be accomplished before the end of the year. The new plant will enable the company to effect a number of important economies, which have not been possible at the Brooklyn plant, on account of the scarcity of room and limited capacity at the latter. The company has made large contracts for Coal, Coke and Iron at prices considerably below those of last year These contracts will have an important bearing on the coming year's results.

With more than a million dollars of debts and with only $1,000 as working capital, William Whaley, the financial supporter of several Cotton manufacturing enterprises in the South, filed a voluntary petition in bankruptcy in the United States District Court, Boston, Tuesday. For some time he has been interested in raising funds for textile industries in the Southern States, particularly in South Carolina, which have not resulted favorably. The total liabilities scheduled are $1,114,175. The secured claims amount to $1,087,981 and the unsecured to $26,173 In his petition Mr Whaley values only assets are personal property valued at $1,100 real estate worth $100, and household goods. There are ninety-one creditors. The individual claims range from $500, to one for $375,000, held by a bank.

Besides issuing $15,000,000 of new bonds and retiring $14,000,000 of outstanding convertible debentures, making an increase of $1,000,000 in the total funded indebtedness, the financial reorganization plan of the Colorado Fuel and Iron Company brings an addition of $7,500,000 to the common stock. The common stock issue is to be swelled from $23,000,000 to $30,500,000. Of the amount $2,500,000 will go to the holders of the debenture bonds, who receive 20 per cent in that issue as well as their present holdings. The remaining $3,500,000 of common stock will be given to Messrs. Gates, Perkins and George J. Gould with $1,000,000 of new bonds as payment for the company's properties that were pledged to secure the $12,000,000 cash advanced to carry the concern through its financial crisis. The direct effect of the reorganization is to put a lot more securities between the common stock and a possible dividend.

Within four or five days an offer will be made to the stockholders by one of the directors of the Chicago City Railroad Company to buy the entire stock, and the promoters of the merger deal express confidence in its success. More than half of the stock required for control has been secured, it is said, from the large holders, and the offer this week to the small owners is expected to procure the remainder of the shares necessary for control The offer of $200 a share is said to be alluring to many of the small holders, who fear they may lose in the deal or their holdings be rendered less valuable by future legislation being placed on the company by the new management. "We've had a deal will go through," said John J. Mitchell, who is conducting the Chicago end of the negotiations. "Within four or five days we will have all the negotiations will have reached a basis on which an offer can be made to the entire body of the Chicago City Company's stockholders. All will be treated alike. There will be no discrimination against the small holder or in favor of the large ones. The offer will name the same price to all."

The Chicago *Inter Ocean* says: "Coincident with a sudden rise in the price of the common stock of the American Can Company on excited buying, Wednesday, a story was circulated putting in definite form the current rumors regarding a reorganization of the company. According to this report, which rests upon the several features outlined with considerable detail, the company is to retire its common and preferred stocks and put in place a new issue of stock all of one class. The basis of exchange of the present issues for the new stock is said to be one and one-half shares of the present preferred for one share of the new stock, and ten shares of the present common for one share of the new stock. The new stock is to be issued with dividends at the rate of 5 per cent per annum. The effect of the reorganization plan, if it is carried through, will be to reduce the outstanding capitalization of $82,465,600, divided equally between common and preferred, to $31,612,196, all of one class Dividends at 5 per cent on this amount of stock would require only $1,580,731 annually, whereas there is now paid annually $2,061,665 in 5 per cent dividends on the preferred stock. The new issue, it was said Wednesday, would likely rise rather than the present prices of the equivalent stocks. Figured on the present price of the preferred stock of 43¾ the new stock would be worth a little over 68¾. This would indicate a present value of the common stock of nearly 69."

ITEMS OF GENERAL INTEREST.

New York Exchange 20c discount.

Documentary Sterling steady at 482.

Chicago Bank Clearings to-day, $26,237,000.

Weather in Argentina favorable for the growing crops.

Duluth Flax stocks are expected to increase 25,000 bu this week.

The largest car of Timothy Seed ever received here was on the market to-day; it contained 746 bags.

Seven packers purchased 9,900 Hogs to-day; shippers, 3,500; left over, 4,000. The market closed steady.

Deliveries on September contracts to-day were 20,000 bu Wheat, 10,000 bu Corn, 40,000 bu Oats, and 500 tcs Lard.

Reported that 40,000 bu Wheat, 256,000 bu Corn and 80,000 bu Oats were taken at the seaboard to-day for export.

London says: "Argentine advices are generally of a favorable tenor. Locusts are reported in portions of Santa Fe."

Estimated receipts for to-morrow: Wheat, 119 cars; Corn, 284 cars; Oats, 139 cars; Rye, 5 cars; Barley, 126 cars; Hogs, 10,000.

The receipts of Hogs at Chicago for the week will be about 98,000, compared with 108,078 for the corresponding week last year.

The receipts of Wheat at Liverpool during the past three days were 496,000 bu, of which 8,000 bu were American. Receipts of Corn, 56,000 bu, of which 56,000 bu were American.

Argentine Wheat visible is 2,800,000 bu, against 2,904,000 bu the previous week, and 1,472,000 bu last year. The Argentine Corn visible is 4,882,000 bu, against 4,294,000 bu the previous week and 3,914,000 bu last year.

Stocks in New York had a hesitating tone in the early trading, but rallied at the last and closed higher. Western Railway shares gained ⅛ to 1⅜. Eastern roads advanced ¼ to 1⅛. Industrials gained ¼ to ⅝. Money 1⅞ to 2 per cent.

Shipments of Wheat from Argentina this week were 514,000 bu, against 992,000 bu the previous week, and 480,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 81,317,000 bu, against 58,316,000 bu same time in 1903.

Cotton in New York advanced under the influence of higher cables, larger week's exports, and expectation of a reduction in crop estimates. The "bulls" were aggressive, and "shorts" large buyers. Closing sales were at gains of 12@16 points.

Shipments of Corn from Argentina this week were 3,230,000 bu, against 2,890,000 bu the previous week, and 3,132,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 60,541,000 bu, against 53,417,000 bu for same time last year.

Local Securities were slow, except for Can common, which was actively bought and advanced ½. Preferred was slow, but steady. A little Biscuit preferred was wanted, and it advanced ½. City Railway and Union Traction were weak and lower.

A Liverpool cable says: "Tone of the Argentine Wheat market is weak, as there is no demand for export. Corn markets have also become depressed owing to small foreign demand. Arrivals from the interior continue liberal, with conditions remaining satisfactory."

The shipments of Flax Seed from Argentina this week were reported at 312,000 bu, compared with 216,000 bu last week and 160,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 35,324,000 bu, compared with 21,939,000 bu for the corresponding time last year.

Bradstreet's reports the exports of Corn from the Atlantic and Gulf ports the past week at 657,000 bu, against 429,000 bu for the previous week and 779,000 bu for the corresponding week last year. Exports since July 1 were 6,782,000 bu, compared with 11,593,000 bu for corresponding time last year.

The *Modern Miller* says: "Rains have fallen in most of the Winter Wheat territory where moisture was needed to permit of plowing or to start germination where seeding had been completed. Fall work on the farms is up to a seasonable average. Movement of Wheat from first hands is diminishing."

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 864,000 bu, against 936,000 bu for the previous week, and 3,050,000 bu for the corresponding week last year. Exports since July 1 were 17,015,000 bu, compared with 36,282,000 bu for the corresponding time last year.

The Duluth *Commercial Record* says: "The three Northwestern States have raised 156,000,000 bu Wheat. As compared with the crop of 1903, there is a shortage of 30,000,000 to 35,000,000 bu in actual milling value. The milling value of this 156,000,000 bu is short of any like quantity ever raised in this country. It will take 5@5¼ bu to make a barrel of Flour." As this authority exhibited a statement of the distribution of Wheat in the Northwest proving the crop to have been 178,000,000 bu in 1903, it may be accepted that the crop this year is 22,000,000 bu less, and that the quality is equal only 143,000,000 to 145,000,000 bu of last year's quality, or about the requirements of millers.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Is ruling firm, with fair sales on local and domestic account. Foreign bids continue prohibitive.

WINTER WHEAT—Was in good demand and sales made at full yesterday's prices to 1c advance, with the closing nominally higher. The speculative market advanced sharply near the close, and the cash sales were made before this advance took place. No 2 Red in store was quotably $1 11¼@1 14½, and fresh arrivals free on board at $1 15@1 16. No 3 Red fresh arrivals free on board sold at $1 10@1 14½. No 4 Red fresh arrivals free on board sold at 85@95c for ordinary to $1 05@1 07 for good. No. 2 Hard fresh arrivals free on board quotably $1 10@1 13. No. 3 Hard fresh arrivals free on board sold at $1 06@1 09 and ranged at $1 03@1 09. No. 4 Hard sold at 99c.

SPRING WHEAT—Was in light supply and in good demand. Market quotably firm. No. 1 Northern fresh arrivals free on board quotably about $1 20 and No. 2 Northern fresh arrivals nominally $1 16@1 18. No. 3 Spring nominally $1 05@1 16 for poor to very choice, with sales at $1 13½@1 16. No 4 Spring sold at 70@75c for poor, at 52½c for ordinary, at $1 07 for good and at $1 12½@1 13½ for choice hard variety.

REGULAR WHEAT—The close showed December 3¼@3⅜c higher and May up 2⅛@2¼c. A good trade and unsettled market, the early feature being the relatively strength of December and weakness in May, the spread narrowing from 1¾c yesterday to ⅝c to-day. As the session advanced the general undertone became weak, the break in coarse Grains being a factor. Toward the close there was a sharp recovery and on active covering by "shorts" prices advanced 3⅛c. India shipments were liberal at 1,240,000 bu, and Argentine shipped 514,000 bu, making 81,317,000 bu since January 1, against 58,316,000 bu one year ago. The weather there was reported favorable and visible supply 2,800,000 bu, against 2,904,000 bu last week and 1,472,000 bu one year ago. The *Modern Miller* was "bearish" on farm work and the Duluth *Commercial Record* was out with an estimate of 156,000,000 bu for the three Northwestern States. Primary receipts were 293,000 bu larger than last year and arrivals in the Northwest 339 cars larger. Kansas City and St Louis received 299,000 bu, against 200,000 bu in 1903. Duluth stocks expected to increase 900,000 bu this week; Minneapolis decrease 75,000 bu. Liverpool spot ½@1d higher and futures ¼d higher. Receipts there the past three days 496,000 bu, and only 8,000 bu from America. London was up ⅝@1½d. France was again reported a buyer of cargoes off coast. Only two cargoes reported off the English coast awaiting sale. Antwerp was ⅛c higher and Buda Pesth ⅛c higher. Berlin unchanged. Flour news from St. Louis was "bullish." Duluth reported 200,000 bu being loaded out for shipment. Elevator interests at Minneapolis reported freer deliveries at country stations and the grading there to-day excellent. Exports were small and total for the week 864,000 bu, making 17,015,000 bu since July 1, against 35,282,000 bu one year ago. Early buying of December was by Elevator interests and cash Wheat holders. The Southwest and Northwest were both credited with selling here. Sales of about 40,000 bu cash were made here to go to millers but terms not disclosed. Showers and cooler weather were predicted for Minnesota; cloudy, showers Saturday for the Dakotas. The Minneapolis inspection showed 80 cars No. 1 Northern, 97 cars No. 2 Northern, 105 cars No. 3 Northern, or a total of 282 cars of these grades out of 525 cars received. Market was helped at the close by rumors that France contemplated reducing the import duty on Wheat. The present duty is about 38½c per bu. Receipts at Duluth 386 cars and at Minneapolis 525 cars, a total of 911 cars, against 843 cars yesterday, 532 cars a week ago, and 572 cars last year. Local receipts included 61 cars Winter, 13 cars Spring and 9 cars mixed, a total of 86 cars, against 63 cars last year. Included in the above was none of contract grade. There were 40 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 119 cars. Withdrawals were 2,150 bu. The receipts at Western points were 1,244,369 bu, against 951,392 last year. At Eastern points 47,144 bu, against 123,778 last year. Shipments from Western points were 547,010 bu, against 285,833 last year, and from Eastern points 13,443 bu, against 80,112 last year. Shipments of Flour were 24,539 brls. Exports of Wheat in Flour were equal to 129,868 bu.

Future Deliveries of Regular Wheat—Active trade and prices decidedly higher.

SEPTEMBER—Old Style—Sold at $1 11@1 14. Opened at $1 11¼, sold to $1 11, to $1 14 nominally, and closed at about $1 14.

CORN—A fair trade, with early feeling a continuation of that prevalent yesterday, still lower prices being established, followed by a complete recovery later on, the close showing gains of ⅛c to ⅜c and at top prices of the session. Weather conditions were more favorable and crop news most encouraging. "Long" property was liquidated freely, some of which came out on stop orders. Early support was of the indifferent sort. Provision interests and professionals were among the early sellers. The market was helped later by Wheat and large cash sales, "shorts" covering on the upturn. Argentine shipments were heavy at 3,230,000 bu and a "bear" factor, making 60,541,000 bu since Jan. 1, against 53,417,000 bu one year ago. The visible there was reported at 4,882,000 bu, against 4,294,000 bu one week ago and 3,914,000 bu one year ago. Map showed higher temperatures and showery and warmer conditions indicated. Liverpool quoted spot unchanged and futures were quoted ⅛@¼d lower. Receipts there the past three days 56,000 bu, all from America. London quoted cargoes on passage quiet and lower to sell. Receipts were 277 cars, making 2,513 cars this week, against 3,281 cars last year and 204 cars are estimated for to-morrow. Shipping demand was reported more active and sales 500,000 bu. Exports for the week 657,000 bu and since July 1 6,782,000 bu, against 11,593,000 bu last year. Southwestern markets were easy. Primary receipts 644,000 bu, last year 793,000 bu. Shipments 592,000 bu and 584,000 bu respectively. Local arrivals 412,000 bu and shipments 491,000 bu. Withdrawals 200,000 bu. Car lots were in moderate demand and prices 1@1½c lower. Offerings smaller. No. 2 closed about 52¼c. No. 2 Yellow sold at 53¼c and closed at 53½c. No. 3 sold at 51¼@52c and closed at 52c. No. 3 Yellow sold at outside and closed at 53¼c. No. 4 sold at 50½@53c, outside for yellow. New York reported 32 loads.

Corn by sample—Was dull and weak, with prices 1@1½c lower. Demand rather slow. Sales on track and free on board: No. 4 sold at 50@53c. No 3 at 51½@53¼c. No 3 Yellow at 53@54c. No. 2 at 52¾@53½c. No. 3 White at 51½c. No. 2 White at 51¾@52¼c. Billed through: No. 4 at 49¾@52¼c. No. 3 at 50c. No. 3 Yellow at 52½c. No. 3 White at 51@51¼c. No. 2 White at 51¼@51½c.

Future Deliveries of No. 2 Corn—Active and weak early, rallied sharply, advancing 1⅛c from low price and closed ⅛@⅜c higher.

SEPTEMBER—Sold at 51¼@52⅛c. Opened at 52⅛c, sold to 51½c, to 51⅝c, to 51¼c, up to 52c, and closed at 52c.

DECEMBER—Sold at 49¼@50⅜c. Opened at 50¼c to 50c and sold at 50⅛@50¼c, to 50⅛c, to 50¼c, to 49⅞c, to 50c, to 49¼c, to 49¾c, to 49½c, to 50⅜c, to 50¼@50⅜c, and closed at 50¼@50⅜c.

MAY—Sold at 48⅛@49¼c. Opened at 49c to 49⅛c and sold at 49@49⅛c, to 49¼c, to 49⅛c to 49¼c, to 48⅞c, to 49c, to 48⅜c, to 48½c, to 48⅛c sparingly, to 48⅝@48¾c, to 48⅜c, to 49¼c, to 49⅛@49¼c, and closed at 49⅛@49¼c.

OATS—Were weak and sold at the lowest of the season. Losses of ½@1⅛c were made and half recovered, net declines being ⅛@½c. Trading was heavy. Liquidation was the feature. May being sold freely. The rally at the last was with Wheat and Corn. The decline brought the market nearer a shipping basis and several round lots were being figured on at the close. Sales were 100,000 bu here and 80,000 bu at New York. Arrivals were 164 cars, with 150 cars expected to-morrow. Minneapolis had 165 cars. Withdrawals 40,290 bu. Seaboard clearances 29,000 bu. Car lots to go to store were 1@1½c lower. No. 4 White sold at 30c. No. 3 White at 30½@31c. No. 2 White at 31½@32½c. Standard in store closed at 30⅛c.

Oats by sample were weak, and 1@1½c lower with futures. The demand was fair the decline. Offerings were liberal. Sales on track and free on board: No. 4 White at 26@30¼c. No. 3 White at 29@31½c. Standard at 31⅛@32¼c. No 2 at 30¼@31c. No. 2 White at 32@32½c. Billed through. No 4 White at 25@29c. No. 3 White at 30¾@31½c. Standard at 30¾@31½c. No. 2 White at 31c. At the river: No. 4 at 27½c. No. 4 White at 28½@29½c. No. 3 White at 29@30½c. Standard at 30c. No. 2 White at 31c.

Future Deliveries of Contract Oats—Were active and lower.

SEPTEMBER—Sold at 29½@30⅛c. Opened at 30c, sold to 29½c, to 30⅛c, at close.

DECEMBER—Active. Sold 30⅜@31½c. Opened at 31⅜c, sold to 31½c, to 30⅜c, to 30⅞c at close.

MAY—Active. Sold at 32⅞@34c. Opened at 33⅞c to 34c, sold to 32⅞c, to 33⅝c, to 33¼@33⅜c at close.

RYE—Was firm, with no quotable advance in prices. Demand fair. Receipts 6 cars and withdrawals from private warehouses 7 cars. No. 2 in store nominally 74½c and fresh receipts free on board sold at 77c. No. 4 sold at 74c. No Grade sold at 71c free on board and 69c billed through.

Future Deliveries of No. 2 Rye—Firm. September sold at 74½c, December at 76c and May at 78½c.

BARLEY—There was a very heavy market. Offerings were not quite as large as yesterday, still there was a good supply. Malting demand was only about fair. Some malters were not buying. Some who have been taking a good deal lately bought less to-day, they are becoming a little crowded. Early the market was called steady, later easy and concessions had to be made. Bids from different buyers on the same sample would sometimes be several cents apart. Bulk of trading was within a range of 40@46c, and the main trade yesterday was at this range. Some said they had obtained former prices, some said they had to give better goods to get former prices and some quoted 1c decline. Very little feed on mixing demand owing to a weak Oats market. To-day's postings gave 78 cars inspected in. Screenings were slow and quotable at 31@38c for common to choice. Thin stained, musty or dirty feed Barley, quotably 34@37c; demand and offerings both limited. Low grade malting, dirty, small berry, poor color, 38@41c. Fair to good color, depending on weight and other conditions, ranged at 42@46c. Higher grade, ranged at 47@49c. Very choice to fancy called nominally 50@52c.

SEEDS—There were no important changes. Timothy was less active and heavy and other lines were practically inactive.

Timothy—Was heavy, not materially changed from yesterday's inside prices and yet some lots may have sold for slightly less. Cash supply continues good. The largest car ever received was on sale. The speculative market was quiet and dull. There were sellers at last quotations. September delivery sold at $2 75 and was offered at that. October sold at $2 75 in exchange for March at $2 95; it was offered at $2 75. December nominally $2 80, and January $2 85. March offered at $2 95. Country lots were quotable at $2 30@2 45 for fair to good, some high grade Seed sold at $2 50@2 55, choice to fancy at $2 60@2 75, poor trashy Seed quotably down to $1 85@2 10.

Flax—No transactions were reported, though it was said a few cars were on the market. Yesterday's prices were bid for cash and futures were nominally unchanged. Local receipts 3 cars, or 2,700 bu. Output 1 car and 26,000 bu by lake, a total of 26,802 bu. Minneapolis got 80 cars and Duluth 30 cars. No 1 Northern or No. 1 from the Northwest salable at $1 15½ and for No. 1 $1 09 was bid. Rejected nominal, depending on quality, at $1 06@1 14. September delivery was nominally $1 09 and December nominal at $1 11.

Clover—Was quoted steady to firm; about 10c better on the contract grade and otherwise unchanged. There were no offerings. October delivery quoted at $11 85. Contract spot Seed was quotably about $11 85. Country lots, common to choice, $9 00@11 75, fancy above. Fair to good, $10 00@11 00.

HOG PRODUCTS—Little interest was manifested in the market for Hog Products, and speculative trading was moderate. Offerings were not very large, and the demand was rather light. Near deliveries were rather steady in sympathy with a rather strong Hog market, while the longer deliveries were comparatively easy in sympathy with the decline in Corn. Receipts of Hogs at the leading Western packing points were estimated at 38,000, compared with 42,000 one year ago. Foreign markets were steady for Meats, and Cumberland Sides were reported 6d higher, while Lard was quiet and 3d lower. Receipts of Products continue liberal—of Lard and Meats about 38 cars. Shipments were moderate of Lard and Meats about 101 cars. Shipping demand was fair, and offerings were not very large. Sales were good, with very little change to note in prices.

Mess Pork—Only a fair business was reported in Mess Pork, and the feeling was rather easy, especially for the longer deliveries. Offerings were fair, and the demand was moderate. Market opened rather steady, and prices ruled 7½@15c higher. Later, a weaker feeling was developed, and prices settled back 17½@20c, but rallied again 7½@10c, and the market closed steady. Shipping demand was light, and offerings were small. Cash lots quotable at $11 40@11 50.

SEPTEMBER—Quiet. Sold early at $13 42½, but closed nominal at $11 35.

OCTOBER—In moderate request, with fair offerings. Sales were made at $11 27½@11 47½. Opened at $11 35 to $11 45, sold to $11 47½, to $11 27½, to $11 35, and closed steady.

DECEMBER—Small sales at $11 45.

JANUARY—Offerings were fair, and the demand was not urgent. Sales were made at $13 02½@13 20. Opened at $13 20, sold to $13 07½, to $13 10, to $13 05@13 07½, to $13 10, to $13 02½, to $13 12½@13 15, and closed steady.

MAY—Quiet and sold sparingly at $13 20.

Lard—Only a moderate business was transacted in Lard, and the feeling was rather easy. Offerings were fair, and there was no particular demand from any source. Foreign advices unfavorable to holders. Prices were about 2½@5c higher early, but a weaker feeling was developed, and prices settled back 2½@7½c, and the market closed comparatively steady. Demand on shipping account was fair, with moderate offerings. Cash lots quotable at $7 15@7 17½. Loose lots in good request, with very small offerings. Prices quotable at about October figures. Leaf Lard was in light demand, with rather small offerings. Quotably steady at about $7 12½@7 37½ for very small lots. Neutral in light demand, with moderate offerings. Prices quotably steady at $8 50@8 62½ for No. 1, and $7 87½@8 00 for No. 2.

SEPTEMBER—Quiet and quotable at the close at $7 12½@7 15.

OCTOBER—In moderate demand with limited offerings. Sales were made at $7 10@7 15. Opened at $7 12½, sold to $7 10, to $7 12½@7 15, and closed steady.

NOVEMBER—Quiet with small sales at $7 15.

JANUARY—Offerings were rather free, and demand was fair. Sales were made at $7 25@7 32½. Opened at $7 30 to $7 32½, sold to $7 25@7 27½, to $7 27½, to $7 25, to $7 30, and closed steady.

MAY—Quiet and sold sparingly at $7 40.

Short Rib Sides—Only a fair trade was reported in the market for Short Rib Sides, and a comparatively steady feeling prevailed. Feeling early was stronger and prices ruled 2½@5c higher, but an easier feeling prevailed later, and the advance was lost. Market closed steady around medium figures. Shipping demand was fair, and offerings were rather light. Cash lots quotable at $7 55@7 75 according to weight.

SEPTEMBER—Quiet and quotable at the close at $7 52½.

OCTOBER—In fair demand and offerings were somewhat limited. Sales were made at $7 55@7 60. Opened at $7 57½ to $7 60, sold to $7 55, to $7 57½, and closed steady.

JANUARY—Offerings were fair, and the demand was moderate. Sales were made at $6 77½@6 82½. Opened at $6 82½, sold to $6 77½, to $6 80, to $6 77½, to $6 80, and closed steady.

Other Meats—Trade was fairly active and mainly on domestic account. Exporters bought sparingly. Offerings not very free, and inquiry was good. Green Meats in moderate supply with a light inquiry and prices ruled steady. Pickled Meats in fair request, with only moderate offerings, and prices were unchanged. Dry Salted Meats were in good demand, with moderate offerings, and prices ruled steady. Smoked Meats called for moderately and prices favored sellers. Closing prices were as follows:

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Sept. 22.]

Nothing of importance has developed during the past week of an adverse nature affecting the prospect of the Corn crop Under higher temperature the ripening process where this has not reached completion would have advanced more rapidly than it has. Light frosts have occurred in many places, but have not injured the Corn prospects - so that the basis for calculations has not been lowered. The total area in Corn is approximately 92,000,000 acres according to official data. In the final returns a portion of this will most likely not appear, for some of the crop will not be counted in the reports. The indicated loss last year between area planted and that harvested, or counted in the final returns, was nearly 2 per cent. If the loss this year should not be greater than 2 per cent the result would indicate not less than 90,000,000 acres—of which practically half is represented by the seven surplus States, and five-eighths of the production. Outside of these States very little of the Corn area is now subject to injury from frost, and evidently not over 12 per cent of the area of these States is now in condition to suffer to any essential degree from frosts. These conclusions imply that not over 10 per cent of the entire crop would be seriously injured by a hard frost throughout all the area where the crop has not already attained such degree of maturity as to imply a secure condition, and that nothing that can be expected to occur can totally destroy all of this 10 per cent. It therefore follows that with a basis which admits of 2,450,000,000 bu or more under escape from serious effects from frosts or freezings there is a practical certainty of 2,300,000,000 bu or more under any circumstances.

The condition of the Oats crop as officially reported for Sept. 1 was 13 per cent higher than the average reported for the corresponding time last year, when the production was estimated as 784,000,000 bu. The indicated acreage being equal to last year, it must follow that the production should show as much as 13 per cent gain over last year, especially when it is considered that the quality is very decidedly better than last year The consistent indication, therefore, for this Grain is approximately 875,000 000 bu

The week has disclosed no new information of special import concerning the Wheat crop, which may be recognized as about 540,000,000 bu on the basis of official data. There is reason for the view that the crop may, in fact, exceed this quantity, but it is not likely that the official estimate will be higher than this.

The three Grains Wheat, Corn and Oats will exceed in quantity any previous year with the single exception of 1902, and will represent a total 7 per cent greater than the annual average for five years prior to this season. There is additionally to be taken into the crop reckonings this year the large production of Hay, of Potatoes, and of Apples So that the agricultural results are to be regarded as decidedly favorable the single instance of the Wheat deficiency being the only occasion for striking departure from usual conditions of abundance In this particular there will be more than enough for domestic requirements, and there is nothing in the situation which reasonably calls for the extravagant prices for this Grain which speculation has given encouragement and support to.

The indications in regard to autumn Wheat seeding appear to be that good progress generally has been made in preparation and in planting. The earlier expectations as to enlarged area have been interfered with in some localities where the plan was to seed the Corn lands, but which has been prevented by the Corn having been blown down to such extent to make such seeding impracticable Ohio will probably not show much change in area. Indiana will fall short. Illinois and various other regions will evidently increase the area. Taken as a whole some gain may reasonably be looked for.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Sept. 22]

There is not much change in number of Hogs moving into market channels. Total Western packing 310,000 Hogs, compared with 305,000 the preceding week and 330,000 two weeks ago. For the corresponding time last year the number was 310,000 and two years ago 265,000 From March 1 total is 11,050,000, against 11,170 000 a year ago, a decrease of 120 000. The quality is running about as usual. Prices have advanced, but with some reaction at the close, the prominent markets indicating a general average of about $5 90 per 100 lbs, compared with $5 75 a week ago, $5 50 two weeks ago, $6 00 a year ago, $7 5? two years ago, and $6 8? three years ago. There is not much in general indications to suggest important gains in supplies in the near future, but there appears to be liberal numbers of young animals for marketing later.

The speculative Provision market was fairly active the past week, and under the influence of smaller receipts of Hogs than were expected, together with the firmness in the Grain markets, prices on all the leading articles were advanced. Foreign markets were also firmer Trading was mainly in October and January contracts The export clearances of Product were fair, and show an increase over the preceding week, but there is a decrease as compared with the large movement reported for the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year
Pork, pounds	434,000	554,000
Bacon, pounds	11,080,000	13,528,000
Total, Meats	11,514,000	14 0??,000
Lard, pounds	11,101,000	20,605,000
Total, Product	22,615,000	34,687,000

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since March 1, at undermentioned places compared with last year, as follows:

March 1 to Sept. 21—	1904.	1903.
Chicago	2,665,000	3,2?0,000

MANITOBA WHEAT CROP.

[From the Northwestern Miller, Sept. 21.]

A Manitoba correspondent has the following to say of crop conditions. Frost occurred morning of Sept 11 and would injure—more or less—5 to 10 per cent of Manitoba crops and 10 to 20 per cent of Territories crops, such percentage being uncut at time frost occurred. Rust has done considerable damage in limited areas in certain districts, but the total damage will not amount to over 10 to 12 per cent on the whole crop, and, in considering such damage, it should be borne in mind that, but for rust, the crop would have been an extra large yield, say an average of 23 bu per acre, so, to get at net result, the damage—say 12 per cent—should be deducted from 23 bu per acre, leaving net result, say, 20 bu per acre. From this deduct, say 10 per cent, to cover probable loss in yield by reason of frost, leaving final net result 18 bu per acre. Total acreage in Wheat, Manitoba and Northwest Territories, 3,300,000 acres; this, at 18 bu per acre, equals, say, 60,000,000 bu, and we are confident that final threshing returns will confirm foregoing figures. So far only five farmers in this district have threshed and they report yields of 19½ to 28 bu per acre. All Wheat threshed is extra good quality, being bright, plump and even, and will grade No 1 Hard and No. 1 Northern.

The export trade of the United States Steel Corporation is increasing rapidly By the first of the year it is expected to be large enough to prove a factor in gross earnings. Last month the net increase in all products over July was not less than 18 per cent, and this month it will be larger

The Central and South American Telegraph Company has declared the regular quarterly dividend of 1½ per cent, payable Oct 6 Books close Sept. 30 and reopen Oct. 7 For the quarter ending Sept. 30 the company shows a surplus of $42,816, against $35,816 for the same quarter last year

The Proctor and Gamble Company, Cincinnati, Ohio, has declared the regular quarterly dividend of 2 per cent on its preferred stock, payable Oct 15 to holders of record Sept. 21 Stockholders of the company will hold their annual meeting in Jersey City, Oct 12. Books closed Sept. 21, reopen Oct. 15.

The annual report of the Philadelphia Rapid Transit Company, which leases the Union Traction Company of Philadelphia, for the year ended June 30 shows a surplus of $220,8?6, a decrease of $185,075 The report states that the high price of material and labor and severe weather of last winter very materially increased the cost of operations

The president of the American Steel Foundries Company announces the purchase of the controlling interest in the plant of the Commonwealth Steel Company of St Louis. The price was $2,300,000. He states that there is a great demand for railway castings and the output of the various plants of the company increased 33 per cent in the last month

It is said that the opposition to the present control of the Chicago Terminal Transfer Company has secured a majority of proxies for use at the next annual meeting to be held in Chicago Oct. 12, and that a revolution in the management will then be brought about, with the view of avoiding a reorganization of the company or the sale of the property through foreclosure.

It is officially stated that the present management of the New York, Ontario and Western Railroad has received up to date proxies representing 382,000 shares, out of a total of about 580,000 shares outstanding. The new financial plan which is under consideration, it is expected, will be submitted to the directors for approval at their meeting next Monday, but the details of the arrangement will not be made public until the annual meeting next Wednesday.

The London Stock Exchange Committee has admitted to quotations in the official list the following American Securities. Baltimore and Ohio Railroad $1,000,000 additional first mortgage fifty-year 4 per cent Gold bonds and $1,000,000 additional prior lien 3½ per cent Gold bonds Cleveland, Cincinnati, Chicago and St. Louis Railway $1,000,000 additional general mortgage 4 per cent Gold bonds. Southern Railway Company $1,317 000 additional first consolidated mortgage 5 per cent Gold bonds.

Judge Holt of the United States District Court, New York, has appointed a receiver of the General Metals Company of New York, which was claimed to have a capital of $1,500,000, and has large plants for the reduction of Gold ore into bullion at Colorado City, Colo. The action was taken on an involuntary petition filed by a party who claims to be a creditor. He states that the corporation has a capital stock of $900,000 now outstanding, and that its factory and place of business elsewhere are of the value of about $500,000.

The president of the South Side Elevated Railroad Company, Chicago, says: "Subscriptions to the first $3,000,000 of new 6½ per cent bonds of the South Side Elevated are being received in volume at the Illinois Trust and Savings Bank. The stockholders of the road have until Oct. 1 to make formal applications and pay the money for the bonds While many are waiting until near the end of the month to make the formal applications, enough have already signified verbally their intentions to subscribe to make it certain that the issue will be oversubscribed. The Illinois Trust and Savings Bank is almost daily refusing requests for the bonds."

The Aultman Company, Canton, Ohio, manufacturers of threshing and harvesting machinery, went into a receivership Thursday. The action was taken by heavy creditors after insistent demand by smaller creditors. The Arctic Manufacturing Company of Cleveland, the product of which came from the Aultman works, was also placed in the hands of a receiver. The order of Judge Wing authorizes the Aultman Company to continue operations without interruption. The embarrassment of the Aultman Company came through the embarrassment of a number of Western houses who had taken over the season's product and paid for the same in their paper and allowed that paper to go to protest. The Aultman Company is believed to be solvent

The *Wall Street Journal* says: "It is admitted by representatives of the Republic Iron and Steel Company that the annual report will contain a great deal of matter bearing on the Oil developments that are going on in the Indiana district. Very conflicting statements as to the income that is now being received by the Republic from its Oil properties are coming in. While no official statement as to the income from the property has been made as yet, officials of the corporation talk enthusiastically on the subject. The president says the company was never in better shape financially than at present. He claims that the suspension of dividends on the preferred stock and the income from the Oil properties has materially strengthened the company."

The Indianapolis correspondent of the *Northwestern Miller* writes as follows, under date of Sept 19. "There was much nervousness last week among those interested in the outcome of the new Corn crop. Generally throughout the Ohio Valley Corn belt the temperature was dangerously low, but judging from the many reliable reports no damage was sustained as late as last Saturday. The greater portion of the crop is quite safe and cannot be injured, but there is some late replanted that is not yet out of the way of danger from frost, which is of course possible, but rather improbable. Generally speaking, a good average crop of good quality Corn is expected in the Ohio Valley, and since the worst part of the recent cold wave has probably passed, the chances are that the most sanguine expectations will be realized."

The Portland correspondent of the *Northwestern Miller*, writing under date of Sept. 15, says. "For the first time in more than ten years the markets of the Pacific Northwest are under the domination of the Chicago operators and prices for Eastern shipment are so far above the export values that practically everything sold is routed across the continent by rail. The Eastern business has been coming so swiftly during the past ten days that it is almost impossible to gauge accurately its dimensions, but from the amount of orders closed by Portland houses it is believed that the total sold for points east of the Rocky Mountains will already approximate 6,000,000 bu. The Oregon Railway and Navigation Company has ordered 1,000 empty cars sent out from the East and has promised shippers to take care of all the business that offers The Northern Pacific and the Great Northern are also making special efforts to move the offerings."

Announcement has been made by representatives of the Republic Iron and Steel Company of the company's intention to install large finishing mills at its Bessemer Steel works at Youngstown, Ohio, for rolling sheet and tin plate bars. The Republic Company has never made sheet and tin bars, but intends to go into the manufacture of sheet and tin bars for the purpose of supplying them to independent sheet and tin plate mills. It is said attempts were made to buy the Republic Company off from going into the manufacture of sheet and tin bars, but without avail It is said that the Republic Iron and Steel Company has all plans made for putting in mills for rolling Steel rails and will probably start to work on the building of these additional mills within a very short time The outlook is that the Republic Iron and Steel Company is going to be a very aggressive factor in the Steel billet, sheet and tin bar and Steel rail trades and means to get its share of trade in these products in the future

Regarding the policy of the new management of the Consolidated Lake Superior Company and how it is working out, an official says: "We are going ahead trying to solve the problem of one enterprise after another. As soon as one portion or plant has worked out so that it is running profitably and successfully, another part of the varied enterprises receives undivided attention until yielding satisfactory returns. With this policy we can say that all plants now in operation are showing a fair profit. These plants include the Steel rail mill, the electric railway systems in both the Canadian and American Soo, the electric lighting plant, the Helen mine, the saw mill, the fleet of ore steamers, the passenger line between the Soo and Toledo, the Algoma Central Railway, and the Algoma power plant. While the receiver is still in control of the power plant, we are only awaiting the adjustment of various documents by the attorneys to take possession of it. In addition we will have the blast furnaces in operation within a few weeks, and will start the sulphide mill at the beginning of 1905. We will then consider the questions of the nickel converting plant and the establishment of an open hearth furnace at the rail plant."

The Illinois Auditor of Accounts has issued a statement of the aggregate resources and liabilities of the thirty-three State banks in Chicago on the opening of business on Sept. 7, also showing the increase or decrease as compared with June 10, the date of the last statement issued by the department. The loans and discounts on Sept. 7 were $153,581,212, a decrease of $1,785 677 Bonds, other than United States, amounted to $59,682,512, an increase of $3,177,857, which shows a continuation of the disposition of State banks to increase their holdings of such securities. There was due from National banks on Sept 7 $47 914,317, a gain of $7,368,041 There was due from State banks and bankers $20,177,292, a gain of $3,250,632 Increases and decreases in other items of resource were small The total resources on Sept. 7 amounted to $322,548,129, a net gain of $11,627,441 over June 10 last. Under the head of liabilities capital stock grew from $25,250,000 to $26,700,000. Surplus funds increased $210 000 and undivided profits increased $606,772. Time savings deposits aggregated $119,800,457, an increase of $2,150,227. Individual demand deposits amounted to $100,929,927, an increase of $1,458,775. There was due to State banks and bankers $23 765,877, an increase of $2,340,807.

The Winnipeg correspondent of the *Northwestern Miller* writes as follows under date of Sept 19: "There is no use in denying the fact that, whether it is based upon reliable grounds or not, the general opinion of the milling and Grain trades of this country, with respect to the size and quality of the Wheat crop, is undergoing a certain degree of modification. This is a result of unfavorable weather. The weather may not be affecting the crop any, but is is affecting the spirits of the people and there is not now the same buoyant optimism to be observed which was the case a short three weeks ago. Evidence, of a comprehensive character, regarding the extent of the damage from rust, is still not to be had, but the inspections of new Wheat at Winnipeg so far have not lent very much color to the yarns of the 'crop killers.' So far the proportions of the different grades in the inspection returns are as follows: No. 1 Hard and No 1 Northern, 28 per cent; No. 2 Northern, 48 per cent; No. 3 Northern, 11 per cent, and No. 4 Wheat and lower 13 per cent; practically 87 per cent of milling grades. Threshing returns, so far, vary widely, but yields of from 20 to 25 bu are not uncommon; in fact, they may be said to have been the rule. The Manitoba crop is practically all cut "

Chicago Bank Clearings to-day, $25,273,823.

No export business in Grain at the seaboard to-day.

Cotton in New York closed easy and 6@7 points lower.

About 183,000 pcs of Sides were shipped South during the past week.

The packing of Chicago since March 1 shows a decrease of 611,000 Hogs.

Shippers purchased about 23¼ per cent of the Hogs received the past week.

Deliveries on September contracts to-day were 5,000 bu Corn and 45,000 bu Oats.

The shipments of Hams from Chicago for the past week were equal to 11,200 tcs.

About equal to 25,500 tcs of Lard were shipped from Chicago during the past week.

Aggregate receipts of Live Stock at Chicago for the past week were about 309,000 head.

Australian Wheat shipments for the week 480,000 bu, compared with 1,000,000 bu last week.

About 835 car loads of Hog Products were forwarded from Chicago during the past week.

Seven packers purchased 6,900 Hogs to-day; shippers, 1,000; left over, 3,500. The market closed strong.

Chicago Bank Clearings for the week were $171,658,277, against $171,283,069 for the corresponding week in 1903.

Estimated receipts for Monday. Wheat, 68 cars; Corn, 284 cars; Oats, 129 cars; Rye, 5 cars; Barley, 165 cars; Hogs, 28,000.

Estimated receipts of Hogs at Chicago for next week 115,000. Receipts for the corresponding week last year were 102,050.

A Winnipeg message says: "Yesterday we had 66 cars new Wheat, 21 to 22 No Grade and tough; balance No. 3 Northern, No. 4 Spring and feed."

Business failures in the United States and Canada for the past week were 255, against 245 the previous week, and 251 for the corresponding week last year.

Average cost price of Hogs at Chicago, Friday, was $5 89, against $5 85 Thursday, $6 00 last Tuesday, $5 75 a week ago, $5 34 a month ago, and $5 77 a year ago.

Broomhall estimates the world's shipments of Breadstuffs this week at 8,800,000 bu, and predicts there will be some decrease in the quantity on ocean passage.

The stock of Flax Seed at Minneapolis on Sept. 24 was reported at 104,500 bu, against 58,000 bu for the week previous—an increase of 46,500 bu. Stock last year, 709,091 bu.

English visible supply of Wheat decreased 294,000 bu, compared with an increase of 1,749,000 bu last week, and an increase of 797,000 bu the corresponding week last year.

The receipts of Wheat at Minneapolis and Duluth for the past week were 4,723 cars, compared with 2,809 cars one week ago and 3,739 cars corresponding week one year ago.

Arrivals of Breadstuffs in the United Kingdom for the week were about 4,000,000 bu, compared with 5,764,000 bu last week, and 4,100,000 bu for the corresponding week in 1903.

The receipts of Hogs at the leading Western markets during the past week were about 246,000, against 234,000 the previous week, and 256,000 for the corresponding time in 1903.

The Flour trade is buying steadily, but not anticipating requirements. This gives millers a constant run of orders, and they are well supplied. St. Louis mills say they are running night and day, and sold 4,000 sacks of Flour, Friday, to Pittsburg.

Local Securities were stronger and a trifle better for the Industrials on light trading. Metropolitan Elevated advanced ½ on common and 1 point on preferred on light trading. North Chicago Railway lost 4 points, and Union Traction common declined ½ point.

A scarcity of cars is the cry in the Northwest. Offerings of Wheat at interior stations are larger than the roads are able to supply cars for. Minneapolis says they would get 1,000 cars of Wheat a day if the roads can furnish cars. The high price is bringing out the Wheat.

Included in the shipments of Meats from Chicago for the past week were about 213,000 pcs of Hams, 46,000 pcs of Shoulders and 235,000 pcs of Sides. For the corresponding time last year the shipments were about 196,000 pcs of Hams, 62,000 pcs of Shoulders and 278,000 pcs of Sides.

The following table exhibits the number of Hogs estimated packed from March 1 to date in this city as compared with the returns of previous years.

1904	2,738,000	1901	3,008,000
1903	3,379,000	1900	3,601,000
1902	3,382,000	1899	3,649,000

An Ottawa, Ont., dispatch says: "Minister of the Interior Clifford Sifton says the reports of injury by frost and rust are grossly exaggerated. The Wheat crop of Manitoba and Northwest Territories will aggregate from 55,000,000 to 60,000,000 bu. Quality good and prices around $1 00 per bushel."

The receipts of Flour and Grain at Chicago for the past week were equal to 7,085,000 bu and the shipments were equal to 6,067,000 bu. For the corresponding week in 1903 the receipts were equal to 6,565,000 bu, and the shipments to 5,002,000 bu. These figures are supposed to include the through shipments of Flour.

The estimates of the daily commercial press on independent investigations of the Wheat crop of the Northwest is as follows:

	Bushels.
Minneapolis *Market Record*	150,700,000
Duluth *Commercial Record*	156,000,000
Chicago DAILY TRADE BULLETIN	151,100,000
Average	152,600,000

The weekly statement of the New York banks shows the following changes: Decreases—Reserves on all deposits, $3,102,125; Reserves, less United States deposits, $3,093,550; Loans, $2,454,000; Specie, $5,054,700; Legal Tenders, $578,300; Deposits, $10,124,500. Increase—Circulation, $611,900. Banks hold $26,251,025 in excess of legal requirements.

Export clearances for the past week from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans, and Galveston included 75,000 brls of Flour and 63,000 bu Wheat, against 81,000 brls of Flour and 69,000 bu of Wheat the preceding week, a decrease of 6,000 brls of Flour and a decrease of 6,000 bu of Wheat. For the corresponding week last year the exports were 291,000 brls of Flour and 486,000 bu of Wheat.

Stocks in New York were mainly higher. Trading was fair, 292,200 shares. Western Railways advanced ⅜ to 1⅝, Atchison leading. Union Pacific and Southern Pacific lagged and lost ¾ and ¼ points. Atchison was affected by rumors that an important interest had been acquired by friends of Union Pacific. Industrials were mostly higher, General Electric advancing 1¾, and Steel 1 to 1⅜. Anaconda advanced 3, and Copper ½ point. Tractions lost ½ to 2 points. Eastern Railways were ½ lower to ¼ higher.

The Minneapolis *Market Record* presents rather a remarkable report of tests of Wheat in the Northwest: Of 72 counties in Minnesota, only 6 reports are below 50 lbs; of 52 counties in South Dakota, 15 reports are below 50 lbs, of 35 counties in North Dakota, only 3 reports are below 50 lbs. Of the 159 counties in the Northwest, only 24 counties report tests below 50 lbs. There are but two counties reporting below 45 lbs—one in North Dakota and one in South Dakota. There are 164 Wheat counties in the three States.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—In fair demand and firm as quoted on the second page.

WINTER WHEAT—Was in good demand and prices show further advances of 1@2c. Offerings moderate. No 2 Red in store ranged at $1 13½@1 15¾ and fresh arrivals free on board quotably $1 16@1 18. No. 3 Red fresh arrivals free on board sold at $1 14½@1 15⅞. No. 4 Red fresh arrivals sold at 91@96c for common, to $1 03@1 08 for fair and $1 10@1 12 for choice. No Grade Red sold at 95c. No 2 Hard fresh arrivals free on board sold at $1 15⅜ and ranged at $1 13@1 16. No. 3 Hard fresh arrivals sold free on board at $1 07@1 11 and at the river at $1 06@1 09. No. 4 Hard sold at the river at $1 00.

SPRING WHEAT—Was in light supply and in good demand. Market remains firm. No. 1 Northern fresh arrivals free on board quotably about $1 20@1 22 and No. 2 Northern fresh arrivals nominally $1 18@1 20. No. 3 Spring nominally $1 05@1 16 for poor to very choice, with sales at $1 14. No. 4 Spring sold at 76@82c for poor, and at $1 09 for good.

REGULAR WHEAT—A fair trade, with the close ¼c to 1½c higher than yesterday. Feeling was unsettled, the early tone being weaker on scattered selling by "longs," influenced chiefly by the irresponsive cables and news from France. Antwerp cabled: "French duty unfounded. We do not believe in imports: in any case only small." Another Paris cable claimed the import question was simply a matter of conjecture. Other cables intimated the import duty into France would remain unaltered until farmers have marketed a good portion of their crop. Liverpool quoted spot unchanged and futures steady to ⅛d higher. London unchanged to ⅜d higher. Cargoes on ocean passage were reported firm with a good Continental inquiry. English country markets strong. Paris came ½c lower, Buda Pesth ⅜c lower, Berlin ¼c higher and Antwerp unchanged. St. Petersburg cable read: "Grain exports increasing at all Russian ports, especially the exportation of Wheat to England." At the decline commission houses made fair purchases and situation turned strong. Both Milwaukee and Minneapolis reported a better demand for Flour, with large sales and there was some buying on rumors via New York of strained relations between England and Russia. *Broomhall* estimates world's shipments at 8,800,000 bu, and predicted some decrease on ocean passage. Arrivals in the United Kingdom this week were 4,000,000 bu, against 5,764,000 bu last week, and 4,100,000 bu one year ago. English farmers' deliveries were 424,000 bu at 90¼c, against 416,000 bu last week at 89½c, and 408,000 bu one year ago at 79½c. The English visible supply decreased 294,000 bu, compared with 797,000 bu increase one year ago. Local weekly receipts 840,000 bu and shipments 441,000 bu. Primary receipts this week 7,129,000 bu, against 5,589,000 bu last week, and 6,713,000 bu one year ago. Receipts in the Northwest this week 4,723 cars, against 2,809 cars last week, and 3,739 cars same week in 1903. Australian shipments were 480,000 bu. Winnipeg wired that threshing returns indicated a crop equal to 54,000,000 bu. The Minneapolis *Market Record* estimates a crop in the three Northwest States at 150,700,000 bu. Considerable of the late selling was credited to the Northwest. Minneapolis wired: "Two railway officials, whose roads operate North and West of here, report the demand for cars from country elevators never greater than now." Clearings again very small. Receipts at Duluth 324 cars and at Minneapolis 399 cars, a total of 723 cars, against 911 cars yesterday, 620 cars a week ago, and 820 cars last year. Local receipts included 90 cars Winter, 15 cars Spring and 5 cars mixed, a total of 110 cars, against 57 cars last year. Included in the above was none of contract grade. There were 11 cars and no bu taken from unlicensed elevators. The estimated receipts for Monday are 68 cars. The withdrawals were 24,100 bu. The receipts at Western points were 1,169,305 bu, against 1,120,825 last year. At Eastern points 41,107 bu, against 58,764 last year. Shipments from Western points were 352,525 bu, against 411,264 last year, and from Eastern points 15,889 bu, against 269,978 bu last year. Shipments of Flour were 10,613 brls. Exports of Wheat in Flour were equal to 63,647 bu.

Future Deliveries of Regular Wheat—Good trade and prices again higher.

SEPTEMBER—Old Style—Sold at $1 13½@1 15⅝. Opened at $1 13½; ranged nominally up to $1 15⅝, and closed at about $1 15⅜.

SEPTEMBER New Style—Sold at $1 10¾@1 12⅝. Opened at $1 11⅛; sold to $1 11⅝, to $1 11, to $1 11½, to $1 10¾, to $1 12⅝, to $1 12½, to $1 12⅝, to $1 12½, and closed at $1 12½.

DECEMBER—Sold at $1 12½@1 14⅞. Opened with sales at $1 13⅛ to $1 12½; sold to $1 12⅝, to $1 12½, to $1 13⅞, to $1 13, to $1 13¼, to $1 12¾, to $1 13½, to $1 12⅞, to $1 14½, to $1 14, to $1 14⅞, to $1 14, to $1 14@1 14⅛, and closed at $1 14@1 14⅛.

MAY—Sold at $1 13½@1 15¾. Opened with sales at $1 14¼ to $1 13⅝; sold to $1 13½@1 13⅝, to $1 14¼, $1 13½, to $1 14⅛, to $1 13⅝, to $1 15½, to $1 14¾, to $1 15⅝, to $1 15⅛, to $1 15¾, to $1 15⅛, to $1 15¼@1 15⅜, and closed at $1 15¼@1 15⅜.

CORN—A fair trade, with the tone rather unsettled, the close being ½@⅝c to ⅞c higher than yesterday. The opening was easy with Wheat, there being scattered commission house selling, part of which was credited to the country. Local professionals were the principal buyers at the decline and situation later turned strong. Map was a wet one and showery, much cooler conditions were indicated, and indirectly helped to sustain values. A low estimate by a crop expert also tended to strengthen the market the last half of the session. Liverpool was unchanged on spot and futures ⅛d better. Cargoes on ocean passage quoted firm with holders asking 3d advance. Liverpool was steadied by the better spot demand and strength in LaPlata cargoes. Receipts were only 218 cars; last year 500 cars and but 204 cars estimated for Monday. Local weekly receipts were 2,661,000 bu and shipments 3,313,000 bu. Primary receipts this week were 3,727,000 bu, against 5,378,000 bu last week and 4,485,000 bu one year ago. Withdrawals here 459,000 bu and exports 4,400 bu. Shipping demand fair and charters 300,000 bu. Local arrivals were 309,000 bu shipments 227,000 bu. Car lots in fair demand and moderate supply. Prices were ½@1c higher. No. 2 sold at 52½c and closed at 52¾c. No. 2 Yellow sold at 54½c and closed at 51¾c. No 3 sold at 53c and closed at 52½c. No. 3 Yellow sold at 54@54¼c and closed at 51½c. No. 4 sold at 51@53½c, outside for yellow.

Corn by sample—Was in better demand and prices ½@1c higher. Offerings rather light. Sales on track and free on board: No. 4 sold at 50@54c. No. 3 at 51¾@53c. No. 3 Yellow at 54c. No. 2 Yellow at 54½c. No. 3 White at 51½@52¼c. No. 2 White at 53¼c. Billed through: No. 4 at 49½@52¾c. No 3 at 50¼@51¼c. No. 3 Yellow at 53@53½c. No. 2 at 51½c. No 2 Yellow at 53c. No. 3 White at 51½c.

Future Deliveries of No. 2 Corn—Active and weaker early, but rallied sharply and closed ½@⅝c to ⅞c higher.

SEPTEMBER—Sold at 51¾@52¾c. Opened at 52c to 52⅛c, and sold at 52¼c, to 51¾c, sold up steadily to 52¾c, and closed at 52¾c.

DECEMBER—Sold at 49⅞@50c and 51¼c. Opened at 49⅞@50c to 50c, and sold at 50⅜@50½c, to 50c, to 50⅜c, to 50⅝c, up to 51¼c, to 51⅛c, to 51⅛@51¼c, and closed at 51⅛@51¼c.

MAY—Sold at 48¾@49⅞c. Opened at 49c to 48⅞c, and sold at 49¼c, to 48¾c, to 49¼c, to 49c, to 49½c, to 49¼c, to 49⅞c, to 59⅝c, to 49¾c, and closed at 49¾c bid.

OATS—Were stronger and ⅜@¼c higher at the close, although weaker and ¼@⅜c lower early. An advance of ⅜c to ¾c followed the break. It was due to sympathy with other Grains and to buying to take off hedges by cash houses. This suggested a cash business. Sales for shipment were 100,000 bu, with charter made for it. Arrivals in the Northwest are letting up. Receipts here were 142 cars, with 129 cars expected Monday. Withdrawals were 111,200 bu. Seaboard clearances 20,000 bu. Car lots to go to store advanced ½c. No. 4 White sold at 30¼c. Standard at 31½c. Standard in store closed at 30¼c.

Oats by sample were in better request, with offerings not large and prices ½c higher. Sales on track and free on board: No. 4 White at 29@31½c. No. 3 at 30@31½c. No 3 White at 30½@32c. Standard at 31@32¾c. No. 2 at 31c. No. 2 White at 32¼@32¾c. Billed through: No Grade at 29½c. No. 4 White at 30c. No. 3 White at 31c. Standard at 31@31¾c. No. 2 White at 31½@32c. At the river: No 4 White at 28@29c. No. 3 White at 28¾@30c. Standard at 30@30¼c.

Future Deliveries of Contract Oats—Were lower early and higher later.

SEPTEMBER—Sold at 29⅞@30⅛c. Opened at 29½c, sold to 29⅞c, to 30⅛c at close.

DECEMBER—Sold at 30½c and at 31⅛@31¼c. Opened at 30⅞c to 31c, sold to 30½c, to 31⅛@31¼c, to 31⅛c at close.

MAY Active. Sold at 33@33⅝c. Opened at 33¼c to 33½c; sold to 33c, to 33⅝c, to 33½c at close.

RYE—The feeling was firm, and prices ½c higher for future delivery and unchanged for cash. Demand fair and offerings moderate. Only six cars received and five cars withdrawn from private warehouses. No. 2 in store nominally 75c and fresh arrivals free on board sold at 77c. No. 4 sold at 73c.

Future Deliveries of No. 2 Rye—Firm and ½c higher. September 75c asked. December sold at 76@76½c and closed at 76½c. May nominally 78½c.

BARLEY—There was a good supply, it was a short session, and there was the pressure to sell customary for Saturday. The late buyers were present. Some bid lower prices and got less than they have been getting; others got filled up and withdrew while cars were being still offered them. It was a very weak market, and the ordinary grades settled more to inside prices. Buyers would not make so much difference in bids as difference in quality would sometimes seem to merit. Really fancy Barley not offered. The range of prices over which sales were made was not materially different than that of yesterday. Malting, stained, thin, better weight, or better color but dirty, sold at 39@41c; good at 42@46c; choice cars at 47@50c, little at the top, and fancy said to be about 51@53c. Below malting, feed Barley in light demand at 36@37c and sparingly offered. Screenings nominally 30@37c. Posted receipts 86 cars.

SEEDS—Hardly so much was done in Timothy as for a few days past, and other lines very quiet. No price changes especially noted, except in the case of Clover, which was nominally higher.

Timothy—The speculative market was dull and quiet. March delivery sold 5c below yesterday's asking price and there were sellers. This was about the only change. A fair quantity of cash Seed appeared of irregular quality. Sales were over the late range of prices. No change especially noted. No competition in demand. Few buyers present, still the Seed was taken. September offered at $2 75, October at $2 75 and $2 70 bid. January offered at $2 85. March sold at $2 90 and offered at that. Country lots quoted at $2 35@2 45 for fair to good, high grade Seed sold at $2 50@2 55, choice to fancy nominally $2 60@2 75, poor trashy Seed quotably down to $1 85@2 25.

Flax—There was no change in prices. Nothing was done aside from the sale of a few cars of Northwestern; nothing else offered. Six cars or 5,400 bu received and 4 cars or 3,575 bu taken out. At Minneapolis 67 cars were received, at Duluth 41 cars. No 1 Northern or No. 1 from the Northwest sold at $1 16½ and for No. 1 $1 09 again bid. Rejected nominal, depending on quality, at $1 06@1 14. September delivery was nominally $1 09 and December nominal at $1 11.

Clover—Was quotably about 40c higher. It was attributed to showery weather in the Clover sections, possibly retarding movement. October delivery quoted at $12 25. Contract spot Seed at the same. Country lots, common to choice, $9 00@12 00; fancy above. Fair to good, $10 25@11 50.

HOG PRODUCTS—Trading was on a moderate scale, and the undertone to the market was rather firm. Offerings were somewhat limited, and the demand was fair. Outside orders were moderate, and local trading only fair. Prices ruled slightly higher on all the leading articles, and fairly well supported to the close. Hogs were in moderate supply and steady. Fair supply anticipated for the coming week. Receipts at the leading Western packing points were estimated at 23,300 compared with 24,300 one year ago. Foreign market were steady and Lard reported 3d higher. Domestic markets firm. Receipts of Products were good—of Lard and Meats about 31 cars. Shipments were liberal of Lard and Meats about 180 cars. Shipping demand good, with fair offerings. Sales rather liberal, and prices steady.

Mess Pork—Trade was only fair in Mess Pork, with January delivery in most favor. Offerings were moderate, and the demand was only fair. Prices ruled 7½@10c higher, and the market closed steady at the advance. Shipping demand was fair and offerings were not very large. Cash lots quotable at $11 55@11 60.

SEPTEMBER—Quiet. Sold sparingly at $11 52½, and closed nominally at $11 55.

OCTOBER—Demand light, and offerings were moderate. Sales were made at $11 40@11 45. Opened at $11 40 sold to $11 45, and closed steady.

JANUARY—In fair request with moderate offerings. Sales were made at $13 17½@13 25. Opened at $13 20, sold to $13 17½, to $13 22½, to $13 20, to $13 25, to $13 22½, to $13 25, and closed steady.

MAY—Quiet with small sales at $13 35.

Lard—Only a moderate business was reported in the Lard market. Offerings were not very large, and the demand was fairly active. Foreign advices more favorable to holders. Prices averaged 5@7½c higher, and the market closed steady around outside figures. Demand on shipping account was fair, with moderate offerings. Cash lots quotable at full October figures to 2½c premium, closing at $7 22½. Loose lots in good request with very small offerings. Prices quotable at about October figures. Leaf Lard was in light demand, with rather small offerings. Quotably steady at about $7 50 for very small lots. Neutral in light demand, with moderate offerings. Prices quotably steady at $8 62½@8 75 for No. 1, and $8 00@8 12½ for No. 2.

SEPTEMBER—Quiet and quotable at the close at $7 22½.

OCTOBER—Called for moderately, and offerings were somewhat limited. Sales were made at $7 17½@7 22½. Opened at $7 17½, sold to $7 22½, and closed steady.

NOVEMBER—Sold sparingly at $7 25.

JANUARY—Offerings were moderate and the demand was fair. Sales were made at $7 30@7 37½. Opened at $7 32½, sold to $7 30, to $7 35, to $7 32½, to $7 37½, and closed steady.

MAY—Quiet with small sales at $7 45@7 47½.

Short Rib Sides—Trade was fair in the market for Short Rib Sides, and the feeling was firmer. Offerings were not very large, and the demand was fair. Prices ruled 2½@5c higher, and the market closed steady around outside figures. Shipping demand was fair, and offerings were light. Cash lots quotable at $7 62½@7 75 according to weight.

SEPTEMBER—Quiet and quotable at $7 57½.

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, September 23, 1904

The money market has a stiffer undertone and the tendency is toward better rates, especially on commercial paper, which brings 4½ to 5 per cent. The supply is not equal to the demand, and all the good paper is readily absorbed. Calls for money in general are enlarging, and 4½ per cent is the minimum rate, while many loans are made at 5 per cent. There is an unusual condition in regard to the country banks. Some are large buyers of commercial paper here and are carrying deposits in Chicago far above the average for this season. Currency is coming in from sections of the country and the volume is nearly equal to shipments to others. There is a large Grain movement, but in the Southwest it is rather diminishing, while in the Northwest it is increasing. In the Northwest one bushel of Wheat at $1 00 a bushel brings as much to a farmer as two bushels at 50c. This is a significant condition which is gradually dawning upon producers and a larger amount of money is required to move the crop. In New York the interest rates were bid up to 2 per cent on the Stock Exchange. The market has a hardening tendency and time loans were at 3 to 4½ per cent, with most of the loans at 3 to 3½ per cent, the latter for 90 days.

New York exchange was steady at 10@20c discount per $1,000 and closed at 20c.

Foreign exchange was easier. Increased supplies of Cotton bills were a factor. Shippers 60 day documentary sterling bills on London ranged at 482½ to 483.

Local Securities were more actively traded in with a higher range on the leading shares handled. The feature was the activity and advance in Car shares, common being the most attractive. This was due to a report that the company is to be reorganized. The common and preferred stock is to be retired and one kind of stock issued. The basis for the stock is to be one and a half shares of the present preferred for one of the new and ten shares of common for one of the new stock. It is said that the new stock will start with dividends of 6 per cent. There is $5,466,000 stock now outstanding, divided equally between common and preferred. The new issue would be $31,612,196. On the present values of the stock of 46 for preferred the new would be worth 69 and make the common 7. Biscuit had a fair advance, and other Industrials and Cables were irregular within a moderate range. Elevated shares were higher. Bonds were in active request and firmer.

Stocks in New York were heavily traded in, although the volume was somewhat curtailed as compared with the previous week. The feature was the crop reports from the West on Corn, which had a depressing effect when Grains advanced, and at others, when declines were on, stocks advanced. There was heavy trading in Union Pacific and Southern Pacific and rumors of dissensions among the directors, and that the Standard Oil party were buying to get control. Although there was a denial of the reports there was activity and advances in the shares. In the general market there was not a great deal that was new. The strong interests gave support to their favorites when they needed it, and "shorts" who made several drives at the list were successful in forcing prices off, but they rallied quickly on their covering. A hardening of interest rates was rather against a "bull" movement, banks advancing their rates, and 2 per cent ruled a good part of the time. The advances of late have to a considerable extent discounted a large part of the improvement in business that has come of late. The average of shares was materially lower than the previous weeks and closing sales showed moderate losses. Total sales on the New York Stock Exchange for the week were 3,678,000 shares, against 6,102,000 shares the previous week and 3,229,030 shares for the same time last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

Cotton in New York was active and averaged higher. Foreign advices were mainly favorable, and crop reports mostly unfavorable. The latter had a "bullish" effect. The movement is heavy and in excess of last year. The "bull" interests are aggressive and there is a large open speculative interest in the market which creates wide fluctuations. Closing prices were at gains of 34@44 points for the week.

A more cheerful tone pervades mercantile and manufacturing interests. Business is gradually picking up in all lines, and confidence is returning. There is an absence of speculative buying on the part of interior merchants which is a good feature. Orders for dry goods, clothing, shoes, leather and all other lines have enlarged materially of late, and the movement to the interior is giving the railroads a larger traffic. Buying of Steel and Iron of all kinds is enlarging, particularly in structural shapes. There were good orders for Steel rails, and some for plates. The billet pool reduced prices $3 50, making the rate $19 50 at Pittsburg. This was in line with what the trade expected. Prices on Steel bars declined $1 00 a ton. Sales of light and heavy hardware were enlarged. For pig iron inquiries were increased, with sales of 50,000 tons and prices firmer. Lumber and building materials are having a better sale and there is a decided steadiness in values. Groceries, paints and colors were distributed to a larger extent. Collections were generally good.

COMMERCIAL.

Quite a good business was transacted in commercial circles on the Chicago Board of Trade the past week. While the volume of the trade was hardly equal to that reported one month ago, the leading markets were active and a very satisfactory business was recorded. The principal speculative markets were sensitive and nervous and subject to frequent changes, affording numerous opportunities for quick action. Values were governed to a considerable extent by climatic conditions, though the movement of the various Grains, foreign conditions, and probable supplies were important factors. The Provision list attracted greater outside interest, and the trade is broadening. There is every indication that the leading speculative commodities will attract increased local attention during the fall months, notwithstanding the fact that this is a presidential year.

Weather conditions abroad were favorable for fall work the past week. Seeding is progressing favorably in Roumania and beneficial rains occurred in Hungary. Conditions were reported satisfactory in Bulgaria and the Wheat crop was officially reported 52,000,000 bu, or only 6,000,000 bu short of last year. Grain stocks in Russia generally reported large. The weather in France and the United Kingdom was favorable for fall work, but short yields continue to be reported. There was also talk of French Government reducing the import duty on Wheat. The Potato crop in Germany was reported short, but supplies of native Grain large. Crop reports from India and Argentine were favorable, sufficient rain having fallen in the first-named country to insure good results.

Weather and crop conditions in the United States and Canada were not altogether favorable during the past week. Temperatures were too low through the Corn belt, frost being reported in the Northwest and in Iowa, Kansas and Nebraska the first of the week, but later on conditions became much more favorable. The damage to late Corn, however, was in no way extensive. Cutting is general in all sections. Late Corn is maturing rapidly in the western sections, but slowly in the eastern and central districts. Some damage was reported in the low lands in Wisconsin, Minnesota and Iowa. The spring harvest is practically finished and threshing well advanced, the yields in many instances turning out larger than expected. The grading, too, at the principal points of accumulation was more satisfactory than anticipated.

The movement of Grain from the farms and interior elevators was fairly liberal the past week. The increase in the Wheat movement was most noticeable in the Northwest, the recent high prices, no doubt, proving attractive to growers. The quality of the new Grain, too, was better than previously supposed, the inspection at the principal accumulating points making a very fair showing. Through the West and Southwest Wheat was marketed with moderate freedom, as also coarse Grains. In the Central West and Eastern States Grain movement was moderate. On the Pacific Coast marketings are steadily enlarging. The movement toward the seaboard was fair, coarse Grains going forward with considerable freedom. Exports of Flour and Wheat continue small, and moderate of Corn and Oats. The new business booked on the Atlantic Coast was light, but France was reported a buyer of Wheat cargoes at San Francisco. According to the official visible supply as compiled by the Secretary of the Chicago Board of Trade there was an increase in Wheat, Corn, Oats, Rye and Barley.

A good speculative business was transacted in the principal markets on 'Change the past week and the feeling was greatly unsettled, prices being very irregular. Wheat and Corn were sensitive and erratic, the price of the former being governed to a great extent by the movement and advices from the Spring Wheat belt, while the weather was the all-important factor in shaping the price of the latter commodity. Wheat values were inclined to a lower level at the start, liquidation being general, but local "bull" leaders gave the market good support at the decline, and later, the undertone was strong. Corn was exclusively a weather market and the close was lower than a week ago. Oats were easy. Statistics were "bearish," the available now being 26,000,000 bu, against 11,000,000 bu a year ago. Hog Products were more active and the undertone, all things considered, was very strong. Offerings moderate and demand more general, both for October and January deliveries. "Shorts" provided for a good portion of their outstanding contracts and prices were advanced. Receipts of Hogs were moderate and prices rather firm. Packing of the West for the week was reported at about the same as last year and for the season 11,050,000, against 11,170,000 last year, a decrease of 120,000 Hogs.

There was a fair trade in cash Grain the past week, though the volume was hardly as large as lately reported. Offerings of Wheat were moderate and demand fair, and confined chiefly to speculators. Corn was in good request the first of the week, but fell off somewhat toward the close. The call for Oats was not as brisk as noted a while back, still the current receipts sold fairly well. Rye was quiet. There was more doing in Barley and prices were easier. The trade in Seeds was limited, though Timothy attracted some attention. Hay was dull and lower. Offerings large. Hog Products were in fair request and offerings moderately large and quite firmly held. Sales were fair and prices well supported.

FREIGHTS—There are cars enough for the traffic which is growing larger. Rates are held firmly. The tariff is as follows:

To—	From Chicago. Domestic.	Export.	From Miss. River. Domestic.	Export.
Boston	19½	13½	22½	16
New York	17½	13½	19½	16
Philadelphia	15½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News	14½	11	16½	14½

Flour rates are to be 17½c domestic and 15c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 3c per bu on Wheat and Corn. There will be no advance until Oct. 1.

Ocean rates on Grain are firm, with a small demand for tonnage. Rates on Grain are 1d per bu from New York and 1d from Boston. Through rate on Wheat from Chicago to Liverpool is 6.27c per bu and Corn 6 15c. Flour 19c per 100 lbs and Provisions 35⅝c per 100 lbs.

Lake rates are easier, with a good demand for boats, at 1⅜c on Wheat and 1¼c on Corn to Buffalo.

FLOUR—The local market from the millers' standpoint is in a fairly satisfactory condition. Sales the past week were fair in the aggregate and prices while somewhat irregular did not fluctuate with those of Wheat, but on the contrary were well maintained. Most of the city mills are busy delivering out old business, booked at higher prices than now prevalent. The large consumers of Flour, such as biscuit and pie bakers, bought more freely as also did many jobbers, there being more confidence displayed in present values by buyers in general. Many had allowed their stocks to become depleted anticipating all the while that a break in Flour values was in order and as the same failed to materialize were forced to come into the market and pay the prices dictated by millers. Consignments from interior Northwest mills are light, as also spot offerings, the bulk of the local stock being held by the agents of the large Minneapolis mills. Southwestern millers are selling considerable Flour in the local market at full prices. There is as yet little doing in the way of export as bids are still prohibitive. Now and then a small lot is worked, but at very slight margins for the shipper. The production in the Northwest this week was reported 453,000 brls, as compared with 533,000 brls for the corresponding week in 1903. The week closed steady at the following prices:

MILLSTUFFS—A good demand has existed during the past week, and the feeling was quite firm. The offerings were moderate. Bran sold at $16 50@17 00 per ton in bulk and at $17 50@18 00 in sacks, sacks included.

WINTER WHEAT—The extreme prices of last week were not maintained, the market at times showing weakness, and prices suffered a decline of 3@4c, but ruled quite steady, with a full recovery from the inside point. A good business was transacted, but it was more speculative than during the preceding few weeks. Millers both local and outside have shown some indifference and did not buy at all freely; their purchases in fact have been of a very moderate character, and the reason for this evidently was that prices were not satisfactory to their notions. Speculators therefore secured the bulk of the offerings. Most of the Wheat was bought for the purpose of placing in storage and was sold against for future delivery. The inquiry centered in good to choice Wheat of the various grades, especially choice, while the poor Wheat ruled very dull and was not particularly wanted by anyone. The stock of No. 2 Red in store was 321,000 bu, against 356,000 bu the previous week, and the stock of all grades is 2,000,000 bu, against 1.740,000 bu the previous week, and 2,998,000 bu a year ago. For the week the receipts were 448 cars, against 622 cars the previous week. There were withdrawn from public elevators 84,950 bu, and from private warehouses 146 cars and 101,000 bu. No 2 Red in store ranged at $1 11¼@1 14½, and declined to $1 10@1 12¾, and rallied to $1 11¾@1 11½, and fresh arrivals free on board ranged at $1 12@1 16. No. 3 Red fresh arrivals free on board sold at $1 05@1 14½, and at the river at $1 00. No. 4 Red fresh arrivals free on board sold at 85@95c for poor to fair, and at $1 04@1 10½ for good to choice, with a sale at the river at $1 00½. No Grade Red fresh arrivals free on board sold at 95c@$1 03. No. 2 Hard fresh arrivals free on board sold at $1 08@1 13½, and a sale billed through at $1 11. No. 3 Hard fresh receipts free on board sold at $1 03½@1 09, and at the river at $1 03@1 08. No. 4 Hard fresh arrivals free on board sold at 90c@$1 02, and at the river at 94½c@$1 00½. No Grade Hard sold at 52c for very poor, and a sale at the river at 91c.

SPRING WHEAT—There was only a light business transacted during the past week, and the reason for this was the small arrivals. The receipts have increased only slightly, and movement has been slow. A good demand has existed, and choice Wheat was taken up readily and brought good premiums. Poor Wheat, of which occasional cars were received, was very dull. Millers wanted the choice Spring Wheat, especially the hard variety. The receipts for the week were 130 cars, against 67 cars the previous week. There were withdrawn from public elevators 22,125 bu, and from private warehouses 28 cars. No 1 Northern fresh arrivals free on board quotably $1 18@1 20. No. 2 Northern nominally $1 16@1 18. No. 3 Spring fresh receipts free on board ranged at $1 05@1 17 for ordinary to choice. No 4 Spring fresh receipts free on board sold at 75@88c for poor, at 95c@$1 01 for fair, at $1 03@1 10½ for good, and at $1 13@1 16 for fancy hard variety.

REGULAR WHEAT—A good trade, the market being broad and erratic most of the week, price changes covering 5@6½c range. Sentiment was "bearish" and lower prices ruled early, followed by a stronger tone later, the close showing December ⅝c higher and May off ⅛c compared with the final figures of last Friday. The weaker feeling the opening days was attributable chiefly to the increased movement in the Northwest, better grading than expected, and indifferent shipping demand in that section. Market had indifferent support and before the decline was checked December touched $1 07½ and the May $1 09½. Prominent local warehouse interests were arrayed on the selling side of the market on a larger scale and situation for a time was quite weak. Around the above figures, however, the demand improved and on buying led by local professionals and "shorts" the situation turned stronger. Cables failed to follow the declines established on this side, and the weather in the Northwest and in Manitoba where threshing is under way turned unfavorable and was partially responsible for bringing about the change in sentiment. France was reported a buyer of cargoes off the English Coast and San Francisco reported several cargoes sold to go to the same destination. The Continent was credited with purchases of futures at the seaboard, all of which indicated that the French crop was short. There were also rumors that the French Government contemplated reducing the import duty. December rallied to $1 14 and the May to $1 14½. The advancing tendency was checked in a measure by the favorable threshing reports from the Northwest, yields in many instances turning out better than expected. The Government weekly crop bulletin claimed harvesting was practically completed in the northern portion of North Dakota and threshing is well advanced in Minnesota and South Dakota, about half done in Washington and nearing completion in Nebraska, but delayed by rain in Eastern North Dakota. Primary receipts were again liberal this week and total between June 27 and September 19 aggregates 51,076,000 bu, as compared with 48,175,000 bu in 1903 and 73,083,000 bu in 1902. Exports continue small, 834,000 bu going forward this week, making 17,015,000 bu since July 1, as compared with 36,282,000 bu same period in 1903. World's shipments last week larger than expected, 11,392,000 bu, against 10,432,000 bu the week previous and 10,096,000 bu one year ago. The quantity on ocean passage decreased 1,696,000 bu and is now 39,152,000 bu, against 39,620,000 bu same time one year ago. The visible increased 895,000 bu, against 1,751,000 bu increase same week in 1903. The total is now 14,010,000 bu, against 15,927,000 bu in 1903 and 22,523,000 bu in 1902. Local public stocks increased 257,000 bu and are now 2,048,000 bu, compared with 2,999,000 bu in 1903. Stocks here in all positions reported 4,407,000 bu, an increase of 326,000 bu last week, against 6,881,000 bu one year ago. Contract stocks decreased 37,621 bu and are now 326,228 bu, against 2,505,412 bu in 1903. *Bradstreet's* available supply increased 301,000 bu, against 4,779,000 bu increase same week last year. *Broomhall's* weekly foreign crop summary said: "United Kingdom and France—The weather is very favorable for fall work, but short yields continue to be reported. Germany—Weather favorable, but further rains needed for navigation in the interior; fears of a short Potato crop have been confirmed; supplies of native Grain large. Roumania—Fall seeding is progressing; supplies of Grain are decreasing. Hungary—Favorable rains for fall seeding have occurred. Bulgaria—Conditions favorable for seeding; the Wheat crop is officially estimated at 52,000,000 bu, against 58,000,000 bu in 1903. Sweden—Wheat and Rye crops have been harvested, but were partly damaged by too much rain. Russia—The Southwest is suffering from drouth; supplies of Grain generally large. India—Sufficient rain has fallen. Argentina—Crop reports continue favorable." Argentine shipments were smaller at 514,000 bu, the total since January 1 aggregating 81,317,000 bu, against 58,316,000 bu for the same period last year. The visible supply there is now reported 2,800,000 bu, against 2,904,000 bu one week ago and 1,472,000 bu one year ago. The Duluth *Commercial Record* estimates the crop in the three Northwestern States at 156,000,000 bu.

CORN—A good trade was witnessed under this head the past week, the market ruling nervous and sensitive, with fluctuations at times a little on the violent order. Sentiment was decidedly mixed, but the close shows the December ¼@⅜c lower and the May ⅞@1c lower than the resting prices of last Friday. The weather was again the chief dominating influence and the temperatures through the Corn belt were watched closely from day to day. The tone at the start was decidedly firm with the trade heavy. Frosts were reported through important growing sections of the West and private crop reports, as well as the views of a prominent railroad official on the outlook, were construed as "bullish." Under an active miscellaneous demand and moderate speculative offerings December advanced to 52⅜c and the May to 51¼c. Private estimates on the Corn crop showed reductions of about 300,000,000 bu to 400,000,000 bu from the figures suggested by the Government report. One report placed the Missouri, Kansas and Nebraska crop at 418,000,000 bu, as against 545,000,000 bu last year, and claimed Iowa, Illinois and Indiana would also fall under a year ago. The Eastern States showed a loss of 4,000,000 bu and the Southern States a loss of 68,000,000 bu from last year. The figures were based on an average yield of 15 bu in Missouri, 17 bu in Kansas and 27 bu in Nebraska, and the total crop was estimated to be not over 2,000,000,000 bu, with a large percentage soft. Another compilation showed the seven States of the Mississippi Valley and the Southwest were expected to produce 254,000,000 bu less than last year. Kansas and Missouri have 170,000,000 bu less Corn, and Nebraska is the only important Corn State that exceeds the production of last year, the increase being about 28,000,000 bu. Iowa runs well up to last year, but it will be about 15,000,000 bu under without further frost damage. The best yields will be in eastern and southwestern counties. Missouri will raise less than 90,000,000 bu of Corn, as there is a large abandoned acreage south of the Missouri River and considerable north of it. Kansas has less than a 10-bu average in the district south of Emporia to the State line and from the Missouri line to Wichita. There is considerable good Corn in the north and northwest counties, but in our judgment cannot run above 115,000,000 bu, with a larger proportion than usual unmerchantable. The following table exhibits the estimated Corn crop of the United States on the September condition of the Department of Agriculture in the past five years, compared with the final report in December:

Year.	September, bu.	December, bu.
1899	2,031,000,000	2,078,000,000
1900	1,988,000,000	2,105,000,000
1901	1,201,000,000	1,523,000,000
1902	2,400,000,000	2,524,000,000
1903	2,125,000,000	2,244,000,000
1904	2,316,000,000	.. ..

Around 52⅜c for December and 51¼c for May there was quite general profit taking and realizing which resulted in a sharp reaction the former touching 49¼c and the latter 48⅛c. Houses supposed to represent large Eastern "longs" were conspicuous on the selling side on the advance. At the declines established in prices "shorts" took hold quite freely and investment buying became more general and market assumed a stronger undertone. Foreign markets ruled firm in face of the weakness on this side and the demand for the cash outside showed a marked improved. December rallied to 50⅜c and May 49¼c. The Government weekly crop bulletin claimed that late Corn was maturing rapidly in Western portion of the belt, but crop is ripening slowly in the Eastern and Central sections and needs ten to twenty days of favorable condition to be safe from frost. While damaging frosts occurred in portions of the Upper Mississippi Valley and a considerable portion of the crop was damaged in Wisconsin, and some on low lands in parts of Minnesota and Iowa, the aggregate frost damage in the last-named States was not serious. Cutting was reported general in all sections. The *Price Current* reported 90 per cent of the crop past danger of frost and a crop of 2,300,000,000 bu or more assured. "Reports indicate that more than half the Iowa Corn crop is now fairly well matured," says J. R. Sage in the Iowa crop bulletin, "and that ten days of favorable weather will assure the safety of the larger portion of the area planted. In the most hopeful estimates due allowance has been made for somewhat more than the average percentage of soft or unmerchantable Corn. Considerable progress has been made in cutting and shocking the most advanced fields." World's shipments were smaller, 3,412,000 bu, against 4,188,000 bu last week and 5,220,000 bu one year ago. The quantity on ocean passage increased 1,154,000 bu and is now 21,170,000 bu, against 21,644,000 bu last year. The visible increased 896,000 bu, against 982,000 bu increase last year. Total [illegible] 000 bu, against 7,807,000 bu in 1903 and 2,431,[illegible] in 1902. Local public stocks increased [illegible] bu, and are now 1,543,000 bu, against 2,92[illegible] one year ago. Stocks here in all positions [illegible] 000 bu, increased 1,123,000 bu. Stock one year [illegible] 5,729,000 bu. Contract stocks increased 206,0[illegible] to 1,517,943 bu, against 2,799,365 bu one year [illegible] *Bradstreet's* increased 1,862,000 bu, against 1,[illegible] bu increase one year ago. Receipts the past [illegible] fair at 2,513 cars, against 3,892 cars last week [illegible] 3,281 cars a year ago. Withdrawls from [illegible] were heavy and the lake rate firm on a basis of [illegible] to Buffalo. Exports were moderate this [illegible] 657,000 bu making 6,782,000 bu since July 1, again[illegible] 11,593,000 bu for the same period in 1903. B[illegible] at seaboard were larger. The movement thr[illegible] the West was fair this week, and consider[illegible] new No. 3 and No. 3 Yellow sold to arrive in De[illegible] cember on a basis of 5@5½c under December [illegible] the former and 4@4½c under for the latter. Ar[illegible] gentine shipments were again liberal at [illegible] bu making 60,511,000 bu since January 1 again[illegible] 53,417,000 bu one year ago. The visible the[illegible] now reported at 4,882,000 bu, against 4,234,0[illegible] last week, and 3,914,000 bu one year ago.

OATS—Sold to a lower level than at any ti[illegible] this season. The main interest was in May [illegible] had support at 35c, but buyers were eventu[illegible] filled up and made another stand at 34½c, [illegible] even the resting orders at this figure were sa[illegible] fied in a short time and the price broke to [illegible] At the close sales were at 33¼@33⅜c, with a [illegible] loss for the week of 2c. September clo[illegible] 30⅛c, a loss of 1½c, and the December fin[illegible] at 30⅞c, or 2c more than the previous we[illegible] Increasing stocks was the depressing influe[illegible] *Bradstreet's* world's available supply incr[illegible] 3,336,000 bu, compared with a decrease of [illegible] last year. The supply is 25,482,000 bu, or 15,[illegible] bu more than last year. Of the available sup[illegible] 9,886,000 bu are at Chicago. Contract stocks [illegible] are 2,649,000 bu, an increase of 742,000 bu for the week. In the visible supply the increase [illegible] 3,347,000 bu and supplies are 15,181,000 bu, compar[illegible] with 6,937,000 bu last year, and are nearly up [illegible] high record which was in October, 1897. A[illegible] time in the interim have supplies been as large [illegible] at present. Receipts in the Northwest were larg[illegible] and at Chicago fair, aggregating 1,014 cars [illegible] compared with 933 cars the previous week and [illegible] cars last year. Cash business was moderate, [illegible] sample lots averaged lower. Export clearances were 122,404 bu against 86,678 bu the previous week, and 121,800 bu last year.

RYE—The market has been steady during the past week and ended up rather firm. Trade has been only moderate. Fresh receipts met with a good demand and were taken mostly by manufa[illegible] turing industries—millers and distillers tak[illegible] several cars. The speculative buying has been light. The receipts have been smaller and the quality good, most of the arrivals grading No. [illegible] although some cars graded as low as No Grade. The market has been influenced more or less by the action of Wheat. The receipts for the week aggregated 43 cars, against 40 cars the previous week. There were withdrawn from public elevators none and from private warehouses [illegible] cars. The visible supply increased 94,000 bu and was reported at 1,288,000 bu, against 759,000 [illegible] year ago. Local stock in store was 662,000 bu [illegible] a year ago was 352,000 bu. No. 2 in store was nominally 73@74c, and fresh arrivals free on board sold at 71½@77c. No 3 fresh receipts free on board sold at 70@74c, No. 4 at 69@74c, and No Grade at [illegible]@71c. For future deliveries of No. 2 the market ruled quiet. September was nominally 73@7[illegible] early, and sold at 71½c at the close. December sold at 75c and at 76c. May nominally 78@79c.

BARLEY—Was weak and heavy, especially for low grades. Prices were 2@3c lower, the greatest losses being on feed and low grade malting. For choice to fancy Barley the market ruled just about steady, for of these grades there was only a sm[illegible] supply. Low grades were usually slow and [illegible] ers were indifferent, owing to liberal offerings. There was not much competition between buyers and there were times during the week when some of the maltsters were not on the market. There was at all times enough spot Barley on hand to supply the current demand, consequently there was nothing done in to-arrive lots. Local st[illegible] increased 1,014,000 bu, and given as 2,193,0[illegible] compared with 1,179,000 bu a week ago, and [illegible] 000 bu a year ago. Exports from New York [illegible] ing the week aggregated 49,542 bu. Receipts [illegible] the week were 521 cars, compared with 3[illegible] cars a week ago and 260 cars two weeks ago. There was no output from regular houses, compared with 2,300 bu last week and 1,000 bu two weeks ago. Prices for the week were quotable over a range as follows: Screenings at 31@40c; final prices were about 31@38c, outside being for very choice. Poor thin, badly stained or dirty, feed Barley, quotably 34@38c. Low grade malting, dirty, small berry, poor color, 39@44c early to 38@41c later. Fair to good color, depending on weight and other conditions, ranged at 44@48c early to 42@47c later. Higher grade, or choice ranged at 48@50c. Fancy sold sparingly at 52@53c.

SEEDS—The past week witnessed a start in Timothy, due to free arrivals and good deliveries and a run away Flax market, though in this line hardly anything was done. Timothy was the active spot, everywhere else extreme quietness prevailed. Clover was quoted as firm and a shade higher, while for late sowing Seeds no prices as yet have been established.

Flax—The feature to the market was a br[illegible] of 7@9c in prices at the middle of the week. Previous to that the market ruled quiet and steady, and following the break it became steady. That prices should suddenly recede so much was due to only one cause, so near as could be observed, and that was a slump in Northwestern markets. The market retained those features of quietness and disinterestedness prevalent for so long a time. Arrivals fell below the average of the last few weeks. There were scarcely any offerings, either of cash or future delivery, and the market was devoid in a like degree of demand. A few car sales and an occasional small lot for future delivery was all the Flax that was traded in. Receipts during the week reported as 28 cars, compared with 45 cars and 112,080 bu by lake a week ago and 40 cars two weeks ago. Output of 29,498 bu reported; the previous week 7,503 bu were taken out and two weeks ago 21,180 bu. Local stock showed no change in the last report, remaining at 10[illegible] bu; a year ago it was 126,008 bu. Duluth reports 4,108,040 bu on hand, a decrease of 76,357 bu. Minneapolis stock showed 31,800 bu increase, making 58,000 bu. No. 1 cash was nominal, with the early quotation at $1 16, and later a break to $1 09; closed at $1 09. A small quantity of No. 1 Northwestern or No. 1 from the Northwest was sold; quotations were at $1 24½ early to $1 15½ later; closed at $1 1[illegible] Rejected was not offered. For this grade there was a nominal range early of $1 12@1 22, depending on quality, and of $1 06@1 14 after the decline. September delivery was $1 16 early, and declined to $1 09. December was held early at $1 20, and nominal finally at $1 11.

Timothy—The past week witnessed a liberal run of consignments. There were free offerings of cash Seed, and deliveries on September contracts started out quite active. There was enough to the market to keep up considerable of an interest. The influence of free offerings and good deliveries was to create an easy feeling; nothing was more

...eral Prices gave way to the extent of 5@10c in the cash market, while for future deliveries 10@ ... decline is shown. This was not so much of a depreciation in view of the increased offerings. ... it was made moderate perhaps on account of prices being already comparatively low. Good country lots were about 50c per 100 lbs lower than prices current a year ago, and contract spot Seed got to a point $1 00 per 100 lbs less than then. Arrivals exceeded those of last year considerably, and they were very much larger than the shipments. The latter did not come up to the figures of a year ago. Quality of the Seed did not run uniform. On some days the supply would show a much better average quality than on other days. Even with prices sometimes lower the sales at such a time might not look so because the Seed was better. About 20 cars of prime were delivered on September sales, and the passing around of these from one to another settled a good many outstanding trades. September delivery opened at $2 ..., declined to $2 75 sales and sellers. October was nominal at $2 80 early to $2 75 later. January ranged at $2 95 to $2 85, and a little was sold. March declined from $3 02½ to $2 95. Country lots, ... grade to fancy, were quoted at $2 00@2 80 to $2 75, fair to good declined from $2 40@2 50 to $2 ..@2 45. Bulk of trading was $2 35@2 60 for only fair to choice Seed, a high grade having sold frequently at $2 50@2 55.

Receipts and shipments were as follows:

Receipts the past week, lbs	5,047,862
A week ago	3,026,969
Two weeks ago	2,819,939
Corresponding week last year	2,652,456
Shipments the past week, lbs	1,483,970
A week ago	1,824,350
Two weeks ago	1,497,205
Corresponding week last year	2,312,185

Clover—There was more Clover received, though it did not show on the open market. Arrivals were larger than corresponding time last year. Quality so far coming has been very good. As to what the quantity will be no one was very decided. Early in the week the country was offering fairly to arrive. Later there was showery weather and this made a firmer feeling, with 25@ ... advance. It was due to a prospect for threshing being delayed. Output remained small, much smaller than a year ago. Contract grade spot and October delivery were quoted early at $11 50@11 60 and later at $11 85. Common to choice country lots ..@10 50 to $9 00@10 85. Fair to good was given a range of $10 00@11 00. Movement of Clover was as follows:

Receipts—The past week, lbs	164,357
A week ago	370,265
Two weeks ago	67,545
Corresponding week last year	114,397
Shipments—The past week, lbs	58,807
A week ago	76,187
Two weeks ago	14,895
Corresponding week last year	223,640

Other Seeds—Nothing has been seen of lines under this head aside from some small samples of rubbed-out Millet. No prices can be given. There probably will be no regular quotations until threshing has proceeded far enough so that actual movement will get started. Movement during the week was as follows:

Receipts the past week, lbs	440,640
A week ago	159,620
Two weeks ago	71,320
Same time last year	674,941
Shipments the past week, lbs	1,078,875
A week ago	2,253,669
Two weeks ago	2,691,841
Same time last year	167,730

HAY—The receipts for the week were 5,332 tons, against 4,137 tons for the previous week. Shipments for the week were 252 tons, against 210 tons for the previous week. A dull and dragging market was experienced for both Timothy and Prairie Hay during the past week. The arrivals of all kinds were large, more especially of the low grades, and the local demand was light. Buyers were taking hold sparingly, merely supplying necessary wants, and holding off for concessions, which receivers were compelled to grant. Prices declined about $1 00 per ton, and the market closed very dull at the reduction. Some consignments carried over. Quotations at the close ranged as follows: Choice Timothy, $12 00@12 50; No 1 Timothy, $10 50@11 50; No. 2 Timothy, $9 50@9 50; No 3 Timothy, $8 00@8 50. Choice Prairie, $10 00@ ..50; No. 1 Prairie, $9 00@9 50; No. 2 Prairie, $8 00@8 50; No. 3 Prairie, $7 00@7 50; No. 4 Prairie, $5 00@6 00. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $7 00@12 50 for poor to choice Timothy, $5 50@6 50 for Threshed Timothy, $6 00@7 50 for State, and $9 00@10 50 for Kansas Prairie Hay. Rye Straw sold at $7 00@9 00, and Oat Straw at $5 00.

COOPERAGE—Business in Cooperage is still limited, with no marked changes to note. Local packers not inclined to purchase to any extent, and outside orders were limited. Offerings were fair, but generally held steadily. Ash Pork Barrels were in small demand and prices ruled steady at 97½c@$1 00. Oak Pork Barrels were quiet and slow sale at $1 07½@1 10. Lard Tierces were in fair supply and the demand was light. Prices quotably steady at $1 25@1 27½. Iron bound Lard Tierces were quiet and steady at $1 17½@1 20 for six hoop and $1 25@1 27½ for eight hoop. Oleo Tierces quiet and prices unchanged at $1 27½@1 30.

HOGS—The receipts of Hogs were not very large during the past week, and the quality was quite good. Supply was somewhat disappointing, as packers and shippers imagined that the settlement of the labor troubles at the Stock Yards and the packing houses would encourage interior shippers to forward their Hogs to market. Light averages in only moderate supply, and command a small premium over heavy. Market was rather active during the greater portion of the week, with considerable competition between buyers on the days when the supply was comparatively small. Prices were slowly advanced 25@30c on the whole range, but receded 5@10c toward the close, and ruled comparatively steady. Sales during the week were made at $5 60@6 32½ for light, $5 20@5 70 for rough packing, $5 50@6 32½ for mixed, and $5 4.@6 20 for heavy packing and shipping lots, with the bulk of the trading within the range of $5 60@6 20 for fair to good averages. At the close about 4,000 Hogs remained in the pens unsold. Pigs were in only moderate supply, with a fairly good inquiry, and sold at $5 60@6 20 according to size and weight. Supply of Hogs at the other large Western packing points were fair for the season of the year, and the quality was rather good.

PACKING—A fair business was transacted at the packing houses during the past week. The labor troubles have been settled, but the supply of Hogs was moderate, and prices ruled higher, and packers were not disposed to manufacture much Product under the circumstances. Pork of all kinds made sparingly. Lard produced in fair quantities and the average yield was quite good. A very small proportion placed in tanks. Domestic cuts of Hams made moderately, and chiefly cured by manufacturers. Skinned Hams made in limited quantities. Foreign cuts of Hams neglected. Shoulders made sparingly, with a fair proportion delivered to the local retail trade. Picnic Hams made moderately, and mainly cured by manufacturers. Long Clear Sides and Extra Long Clear Sides made in limited quantities. Extra Short Clear Sides met with a little more favor, and the production was moderate. Short Rib Sides made in fair quantities. Rough Sides cut moderately, and chiefly of medium averages. Backs and Bellies made in fair quantities. Loins cut rather freely to supply the wants of the Dressed Meats and local trades. Foreign fancy and special cuts of Meats made in very small quantities.

PROVISIONS—More interest was manifested in the market for Hog Products during the past week, and the volume of business was materially enlarged. Outside orders were increased and local speculators and packers generally appeared to be more interested in the market. Trading was mainly in October and January contracts, with scattered transactions in May. The feeling in a general way was considerably unsettled and fluctuations in prices were frequent, and at times within wide ranges. Hogs were in only fair supply and prices averaged higher, and this feature had a little effect on the market for Products in a general way. While prices of Hogs are slightly lower than current one year ago, reference to past records show that the prices of Hogs declined $1 40@1 50 by the close of January last. The supply of Hogs, as a rule, is not regarded as large as that reported one year ago—about three per cent less. Prices of Corn do not vary much from those of one year ago, and parties appear to be willing to pay fair prices for that cereal. Therefore the future condition of affairs in Hog Products depends largely on movement of Hogs and prices therefor. Prices of Products for January delivery last season ranged at $10 75@13 72½ for Mess Pork, $6 25@7 52½ for Lard, $5 70@7 25 for Short Rib Sides—selling at the high figures early in the season, declining to the inside figures during the latter part of November, and rallying to nearly outside figures toward the close. The following range of prices of Hogs, Mess Pork, Lard and Short Rib Sides in January during the past twenty-five years, may be of interest at this time:

Speculators in Hog Products for January delivery, and beyond, should bear in mind that only Products manufactured after October 1 can be accepted on such contracts—that the present supply is not available. Packing of the West for the week reported the same as that of the corresponding week in 1903. Foreign markets were stronger in a general way, and prices ruled higher on the leading articles. Domestic markets were rather firm, with a moderate business reported. Receipts of Products from the interior were quite large, as packers are disposed to accept current prices for most descriptions they have on hand. Shipments were larger in the aggregate than for some time past, as local packers are loading cars more readily—business was congested considerably during the strike. Exports for the week were moderate—materially under those of the corresponding week in 1903. Early in the week, there was a little inclination to sell the speculative articles of Products, while the demand was moderate, and slight reductions in prices were submitted all around. At the decline, the demand improved, while the offerings fell off considerably. Prices rallied materially, though somewhat irregularly. The appreciation brought sellers into the market again, and buyers were less anxious—"shorts" having accepted fair quantities. An easy feeling was developed, and prices receded to about medium figures, and the market in a general way closed comparatively steady. In the shipping branch of the trade, there was quite a good business transacted. Exporters bought moderately of small quantities. Domestic demand was quite good, especially to provide for orders from the Southern markets. Offerings were fairly liberal, but holders were firm in their views. Prices were well maintained on most descriptions. Supplies of all kinds are being reduced quite rapidly.

Pork—Quite a good speculative business was transacted in Mess Pork during the past week. An unsettled feeling prevailed, and fluctuations in prices were frequent. Fair outside orders were received, and local trading was rather active. Stock on hand decreasing slowly—estimated at 43,000 brls. Trading was almost exclusively in October and January contracts. Scattering trades were made in November, December and May. Early in the week, offerings were fair, and the demand was moderate. An easy feeling prevailed, and prices declined 5@7½c. Later, the demand improved considerably, while the offerings were moderate, and the market exhibited considerable strength. Prices were advanced $1 10 on October and 80c on January contracts, with quite active trading at the advancing scale. Toward the close, there was considerable liquidation in a general way, and a comparatively easy feeling prevailed, and prices declined 50@52½c all around. Prices rallied again 5@10c on October, and 10@12½c on January, and the market closed comparatively steady. Inquiry on shipping account was moderate to provide for small orders, and offerings were comparatively light. At the close cash lots were quotable at $11 40@11 50. Other cuts of Pork were in limited request, with moderate offerings. Stocks are not very large. Prices without material change.

Lard—The market for Lard attracted considerable speculative attention during the past week and the volume of business was larger than for several weeks past. Orders from abroad were larger, induced to some extent by the report of increased consumption. Local trading was good, with a good share credited to professional speculators and packers. Manufacture at present is moderate, and it was estimated that stocks were reduced 8,000 tcs during the week. Advices from abroad indicated a stronger feeling in that quarter with higher prices. Domestic markets rather strong. Trading was mainly in October and January contracts, with scattering transactions in November and December and moderate trading in May. Early in the week there was a little inclination to sell, while the demand was moderate. Feeling was rather easy and prices declined 5@7½c. At the reduction the demand improved, while the offerings were moderate. There was considerable competition between buyers and prices were advanced 32½@35c on the whole range. The sharp upward turn brought sellers into the market again, and buyers were a little cautious in their trading. An easy feeling was developed and prices gradually receded 12½@15c, and the market closed comparatively steady. Demand on shipping account was quite good and offerings were fairly large. Some round lots were accepted by exporters. Prices generally ranged at October figures, but at close holders refused to sell except at 2½@5c premium. Refined was in fair request for export, but prices were not made public. Loose lots were in good request, but the offerings were meager. Holders firm in their views. Early in the week a trade or two were made at 20@25c discount on October figures, but at the close buyers offered October figures, with sellers unwilling to name figures. Leaf Lard was in rather good demand and the offerings were light. Small trades were made at $7 00@7 37½, and the market closed steady at $7 12½@7 87½. Neutral was called for moderately with no particular pressure to sell. Feeling was stronger and prices were higher, closing at $8 50@8 62½ for No. 1 and $7 87½@3 00 for No. 2.

Short Rib Sides—Rather a good business was reported in Short Rib Sides during the past week. Outside orders were fair, and local trading was moderately active. Prices fluctuated considerably, with trading mainly in October and January contracts. Occasional trades made for May delivery. Supplies on hand gradually decreasing. Manufacture not very large. Local operators and packers considerably interested in the market. Early in the week the feeling was rather easy, and prices receded 2½@5c—mainly on January delivery. Later, there was quite a good miscellaneous demand, while the offerings were not very free, and the market exhibited considerable strength. Prices were advanced 52½@55c on October, and 30@32½c on January contracts. Toward the close, the feeling was not quite so strong, and prices receded 15@17½c, and the market closed comparatively steady. There was quite a good demand on shipping account, and from packers who are short in their supplies for their regular trade. Offerings were fairly liberal, and some round lots changed hands. Holders firm in their views. Sales were made at October figures to 25c premium, and prices closed at $7 55@7 75 according to weight.

Green Meats—There was a little more business transacted in Green Meats during the past week, but it was still light in the aggregate. Demand from all sources is limited, and generally for small quantities. Offerings were moderate. Local curers backward about purchasing, and outside orders were small. There is some inquiry for November December and January deliveries, and prices are quotable at about 8½@8⅝c for 14@16 lbs Hams, and 9½@9⅝c for 18@20 lbs Skinned Hams. Very little change to note in prices for present delivery. Hams were in moderate demand and prices ruled steady. Skinned Hams were called for sparingly, and prices inclined in favor of buyers. Shoulders were in small demand and prices ruled higher. Picnic Hams were in light demand and prices were without material change. Bellies were rather quiet and prices were well supported on all averages.

Pickled Meats—Trade was fairly active in the market for Pickled Meats during the past week and there was little change to note in prices. Foreign markets were a little stronger and domestic markets were steady. Inquiry on export account was limited. Domestic demand was quite good, especially from the manufacturing districts. A little inquiry for delivery during November, December and January, but no figures were made public. Supplies of all kinds are fair and packers shipping readily. Hams were in good request with fair offerings and sales were made at about former figures. Skinned Hams were in rather good demand and prices ruled about ⅛c lower. Shoulders were in moderate demand and prices ruled steady. Picnic Hams were in fair demand and prices were unchanged. Bellies were called for moderately and prices were well maintained.

Dry Salted Meats—Considerable interest was manifested in the market for Dry Salted Meats during the past week, and trading in the aggregate was quite active. Offerings were moderately free, and the demand was rather liberal. Foreign markets were stronger and prices higher, but the orders from that quarter were moderate. Merchants in the leading Southern markets were rather free buyers, and the distribution through that quarter was rather free. Supplies of all kinds are fairly liberal. Market in a general way was rather firm, and prices as a rule inclined in favor of buyers, especially for desirable averages. Manufacture was moderate. Foreign cuts of Hams were in small request and prices were well maintained. Shoulders were in moderate request and prices ruled steady. Long Clear Sides were quiet, but firmly held. Extra Long Clear Sides were inactive and prices nominal. Short Clear Sides were quiet and prices inclined in favor of sellers. Extra Short Clear Sides were in fair request, with somewhat limited offerings, and prices ruled higher—closing at $7 55@7 60. Extra Short Rib Sides were in rather good demand, with moderate offerings, and prices ruled higher, closing at $7 50@7 55. Rough Sides were in good request for shipment to the Southern markets, and the offerings were only fair. Prices ruled higher—closing at $7 50@7 75 according to weight. Plates in fair request and prices well supported. Backs were in rather good demand and prices were without material change. Bellies were quite actively called for, and offerings were fair. Prices inclined in favor of sellers, especially for desirable averages. Foreign fancy and special cuts of Meats were in light demand and prices well maintained.

Smoked Meats—Trade was quite active in Smoked Meats during the past week, and a comparatively steady feeling prevailed. Car lots were in good request and the jobbing trade was active. Supplies of all kinds fair. Holders rather firm in their views. Hams were in fair request and firm at about former figures. Skinned Hams were in moderate demand, and prices well maintained. Shoulders in fair demand, with limited offerings and prices ruled ⅛@¼c higher. Sides of all kinds were in good request and sales were liberal. Prices averaged ⅛@¼c higher all around. Breakfast Bacon in good demand and prices favored sellers.

Beef Products—Trade was only fair in the market for Beef Products, and there were no particular changes to note. Offerings were fair, and the demand was moderate and generally for limited quantities. Supplies of all kinds are fair. Foreign markets were steady, and the domestic markets rather quiet. Cattle were in fair supply, and prices ruled higher. Manufacture of Products moderate. Shipments of Dressed Beef continue quite liberal. Beef Hams in fair demand and prices ruled steady. Extra Mess Beef in moderate request and prices inclined in favor of buyers. Plate Beef called for in limited quantities, and prices ruled steady. Extra Plate Beef in rather light request and prices favored buyers. Tallow rather active in a quiet way, and prices were maintained. Oleo-Stearine was in rather good demand, with fair sales toward the close at 7¾c, and holders asking 8c.

Greases—Rather a good business was transacted in Greases during the past week. Offerings were fair, and the demand was rather active. Prices were without material change—rather inclined in favor of sellers.

WHEAT RUST INFORMATION.

Prof Bolley of the North Dakota Agricultural College has issued a bulletin which deals with the rust question and the following are the prominent points 1. Rust cannot be transmitted in the seed, but it may weaken the seed so as to prevent the new crop from getting a vigorous start. 2. Rust Straw is not poisonous to Stock and on account of its checking development of the head may retain more nourishment in the Straw. 3. Plowing under rusted Straw will not reproduce the rust in the land. 4. Secure seed that has not been seriously affected by rust, because it will give greater strength to the following crops. 5. Rich succulent Straw is more susceptible to rust than harder and drier varieties. 6. Smutty Wheat suffers the greatest. 7. Early seeding is the least liable to infection. As to whether to cut rusted Grain green or let it ripen the professor acknowledges inability to decide, but inclines to let all Grain mature fully before harvesting.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 32 to 46; cloudy; light rains western part. Northwest—Temperature 34 to 64; cloudy; light rains in Minnesota and South Dakota. West—Temperature 59 to 68; rains general in Iowa and Northern Illinois. Southwest—Temperature 58 to 74; light scattered, but general rains. Ohio Valley—Temperature 64 to 68; cloudy.

Indications are that the unsettled weather in the lake region will pass away by Sunday morning. Generally clear West and Northwest.

ITEMS OF GENERAL INTEREST.

Fire, Thursday, at Mattoon, Ill., caused a loss of $30,000.

A fire, Thursday, at Peoria, Ill., caused a loss of $40,000.

The Chicago and Northwestern's gross earnings for August are reported as $4,929,000, an increase of $25,260.

A Chicago crop expert estimates the Wheat crop at 540,000,000 bu, Corn at 2,400,000,000 bu, and Oats at 900,000,000 bu.

The free import of Corn into Servia is now permitted, and this permission is to continue in force until further notice.

The *Orange Judd Farmer* estimates the crop of Hops for 1904 at 234,000 bales, against 205,000 bales in 1903, and 206,000 bales in 1902.

A cable from St. Petersburg says, "Grain exports are increasing at all Russian ports, especially the exportation of Wheat to England."

The *Orange Judd Farmer* estimates the Cranberry crop of the United States at 765,000 bu, against 535,000 bu in 1903, and 875,000 bu in 1902.

Albert C White of Columbus Ind., a farmer and stock dealer, filed a petition in bankruptcy Thursday. His liabilities are $25,624 with no assets.

The Buenos Aires *Handels Zeitung*, under date of 19th August, reports that the outlook regarding the Wheat crop continues a most favorable one.

The E T Kenny Company, Indianapolis, Ind., dealers in agricultural implements, with branches all over the State, have failed Liabilities, $200,000.

The $3,000,000 of new collateral trust bonds soon to be issued by the reorganized United States Shipbuilding Company will go on the market in small quantities.

The South Dakota crop bulletin says early Corn is out of danger from frost and the bulk of the crop is either safe or needs but a few days of favorable weather.

Gross earnings of the Chicago, Indianapolis and Louisville in the second week of September were $120,500, an increase of $5,900, and of the Chicago Terminal Transfer $31,058, a decrease of $1,580.

The property of the Pacific Packing and Navigation Company, Seattle, Wash., which is now in the hands of receivers, is to be sold at public auction It is estimated to be worth from $4,000,000 to $6,000,000.

Application has been made to the New York Stock Exchange by the St. Louis, Iron Mountain and Southern Railway to list $1,766,000 River and Gulf division first mortgage 4 per cent thirty-year bonds of 1933.

The directors of the Crucible Steel Company have agreed on a statement for stockholders which will be ready Sept. 23. The funding plan to issue $4,000,000 5 per cent bonds has been adopted. This will pay off the floating debt of $3,000,000 at 6 per cent interest, and leave a good balance.

The Toledo correspondent of the *Northwestern Miller* writing under date of Sept 19 says. "The new Corn crop promises a fine yield. It is practically out of danger from frost, with here and there, possibly, a field planted late which might be excepted. A light frost now would be a benefit in disguise."

Corn Trade News of Sept. 12 says: "France has now had good rains, which have been well received. The outlook for roots and forage crops is much brighter. Native Wheat has been freely offered during the last fortnight, but supplies are expected to decrease when growers get busy with the seeding of the new crops."

The Indianapolis correspondent of the *Northwestern Miller* writes as follows under date of Sept. 19: "This office sent out to the trade last week, postals inquiring as to the probable Wheat acreage, as compared with last year's. The synopsis of the greater portion of replies are to the effect that there will be a larger acreage on the new crop than on the old."

The Directors of the Toledo Produce Exchange have indorsed the following: Resolved, That the members of this Exchange refrain from bidding or recognizing scoop shovelers, and it is the sense of this Board that, when any Grain dealer has an elevator equipped for the proper handling of Grain, that he be recognized as a legitimate dealer, whether he belongs to an association or not.

A dispatch from Sandwich, Mass, dated Sept. 23, says: "The heavy frost of the last thirty-six hours has ruined a large part of the Cranberry crop which remained unharvested in this section of the State. About one-third of the crop had been housed and of that remaining out one-half to two-thirds has been frozen. The loss amounts to thousands of dollars. The frost was the heaviest ever known in this section in September."

The *Agricultural Gazette* of Sept. 12 says: "Reports of threshing results are not generally favorable, and although the prices of Wheat and Barley have advanced, it is disappointing to see those of Oats falling, in spite of the poorness of the crop in the United Kingdom as a whole. Good progress has been made in the early districts in the cultivation of stubbles, the sowing of Rye, Trifolium and Tares; while plowing for other winter crops has been begun in many places."

River Plate Review of Aug. 20 says: "The news that is being received from the Grain belt could not be more satisfactory. The rains have been plentiful, and the young plants are coming up well and strongly. Due to the early drouth, seeding was considerably delayed, and it will now be about finished All reports point to the fact that the area both under Wheat and Flax Seed is fully up to that of last year, and in many instances it has been increased. Unless the unforeseen happens we shall expect to see as large a harvest reaped this year, as was the case last year."

Mark Lane Express of Sept. 12 says: "The harvest is over and has been well secured. Threshings are proceeding more rapidly than the rather humid state of the atmosphere renders wise. The Barley crop gives general satisfaction in the chief malting counties, but it is not a level crop elsewhere. Oats are often a good deal short of an average bulk in East Anglia and the home counties, but good yields in the West, including Wales and Ireland, will largely balance this. Potatoes, though not a big crop, are a decided improvement on last year.'

A New York dispatch to the *Inter Ocean* says: "It can be stated as a fact," said the legal representative of one of the largest packing-houses of Chicago to-day, "that the packers of Chicago now control the Provision markets of the world. In every important country of the globe, with the exception of the Argentine Republic and Australia, the Chicago packers not only send their products in large amounts, but they dominate the markets of those countries. In the two countries named they have not, for sufficient reasons, made any effort to secure trade except in small quantities and as an incident."

At the annual meeting of the American Steel Foundries, to be held Oct. 4, several important changes in the directorate are looked for. The present management is understood to have planned for the new year an extensive rehabilitation of business, and it is believed that the controlling interests in the company will name a board of directors at the annual meeting, each member of which will be in entire accord with the new plans. Interests identified with the company are optimistic as to the trade outlook next year. With good general business, they say, the company cannot fail to show good returns, as its plants are in fine shape and its operating efficiency has been brought to a high maximum.

An official of the General Electric Company is quoted as saying that business is looking up and that his company is receiving inquiries for more electrical materials and supplies than for some time. Encouraging advices from all sections of the country are coming in, and from present indications there should be a busy fall and winter. When asked as to the extent the development of the Curtis turbine engine had figured in the business of the year, the official said: "It is true that the big demand for Curtis turbines has come in very handy in what would otherwise been a dull year. It has kept a large part of our force permanently employed, and, although I have no very definite information on the subject, I think it would be safe to state that the gross business on turbines this year would aggregate well over $10,000,000, based on the orders already in hand. Our total gross sales last year amounted to about $41,000,000, and this would be about one quarter of the entire business. This is not a fair comparison in normal years, but with the turbine engine as an assured success the opportunities for further development along this line seem to be unlimited."

No 4 Hard sold at the river at $1 01½.

SPRING WHEAT—Offerings light and demand moderate Market weaker. No. 1 Northern fresh arrivals free on board quotably about $1 20 and No. 2 Northern fresh arrivals nominally $1 18. No. 3 Spring nominally $1 05@1 16 for poor to very choice, with a sale of fancy at $1 16½. No. 4 Spring sold at 77c@$1 13 free on board, and at $1 07 at the at the river.

REGULAR WHEAT—A very fair speculative business was witnessed, more particularly the first hour of the session. Closing prices were 3⅛c to 3½@3⅝c lower than Saturday The start was firmer on the rather "bullish" foreign statistics, but weakened suddenly on free selling by elevator interests and local "longs." Provision specialists also sold and on the decline considerable "long" property came out on stop orders. The large receipts in the Northwest, 215 cars more than a year ago, with the primary movement 724,000 bu larger, was one of the chief "bear" factors Kansas City and St Louis received 657,000 bu, against 228,000 bu last year. The visible increased 1,193 000 bu, against 1,312,000 bu increase one year ago, and total reported 15,203,000 bu, against 17,239,000 bu in 1902, and 24,842 000 bu in 1903. Local public stocks increased 220 000 bu to 2,250,000 bu, compared with 2,943,000 bu in 1903. Continental cables were weaker, Paris was off 1c, while Buda Pesth declined 1⅜c and Berlin 1⅝c. Antwerp, however, was up 1⅛c. Liverpool quoted spot steady to ½d higher and futures ⅛d higher. Stocks there 3,792,000 bu, increased 288,000 bu. London came ⅛d higher. Cargoes on ocean passage were quoted firm with less offering Exports were again small and 4 boat loads accepted for export. Minneapolis stocks reported decreased 10,000 bu past two days notwithstanding the large receipts Winnipeg received 219 cars, of which 65 cars were contract, 109 cars No Grade and 45 cars miscellaneous St Louis was weak on the liquidation of a large "long" line held there. Kansas City expects 433 cars for to-morrow. Pacific Coast clearances last week were 130 000 bu. Showers and thunderstorms were predicted for Minnesota, showers for South Dakota and partly cloudy for North Dakota. Receipts at Duluth 303 cars and Minneapolis 777 cars, a total of 1,080 cars, against 723 cars Saturday, 971 cars a week ago, and 865 cars last year. Local receipts included 50 cars Winter, 19 cars Spring and 6 cars mixed, a total of 75 cars, against 99 cars last year. Included in the above was 1 car of contract grade. There were 79 cars and no bu taken from unlicensed elevators The estimated receipts for to morrow are 128 cars. The withdrawals 46,400 bu. The receipts at Western points were 1,890,687 bu, against 1,167,230 last year. At Eastern points 271 070 bu, against 6,925 last year Shipments from Western points were 491,079 bu, against 437,576 last year, and from Eastern points 5,680 bu, against 385,600 bu last year. Shipments of Flour were 6,925 brls. Exports of Wheat in Flour were equal to 36,882 bu.

Future Deliveries of Regular Wheat—Good trade at lower prices.

SEPTEMBER—Old Style—Sold at $1 11⅞@1 14. Opened with sales at $1 14, sold to $1 13½, to $1 11⅞, to $1 12, to $1 11⅞, and closed at $1 11⅞.

CORN—A fair trade, with the tone weaker, the closing prices showing declines of ⅝@1c. Floor traders evidently went home "long" Saturday, and the early support was of the indifferent sort, the country evidently being "bearish," as a good share of the selling was by receiving and cash houses. Wheat was weak and new Corn was offered more freely to arrive in December. Receipts exceeded the estimates at 470 cars, against 1,067 cars last year, and 325 cars are estimated for to-morrow. Liverpool was unchanged to ⅛d higher, and the stock there, 736,000 bu, increased 240,000 bu last week London quoted cargoes on ocean passage almost neglected. Map showed heavy rains through the Ohio Valley and Northern and Central Illinois, and temperatures were a little lower through the Corn belt. Kansas City wired weather clear, hot, 'maturing Corn fast. Lincoln wired: "Nothing new; temperature 90 yesterday: conditions continue the same." Showers and thunderstorms were predicted for Illinois, Indiana and Iowa; showers for Kansas and Nebraska World's shipments 4,110,000 bu, against 3 412,000 bu last week and 4,401,000 bu one year ago The quantity on ocean passage decreased 486 000 bu to 20,684,000 bu, compared with 21,584,000 bu last year. The visible increased 819,000 bu against 419,000 bu increase same week in 1903. Total is now 6,471,000 bu, against 8,326,000 bu in 1903 and 3,048,000 bu in 1902. Local public stocks increased 125,000 bu and are now 1,665,000 bu, against 3,640,000 bu same date in 1903. Western receipts were 559,000 bu; last year, 826,000 bu. Shipments 841,000 bu and 703,000 bu respectively. Local arrivals 260,000 bu, against shipments of 718,000 bu. Withdrawals 397,000 bu and exports 63,900 bu. Shipping demand moderate and sales 200,000 bu. Seaboard reported 3 boat loads accepted. Car lots were in fair demand and prices rather steady. Offerings moderate No. 2 closed at 52½c No. 2 Yellow sold at 54½c and closed at 54½c. No. 3 sold at 53¾c for yellow, and closed about 52¼c. No. 3 Yellow sold at 54c and closed at 54¼c No. 4 sold at 51@54c, outside for yellow.

Corn by sample—White and mixed were a shade lower, while yellow was a trifle higher than Saturday. Offerings were moderate, and demand fair. Sales on track and free on board: No Grade sold at 50@50½c. No. 4 at 50½@54¼c. No. 3 at 52@53¾c. No. 3 Yellow at 54@54½c. No. 2 at 52¾@54c. No. 2Yellow at 54½@54¾c. No. 3 White at 52@52½c. No. 2 White at 52½c. Billed through: No. 4 at 50¼@53c. No 3 at 51¼@52¾c. No. 3 Yellow at 52¼@53½c. No. 3 White at 51¼@51½c

Future Deliveries of No. 2 Corn—Fairly active and weaker and closed ⅜c to 1c lower.

SEPTEMBER—Sold at 52⅜@53c. Opened at 52⅝c to 53c, and sold at 52⅞c, to 52⅜c, to 52⅞c, to 52⅜c, and closed at 52⅜c.

DECEMBER—Sold at 50⅛@50¼c and 51⅛c. Opened at 51⅛c to 50⅝c, and sold at 50⅞c, to 50¼c, to 50⅝c, to 50⅛@50¼c, to 50¼c, and closed at 50¼c bid.

MAY Sold at 48⅝@49¾c Opened at 49¾c to 49½c, and sold at 49⅜c, to 49⅝c, to 48¾c, to 49¼c, to 48¾@48⅞c, to 49c, to 48⅝c, to 48¾c, and closed at 48¾c asked.

OATS—Closed at the bottom and at the lowest of the season. Net losses of ½@⅝c were made. There was an advance of ¼c early, followed by a break of ⅝c to ¾c. The selling was in sympathy with the weakness in other Grains and against cash holdings Visible supply stocks increased 2,975,000 bu and are 18,156,000 bu, the largest on record, and almost three times larger than last year's. Local stocks in public houses increased 552,000 bu and are 4,016,000 bu. Arrivals were 236 cars, with 215 cars expected to-morrow. Withdrawals were 60,150 bu. Seaboard clearances 23,000 bu Cash sales 50,000 bu. Car lots to go to store were ¼c to 1@2c lower. No. 4 White sold at 29½@30¼c. No. 3 White at 30½@31c. Standard at 31c. Standard in store closed about 29⅝c

Oats by sample were steady to ¼c lower for good and 1@2c lower for poor. Supplies of the latter showed an increase. Sales on track and free on board. No 4 White at 27@31c. No 3 White at 30@32¼c. Standard at 31@32½c. No. 2 30½@31c. No. 2 White at 32@32½c Billed through: No 4 White at 27@30¼c. No. 3 at 29@29½c. No.3 White at 30½@31½c. Standard at 31@32½c. No. 2 at 30c. No. 2 White at 31½@32c. At the river: No. 4 White at 27½@29½c No. 3 at 29c. No. 3 White at 29@30¼c. Standard at 30@30½c.

Future Deliveries of Contract Oats—Were weak and lower

SEPTEMBER—Sold at 29½@30⅛c Opened at 30c, sold to 30⅛c to 29½c, to 29⅝c at close.

DECEMBER—Sold at 30⅝@31⅜c. Opened at 31⅛c, sold to 31⅜c to 30⅝c, to 30¾c at close.

MAY—Active. Sold at 33@33¾c. Opened at 33½c to 33⅝c, sold to 33¾c, to 33c, and closed there.

RYE Was steady and for fresh receipts 1c higher prices were paid. Demand fair. Only six cars received. No withdrawals from store and no export clearances. The visible supply increased 116,000 bu No. 2 in store nominally about 74c, and fresh arrivals free on board sold at 77@78c.

Future Deliveries of No. 2 Rye—Steady. September nominally 74c. December sold at 76½c and closed at 76c bid and 76½c asked. May nominally 78½c.

BARLEY—Was very weak. There was a flood of it on the market. There were large cash sales. From former inside prices there was no especial change, that is the cheaper malting grades were not much changed, but better grades up to fancy ruled weaker, there being a general settling of the better grades toward cheaper grade prices and many lots had to be let go at 1@2c below what the same have been bringing. The premium between fair and good quality was again decreased; fancy will still bring a good premium for that is scarce. Buyers were in good attendance. They had so much Barley tendered them that when once a price was bid they would stay right there and as a matter of fact it was a day when sellers as a rule had to simply yield to the views of buyers. Prospects seem to favor continued free arrivals. Screenings and feed Barley weaker; more cars offered Inspected in 201 cars; there was more than this quantity, however, on sale. Visible increased and exceeds last year's. Sales of Screenings were over a range of 32@35c for poor seedy to choice. Feed Barley sales were at 36@37c. The cheaper malting grades sold at 38@40c, fair to good Barley at 41@44c higher grades at 45@47c, and choice at 48@49c Fancy was quotably about 50@52c, but nominal. The heavy trading in malting Barley to-day was at 40@43c.

SEEDS—Were rather quiet all around. There was a steady feeling for all lines with no changes.

Timothy—The market ruled rather quiet. Cash offerings fair Consignments met with fair sale at about steady unchanged prices Futures inactive aside from a small quantity changed September offered at $2 75 and $2 70 bid, and for October $2 70 was bid January nominal at $2 80@2 85, March offered at $2 90 and $2 85 bid. October and March changed at 20c premium for latter Country lots quoted at $2 35@2 45 for fair to good, high-grade Seed sold at $2 50@2 55 choice to fancy nominally $2 60@2 75, poor trashy Seed quotably down to $1 8 @2 25.

Flax—Nothing was done aside from the sale of a few cars. The market was very quiet, at the same time steady. No change in prices. More Flax moving. Receipts show a good increase in the Northwest. Local receipts 12 cars or 10,800 bu, and output 1 car or 1 033 bu. Local stock unchanged, 16,191 bu in regular houses, against 100,285 bu a year ago. Minneapolis got 89 cars to-day and Duluth 33 cars. No. 1 Northwestern or No. 1 from the Northwest sold at $1 15½ No. 1 [illegible] at $1 19. Rejected, depending on quality, $1 06@1 14. September was $1 09 bid. December $1 11 bid.

Clover Was called nominally steady to firm with Saturday's improvement maintained Quotable as below: October delivery quoted at $12 25. Contract spot Seed at the same Country lots, common to choice, $9 00@12 00; fancy above. Fair to good, $10 25@11 50.

Other Seeds—Some lots of Millet, common and German, were said to have been received, though not offered on the open market. There was given a quotable range of 75@90c per 100 lbs for common to choice of either kind Other lines nominal

HOG PRODUCTS A fairly good speculative business was reported in Hog Products, and the undertone to the market was rather firm. Hogs were in lighter supply than expected, and prices higher and the average weight is gradually decreasing. Manufacture of Products is on a moderate scale, while the consumptive demand is good, and supplies are growing lighter. Under these circumstances local speculators and packers gave considerable attention to the near deliveries, and purchased fair quantities Outside orders were moderate. Offerings were not very large, and the demand was fair. Trading chiefly in October and January contracts Prices ruled higher on all the leading articles, and extreme figures were fairly well supported to the close Foreign markets were steady for Meats at unchanged prices, while Lard was firmer and 3d higher. Domestic markets were steadier. Receipts of Hogs at the leading Western packing points were estimated at 38,900 compared with 48,700 one year ago. Receipts of Products were fair—of Lard and Meats about 17 cars. Shipments were fair—of Lard and Meats about 126 cars. Demand on shipping account was good, and offerings were fair. Sales were fair, and mainly to the domestic trade, with little change to note in prices

Mess Pork—Trade was rather active in Mess Pork, with the preference given to January contracts. Offerings were not very free, and the demand was fair. Prices on the whole range were advanced 10@15c, and the appreciation was fairly well supported to the close. Shipping demand was light, and offerings were moderate. Cash lots were quotable at $11 75@11 80.

SEPTEMBER—Quiet and quotable at the close at $11 70.

OCTOBER—Demand was moderate, and offerings were light. Sales were made at $11 57½@11 62½ Opened at $11 60, sold to $11 57½, to $11 62½, and closed steady

MAY—Quiet with small sales at $13 40@13 50, and closed at $13 40.

Lard—Considerable interest was manifested in the Lard market, and trading was rather active. Offerings were moderate, and the demand was good. Foreign advices were more favorable to holders "Shorts" and packers purchased fair quantities, especially for October delivery. Market was firm, and prices were 5c higher at the opening, which was followed by a further advance of 7½@10c, and the appreciation was fairly well supported to the close. Demand on shipping account was good, with moderate offerings. Cash lots quotable at 2½@5c premium on October figures, closing at $7 37½@7 40 Loose lots in good request, with very small offerings. Prices quotable at 10c discount on October figures. Leaf Lard was in good demand, with very limited offerings Quotably steady at about $7 50 for very small lots. Neutral in light demand, with moderate offerings Prices quotably steady at $8 75@8 87½ for No. 1, and $8 12½@8 25 for No. 2.

SEPTEMBER—Demand light and offerings were limited. Sales were made at $7 35@7 37½, and closed at $7 37½

OCTOBER In good request and offerings were fair. Sales were made at $7 27½@7 37½ Opened at $7 27½, sold to $7 35, to $7 32½, to $7 37½, to $7 30, to $7 35, to $7 32½, to $7 35@7 37½, to $7 35, and closed steady.

DECEMBER Called for moderately and offerings were rather light. Sales were made at $7 27½@7 35.

JANUARY Offerings were not very large and the demand was fair. Sales were made at $7 37½@7 45. Opened at $7 40, sold to $7 42½@7 45, to $7 37½, to $7 45, to $7 42½, to $7 45, and closed steady

MAY Demand light and offerings were moderate. Sales were made at $7 52½@7 60, and closed at $7 55

Short Rib Sides—An active trade was reported in Short Rib Sides, and the market was stronger. Offerings were fair, and the demand was quite active Market opened rather firm at 2½@5c advance, and further improved 12½@15c for October and 2½c for January, and the appreciation was fairly well supported to the close Shipping demand was good, with moderate offerings. Cash lots quotable at $7 75@7 87½, according to weight.

SEPTEMBER—Quiet and quotable at the close at $7 75.

OCTOBER—Offerings were only fair, and the demand was active. Sales were made at $7 65@7 80 Opened at $7 65, sold to $7 77½, to $7 72½, to $7 75, to $7 70, to $7 77½@7 80, and closed steady.

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Sept 13.]

Harvest in the United Kingdom is now approaching completion, except in the latest districts; indeed, the *Mark Lane Express* says the work is over and the Grain well secured. Further rains have fallen, and although the showery weather hindered the Grain harvest and perhaps did a little damage, the additional moisture has been generally welcome for roots and pastures. Plowing for winter crops has made a good start, and it is much to be hoped that it will be continued in good weather and that the miserable experience of last fall will not be repeated. The official average price was a trifle lower than last week, but still not below 30s, and the quantity was fair considering all things. At the time of writing there seems a good chance that prices will be well maintained, and with favorable weather we may see a recovery in our Wheat acreage Threshing reports do not improve, and some estimates put the Wheat yield as low as 26 bu and 28 bu per acre.

Russia—Most of the ports in South Russia are now receiving good supplies of new Grain, and in the Southeast the movement is large; Wheat exports, however, showed a fair decrease last week. In the Odessa district rains have fallen at length, and people there are hoping for a good fall to raise the water level in the rivers; the moisture will also be wanted to put the land into suitable condition for plowing and seeding.

Roumania Abundant rains have now fallen; in some parts the precipitation has been so great that a good deal of damage to property has been caused. Plowing is proceeding actively. Arrivals by rail have decreased, but water-borne receipts have been maintained—shipments last week were larger.

Turkey-in-Europe—The drouth in Southern districts is unbroken.

Austria-Hungary—Fall plowing is going on actively, although the rainfall has been hardly sufficient to satisfy growers. Interior navigation is now in full swing again. Wheat at Buda Pesth is in good supply, but immediately prices give way sellers hold back fresh offers.

Argentina—Crop news continues to be quite favorable. It is predicted that shipments will fall off sharply in October, as supplies from the last crop are becoming exhausted.

Australia—Mail reports dated Aug. 6 do not speak very hopefully of Wheat prospects, but since then cables have announced further rains and good prospects. Some chartering is still being done, and considering how far season has advanced, shipments must be considered liberal.

India—Rains have now fallen in various parts of the country, but some districts are still in want of moisture for native food crops. Wheat seeding should start this month in the early districts. The present attitude of sellers does not indicate any anxiety with regard to prospects.

France—The *Bulletin des Halles* has been the first of the leading authorities to publish its estimate of the Wheat crop, and makes the total yield 292,000,000 bu, which compares with its estimate of 348,000,000 bu for 1903. The estimate of the Ministry of Agriculture for 1903 was 355,320,000 bu. The deficit shown by this estimate is just about covered by the estimated quantity carried over from last season. Native Wheat has been freely offered during the last fortnight, but it is expected there will be much less brought forward when growers get busy with fall seeding; recent weather has been favorable for softening hard stubble land and the rains likewise have greatly benefited roots and forage crops.

Italy—Rains have fallen and enabled growers to make a start with field work. The Corn crop is turning out rather better than expected.

Spain—Some rains have fallen, but there are still complaints of drouth from different sections. The Wheat crop continues to be described as short, but no estimates have been published.

Germany—The weather in the South has been favorable for plowing, but more rain is wanted in the North. Native Grain continues to be offered very freely, especially at Berlin, where the prices appear to be sufficiently high to attract offers from all sides. It is considered certain that the Potato crop this year will be much smaller than last year's, but of good quality.

THE WEATHER CONDITIONS.

Scattered showers and thunderstorms indicated over eastern and central portions of district. Temperatures will be mild.

WHEAT IN THE NORTHWEST.

The Duluth *Commercial Record* presents an estimate of the Wheat crop of the Northwest on the basis of reports by railroads. The following table shows the distribution of the crop of 1903.

	Terminal Receipts, bu.	Country mill consump-tion, bu.	Total bu. 1903-4

ITEMS OF GENERAL INTEREST.

The Distillers' Securities Corporation, New York, has declared the regular quarterly dividend of 1 per cent, payable Oct. 25 to stock of record Sept. 28.

Rains fell in Italy during the latter part of August and enabled growers to make a start with fall plowing. Rice is expected to turn out a good crop and Corn is better than expected.

Bank Clearings of the leading financial centers of the United States for the past week aggregated $2,138,756,807, an increase of 20.6 per cent, compared with the corresponding week last year.

There was a New York Stock Exchange rumor, Friday, that almost 500,000 shares of Atchison had been transferred by a big banking house to the Rockefeller interests, which, the rumor had it, would hold the stock in the interests of Union Pacific.

The Bureau of Statistics of the Department of Commerce and Labor gives out the following: "The quantity of Wheat retained for consumption—food and seed—in the United States never reached 275,000,000 bu prior to 1880. In 1881 it passed the 300,000,000 bu line and slowly increased with the population: in 1899 it was over 400,000,000 bu; in 1902 it exceeded 500,000,000 bu, and in the fiscal year ending June 30, 1901, was 517,000,000 bu—a greater total than in any preceding year." The DAILY TRADE BULLETIN reported 523,000,000 bu in July.

The annual report of the Metropolitan West Side Elevated Railroad Company, Chicago, to the Illinois Railroad and Warehouse Commission has been filed with the authorities at Springfield. The report covers the fiscal year ended June 30 last, and in comparison with those of the two previous years makes an excellent showing. Gross earnings experienced a substantial increase, while there was a good reduction in operating expenses. The surplus after charges applicable to stock amounted for the year to $296,014, or about 3.29 per cent on the $9,000,000 preferred stock, as compared with $165,646, or 1 84 per cent on the preferred stock in the previous year. The reduction in the percentage of operating expenses to gross earnings was from 49.5 per cent to 48.9 per cent.

At the annual meeting of the stockholders of the United States Reduction and Refining Company the following financial statement for the fiscal year ended July 31 was submitted: Gross earnings, $576,353; operating expenses and improvements, $177,016; net earnings, $399,337; dividends, $59,187; interest, $180,000; total deductions, $239,187; surplus, $160,150. The cash statement as of July 31 shows a total investment in the property of $749,-689, cash and stock on hand $626,437, making total cash assets of $1,376,327. The liabilities show accounts payable amounting to $29,269 and accrued interest $15,000, making total liabilities $44,269. During the last year, by reason of the Coal strike in Colorado, the company operated at a great disadvantage. Conditions in Colorado were reported decidedly better, and it is expected that during the present fiscal year the company will do a better business.

The *Times of India* of Aug. 27 says: "In the Punjab, the United Provinces, and Rajputana rains have been generally satisfactory; in fact, advices from the United Provinces state that crops are suffering from too much rain. On the other hand, the Provinces of Gujarat, Kathiawar, Khandeish (Hyderabad), Deccan, and the Bombay Presidency, where rain has been urgently needed for some time past, little to none has been received during the week. Cotton crop reports generally are so far favorable, although a discordant note is already heard from the Sholapur and Barsi districts. With food Grains it is otherwise, and from many parts of the country, owing to a deficient rainfall, complaints are daily received. A 12-anna Kharif crop is considered a high estimate. In the Presidency discouraging reports are received from Poona, Ahmednagar, and Nasik, and prices for fodder have risen considerably."

ITEMS OF GENERAL INTEREST.

New York Exchange 25c discount.

Documentary Sterling steady at 482.

Chicago Bank Clearings to-day, $27,789,463.

Seven packers purchased 8,700 Hogs to-day; shippers, 1,500; leftover, 4,500. Market closed 10@15c lower.

Reported that 64,000 bu Wheat, 40,000 bu Corn and 60,000 bu Oats were taken at the seaboard to day for export.

Deliveries on September contracts to-day were 35,000 bu Wheat, 50,000 bu Corn, 20,000 bu Oats and 250 tcs Lard.

The packing at Milwaukee since March 1 is estimated at 452,742 Hogs, against 529,078 for the corresponding time in 1903.

Estimated receipts for to-morrow: Wheat, 62 cars; Corn, 185 cars; Oats, 145 cars; Rye, 7 cars; Barley, 155 cars; Hogs, 21,000.

Cotton in New York averaged lower, but rallied from inside figures on "bullish" crop reports. Closing sales were at 20@22 points lower.

Average cost price of Hogs at Chicago, Monday, was $6 06, the highest since June 22, 1903. Average cost Saturday $5 91, a week ago $5 99, and a year ago $5 81.

The average yield of Corn in the United States during the past eight years was 24.6 bu per acre, and the average price on the farms during the same period was 39c.

The receipts of Wheat at Liverpool during the past three days were 341,000 bu, of which none were American. Receipts of Corn, 120,000 bu, of which 80,000 bu were American.

Local Securities were fairly traded in and averaged higher, although gains for the most part were small. Can common was the most active and held steady. Illinois Brick preferred broke ½ despite a dividend of 2 per cent.

The Duluth *Commercial Record* estimates the crops of the United States for 1904 as follows: Wheat, 543,000,000 bu; Oats, 790,000,000 bu; Barley, 149,000,000 bu and Rye, 31,000,000 bu. Flax Seed crop of the Northwest, 18,200,000 bu, against 25,500,000 bu in 1903.

Bradstreet's estimates the Corn crop, from its investigations made by its numerous correspondents, at not to exceed 2,350,000,000 bu. Oklahoma, Nebraska, Illinois and Iowa have more than last year; Ohio, Indiana, Missouri and Kansas raised less than last year.

Stocks in New York were influenced by a more cheerful tone abroad, better reports regarding the earnings of the Steel Company, and by general buying. Western Railway shares gained ⅜ to 1⅛. Eastern Railways were steady to 3¾ higher. Industrials ¼ to 1 point better, and Tractions ½ to 3 higher. Money 1¾ to 2 per cent.

Bradstreet's report of the available supply for the past week shows the following changes:

	1904. bu	1903. bu.
Wheat east of Rockies	Inc. 2,458,000	Inc. 2,969,000
Europe and afloat	Inc 600,000	Inc. 4,700,000

Oats	Inc. 1,953,000	Dec. 393,000

Broomhall's weekly foreign crop summary says: "United Kingdom—The weather continues most favorable, but there is no improvement in the threshing returns. Germany—Some rain has fallen. Native Wheat continues plentiful. The condition of pastures on Sept. 15 was officially estimated at 60 per cent. Potatoes were placed at 62 per cent. against 74 per cent a year ago. Spain-Denmark—Drouthy conditions prevail. Roumania—Very heavy rains have stopped seeding. Supplies of Grain are very light. Russia—Good rains have occurred, which were needed. Supplies of Grain are very light. India-Argentina—The news continues favorable. Australia—There are rumors in Liverpool that drouth is affecting the crops, but the chief shippers cannot confirm them. *Broomhall* is cabling for information. October is a critical month for the Wheat crop owing to the danger from hot winds."

WEATHER BUREAU REPORT.

The Weather Bureau weekly crop report, issued at noon to-day, is as follows:

Spring Wheat—The harvest of Spring Wheat is completed. Threshing is well advanced in the northern portion of the Spring Wheat region although delayed by rains in Minnessota and North Dakota, and the crop is nearly all stored in Washington.

Corn—In the principal Corn producing States west of the Mississippi River, late Corn experienced favorable weather conditions. The crop is generally maturing rapidly, except in Northern Missouri, with no material damage from frost. In Iowa, a week of warm and dry weather is required to mature the greater part of the late planted; needs ten days in Missouri; mostly safe from frost in Kansas, and the bulk of the crop is beyond injury by frost in Nebraska. East of the Mississippi, Corn has ripened slowly on account of cool weather. In Illinois, a part of the crop is safe in the southern portion, and the bulk will be beyond danger by Oct. 10. In Indiana, much is in danger from frost, and in Ohio, while it is practically safe in the south, the staple requires one to two weeks more in the north. Frosts caused some injury in the northwestern part of the last named State and considerable damage in New England, the northern portion of the Middle Atlantic States, Upper Lake Region and Upper Mississippi Valley.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—In fair demand, but very little doing in the way of export. Prices comparatively steady.

WINTER WHEAT—The market was steady. Demand not at all urgent, and trade reported rather slow. One lot of 50,000 bu of No. 2 Hard sold for shipment—the rest of the business was in car lots of fresh receipts. No. 2 Red in store quotable at $1 11⅜@1 13¾, and fresh arrivals free on board quotably $1 16@1 17. No. 2 Red fresh receipts free on board sold at $1 13@1 14. No. 4 Red fresh arrivals sold at $1 10@1 10. No Grade Red sold at 98c. No. 2 Hard fresh arrivals free on board quotably $1 10@1 11. No 3 Hard fresh arrivals quotably $1 03@1 10, with a sale at the river at $1 04½.

SPRING WHEAT—Offerings small and demand moderate. Market firm. No. 1 Northern fresh arrivals free on board quotably about $1 20 and No. 2 Northern fresh arrivals nominally $1 18. No 3 Spring nominally $1 05@1 15 for poor to very choice, with a sale at $1 15 for hard variety. No. 4 Spring sold free on board at 72@82½c for poor, at 85@95c for common to fair, at $1 02 for good, and at $1 12 for choice hard variety.

REGULAR WHEAT—A large trade was witnessed during greater part of session and feeling manifested, while rather unsettled, was stronger on the whole, and the close showed gains of 1⅜@1½c. The start was easy with a continuation of the liquidation so pronounced yesterday, but at the decline prominent local professionals as well as elevator interests purchased freely and sentiment changed from the "bear" to the "bull" side of the market. The news from the Northwest was more encouraging to holders, receipts there being 209 cars less than a year ago, and the cash situation reported improved. Duluth reported a much better Eastern demand for cash Wheat with one cargo sold and more working. Minneapolis wired, "When the 650,000 bu 'long' September Wheat is delivered, it will be shipped out and leave no contract stock. Country receipts reported falling off." Liverpool was irregular, quoting spot ½d lower to ⅛d higher and futures ⅜d lower. Receipts there the past three days 311,000 bu and none from America. London ¾d lower, Paris ¼@½c lower and Buda Pesth ¼c higher. Antwerp unchanged. Liverpool was strengthened to some extent by the poor quality of the arrivals from Russia and scarcity of offerings. Liverpool predicted a large reduction in the quantity afloat during the next three months. Denmark purchased a cargo of India Wheat off coast. Only one cargo reported off the English coast and those on ocean passage quoted firm. Stocks here in all positions reported 4,739,000 bu, an increase of 332,000 bu last week. Stock a year ago 7,116,000 bu. Contract stocks decreased 10,669 bu to 315,559 bu, compared with 2,441,338 bu same date in 1903. *Bradstreet's* available supply increased 3,058,000 bu, compared with 7,669,000 bu increase same week in 1903. Primary receipts 450,000 bu smaller than a year ago. Kansas City and St. Louis received 242,000 bu, against 505,000 bu last year. Minneapolis wired stocks had increased but 20,000 so far this week. Kansas City pridicted smaller receipts, estimating but 135 cars for to-morrow. A sale of 5 cars No. 2 Hard was reported there at $1 08, the same to go to Maine. Clearings were a little larger, but only 8 boat loads accepted at the seaboard. Cash sales here 60,000 bu. Receipts at Duluth 600 cars and at Minneapolis 348 cars, a total of 948 cars, against 1,080 cars yesterday, 669 cars a week ago, and 1,157 cars last year. Local receipts included 116 cars Winter, 13 cars Spring and 5 cars mixed, a total of 134 cars, against 78 cars last year. Included in the above were 2 cars of contract grade. There were 21 cars and no bu taken from unlicensed elevators. The estimated receipts for to morrow are 62 cars. Withdrawals were 2,700 bu. The receipts at Western points were 1,254,472 bu, against 1,744,670 last year. At Eastern points 89,910 bu, against 142,395 last year. Shipments from Western points were 509,127 bu, against 802,008 last year, and from Eastern points 60,140 bu, against 85,600 bu last year. Shipments of Flour were 23,887 brls. Exports of Wheat in Flour were equal to 167,596 bu.

Future Deliveries of Regular Wheat—Fair trade and prices higher.

SEPTEMBER—Old Style—Sold at $1 12¼@1 13⅝. Opened with sales at $1 12¼; sold to $1 13⅝, to $1 13¼, and closed nominally at $1 13¼.

SEPTEMBER—New Style—Sold at $1 08⅝@1 10⅝. Opened at $1 08⅝; sold to $1 09, to $1 08¾, to $1 09⅝, to $1 09, to $1 10⅝, and closed nominally $1 10⅜.

DECEMBER—Sold at $1 10¼@1 12½. Opened with sales at $1 10⅜ to $1 10¾; sold to $1 10⅝, to $1 10½, to $1 10⅝, to $1 10¼, to $1 10⅞, to $1 10½, to $1 11¼, $1 11⅛, to $1 11½, to $1 10⅞, to $1 12⅛, to $1 12, to $1 12½, to $1 12 and closed at $1 12 bid.

MAY—Sold at $1 11⅝@1 13¾. Opened with sales at $1 11⅞ to $1 11⅝; sold to $1 11½, to $1 12, to $1 11⅜, to $1 11⅞, to $1 11⅜, to $1 12⅛, to $1 11⅝, to $1 12⅝, to $1 12⅜, to $1 12¾, to $1 12 to $1 12⅞, to $1 12½, to $1 13¾, to $1 13¼, and closed at $1 13¼ sellers.

CORN—Just a fair trade and moderately active market, last trades showing ⅛@⅜c gain. Offerings were rather liberal at the start, commission houses selling, part of which was for the country. Support, however, was better than yesterday, several of the more important "shorts" covering, and floor traders leaned more to the "long" side of the market. Cables were fairly steady and more rain was indicated for the Corn belt. Liverpool quoted spot steady to ¼d higher, and futures unchanged to ⅛d lower. Receipts there the past three days 120,000 bu, of which 80,000 bu came from America. Receipts 343 cars, against 568 cars last year, and 185 cars were estimated for to-morrow. Showers, thunderstorms and cooler weather was predicted for Iowa and Missouri, and showers for Illinois, Indiana, Kansas and Nebraska. Stocks here in all positions reported as 5,553,000 bu, an increase of 137,000 bu. Stock one year ago, 6 948,060 bu. Contract stocks increased 133,442 bu, and are now 1,651,375 bu, against 3,372,720 bu last year. *Bradstreet's* available supply increased 604,000 bu, against 1,212,000 bu increase for same week in 1903. Western receipts 550,000 bu; last year 988,000 bu. Shipments 524,000 bu, and 856,000 bu respectively. Local arrivals 381,000 bu and shipments 403,000 bu. Withdrawals large, 642,000 bu, and exports 159,000 bu. Shipping demand moderate and sales 75,000 bu. Government weekly weather bulletin noted favorable progress in the maturing of the crop. Cable bids on Corn were reported 1½c out of line. Car lots were in lighter supply and fair demand. Prices were a trifle higher. No. 2 closed about 53¾c. No. 2 Yellow sold at 54½c and closed at 54¾c. No. 2 White sold at 53c. No. 3 closed 52½c. No. 3 Yellow closed about 54½c. No. 3 White sold 52½@52¾c. No. 4 at 53½c for yellow.

Corn by sample—Was unchanged to ¼c higher. Offerings were smaller and the demand was good. Sales on track and free on board: No Grade sold at 50@50½c. No. 4 at 50@54¼c. No. 3 at 52@52¾c. No 3 Yellow at 54½@54¾c. No. 2 at 53¾c. No. 2 Yellow at 54½@55c. No. 3 White at 52½@52¾c. Billed through: No. 4 at 50¼@52¾c. No. 3 at 52@53¼c. No. 3 Yellow at 53½@53¾c. No. 2 Yellow at 54c. No. 3 White at 51¾c.

Future Deliveries of No. 2 Corn—Moderately active and somewhat unsettled, closing ⅛@⅜c higher.

SEPTEMBER—Sold at 52⅝c and 52¾@52⅞c. Opened at 52⅝c and sold at 52¾@52⅞c, to 52½c, to 52¾c, to 52⅝c, to 52¾c, to 52⅞c, to 52¾c, and closed 52¾c bid.

JANUARY—Sold at 48⅜c and 48½c.

MAY—Sold at 48½@49c. Opened at 48½@48⅝c to 48⅞c and sold at 48⅞@49c, to 48¾c, to 49c, to 48½c, to 48¾@48⅞c, to 48½c, up to 49c, to 38¾c, to 48¾@48⅞c, and closed at 48¾@48⅞c bid.

OATS—Were heavy most of the day and averaged lower. Prices receded ½@⅝c and at the close were steady for September and ¼c lower on other months. The weakness was on renewed selling by cash interests, and the rally in sympathy with other Grains and on covering by "shorts." Available supply increased 2,953,000 bu and is 29,436,000 bu. Stocks in Chicago in all positions are 10,177,000 bu, an increase of 291,000 bu. Contract stocks increased 362,281 bu and are 3,012,132 bu. Arrivals 174 cars, with 145 cars expected to-morrow. Withdrawals were 26,800 bu. Seaboard clearances 47,000 bu. Car lots to go to store were steady to ½c lower. No. 4 White sold at 30c. No. 3 White at 30¾c. Standard in store closed at 29⅝c. New York sold 50,000 bu for export and Chicago 50,000 bu for shipment.

Oats by sample were steady to ½c lower. Demand rather slow and offerings fair. Sales on track and free on board: No 4 White at 29@31c. No. 3 White at 30@32c. Standard at 31½@32½c. No. 2 at 30½c. No. 2 White at 32½c. Billed through: No Grade at 21@29½c. No. 4 White at 29½@29¾c. No. 3 at 29c. No. 3 White at 30@30¼c. Standard at 30½@30¾c. No. 2 White at 31c. At the river: No. 4 White at 27¾@28¾c. No. 3 White at 29@29¼c.

Future Deliveries of Contract Oats—Were weaker and lower.

SEPTEMBER—Sold at 29½@30c. Opened at 29½c, sold to 30c, to 29⅝c at close.

DECEMBER—Moderately traded in. Sold at 30¼@30⅝c and at 30¾c. Opened at 30⅝c to 30¾c, sold to 30¾c, to 30¼@30⅜c, to 30½c at close.

MAY—Active. Sold at 32½@32⅝c and at 33⅛c. Opened at 33c to 33⅛c, sold at 33⅛c, to 32½@32⅝c, to 32⅞c, to 32¾c at close.

RYE—Ruled quiet and unchanged. Offerings fair and demand light and the market did not sympathize with the advance in Wheat. Only five cars received. There were no withdrawals from store here and no exports from New York. No. 2 in store nominally 73½c and fresh arrivals free on board sold at 77½c. No 4 sold at 72c.

Future Deliveries of No. 2 Rye—Quiet and steady. September nominally 73½c. December sold at 76¼c to 76c and closed at 76c bid. May nominally 78½c.

BARLEY—The sales were at about yesterday's reduced prices. There was no change in this respect. The demand was only about fair. Maltsters have been such free buyers for some days that their wants were not urgent. The offerings were considerably smaller and yet there was an ample supply. The market cleaned up easier and better. There was not the depression experienced yesterday and to this extent the market was improved; it closed steady. Supply was mainly of low grade to good malting; little choice to fancy on sale. There were moderate offerings of feed and they were taken at former prices. Posted inspected in, 108 cars. Screenings had a quotable range of 30@38c for poor to choice, possibly 40c for fancy city; sales were at 36@37½c for poor seedy to good. Low-grade Barley feed sold at 37@38c. Low-grade malting, thin, or better weight, but stained or dirty, sold at 38@40c. Fair to good ranged at 41@45c, high-grade to choice at 46@49c, and a few fancy cars at 52c.

SEEDS—Considerable activity noted in the cash Timothy market, and feeling both for cash and futures was weaker, but in latter nothing was done. Flax quiet with Northwestern a shade higher, and Clover was quoted as slightly easier.

Timothy—An easy feeling prevailed. The cash market was quite active. There were larger offerings pressing on sale and some concessions had to be made. Futures inactive; buyers and sellers were apart. There was not after all exhibited any marked change in prices. September remained offered at $2 75 and $2 70 bid, and for October $2 70 was bid with $2 75 asked. January nominally about $2 80. March offered at $2 87½ and $2 85 bid. In some cases these prices indicated 2½c decline. Country lots quoted at $2 35@2 45 for fair to good, high-grade Seed sold at $2 50@2 55, choice to fancy nominally $2 60@2 75, poor Seed quotably down to $1 80@2 25; inferior lower.

Flax—There was le improvement for Northwestern cash Flax. It was in sympathy with advance in the Northwest. A few cars were sold. Otherwise the market was inactive and nominally unchanged. There were local receipts of 10 cars or 9,000 bu and withdrawals of 3 cars or 3,129 bu. Minneapolis got 34 cars and Duluth 42 cars. No. 1 Northwestern or No. 1 from the Northwest salable to day at $1 10½. No. 1 remained at $1 09 bid and Rejected was quotable at $1 06@1 14 depending on quality. September was nominally $1 09 bid and $1 11 bid for December.

Clover—Was called a shade weaker. A few lots, small unimportant lots were offered. Quotable: October delivery at $12 15. Contract spot Seed at the same. Country lots, common to choice, $9 00@12 00; fancy above. Fair to good, $10 25@11 50.

Other Seeds—There were only nominal quotations. Millets, common or German, 75@90c for common to choice, and Mustard also about 7@90c.

HOG PRODUCTS—Trade in a speculative way was fairly active in Hog Products. Near deliveries were rather firm and prices were higher, influenced to a great extent by the strength manifested in foreign markets, and the active consumptive demand at home. Stocks are being reduced rapidly and holders are quite firm in their views. Deferred deliveries were not quite so strong, though changes in prices were slight. Outside orders were fair and local trading was rather active. Offerings were not very large, especially of the near deliveries, while the demand was fair. Hogs were in fair supply and prices ruled slightly lower. Receipts at the leading Western packing points were estimated at 49,700, compared with 45,500 one year ago. Foreign markets were firm, and Lard quoted 6d higher. Receipts of Products were liberal—of Lard and Meats about 42 cars. Shipments were unusually heavy—of Lard and Meats about 201 cars. Demand on shipping account was brisk, and offerings were fairly large. Holders firm in their views, especially for Dry Salted Meats, and buyers accepted good quantities. Prices inclined somewhat in favor of buyers.

Mess Pork—Quite a good trade was reported in Mess Pork, and a comparatively steady feeling prevailed. Offerings were not very large, and the demand was fair. Market opened rather steady, and prices ruled 2½@5c higher. Later, the feeling was not quite so firm, and prices settled back 5@7½c, and the market closed steady at medium figures. Demand on shipping account was light, and offerings were moderate. Cash lots were quotable at $11 70@11 80.

SEPTEMBER—Quiet and quotable at the close at $11 60.

OCTOBER—In good request, and offerings were moderate. Sales were made at $11 57½@11 65. Opened at $11 62½, sold to $11 60, to $11 65, to $11 57½, to $11 65, to $11 62½, to $11 65, to $11 62½, and closed steady.

DECEMBER—Quiet, with small sales at $11 72½@11 77½.

JANUARY—Offerings were not very large, and the demand was fair. Sales were made at $13 30@13 40. Opened at $13 37½, sold to $13 40, to $13 35, to $13 40, to $13 30, to $13 35, to $13 30, and closed steady.

Lard—Rather a good business was transacted in the Lard market, and the feeling was rather firm. Offerings were moderate, and the demand was fairly active. Foreign advices more favorable to holders. Shipments were quite liberal. Fluctuations in prices were confined within a narrow range, and the market closed rather steady at medium to outside figures. Demand on shipping account was good, with moderate offerings. Cash lots quotable at 2½c premium on October figures, closing at $7 45. Loose lots were in fair request, with very small offerings. Prices quotable at 10c discount on October figures. Leaf Lard was in good demand, with very limited offerings. Quotably steady at about $7 60 for very small lots. Neutral in light demand, with moderate offerings. Prices quotably steady at $8 75@8 87½ for No. 1, and $8 12½@8 25 for No. 2.

SEPTEMBER—Quiet, with small sales at $7 42½.

OCTOBER—In rather good request with fair offerings. Sales were made at $7 37½@7 45. Opened at $7 40 to $7 42½, sold to $7 37½, to $7 40, to $7 37½, to $7 42½@7 45, to $7 42½, and closed steady.

NOVEMBER—Quiet and steady, with light trading at $7 42½@7 45.

DECEMBER—Sold sparingly at $7 35.

JANUARY—Offerings were moderate and the demand was fair. Sales were made at $7 42½@7 50. Opened at $7 47½, sold to $7 50, to $7 42½, to $7 45, to $7 42½, to $7 47½, and closed steady.

Short Rib Sides—Trade was quite active in the market for Short Rib Sides, and the market was firm in a general way. Offerings were not very free, and the demand was moderately active. Urgent shipping demand strengthened the speculative market. Prices were advanced 2½@5c early, but settled back again 5@10c. Market closed steady at medium figures. Shipping demand was good, but offerings were moderate. Cash lots were quotable at $7 75@8 00 according to weight.

SEPTEMBER—Quiet and quotable at $7 77.

OCTOBER—In rather good demand, with limited offerings. Sales were made at $7 72½@7 82½. Opened at $7 82½, sold to $7 72½, to $7 77½, to $7 72½, to $7 75, to $7 72½@7 75, and closed steady.

JANUARY—Offerings were not very free, and the demand was fair. Sales were made at $6 87½@6 95. Opened at $6 95, sold to $6 87½@6 90, to $6 92½, to $6 90, to $6 92½, to $6 90@6 92½, and closed steady.

MAY—Demand was light and offerings were small. Sales were made at $7 07½@7 10.

Other Meats—Trade was very active and mainly on domestic account. Exporters bought moderately. Offerings moderately free and inquiry was brisk. Green Meats in moderate supply with light inquiry and prices ruled steady. Pickled Meats in only moderate request, with fair offerings, and prices favored buyers. Dry Salted Meats were in active demand with moderate offerings, and prices ruled higher. Smoked Meats called for moderately and prices were higher. Closing prices were as follows:

RUSSIAN CROP ESTIMATE.

[From the Liverpool Corn Trade News, Sept. 15.]

Referring to the telegraphic report received yesterday from St. Petersburg, at the moment of going to press, and published in our last issue, we would now add that in connection with former years the yield of Winter Wheat is much below an average, but the Spring Wheat crop is rather over the average of former years, so that before the big yields of 1902 and 1903. The aggregate production of both sorts this year is given as 3-3,000,000 bu., which compares with 448,000,000 bu. in 1903, 456,000,000 bu. in 1902, 320,000,000 bu. in 1901, and 312,000,000 bu in 1900. The Rye, Oats and Barley crops are of a normal size. When the final official returns of the Central Statistical Society are issued next December we believe they will be found to corroborate the present estimates.

THE WEATHER CONDITIONS.

Extreme Northwest, temperature 36 to 58; generally clear. Northwest, temperature 46 to 56; generally cloudy. West, temperature 56 to 76; cloudy general rains in Iowa and Illinois. Southwest temperature 66 to 76; partly cloudy. Ohio Valley, temperature 56 to 76; cloudy.

Indications are temperatures will continue comparatively high, but will fall somewhat west of Missouri River to-morrow.

The Cumberland Coal Company has declared a dividend of 3 per cent and an extra of 3 per cent on the Carnegie Company and asking the stockholders to assent to a plan for issuing $6,000,000 bonds.

New York bankers have bought from the Pittsburg, Cincinnati, Chicago and St. Louis Railway Company $9,000,000 of its consolidated mortgage 4 per cent bonds. Part of this issue is for refunding maturing bonds.

The Chicago *Economist* says plans are in hand for a consolidation of the Northwestern Elevated and the Chicago and Oak Park Elevated. Terms of the deal are not stated at this time.

The estates of nineteen stockholders of the American-German Bank of Sydney, Ohio, and the affairs of the bank itself were put in the hands of a receiver, Friday. Discrepancies of $160,000 in the books are reported.

Western range Cattle receipts at Chicago for the week was 19,000 against 8,500 the previous week, 11,000 a year ago and 10,000 two years ago. Texans for the week 1,000, against 3,300 the previous week, and 9,000 a year ago.

Wheat in the Carrington farms near Carrington, N. D., in the James River Valley, is half threshed. The yield is 13 bu per acre, weight 58 to 61 lbs, and Macaroni Wheat yields much heavier. Flax will run 18 bu to the acre reported killed by frost. Barley, 27 bu. Farmers there are selling freely.

Three of the International Harvester Company's plants will reopen Sept. 26, giving employment to 9,000 men. The plants to open are the Deering, McCormick, and Plano branches of the company. All of these plants have been closed since Sept. 10 in order that repairs and other improvements could be made.

The American Light and Traction Company, which controls various Gas properties in Milwaukee, Grand Rapids, St. Joseph, Kansas City and other Western and Southern cities, reports a surplus of $435,000 after dividends for the year ended June 30, as compared with $538,000 in the preceding year and $316,000 in 1902.

At a meeting in New York, Friday, of the Iron Iron pool the official price has been reduced $1 00 per ton to $17 30 per 100 lbs Pittsburg and $14 80 per loads lots New York. It was said there was no other course for the pool members owing to the recent action of the Steel Bar Association in cutting the price to the same basis.

Berlin advices of Sept. 8 state: "The gathering of Potatoes has begun. As expected, the results of the early crops are bad; at the same time reports from many districts are unfavorable and a great number are moderately good; but even should the late crops be favorable, the total Potato yield will fall far short of last year's."

The Paris *Bulletin des Halles* estimates the French Rye crop this year at only 46,800,000 bu, against 78,860,000 bu last year. The Barley crop is put at 40,000,000 bu, against 47,200,000 bu last year; and the Oats crop at 264,000,000, against 254,000,000 bu last year, and 264,000,000 bu in 1902.

One week of good weather has done much for Corn in Iowa. A Des Moines party wired: "Saturday afternoon I examined the Corn fields that I was in just one week ago, which then were considered late Corn and would require all this month to mature. I found these safe from a heavy frost. Iowa Corn is practically finished. Farmers are cutting and shocking Corn. Weather fine."

A Chicago cotton authority says, as an authority on Corn, has been in the Southwest making a personal inspection of the crop. He says Kansas will have 180,000,000 bu Corn; Oklahoma and Indian Territory, 100,000,000 bu, or 25,000,000 bu more than last year; Texas, 160,000,000 bu, or 20,000,000 bu more than in 1903. Oklahoma and Indian Territory Corn will go 30 bu to the acre, Texas 15 bu.

Amalgamated Copper Company directors meet next month to take action on the regular quarterly dividend. Representatives of the controlling interests say that, although there would be no change in the rate, and the regular quarterly dividend of one-half of 1 per cent would be declared. The management intends to accumulate a large surplus before increasing the present rate of dividend.

The reorganization committee of the United States Ship Building Company hopes to turn over the reh ibilitated company in working condition by Nov. 1. A letter issued by the committee at San Francisco on Sept. 23, the reorganization plan will proceed much more rapidly. The election of directors of the Bethlehem Steel Company on Oct. 27 will probably be the orgalization of the new ship building company.

The *Corn Trade News* of Sept. 15 says: "The weather in France is very favorable for fall plowing. Offers of Wheat in commercial markets are not large, but the demand is not active and prices have been about unchanged. At yesterday's Paris weekly market there was a good attendance, but not much business, sellers generally reserving to the situation and millers trying to secure bargains; flour is still a bad sale, and this does not encourage fresh buying."

The Lemon growers of California will be saved about $200,000 this season by an agreement just reached by the Southern Pacific and Santa Fe systems and their connections to reduce the rate from $1 25 to $1 00 per box on Lemons from common points to Chicago This becomes effective Nov 10. Last spring the railroads temporarily adopted a rate of $1 00, but it expired June 15. It is estimated that California's next Lemon crop will be about 3 500 car loads.

Pacific Coast Wheat is likely to revolutionize the Wheat trade of the country," said one of the largest cash handlers. "We began buying there two months ago, and others have followed For years Eastern millers have refused to have anything to do with the North Pacific Coast Wheats But of late they have been using it with great success as a blend, and are getting the best results. This makes it ready sale So long as it can be obtained at reasonable figures it will be extensively used."

Dornbusch's Buda Pesth correspondent writing under date of Sept 19 says: "The Hungarian Wheat has been quieter this week. The business done was for home demand only, the total quantity sold representing about half the week's production, while export was at a standstill. A fair quantity was, however, offered by speculative and old contracts, and stocks have therefore been appreciably reduced The demand in mill feedingstuffs is being met from second hands and sellers are rather easier."

Since the first of the year the total stock of money in the United States has increased from $2,763,152,320 to $2,859,273,316, a gain of more than $96,000,000. In the same time the money in actual circulation has increased $112,000,000, the amount Jan 1 being $2,446,345,897, and the amount Sept. 1 being $2,558,279,924. The circulation of National Bank notes has increased continuously for more than a year. On Aug. 1 last year they were in excess of $647,000,000, and on Sept. 1 were $653,616,000. Since August, 1902, the National Bank note circulation has been higher than at any previous period, the high point up to that time being $352,000,000 in 1892.

The fifty fourth annual report of the Illinois Central Railroad Company, covering the fiscal year ended June 30 last, shows an increase in operating expenses of $2,000,000 over the preceding year, while the gross receipts from traffic increased only $1,616,000, making a decrease in net earnings of $1,352,671. The increase in operating expenses is due to the prolonged and intense cold of the past winter, the greater cost of fuel and a raise of more than $1,200,000 in the wages of those solely engaged in this department. The total amount paid for wages in all branches of service the past year was $23 009,689. The preceding year the amount was $20,809,194, or $2,400,495 less than in the last year.

A dispatch from Washington says: "The United States will have to help feed Central Europe during the coming autumn and winter on account of its drought. Mr. Hermann Kumpf, Consul General and France. Consul General Mason at Berlin says that since Aug. 15 a careful inquiry as to the general agricultural situation has been made by the central station for state agriculture, and their report shows a falling off from the yield of last year in Spring Wheat, Winter Rye, Spring Rye, Barley and Oats. Winter Wheat furnished the only exception. Mr. Mason says the effects of the drouth on pastures, meadows and root crops of all kinds is serious. 'Milk, Cheese and Butter are reduced in quantity and advanced in prices,' says the Consul General. 'Fruits which were very fine in early summer promised a full average yield have to a serious extent been ripened prematurely by the prolonged intense dry heat.' The Consul General predicts an increased demand to only Corn, Wheat and Rye from the United States, but for fresh and preserved Fruits, dried and salted Fish and such Meats as the present inspection law of Germany permits to be imported."

A Youngstown, Ohio, dispatch says: "That the Republic Iron and Steel Company is in earnest in its aggressive competition with the United States Steel Corporation is evidenced to some extent by the fact that it has already let the contract to the Lloyd Booth department of the United Engineering and Foundry Company for the construction of a structural Steel plant to cost about $250,000. It is also stated that the company has under consideration plans for the construction of a wire mill, a sheet mill, a rod mill and a rail mill. It is said that part of the proposed issue of $10,000,000 of bonds by the company will be used to pay the cost of construction of these various mills, besides refunding maturing obligations. Besides which the company controls its own Ore, as well as its Coal, Coke and Limestone requirements. Thus far officials of the company are reticent regarding the company's income from its Oil business, but people with good sources of information say that it cannot be less at the present time than from $600,000 to $650,000, and this is likely to be largely increased as developments are carried out. As any rate the officials and management are very enthusiastic over the situation so far as the Oil proposition is concerned."

Bombay *Price Current* Aug 26 says: "We have again to record a week of fine weather throughout this Presidency, and up to the time of writing the meteorological reports give no promise of rain in the near future. The crops are in a critical and withering away in large tracts of country, while the long expected rain is still anxiously looked for. So far as Cotton is concerned the general advices received to date are not unsatisfactory, but even for this crop, which can thrive on a moderate deficiency in the rainfall, further light showers will be required before the Berars, Khandesh, Guzerat and Kathiawar. In parts of the Central Provinces and Rajputana, and in the United Provinces, heavy rain is again reported this week. In fact, in some districts the continued break in the rains is required. But on this side of India, the already large minus quantity is daily increasing, and under these conditions the anxiety is getting more pronounced. As is customary towards the end of the month, some moderate exports, chiefly consisting of Oilseeds and Wheat, have appeared in the Bombay Market. There has also been a certain revival in these markets due to better advices received from Europe. With regard to Cotton, however, the very small available stock in Colombo, the good local inquiry, leave but little available for export."

The first trades in Corn for July delivery were made to-day at 49½@50c, or about ½c over May.

Reported that 32,000 bu Wheat and 64,000 bu Corn were taken at the seaboard to-day for export.

Nine packers purchased 15,100 Hogs to-day; shippers, 3,000; left over, 7,000. Market closed weak.

Deliveries on September contracts to-day were 75,000 bu Wheat, 135,000 bu Corn and 10,000 bu Oats.

A Des Moines party says estimates on Iowa's Corn crop range from 250,000,000 to 300,000,000 bu, an average of 275,000,000 bu.

Estimated receipts for to-morrow: Wheat, 79 cars; Corn, 138 cars; Oats, 155 cars; Rye, 7 cars; Barley, 110 cars; Hogs, 18 000.

Kansas City reported, Tuesday, that hot summer temperatures there have prevailed since Friday, which is maturing the late Corn.

The Chicago and St. Louis Exchanges will be closed Saturday, Oct. 8, "Chicago Day." This is to enable members to visit the St. Louis World's Fair.

Average cost price of Hogs at Chicago, Tuesday, was $6 02, against $6 07 Monday, $5 91 last Saturday, $6 00 a week ago, $5 38 a month ago, and $5 87 a year ago.

Cotton in New York averaged lower. Liverpool closed at a drop of 5 to 7 points and there were good realizing sales. The market closed steady to 6 points lower.

A statement is made that it is expected Iowa will average 40 bu per acre, but it will not reach it. It is doubtful if Iowa ever raised to exceed 40 bu per acre, and the indications of the Department of Agriculture are only for about 33 bu.

The Chicago-St. Louis railroads on Tuesday agreed to make a rate of $5 00 to St. Louis and return on account of Chicago Day at the fair. The tickets will be good on all trains leaving Chicago Thursday and Friday, Oct. 6 and 7, and for return on all trains leaving St. Louis Saturday and Sunday, Oct. 8 and 9.

The DAILY TRADE BULLETIN is the only publication in the United States that makes an estimate of the Corn crop by States in detail, as indicated by the returns of the Department of Agriculture, and the alleged "crop experts" would have no specific figures for a guide were it not for the compilation of the DAILY TRADE BULLETIN.

The Iowa crop bulletin says: "The reports show more than the usual variableness in the Corn crop. It appears that three-fourths of the entire crop is now practically safe. With a week of warm weather, the bulk of the Corn will be fairly well matured, but at least there is likely to be somewhat more than the usual percentage of Corn failing to reach full maturity."

Duluth says: "Three million bushels Wheat will pass through this market from Washington and go down the lakes on boats before the close of navigation. Three thousand cars will be required to move the cereal, which will tie up that amount of rolling stock, which has never before been employed in this work, only a little of Washington Wheat ever having come East."

Stocks had a stronger undertone in the early trading, with Steel issues a feature. London was higher, and acted as a stimulating influence. Western houses were good buyers, but Western Railway shares only gained ⅛ to ¾, and lost the greater part. Atchison closing lower. Steel preferred advanced 1½ points. American Ice preferred advanced 2⅜. Coalers were ¾ to 1½ points higher to ½ lower. Money 1¾ to 2 per cent.

In Local Securities the feature was the buying of Elevated shares and their sharp advance. Metropolitan Elevated led. The report was that road will show 5 per cent earned on preferred stock for the current half year, against 2 per cent earned for the full year, ending June 30. Common advanced 2⅜ and preferred 4½, but the latter reacted ¾. Northwestern Elevated common advanced 2 and South Side 1 point. Industrials were fairly traded in, with small gains.

It is reported in New York that a call for a meeting of the directors of the United Box Board and Paper Company will be sent out in a day or two to get the board together some time next month to consider a plan to reorganize the company. The treasurer is quoted as saying that there is absolutely no truth in the story that the so-called "leasing down" plan by which it is hoped to curtail the production of box board to 500 tons a day until the consumption greatly improves had been abandoned. Speaking about the matter he said: "The proposed plan has not yet been completed, but satisfactory progress is being made and the proposition is now nearer a point of being successfully carried out than ever before." President Barber, with other men prominent in the management of the United Box Board and Paper Company, is said to be still working hard to get into line the mills that have not yet agreed to join the scheme.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Good local and domestic call and prices well maintained. Bids from abroad are closer to working than any time in six months. One mill was close to working 20,000 brls yesterday.

WINTER WHEAT—Was unchanged in prices and market little slower. There was less demand on milling account. No. 2 Red in store ranged at $1 12¼@1 14¼, and fresh arrivals free on board quotably $1 16@1 18. No. 3 Red fresh arrivals free on board sold at $1 13@1 14 and at the river at $1 08. No. 4 Red fresh arrivals free on board sold at $1 03@1 10. No Grade Red fresh receipts free on board sold at $1 05@1 09. No. 2 Hard fresh arrivals free on board quotably $1 10@1 14. No. 3 Hard fresh arrivals free on board quotably $1 05@1 10 and sold at the river at $1 05½. No. 4 Hard at the river sold at $1 00. No. 4 White sold at $1 08.

SPRING WHEAT—Offerings small and demand moderate. Market firm. No. 1 Northern fresh arrivals free on board quotably about $1 20 and No. 2 Northern fresh arrivals nominally $1 18. No. 3 Spring nominally $1 15@1 15 for poor to very choice. No. 4 sold at 67@99½c for very poor to fair, and quotably up to $1 10@1 12 for choice hard variety.

REGULAR WHEAT—A fairly good trade, with the feeling mixed, the close showing a gain of ¼c for December, and ⅛c for May. There was selling at the start, owing to the irresponsive cables and heavy Northwestern receipts, but at the decline a fair commission house demand developed. Market was helped to some extent by the predictions of smaller receipts in the Southwest and reduced estimates on the Australian crop, due to dry weather. *Broomhall* cabled: "Our cables confirm the rumors that drouthy conditions have recently prevailed in Australia, but the weather is now improving. Shippers estimate that the crop will likely be only 65 per cent of last year, so that another light crop is promised, following those of 1901 and 1902. Last year's crop was the largest on record, being estimated at 79,500,000 bu." The commercial editor of the Kansas City *Star* predicted the run of Wheat to the Kansas City market would be under 100 cars a day next week. St. Louis wired: "In addition to the unprecedented demand for all kinds of cash Wheat, there is now some talk of late fall seeding owing to the continued wet weather." A sale of 15,000 bu No. 2 Red in store was made there at December price. Winnipeg reported 176 cars received—2 cars No. 1 Hard, 10 cars No. 1 Northern, 40 cars No. 2 Northern, 22 cars No. 3 Northern, 10 cars No. 4, 86 cars No Grade and 6 cars rejected. Liverpool quoted spot steady to ½d higher and futures ⅛@½d higher. London came unchanged. Paris was ¼@½c lower. Berlin was ¾c higher and Buda Pesth ½c lower. Antwerp unchanged. Fair weather was predicted for both North and South Dakota. Duluth wired that Eastern buyers were offering to resell Wheat purchased some time back. Minneapolis wired: "Country deliveries of Wheat are good and receipts at terminals will be large. The quality will be of all grades; some very good, some very poor. The Flour demand is only fair and mills have less Flour sold ahead than usual at this time of the year." Primary receipts were 213,000 bu larger than a year ago. Northwest cars 186 larger. Kansas City and St. Louis received 251,000 bu; last year 192,000 bu. There was some talk of dry weather in Oklahoma. Minneapolis stocks reported increased but 50,000 bu so far this week. A rumor was in circulation that the French crop was officially estimated 68,000 000 bu smaller than last year. Exports were very small and only three boat loads accepted at the Atlantic seaboard. Receipts at Duluth 408 cars and at Minneapolis 587 cars, a total of 995 cars, against 918 cars yesterday, 606 cars a week ago, and 809 cars last year. Local receipts included 52 cars Winter, 9 cars Spring and 6 cars mixed, a total of 67 cars, against 47 cars last year. Included in the above was 1 car of contract grade. There were 19 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 79 cars. Withdrawals were none. The receipts at Western points were 1,320,490 bu, against 1,116,584 last year. At Eastern points 110,057 bu, against 315,105 last year. Shipments from Western points were 497,713 bu, against 531,223 last year, and from Eastern points 7,407 bu, against 59,526 bu last year. Shipments of Flour were 1,951 brls. Exports of Wheat in Flour were equal to 16,187 bu.

Future Deliveries of Regular Wheat—Fair trade and market firm.

SEPTEMBER—Old Style—Sold at $1 14@1 14½. Opened at $1 14; sold to $1 14½, to $1 14, and closed about $1 14.

SEPTEMBER—New Style—Sold at $1 09⅞@1 11⅝. Opened at $1 10; sold to $1 10⅝, to $1 09⅞, to $1 11¼, to $1 11⅝, to $1 11⅛, and closed at $1 11⅛.

DECEMBER—Sold at $1 11⅝@1 13⅜. Opened with sales at $1 11¾ to $1 11⅝; sold to $1 11½, to $1 12¼, to $1 11¾, to $1 12, to $1 11¾, to $1 12⅝, to $1 12⅛, to $1 13, to $1 12⅞, to $1 13⅜, to $1 12⅝, to $1 13⅛, to $1 12½@1 12⅝, and closed at $1 12½@1 12⅜.

MAY—Sold at $1 12¼@1 12⅝ and at $1 14¼. Opened with sales at $1 12⅞ to $1 12⅝; sold to $1 12¾, to $1 12⅜@1 12½, to $1 13½, to $1 12⅞, to $1 13⅛, to $1 12⅝, to $1 13½, to $1 12⅞, to $1 13⅞, to $1 13½, to $1 14⅛, to $1 14, to $1 14¼, to $1 13½, to $1 13⅞, to $1 13⅜, and closed at $1 13⅜.

CORN—A better trade, the close showing the December up 1¼c, while the May gained but ⅞c. The feature was the demand for December, there being a good deal of changing, buying December and selling May, the spread widening out to 2c as against 1⅜@1½c yesterday. Cables were firm, receipts small, and cash values were higher, all of which tended to impart strength to the speculative market. Buying was led by local professionals, and several good-sized "short" lines were purchased early in the session. On the other hand, Wheat was easy, temperatures generally higher, and crop advices of a favorable tenor. Lincoln wired: "From 225 000,000 to 240,000,000 bu Corn for Nebraska, and strictly No. 2 as soon as it is dry." Kansas City wired: "Weather could not be better for Corn." Showers and thunderstorms indicated for Illinois, Indiana, Missouri, Iowa, Nebraska and Kansas. Receipts 184 cars, against 339 cars a year ago, and 138 cars estimated to-morrow. Western receipts, 541,000 bu, were 401,000 bu smaller than a year ago. Shipments, 406,000 bu, were 350,000 bu less. Local arrivals were 426,000 bu and shipments 194,000 bu. Withdrawals from store 262,000 bu and exports 18,000 bu. Seaboard reported 8 boat loads accepted. Shipping demand fair and holders firm. Sales 150,000 bu. Car lots were in good demand and small supply. Prices were ¼@½c higher. No. 2 closed about 53¾c. No. 2 Yellow closed at 54¾c. No. 3 sold at 52¼c and closed at 53½c. No. 3 Yellow closed at 55½c. No. 3 White sold at 52½c. No. 1 sold at 51½@54½c, outside for yellow.

Corn by sample—Was unchanged to ½c higher. Offerings were very moderate and the demand good. Sales on track and free on board: No Grade sold at 45c. No. 4 at 51@54½c. No. 3 at 53@54c. No. 3 Yellow at 54½@55½c. No. 2 Yellow at 55½c. Billed through: No. 4 at 49½@53½c. No. 3 at 51½@52c. No. 3 Yellow at 53½@54c. No. 3 White at 51¾c.

Future Deliveries of No. 2 Corn—Active and stronger, closing ⅞@1¼c higher.

SEPTEMBER—More doing. Sold at 52¾c and 53¾@53⅞c. Opened at 52¾c to 52⅞c, and sold at 53¼c, to 52¾c, to 53c, to 52¾c, to 53¾c, to 53⅝c, to 53¾@53⅞c, to 53⅝@53¾c, and closed at 53⅝@53¾c.

OCTOBER—Sold at 53⅛c.

DECEMBER—Sold at 50⅛@51⅞c. Opened at 50⅛c to 50¼c and sold at 50¾@50⅞c, to 50½c, to 51⅛c, to 51c, up to 51⅞c, to 51½c, to 51⅝c, and closed at 51⅝c asked.

MAY—Sold at 48⅝@49⅞c. Opened at 48¾c to 48⅝c and sold at 49⅛c, to 48⅝c, advanced to 49¾c, to 49½c, to 49⅞c, to 49⅝c, to 49⅝@49¾c, and closed at 49⅝@49¾c.

JULY—First trades were made at 49½c, later sold at 50c or about ½c over the May.

OATS—Were more actively traded in and advanced ½@⅝c and closed ¼@⅜c higher. A feature was a reduction in the selling by hedgers and more buying against cash sales, also covering by speculative "shorts." Cash sales were 75,000 bu and charters for 100,000 bu. Arrivals were 166 cars here and 132 cars at Minneapolis. Seaboard clearances 17,000 bu. Car lots to go to store were steady to ½c higher. No. 4 White sold at 29c. No. 3 White at 30½c. Standard closed at 29⅞c.

Oats by sample were steady to ½c higher. Demand was improved. Eastern shippers taking hold more freely. Offerings were fair. Sales on track and free on board: No. 4 White at 29½@30½c. No. 3 White at 30@31¼c. Standard at 31½@32¼c. No. 2 White at 32@32¼c. Billed through: No. 3 White at 31½@30¾c. Standard at 30½@30¾c. No. 2 at 29½@29½c. At the river: No. 4 White at 29@29¼c. No. 3 White at 29@29¾c. Standard at 30c.

Future Deliveries of Contract Oats—Were higher, with fair trading.

SEPTEMBER—Sold at 29⅝@30⅛c. Opened at 29⅝c, sold to 30⅛c, to 29⅞c at close.

DECEMBER—Sold at 30¼@30⅞c. Opened with sales at 30¼@30⅜c to 30⅜@30½c, sold to 30⅞c, to 30¾c at close.

MAY—Active. Sold at 32⅝@33¼c. Opened at 32⅝c to 32¾c, sold to 33¼c, to 33⅛c at close.

RYE—Was firm. The offerings were light and demand moderate. Feeling firmer. There were no withdrawals here and no exports from New York. No. 2 in store nominally 75c—that figure asked. Fresh receipts sold at 77@78c. No. 4 sold at 73@75c.

Future Deliveries of No. 2 Rye—Firm. No trading. September 75c asked. December 76c bid and 77c asked. May nominally 78½c.

BARLEY—Offerings have decreased so as to have become very moderate of fresh arrivals. There was some held over Barley which helped to give the market a total fair supply. The usual buyers were not in urgent need of Barley because they have secured a good deal the last few days. There remained, however, a fair demand. The fresh lots, also those held over were taken. About yesterday's prices prevailed in the sales. There could be said to have ruled a steady market, with no special change or feature of news. To arrive lots remain neglected. Posted 127 cars received. Advices were said to indicate considerable Barley on the way. Market for Screenings quotable at 30@38c for poor to choice, possibly 40c for fancy city; sales were at 30@37½c for poor to good. Low-grade Barley feed sold at 35@38c. Low-grade malting, thin, or better weight, but stained or dirty, sold at 38@40c. Fair to good ranged at 41@45c, high-grade to choice at 46@49c, and fancy quotably up to 50c.

SEEDS—There was an easy market for cash Timothy. There were good sales. Flax and Clover were firmer, a shade better with both very quiet.

Timothy—On the cash market there was a good supply and demand tame. Few buyers appeared, and instead of there being competition there was a disposition to expect concessions or not buy. Cash prices were quoted as 2½@5c lower. Futures lifeless; apparently few speculative orders. Future delivery quotations not materially changed. September delivery was $2 70 bid, and for October $2 70 was bid. January nominally about $2 80. March offered at $2 90 and $2 85 bid. Country lots quoted at $2 30@2 40 for fair to good; high-grade Seed sold at $2 45@2 50; choice to fancy nominally $2 55@2 60; poor Seed quotably down to $1 85@2 25; inferior lower.

Flax—There was quoted ½@1c advance in prices based on better quotations in Northwestern markets. There was, at the same time, an absence of offerings, excepting of a small quantity of cash Seed, and the market ruled exceedingly quiet. There were 3 cars or 2,700 bu received and the same number of cars, or 3,106 bu, taken out. Minneapolis received 60 cars and Duluth 26 cars. No. 1 Northwestern or No. 1 from the Northwest sold at $1 18, and a bag lot at $1 15. No. 1 was $1 10 bid and Rejected was quotable at $1 07@1 15 depending on quality. September was nominally $1 10½ bid and December was nominally $1 12½.

Clover—The feeling was stronger to the extent that a reaction in prices from yesterday's small decline was quoted. Some small lots of cash Seed on sale ranging from common to very poor quality and sales made at $6 00@9 50. October delivery was quoted at $12 25. Contract spot Seed at the same. Country lots, common to choice, $8 00@12 00; very poor lower, and fancy above. Fair to good $10 25@11 50.

Other Seeds—Millets, common or German, quotable at 75@90c for common to choice, and Mustard also about 7@8c.

HOG PRODUCTS—Rather a good speculative trade was reported in Hog Products, and the undertone to the market was easier in a general way. Offerings were moderately free, especially of the deferred deliveries, while the demand was only fair. Outside orders were not quite so large, and local trading was fair. Hogs were in rather good supply and prices lower, and the Grain markets were unsettled, and these features encouraged a little selling of Products. Prices ruled somewhat lower on all the leading articles, and the market closed around inside figures. Rather more disposition to sell January delivery. Receipts of Hogs at the leading Western packing points estimated at 56,700, compared with 55,900 one year ago. Foreign markets were steady for Meats, excepting Hams, which were 6d lower, while Lard was stronger and 9d higher. Domestic markets steady. Receipts of Products were liberal of Lard and Meats about 41 cars. Shipments were fairly large—of Lard and Meats about 167 cars. Inquiry on shipping account was good, and offerings were moderate. Sales were fair, and prices were well supported.

Mess Pork—Trade was fair in the market for Mess Pork, and the feeling was easier. Offerings were moderately free, and the demand was fair. Market opened rather easy, with a little pressure to sell, and prices ruled 5@10c lower, which was followed by a further reduction of 2½@5c, and the market closed steady at about inside figures. Demand on shipping account was light, and offerings were small. Cash lots were quotable at $11 50@11 60.

SEPTEMBER—Quiet and quotable at $11 50.

OCTOBER—In moderate request, and offerings were fair. Sales were made at $11 47½@11 52½. Opened at $11 50 to $11 52½, sold to $11 47½, to $11 52½, to $11 47½, to $11 50, to $11 47½, to $11 50, to $11 47½, to $11 52½, to $11 50, and closed steady.

DECEMBER—Quiet, with light trading at $11 52½@11 65, and closed at $11 52½.

JANUARY—Offerings were fair, and the demand was only moderate. Sales were made at $13 15@13 25. Opened at $13 25, sold to $13 22½, to $13 25, to $13 20, to $13 22½, to $13 15, and closed steady.

Lard—Quite a good business was reported in the Lard market, and the feeling was comparatively steady. Offerings were not very large, and the demand was rather active. Foreign advices more favorable to holders—Liverpool advanced 9d. Market opened with a little pressure to sell, and prices ruled 2½@5c lower. Later a steadier feeling was developed and prices rallied again, but settled back again 2½@5c, and the market closed steady around inside figures. Demand on shipping account was good, with moderate offerings. Cash lots quotable at 2½c premium on October figures, closing at $7 40. Loose lots were in fair request, with very small offerings. Prices quotable at 10c discount on October figures. Leaf Lard was in good demand, with very limited offerings. Quotably steady at about $7 50 for very small lots. Neutral in light demand, with moderate offerings. Prices quotably steady at $8 75@8 87½ for No. 1, and $8 12½@8 25 for No. 2.

SEPTEMBER—Quiet and steady, with small sales at $7 37½@7 40, and closed at $7 37½.

OCTOBER—In rather good demand with fair offerings. Sales were made at $7 37½@7 42½. Opened at $7 37½ to $7 40, sold to $7 42½, to $7 37½, to $7 40, to $7 37½, and closed steady.

NOVEMBER—Quiet and steady, with small sales at $7 37½.

DECEMBER—Sold sparingly at $7 27½.

JANUARY—Offerings were rather free, and the demand was active. Sales were made at $7 37½@7 42½. Opened at $7 40 to $7 42½, sold to $7 40@7 42½, to $7 42½, to $7 37½@7 40, to $7 40@7 42½, to $7 40, to $7 42½, to $7 37½, and closed steady.

MAY—Quiet and steady, with light trading at $7 52½@7 55.

Short Rib Sides—A fairly good trade was reported in Short Rib Sides. Offerings were moderately free, and the demand was fairly active. Near deliveries were rather firm, and transfers were made from September to October at 2½c premium for the former. Early, there was some inclination to sell, while the demand was only moderate. Prices ruled 5@7½c lower. Later, more steadiness was manifested and prices rallied 2½@5c and the market closed rather steady, especially for October delivery. Demand on shipping account was good, and the offerings were fairly large. Cash lots quotable at $7 75@7 87½ according to weight.

SEPTEMBER—Quiet and steady, with only limited sales at $7 72½@7 75, and closed at $7 75.

OCTOBER—In rather good demand, with moderate offerings. Sales were made at $7 67½@7 75. Opened at $7 72½, sold to $7 67½, to $7 75, to $7 72½, and closed steady.

JANUARY—Offerings were fairly liberal, and the demand was moderate. Sales were made at $6 82½@6 90. Opened at $6 87½ to $6 90, sold to $6 85, to $6 87½, to $6 82½, and closed steady.

MAY—Quiet, with light trading at $7 00.

Other Meats—Trade was fairly active and mainly on domestic account. Exporters bought sparingly. Offerings moderately free and inquiry was good. Green Meats in moderate supply with light inquiry and prices ruled steady. Pickled Meats in only moderate request with fair offerings, and prices favored buyers. Dry Salted Meats were in active demand with moderate offerings, and prices ruled steady. Smoked Meats called for moderately and prices were steady. Closing prices were as follows:

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Sept. 22.]

Wheat—Harvesting is almost completed all over the Wheat belt of the entire Northwest, and another fortnight will see everywhere the completion of the same. There is no doubt that the results will be a great surprise to many, notwithstanding the light yields of spring acreage. The increased acreage will show a very large yield on the whole. The weather is fine for threshing, and farmers are pushing work to completion before the wet weather should set in. Yields of Spring Wheat have been cut down, owing to late frosts, dry weather and hot winds at critical stages of growth. Farmers who have finished their season's work are all busy plowing, and as soon as the rain shall appear will put in their seeds. The outlook is pressed for a very large fall crop to be sown. Conditions in the Wheat market have changed considerable. Formerly exporters were guided by quotations from the Liverpool market, this year all of this counts for naught. With the heavy shortage in our own country, Chicago runs the nation, and our shippers have diverted their business to Eastern channels; instead of loading them on ships are paying more attention to car loading. Shipments of Wheat to Eastern points are growing heavier each day and a few weeks traindoubtless will be a daily occurrence. At the present time the railroads are taxed to their utmost capacity in furnishing cars for Eastern shipping, and warehousemen are economizing for more cars. Fully 2,500,000 bu of Wheat have been shipped East so far this season, with engagements of almost 5,000 000 bu more.

Farmers here have been selling their Wheat north 70c in the interior for club has given them what they demanded and fully 2,000,000 bu of Wheat of this season's crop has passed through the warehouse hands into that of the shipper. Many farmers will not sell at these prices and are waiting for 75c. That they will secure the same is beyond doubt, and it is a point for business men to understand as they have in a rush the same as has been done in the past two weeks. During the past week from 800,000 bu to 850,000 bu of Wheat were sold daily, and still a great deal more will come out of the market, having been stocked up and no place to put the same. Large quantities of Grain bags have been used three or four times in filling the same up for Wheat to be taken to country houses and then unloaded aboard cars. Prices are of a wide margin, for foreign export 76c could be paid; for Eastern shipment the same is 84c at coast points. Bluestem is quoted for Eastern shipment 86c, and heavy sales are made on these figures.

Flour—The Flour market is in about the same condition as the Wheat market. There is a like carrying Coal to Newcastle. Interior mills are all working on large orders for Eastern shipment, and a great many are taxed to their utmost capacity in filling the heavy demand made upon them for quick dispatch to all sections of the East and South. Last year at this time the Orient market attracted considerable attention; this year the Eastern States are calling upon them for bread supplies. The demand from the Orient at present is very light. Japan is well supplied for the next few months and will only be a heavy purchaser in the month of the large stocks recently purchased will be disposed of. China cannot secure Flour at her present quotations, as Wheat is too high for millers to accept lower than $3 40, and $3 50 is wanted for export brands for shipment to Eastern markets. California is buying quite heavily; in fact, larger than one anticipates, forecasting a shortage of Wheat will prevail up North before the next harvest. South America sales are light, but prospects are very good for a large trade. Quotations are without change. Export brands, $3 40 to $3 50; straights, $3 60 to $3 75; Patents, $4 25 to $4 50 per barrel.

PROGRESS OF THE HARVEST.

[From the Winnipeg Commercial, Sept. 24.]

The Canadian Pacific Railroad crop bulletin issued early in the week shows that harvesting had been pretty generally delayed by the showery weather during the preceding seven days. However, in the early districts cutting was actively pushed, while in others the an ount of Wheat which remained to be cut ranged from 10 to 25 per cent.

Estimate.—If the yield are also appended, the most common calculation ranging about 20 or 25 bu to the acre. From Whitemouth came a report of 40 bu and Stonewall 30 bu, among the districts expected to top the average. In the case of the affected worst by rust the yield is put around 12 and 18 bu as a rule, while encouraging reports come fr m several of these that the crop was turning out much better than expected. A very few places the damage is placed as high as 40 to 60 per cent, but these are rare. Light frosts are also reported generally during from 5 to 10 per cent damage, the summary of the whole being that as 15 to 20 per cent It must be remembered, however, that this is calculated on growth which was exceptionally heavy, and a Northern is most commonly quoted as the sample

A few places state that 10 per cent or so of threshing is done, and much more would have been done but for the showery weather which has interfered with the work. With good weather, however, this week, threshing will be general all over the country. The rains do not appear to have been very heavy, being chiefly light showers No lodging of G ain whatever is reported.

FRENCH VIEW OF THE WHEAT SITUATION.

The following views are expressed in a circular published in the *Corn Trade Nets* and is based on French importer, and one which usually holds conservative, moderate opinions: "The Sentember bimonthly report of the United States Government indicates a Wheat crop 100,000,000 bu less than last year's, and it is unlikely that Argentina, India and Australia will have bumper crops this season, like they did last year. It is probable that Argentina may increase its production in per cent. this would go but a little way toward making good the deficit in America, for the European crops are all deficient owing to the drought and thus we have larger requirements than last year's in importing countries, and a large deficit in exporters.

"With these conditions an advance in the price of Wheat appears to be inevitable, and it will be more pronounced if Europe gets bad weather at seeding time, or Argentina and India experience unfavorable conditions for the growing crop. It does not seem impossible that Wheat which now sells at 24s per quarter will one day reach 40s.

"The French Wheat crop has been estimated at 292,000,000 bu, and this is about correct. Such a crop, with the amount carried over from last season, will be about sufficient to provide requirements to end of July, 1905, and in order that France may have normal stocks at the end of the season, imports of 60,000,000 to 70,000,000 bu will be necessary, and if the next harvest is late additional importants will be required. Sailer cargoes which arrive next January-March off coast will be likely to meet a good market at a good advance on present currencies."

The 311 Illinois national banks outside of Chicago had on Sept 6 the date of their last report to the Comptroller of the Currency, a legal reserve of 16 37 per cent, compared with 16.87 per cent by 892 banks Sept 9, 1904.

AUSTRALIAN WHEAT PROSPECTS.

[Sydney Correspondent Dornbusch. Sept. 13.]

The Commonwealth has been favored with a further liberal rainfall, and prospects over nearly the whole of the States are most encouraging The acreage under crop is thought to be slightly under that of last year, but if present prospects are realized the yield will be equal or greater.

The season's shipments to date are 30,000,000 bu, and the Continent has taken 15,500,000 bu, also accounted for. The actual exportable surplus of f a. q. Wheat now on hand is probably not more than 25,000,000 bu, as large proportion of this Grain on hand is bleached or blighted. A good deal of undesirable Grain is offering for export which may slightly discount the value of Wheat being shipped. Shipments to date have averaged 828,000 tons, at an approximate value of £1,610,000. The market closes very strong at 3s 2d per bushel for shipment, and freight at 24s per sailer. Had it not been for the high rates of freight ruling during the past month very considerable quantities would have been exported.

The recent rains have given the young crops an excellent start, and despite the outlook for another record crop farmers evince no disposition to sell the balance of their Wheat unless at full current rates.

THE EGYPTIAN COTTON CROP.

[From Beerbohm, Sept. 16.]

The report of the Alexandria General Produce Association, dated Aug. 31, states that the August as in July, irrigation was satisfactory and the temperature favorable; worms have almost entirely disappeared. Under these conditions the Cotton plant is in spite of some flogs, which, however, were of short duration, have prospered and have partly recovered the damage done in July. Several of our correspondents state that the crop is early: it is made that, have been 20gal conditions, it will be about 15 when picking will be general in most parts of Lower Egypt. To sum up, the information received is more favorable than in July and we can look for a satisfactory crop, at least equal to last year's. At the same time much depends on the continued favorable influences of September and October. In Upper Egypt the crop is good, and picking started some days ago.

THE HOP SITUATION.

[New York Producers' Price Current. Sept. 24.]

Buying of Hops in New York State has continued very lively and the best lots in most all producing sections are rapidly going out of growers' hands. The crops that have been 20gal conditions, it will be about 15 when picking will be general in most parts of Lower Egypt. To sum up, the information received is more favorable than in July and we can look for a satisfactory crop, at least equal to last year's. At the same time much depends on the continued favorable influences of September and October. In Upper Egypt the crop is good, and picking started some days ago.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 38 to 56; cloudy. Northwest—Temperature 48 to 68; general rains. West Temperature 60 to 74; cloudy; light but general rains. Southwest—Temperature 64 to 74; partly cloudy. Ohio Valley—Temperature 54 to 74; partly cloudy.

Indications are for showers and thunderstorms in the forenoon, but probably clearing west of Missouri River to morrow. Hot wave will break west of Missouri River to-night and over entire trans-Mississippi region to-morrow.

ITEMS OF GENERAL INTEREST.

The Illinois Auditor of Public Accounts has issued a permit to organize the Old State Trust and Savings Bank at Desplaines, Ill., with a capital stock of $25,000.

It is the opinion of some well informed observers that a 2 per cent dividend will be declared by the Ontario and Western at the directors' meeting next Monday.

Cattle received at Chicago last week averaged 22 to the car load. Hogs averaged 68 and Sheep 205. Stock of all descriptions was thinner than the previous week.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to Sept. 10 have amounted to 232,000 bu, against 456 000 bu in the previous year, and 348,000 bu in 1903.

The annual report of the Ohio Mine Inspectors' Department for 1903 shows the Coal output was unprecedented, being 24,573,266 tons, a gain of 643,476 tons over the previous year.

Application has been made to the New York Stock Exchange to list $2,206,0 0 general consolidated first mortgage 5 per cent bonds of the Chicago and Eastern Illinois Railroad Company.

Application has been made to the New York Stock Exchange by the Atchison Railway Company to list $650,0 0 additional Eastern Oklahoma division first mortgage 4 per cent bonds.

The directors of the Lake Erie and Pittsburg Railroad met at Lorain, Ohio, Saturday, and decided to increase the capital stock from $100,0 0 to $10 0,000. The road will be double track from Lorain to Youngstown.

The directors of the Illinois Brick Company have declared a dividend of 2 per cent on the preferred stock, the same payable Oct. 15 to stockholders of record Oct. 5. Books close from Oct. 5 to Oct. 15, inclusive.

Buenos Ayres *Herald* of Aug. 18 says: "Almost all the daily and weekly papers published encouraging reports as to the state of the crops and in all the agricultural regions the prospects are considered excellent for the coming harvest."

The Greene Consolidated Copper Company has declared its third dividend of 3 per cent for this year. The payment, which is the eighth of the company, is due Oct. 28. Total disbursements in cluding this dividend will have amounted to $1,429,600.

The shipments of Flax Seed from India from April 1 to Sept. 10 amounted to 14,500,0 0 bu (Calcutta 8,808,000 and Bombay 5,692,000), against 12,812,000 bu last season (Calcutta 8,336,000 bu and Bombay 4,576,000 bu), and 8,810 0 bu in 1902 (Calcutta 6,092,000 bu and Bombay 2,718,000 bu).

The Rockford and Interurban Railway Company has anticipated the 1 per cent quarterly dividend on the capital stock of the company, due Oct. 1, 1904, and checks have been mailed to the stockholders. This company pays regularly 4 per cent annually in dividends on its capital stock.

The United States Marshal has taken charge of the Tennessee Coal, Iron and Railroad Company at Colorado City, Colo., under an order of Federal Judge Hallett, who has adjudged the company bankrupt. The action was taken on application of creditors whose claims aggregate over $2,000,000.

The directors of the Bankers' Trust Company of New York have declared an initial dividend of 1½ per cent, payable Oct. 1. The company has been in existence less than two years. Its total assets at the close of business on June 30 were nearly $3,000,000. The net profits of the company to date are reported at about $150,000.

The American Sheet and Tin Plate Company of the United States Steel Corporation has decided to remove the Star Tin Plate plant from its present location at Pittsburg to New Kensington. The Steel corporation is concentrating at New Kensington a number of the Sheet and Tin Plate plants so that it may be able to further reduce operating costs and cost of production of both Tin Plates and Sheet Steel.

It now seems that the controversy between different factions of the New York, Ontario and Western railroad holders is to be settled on a settlement. The directors have decided to declare a dividend on the common stock, which action will terminate the voting trust. It is understood that this will be one of the provisions contained in the financial plan which will be submitted to the stockholders for approval next Wednesday.

The Union Iron works of San Diego, owners of the properties of the former United States Ship Building Corporation, was sold at public auction, Monday, by order of the Federal Court of the district of California. The property was sold to a party representing the reorganization company of the new ship building company, 70 per cent of which is owned by Charles M. Schwab. His bid, a ten million dollar one, under the terms of the sale, of $1,700,000, was accepted.

Subscriptions are coming in fast to the South Side Elevated Railroad Company's, Chicago, first $6,000,000 of its new 4 0 0 bonds now on sale at the office of the Illinois Trust and Savings Bank that the issue will be oversubscribed. In this case the difference will be made up in the allotment of the bonds to the small holders of stock, the desire being to distribute the bonds as far as possible to the investors who will hold them permanently. There has been little trading in the rights to subscribe to the bonds.

A New York firm says: "The preliminary figures have been printed of the Louisville and Nashville transactions for year ended June 30 last. They show a surplus over dividends of close upon $3,700,000, so that the official net earnings for the year were 11 per cent on Louisville and Nashville stock outstanding. Dividend rate is at present 5 per cent, dividends being declared in January and July. Reports have been current that the dividend rate might be raised in January from a 5 per cent basis to 6 per cent."

The bondholders and creditors of the American Cotton Company held a meeting at New York, Friday, and adopted a plan for the raising of $300,000 to temporarily continue the operations of the American Cotton Company's plants pending the reorganization by the stockholders and creditors. It is proposed to form a separate company for the handling of the Cotton in excess of the American Cotton Company's ginning and baling plants, and also, if the court permits, to operate some of the presses formerly operated by the company.

With regard to the scheme of the Rock Island company to build and operate electric railroads in and about Denver, Col., President Trumbull says that the plan has been contemplated by Colorado and Southern for some years, and will be put in effect, in part, immediately. Under the franchise the new company gets terminal and other rights in Denver which the Rock Island is not present, but which protect the interests of the present road. The roadway of Colorado and Southern will be used in the electric service.

Bonbright advises of Sept. 24 state: "Since our last report (Sept. 8), drouth has been broken in those provinces where it had prevailed thus far: heavy rains have fallen and prospects are decidedly better. In Saskatchewan and Gulgeary however, more rain is generally needed. Picking has commenced in the northerly sections. Rainfall during the week at Colaba 2 inches, at Byculla 2 inches; rains the beginning of the season 34 and 48 inches respectively, against 65 68 and 74.20 inches last year."

Mail advices from Vienna, dated Sept. 10, state: "Rain dry weather has prevailed this week, so that the navigation of the rivers is again closed. Field work in some of the provinces has also had to be stopped in view of the dry condition of the soil. Public is causing no uneasiness, however, as the season is still early. Although Continental advices were quiet during the week, the situation here has shown firmness. Holders in Hungary once again show no disposition in spite of the danger threatening of importation of foreign Wheat. On the spot millers showed little inclination to secure pri e, however rose nominally 20 heliers during the week in consequence of the restricted offers."

The *North British Agriculturist* of Sept. 14 says: "During the past week the weather has been fairly favorable for the harvesting of crops, and progress has been made with the ingathering of the crops in the earlier districts, and with the reaping in the later districts. Generally speaking, the crops have ripened rapidly, and when weather was good and when brought to the test of the threshing-floor the yield of Grain is proving fairly satisfactory. Turnips continue to look well, and wherever the plants got away at the first the crop is on a very good one. Potatoes, too, have been doing well, and in the earlier districts they are beginning to dig, and no complaint of disease appears to be heard about disease, but the damage done by the blight does not appear to be extensive. Pastures are keeping fairly fresh for the time of year."

The *Wall Street Journal* says: "Interests in Iron and Steel circles are watching closely developments in the Republic Iron and Steel Company. It is predicted that important changes will be announced before long. It is said the company will either pass entirely under control of Carnegie and larger interests or will be so dominated through stock acquisition that it will pass from the rank of independent concerns. The affairs of the Republic Iron and Steel Company will not long be in the position to menace pool schedules in the way such Iron and Steel cannot be offered pat, but it may be available by the time the stockholders hold their annual meeting. The fact that the Republic Iron and Steel Company is actively bringing on a new plant for producing new mills at Youngstown, Ohio, is looked upon as one step in its campaign to sell. The company proposes to expend $ 500,000 in Youngstown in the construction of a wire mill, a tube mill and a sheet mill. In each of these lines, once it is producing, it could disarrange schedules and compete with the United States Steel Corporation."

In order to hold its Western wire nail trade from the encroachments of its trade enemy, the United States Steel Corporation, the Colorado Fuel and Iron Company is reported cutting prices to the minimum. The Steel Corporation is in a position to carry on the war for some time because of its forethought in rushing from 20,000 to 30,000 tons of finished material to its warehouses in Denver while the freight from Chicago was low instead of 72c, the old and present schedule. Once the surplus supplies of the American Steel and Wire Company, the selling corporation subsidiary, which is conducting the war, are exhausted, the Colorado company will have a decided advantage. It can make and sell profitably wire products in its territory below the Steel corporation's level. The latter is compelled to pay the regular long haul freight on products sold in Colorado Fuel's competitive territory. It is expected that the price war between the Steel Corporation and the Colorado Fuel and Iron Company will never be allowed to pass beyond the skirmish stage, because the predominance of Standard Oil interests in each precludes the possibility of either being permitted to seriously harm the other.

*Dornbusch's Novo*rossisk correspondent, writing under date of Sept. 4, says: "Supplies continue very ample and will no doubt further increase during the next few weeks. Barley and Asimo Wheat are now the chief articles arriving here, while supplies of Hard Wheat will become important later on. The quality of the new Hard Wheat is satisfactory. Prices have changed lately very little, but the tone of the market is firm, and many of the inland traders instead of promptly realizing their what they can on the bazaars prefer to store their Grain at our port in order to await better prices. They find, however, two important obstacles in their way: first of all the want of available money, those who have not got any, and warehouses or closes (in the elevator) in time, cannot find such now at our port. The other difficulty is the impossibility of mortgaging such stocks at their value, as the Russian banks and foreign and other banks as well as the railway company (the latter being the owner of our elevator) readily advance money upon stocks on a comparatively low rate of interest. Now not only this rate is higher, but in consequence of the general need of money called forth by the war, banks and bankers have also fixed a maximum of per cent value of the Grain, while up to now they used to give up to 80 and even 90 per cent. Thus most of the traders possessing but small capitals can store now for speculation only very modest quantities."

A Sioux City man says: "Full crop of Corn made in Iowa. Send along your frost. Iowa good for 300,000,000 bu. Market will get 100,000,000 bu on account of light Cattle feeding."

The Secretary of the Wisconsin Board of Agriculture is credited with an estimate of 35,000,000 bu of Corn for that State—about 6,000,000 bu less than indicated by the Department of Agriculture.

The proportion of the Bank of England's reserve to liability is 57.50 per cent, against 58.85 per cent last week, and compares with a decline from 53⅞ per cent to 43⅞ per cent in this week last year.

The Secretary of the Missouri Board of Agriculture is credited with an estimate of 175,000,000 bu of Corn for that State—about 17,000,000 bu more than indicated by the Department of Agriculture.

Cotton in New York averaged lower. Cables were easier. Crop reports are being reduced. One authority says 11,000,000 bales. Despite the news realizing sales forced a decline. Closing prices were 12@18 points lower.

Stocks of Wheat in store at Fort William, Port Arthur, Keewatin, Winnipeg and interior country points are approximately 329,000 bu, against 587,000 bu a week ago, 1,200,000 bu a year ago, 875,000 bu two years ago, 1,015,000 bu three years ago, 2,560,000 bu four years ago, and 2,915,000 bu five years ago.

Local Securities averaged lower. The only firm spots were Biscuit common, with an advance of ⅞ and Swifts. Weakness, with moderate trading, was the feature of the general market. Box Board preferred lost 1¼. Carbon preferred lost 1, City Railway 4 points and Metropolitan Elevated preferred declined 2 points.

Stocks in New York were irregular and Western Railway shares closed mostly lower, or only a fraction higher. Coalers were active. Lackawanna advanced 15 and reacted 7 points, and others were up ⅛ to 3 points. Steel was sold fairly by large holders and, after ½ advance, broke 1 point. Money 2 per cent.

The Cincinnati *Price Current* reports the packing of the West for the week at 300,000 Hogs, compared with 310,000 for the week previous and 370,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 11,350,000 Hogs, compared with 11,540,000 for the corresponding time last year—a decrease of 190,000 Hogs.

The Cincinnati *Price Current's* weekly summary says: "Favorable progress in most sections in Corn ripening, and crop position bettered. Will necessarily be considerable soft Corn, probably not exceeding that of last year. Reasonable to expect lower than present Corn prices with season's advance, but low prices not likely. World's Wheat surplus and requirements are nearly balanced. Will probably make present prices appear high before many months."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—There is a good demand and market is firm. Indications favor improved foreign business, bids being the highest so far of the season.

WINTER WHEAT—Was rather slow, with the demand indifferent and feeling weaker, and Hard Wheat about 1c lower. Soft Wheat scarce. Millers bought 25,000 bu mixed lots. No 2 Red in store quotably $1 11⅞@1 13⅞, and fresh arrivals free on board ranged at $1 15@1 16. No 3 Red fresh arrivals free on board sold at $1 12, and range 1 at $1 08@1 14. No. 4 Red sold at $1 01@1 12, and No Grade Red at $1 02. No. 2 Hard fresh arrivals free on board quotably $1 10@1 13. No. 3 Hard fresh arrivals free on board quotably $1 04@1 10 and sold at the river at $1 08@1 10. No. 4 Hard at the river sold at 94c@$1 00¼.

SPRING WHEAT—Offerings small and demand moderate. Market weaker. No. 1 Northern fresh arrivals free on board quotably $1 18@1 20 and No. 2 Northern fresh arrivals nominally $1 16@1 17. No 3 Spring nominally $1 05@1 15 for poor to very choice. No. 4 sold at 80c for common, to $1 02 for fair, and $1 15½ for hard variety. No Grade Spring at 76c.

REGULAR WHEAT—Just a fair amount of interest centered in Wheat, the trade being mainly of a professional character and moderate in volume. The feeling was somewhat unsettled, with the close ⅝@¾c lower for December and 1c for the May. Situation at the start was firmer, influenced chiefly by the advance at Paris, but offerings soon increased, the selling being led by local warehouse interests and the Northwest. Receipts in the Northwest were 127 cars ahead of last year and primary receipts were 248,000 bu larger. At the decline the demand improved, values being helped by the cash news from the Southwest and reports from Winnipeg that the largest mill in Canada was buying all the Wheat in sight. Realizing, however, followed and prices again declined. St Louis reported the sale of 25,000 bu No. 2 Red and 25,000 bu No 3 Red Wheat to go to outside mills, and Kansas City reported millers there from all directions and wanting Wheat. Minneapolis wired Flour demand better and foreign bid 9d higher. Minneapolis shipped 95,000 bu Wheat and 77,000 brls Flour. Kansas City reported 75 per cent of crop moved in Southern Kansas. Colorado and California buying Wheat as far East as Larned, Kansas. Milwaukee wired that Minneapolis was flooding that market with samples of No. 4 and rejected Wheat which can not be sold up there. The *Price Current* reported the world's Wheat surplus and requirements nearly balanced. Liverpool quoted spot steady to ¼d higher and futures ⅛d better. London ⅛@¼d lower. Paris up 2¼c. Berlin ¼c higher and Buda Pesth was ¼c better. Map showed general light rains in the Northwest. Duluth wired. "Cash situation here considered bad; no bids East for Wheat and apparently no inclination to buy anywhere." Stocks there have increased 750,000 bu the past three days. Minneapolis stocks increased 215,000 bu past five days. Minneapolis wired. "One elevator company just offered 200,000 bu No. 1 Northern at 2c over December to arrive. This is 1½c less premium than ruling yesterday. It was offered to a large milling concern and they would not buy it." Flour output in the Northwest this week was 506,000 brls, against 429,000 brls one year ago. Winnipeg had 179 cars in with 15 cars No. 1 Northern, against 510 cars same day in 1903. Kansas City and St Louis received 238,000 bu, last year 251,000 bu. Kansas City expects 142 cars to-morrow. Argentine shipments estimated at 800,000 bu. Clearings were small, and 5 boat loads accepted at seaboard. Receipts at Duluth 321 cars and at Minneapolis 475 cars, a total of 796 cars, against 905 cars yesterday, 843 cars a week ago, and 619 cars last year. Local receipts included 59 cars Winter, 9 cars Spring and 3 cars mixed, a total of 71 cars, against 47 cars last year. Included in the above was 1 car of contract grade. There were 18 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 63 cars. Withdrawals were 1,000 bu. The receipts at Western points were 1,250,344 bu, against 1,018,060 last year. At Eastern points 56,815 bu, against 211,512 last year. Shipments from Western points were 447,289 bu, against 958,543 last year, and from Eastern points 3,200 bu, against 176,814 bu last year. Shipments of Flour were 11,122 brls. Exports of Wheat in Flour were equal to 57,699 bu.
